Carol:

Thanks for the Princeton map & note. It's amazing to find ~~one~~ here in some bird habitat that extends more than 3 miles! I don't think we should put those block boundaries or half-sections. How 'bout as on the enclosed map. We walked a little further north along the rt. tracks, but I don't think we called any birds there. The bridge on the highway would still be on the line. If you ~~the~~ have other thoughts, let me know. There were my glasses they tried to give me at Scott Co. Park! I must have dragged 'em out when I emptied my front seat. I got them in yesterday's mail.

Jim
