Dear Jim:

I just completed some reports for the USF&WS who want info on bird species of management concern. I am enclosing copies of these reports for your interest. I pulled info from BBA and NRCP files for most of it. I also photocopied info from your Iowa Birds book, which I sent along with the reports.

If you see mistakes I should know about, please let me know. Also, if you have (or know where I can get) info on 1988 nesting harriers and short-ears, I'd appreciate an update. Thanks!

Happy holidays to you!

Sincerely,

Bruce Ehresman
