

May 20, 1987

Records Committee and Mr. Myers;

Please consider these documentations for Iowa Bird Life. This is the first report I am submitting since I have only lived in Iowa for about a year and it has taken me some time to determine where to find birds. I have birded all over the eastern U.S. since 1970 and consider myself a decent birder. I have gotten to know Steve Dinsmore and Hank Zalatik if you need references.

I felt fortunate in locating two unusual ducks at DeSoto Bend NWR on the same day March 14, 1987 while returning from a Sandhill Crane Trip in central Nebraska. Coincidentally both birds were familiar to me from my experiences along the great lakes. Please consult the details enclosed.

If there is anything else I can provide, please notify me at my home or office.

Sincerely,

Andrew S. Fix ovrm
