

Pleasantville La  
April 5, 1977

Dear Nick; I hit the 200 Snowy Owl mark today. 3 more reports one last Dec, one in Jan. and one from a Conservation Officer who had watched one for quite a while on April 2. So that's the late date, none in Mar.

We now have White Pelicans, 6 of 'em, on Lake Red Rack. At least 3 in and 1 a. Bald Eagle. I still think the lone adult is the mate of the one shot, a female, here in Marion County about 2 miles below the dam near Harvey, Sick Trash to shoot an Eagle.

Sincerely,  
Gladys Black

PS One more County - Dallas, making it 75 counties. Then 1 in Palk and 1 more in Calhoun County the April 2 one.
