

15 August 1988

Dear Bruce,

Hopefully my summer report arrived in time for you to work on this past weekend. I mailed it on the 10th. As is typical, I had a few things dribble in that I could add to it and are enclosed here.

1. Documentations for the White-winged Scoter and Red-necked Phalarope.
2. I received a report of 2 pairs of Short-eared Owls in Emmet County (NW Iowa); one of the pairs nested and produced 3 young. This is one of the few recent nesting records for the species in Iowa. source-Bob Moats, Estherville
3. I also had reports of family groups of House Finches in Waterloo. source-Mrs. Opal Uher, Waterloo

Hope these aren't too much of a nuisance.

Best,

*Jim Dinsmore*

*JD*
