

4/25/86

I received a call from Bill Rhoads,
3088 Circle Drive NE, Cedar ~~Rapids~~ Rapids.

On Monday, 20 Apr 1986 he saw a male
House Finch at his feeder with male Purple Finches.
He described the bird as orange, slender, with solid
brown wings, and streaked sides. He says he is
experienced with feeder birds including Purple Finches.

I think this is the first Cedar Rapids record.
