

HOLLIS

Fall 1986 Field Report
Richard Hollis
3351 Lower West Branch Rd.
Iowa City, IA 52240

* Red-necked Grebe 19 November see attached documentation

Common Nighthawk---either migration was off, or I missed it, but my peak this Fall was only 14 birds, Iowa City 9/15

Chimney Swift 10 October last of season downtown Iowa City

Ruby-throated Hummingbird 6 September last adult male Hickory Hill Park, Johnson Co.

" " 17 October last individual Iowa City, Johnson Co.

Blue Jay migration thru E. IA seemed to run from 8/17 to about 10/5. The migrants clearly seemed to have cleared out by 10/19

Hickory Hill Hawk Watch
10 am-Noon
28 September
Johnson Co, IA

44 Broad-wingeds
1 Turkey Vultures
5 Sharp-shinned
5 Buteo sp.
2 Acc. sp.
1 Kestrel
2 Osprey
1 Peregrine- good quick look at facial pattern as bird flew nearly overhead at 30 or so foot. Facial pattern was plainly visible on this huge falcon. Among the others present at time: Carol Thompson, James Huntingdon, John Cordell.
