5/19/92

Dear Mr. Fuller,

On May 3, 1992 I first saw the shrike in the houseyard and orchard.

I would see it each day in same vicinity. On May 16, 1992 I found the shrike's nest, female incubating seven eggs.

Mrs. Clarence M. Yoder

I live $\frac{1}{4}$ mile near the Iowa-Johnson County line in Iowa County.
