

February 13, 1952

Mr. Peter B. Laude
Dental College
Iowa City, Iowa

Dear Mr. Laude:

Replying to your letter of February 13th. If your group at Iowa City would like to come down here to look at the nesting Wood Ducks I would suggest that you arrange to arrive some Sunday afternoon between three and four o'clock. The activities would be over by seven o'clock, possibly a little earlier than that. This will give you an opportunity to see the nests while the Ducks are off on their evening rest flight and also to see some of the Ducks as they leave and as they return.

Almost any Sunday would be agreeable to me. I suggest you leave it that you will write about April 20th to arrange for a definite date a week or two later than that.

I have no pictures that would be worth bringing along so don't need any equipment for your Cedar Rapids program. It would be a bit more convenient for me to be with you in the afternoon rather than in the morning.

Yours very truly,
