26 April 88

Dear Robert,

This is my list of Spring birds so far:

March 11 Woodcock

March 28 Hermit Thrush

March 28 Brown Creeper

March 30 Red-shafted Flicker, seen with
Judy Carlson while we were catching +
banding Kestrels.

March 30 Swanson's Hawk, seen with
Judy Carlson etc.

April 25th Long Eared owl at Judy Carlson's.
She called me mid-afternoon to come out to
confirm her sighting. East of town.

April 25th Short Eared owl west of town.
A farmer flushed it in his "government" ground
and it hung around.

these are some interesting dates for you to work with!

Ronald Harms
