

FIELD REPORTS FORM for seasonal reports of Iowa birds

Summer 1984

Thomas H. Kent, 211 Richards St., Iowa City IA 52240

Other observers: Carl Bendorf, Tom Staudt, Rick Hollis

I was only out 3 times during the period. The Coralville Res. was very high--within 1 ft of the top in early July and only down 9 feet by the end of July. Amana L. was low in July with good mud flats. I have included all shorebirds sightings to show the pattern.

* = most significant

SPECIES	NO.	DATE	LOCATION	OTHER OBS.
White Pelican	1	6/3	Union Sl.	CJB, TJS
D-c Cormorant	1	6/3	Union Sl.	CJB, TJS
