Jim,
Many thanks for promptly sending the Iowa summer report. Unfortunately, you forgot to include the list of observers. Will you please send me this list as soon as possible.

I have several other quick questions. Where are the IPS ponds? (a county or nearby city would be fine). Your summer report mentioned 6 Bald Eagle nests with 4 in the northeastern counties. Where were the other two nests? A precise location is not necessary but which portions of the state were they located.

I will be greatly appreciative for your prompt response to these questions.

Sincerely,
Bruce Peterjohn
