Spring Field Report - Mar, April, May

Killdeer - ~~to~~ - April 10 - 64 -

We had received 3" snow during the Sandpiper migration. ~~So~~ I had to drive ~~to~~ ~~from~~ from the farm to Maure at 12:25, was on my way to work. It's a 1 1/2 drive. Counted 64 Killdeer. If I would have had time - would have loved to go to Atlantic & counted the Killdeer along the highway & also turned around & gone to Walnut. Wonder how many I would have seen in the 12 mile drive? When I had 64 in a 1 1/2 mile drive?

This is
the NW
part of
Cass
Co.

Bluebird - Male - ^{one on} May 13

In pasture ~~on~~ farm in NW Cass County

✓ Hogshead Shrike - ~~7~~ 1 on March 30.
