SPECIES	NO.	DATE	LOCATION - COMMENT - OTHER OBSERVERS
Blue Grosbeak	1	June 10	♂ - shimek S.F. - (Croton Unit) - BP This was the same spot where we saw one 2 summers ago. Bob Cecil says this is $\frac{1}{2}$ mile or more ^{more} south on same road as where Jim Fuller saw a ♂ + ♀ Blue Grosbeak this summer. This was a large, dark blue bird with brownish wingbars and it was twice the size or so of an Indigo Bunting. Saw it with Binocs and a scope on overhead wires 30-40 yards away. Then it flew and landed behind the car on barbed wire 10 yards away. Had real good looks - no question of its identity.
Lark Sparrow	1	June 3	Saylorville - across from Jester Park
" "	2	July 2	Waubonsie S.P. - (Fremont Co.) - BP
Henslow's Sparrow	3	June 9	3 singing ♂'s at least - (Van Buren Co.) - BP (S.+W. of Lacey - Keosauqua S.P.) - (documented)
[June 10 - in both SE Iowa + NE Iowa - We saw or heard 14 species of warblers]			
Scissor-tailed Flycatcher	1	June 15	E. of Raymond - (Black Hawk Co.) - BP Beautiful adult - upper parts were pearl gray, underparts whitish, pinkish sides, reddish axillaries seen in flight, very long black + white outer tail feathers as long as the rest of the bird. Magnificent Bird!
<hr/> Beth Proescholdt Report - (with Phyllis Harris - Union)			
Veery	2	June 1	Ledges S.P. - (Boone Co.) - PH
Yellow-thr. Warbler	1	June 1	Ledges S.P. - PH
Cerulean Warbler	1	June 1	Ledges S.P. - PH
Kentucky Warbler	1	June 1	Ledges S.P. - PH
