

4/22/92  
President BPR

Dear Tom,

I must send a correction on my reported Redtail count as listed in IBL, Winter 1992 - in the realms "if it seems too good to be true, it probably is"!

561 was the total Redtail count for the period I observed, from Sept 11 - Oct 30, 1991.

The largest Redtail counts were

Sept 18 -	44
Oct 5 -	203
Oct 6 -	142
Oct 30 -	66

+ with other scattered sightings bringing the total to 561.

(over)

I just want to set the  
record straight.

Have a great Spring!  
Beth Praeschildt
