

7-29-85

Mr. Dimmone

I am enclosing a  
slide of a dark eyed Junco  
that you may keep.

As you can see he is  
mottled on top of head + down  
the back of neck. With  
white eye rings. Taken  
last spring (85)

Blue bird nest successes  
seem poor to me. With  
less than 25% of nest starts  
60% of hatched eggs failed  
Most I think were killed  
after most turtles were sprayed  
We have 150 boxes out with  
1/2 completing maturity so far

Sincerely Yours  
Marion Brewer
