Dear Jim:

Here is my summer report -
rather brief since I was away 6/7-30.
I wanted for calling about the Mt.

Plowen. Elton I had the only
record prior to this month.
I would have liked to hear about
the Rufous Hummingbird which
I was shut out on several years
ago also.

When is the committee (Pub.)
going to meet?

See you in Waterloo.

So long,
Pete
