The Students' Directory is a benefit to the college. The firms whose advertisements appear have advertised first, because they thought it would pay, but second, to make a directory for the students possible. As a matter of college spirit, you, as a student, should do your part to see that their expectations are not dissatisfied. If you wish the Directory continued, mention it to the advertisers. Let them know you appreciate their desire to do the right thing by the college. And other things being equal, the man who patronizes the college publications is the man most worthy of your patronage.
