Mr. Frederic Leopold
111 Clay
Burlington, Iowa

Dear Mr. Leopold:

The Des Moines County Conservation Commission is undertaking a wood duck box building program this coming winter.

We would like to know if you have any information on size of box, holes, lids, etc. If you have any of this material which would be beneficial for the wood duck, we would appreciate it very much if you would forward the information to us. Maybe we could ask you after wood duck boxes have been built and completed, if you would have some areas in mind in which these wood duck boxes could be placed early in the spring.

I remain.

Sincerely yours,

John C. Welter
