

## RIGHT TO DECLINE

"The homosexual political lobby depict themselves as a downtrodden minority. But they are not seeking to be left alone in peace. They already have that. Most people neither know nor care what they are doing.

Far from being downtrodden victims, homosexuals are well-heeled, well-placed, and vindictive against anyone who dares to criticize them in any way. Homosexual politics is not about protecting individual's

rights to be left alone. Homosexual politics centers upon the promotion of their way of life in public, in the media, and in the schools, to a captive audience of other people's children. It is about the symbolic glorification of homosexuals and homosexuality. It is not about their right to associate with each other, but about destroying other people's rights to decline the association, and to keep their children away from them in schools or in children's organizations."

## FACTS ABOUT AIDS

**FACT:** Each year a million cases of cancer are diagnosed, almost half of which end in death. Heart disease kills more people than even cancer, over 750,000 Americans a year; yet funding to fight it is two thirds that of AIDS( through August 1989, AIDS cases totaled 106,000).

**FACT:** A new Kinsey Institute report, conducted in 1970 but just released in 1989, found (Kinsey's original 10% figure) to be substantially lower at only 1.4%.

**FACT:** A middle-class non-IVDA\* heterosexual has less of a chance of getting AIDS in the next year than of being struck by lightning or drowning in a bathtub.
