Dear Tom,

I wanted to mention a couple of discrepancies I noticed in the Spring 1997 field reports.

For Cinnamon Teal (IBL 67:86), I only had 1 sighting--on 19 April. The 2 May sighting attributed to me is incorrect.

Under Mississippi Kite (IBL 67:86), the report states that "all" sightings are listed. However, in addition to those listed, I also had the following sightings:

Number	Date	Location
1	21, 22, 23 May	near Greenwood Park
3	24 May	near Greenwood Park

The 3 birds seen on 24 May were seen simultaneously.

Hope this is useful; feel free to call or write if you have any questions.

Thanks--take care--

Phil Walsh
