Dear Tom,

We've looked for the Great-tailed Grackles twice (Sun & Tues) and haven't seen them again. There's a lot of good habitat & most of it isn't easily accessible. We'll keep looking around the area.

We enjoyed birding around Amana Saturday. Thanks for showing us the Purple Gallinule & Amana woods. After you left we saw a Canada warbler, Turkey and an Olive-sided flycatcher.

I don't have much to report this time. I've birded mostly with Tanya, so she'll send in the reports.

✓ Loren & I had 2 piping plovers at the Settling Pond on 5/22.
