#	Date	Location
1	Least Bittern 2 June	Nobles Lake, Missouri Valley Harrison Co.
2	Cattle Egret 7 July	Harrier Marsh, Boone Co.
1	Snow goose 13 July 7 July	Harrier Marsh, Boone Co.
1	Snow Goose 14 July	Nobles Lake, Harrison Co.
2	Lesser Scaup 7+13 July	Harrier Marsh, Boone Co.
2	Hooded Merganser 13 July	Harrier Marsh, Boone Co.
↳ I am 97% sure these were mergansers, but they did not look quite right (I don't know my molting birds very well). If this is very unlikely (or impossible) you may want to toss it.		
1 to 2	Osprey 1st 3 weeks of June	Broken Kettle Grassland, Plymouth Co.
1	American Woodcock, 1 st 3 weeks of June	" "
-	Western Kingbird 3 June	Broken Kettle, Plymouth Co.
	" 11 June	Snoox City, Woodbury Co.
	29 June	Snoox City Prairie, Woodbury Co.
♂+♀	Scarlet Tanager periodically during June	Stone State Park, Woodbury Co.
♂	Eastern Meadowlark, 4 July	Mo. Valley, IA, Harrison, Co.
-	Orchard Oriole, Summer	Harrison, Monona, Woodbury, Plymouth, Sioux Lyon + Dickinson Counties

Dr. Dinsmore,

I know there is nothing spectacular here, but maybe it can fill in some gaps for coverage. I have had a great summer, but now that it is over maybe I will have more time to get out. I checked out the Hidden Bridge area the first week in June + did not hear any Clay-colored Sparrows. Maybe I will see you at the fall meeting, have a good school year. Sorry these are late.

Russ
