

Mudum Field Notes - Summer 1963      Invality      T.W. Kent

Weather      June - Driest in history with only .05 in. rainfall  
temp - above normal - daily highs  $6.2^{\circ}$  above

---

July - Rainfall 8.7 in.  
temp - normal

---

Aug - wetter & cooler just 2 weeks

The nesting season - very normal - very little to report.

June 9      orchard oncoles      nesting ?

July 4      Swan Lake      40-50 young Wood Ducks

" 7      Henslow's sparrow (Dr Vane) Williams Prairie  
(west end County)

9 & 13      "      "      Kents & Sandus

(Did not get in to look for nest :)

MORE      Short-billed Marsh Wrens      (Reservoir Area)

Red-headed Woodpeckers      (20 on a trip)

+ Flickers

How was A.O.U. ?

Have you an extra copy of last IBL

+ Bird Banding - for last in England ?

was up in Lake of Woods area in June -

nice country - nests of Sapsucker, Waxwing & Kingfisher

not too many birds -
