SPECIES	NO.	DATE	LOCATION - COMMENT - OTHER OBSERVERS
Prairie Warbler	1	June 9	Shimek Forest - (Lee Co.) - ^(up on top clear cut area - growing up) RW heard its song at the clearing → a "zee zee zee zee zee zee zee" going up - somewhat like a field sparrow's song. Eventually, we got good close looks - green backed warbler, yellowish all underneath, black stripes on its yellowish sides, black stripe through its eye and below its eye. Watched it sing for quite a while. Did not see chestnut marks on back.
