Swainson's Hawk	1	April 17	Greene County - BP
Rough-legged Hawk	2	March 6	^(Light-phase birds) N. of Liscomb - (Hardin Co.) - BP - (only ones seen all winter or spring)
Merlin	1	April 17	W. of Liscomb - (Marshall Co.) - BP Perched in tree at first - Barred undertail and barring on breast. Took off. Small falcon shape. All blue back and fast direct flight.
Peregrine Falcon	1	April 10	Otter Creek Marsh - RW + (also Roger Hait and Dean Meser from Cedar Rapids) (adult - large falcon shape - light slate blue-gray topside black sideburns - quite white underneath) Gave us a spectacular show. Saw 4 times. After ducks that were there, missed, & then started soaring and gaining elevation. Last time - it shot by near us and zoomed after teal in a steep. It didn't flap a wing. It sounded like a jet going by. It missed the ducks but was something awesome to have experienced.
