STATE CONSERVATION COMMISSION - DES MOINES, IOWA

8/14/79

Priebe
late

TO Richard Bishop DATE 10 July, 1979

FROM Carl Priebe

SUBJECT : Bird sightings

Rich,
Following is a list of bird sightings I have made that should be forwarded to the proper people.

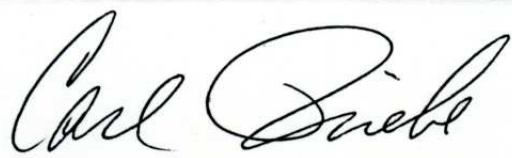

6-21-79-----8 upland sandpipers feeding in a corn field that had apparently been plowed for the first time earlier this spring. There was a considerable amount of overturned sod between the rows of corn.
NE $\frac{1}{4}$ Sec.21 Iowa Township Wright County

1 upland sandpiper in a wet area, unplowed, on a corner of a corn field. The grass had recently been mowed.
SW $\frac{1}{4}$ Sec.9 Iowa Township Wright County

6-27-79-----1 upland sandpiper flew across the road and landed in a corn field. It was apparently feeding on some type of insect in the field.
NE $\frac{1}{4}$ Sec. 4 Portland Township Cerro Gordo County

7-5-79-----1 Adult Florida Gallinule and 6 young feeding along the county grade at Ventura Marsh.
NE $\frac{1}{4}$ Sec.19 Clear Lake Township Cerro Gordo County

Sincerely,
