Dr. James J. Dinsmore
4024 Arkansas Dr.
Ames, IA 50010

Dear Dr. Dinsmore:

Enclosed is my summer field report. I do not get out as much during the summer doldrums but LaVonne Foote and I found several early shorebirds in July.

I also wanted to contact you about the Adult Nature Weekend at the Lakeside Laboratory on August 21-23. That weekend does not work well for Nancy and I since Nancy starts back to school that Friday, but we would like to attend your birding session on Saturday morning. We would like to meet you and would be happy to offer our assistance in the field since we know the area very well. I will also contact the U of I.

I have been involved with the Lakeside Lab study group and I met Neil Bernstein there this summer. We discussed the collection of bird skins at the Lab and I would like to talk with you about it as well.

Dickinson County has a good variety of birding habitat, and land acquisitions over the past several years have enhanced and improved the area. I am always glad to have other birders visit this area of the state and I look forward to you being here.

Sincerely,

Lee A. Schoenewe
