## Bird Field Report.

<u>Bird</u>	<u>Date Seen</u>	<u>Number</u>	<u>Location</u>
<u>Lupland Songspur</u>	Dec 4, '77	one	Boone County Section 33 Home feeder
	Dec. 5, '77	one	
<u>Hairy Woodpecker</u> (female)	Jan. 21, '78 (She now comes daily.)	one	Same as above
<u>Snow Buntings</u>	Feb. 2, '78	three	Same as above
<u>Snow Buntings</u>	Feb. 3, '78	nine	

Although one is accustomed to seeing flocks of prairie horned larks in the winter, still we have been seeing unusually large flocks in our fields beginning January 31 and continuing. Our neighbors' cattle and hog lots seem to be particularly attractive to them. On three different occasions we have had individual larks come to our home feeder.
