MESSAGE

AS usual, I'm late sending bird sightings in - hope its not too late to be useful. I Filled out the red-necked grebe documentation some time ago on a BAA Form, since I couldn't find the IOW forms. Let me know if you need more details.

Also of interest (at least to me) were cattle egrets seen. I saw 12 adults & 1 subadult (imm.?) in a pasture in Emmet Co. T98N, R34W, Sec. 32, NE $\frac{1}{4}$ on 6-8-93. On 7-13-93, my son Drew and I saw ~26 cattle egrets flying north over Lincoln Way & Franklin St. in West Ames.

On 6-10-93 Neil Bernstein reported 2 ospreys at Marble L. in Dickinson Co.

On 7-8-93 I saw 4 young harrriers (age ~10-14 days) in nest on Anderson Prairie (Emmet Co.)

HARRIER pairs were also seen in SW Emmet Co. and NW Palo Alto Co. but no nests found.

No barn owl nests known.

Active bald eagle nests known to date - 24^P SIGNED

Bruce Ehesman
