Seasonal Report Fall 1993

Page 1

Three lines of comments on the Seasonal Report can go here.

12/2/93
Records: 2

ITEM	COMMON NAME	NUM	DATE	LOCATION	HABITAT
------	-------------	-----	------	----------	---------

1	Cattle Egret	18	10/12/93	Monona Co., IA	
---	--------------	----	----------	----------------	--

2	Merlin	1	9/28/93	Cherokee Co., IA	
---	--------	---	---------	------------------	--

Seen at the edge of Cherokee. Kestrel sized, dark, with pointed wings. The bird was chasing sparrows. It had a steel blue gray back and wings on the top and dark vertical bars on the front with a heavily barred tail. No distinct facial pattern was seen.

*I'm trying this with my Bird Brain program
for Macintosh. The next one will be better I hope
Dick*
