Species	Number of birds	Date	Location
Am. WHITE PELICAN	600	7/31/94	DAN GREEN SLOUGH + TRUMBULL LAKE
LEAST BITTERN	1	6/23/94	<del>CLAY</del> CO. SMITH'S SLOUGH
GREAT EGRET	14	7/31/94	TRUMBULL LAKE
SNOW GOOSE	10	6/23/94	DAN GREEN SLOUGH, CLAY CO.

Geese were seen by spotting scope in a pasture at the north end of the slough. At least 7 birds were seen on 7/2/94 and on 7/29/94. On 7/31/94 I hiked in for a complete view of the area and observed a total of 14; 10 blue-phase and 4 white phase. One of the white phase birds limped noticeably as it walked about and there was no evidence of nesting or immature birds.

Am WIGEON	1	6/12/94	WEST HOTTES LAKE, DICKINSON CO.
" "	1	6/23/94	DAN GREEN SLOUGH
