ADDITIONAL DATA

The 4 Golden Plovers were in a small fuddle along the road 1 mile north of town. Saw female on return from Pelat Mashed woods with Mansfield. Saw her very plainly at 40 ft without glasses. I then went home and got Ze and we went out with the Hog gun and tried to collect a specimen. We both had glasses and studied them carefully but only got one shot which missed. They then were so wild we could not get close again. No question of identification however
