Laurens IA 50554

These are recent sightings at Pickerel Lake in Buena Vista County. I do have pictures of each. I'm sending you the slide of the imm. golden eagle as I have others.

10-18-88	banded double-crested cormorant
10-21-88	adult golden eagle
10-25-88	imm. golden eagle
11-7-88	peregrine falcon - the under wings were clear on him - no dark atmpits

also we noted the facial mask.

I do get out to Pickerel  
Lake most days and most often

I do get slides of everything  
I see.

Sincerely  
Kathy Bauer
