Dear Ross:

Our eastern trip was great! Wanted to report one Iowa record that may be of some interest - a singing male, territorial Veery on 3 June at Black Hawk Lake, Sac Co., IA - at least it may be of interest according to the 1984 IOWA BIRDS book.

If you are not the person to get this record, please pass it on to whomever in Iowa keeps these kinds of records.

With kindest regards,

Rich R.
