Dear Dr. Kent,

I know this report is late, but I completed it as soon as possible. I guess I became too involved in trying to collect the funds pledged to our Birdathon. Since this is late, I will send a copy of this report to Dr. Dinsmore, since he covers the summer field reports.

These observations were made as part of Loess Hills Audubon's 1992 Birdathon (9 and 17 May) and the North American Migration Count (also 9 May). If NO date appears before a listed species, then that species was observed on BOTH dates.

I apologize for the lateness of this report.

Sincerely,

Randall D. Williams Loess Hills Audubon Society 6105 Pine View Drive Sioux City, IA 51106
