SUMMER 86

PURPLE MARTIN: Total numbers in the area about the same as last year, I fledged 252 from 75 nests here.

EASTERN BLUEBIRD: This year was even better than last year which was the best in 15 years. Close to 150 fledged from over 40 nests on trail.

PINE SISKIN: 1 at my feeder almost every day until July 8th.

Good Birding,

Darwin (Dean) Mosman
