~~White-rumped Sandpiper - 5/15 - Swan Lake~~
Stilt Sandpiper - 5/15 - Swan Lake
Forster's Tern - 5/1 - Cedar Lake (4 birds)
Cliff Swallow - 5/14 - First observed building nests on the under-
structure of 12th Avenue Bridge in Cedar Rapids. This is a
NEST first. A last check showed 175 to 200 nests. Cliff Swallows
SITE are nesting on the cliffs at the Palisades State Park on cliffs
on the south side of Cedar River. This is an old colony.
Mockingbird - 4/30 and 5/4 - Cedar Rapids
Blue-gray Gnatcatcher - 5/4 - Near Alburnett
5/1 - Nesting in Palisades Kepler State Park
Doc. ~~Spragues Pipit - 5/1 - Near Ryan (See enclosed information)~~
Bell's Vireo - 5/15 - Coralville Refuge Area
Cerulean Warbler - 5/8 - Palisades Kepler State Park; also near
Stone City
~~Connecticut Warbler - 5/16 - Near Alburnett~~
Yellow-headed Blackbird - 5/22 - Near Alburnett
Orchard Oriole - 5/11 near Alburnett
5/23 - MacBride University Campus

No Loggerhead Shrikes nor Golden-crowned Kinglets observed; fewer Bluebirds, Phoebes and with the lack of water areas, few water birds of most species were seen.
