Tom

I forgot to add to my  
report the following:

A pair of yellow bellied sapsuckers  
first seen on So. Birch Dr <sup>-mason city</sup> on <sup>Lerro</sup>  
Gordo Co.

May 10-98.

Female chipping out a hole in tree.

Seen off + on nest 4 May -

May 31 - female in nest and staying  
there.

This is on land by the river, across  
from treatment plant
