

## SPRING 1987 Field Reports.

Following Brief reports.

TURKEY VULTURE - March 27 - 2 soaring overhead.  
at MILE 9 of I-235 (3:45 PM)

OSPREY - One at Home Pond Lamoni, Jeff Livingston.

UPLAND SANDPIPER - 3 observed. 5/6/87 3 mi NW Lamoni

→ Something is wrong. - This is only observation of Uplands this spring. For last 30 years I have seen & heard them almost daily from middle of April on. Are they scarce at other locations?

WOODCOCK - One observed on nest about April 20 in NINE EAGLES PARK. Within arms length and not disturbed for some period of time. - By Arlidine Nelson, wife of Dr. Norman Nelson M. D. Lamoni

Dickcissel - Present in usual numbers.

Bobolink - Several pairs with nesting behavior  
3 m. N.W. of Lamoni.
