Dear Mr. Tuttle,

After reading your column in the Sunday Des Moines Register I would like to get more information on the nests that can be built for the wood duck. I have access to a pond along the Cedar River in a bottom land area with many ponds and sloughs near-by.

Could you please give me information on how to build these nests and any other information you can about it; such as when to put them up and other things that may be of help?

If you are unable to supply the information could you please give me the address of Frederick Leopold of Burlington who seems to have all the information of importance on this subject.

I am a seventeen year old sportsman who would like to do my part to help increase the duck population in any way I can.

Dear Mr. Leopold:

I am forwarding a letter from a youth asking for information on wood duck boxes.

Hope you have enough reprints of your article for new wood duck fans.

Sincerely yours,

Ries Tuttle

A handwritten signature in purple ink that reads "Ries Tuttle".
