

RONALD HARMS, D. D. S.
LAURENS, IOWA 50554

30 May 86

Another sighting:

Connecticut Warbler - netted, banded,
photographed.

Judy Carlson came in and
independently identified it.

We had a Mourning warbler in
hand also to compare.

The eye ring on the Connecticut showed
well in comparison to the lack
on the Mourning warbler.

Ronald Harms

28 May '86

Spring bird report:

- 04-24-86 Rufous-sided towhee (banded)
04-24-86 Spotted towhee (banded, photographed)
still here 26, 27, 28, and 29 April.
