A Small Beginning

Often leads to great success. Some people look down on small beginnings. They have an idea a little will not suffice to start a bank account. One dollar will start a savings account and you can develop a substantial account from this beginning if you have a determination to get ahead.

We like these small beginnings—they show the true savings spirit.

Pay 4% on savings accounts.

Student accounts welcomed.

A Man and His Clothes

Do not always agree. He gets mad with them because they look soiled and out of shape. Every such man should send his clothes to us and we will make them agreeable to him. We will so clean and press them that he will be delighted to see and wear them again. We do not charge much for this service, and it takes but little time to preform in.

Here's Where We Win

In years gone by eye-glasses had but one use: They were used to assist the old folks in reading and sewing. To-day we have found many new uses for glasses. Near-sight, far-sight, neuralgia, headache, cross-eyes, etc., are promptly relieved by properly fitted glasses.

I can and do guarantee satisfaction because I have the trained ability, equipment and facilities.

A trial is my most convincing argument.
