

Notes - Mel Moe  
Summer 1997

Northern Harrier - Several birds seen, could be 3 or 4 pairs

Did see a brood that was recently fledged, in summer 1996, near Kellerton

Greater Prairie-chicken - several broods reported to him on Kellerton area

also one brood reported the spring near Ringgold W.A.

had as many as 21 birds at lake the spring.

birds largely (all) unbanded = not released birds

has had birds move from Adair Co to Ringgold county and other  
movement among the area

Short-eared Owl - saw one at same spot west of Kellerton several times in

June and then not again
