

Dear Thomas H. Kent,

The Sandhill Cranes reported for Spring 1993 were seen on 27 MAR 1993, (not 27 April 1993 as was published in Iowa Bird Life Summer 1993 Volume 63 Number 3).

I am sure that your job as a field editor is a bit time consuming to say the least. My whole-hearted thanks go out to you and the entire editorial staff for your patience, encouragement and a job well done. And as always, good birding!

Sincerely,

David J. Cook
