IOWA STATE COLLEGE AT
Ames

Rise sons of Iowa State,

And proudly raise our flaming banner to the sky;

Lift our ringing challenge valiantly,

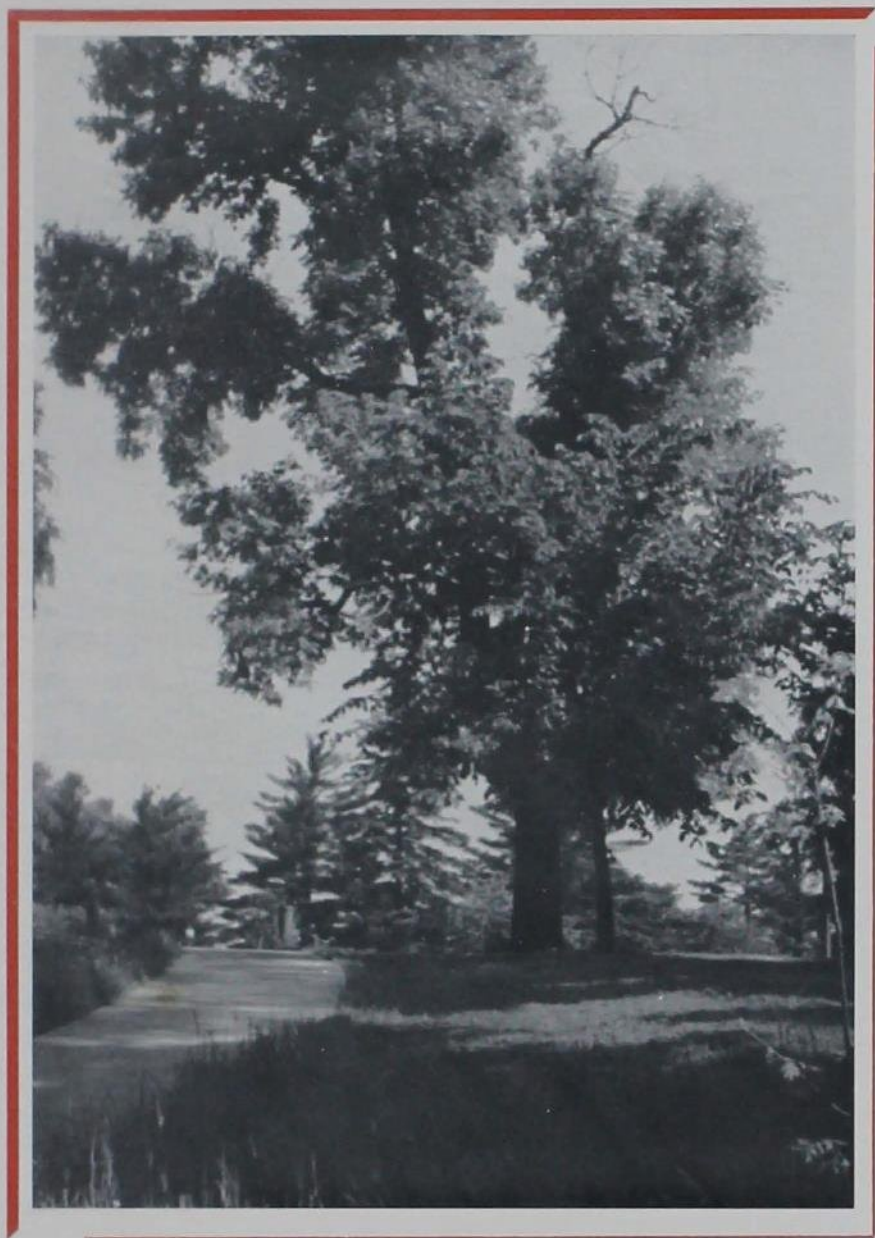

Let our fighting war cry ever be "victory!"

Bold sons of Iowa State,

Keep marching onward ever near the victory gate;

There to consecrate our everlasting loyalty.

Rise! Iowa State.

OUR PRESIDENT SPEAKS

It is a pleasure to extend this word of greeting to the thousands of young men and women, now studying at the college or scattered over the world, who are engaged in important and constructive work in the various fields of applied science. The Iowa State College is closing its seventieth year of service and we feel that the friends of the institution may look back with pardonable pride upon its achievements.

It has been my privilege during the past year to visit many of the alumni groups throughout the country. Wherever I came in contact with them I was deeply impressed by their strong loyalty to the college and the interest in its welfare.

I find the same spirit pervading the present student body. The strength of a great institution of learning issues from many sources; and one of the most important of these sources is the attitude, the philosophy and the loyalty of its student body. In this respect the Iowa State College is most fortunate.

From the standpoint of numbers Iowa State College has made remarkable progress in the last four years. From an enrollment of 3,300 in the fall of 1933 the student body has grown to a total of 5,500 in the fall of 1937, with every prospect that the total enrollment for the session 1937-38 will exceed 6,100. This is by all odds the largest enrollment in the history of the institution, and I believe it reflects its increasing popularity among the people of Iowa, as well as many other states of the Union.

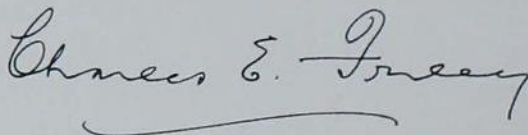

More important, however, than the increase in the number of students is the preservation of the fine spirit and traditions of the Iowa State College. As the enrollment grows, it becomes more of a problem to preserve and strengthen these traditions. But their importance cannot be overestimated, and I am intensely interested that every student who enters the college grasp the importance and value of these traditions and that he do everything possible to make them a part of his college life and his future activities.

Adequate classroom and laboratory instruction is of course vital to the success of the students, but it is equally important that these young people develop a rational philosophy of life and that they have an adequate background of general knowledge, particularly in the fields of literature, history, economics and human relations. The college is making every effort to offer the student opportunities for building such a background in connection with the technological and scientific studies which he pursues here. This is in line with the very best thought, not only of the faculty of Iowa State College, but of leaders in business and industrial life, who feel that the young man or the young woman who goes out into our present-day complex civilization must have first of all a thorough grounding in the fundamentals of general and technical education. Such specialized skills as may be necessary can then be built on the strong foundation of fundamental subjects.

With such a background as the student finds at the Iowa State College he has a most unusual opportunity for constructive work, for outstanding leadership and for unselfish service. If these high ideals are kept prominently in the minds and hearts of Iowa State men and women, their future and the future of the college are assured.

Iowa State College stands ready to help all of its sons and daughters and we feel that they will assist in the future development of the college whenever and wherever possible. The very term "alma mater"—fostering mother—carries the implication, even the obligation, on the part of the student to render every aid and assistance in his power to preserve and strengthen the work and the traditions of the college which prepare him for his life work.

Sincerely yours,

President

PRESIDENT

To the Students, the Faculty and Executives of Iowa State College:

The Iowa State Board of Education feels keenly an interest in the Iowa State College.

During the troublesome times of the recent past, the student body, the faculty and the executives all have joined to promote the morale and the standards, to the end that "Iowa State" holds a high position among the technical institutions of the world.

We congratulate you on your accomplishments.

Yours truly,

Geo. T. Baker

President.

PRESIDENT'S OFFICE

The position of Director of Agricultural Relations was established for the further coordination of the varied agricultural activities of Iowa State College and for the development of a more understanding relationship between the college and the agricultural and business activities of our state. Included among other duties has been the management of the farms which are a part of the college endowment.—GEORGE W. GODFREY.

REGISTRAR

The following are some of the more important functions of the Registrar's staff: Admission of undergraduate and graduate students; publication of College Directory and General Catalogue; preparation of schedule of classes; general direction of registration procedure; recording, distribution, and analysis of grades; checking students for graduation; determining eligibility for activities and for scholastic honors.—J. R. SAGE.

BUSINESS MANAGER

The Business Manager has general oversight of college business activities. The more important ones are accounting, auditing, purchasing, collection of student tuition, preparation of financial reports, management of tenant properties, operation of stores and service departments, supervision of departmental business activities, assisting the president in budget preparation, assisting staff members in solving business problems, and auditing the accounts of student organizations.—H. C. GREGG.

TREASURER

The college treasurer salutes the Bomb of 1938. It has been a pleasure to have had more or less close association with all the Bomb staffs since 1930. The treasurer works under regulations set up by the finance committee of the Iowa State Board of Education in reference to deposit of funds in designated banks, and investment of trust funds in state and federal bonds. Various restrictions are also imposed by the statutes of Iowa and the United States government. College funds are protected with electric delayed opening and time locks, steel safes and reinforced concrete vaults. Robbery, burglary, messenger holdup and forgery insurance policies are kept in force. All persons handling money furnish fidelity bonds.—C. B. MURRAY.

JUNIOR COLLEGE

The Personnel Service is attempting to concentrate and coordinate upon the individual student all the resources of the institution, which will assist him through his own efforts to develop in body, mind and character to the limit of his capacity and to help him apply his powers most effectively to the work of the world.

The Junior College administers the freshman and sophomore years for the various degree granting departments and cooperates with the Personnel Service in: Development of scholarly interest and ambition; adaptation to college methods; aid in the transition from secondary to collegiate education; stimulation of a high regard for learning.—M. D. HELSER.

PERSONNEL FOR WOMEN

The office of the Director of Personnel for Women was created to serve those students who need counsel, assistance or direction in personal problems. An effort is made to aid students to develop good judgment, seriousness of purpose and fine attitudes toward college life and to encourage their participation in a well-rounded program of academic work, extra-curricular activities and social life to the end that each student may have every opportunity for personal development.—FRANCES SIMS.

GRADUATE COLLEGE

The Graduate College has as its objectives the training of a selected group of graduate students, those in the upper quartile or in exceptional cases in the upper half of their undergraduate class, for the master's or the Ph. D. degree in scientific and technological fields, and to encourage and direct research in those fields of learning authorized and required by the Morrill law for land-grant institutions and appropriate to a technical institution. Last year the enrollment in the Graduate College was 516; and 126 master's degrees plus 48 Ph. D. degrees were conferred.—R. E. BUCHANAN.

LIBRARY

The college library exists for the student. Surveys have shown conclusively that the use of books is a decided factor in both personal and professional success. The display of new books and periodicals, the information desk, the reference service are all designed to encourage reading. The college takes pride in the great student use of its library.—C. H. BROWN.

EXTENSION SERVICE

One of the three principal branches of Iowa State College, the Extension Service, with its statewide staff of subject matter specialists and its field force of county agricultural agents, home extension agents and 4-H club agents, serves as the principal channel through which scientific facts made available by the Agricultural Experiment Station and resident staff flow to more than 160,000 Iowa farm families.—R. K. BLISS.

ENGINEERING EXTENSION

Engineering Extension exists for the purpose of making the facilities of the college available to the trade and industrial interests of the state. Accordingly staff members in general are not in close touch with the student body. But they do know from their contacts with employers, parents and alumni that technical training received at Iowa State is highly regarded.—D. C. FABER.

MEMORIAL UNION

For the competition of the world today, college-trained men and women need the best possible technical foundation in fields of their choice supplemented by broad experience in social and cultural affairs, which can come only from contacts of life with life such as Memorial Union strives to afford every student at Iowa State.—H. E. PRIDE.

The Student Health Service is vitally interested in the health of the students, both individually and collectively. With the advance of preventive medicine our opportunities for service are constantly expanding. In an increasingly complicated and competitive civilization the importance of acquiring and maintaining good physical and mental health cannot be over-emphasized.—DR. J. G. GRANT.

HYGIENE

STUDENT LOANS

Since many of our best students could not remain in college without financial assistance, the Student Loan office was established to study such needs. Small loans for short periods are made to freshmen, sophomores, and graduate students. Loans payable after graduation are made to juniors and seniors of high standing and character.—MISS MARIA M. ROBERTS

HOUSING

Where and how college students live is of utmost importance to the individual student and to the institution. The director of residence, with those in charge of the various groups, is responsible for keeping all student living standards on the highest possible level.

Building plans, equipment, room assignments, collection of rent, and payment of bills go through this office.—MRS. MADGE I. MCGLADE.

SOCIAL LIFE

The Director of Social Life at Iowa State approves all social functions at which there are men and women students, supervises rushing, advises Panhellenic, Social, and Town Girls' Councils, supervises campus varieties programs and social dancing classes with the Joint Social Council, plans etiquette training through the social councils, talks and articles in the Student, and oversees major dances.—MISS MARGARET STANTON.

AGRICULTURE

DEAN H. H. KILDEE

The foresters as usual . . . dairy short course butter judging . . . a "hort" gets an insight . . . carton-ing College Cottage Cheese . . . the foresters in an off moment . . . studying Iowa soil.

The year 1937 found Iowa State College continuing to rank first among the land-grant colleges and universities in the enrollment of undergraduate students in agriculture and well toward the top in the number of graduate students majoring in this field. It is interesting to compare the enrollment for the college year 1932-33 with the enrollment during the year 1936-37, at which time it increased from 865 to 1,749.

The critically minded, uninformed frequently make loose statements to the effect that all agricultural curricula are training men away from farms and service to agriculture rather than toward work in this field. Early in 1937 an occupational analysis was made of all who had graduated from our agricultural curricula during the ten year period, 1926-1935, inclusive. The number who earned one or more degrees during this period was 1,763. Of this number 538 had earned advanced degrees and 1,235 had taken up employment after com-

J. B. DAVIDSON

BLAIR CONVERSE

of commercial and professional activities connected with agriculture, managers of specialized and large scale farm enterprises, the Division of Agriculture of Iowa State College has as one of its objectives the training of young men who have the desire, energy, and ability necessary for success in general farming and rural living.

During the year 1937 the following special awards, honors, and recognitions were received:

The headquarters of the Federal Regional Swine Laboratory, including the office of the Director, was located at Iowa State College.

Iowa State College was awarded the sweepstakes award for exhibit of publicity material and publications, American Association of Agricultural Editors, Gainesville, Florida. The college was awarded first place on its news service.

C. A. IVERSON

pleting the requirements for the degree, Bachelor of Science. We were pleased to learn from our study that of this number more than 91 percent were engaged in the types of work for which they had made preparation while in college. Many of the other graduates are working in positions for which their agricultural training has a distinct advantage.

Our study showed that 321 who graduated during this ten year period are engaged in college teaching, research and extension work. Practically all of these men had taken graduate work. Two hundred twenty-two are serving as teachers of Vocational Agriculture and as administrators in public schools. A total of 294 hold positions in the United States Department of Agriculture, 272 are operating farms, either on their own or as salaried farm managers; 138 are engaged in commercial dairy work, 75 are active in landscape architecture, 57 are county agents, 40 are employed in the meat packing industry, 34 are agricultural journalists, 26 are commercial horticulturists, 26 are with farm equipment companies, 18 are in foreign agricultural service, 14 are with lumber and wood products companies, 14 with seed companies, 13 are with produce companies and hatcheries, and smaller numbers in each of many other fields are doing commercial and research work of value to agriculture.

Our curricula vary in content, objectives, and occupational opportunities for graduates. The study showed that there are many new lines of work open to graduates from our several curricula and that our staff members are keeping in close touch with the trends and opportunities in their respective fields. Furthermore, this survey definitely showed that in addition to the training of teachers in colleges and high schools, research workers, extension workers, workers in the United States Department of Agriculture, workers in all types

E. W. LINDSTROM

W. H. PIERRE

The curriculum in Agricultural Engineering was one of the few approved by the National Committee of Engineering Schools.

Butter made by Dr. N. E. Fabricius, of the Department of Dairy Industry, was given a perfect score at the World's Dairy Congress in Berlin, Germany.

The names of Dr. E. W. Lindstrom and Dr. J. W. Gowen were starred in American Men of Science.

Q. C. Ayres was elected fellow in the Royal Society of Arts, London, England, and was commissioned Lieutenant Commander, Civil Engineer Co., U. S. Naval Reserve.

C. A. Iverson was granted a patent on the manufacture of milk confection. Iowa State College judging teams won many of the coveted awards in National and International contests in judging Farm Crops, Livestock, Dairy Products, Dairy Cattle, Poultry, and Meats. The winnings of each team are reported in another section.

BARTON MORGAN

P. H. ELWOOD

Iowa State College won the permanent possession of the "Silver Cup" awarded in the International Saddle and Sirloin Essay Contest.

Don Ralya, senior student in Landscape Architecture, won the Ryerson Landscape Traveling Fellowship for travel in Europe and study at the American Academy of Fine Arts, Rome—stipend, \$1,200.

The American Institute of Cooperation held its annual meeting on the campus during the third week in June.

"Soil Erosion and Its Control," Q. C. Ayres, Agr. Engr. Dept.; "Farm Records" and "Elements of Farm Management," J. A. Hopkins, Ag. Ec.; "Cooperative Organization of Iowa Farmers' Creameries," Frank Robotka, Ag. Ec.; "B. W. Hammer Panegyric," C. Bronson Lane, Dy. Ind.; "Future Farmer Chapter Management," "The School Agricultural Library," "Sources of Agricultural Information and Assistance," "The F. F. A. Chapter Library," H. M. Hamlin, Voc. Ed. (Coauthor with H. T. Hall, C. E. Bundy).

"Practical Science, A Senior Course in Applied Physical Science for High Schools," A. H. Hausrath, Voc. Ed.; "Swine Workbook for High Schools," A. L. Anderson, A. H. (co-author with R. V. Gregory); "The Biochemistry of Cellulose, The Polymionides, Lignin, etc.," Arthur G. Norman, Agronomy; "Laboratory Course in General Horticulture," J. C. Schilleter, Hort.; "Range Plant Handbook," Odell Julander, Forestry (coauthor).

In addition to the books listed above, a large number of bulletins were prepared and published by the Agricultural Experiment Station, and many technical papers were prepared and published by members of the staff.

Two members of the faculty were taken by death during the year, Dr. P. E. Brown, Head of the Department of Agronomy and one of the best loved

RAINER SCHICKELE

and most valued members of the resident faculty, and J. A. Woodruff, an effective member of the Extension Service. Dr. Brown was succeeded on February 1, 1938, by Dr. W. H. Pierre, of the University of West Virginia.

Many members of the staff resigned to accept positions elsewhere. During the year the competition for the services of our staff members has been increasingly keen.

Dr. W. H. Lancelot resigned from the position of Head of the Department of Vocational Education. He was succeeded by Dr. Barton Morgan. Dr. W. Kubiena of Austria served as a visiting professor of soils from June until the end of the fall quarter.

Blair Converse was elected President of American Association of Teachers of Journalism.

J. B. Davidson was elected Chairman of the Committee of Transport Wheels, American Society of Agricultural Engineers; appointed to represent the American Society of Agricultural Engineers on the National Committee on Relation of Electricity to Agriculture; reappointed as member of Committee on Standards of American Society of Agricultural Engineers.

Byron T. Virtue was appointed a member of the Committee on Extension Activities, American Society of Agricultural Engineers. Henry J. Barre was elected Chairman of the Committee on Farm Structure Economics of the American Society of Agricultural Engineers. Eugene G. McKibben was elected Chairman of the College Division, American Society of Agricultural Engineers. Q. C. Ayres was elected President of the Iowa Engineering Society and a member of the Governing Council, American Society of Agricultural Engineers.

J. A. Hopkins was appointed Principal Agricultural Economist, National

J. W. GOWEN

B. S. PICKETT

Research Project of W. P. A. Frank Robotka was elected Chairman, General Cooperative Institute Committee from Iowa; Chairman, Program Committee, American Institute of Cooperation, and Associate Editor, Cooperative Marketing Journal.

T. W. Schultz was elected Secretary-Treasurer, Mid-West Economic Association; Vice-President, American Farm Economics Association, and a member of the National Committee on Economic and Social Research in Agriculture of the Social Science Research Council.

Rainer Schickele was appointed State Land-Use Planning Specialist, Farm Security Administration; a member of the Committee on Farm Tenancy, and the Chariton River Basin Demonstration Area, State Planning Board. Ray E. Wakeley was elected Vice-President of the Rural Section, American Sociological Society.

C. A. Iverson was appointed a member of the Sub-Committee on Analysis of Drymilk, American Dairy Science Association; Barton Morgan was elected President, Iowa State Teachers' Association; appointed to Advisory Committee, U. S. D. A., Extension Service, to President Roosevelt's Committee on Vocational Education, as Consultant, Washington, D. C.

A. H. Hausrath was selected to serve on the Staff of President Roosevelt's Advisory Committee on Education, Washington, D. C.; P. H. Elwood, Jr., was appointed Regional Counselor, Missouri Valley Region, National Resources Committee, and Chairman of the Committee on Education and Public Relations for the Highway Research Board, Committee on Roadside Development.

John R. Fitzsimmons was appointed Director, Recreation Survey for Iowa through the National Park Service.

H. M. HAMLIN

A. L. Anderson was appointed Chairman, Committee on Teaching Methods, American Society of Animal Production, and Assistant Superintendent of Swine, Iowa State Fair Association. W. F. LaGrange was elected Secretary of the Iowa Livestock Judges' Association. J. L. Lush was elected Vice-President, American Society of Animal Production. L. A. Richards was elected Secretary, Soil Physics Section, Soil Science Society of America.

J. L. Robinson was appointed Chairman, Hybrid Corn Certification Committee, and to the Board of Directors of the International Crop Improvement Association. C. S. Dorchester was appointed Chairman, Intercollegiate Committee, Exchange of Farm Crops Material, and Chairman of National Committee on Crops Judging Methods and Terminology. E. C. Volz was appointed to the Committee on Horticultural Education, Society of American Florists.

Q. C. AYRES

ENGINEERING

DEAN T. R. AGG

Engineers will be engineers . . .
even when they're working in
drawing lab . . . manipulating a
control panel . . . understanding
what makes the wheels go 'round
. . . *on picnics* . . . inspecting
"steam and gas" equipment . . .
studying fly wheels . . . surveying
. . . forming a vase.

Large numbers of freshmen and sophomores, lured to Iowa State by the excellent records of her alumni, caused the engineering enrollment to reach a new peak of 1,541 in the fall quarter of 1937. Result: The Engineering Division regained first rank in number of students among the five divisions of the College, kept a high place among the educational institutions of the nation; professors were hard-pressed for rooms in which to teach; young staff members were given bigger responsibilities; Engineering Hall became more lively than ever.

Bested in enrollment by a number of large universities, Iowa State nevertheless continued to occupy what has been justly called "a position among the

J. S. DODDS

WILLIAM L. HUNTER

A. H. KIMBALL

half dozen best engineering colleges in the United States."

Explanatory of the large increases in enrollment and gratifying to Dean T. R. Agg and his hard-working staff was E. C. P. D.'s report accrediting the seven major engineering departments. The large professional societies, united in this Engineers' Council for Professional Development, examined the quality of the instruction offered, officially gave it a stamp of approval, unofficially called it among the best investigated.

Factors in the E. C. P. D. accrediting program were such "dry" but important things as enrollment, teaching loads, physical facilities and finances. E. C. P. D. represented 50,000 top-ranking engineers, members of the professional societies, who desired to make sure that engineering education was of a high type.

E. C. P. D. standards proved so stiff that out of 617 engineering departments examined in 127 United States colleges and universities, 28 percent were not accredited.

Most pleased at Iowa State's showing in the E. C. P. D. report was Dean T. R. Agg, the "man of the year" as far as recognitions were concerned. Called by Fortune Magazine "outstanding among the theoreticians (in highway engineering)" Dean Agg proved the accuracy of the statement by winning the highest honor obtainable in the field, the George H. Bartlett Award for outstanding achievement. Also president of the Iowa Engineering Society, Dean Agg was succeeded by one of his own staff, Q. C. Ayres.

L. O. STEWART

Other presidents during the year were H. J. Gilkey, of Iowa State's Sigma Xi; R. A. Caughey, of the Iowa section of the American Society of Civil Engineers; J. S. Dodds, of the National Council of State Boards of Engineering Examiners.

Dodds, the "traveling professor of civil engineering," retained the honor (and pleasure) of having attended the most out-of-town conventions. He went to 13 in all, served each one as either officer, committee member or speaker.

Most publicized of the staff, however, was Dr. O. R. Sweeney, maker of industrial products from farm wastes. In the latter capacity—and as expert on

M. P. CLEGHORN

coal, chemicals and population problems—Sweeney found newspaper reporters beating the proverbial path to his door. His greatest recognition of the year—appointment as chairman of the Greater Iowa Commission by Gov. Nels G. Kraschel. Sweeney envisions for Iowa a larger number of small industries, decentralized so as to eliminate the problems of metropolitan areas, according to his recent speech to life insurance presidents in New York City.

Also much in the public eye was R. A. Moyer, teacher of highway engineering, research engineer and traffic committee head. Moyer was chairman of the Iowa Highway Safety Conference held last fall under the sponsorship of the

Iowa State Safety Council and the Engineering Extension Service. Moyer's conference created much interest; Moyer's advice on driving was welcomed by automobile owners throughout the state.

Author of the year's best seller among publications was Dr. Paul E. Cox, ceramic engineering head, who wrote a bulletin on how to make ceramic art from Iowa clays. Immediate exhaustion of the original printing made a reprint necessary. Fan mail poured in from enthusiastic ceramic engineers, school teachers and club women.

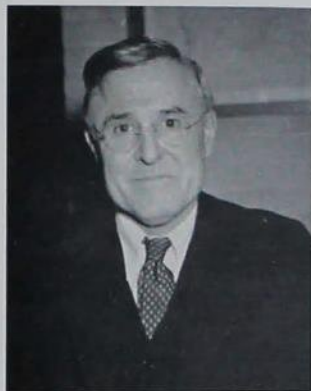

Members of the Iowa Engineering Experiment Station proved more than twice as prolific in writing bulletins than in previous years. Researchers Levine, Arnold and Griffith each wrote two. Other bulletin authors (or co-authors) were Cox, G. Murphy, Winfrey, Helfinstine, Cleghorn, Holl and Sweeney.

More ambitious from a literary standpoint were the recent book writers—Gilkey, G. Murphy, Olson, Kerekes, Dana and Caughey.

Of the large number of technical articles prepared for engineering and scientific journals, six were by Gilkey, on theoretical and applied mechanics subjects, and five were by Levine on bacteriology and sanitary engineering. Levine had the unusual honor of being elected an honorary member of the Society of Biological Chemists of India.

The year found the 1937 senior engineers still regarding as most important two activities having to do with their future work—the annual inspection trip and the hunt for a job.

O. R. SWEENEY

O. A. OLSON

FRANK D. PAINE

Each fall the seniors, accompanied by their professors, trek to Chicago and the nearby industrial area to get a birds-eye-view of the engineering world. Iowa State's mass inspection trip, as effectively organized by Frank D. Paine, packs 24 hours of activity into every day for the 165 or more students. The itinerary is carefully planned weeks in advance.

L. O. Stewart proved one of the most popular men of the year because through the efforts of the personnel service all but one of the nearly 200 graduates obtained jobs. Graduates have to compete for work with more than 225,000 people—technicians and professional men—who call themselves engi-

neers. Personnel leaflets and job-hunting tips were valuable aids in meeting such competition. The department of Industrial Arts had 40 requests for men, for which it had no graduates to recommend.

The Engineering Personnel Service cooperated with the Iowa Engineer in publishing a directory of alumni which showed that by the end of 1937, Iowa State College had granted 4,945 undergraduate degrees, 390 master's degrees, 185 professional degrees and 30 doctor of philosophy degrees in the various branches of engineering.

In directories of the biographical type, Iowa State engineering staff mem-

R. A. CAUGHEY

H. J. GILKEY

M. S. COOVER

bers were recognized nationally. In Who's Who in America we find Agg, Davidson, Fuller, Gilkey, Marston and Sweeney. Thirty-one of the staff were in Who's Who in Engineering and 17 in American Men of Science. The most Who's Who-ed man of the year was H. J. Gilkey who found his name and biography in the latest editions of all three above-mentioned books and in addition—Who's Who in American Education and Who's Who in Education.

Despite lack of funds for physical equipment, several important improvements were made during the 1936-37 school year. In accordance with a plan for making the Iowa Engineering Experiment Station more departmentalized, research men Schlick, Spangler and Griffith and Steno Elliott were moved to new quarters in the old Locomotive Laboratory which now serves as a nucleus for the somewhat decentralized activities of the Station.

Other renovations of the year included the establishment of an Engineering Exhibit Hall and alterations in the Electrical Engineering Laboratories. Coover, E. E. head, made the labs as spic and span as a Home Ec kitchen—and very efficient. Not handicapped by a lack of funds, Anderson of E. E. built for experimental purposes a generator believed capable of producing 1,000,000 volts.

These alterations, and erection of the new college buildings, were under the careful eye of A. H. Kimball, supervising architect for the College and head of architectural engineering. On Kimball's wall hangs a map as he and his planners believe it will be 20 years from now. In Kimball's files are completed plans for those College buildings which are next to be built.

MAX LEVINE

During the year, over 2,200 people attended the technical conferences of the Engineering Extension Service, headed by D. C. Faber. A total of 622,968 persons saw the films of the Visual Instruction Service, while WOI retained a large, but uncountable, audience.

New staff member, of the grade of assistant professor or above, were B. Leonard Wolf, architectural engineering; E. D. Allen, engineering economics; Arthur Twogood, engineering extension; and William A. Thomas, electrical engineering. His first year as head of the department of mechanical engineering was completed by M. P. Cleghorn.

HOME ECONOMICS

DEAN GENEVIEVE FISHER

Every good little Hec girl takes care of children . . . knows just where to put the baby's milk . . . learns about crafts from Miss Mabel Fisher . . . decorates dinner table with taste and without money . . . bakes pies just like grandma used to . . . studies in her spare moments . . . bathes the little tike without drowning him. . .

With the enrollment for the Home Economics Division making a phenomenal increase, jumping from 1,400 students registered in the fall of 1937 showing an 86 percent increase over the fall of 1933 enrollment and 17 percent more than fall quarter a year ago, the Home Economics Division of Iowa State College may well take its place as one of the outstanding home economics divisions in the country.

The changes in the personnel of the division were at the level of instructorships and the usual number of graduate assistantships and fellowships. No major staff appointments were made.

LOUISE J. PEET

CORA B. MILLER

Miss Joanne M. Hansen, head of the Applied Arts Department, has paintings exhibited in Joslyn Memorial, Omaha, Nebr., Iowa Artists Exhibits in Sioux City and Burlington, Iowa, and Galena, Ill. She received honorable mention in the Iowa Art Salon and third prize at Iowa State Fair.

Miss Emma Kitt, applied arts instructor, has her paintings exhibited in Carson Pirie Scott's, Chicago, and Woman's Club Biennial, Sioux City, Iowa, receiving second purchase prize award.

In the Child Development Department, Lydia V. Swanson, head, is in charge of the work of this department where staff members have spoken on

BELLE LOWE

Over 300 home economics graduates secured their first positions or better ones through the college placement services. Many calls went unfilled because of the lack of candidates to recommend. In the order of numbers placed, the positions included high school teaching, college teaching or graduate study, food production and service in restaurants, tea rooms, cafeterias and college dormitories, hospital dietetics, rural extension service, retail selling, nursery school teaching, testing with food manufacturing companies, home servicing with public utilities, newspapers, magazines and advertising companies.

The Home Economics Division conducts a five-day-a-week Homemakers' Half-Hour over WOI throughout the year. Mrs. Zenobia Ness of the Applied Arts Department is in charge of these broadcasts. Copies of the talks are sent to listeners upon request with over 140,000 copies of programs furnished last year.

Among the honors, recognitions and publications made by members of the home economics faculty only a few may be listed.

Dean of the division, Genevieve Fisher, is a member of the committee on instructions, Association of Land Grant Colleges and Universities, and a member of the committee on committees, American Home Economics Association.

MRS. ZENOBIA B. NESS

FERN W. GLEISER

programs of parent-teachers' meetings of the State Teachers' Association, of the State Council of Child Study and Parent Education, and at the national meeting of the American Childhood Education Association held in San Antonio, Texas.

In cooperation with the State Teachers' College and the State University, it conducts a Radio Child Study Club twice each week. During the past year this series served 157 organized groups in twelve states.

At the American Childhood Education meeting in San Antonio, Texas, April 2, 1937, Miss Gertrude Chittenden, instructor, delivered a paper entitled "Language Patterns of the Pre-School Children."

Miss P. Mabel Nelson, head of the Foods and Nutrition Department, is chairman of the Five-Year Cooperative Project on the Nutritional Status of College Women, now in progress in experiment stations of six middle west states.

Belle Lowe, of the department, wrote "Experimental Cookery" revised edition, John Wiley & Sons, June, 1937. Pearl P. Swanson is chairman of the Research Department of American Home Economics Association. Margaret A. Ohlson is a member of the Sigma Delta Epsilon, honorary recognition, and has published an article as co-author of "Cooperative Research Among Colleges," *Journal of Home Economics*, February, 1937.

Head of the Home Management Department, Dr. Paulena Nickell, addressed the Iowa Federation of Women's Club, Iowa Home Economics Association, Southeast Iowa Teachers' Association and the Central and Eastern Farm Management Association. She holds offices as chairman of the fellowship awards committee, American Home Economics Association and of the research committee on housing, American Home Economics Association.

ROSALIE V. RATHBONE

LOUISE L'ENGLE

JOANNE M. HANSEN

Dr. Louise J. Peet, head of the Household Equipment Department, has published articles on "Care of Meat in the Household Refrigerator," research bulletin 215; with Belle Lowe, "Starting Baked Products in Cold Versus Pre-heated Ovens," research bulletin 213; and with L. O. McDonald, "The Utilization of Heat from Electric Surface Units by Certain Cooking Utensils," research bulletin 212. She has also delivered papers at the household equipment conference, Kansas City, June 25, 1937, on "Report of Results for a Questionnaire on Washing Machines and Irons." She is a member of the national committee on research in household equipment.

Also of the department, V. Enid Sater has published articles, "Some Comparative Factors in the Economical Operation of an Electrical Refrigerator," *Journal of Home Economics*, and a bulletin on "Home Canning Costs."

Institution Management Head, Fern W. Gleiser, holds offices as president, Iowa State Dietetic Association and member of the committee on administrative courses for student dietitians, American Dietetic Association.

Miss Lenore M. Sullivan of the department has published a "Quantity Recipe File," Collegiate Press, Iowa State College.

Head of the Home Economics Education Department, Cora B. Miller, has

LYDIA V. SWANSON

PAULENA NICKELL

EMMA KITT

published a book called "A Guide to the Teaching of Home Economics"—Turner, Miller, Friant, Revised Unit I of *ibid.* She has delivered papers to Puerto Rico Home Economics Association, San Juan, in December, and conducted all day conferences with teachers on the island. She has published articles "Is It Sensible?" *Practical Home Economics*, October, 1936, and "An Adventure in Housekeeping in Mexico," *ibid.*, January, 1937.

Regina J. Friant, of the Home Economics Education Department, wrote a book, "A Guide to the Teaching of Home Economics," Turner, Miller, Friant, Revised Unit I of *ibid.*, and delivered a paper entitled "Testing in the Field of Home Economics," "Methods of Adapting Teaching Programs to Needs of Students," Puerto Rico Home Economics Association, and "Opportunities in the Field of Home Economics."

Mary S. Lyle, of the department, has received honorary recognitions, Pi Lambda Theta at Ohio State University and led a conference of adult home-making teachers of Wayne University, Detroit, Michigan, in January. She delivered a paper "What Should Be the Objectives of Graduate Study for Teachers of Family Life," American Home Economics Association, division of family life, June, 1937.

WINIFRED R. TILDEN

Also of the department, Hester Chadderdon received the Ellen H. Richards scholarship for study from the American Home Economics Association in 1937. She holds office as chairman of the section of research in home economics education, American Home Economics Association.

Head of the Textiles and Clothing Department, Rosalie V. Rathbone, has published an article with Katherine Cranor, "Choose Your Shoes with Great Care," *Journal of Health and Physical Education*, Vol. 8, No. 2.

Winifred R. Tilden, head of the physical education for women, holds office as chairman of the physical education safety committee of the State Physical Education Association.

INDUSTRIAL SCIENCE

H. V. GASKILL
Assistant to the Dean

Finding out what makes a frog tick . . . accounting lab . . . "Spook" learns physics . . . a chemist at work . . . Prof. Plagge, not throwing chalk . . . organic chemists synthesizing . . . Jack Cochran at the map.

Although actual enrollment figures reveal the Industrial Science Division as fourth in total number of students enrolled in any division at Iowa State College, still it is the only one through which every student on the campus must pass before graduating.

Every freshman must take a year of English—agriculture students must take a year or more of chemistry, and majors in veterinary medicine must include business law in their curricula. In fact, the slogan of the entire division might well be, "We Teach the Entire College."

With two major objectives in the division's work—to provide carefully planned curricula in biological, physical and social sciences, and to instruct students in the basic sciences and general studies which form an essential background for the technical and professional curricula offered in the other divisions of the college—it has sought to integrate science with industry and commerce and the problems of the present day civilization.

A. R. LAUER

C. H. WERKMAN

offers a challenge to young men and women facing the problem of obtaining an understanding of a scientific and technical world.

In a low, one-story building constructed around two courts, the Department of Physics teaches students to appreciate the wonders of scientific discoveries already made, to explain them and to help the students realize the wide opportunities still open to experimenters in the field of physics.

Members of the faculty in physical sciences have written many books, recognized throughout the educational world as authoritative in their particular fields. Some of these writers are: Wilkinson and Hammer, chemistry; Allen, mathematics; and Spinney and McCracken, physics. Important office holders throughout the state and nation include: Underkofer, Hammer and Fulmer, chemistry; Lonsdale and Clime, geology; and Kunerth, listed in Who's Who in Engineering, physics.

L. B. SPINNEY

Providing these things, the industrial science curriculum for majors includes, the first two years, a broad cultural foundation as a basis for later specialization. While as a junior and senior the student develops his field of specialization.

Assistant to the dean of the division, Dr. H. V. Gaskill, who in his spare moments finds time to teach psychology, is recognized nationally as an expert in applied psychology with publications in the fields of personality, emotion, physiological psychology and higher education.

If the work of the division were divided into four groups—physical sciences, biological sciences, social sciences and general studies—they would embrace the 19 departments which range in size from the Department of Religious Education, with one instructor and a single classroom in Central Building, to the Department of Chemistry with 62 instructors and a three-story, four-wing building devoted almost entirely to its use.

As physical sciences, mathematics, chemistry, physics and geology deal with non-living or lifeless material things.

Although chemistry is largely an experimental science, the Department of Chemistry contributes to technical and industrial progress by preparing new or improving old substances. The chemist is busy with things of immediate value to human beings, like food, clothing and medicine.

Geology, the story of the earth, as revealed and read from the rocks of the earth itself, has helped mankind to discover and secure many useful substances—minerals as well as gas, oil, coal and water.

Realizing that the progress made in arts and sciences during the past centuries would not have been possible without mathematics, that department

COL. H. R. ODELL

I. E. MELHUS

Teaching students the formation of animals and knowledge of biological laws and data necessary for profitable specialization in different lines of animal study, is the work of the Department of Zoology and Entomology.

Some of the outstanding men in biological sciences include: Levine, head of the Department of Bacteriology, a recognized authority on sanitary bacteriology, a member of the Iowa State Planning Board, and honorary member of the Society of Biological Chemists of India; Stevenson, president of the Section on Agricultural Bacteriology, International Microbiological Congress in London; Melhus, state botanist of Iowa and head of the Department of Botany, has recently written a book with Kent, also of Botany; Porter and Werkman are nationally and internationally recognized authorities on botanical subjects; and Becker, of the Department of Zoology and Entomology, is listed in the new edition of America's Young Men and Who's Who in America, and holds many national offices.

Social sciences include studies which deal with the activities of the individual person as a member of a group. In this section one finds such departments as economics and sociology, history and government, and psychology.

The Department of Economics and Sociology teaches students to make their resources and the resources of the nation give them the greatest return. The coordinating science of economics brings together the technical contributions of natural sciences, engineering, husbandry, psychology and sociology, and treats them in terms of prices and values. Sociology, which explains the structure and functioning of groups of human beings as they live and work together, may well be called the science which coordinates all human activities.

JOHN A. VIEG

Biological sciences include botany, bacteriology, zoology and entomology, and are studies of plants and animals.

Located in the old Botany Building, one of the landmarks in the heart of the campus, the Department of Botany is divided into sections permitting a more minute study of plant life and its significance: plant morphology which investigates how plants are made; plant physiology, how plants act; systematic botany, the relation of plants to their surroundings; and plant pathology, the diseases of plants.

The Department of Bacteriology is well equipped to train men and women to serve as technical experts in the food and fermentation industries, and as investigators in dairy, soils, veterinary, sanitary, home economics and industrial bacteriology.

JOHN T. LONSDALE

J. RAYMOND DERBY

Training students to deal with the problems of the new era as voters, leaders and technical administrators, is the main function of the Department of History and Government. Specifically speaking, one can learn through history how problems came to be, and through government, how one organization has tried to solve these problems.

Although psychology is a relatively new subject, its contribution to general education is becoming increasingly significant to both the prospective parent and the prospective worker in an industrial world.

In the social science section may be found such men as Vieg, author, Sociology Department; and Schmidt, visiting professor of the University of Texas and member of the advisory board, Columbia University, head of the History Department.

Under general studies, one finds the departments of Hygiene, Library, English, Modern Languages, Military Science and Tactics, Music, Physical

Education, Public Speaking, and Religious Education, which, besides conducting a series of background courses for the students of a technical institution, also sponsor a widespread extra-curricular program designed to develop interests outside of classrooms.

Housed in the college hospital, hygiene helps students to maintain high health standards for themselves and for their community after leaving college.

With an eighteen thousand volume library which receives annually more than three thousand periodicals, serials and reports, all freshmen must be taught to take advantage of the marvelous reference facilities. Such is the purpose of the Library Department.

Military science and tactics is mainly devoted to training students that they may qualify for appointment as reserve officers in the United States Army.

Teaching French, German and Spanish, the Department of Modern

WILLIAM KUNERTH

E. R. BECKER

EDWARD S. ALLEN

Languages emphasizes accurate translation, for a knowledge of foreign literature may avoid duplication of work done abroad and for a broadened intellectual horizon which embraces other than English literature.

Another expression of the cultural background which Iowa State tries to build for all her students is the Music Department which, besides developing student musical ability and appreciation by private lessons and music appreciation classes, it also sponsors widespread extra-curricular activities—men's and women's glee clubs, band and orchestra.

The Department of Public Speaking not only teaches a knowledge of the principles underlying effective oral communication, offers an opportunity to practice those principles and maintains a speech clinic to deal with individual speech problems in cooperation with the departments of Hygiene and Psychology and the committee on English, but also in extra-curricular activities, sponsors the Iowa State Debaters and the Iowa State Players for students interested in debate and dramatic production. The department, in cooperation with the Department of Technical Journalism, has supervised the weekly fifteen-minute broadcasts over WOI through which the division is endeavoring to familiarize the listening public with the activities and functions of the Industrial Science Division.

Giving the student a better practical knowledge of his own language and teaching him the background of world literature, the English Department also sponsors a literary publication, Sketch, which publishes student work.

Veering from cultural education to physical education, two years' work in that department is required of both men and women. Beside this work, the department presents an extensive intramural and intercollegiate athletic program. Approximately 70 percent of the men students of the college take part in athletics of some type.

J. A. WILKINSON

To help correlate the scientific theory with a cultural life, the division offers courses in religious education to help students adjust their religious thinking with their scientific training.

Another new phase of industrial science expansion of influence was originated in the fall of 1937 when the first divisional banquet was presented. That such banquets will be continued is the present plan, because the need is felt for a greater realization among the students within the division that their work and study has a greater scope than mere science, but transcends facts to life itself and the living of it.

On such a progressive note the divisional synopsis may well close with an expanding Division of Industrial Science looking for new and improved fields of interest and a fuller development of their present accomplishments.

VETERINARY MEDICINE

DEAN CHARLES MURRAY

Vet men who suffer and endure
for five long years study on occa-
sion . . . know where to get pills
for that dog with distemper . . .
observe animal morphology . . .
squint through microscopes at the
little ones running around . . .
listen to what the wisies say . . .
and operate on purebred Hamp-
shires. . .

Iowa State's Division of Veterinary Medicine has always been "first" in the United States—first to be established (1879); first to offer a four-year course (1903); first to have a four-year course with a college entrance requirement; first with an entrance requirement of one year's college work; and, if not first all around, at least recognized to be on a par with Cornell University's Veterinary Division.

Nineteen hundred and thirty-seven was an eventful year for the "Vets"—from the annual Veterinary Ball of Jan. 9, until the end of the Fall Quarter in December, when Iowa State's premier artist and sculptor, Christian Petersen, finished work on his expressive statue of an Iowa State Veterinary student tenderly stroking the head of a sick puppy, while the animal's mother looks up confidently.

E. F. WALLER

F. E. WALSH

I. A. MERCHANT

The statue was made for the new landscaped Veterinary Court, whose walls were to be resplendent with murals of modern art depicting veterinary scenes.

There was only one sad note in the remodelling of the court. Victim of the chisel was the old horse drinking trough which had stood a monument to the days that are no more when horse drawn vehicles were the principal means of conveyance.

But 1937 was a banner year for the Veterinary Division in a much bigger way. It was just a quarter of a century before—back in 1912—that the Division was housed in a beautiful new Quadrangle—doubtless the finest in the United States. There in its spacious setting in the northeast corner of the campus it remained a monument to a science which is as essential to the pursuance of modern agriculture as is the medical science itself to the human race.

There was no material alteration in the Division's plant in the ensuing 25 years until 1937, and the completion of the magnificent new Charles Henry Stange Memorial Clinic. The structure, finest of its type in North America, was built just north of the Quadrangle.

It cost \$180,000—and was constructed partially with federal aid.

An alcove was constructed in the wall of the front hall way to contain a statue of the man for whom the Clinic was named, Dean Charles Henry Stange.

H. E. BIESTER

The Clinic is a fitting 1937 climax to the interesting history of the Division. It was way back May 23, 1879, when a Veterinary School was established at the "Iowa Agricultural College" by action of the Board of Trustees.

The first "course" offered was a combined one in Veterinary Science and Agriculture, 4 years in length, with the last year devoted to Veterinary Science.

Dr. M. Stalker was the first professor of veterinary science, continuing for 21 years until 1900. The first dean of the school, Dr. J. H. McNeil, was appointed in 1903 and served until 1908. He was succeeded by Dr. Stange, whose name has been perpetuated in the new clinic.

STANGE MEMORIAL CLINIC

When Dr. Stange became dean, there were no departments and only four instructors. At the time of his death there were 27 staff members conducting academic and research work in seven departments—*anatomy, physiology, pathology, hygiene, obstetrics, medicine, and survey*, in addition to the Veterinary Research Institute, whose chief purpose is the study of animal diseases.

When a heart attack abruptly terminated Dean Stange's career at the age of 55, Dr. Charles Murray, then head of Veterinary Research, was appointed Dean. The construction of the Clinic indicates the progress of the Division under his leadership.

The Veterinary Division has been remarkably successful in the placement of its graduates. Desire to save the profession from overcrowding has resulted

C. H. COVAULT

H. D. BERGMAN

in careful selection of applications for admission into the Division, and much of the Division's personnel "problem" has been to supply enough graduates to fill the available positions.

Of the 882 graduates in Veterinary Medicine, beginning with Dr. George C. Faville, 1879, 780 are still living. Of these, 65 percent are engaged in private practice, 12 percent in federal work, 5 percent in education, 2½ percent in research, 5 percent in state and municipal sanitary work, 3 percent in the army, and the remainder in commerce and other occupations. Iowa State alumni are now serving on the staffs of nine of the ten veterinary colleges of the United States, and seven, either now or in the past, have served as deans.

The Iowa State veterinary faculty includes graduates of 10 institutions and six veterinary colleges. During 1937 staff members delivered papers or addresses at 30 scientific meetings.

Honors to staff members during 1937 included: H. D. Bergman, president-elect of the American Veterinary Medical Association; H. E. Biester, president of Iowa State College Chapter of Sigma Xi; C. H. Covault, president of Iowa State College Chapter of Phi Kappa Phi; I. A. Merchant, secretary of section on food hygiene of the American Veterinary Medical Association; chairman of committee on communicable diseases affecting man, International Association of Milk Sanitarians; Charles Murray, appointed Dean of the Division of Veterinary Medicine, Iowa State College; elected to honorary membership in Phi

S. H. McNUTT

Beta Kappa; S. H. McNutt, national president of Phi Zeta; E. F. Waller, national secretary-treasurer of Phi Zeta.

Two noteworthy events occurred in the Veterinary Division in January, 1937. On Jan. 19, 20 and 21 Iowa State veterinary faculty men took a leading part in the annual meeting of the Iowa Veterinary Medical Association in Des Moines.

On Jan. 28 the college committee on curricula announced the abolishment of the 6-year veterinary course. Insufficient demand and administrative complications were given as the reasons.

But it was the construction of the new clinic and the remodeling of the Court which made 1937 a banner year in Veterinary history.

C L A S S E S

H.C. Hug
38

Greatness can come to a college from two principal sources: the faculty and the student body. It is essential that each be of high quality, and neither can be overshadowed by the other. Only when there is a student body with the proper perspective and a faculty that is aware of the great place that it plays in the scheme of things does an institution gain a world-wide repute such as is enjoyed by Iowa State College. We members of the Class of 1938 humbly hope that we will be able to maintain the reputation that has been established by our predecessors, though we realize that to follow in the footsteps of those that have gone before will be no easy task.

We came to Iowa State to learn to live a life as well as to learn to make a living. But this does not mean that our purpose is a selfish one. Because of the superior training that we have been given by the community, it is our duty to make life richer and happier for those about us. The opportunity for this is boundless. The world which we enter as we leave the sheltering walls of Iowa State College is a troubled world, seething with unrest. There are numberless problems that need to be solved. Intelligent and capable leadership is needed in many fields. Will the Class of 1938 accept the challenge presented by present day conditions?

Iowa State, we have enjoyed the four happy years we have spent on your campus in close companionship with your unselfish and brilliant faculty. We pledge ourselves to advance your success and further your recognition. If we, the Class of 1938, fail to fulfill this pledge it will not have been your fault for you have prepared us well.

A handwritten signature in cursive script that reads "D. Hale Johnson". The signature is written in dark ink and is positioned to the right of the main text block.

President, Class of 1938.

STUDENT GOVERNMENT

1938 proved the most colorful in 34 years of Cardinal Guild history. Breaking precedent from the start, the student governing body elected a woman president, the second ever elected. Newly printed constitutions were distributed to all campus organizations and college administrative officers. Summer Guild was elected, held a dance, and studied limitation of student activities. Fall quarter saw the usual fight over budget expenditures. Items that loomed large were Freshman pins, Intramurals, Guild sweaters and numeral awards. Freshmen were welcomed at special convocation. Homecoming, a costly item that paid for itself, was the biggest ever with Pep Rally, Pep Queen, Delores Swigert, a colorful rooting section, and a hard-fought game with Missouri.

Guild reorganization was again a question. Organizations wanted representation; the Guild refused to overflow its small meeting room. More woman representation was the cry. Members were charged with desiring to "pack" the Guild. Dissension rent the governing body, but all pleaders for admittance were refused—with universal approval. The student body called for a specific program. The Guild set to work on activities limitation. Faculty action sanctioned the list of "one only" major positions recommended by a joint Guild-faculty committee. And Cardinal Guild entered its thirty-fifth year of student government.

The Joint Social Council, composed of representatives from all organized houses, which includes fraternities, sororities and dormitories plus wards and clubs, will write a finis to its activities for another year as spring quarter shoves into sight.

This year various informal discussions prevailed at the Joint Social Council meetings; these meetings being conducted by council members. The pertinent topics included in these discussions were: proper introductions, table etiquette and general good social conduct.

This year, as in every year in the past, the Joint Social Council appointed a committee to be known as the Campus Varieties Committee. This group has charge of the Campus Varieties programs put on each Friday night. Also, in addition, the committee sponsors the Sor-Dor Sing, Campus Varieties Competition Night and the Style Show.

This year the committee was composed of Betty Whipple, chairman, Bob Kruse, Audra Fowler, Keith Cochran, Bill Schworm, Eileen Womeldorff and Pat Larson.

Composed of the social chairmen of each of the 13 wards and a representative from the Ward Executive Council, the Ward Social Council meets regularly to plan a gay social life for members of the organization. This year the full calendar of events which the council sponsored included firesides in Catherine MacKay Auditorium, Friday night dance exchanges and two major dances held in Great Hall of Memorial Union.

The annual Ward Round-Up, the big jamboree of the fall quarter, was a get-acquainted party for ward men and for dormitory women and town girls. On another evening all of the nine sororities on the campus were hostesses to a group of ward men at dance exchanges held in their various houses.

This year Freddie Schlott played for a brilliant Ward Winter Semi-Formal. A feature of the evening popular with the women guests was a system of frequent exchange of dances—a real innovation on this campus. The traditional Ward Formal was held spring quarter.

Memorial Union, "our college club," the play house of Iowa State students, student social center, makes a large contribution to the recreational and social life of the students at Iowa State College. A large part of the program which makes the Union the service that it is on the college campus is under the direction and sponsorship of the Memorial Union Student Board of Directors.

Of the total of 28 directors who guide the destinies of the Union, ten are undergraduates. These ten, composed of students elected at all-college elections and some ex-officio members, are organized as the Student Board of Directors and to them is also delegated the approval of budgets for all student affairs in the building.

Twisters, varieties, Friday and Saturday dances, dinner dances, coffee forums, lectures, musicals and vesper services all are wholly or in part attributable to the student board. The increase in college enrollment has expanded the work of the Union. Such items as the scheduling of an additional twister during the week and the opening of the Trophy Tavern are marks of the expanding program.

One of the students, Jane Helser, has been named as student social director to work with Mrs. M. L. King, the Union hostess. Delegates to the National Union Convention were Harold Pride, managing director, and George Arnold.

The Agricultural Council serves as a unifying body for the Agricultural Division. It is composed of a junior and senior representative elected from each of the departmental clubs and the editor of the Iowa Agriculturist. The council assists with the Agriculture Reception for freshmen during Freshman Days. During Veishea the council helps with the Ag Open House.

Harvest Ball and Carnival was one of the big social functions of the fall quarter. At the Ag Banquet, which was held in Great Hall, C. V. Gregory, guest speaker, spoke before the 300 agricultural students and faculty members. Mr. Gregory, assistant publisher of "Wallace's Farmer," and for 25 years the editor of "Prairie Farmer," is an alumnus of Iowa State and was president of the Ag Club while a student. The old Ag Club has since been replaced by the council and general convocations.

The convocations are all student affairs. Students plan and participate in the programs and because of their interest attend these meetings of their own volition.

During Farm and Home Week the council sold candy in Ag Hall, from which the profits will be used next year for the reception during Freshman Days. In the spring the Ags held their spring formal in Great Hall.

The Agricultural Council elects a representative to Veishea Central Committee and one to Cardinal Guild. A. B. Caine is faculty advisor.

Who swings out in the fall with that super-colossal fun-fest, the Engineers' Carnival?

Who sponsors the Engineers' ball, the high-water mark of winter quarter social activity where old St. Pat reappears each year to dub his knights and knight his dubs?

Who hands out the cider and doughnuts to thirsty prep engineers and hand-sore faculty members at the annual freshman reception in the fall?

Who sits up on the stage and raffles off the I. E. S. lamp, the stuffed cardinal-and-gold puppy and the assorted T. and A. M. reports at the fall quarter convocation of the Engineering Division?

Who jealously guards the Blarney Stone against the ever-covetous hand of the Ags?

The answer is unanimous—"The Engineering Council!"

Like Captain Noah's Ark, Captain Willis's Engineering Council is built around pairs—a junior and a senior representative being elected by the student society of each of the nine departments in the Engineering Division. The editor and business manager of the Iowa Engineer magazine complete the 20-man roster of the council.

The dog days of the council come between the ball and the election of officers during the last few weeks of the spring quarter, but from Freshman Days until the Blarney Stone vanishes with St. Pat the boys are ever working for the engineers at Iowa State.

The Home Economics Council, executive council for the Home Economics Club, determines the policies and activities of the club.

Iowa State was represented at the National Home Economics Convention in Kansas City last summer by Marian Rahn, president of the club and also president of the state organization, Mary Ellen Lynch, Gay Starrak, Olive Swanson and Marian Mercer.

The Iowa State Home Economics Council was hostess at the State Home Economics Convention last fall, the purpose of which is to correlate college and high school clubs. Guests were the University of Iowa, Coe College, Grinnell College, Simpson College and a large representation from the high schools of the state.

Opening the fall formal season was the annual Home Economics dance. Members of the club entertained their dates to the rhythm of Tom Gentry's orchestra. To Marie Larson goes credit for the success of the affair in general; decorations were cleverly arranged by Louise Pfautz; and tickets were distributed by Betty Hollister.

Due to the change in class schedules, it fell to the council to reorganize the club program for the coming year. In place of the regular Thursday morning convocations, meetings will be held on the second and fourth Tuesdays of the month at four in the afternoon. A new addition to the organization is the freshman club, which has its own officers, the president of which, with an upper class sponsor, will sit on the council.

INDUSTRIAL SCIENCE COUNCIL

This year's Industrial Science Council goes on record as having sponsored the first Industrial Science divisional dinner, which was held early in the fall, and the only divisional costume ball, the Rail Splitters Swing.

Science Day, conducted for all high school students in the state, was held under the Council's supervision as was the Freshman Days reception for all new Industrial Science students.

Each year the Council publishes personnel leaflets for all graduating seniors in the division to help them secure positions. Tuesday morning bi-weekly radio programs have been another project of the past year's council.

William Friley, president of the organization, represented his division on Cardinal Guild and George Arnold, vice-president, was the council's delegate to Veishea Central Committee. June Gaylord was the secretary-treasurer.

There are nine members on the Industrial Science Council: four seniors, three juniors and two sophomores. The body is elected by an all-divisional election held every spring.

A brilliant Bomb Ball featuring maestro Maurie Sherman climaxed a year of unprecedented expansion for Iowa State's yearbook. April 9 was a big night for members of the staff—soft lights . . . swing music . . . and the hush of suspense before the presentation ceremony. Four Bomb Beauties, chosen by McClelland Barclay, nationally known illustrator, and the 1939 selections for editor and business manager shared the spotlight with Iowa State's Representative Couple, whose pictures appear on the division pages of the book.

Miriam Richardson headed a small but efficient Bomb editorial staff this year. Associate editors, Tom Gauthier and Harold Birkness assisted and filled in nearly every capacity during the course of the year. Tom's principal task, however, was arranging layouts, while Hab planned and scheduled athletic and division page pictures.

Virginia Quaife was copy editor. Assisted by Bob Philips, she read, edited and re-typed all copy for the yearbook. Betty Feyder filled the tedious position of index editor.

Marian Glidden scheduled the 138 organization pictures. This involved an average of an hour a day telephoning. Her assistant, Bill Steltzer, was responsible for bringing the pictures from the studio to the Bomb office. Ruth Deems had charge of checking senior pictures, while Jane Mason and Doris Rooke took care of the new visiting artist section. The faculty division, greatly enlarged in this year's book, was under the direction of Margaret Morgan.

The 1938 Bomb has more pictures than any previous book. Some of the staff photographers were Montgomery Houston, Gregory Knowles, Ed Sandham, Joe Dain, Max Davis and John Hay.

Copy writers included Francis Byrnes, Veishea; John Rohlf, Sports; Gay-nold Carroll, Features; Betty Gaylord and Bob Bliss, Faculty. Other sections were written by a group headed by Marie Larson with Jane Helser, Marian Weinel, Beth Cummings, Barbara Field and Morgan Johnson, assisting.

Doing a variety of tasks for the various staff heads were Zoe Smith, Betty Quaife, June Blake, Betty Jones, Edith Dillon, Dorothy Wolverton, Dorothy Roost, Dick Cain and Jack Yirak.

 Third row: Bush, C. Radcliffe, J. Smith

Striving for new records during the first six months of the year, and then pressing the editorial staff to actually produce the "wonder book" they had promised—by the opening day of Veishea—was the chief concern of the business staff.

During the spring and summer months Cyril Radcliffe, Business Manager, formulated budgets, arranged contracts and laid out campaigns, thus providing a basis which gave a flying start to the varied activities of the business staff.

The first concentrated drive centered about the sale of senior pictures and Bombs. An efficient staff, headed by Richard Boudinot, Sales Manager, turned in records in both of these endeavors. The sales campaign was opened by the sororities who canvassed the organized houses. Thereafter, convocations, registration lines, and numerous group meetings were exploited to meet the demands of an ambitious editorial staff.

Lawrence Searing handled the accounts for campus organizations, and Robert Cannon, bookkeeper, tried to make the "ins" at least equal the "outs" by juggling the figures to satisfy the business manager, Miss Glendora Briley of Student Organizations, Phil Jennings of the Auditing Department, and the Bomb Board.

CYRIL RADCLIFFE

Plans for an outstanding book brought increasing costs of production, and when it looked as if the year would end in the red, Art Radcliffe, Advertising Manager, and his staff, Mary Bush, Jay Blount, and Jean Taff, went out to sell more advertising. Des Moines and Ames were thoroughly canvassed and financial success was finally assured.

Active members of the sales staff were Robert Strom, Al Miller, Billy Cash, Jean Vieth, Dolores Carlson, Peggy Woodward, Francis Berger, Charles Durham, and Jack Morrison. Jo Smith served as the general secretary for the Business Staff.

The competence and enthusiasm of the staff is evidenced by a forty-four percent increase in circulation, for an all-time record of 3,025 books, and by the equally thorough coverage in organizations, senior pictures, and advertising accounts.

An able Student staff began a year of hard work the spring of 1937. Bob Bliss, as editor, followed a conservative but highly progressive policy. The driving force which kept reporters surging over the campus in a constant search for news was Francis Byrnes, managing editor.

Issue editors appointed in the spring were Walter Barlow, Cliff Briggs and Bob Long. Clyde Zimmerman, Bob Crossley and Gene Hamilton served fall and winter quarters. Assisting them in writing heads and reading copy were Bob Wheeler, Ole Lande, Tom Kennedy and Lee Bagby.

Jim Henderson edited the sports page and wrote his column, Sports Spotlight. His crew of reporters included John Rohlf, Jim Schwartz, Bob Jones, Dick Wilson and Jack Gleason. Ruth Sawin was women's editor.

A new feature was Women's I View, a column which Gaynold Carroll edited in addition to taking general charge of home economics and society news. Assisting her were Harriet Graves, Marian Glidden, Jane Helser, Margaret Sheridan, Margery Bell, Marjorie Pettinger and Gwen Griffith.

Society was in charge of three editors a week, one for each issue. Barbara Field and Jo Betty served two quarters, while Mary Bush took Margaret Burnstedt's place winter quarter.

Emphasis was placed on feature articles. Those who contributed many articles of this type in addition to doing regular news reporting were: John Van der Linden, Marian Glidden, Tom Kennedy, Ruth Sawin, Tom Stanton, Jim Schwartz, Ethel Overholt, Helen Crane, Louis Champlin and Frank Shook.

Columnists included Bob Bliss, who reviewed world news in his front page column, Panorama; Bob Crossley, who covered intercollegiate news in Collegiate Carousel, a feature of the editorial page; and Welch Richardson and Dick Hull who covered themselves with friendly enemies by writing Ballyrot.

Reporters George Arnold, Van der Linden and Rohlf contributed the greatest number of column inches during fall and winter quarters. The faithful group of general reporters included: Parry Dodds, Betty Gaylord, Warren Lasser, Barbara Zemke, Victor Bluedorn, Hadley Read, Dean Clark, Bob Mannion, Frances Moffman, Berneice Williams, Beth Johnson, Maurine Smith, Beth Cummings, Kay Dodds, Bill Schworm, Marian Gutz, Daisy Kimberly, Bob Garnett, Don Gillam, Charles Busler, Bob Ortmeier, Lois Ludeman, Frances Dickerson, John Townsend, Ruth Kunerth and Marie Larson.

Top row: Busler, Schworm, Garnett, Stanton, Lande, Shook, Ludeman, Van der Linden, Kimberly, Rohlf
Second row: Clark, Kennedy, Pettinger, Graves, Hoffman, K. Dodds
Third row: Field, Helser, Cummings, Glidden, Overholt, Griffith, Gutz, Sawin
Fourth row: J. Henderson, Crossley, Carroll, Bliss, Byrnes, Zimmerman, Hamilton

Left to right: Briggs, Kraus, Mores, Armstrong, Spates, Summers

"How many pages tonight?" "How many inches of advertising?" are questions frequently shouted from the editorial den to the business office of the Iowa State Student. Those two questions are only a small part of the varied responsibilities of the business office.

The financial support of the paper rests entirely in the hands of the business manager and his staff. The Student applies the same rules of economy and practice as do all newspapers. The life blood of the Student is its revenue from advertising plus the subscription fees. The printing bill itself averaged \$1,000 a month last year. Financially, the Student enjoyed its best year since pre-depression days.

Such things as salesmanship, collection, circulation, advertising, copy-writing, promotion and merchant contacts are counted as important to the future business careers of staff members.

A major tradition was added to the college last year when the business manager, Leo Mores, inaugurated the first all-college style show, sponsored by the Student.

Lively fun was injected into work with the traditional rivalry that exists between the editorial and business offices. But all in good sport, the rivalry was climaxed and soothed with staff parties.

LEO MORES

Throughout the week ad solicitors are busy making ad layouts and soliciting advertising. After the ads are sold, page dummies are made and about midnight the paper goes to press. Salesmen are Garner McNaught, Eddie Ferrel and Bob Swatosh.

George Spates was appointed advertising manager at the beginning of the winter quarter, filling the position left vacant by Cliff Briggs. Kenneth Fulk and Eugene Armstrong were in charge of layout and John Fischer handled national advertising.

At the end of the month George Summers, Jack Heskett, Dave Thurlow and Dorothy Kraus begin their collection of accounts. Accounting work and circulation were handled by Frank Berry. Last year \$2,000 was paid to carriers for delivering the Student.

Rosemary White, Isabel Buechner, Jeannette Ackerburg and Jean Vieth composed the secretarial staff.

Now something more than the "house organ" of the largest agricultural college in the world, the Iowa Agriculturist greeted 1938 with a new "face-lifted" two-color cover.

More revolutionary, though, than the exterior change of the magazine was the revision in the editorial policy. Since last November the Agriculturist has been attempting a job which is now being done in the magazine field.

With the motto, "the newest in agricultural research," the agriculturist is endeavoring to present first-hand, in popular style, the very latest in agricultural research both on the Iowa State campus and other places.

Assisting the editor, business manager and circulation manager of the Agriculturist has been a Magazine Management class under the direction of Prof. Blair Converse. Editors for the departments in the "Ag" Division were drawn primarily from this class; other staff positions are open to all.

Members of the Publication Board are F. E. Ferguson, chairman, Prof. J. C. Holbert, Prof. B. J. Firkins, Kenneth Fulk, Henry Kling and Jim Henderson.

Assisting James Henderson, editor, as departmental editors were John Rohlf, Wallace Inman, Clyde Zimmerman, Francis Byrnes, Bob Swatosh, Bob Wheeler, Bob Long, John Townsend, Ole Lande, Bob Bliss, Maurine Smith and John Klas.

Editorial assistants were Franklin Shook, Keith Myers, Dick Bruene, Bancroft Henderson, Lester McMillan, George Burns, Glenn Blake, Don Van Evera, Everett Webster, George Morrison, Max Naylor, Harold Rice, Francis Kutish, Hadley Read, Ralph Bachman, Louis Champlin, Tom Lundy, Bob Collison, Kenneth Hutchinson, Henry Espensen, Marian Glidden, Tom Kennedy and Tom Wickersham.

Assisting Kenneth Fulk, business manager, were Eugene Hayward, Norman Rathje, Glenn Saha, Joe Higgins, John Cord, Jack Pontius, Harold McCord, Edward Engstrom, Stanley Terrill and Norman Stamp, collections manager.

Henry Kling served as circulation manager the first two quarters but resigned in favor of Allan Jauer last winter quarter. Circulation assistants were Don Helbe, Horace Westcott, Tom Beckett, Beryl Keen, Carlyle Gauger, Rollin Bass, Arthur Kleepsie, George Johnson and Earl Lyon.

 Fourth row: Weirick, Ritts, Morgan, Martin, E. Anderson, V. Anderson, Bierman, Carney, Akins

During the last year a number of changes in The Iowa Engineer, a monthly magazine published by the students of the Engineering Division, have helped add to its reader appeal.

The cover, rated third best among the publications of the Engineering College Magazines Associated last year, continued to improve with selections of more attractive color combinations. It was also improved by listing the outstanding feature articles in the issue, as well as by including on it a large issue number which aids in filing, as well as adding a little sparkle.

Inside the magazine the new style of type used for the heads and the more liberal usage of illustrations added to the appearance of the pages which had formerly been staid and conservative.

Perhaps the single most important change in the magazine was the addition of Engineering Focus, a department consisting of two pages devoted entirely to pictures of interesting engineering accomplishments.

As a little side project this year, The Iowa Engineer depleted its reserve fund several hundred dollars to publish, in cooperation with the Engineering Personnel Office, a directory of engineering alumni. The directory, the first published since 1925, and the most comprehensive ever attempted here, was a 156 page book.

Assisting E. L. Anderson, editor, on the editorial staff were Joe Martin and Harry Morgan, associate editors; Charles S. Ritts, art editor; Warren Deck, alumnitem; Allen Erdman, events; and John Akins, Frank Bias, Gordon Churchill, Mervin Coover, Harry Devereux, Robert Eddy, Joel Geister, John Keller, Herbert McMillan, Charles Marks, Paul Metzler, Richard Miller, William Mueller, Howard Schneider, Robert Snyder, Carlton Souder, Bernard Sutton, Gordon Walter, Simon Wareham and John Wentz.

ELLERT ANDERSON

VIRGIL ANDERSON

Members of the circulation staff were Kreigh Carney, circulation manager; Wesley Frels, Ed Hirsch, William Johnson, John Junck, Joe Little, Jack Morrison, Joe Reivers and Otto Tennant.

Advertising was sold by Milo Bosworth, Kreigh Carney, Robert Esser, Tom Little, Gordon Putnam, Robert Rice, Robert Wareham and George Weirick.

General manager of The Iowa Engineer was V. W. Anderson.

The voice of the ever increasing Home Economics Division, the Iowa Homemaker, appears monthly as the only college home economics publication of its kind. With its growth in circulation, the Homemaker has grown in size until it now assumes 20-24 page proportions.

The editorial staff headed by Peggy Schenk, editor-in-chief, assisted by Gay Starrak, managing editor, consisted of Eunice

 Third row: Kennedy, Rohlf

Quite voluntarily this year the Green Gander, published by Sigma Delta Chi and Theta Sigma Phi, journalism fraternities for men and women, turned over a new leaf, shed its traditional plumage as the ugly duckling of Iowa State journalism, and emerged entirely renovated as Iowa State's Magazine of Collegiate Life.

The old paste pot and shears passed into oblivion as the staff turned its emphasis to features, pictures, fiction and humor truly representative of life on the campus. The result: a magazine larger, more lavish, more costly, and more popular than ever before.

The Homecoming number, first under the new plan and featuring Delores Swigert, the Green Gander Glamor Girl, sold out in three hours. Doris Young and Alvina Iverson, representative Iowa State coeds, were honored with full-page lithographic portraits in the Christmas and Valentine numbers, respectively.

The staff included: Bob Crossley, editor; Maurice McMurray and Leo Mores, business managers; Francis Byrnes, Beth Cummings and Betty Gaylord, associate editors; Ed Strauss, advertising manager.

Andy Hoff, Bob Booth, Bob Foeller, Toby Sedgley, Helen Vermeer and Alice Minich, artists; Frank Shook, Montgomery Huston and Joe Dain, photographers; Ronnie Ronningen, linoleum block artist.

Editorial contributors: Clyde Zimmerman, Seymour Banks, John van der Linden, Tom Kennedy, Jim Henderson, Ole Lande, Gene Hamilton, John Rohlf, Jean Vieth, Ruth Sawin, Daisy Mary Kimberly, Nina Duckworth, Dorothy Evans, Bill Hynes, George Arnold, Welch Richardson, Dick Hull, Elizabeth Ann Dickinson, Alvina Iverson, Bill Jensen, Cliff Briggs, Ruth Kunerth, Bob Long, J. Verald Brown, Helen Miller, Bob Dobbin, Merrill Samuelson, Frances Lennon, Jane Currie, Kathleen Schuldt and Freddie Poole.

Members of the business staff were: Walt Jackson, Mary Ellen Lynch, Caroline Hyde, Marian Glidden, Helen Waldron, Marisue Cash, Bette Huss, Helen Greer, Doris Bruene, Virginia Lynch, Marjorie Anne Pettinger, Dorothy Kraus and Doris Rooke.

BOMB PUBLICATION BOARD

OFFICERS

PARRY DODDS.....	President
JAMES HENDERSON.....	Vice-President
MARGARET STANTON.....	Treasurer
LEAH SCOTT.....	Secretary

The Bomb Publication Board was incorporated July 14, 1926, for the purpose of publishing and selling the Iowa State College year-book, the Bomb.

This year the Bomb Board applied for and received membership in the Collegiate Press Corporation, which was previously owned by the Iowa State Student, Iowa Homemaker, Iowa Agriculturist and Iowa Engineer.

STUDENT PUBLICATION BOARD

OFFICERS

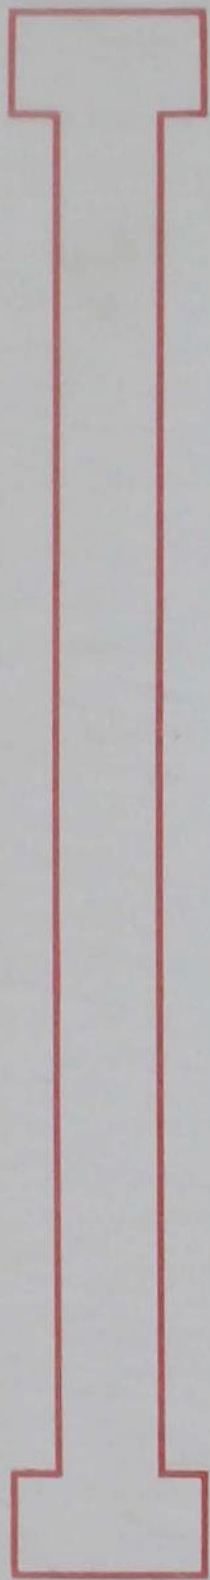

GEORGE ARNOLD.....	President
WILLIAM SCHWORM.....	Secretary

The Student Publication Board is composed of students elected at an all-college election and of faculty members appointed by the president of the college. The editor and business manager of the Iowa State Student are ex-officio members of the board.

Meeting the third Thursday of each month, the board directs the policies of the Student. Besides other business, the board annually names the editor and business manager of the college newspaper and approves other appointments to the Student staff.

Top row: Blair Converse, Gene Hamilton, Alvina Iverson, Robert Long, A. Starbuck
 Second row: Leo Mores, George Arnold, Bob Bliss

HONORARIES

Following the precedent of a well established tradition of Iowa State, every spring during a public ceremony at Veishea, outstanding men of the junior and senior classes are "tapped" for membership in Cardinal Key.

This senior honorary organization selects new members after considering the qualities which candidates have in leadership, character, scholarship and service to Iowa State. Membership is gained by candidates who have the strongest support of representative men of the junior and senior classes, the faculty and the active members of Cardinal Key.

After selection of the men who are to be "tapped," plans are made for the annual tapping ceremony on the central campus lawn between Agricultural Hall and Central, just beneath the Campanile. Six men in scarlet robes gather on the last afternoon of Veishea to search the crowd of students and Veishea guests for the men to be honored. One at a time the scarlet robed active members file through the crowd until the selected candidate is found. Then, with a hearty slap on the back, the student learns of his distinctive recognition.

One of the main activities of the Cardinal Key organization which has become apparent the last few years is to sponsor jointly with Mortar Board, women's senior honorary, a campus leadership conference. Growing interest in the problems of student government and other common problems in the life of a college student are brought up for forum discussion once each year, usually the Winter Quarter. After the group discussions, an outstanding visiting speaker is heard by attending students. This past year, Bishop G. Bromley Oxnam, Religious Emphasis Week speaker, was leader of this meeting.

Success in the selection of topics for discussion and in directing interest was indicated this year by the record breaking attendance of more than 150 student leaders at the conference and noon luncheon.

Originally set as a purely inactive organization, Cardinal Key has undertaken to sponsor this leadership conference with the help of Mortar Board, thereby hoping to help the coming student campus leaders.

Regularly the active members of the organization gather for Sunday breakfast to strengthen the ties of friendship gained through the recognition honor which they have received.

The highest honor that can come to any Iowa State woman is membership in Mortar Board, service honorary for outstanding senior women. Only eight were elected to membership this past year, but that number may vary from six to twenty. Included in the requirements for membership are leadership, service to the college and a scholastic rating of .3 above the all-college average for women.

Mortar Board gives its service to the campus by conducting a candle light service for new women at the beginning of each school year and coordinates annually with Cardinal Key in sponsoring the leadership conference.

This year the organization gave its first recognition dinner for leading sophomore, junior and senior women. The cap and gown service for graduating seniors and the Mother-Son-Daughter luncheon at Veishea time are among other projects directed by Mortar Board.

New members are selected every spring from the present junior class and are informed of their selection at the tapping ceremony held under the Campanile each Veishea. Doris Young is president of the honorary; Minerva King, vice-president; Marian Rahn, secretary; June Gaylord, treasurer; and Peggy Schenk, editor.

The fraternity of Alpha Zeta is founded upon the principle of service to agriculture. Its members are selected from among those students high in scholarship who possess traits of character, personality, ambition and high ideals which qualify them to be the future leaders in agriculture.

Not strictly an honorary society, Alpha Zeta is progressively active on this campus. The chapter sponsors weekly radio talks through station WOI in which the work and training offered by each department of the Agricultural Division are clearly defined. The organization has promoted active interest in the rural youth of Iowa by becoming a member of the student section of the American Country Life Association and sponsoring rural youth leadership conferences at which all colleges and universities in Iowa are represented. This year the third conference was held at Simpson College, Indianola. It awards, in conjunction with Gamma Sigma Delta, a key and scroll each year to the highest ranking freshman in the Agricultural Division. It presents to the students of this college a program of recreational leadership each spring in cooperation with Prof. Ray Wakeley of the Rural Sociology Department.

Alpha Zeta is represented by active chapters in all outstanding agricultural schools in the United States.

The constitution of Eta Kappa Nu gives as the purpose of the association, "That those men in the profession of electrical engineering, who, by their attainments in college or in practice, have manifested a deep interest and marked ability in their chosen life work may be brought into closer union whereby mutual benefit may be derived—" With this purpose in mind, Nu chapter of Eta Kappa Nu elects men to membership from the junior and senior classes in electrical engineering on the basis of scholarship, character and personality.

On this campus the association seeks to promote scholarship among electrical students and to bring to their attention matters beyond the scope of the formal curriculum. In pursuance of these aims, it gives each year a copy of the Standard Handbook for Electrical Engineers to the junior student making the highest scholastic record during his freshman and sophomore years, and it instituted this year a program of open meetings for electrical engineers at which speakers discussed subjects of general and cultural interest.

Kappa chapter of Tau Sigma Delta was organized at Iowa State College in 1930 as an honorary fraternity in architecture and landscape architecture. The purpose of the honorary is to "unite in a firm bond of friendship, such students of architecture and allied arts . . ." The national organization consists of 12 active chapters, the first of which was founded at the University of Michigan in 1913.

Outstanding upperclassmen from the departments of architectural engineering and landscape architecture are named to membership in the society upon approval by the faculties of their respective departments. New members are initiated at an annual spring banquet. The organization's colors are gold and white and the red rose is its flower.

During the school year Tau Sigma Delta sponsors the showing of exhibits on the campus. The exhibits include those of architectural and landscape architecture competitions. Don Ralya, a member of the chapter in 1937, is now studying in Europe on a scholarship awarded him for winning the Ryerson Traveling Fellowship competition.

Phi Upsilon Omicron looks back on an eventful year. Memorable for many reasons was the weekend that Omicron chapter welcomed National Inspector Miss Mabel Campbell, Dean of Home Economics at the University of Missouri. Initiation ceremony was held for 25 new members. And the climax came Sunday, Jan. 23, when the portrait of Anna E. Richardson, Dean of Home Economics at Iowa State from 1922-1926, was unveiled. The painting is the work of the noted artist, Edmund Geisert.

Founders' Day was celebrated with a huge white cake decorated with candles. The meeting was attended by 50 active and alumnae members.

Students who are above average in scholarship and who are taking their third year of college mathematics are named annually to membership in Pi Mu Epsilon, honorary mathematics fraternity. An annual prize is awarded by the organization to the student who ranks highest in mathematics and general scholarship. The award was presented this year to Arthur Wahl.

Besides holding regular meetings of its own, the chapter sponsors a mathematics club which is open to the public. Programs at the monthly meetings include proofs of formulae, discussion of mathematical oddities and related subjects.

Sigma Delta Chi, professional journalism fraternity, this year marked its twenty-third birthday by sponsoring the annual Gridiron Banquet, traditional razz fest at which 300 townspeople, Iowa newspapermen, faculty and students were guests. The program was under the direction of Palmer Kalsem.

Undergraduate membership in Sigma Delta Chi is based primarily on professional intent to enter the field of journalism upon graduation from Iowa State College.

For the past five years the Iowa State chapter has ranked second in the national efficiency and chapter activity contest sponsored among chapters of the fraternity. Ten delegates were sent to Topeka, Kan., last fall to attend the annual chapter convention: Leo Mores, Francis Byrnes, Eugene Hamilton, Bob Crossley, Ole Lande, Palmer Kalsem, Clyde Zimmerman and Rodney Fox.

Francis Byrnes received the annual gold wrist watch award for the student doing the most outstanding editorial work on the campus during 1937. Sigma Delta Chi also gives scholarship awards to students and has established a permanent plaque honoring journalism scholarships. Marjorie Griffin's name was added to the plaque in 1937.

Together with Theta Sigma Phi, the chapter publishes the Green Gander.

As is customary, the chapter presented four cups to Iowa newspapers at the Iowa Press Association meeting in Des Moines last spring. The cups are awarded for service to agriculture and to the community.

Theta Sigma Phi is a national honorary and professional fraternity for women in journalism. Its objectives are improved writing and an appreciation of good journalism among its members.

Upperclass women who are specializing in journalism are eligible for membership. Additional requirements include good scholarship, high grades in journalism, meritorious work on two campus publications, and evidence of professional ability.

Theta Sig cooperates with Sigma Delta Chi in publishing the Green Gander, Iowa State's magazine of collegiate life.

Matrix dinner, a formal dinner held each spring, is sponsored by Theta Sigma Phi and an outstanding writer secured as speaker. Marjorie Hillis, best seller author, was presented by the chapter this year and was made an honorary member of the local chapter.

Other guest speakers during the year have been Katherine Clayberger, Associate Editor, Woman's Home Companion; Wheeler McMillan, Editorial Director, Country Home; Gladys Denny Schultz, Associate Editor, Better Homes and Gardens; Ruth Hogeland, Beauty Editor, Country Gentleman; Miriam Williams, Foods Editor, Farmer's Wife; Ruth Elaine Wilson, Feature Writer, Successful Farming; Elizabeth Beveridge, Household Equipment Specialist, Woman's Home Companion; Louise Huston, Stylist, American Bemberg Corporation; Ida Migliario, Editor, Household Magazine; Virginia Porter, Home Economics Director, Libby, McNeil and Libby.

Phi Mu Alpha elects to membership those men on the campus who can fulfill the qualities suggested in the motto, "The musicianly man and the manly musician in America." Purpose of the fraternity is "to advance the cause of music in America, to foster the mutual welfare of brothers in Sinfonia, and to further the brotherhood of students of music."

One of the 70 chapters of the national music fraternity, Alpha Delta chapter was organized to promote a greater appreciation for music on the campus. It selects its members from students who have done at least five quarters of work with the band, orchestra or glee club. The bi-weekly meetings of the organization are notable for fine music and its appreciation.

During the past year, the chapter has published a new college song book in conjunction with Sigma Delta Chi and sponsored the writing of a new college song. Prize for the song was awarded to Welch Richardson and Howard Chase for "Rise Sons of Iowa State." The annual Interfraternity Sing promoted by the fraternity was won last year by the Tau Kappa Epsilon house with Sigma Alpha Epsilon and Alpha Tau Omega second and third.

Originators and sponsors of the annual "Sor-Dor Sing," Sigma Lambda chapter of Sigma Alpha Iota is actively engaged in interesting the women of the Iowa State campus in music. This year 12 organized houses competed for the traveling trophy that was won last year by the Delta Delta Delta's, and this year by the Pi Beta Phi's. The groups that win one of the first three places are presented over WOI in a Sigma Alpha Iota broadcast. Each year Sigma Lambda chapter presents a Sunday afternoon Twilight Musical in collaboration with the men's music fraternity, Phi Mu Alpha. It has been the custom to present an All-American composers program.

Teas for musically minded women are given every quarter with an accompanying musical recital.

The object of the fraternity is to form a body of representative women who shall by their influence and their musical interest uphold the ideals of a musical education, to raise the standards of productive musical work among women students of colleges; to promote and dignify the musical profession; to develop loyalty to Alma Mater.

Outstanding engineering students are honored for their scholarship, activities and character by election to Tau Beta Pi, national honorary for engineers. Juniors are elected in the spring from the upper one-eighth and seniors the following fall from the top one-fourth of their respective classes. Professor Jack Dodds of the Civil Engineering Department addressed the members at the banquet following last fall's initiation.

Alex D. Bailey was the guest speaker at the annual Tau Beta Pi convocation and luncheon held in Great Hall Feb. 17. Several unsuccessful attempts to retrieve the bunting, staked out during probation to form a Bent, were crowned with success when the sacred colors were rescued by the engineers in a daring foray into the haunts of their arch rivals, the Ags.

 AUDREY SPENCERVice-President

Several members of the local chapter of Chi Delta Phi, national creative writing sorority, have won places in national writing contests of the organization. In poetry, Audrey Spencer placed first and Ruth Swanton third, while Bessie Spratt and Carol Brueck received honorable mention. Ruth Swanton also placed third in the short story competition.

In another national short story contest, "Winning a Wife-Woman," by Esther Brucklacher received one of the first prizes. Annual creative writing exhibits at Veishea and at the A.W.S. Carnival in cooperation with Sketch are other accomplishments of the society.

What a banquet on Olympus was to the gods of ancient Greece, an Inkhorn meeting is to the literary-minded men of Iowa State; an oasis of cultural inspiration and an excuse for a good bull session.

Gathering in the rarified atmosphere of the Cyclone Cellar, this band of campus bards sip of Mr. Pride's nectar and nibble of his ambrosia whilst lending thoughtful ear to the limerick, lyric, song or story of each muse-touched brother.

As an aid in kindling this creative spark in the hearts of those not belonging to the organization, Inkhorn annually dangles before the nose of each student a ten-dollar prize, to be snapped up by the man or woman undergraduate who submits the best bit of original writing.

Delta Phi Delta, national honorary art fraternity, was founded to promote art interest among college students, recognize potential professional art ability and stimulate higher scholarship. Its members are chosen from juniors and seniors in home economics who are art majors.

Following a spring tea, the annual exhibit of the work of the Delta Phi Delta members was held in Home Economics Hall. From this display was chosen the chapter exhibit which was sent to the national biennial convention. The showing of art prints during the year as well as the sale of Mother's Day cards made by the members were other projects of the local fraternity.

OMICRON NU

OFFICERS

 DOROTHY COE, *Vice-President* DORIS YOCUM, *Editor*
 HELEN JOHNSON, *Secretary*

With the recognition and promotion of scholarship, leadership and research in the field of home economics as its objects, Omicron Nu names its members from the junior and senior classes on the basis of scholarship and character.

Activities of the organization include quarterly business meetings, the sponsoring of convocations, banquets and observance of Ellen H. Richards Day. Each fall Omicron Nu awards a medal to the sophomore who obtained the highest scholastic record in her freshman class the previous year. In 1937 this award went to Elizabeth Ann Grawemeyer.

IOWA STATE COLLEGE ON DISPLAY

Big moment . . . Cardinal Key and Mortar Board tap outstanding men and women.

Beards and eyelashes grow apace as make-up crew prepares cast for Pinafore.

Late arrivals hurry to see the first event of opening ceremony.

Photographer catches back view of Tri Deltas backstage at Vodvil.

Giddap! is the word as horses float a display past the judges' stand.

Here are salad ingredients with Opal Hill, Mary Abbott, Jean Sigmond, Jane Helser and Jane Sproul as various vegetables.

It's two men out and three on bases as this player comes to bat.

Dance Club members assume a difficult pose.

Memorial Union dressed in floodlights views its own reflection in Lake Laverne.

Cadet chorus practices goose step for concert dance.

Another trio of dancers dons classic costume to pose.

It's eenie-meenie-minie-mo as judges labor to decide parade winners.

Grecian dancers bend backward to please the photographer.

Sigma Chi's take their stand on the water wagon.

Players assemble on the deck of S.S. Pinafore to take curtain call.

Chi Omega takes first place among sorority floats.

Captain Cunningham grabs baton from teammate. Go! Iowa State!

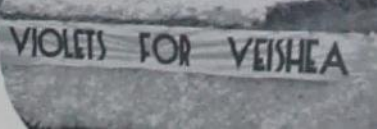

The army joins in Veishea parade.

Machines are prepared for demonstration in Ag Engineering field day.

Pole vaulter clears the bar—barely.

Visitors see the latest in farm implements at Ag Congress.

Alpha Deltas take third place cup with their May basket.

Here the band and glee club combine to introduce the new prize-winning school song, "Rise Sons of Iowa State"—words by Welch Richardson and music by Howard Chase.

Louise Peterson graces the Scabard and Blade float.

The men step right up to get more of those tempting cherry pies.

Waiting in the rain for the sixteenth annual Veishea.

This mountain scene was one which helped Ag Division win the sweepstakes award.

Pi Phi's limber those tops to capture Vodvil prize.

Fred Poole with Vern and some of the lads.

An upset on the Ag Engineering Field Day program.

Mary Bush was the modern miss while Bob Eddy was a quaint Queen Elizabeth.

Ten cents purchased one of the 3,000 scientifically baked cherry pies.

Representatives of winning groups pose with parade posies.

Tri Delta court Posiedon in mermaid garb.

It's going once, going twice, as Keith Lundgren puts in a bid at the auction.

Appropriate for the weather was Delta Tau Delta's sailboat.

The crowd gathered to witness the dedication of the new \$7,000 fountain.

Ods Bodkins, but our captain is a man of dignity.

ATO's have a touch of trouble with the "Stanley Steamer."

Phi Delt pledges erected a sturdy platform near the fountain.

VEISHEA CENTRAL COMMITTEE

Bang! The seventeenth Veishea, the biggest collegiate open house of its kind in the country, opened with fireworks, floats, music, and a Queen of all Queens. For the first time in the seventeen years that Iowa State has been "flinging wide" its doors to the four corners of the state, a Queen of Veishea was chosen at an all-college election the week previous to the festival from a field of beauties never before assembled—all Queens and Ladies chosen during the year. The Queen was presented at the opening ceremonies, attended by the other eight beauties; she rode again in a limousine at the head of the spectacular parade climaxing the 3-day exposition Saturday afternoon.

Directed, produced and presented by the students, with the cooperation, encouragement and guidance of the faculty, Veishea drew about 22,000 Iowa people during May 12, 13 and 14. In addition to the Queen of Queens and the rejuvenated opening ceremonies, the 1938 Veishea presented an entirely new production, the Hippodrome, a combination three-ring circus and society horse show. All major productions, Student Vodvil, Spring Concert and Hippodrome, were presented at the Armory.

Open houses in every department and laboratory; about 3,000 cherry pies being dispensed by beautiful Iowa State coeds; Big Six baseball, track, polo and golf meets; the Cossacks, the only trick horseback riding squad of its kind in the United States; three dances on three consecutive nights; a one o'clock night; tapping of Mortar Board and Cardinal Key members—all these things and more spelled Veishea.

Approximately 2,500 high school boys and girls visited the campus during Veishea to compete in the Junior Agricultural Congress and Homemaking Congress.

To the Veishea Central Committee goes the honor of making the 1938 Veishea stand out in the history of the college. To Prof. C. A. Iverson should go thanks for directing this central committee on to its success.

Simington managed the 1938 Veishea. Bob Bauge acted as business manager fall quarter, when Henry Martin took over. Parry Dodds handled the purse strings, while Minerva King took notes on each meeting. The Hippodrome was the brain-child of Dave King; Ruth Kunerth got gray hairs over the Student Vodvil and the intercollegiate debate; the most artistic production of Veishea, Spring Concert, was Marjorie Anne Pettinger's responsibility. Boudinot, St. Pat to the engineers, lost sleep worrying over how he was going to get seats for everybody. George Arnold promoted the souvenir program; Jim Ramsey spent his time coaxing together a parade that we won't forget soon and prayed that it wouldn't rain; Andy Anderson conferred and conferred with the Athletic Department about Big Six meets; Donald Hansen and Elizabeth Elliott herded thousands of high school boys and girls over the campus for their respective Congresses; Betty Jo Niendorf slaved over the really great opening ceremony, while Beth Cummings ate, drank and dreamed Veishea, as its harrowed publicity manager. The advance sale of coupon books this year was handled by June Gaylord.

Top row: Ramsey, Arnold, Iverson, Dodds, Boudinot, Larson
 Second row: Martin, Anderson, Hansen, Simington, D. King
 Third row: Kunerth, Pettinger, Cummings, M. King, Niendorf, Elliott

PROFESSIONAL CLUBS

A. I. Chem. E. is the symbol of the fastest growing engineering profession. Until a few years ago, when a group of industrial chemists realized the necessity of a separate engineering group, the term chemical engineer was practically unheard of. However, this engineering group was soon able to stand on its own feet due to the rapid increase in the uses and demands for industrial chemical products and the efforts of members of the profession in developing new processes.

With these new developments came the desire for more intimate association in the exchanging of ideas. The result of this desire was the creation of the American Institute of Chemical Engineers. Following this came the student chapter, and Iowa State chapter was organized in 1927.

These student chapters stimulate departmental interest, professional interest, and closer student association by social and academic activities. One of the more intellectual meetings this year was planned around pictures supplied by the Dopp Kettle Co. The pay-off in entertainment came when Joe Martin and Herb McMillan had the leads in "Double Exposure," a one act farce centered about a specialized photographer—a baby photographer.

"God's chosen people," to quote Dr. O. R. Sweeney, also bend their heads to honor those who have excelled in scholarship. Robert Dix and Allen Erdman received awards for superiority during their freshman and sophomore years. For excellence in Chemistry, Walter Wolfe received recognition during the past year.

National competition problems, sponsored by the national organization, form a pastime for Chem E's. A monetary award is given to the winner. Playing an active part in Veishea, the organization rounds out its activities.

The student chapter of the American Society of Civil Engineers at Iowa State holds two meetings every month for the purpose of contacting the student with the engineering profession. For these meetings, outstanding civil engineers are obtained to speak on topics of interest to the student engineer.

The highlight function of the past school year took place when the local chapter entertained the convention of the Iowa section of the American society. The students of the society took an active part in the activities of the convention. Another program of interest was a joint meeting with the other student societies at which Dean T. R. Agg, national director of the society, spoke on "The Value of the Professional Society to the Engineer." Several other programs of especial interest were held such as "The Aerial Survey of Iowa," by Ray Paustian, and "The Engineer in Construction," by O. P. Crowley.

Each spring the society gives a banquet in honor of the freshmen who have selected Civil Engineering as their profession. A prominent speaker is found, and the occasion serves to welcome the freshmen to the society.

In April the student chapter sponsors an inspection trip to Chicago by the senior civils. During Veishea the Civil Engineering Open House and the float are sponsored by the society.

On Thursday after registration the Dairy Club welcomes the new students at a faculty dinner, after which the club meets once each month. Usually the program features a movie or a speaker from the department. The Dairy Council, which meets twice a month, is composed of two seniors, two juniors, two sophomores and two freshmen.

Each quarter the club sponsors some special event. December 3, 150 students and faculty members attended the annual Christmas party. In February the Dairy Club held a banquet in Great Hall. G. Malcolm Trout, a former president of the Dairy Club and graduate of Iowa State College, was the guest speaker. Howard Tellier acted as toastmaster, Ralph Baker as master of ceremonies, and Henry Loos as chairman of the committee. Each spring the Dairy Club sponsors a picnic at Old Pals Field featuring a baseball game in which the faculty play the students.

The Dairy Club float won grand sweepstakes in the annual float parade during Veishea last spring. The club also helps conduct Dairy Open House on the Friday during Veishea. Russ Medin served as dairy sales manager for the school year.

Dedicated to the proposition that a tree is the world's finest creation, and that foresters are not far behind, the Forestry Club distinguishes itself as one of the most active departmental clubs on the campus. Each year the Forestry Club sponsors the Foresters' Hoedown, one of the better rough and ready costume dances. In collaboration with the Horticulture Club, the foresters help manage the annual Hort-Forester ball in the fall. Wild game—deer, antelope and elk—sent by alumni all over the country, forms the main offering at the foresters' banquet held each winter quarter in Great Hall of Memorial Union.

Bill Henry is the editor of the Ames Forester, the foresters' own departmental publication with a widespread circulation. The Forestry Club also sponsors the Forestry Rifle Club. During Veishea the foresters play their part, taking charge of the Forestry Department's display under the leadership of George Burma.

Transforming Catherine MacKay Auditorium into a colorful indoor flower garden, the Horticulture Club successfully staged its annual Little Midwest Horticultural Exposition, better known as the Hort Show. On the same week-end also are held the Horticulture Short Course and the annual meeting of the Iowa State Horticultural Society and affiliated societies. Alvin Nelson, assisted by Bill Collins, was responsible for the general success of the show, while credit must be given to Kenny Fisher for his effective floral displays. Other chairmen include Mark Abels, in charge of oddities; James Dawson, vegetables; Charles May, pomology.

After the show about 25 outstanding horticulture students, instrumental in the success of the show, were taken to Des Moines by the faculty and treated to a dinner as recognition of their work.

Veishea found the Horts well represented by a float in the parade and open house. Meetings were held bi-monthly and featured out-of-town speakers who talked on subjects related to horticulture. Last fall the club again helped stage the Hort-Forestry Ball.

The social program also includes a picnic in the fall and another picnic in the spring as a climax to the club's activities.

Discussion of all subjects relating to the veterinary profession is the purpose for the existence of the Veterinary Medical Society, a student branch of the American Veterinary Medical Association. Students and faculty members of the Veterinary Medicine Division attend the meetings of the chapter, which are held twice monthly.

Outstanding men in the veterinary field have been speakers at the meetings. Among those heard by the club during the past year have been Dr. Fitch, head of the Veterinary Division at the University of Minnesota; Dr. C. N. McBryde, honorary member of the A.V.M.A., head of the Ames Experiment Station and recently employed by the Bureau of Animal Industry; Harry Linn of Des Moines; and Dr. C. H. Covault and Dr. H. D. Bergman of the local faculty.

The social program of the society is an extensive one. During the past year, major events on the calendar have included: The annual banquet, in charge of Ben Ward and featuring Dr. C. H. Hall of the Bureau of Animal Industry; the Vet Ball as planned by Alan McCurdy; a Christmas party given by the junior class under the direction of the society officers; the Frosh-Soph Brawl, held in the meat lab; and a spring picnic, sponsored by the officers. During Veishea the society held open house and entered in the parade a float depicting the work of all departments in the division.

Best known activity of the Vistonian Club has become the Apple Polishers' Ball in which the club collaborates with Tau Sigma Delta. The dance, held during the winter quarter, is a popular and well-attended costume affair. Charles Clayton, L. A. Sr., was this year crowned Chief Apple Polisher amidst a tropical setting.

Other special activities of the organization have been Veishea Open House and club picnics in the fall and spring, which aid members in becoming better acquainted.

With a membership composed of students and faculty in the Landscape Architecture Department, the club was organized in 1918 to bring about closer relations between members of the department. With that object in mind, the bi-weekly meetings are of a semi-social nature and have presented faculty members who spoke to the club on professional topics and upon the club itself and its relations to other organizations on the campus.

Nationally prominent landscape architects, city planners and architects have annually been brought to the campus by the Vistonian Club.

HAROLD PARSLEYVice-President	GORDON GUYMONTreasurer

A club for all students of agricultural engineering, the Iowa State chapter of the American Society of Agricultural Engineers meets twice monthly during the school year. Special meetings during the year have featured faculty speakers, outside speakers, a visit from Arnold P. Yerkes, national president of the society, and the showing of films taken at student branches throughout the country.

An innovation this year was the costume ball held in the display room of the agricultural engineering laboratory with music by Jim Crosby. Other features of the year's program have been the fall mixer sponsored by the faculty, and the annual banquet.

Top row: Swanson, Youngberg, Richardson, Thompson, Esbeck, Ives, Saha, Parmele, Swanson, Virtue, Jezek, Barre, Anderson, Dunkleberg

AGRICULTURAL EDUCATION CLUB

OFFICERS

STANLEY DUNNPresident DONALD HANSEN, Secretary-Treasurer
EUGENE SUTTONVice-President

The Agricultural Education Club was largely responsible for the Iowa High School Agricultural Congress, held in connection with Veishea, at which time 1,500 high school boys became familiar with Iowa State College and also participated in the program of the congress. Donald Hansen was general manager, assisted by Wayne Pritchard.

A fireside in Catherine MacKay Auditorium with the Home Economics Education Club was a part of the year's social program. The Education Banquet featured Principal Steinbrecker of East Des Moines High School as speaker. The club was also partly responsible for a debate between Iowa State College and Washburn College.

Top row: Darryl Wagoner, Charles Shelgren, John Russell, Guy Glichrist, Othmar Puzdenz, Wayne Pritchard, Bert Hanson, Ralph Lyddon, Elmer Ferneau, Joe Cerwinke, Earl Schafer, Raymond Heinle

GENERAL ENGINEERING SOCIETY

OFFICERS

WALTER OBYE President FRANCIS PALLISCHECK Secretary
 VIRGIL ANDERSON Vice-President LLOYD RAINES Treasurer

A stimulating and extensive seminar program is carried on during the year at the regular meetings of the General Engineering Society. Featuring a program put on by different industrial companies fall quarter is devoted toward helping the men decide the type of company for which they would like to work and to prepare the seniors for interviews which are held during the winter quarter.

Accomplishments of the society during the past year include the General Engineering News Letter to all alumni, General Engineering open house, and the Veishea float.

IOWA STATE CHEMICAL SOCIETY

OFFICERS

THEODORE T. MAGEL President CELIA MILLER, Secretary-Treasurer
 MORTON SCHMUCKER Vice-President PERRY A. MOORE Faculty Advisor

Organized last spring as a special activity for professional chemistry students, the Iowa State Chemical Society attracted more than 50 paid members and drew regular meeting attendance of 200 persons.

Aiming to promote a unified spirit among undergraduate chemists, the society gives students an organization through which they may begin activities of national professional chemical societies.

Aromatics, chemical microscopy, relativity, spectographic analysis, cider and doughnuts and entertainment by Herr Lykken and His Grenadiers—mix these in the Chemical Auditorium and high yields of knowledge, professional interest and social enjoyment are obtained.

Top row: Voelskow, Ellis, Erickson, Shehorn, Evans, Rulifson, Baade, Fallis, Hannum

AMERICAN CERAMIC SOCIETY

OFFICERS

WILLIAM FLUALLENPresident
 MAURICE GORMLYSecretary-Treasurer
 WILLIAM FLUALLEN, FORD MUECKE.....Representatives to Engineering Council

Iowa State is one of the few ceramic engineering schools in the country whose ranking entitles it to a student branch of the American Ceramic Society.

Regular meetings are held weekly, at which time technical talks and pictures are presented and problems of interest to ceramic engineers are discussed.

Spring quarter activities of the society include the construction of favors which are passed out to Veishea visitors at ceramics open house, a Veishea parade float, and a party held in the ceramics laboratories with dinner cooked in the ovens.

ARCHITECTURAL ENGINEERING SOCIETY

OFFICERS

CALVIN KNIGHTPresident CHARLES RITTSSecretary
 MAX WIESEVice-President MARVIN WERNERTreasurer

Top row: Leroy Carr, Carlyle Peterson, Everette Witte, John Anderson, Walter Neumann, George Bickford, Howard Toole

SCIENCE WOMEN'S CLUB

OFFICERS

MARGUERITE WHALEY *President* AVALYN WILLIAMS *Treasurer*
 JEAN AUSTIN *Vice-President* MISS GERTRUDE HERR *Faculty*
 MARJORIE MELTON *Secretary*

Made up of all women on the campus not enrolled in home economics, the Science Women's Club meetings usually center around a campus speaker who tells about some interesting experience he has had or speaks of some phase of science.

In the fall quarter the council sponsored a tea to which all women on the General Science faculty were invited. This tea, a new project this year, will become a traditional part of the club functions, just as the spring picnic is now an annual function.

INDUSTRIAL ARTS SOCIETY

OFFICERS

HAROLD FORSEA *President* LAWRENCE PETERSON, DURWIN HANSON
 JAMES LYONS *Vice-President* *Representatives to Engr. Council*
 JAMES LERDAL *Secretary-Treasurer* W. L. HUNTER, E. G. LIVINGSTON, *Faculty*

Meetings of the Industrial Arts Society are devoted to topics which are not generally encountered in the regular industrial arts curriculum.

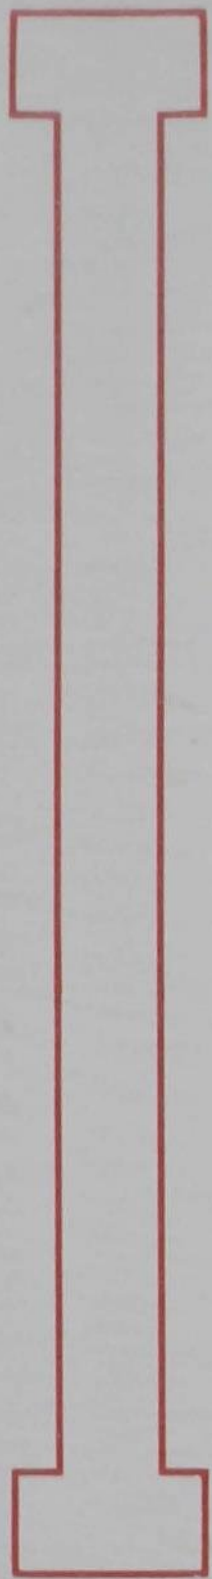

The society is a departmental organization for prospective industrial arts teachers and endeavors to make its members cognizant of the possibilities in their field as well as to create interest in the topics discussed.

A major activity of the year is cooperation with other campus educational organizations in sponsoring the annual education dinner.

Last fall over half the members of the society attended the fellowship dinner of the Industrial Arts Association of Iowa in Des Moines.

Top row: Theron Carty, Walter Hayes, Orvine Schaefer, Ralph Huston, Reuben Grell, Lyle Gatch, Irvan Woodruff
 Second row: Byrnard Smith, Alvin Bailey, Edward Gilbert, John Davidson, Edward Woodruff, George Bazik, Paul Skarshaug, Robert Adams
 Third row: Arnold Sinnott, Albert Walte, Lawrence Peterson, James Lerdal, James Lyons, Harold Forsea, E. G. Livingston, Durwin Hanson, W. L. Hunter

ACTIVITIES

Associated Women Students is a national organization composed of every woman student in college.

"To coordinate all women's groups on the campus, and to promote efficiency of women as leaders," is the association's motto, as well as to maintain high scholastic standards and regulate matters of women students' life not falling under the direct jurisdiction of the faculty.

Directing women's campus activities, A.W.S. has sponsored the point system with Betty Whipple as chairman. Assistants on her committee were Marguerite Root, Lucille Watson and Gaynold Carroll.

With Minerva King as chairman, the annual "Get Wise" Carnival for freshman women was held during the fall quarter. Working with freshmen, also, was campus-sister chief, Beth Cummings.

Heading the student book shelf was Katherine Dodds. Personnel committee work has been in charge of Bernice Becker.

Florence Valencourt was elected secretary to replace Ruth Ann Cowan, deceased. Harriet Hatch supervised the sale of "pompoms" at Homecoming time.

Working as co-chairmen of the annual tea dance were Gwen Griffith and Katherine Dodds. Doris Young, president, was a member of Cardinal Guild.

Awarding of scholarship cups for dormitory and sorority groups is a portion of the work sponsored by Associated Women Students.

Iowa State Debaters is an active forensic society which holds bi-monthly meetings throughout the school year.

Highlights in this year's program were: a debate on "apple-polishing" with the University of Southern California; Managing Editor Robert Murray of the Ames Tribune, address on "Foreign Affairs;" entertainment of the British debate team fall quarter, and other teams from various sections of the country.

New members were selected during winter quarter and "I" awards to outstanding debaters as well as keys to those who had been in a sufficient number of debates were made at the annual banquet. This year the organization had the largest membership in its history.

Each year a team represents Iowa State at the Student Legislative Assembly held in the State House at Topeka, Kansas. Read and Lungren held a two-man conference on a pending bill and the governor of Kansas spoke to the assembly.

For 50 years the college Young Men's Christian Association has been serving the men of Iowa State College. The past year has witnessed an extensive development of the program of service.

With a cabinet of 21 men, each of whom heads a committee in charge of a specific activity, the YMCA has included the following diversified activities in its program: Freshman Camp, which was a revelation of college life to 128 new men students; the traditional All-College Mixer in State Gymnasium; Hi-Y Clubs in three local junior high schools; the 12th annual Religious Emphasis Week; a series of discussion firesides in faculty homes; the Interfraternity pledge dinner; a reception for foreign students; deputation trips to surrounding communities; hospital visitations; use of Lynn Fuhrer Lodge; and a Freshman Y Club.

In addition to the regular program, 14 men represented Iowa State at the summer YMCA conference at Lake Geneva, Wis. The popular Y Quartet played an important part in the conference program as it does at Iowa State. On the campus again the YMCA handled housing and employment for hundreds of men students.

The guiding hand in this year's program, as for the past 12 years, was Ray C. Cunningham, general secretary, assisted by Myrus Knutson, associate secretary in charge of employment.

Signed memberships of the YWCA this year numbered about 350 with about two-thirds of that number doing active work. Three regular meetings were held each quarter with a varied program. Included as topics of discussion were Personality Development in charge of Bernice Becker, International Relations headed by Florence Pettigrew, and Culture directed by Mary Ellen Lynch. The meetings on international relations were culminated with a panel discussion, attended by over 130 faculty, students and townspeople.

Early in the year a program tea for freshmen and other new students was held, after which the Freshman Y was organized and Elizabeth Davis named president.

Girl Reserve work included a party for the junior high girls and a training course for those anticipating directing Girl Reserve clubs.

Thanksgiving services held in Great Hall were in charge of Betty Whipple. The YWCA also cooperated in sponsoring Religious Emphasis Week.

Gaps in the budget were filled by the help of a bazaar under the chairmanship of Mary Ellen Lynch.

The Y paid part of the expenses of 11 girls who attended the summer conference at Lake Geneva, Wis. Marguerite Root was sent as a delegate to the National Assembly of Student Christian Associations at Oxford, Ohio.

Five local members attended the International Relations Conference held at Grinnell College.

Eastern Club was organized in the fall of 1937 by Charles Connorozzo with the assistance of Frank DeLucia.

Purposes of the club are threefold: to better acquaint the students from the East with one another; to facilitate lower transportation to and from the East; and to make each member a booster of Iowa State. An ultimate aim of the organization is the formation of a strong alumni organization in Eastern United States working for the good of Iowa State College.

Membership in the club is restricted to students whose homes are near the Atlantic coast. Meetings, which are held every two weeks, are of a combined business and social nature.

Programs as arranged by Dick Vogel have included musical programs, with solos and group renditions, movies, and talks. Speakers have included Prof. M. S. Coover, head of the Electrical Engineering Department; James Alick Elsbert, student from England; and Charles Busler, student from Pennsylvania.

Social activities of the group have been many. Mid-quarter parties have been held, a Christmas party was held at the end of the fall quarter, and during spring vacation the club sponsored a hay ride.

TOWN GIRLS' COUNCIL

OFFICERS

HARRIET GRAVES	President	MARGARET TAYLOR	Treasurer
CAROLINE PALMER	Vice-President	MARGARET STANTON	Advisor
HELEN SCOTT MINOR	Secretary		

Regular meetings, participation in intramural sports, numerous firesides and exchanges and a spring formal, all planned and sponsored by the Town Girls' Executive Council, give women living outside organized houses many of the opportunities of those living in dormitories and sororities.

This year the formal was held in Catherine MacKay Auditorium on April 30, with Red Heggen's orchestra furnishing the dance rhythms.

HEALTH COUNCIL

OFFICERS

MARION HICKEY	President	DORIS YOCUM	Secretary
HELEN THEIS	Vice-President	MARJORIE DAVIS	Treasurer

 Fourth row: Brewbaker, Macklin, Davis, Hickey, Goulding, Theis, Yocum, Obendorfer, Howe

A silver tea for the benefit of the Ethel Christenson fund was one of the Health Council's successful projects this year. Also backed by the Council was a record sale of Christmas Seals. Weekly meetings at which health topics were discussed, Christmas stockings for poor children and educational movies rounded out the year's activities.

WOMEN'S CAMPUS 4-H CLUB

OFFICERS

CLARA BYAMPresident CAROL SYNDERGAARD, Sec'y-Treasurer
 CHARLOTTE HEFFNERVice-President HELEN SCOTTHistorian

All women who have been 4-H members in their home communities automatically become members of the campus 4-H organization upon entering college. Providing social opportunities between students having a common interest as well as organization for service, contributing to annual Farm and Home Week, the annual Farm Bureau Federation and the Iowa 4-H Girls' State Convention are only a few of the activities of the club.

An annual May morning breakfast particularly planned for mothers of members is traditional.

This is the 14th year of campus organization. Four hundred and fifty members from 24 states and 85 Iowa counties are enrolled.

Top row: Duthie, Gallentine, Gruenwald, Rhoads, Doran, Putzke, Jardine, McCannon, Strayer

NEWMAN CLUB

OFFICERS

JOHN DEVINEPresident CHARLES O'NEILTreasurer
 MARGARET LISTONVice-President LOVELLA SHEKERSocial Chairman
 MARY HELEN MURPHYSecretary

Newman Clubs are found in only secular schools. The clubs are named after the illustrious Cardinal Newman, who has been chosen as patron, and who, shortly after he became a convert to the Catholic Church and was ordained a Catholic priest in 1846, chose to establish himself at Oxford University to work with the Catholic students there. All Newman Clubs are united in the Federation of Catholic College Clubs.

The purpose of the club is to aid the Catholic Church in caring for Catholic students in a non-Catholic college. This is done by means of special sermons and devotions, study clubs, discussion groups, lectures and social functions.

The Westminster Student Fellowship of the Collegiate Presbyterian Church is one of fifty student centers located at state colleges and universities throughout the United States and maintained by the Presbyterian Board of Christian Education.

The local student center has played an important part in the work of the Ames church since its organization 27 years ago. Not only has the church sought to provide a church home for the hundreds of Presbyterian students who come to Iowa State College each year, but it has also sought to train these young men and women to be responsible church leaders when they take their places in the world.

Official boards of the church have been open to students, who serve with local church members as elders, deacons and deaconesses. Students also gain valuable experience by teaching Sunday School classes, ushering at church services, and singing in the choir.

The entire program of student activities, both religious and social, is planned by the Student Council and carried out by student committees under the general direction of the pastor of the church.

Vital questions and problems of religious thought and life are discussed. Here Christian character is molded and Christian leadership developed.

Roger Williams Club is an organization made up of Baptist students carrying on an active religious program, which offers many opportunities for student initiative.

Activities of the group include Bible classes, transportation to church, a church choir, a weekly Sunday night supper, a college young peoples' meeting, a fellowship hour, the sponsorship of junior high and high school young people's group, gospel team work, a live social program and a sorority for Baptist girls. All projects of the group are carried on under student leadership.

The neon "X" on the front of the house and the red "X" on the recognition button is the symbol of the Roger Williams Club program. It stands for the old Greek Christos, which was the sign of the persecuted Christians. It symbolizes for each of us a place, a program and a Lord from which we find the quality that must go with learning if it is to be an asset to civilization.

Theta Epsilon, organized for the purpose of cooperating in every way with the local church and Roger Williams Club in preparing its members for lives of Christian usefulness, is a national sorority for Baptist and Baptist preference girls, and was established at Iowa State College in April, 1927.

Roger Williams Fireplace

Members of Roger Williams Club and Theta Epsilon made possible the building of the outdoor fireplace shown in the picture below. It was built as a lasting memorial to Rev. R. B. Davidson, the first university pastor.

During his sixteen years as pastor, Dr. Davidson was instrumental in securing Roger Williams House for Iowa State students.

The fireplace was constructed this past year by student labor and financed jointly by Baptist students and alumni.

LUTHERAN STUDENT ASSOCIATION

OFFICERS

MARVIN ANDERSON *President* AILINE HAAKINSON *Secretary*
 FRANCIS COOK *Vice-President* CARL HULTING *Treasurer*
 REV. A. N. ROGNESS, JOHN GERUHR *Advisors*

The Lutheran Student Association was organized in 1923 at Augustana College in Rock Island, Ill. It was begun locally in 1925. At present there are 25,000 members in college and universities throughout the United States.

The aim of the organization is to promote fellowship and personal development by association with Christian youth on its local campus and on camps of other colleges and universities.

To further their purpose a national Ashram was held in Selinsgrove, Pa., in August. Eight delegates from Iowa State helped make up the representation of 151 leaders from 53 colleges and universities in the United States.

Top row: Carlyle Peterson, Margaret Peterson, Don Hansen, Robert Grau, Arnold Christensen, Marletta Bamble, John Gebuhr, Richard Peterson

WESLEY PLAYERS

OFFICERS

JOHN BRELSFORD *President* CECIL BOWIE *Vice-President*
 NELL BENNETT, ELIZABETH CARTER *Secretary-Treasurer*

Beta Chapter, a charter member of the National Society of Wesley Players, is one of twenty chapters located in educational institutions throughout the United States.

Work during the entire year is composed of the production of religious drama, as well as other short plays. Work for fall quarter consisted of presentation of short plays and radio productions. During winter quarter a five-scene play, "The Rose on the Dial," which portrayed the life of the Christians in Ephesus at the time of Constantine, was presented.

Miss Margaret Clayburg directed the cast composed of Margaret Neal, Francis Mapes, Lulu Ferris, Lyla Conrad, Dorothy Leathers, Elva Brown, Howard Bostrom, Don Hawley, Lee Stauffer, and Morgan Johnson. Work for spring quarter is that of presenting more short plays and the initiation of new members.

Top row: Paul Spence, Cecile Bowie, Mary Anderson, Paul McNutt, Charles Yocum, Elizabeth Carter, Harlan Jensen
Second row: Dorothy Leathers, Howard Bostrom, Harold Estes, Margaret Neal, James Briggs, Don Hawley, Frances Mapes
Third row: Mrs. Paul Spence, Lyla Conrad, Naomi Geiger, Morgan Johnson, Margaret Clayburg, Mary Kadera, Wilma Weston

Fourth row: Hazel Mattice, Jennie Warren, Dorothy Piere, Aileen Goodell, Lorna Westbhal, Caryl Pratt, Delores Swigert, Elizabeth Thornburg, Elizabeth Rawson, Laura Swainey, Laura Bliss

"Every Methodist woman in the university world today a leader in the church of tomorrow" is the motto of Kappa Phi, national sorority for Methodist preference women in colleges. The local chapter, organized in 1918, is one of 25 throughout the country. Last summer five active members, Caryl Pratt, Laura Bliss, Elizabeth Thornberg, Doris Butts, and Martha Moore, attended the national council of chapters in Trouble-in-the-Pines, Colorado, receiving inspiration and information helpful in planning a successful program for the organization.

PHI TAU THETA

Phi Tau Theta, national fraternity for college men of Methodist preference, was established on the Iowa State College campus in 1925. E. G. Livingston is advisor for the group. Harold Estes was chosen to represent the local chapter at the national convlave in Athens, Ohio, last Thanksgiving. The whole chapter attended the meeting of the three Iowa chapters which was held at Cedar Falls April 2.

FRISBIE HOUSE

Frisbie Fellowship is a campus organization of all students who are interested in having church affiliations while attending Iowa State College. The Fellowship is governed by a cabinet of student officers who, with their committees, have direct charge of all the religious and social activities of the organization.

The Iowa Conference of Congregational Churches helps maintain the student center, Frisbie House, which is on Lincoln way opposite the campus and across from Lake LaVerne.

Eight men students and a housemother live at the student center in order to keep the house open to students at all times.

Every Sunday the Bible Study Class is held at 9:30 a. m. and a social hour at 5:30 in the evening. The Sunday evening meeting is at 6:30 and is an informal student discussion group.

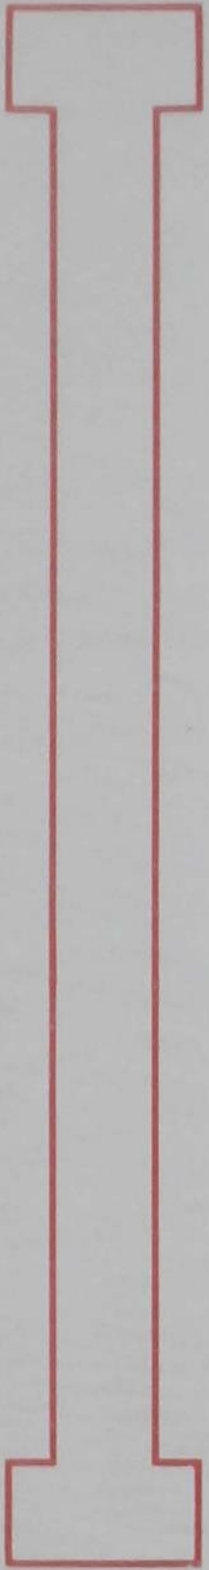

The activities of the fellowship, both religious and social, are open to all students of the college, and students are invited to avail themselves fully of all the opportunities for fellowship and service which the program of the organization provides.

MUSIC AND DRAMA

JOHN BOYTON PRIESTLY

AUTHOR of popular novels, essayist, dramatist, and critic. Mr. Priestly prefers the role he has come to play in England—that of a student of world affairs and a critic of life in general. Surprising to those who heard him was the fact that his lecture was not on a literary theme. On the contrary, his audience listened intently as he expounded the Fourth Dimension.

MAUDE SCHEERER

CRITIC, actress and commentator, Maude Scheerer enacted a "one-man show" of some of the best plays of Broadway. Of the readings presented on the campus, Miss Scheerer's reading of "The Two Queens" received the most student comment. Iowa State playgoers like those of Broadway agree that the next best thing to seeing a Broadway hit enacted by an all-star cast is "to see it the Maude Scheerer way."

JOHN CRAIG

JOHN CRAIG, motion picture adventure camera man, added the human touch to the serious aspect of lectures by appealing to the lust for adventure. Supplementing his tales of thrilling journeys to remote parts of the world, he showed moving pictures of a few of his experiences on the bottom of the ocean. The Iowa State audience voiced its approval heartily.

LAWRENCE TIBBETT

LAWRENCE TIBBETT, distinguished Metropolitan Opera and motion picture star, received a tremendous ovation from the crowd that overflowed the auditorium to see and hear him. Mr. Tibbett's natural and friendly manner completely won the student audience, which applauded him as long as he remained to sing.

DON COSSACK CHORUS

JOSE ITURBI

MARIAN ANDERSON

ROTH

FILLING a return engagement with a double performance, the Don Cassack chorus enabled persons on and near the Iowa State campus to hear a chorus composed of actual ex-officers of the Czar's Imperial Army. Under the direction of Serge Jaroff, diminutive conductor, these thirty-six stalwart Russians gave a series of concerts that held an audience of college students breathless and spell-bound.

DURING the week that the Roth Quartet was on the campus, students and faculty had the unusual opportunity of hearing the compositions of famous masters as written for a string quartet. That the delicacy and excellence of the music were recognized and appreciated by the students was shown by the attendance and applause accorded the quartet.

UNDER Jose Iturbi's gracious but stimulating direction from the piano, the Iowa State Symphony Orchestra gave a splendid interpretation of the Beethoven Concerto in C Minor for piano and orchestra. Iturbi's charming piano recital which followed met with genuine response.

VALDIMIR GOLSCHMANN, the maestro who believes that music is a serious business that must be mixed with a little fun, conducted the St. Louis Symphony Orchestra before a full house. His youthful enthusiasm was caught at once by the appreciative audience, who remained to cheer him until he dismissed the orchestra.

THE only woman in this year's musical series, Marian Anderson proved a charming negress with a superb contralto voice. A unanimous acceptance acclaimed Miss Anderson one of the most popular woman artists ever on the campus. Her rendition of the negro spiritual was a fitting climax for the evening.

HAVING just realized a long cherished plan, to sail a full-rigged ship in the tracks of great circumnavigators of the past, Mr. Villiers thrilled a capacity audience with accounts of his experiences and beautiful pictures taken aboard the ship. Those who heard him were impressed with his modesty, feeling that it added to the force of his tales.

STEPHEN VINCENT BENET enjoyed capacity audiences for five days when he visited Ames to open the fall lecture series. Mr. Benet claims the distinction of being a Pulitzer Prize winner, and a Nation poetry prize winner. The students of Iowa State paid tribute to his genius by turning out en masse each time he lectured, and each time they came away with a feeling of complete gratification.

QUARTET

VALDIMIR GOLSCHMANN

ALAN VILLIERS

STEPHEN VINCENT BENET

Men's Glee Club, in conjunction with the Girls' Glee Club, presented the "Messiah" at Christmas, the "Crucifixion" by Stainer at Easter, and Gilbert and Sullivan's "Pinafore" during Veishea. The club made numerous appearances throughout the year and assisted with Homecoming, presented a program on Campus Varieties, and twilight musicales, contributed to Farm and Home Week, Science Day and in two Iowa State programs over the NBC network.

The first annual glee club reunion, sponsored by the club, was held during Homecoming and attracted many men. Clubs from 1900 to 1940 were represented. A permanent organization was set up and plans for the future were formulated.

From the glee club was chosen a chorus of thirty well-trained musicians, singing everything from light to classical music. This group, called the Iowa State Singers, made a tour of northern Iowa and Minnesota, including stops at Fort Dodge, Sioux City, Spencer, Fairmont, Albert Lea, Minneapolis and Mason City. Featured on this tour were the Iowa State Four, Howard Chase, accompanist and arranger, and Myrus Knutson, tenor soloist.

Specializing each quarter on music for some major appearance, the Girls' Glee Club also sings upon several other occasions, as a group or represented by trios and soloists. The group also cooperates with other organizations as with the Physical Education Department in the production of the Spring Concert during Veishea, with the Iowa State Festival Chorus in the rendition of "The Messiah," and with the Men's Glee Club at chapel services.

The traditional Candlelight Service, Twilight Musicals, Farm and Home Week, extension conferences and banquets, state Garden Club meeting, have been other occasions upon which the girls have sung.

GIRLS' GLEE CLUB

IOWA STATE SYMPHONY ORCHESTRA

Professor Leo Kucinski of Morningside College, director of the Sioux City College Band, director of the Sioux City Symphony Orchestra and of the Lincoln Symphony Orchestra, was the guest soloist at the winter symphony concert. This was one of the three local concerts of the Iowa State Symphony Orchestra. There were additional concert appearances at Boone, Shenandoah, and Atlantic.

Featuring Jose Iturbi on the Artist Series April 12, the orchestra played the accompaniment of the Beethoven "C Minor Concerto."

A wealth of skilled and talented material available has made it possible for Iowa State to have both a Concert Band and a Varsity Band.

This year the Concert Band added a new \$390 German silver bass clarinet to its equipment. Spring saw the completion of a series of successful concerts both at home and on tour.

Composed of 70 players, the Varsity Band lends its spirit and tempo to basketball games and other athletic events as well as the annual Military Circus.

Carnegie Music Box

Memorial Union is the home of two splendid new musical gifts recently presented to Iowa State College. An \$18,000 Barton pipe organ was the gift of W. G. Lane, '09, and Walter T. Wells, '10, of Los Angeles, Calif. Since the dedication on Oct. 16, 1936, Howard Chase, master melody-maker, has been the official organist.

Mr. Chase plays for receptions, parties, twilight musicales and vesper services, Campus Varieties and four commencements a year. He also presents noon-day informal pro-

grams three times a week and appears twice weekly on thirty-minute broadcasts over WOI.

The three-manual console of the organ is so mounted that it can be moved to any part of Great Hall stage. The thousand-plus pipes and accessories are housed in two large constant-temperature chambers, one on each side of the stage.

Carnegie Corporation presented Iowa State with a music set consisting of a library of music literature, bound scores of operas and symphonies to be followed while the compositions are being played, an excellent vacuum-tube reproducer and a collection of over 900 recordings of all sorts of music from simple folk songs to the most elaborate symphony.

At certain hours music lovers may go to Room 224, Memorial Union, and request a librarian in charge to play favorite recordings.

Students listen to noon-day organ program

Popular to the followers of swing music, the Iowa State Rhythm Club was organized to give recognition to undergraduates for their skill in the field of swing dance music. The group is composed of fifteen members. New ones are elected by the club upon proving their worth to a swing aggregation.

The Rhythm Club presented a special concert for its enthusiastic swing fans at a special campus varieties performance. Other appearances include two twisters and a concert during Veishea. Each year keys are given to the club's outstanding swingsters. Jim Farnham and Roderick Dodds received this year's award.

"The Joyous Season," Phillip Barry's delicious comedy, opened the fall dramatic season of the Iowa State Players. The cast gave an intelligent and lively performance. Later, a bill of four one-act plays, "Box and Cox," "Confessions," "In a Garden," and "Enter Dora, Exit Dad," was presented.

Winter quarter, "Androcles and the Lion" headed the initial presentation. "I'm Going" and "Indian Summer" completed this bill of three one-acts. Henrik Ibsen's "Ghosts" was powerfully acted by a veteran cast. Warren King received particular notice for his work in the role of the son. Stella Mae Brinkman, Evar Cedarleaf and Miriam Lawson also gave notable performances.

"She Passed Through Loraine" was presented during spring quarter.

Actors, stage mechanics, property people and all others connected with the activities and growth of Players, were rewarded by admittance to associate or active membership on the basis of merit and amount of participation.

MILITARY

Scabbard and Blade believes that military service is an obligation of citizenship and was founded to serve as a bond between the various military departments of American universities and colleges; to preserve and develop the essential qualities of good and efficient officers; and to spread intelligent information concerning the military requirements of our country.

The local chapter, Company A, Second Regiment, besides participating in rifle, pistol and journalistic competitions, sponsored by the national organization, annually presents six medals to the outstanding sophomores and freshmen for excellence in military science.

Climaxing the 1937 spring probation of the Scabbard and Blade neophytes was the annual Military Ball, with Tweet Hogan's orchestra. Leading the parade at the ball were Honorary Cadet Colonel Beth Cummings and Cadet Colonel James Taft. To have a rounded social calendar, the warriors sponsor two other informal dances.

The purposes of the R. O. T. C. are two-fold: First, to afford to the maximum number of young men such basic military training as will qualify them to render efficient military service to their country in case of need. This basic training, required of every physically fit male student at Iowa State College, becomes the duties of a soldier and non-commissioned officer.

To train further, as junior officers, are selected a group of men who volunteer for such a course. At the conclusion of this advanced training, students are commissioned second lieutenants in the officers' reserve of the army of the United States, and may advance to the highest ranks in the army.

Two branches of the service are represented at Iowa State College; the Engineer Corps, open to students pursuing an engineering course in college, and the Field Artillery, open to all students.

The basic course requires three hours a week during the first two years of college, for which six college credits are allowed toward graduation. The advanced course requires five hours a week during the next two years, and eighteen credits are allowed. Compensation to advanced students is allowed by the Federal Government at the rate of 25 cents a day, plus an allowance for the purchase of a uniform. Basic students are also provided with a uniform.

In addition to this regular military training, R. O. T. C. students at Iowa State College may participate in many extra-curricular activities at no expense to themselves. These activities include polo, rifle and pistol competition, privilege riding, trick riding and social events.

Beginning in September with an almost entirely new group of men, the Iowa State Trumpet and Drum Corps quickly rounded out into a crack musical marching unit under the guidance of Major Peyton Winlock and instructor Frank DeLucia. During Fall Quarter the corps drilled diligently and made a commendable showing during the battalion parades. The corps also played for the military rites on Memorial Day.

The Military Circus, in the Winter Quarter, again gave the Corps a chance to participate. They led the great pre-circus parade, appeared with the Pontineers, and presented a speciality of their own.

In the spring, the Corps' activities were greatest. Led by the drum major, Wilbur Yeutter, they were seen in the regular battalion parades, the weekly Retreat parades, the annual Spring inspection, the Governor's Day parade, and the Veishea parade.

In the fall of 1937 prospects looked bright for a successful rifle season. With the loss of only two men practically the entire squad returned eager for action. On November 27 the team defeated Creighton University on their range in Omaha. This marked the beginning of perhaps the most successful rifle season Iowa State has had. In subsequent shouldered-to-shoulder matches Coe College was defeated at Cedar Rapids, Creighton at Ames, and Coe-Creighton-Iowa University at the State University's Armory on Feb. 26. The State University's defeat with a score of 1351 to 1350, has been Iowa State's outstanding victory in the shoulder-to-shoulder matches of the past years. Postal matches with Wichita, Kansas State and Nebraska were also added to the bag. The season was completed by the Corps Area Intercollegiate, the William Randolph Hearst, the American Society of Military Engineers postal matches and the N. R. A. Regional match held at Lincoln, Neb.

The end of this season marked the close of Captain Van Giesen's four-year career as coach. Mention must be made of the tremendous amount of time and energy which he has cheerfully devoted to rifle marksmanship, which is recognized as a minor sport.

The high men in twelve matches include: Rasmussen, Randolph, Almdale, Feldman, Thompson, Roy, Anderson, Diekman, and Borsheim.

JUDGING TEAMS

Brown, Lichty, Hansen, Finch, Gleason, Kelley

DAIRY CATTLE

In very close competition at the Dairy Cattle Congress at Waterloo the Iowa State Dairy Cattle Judging Team placed third behind Michigan and Missouri. Iowa State was first in four of five breeds and its point total was but seven points short of the leaders. Lichty was high man and Brown fifth high.

At the National Dairy Show in Columbus, Ohio, in a field of 25 teams from the United States and Canada, the Iowa State entry earned ninth place with Brown leading the team in scoring.

Members are: J. Verald Brown, Vincent Kelley and Robert Lichty; Lindley Finch and Tom Gleason, alternates.

DAIRY PRODUCTS

The Dairy Products Judging Team participated at New Orleans, La., in the eighth annual students' national contest in judging dairy products. The contest was held in connection with the tenth Dairy Industries Exposition. With 17 colleges competing, the Iowa State entry placed tenth.

Members are: Roland Castenson, George Fenner, James Irwin, George Tellier. Dr. N. E. Fabricius is coach.

Tellier, Fenner, Griffin

Top row: Holbert, McWilliams, Fox, Jackson
 Second row: Hood, Henryson, Kling, Simington, Hofstrand

LIVESTOCK

Three contests were entered by the 1937 Livestock Judging Team. The feature of the team's work was declared to be good teamwork. In the contest at Waterloo the team placed third, being first in horse judging. Members of the team had to be content with sixth place in a field of 14 teams.

At the International Livestock Show in Chicago, in competition with 24 other teams, the Iowa State entry placed third. Fox was fourth high individual in horse judging as well as being eleventh high individual in the meet. Hood was seventh on horses.

Members are: Nelson Fox, Lloyd Henryson, Harold Hofstrand, Lafe Hood, Wayne Jackson, Henry Kling, Richard McWilliams, Wayne Simington. J. C. Holbert is coach.

MEATS

Two national contests, one in Kansas City and the other in Chicago, were entered by the Meat Judging Team. At the former, the team piled up uniform scores to place fifth with Rinner as tenth high individual.

In Chicago, a second on pork, a fourth on lamb, and a seventh on beef judging won the team a third place. Rinner led the trio of competing Iowa State men in the field of 36 individuals. He was fifth high individual with Harryman following in tenth place.

Members are: Herman de Neui, Lucian Harryman, Buford McClurg, Don Rinner. F. J. Beard is coach.

McClurg, Harryman, Beard, de Neui, Rinner

Wilcke, Spence, Wyant, Thompson, Baker

POULTRY

Iowa State College was represented in the Midwest Poultry Judging Contest held in Chicago in November by a team of four men. Eggs were judged for market grades and the team judged five breeds of poultry for egg production, exhibition, and market qualities.

With 10 teams competing, the Iowa State team was fifth, being fourth in exhibition and fifth in egg production and market qualities. Baker was third high individual in the entire contest.

Members are: Carl Baker, Paul Spence, George Thompson, Maurice Wyant. Dr. Wilcke is coach.

FARM CROPS

The Farm Crops Judging Team competed in two contests last fall, earning a fourth and a fifth place. The fourth place was gained at Kansas City in competition with seven other teams. At the national meet in Chicago the team's fifth position was won in a field of 11 teams. In identification the team was but one point behind the leaders.

Members are: George Huey, Royal Holz, Ray Randell, Francis Reiss. C. S. Dorchester is coach.

Reiss, Holtz, Huey, Dorchester, Randell

Top row: Clemmer, Specht, Rosenbusch, Morris, Haight
 Second row: Rhoads, Paul, Miss Sims, Clark

With Miss Frances Sims as faculty advisor for the group, the dormitory council, composed of the presidents of the campus dormitories, meets every two weeks. Virgil Paul, as president of the council, is the representative to Associated Women Students.

The council controls the disciplinary measures which are in effect in the various dormitories. Each organized house has a system of proctors who enforce the rules in their corridors. In addition, each dormitory has a set of officers which consists of social chairman, health council representative, intramural representative, librarian, and secretary-treasurer. The dormitory libraries consist of circulating books from the college library.

Two all-dormitory dinner dances sponsored by the council were held February 19 and March 5 in Great Hall, Memorial Union.

The freshman dormitory has a system of freshman sponsors, a group made up of senior students who act as counsellors and proctors in the dormitory.

This year two dormitories were officially renamed. New Hall is now called Roberts Hall in honor of Miss Maria Roberts, chairman of the Student Loan Committee of Iowa State College, and Welch West is known as Birch Hall. A new dormitory, Elm Hall, will be ready for occupancy spring quarter to accommodate the increasing number of women students attending the college.

SORORITIES

Journalist Ruth Sawin, member of Theta Sigma Phi, is a worker on the staffs of the Iowa State Student, Iowa Homemaker, and Green Gander. Marian Glidden has worked on the Bomb, Iowa State Student, and Green Gander. On the staff of Sketch are Arthula Wright and Margaret Kimball.

Those affiliated with Iowa State Players are Miriam Lawson, Fay Stirling, Marian Glidden and Judy Sawin. Offices held by members of Alpha Delta Pi are: Y. W. C. A. cabinet, Mary Anna Frost; president of Archery Club, Florence Muir; and treasurer of Health Council, Marian Davis.

On the rolls of honoraries are Margaret Kimball, Phi Kappa Phi; Zella Ghrist, Psi Chi; and Virginia Heffernan, Delta Phi Delta.

The winter and spring formals were held at the house. Guests of the sorority members were entertained at a banquet preceding the Women's Panhellenic ball.

Top row: Fitch, Frost, R. Sawin, Davis, Wright, Brown, Heffernan, Ellis
 Second row: Grigsby, Bowman, Leonard, Grove, Schuldt, Cosgriff, Elder, Baker

Chi Omegas used their ingenuity and spared no efforts to make the enviable record of winning first place with their Veishea float, first in Homecoming decorations, and second place in the Sor-Dor Sing.

During the year Chi Omegas participated in League of Women Voters, Science Women's Club, Iowa Homemaker, Sketch, Iowa State Players, W. A. A., debate, band, and glee club. Arlene Baumhoefner was treasurer of Omicron Nu and secretary of Delta Phi Delta. Ruth Bergman was elected representative to Music Council, and Jeanne Macdonald to membership in Phi Sigma. Charlotte Nilsson served on Y. W. C. A. cabinet, Betty McDade as junior representative to Home Economics Council, and Emily Novak as president of the intramural board. In the spring of 1937 Lois Hawk went to Merrill Palmer.

A new sorority on the campus this year, Delta Zeta, has pushed ahead and has campus leaders listed on its rolls. Delores Swigert, Iowa State's first Glamour Girl, was elected Pep Queen, belongs to Sigma Alpha Iota and is a junior representative to Music Council. Wilma Highland is also a member of Sigma Alpha Iota as well as Psi Chi and the Y. W. C. A. sextette.

Phi Mu Epsilon claims Maxine Anderson and Anita Harding, the latter also belonging to Phi Upsilon Omicron.

Esther Brucklacher is active in Chi Delta Phi, Delta Phi Delta, Sketch staff and League of Women Voters.

Jean Ripple of Sigma Kappa was a member of Home Economics Council and vice-president of the home economics honorary organization, Phi Upsilon Omicron. This year, Patricia Maveety was initiated into Chi Delta Phi, honorary creative writing fraternity. In addition, Pat was a member of the Radio Debate squad and the Verse Club. Martha Holm was chosen secretary of Women's Panhellenic Council. Girls' Glee Club has several Sigma Kappas in its group.

On Dec. 11 the chapter house was the scene of the winter formal. There were teas to honor the housemother, the faculty and the pledges. Founders' Day banquet was held Nov. 7.

FRATERNITIES

The Acacia fraternity has won for itself recognition for scholastic ability, having stood highest in rank for the last ten quarters out of eleven.

Kenneth Fisher was vice-president of the Horticulture Club and chairman of the Floriculture committee for the Horticulture Show this year. Carl Rise served as art editor of the Ames Forester and as a member of the Interfraternity Scholarship Committee.

This year's social activities included a Christmas "stag" party for members, pledges and alumni, and the Founders' Day banquet held in May.

Ellert Anderson holds first place among activity minded Adelantes. He is editor of the Iowa Engineer, a member of Engineering Council and of the Guard of St. Patrick. He claims membership in four honoraries: Tau Beta Pi, Eta Kappa Nu, Sigma Delta Chi and Inkhorn.

Others who follow in his footsteps are Keen, a member of Phi Mu Alpha, and Parsons of Phi Sigma. Peterson and Sar are members of Engineering Council and Martin is associate editor of the Iowa Engineer.

Adelante men are musically and athletically inclined. There are seven members in the band, two in the orchestra and four in the glee club. Johnson, co-captain of the baseball team, Griswold, Martin, Parsons and Swanson are active in various sports. Johnson is a member of the "I" club.

Cardinal Key man, Hofstrand, was a member of Cardinal Guild, general chairman of Veishea Central Committee, and member of Alpha Zeta. Simington is this year's chairman of Veishea Central Committee, member of Cardinal Guild, Alpha Zeta and Agricultural Council. A third member of Cardinal Guild is Bjornsen who is also vice-president of the Interfraternity Council and secretary of the Student Veterinary Medicine Club. Chairman of Veishea open house is Larson who is also a Scabbard and Blade member.

Eaton is president of Dairy Club; Jauer is circulation manager of the Iowa Agriculturist, and Peterson and Cook are members of Phi Mu Alpha. Athletic Alpha Gamma Rhos are Henderson, varsity wrestler, and Lightcap, varsity track man.

The winter formal was held at the Sheldon-Munn Hotel on March 12 and the annual Farmers' ball in the spring at the house.

Alpha Tau Omegas each year rank high in the Interfraternity sing. Last year the cup for the most outstanding Campus Varieties program went to them. At Christmas they participated in the party given for the underprivileged children of Ames. The fraternity is prominent in intramurals: last spring they were first in the interfraternity track meet; this fall they captured the golf-putting championship, and the basketball and touch football teams placed near the top.

The Alpha Tau Omega social calendar was filled with firesides, exchanges, and their winter and spring formals. State dance in the fall was attended by Alpha Tau Omegas from all over the state.

Tau Sigma of Beta Theta Pi ranked third highest scholastically of all the Beta chapters in the United States.

The Betas won second place in the Veishea parade and second in Homecoming decorations.

President Kelley Hannan, secretary-treasurer of the junior class, is a member of Cardinal Guild. He is also a member of Engineering Council and Inkhorn. Fluallen is a member of Scabbard and Blade and Engineering Council and is vice-president of the Polo Association.

Members of honoraries are Letts, Tau Beta Pi; Letts and Burkhart, Eta Kappa Nu; Fenner, Alpha Zeta; and Moorhouse, Psi Chi. Ralya, L. A. Jr., won the Ryerson year's scholarship trip to Europe.

Athletic Betas are Harris, who is captain of the swimming team, and Hayward, who is captain of the polo team and president of the Polo Association.

Delta Tau Delta's outstanding achievement of the year was last spring's Veishea float. Their ship, "Success," which represented "Iowa State College Parents and Fraternities," placed first in the annual competition.

This year they have participated in numerous extra-curricular activities. Eugene Billings proved to be the most outstanding of the group. He was engineering representative to Cardinal Guild, a member of Scabbard and Blade, and a member of the Knights of St. Patrick.

On March 5 the entire fraternity went to Des Moines for a banquet, honoring the founders. On Feb. 19 they held their winter formal in MacKay Auditorium. The Country Club was the scene of their spring formal on May 25.

"Stretch" Thompson, member of Varsity "I", has been a familiar figure on the basketball floor. Keller is well known for his part in the International debate held last fall with the Oxford debaters. He is treasurer of the Iowa State debaters and a member of Inkhorn.

Those affiliated with Iowa State Players are Peoples, Larkins, and Howes. The latter is also varsity football manager.

Other activity men in the fraternity are: Johnson, secretary of Interfraternity Council; Strauss, advertising manager of the Green Gander; and Specker, member of Scabbard and Blade.

The fraternity is in the "honor bracket" in athletics.

Social functions at the house were the fall Speakeasy dance and the winter and spring formals.

Top row: Worboys, Grell, B. Miller, Edwards, Krieger, Thompson, Hamilton, R. Anderson, Trennary, Peet

Winning first place in Homecoming decoration competition added to FarmHouse laurels this year. Scholastically, the FarmHouse has been close to the top in rank. Four members made Phi Kappa Phi, thirteen are members of Alpha Zeta, and several belong to Sigma Delta Chi, Phi Zeta, Phi Sigma, and Psi Chi. Wendell Marsh was editor of the Student, president of the Bomb Publication Board, and member of Cardinal Guild and Cardinal Key. John Beckett edited the Iowa Agriculturist and was a member of Cardinal Key. FarmHouse has been outstanding in intramurals and varsity athletics with six members in the Varsity "I" Club.

There were two house dances and two formals.

 Gamma Alpha Chapter established 1908

President Richard Boudinot leads his fellow Phi Deltas by chairmanship of Veishea personnel, heading Engineering Council, and belonging to Tau Beta Pi.

Close at his heels among active Phis is Bauge, who is business manager of Veishea and captain of the golf team.

Fall quarter Phi Delta Theta had the highest scholarship of any Greek group. Art Wahl helped to boost the average by winning the Phi Kappa Phi and the Phi Mu Epsilon scholarship award.

The Phi Deltas were the winners of the all year intramural athletic point system. Cunningham is track captain-elect, while Stoufer was president of Varsity "I" Club and 1937 track captain.

The Engineering Council includes Carney and Gauthier. Miller and Allyn are members of Tau Beta Pi.

John Garberson is a member of Cardinal Key and Sigma Delta Chi.

Tau Beta Pi, American Society of Mechanical Engineers, and the Student Faculty Committee claim Bierman as member. He is also advertising manager of the Iowa Engineer. General manager of the Iowa Engineer is the position held by Anderson, who is also member of Tau Beta Pi, Sigma Delta Chi, and Inkhorn.

The Phi Gams also have members in the following organizations: Eta Kappa Nu, Holland; Guards of St. Patrick, Dustin, Bierman, Anderson, Gaylord; Cossacks, Reuf, Damon; and polo team, Campbell.

Bierman and Walker won the tennis doubles championship last spring. Spencer won the singles match.

The "Fijis" sponsored a "Joe College" dance fall quarter, a winter formal Feb. 26, and "Lilac Festival" spring dance in May.

Top row: Stotz, Talbot, T. Little, Klar, Katzenstein, Hunt, Holbrook, Neumann, Mounts, J. Damon

A Homecoming dance at the chapter house started the social activities of Phi Kappa for this school year. The following quarter they held their winter formal on Feb. 5 at the Sheldon-Munn hotel. The Country Club was the scene of the spring formal, which was held in May.

Phi Kappa has been represented in campus activities by several men. John Devine is president of the Newman Club and Eugene Sutton is president of the Agricultural Education Club. On the varsity tennis team is Frank Connor, who is also Interfraternity Council representative.

Phi Kappa Psi men are well known for their annual Moulin Rouge dance, which took place Feb. 25 this year. The winter formal, Jan. 23, and their spring formal, May 30, added gaiety to the Phi Kappa Psi social season.

Robert Blahnik, who was captain-elect of this year's basketball team, is a member of the Varsity "I" Club and of Scabbard and Blade; Jack Evans is in the College Cossacks; Gene Kindig, James McKellen, and Robert Morgan are associated with Iowa State Players.

The fraternity won the league volleyball championship and all-fraternity softball championship in 1937. Last winter Phi Psis worked hard for and were awarded third place in the competition of Campus Varieties.

Top row: Paul, Cord, Middleton, Molstedt, Blahnik, Stark, Begtrup, McKenzie, Wardle, Bort

Glee club, chorus, Iowa State singers and marching band, all musical organizations claim Jack Hunter of Phi Kappa Tau as a member. Earl Sorenson also shows his musical inclinations by belonging to the "pep" band.

Spring found Roger Sapp and Daniel Werring practicing for baseball. Kenneth Klaus, president of his fraternity, is secretary of the Interfraternity Council.

The tap room of the Memorial Union was the scene of their annual alumni banquet held on Oct. 31. Members and alumni held their Founders' Day banquet on March 17 at the chapter house.

Foremost among activity-minded Pi Kappa Alpha's are President Harlyn Hinz and William Penly. Hinz was awarded a place in Varsity "I" Club for activity in baseball. He is also a member of Dairy Industry Club. Penly is an active member of Scabbard and Blade, the Iowa State Student staff, and the Cossacks. James Simon has won recognition as a swimmer. Floyd Hays claims membership in Eta Kappa Nu.

The Pi Kappa Alpha annual barn dance was given Nov. 6 at the chapter house. Other house dances included the winter formal on Feb. 26 and the spring formal in May.

Top row: Hatt, Fisher, Brockway, Evans, Popma, Erickson, Dunlop, C. Peterson, Simon, Tuttle, Meyers

In the spring of 1937 Pi Kappa Phi held second rank in scholarship. Leo Mores was tapped for Cardinal Key, a fitting climax to his selection as business manager of the Student and president of Sigma Delta Chi. Wayne Jackson achieved distinction as highest ranking junior in the college and was chosen national Pi Kappa Phi scholarship student. He was a member of the Livestock Judging Team and secretary of Alpha Zeta. Leo Byrnes and Gerald Rickert received Honors' Day recognition. Other members have participated in varsity athletics, band, glee club, Block and Bridle, Veishea, Iowa Agriculturist, and Iowa Engineer.

Each quarter there was a house dance and Founders' Day was commemorated with a banquet.

Arnold, as president of Cardinal Key and member of Sigma Delta Chi, is one of Sigma Alpha Epsilon's outstanding members. Friley is president of the Memorial Union Council and Industrial Science Council on which Arnold, Bill Bliss, Bob Bliss and Byers also serve.

The roll of Cardinal Guild includes Tellier, Knutson, Friley and Bob Bliss, editor of the Iowa State Student.

In the honoraries are Knight, Nicol and Knorr, members of Tau Beta Pi; Nicol and Knorr also belong to Eta Kappa Nu. Nicol, Spates, Bob Bliss and Clark wear the Inkhorn pin and Knorr, Friley and Smith are members of Scabbard and Blade. Phi Mu Alpha claims McCurdy, Helscher, Nicol and Knight, who is also a Knight of St. Patrick. Grant, Byers, Wempe and Haldeman belong to the Varsity "I" Club.

The fraternity placed second in the Interfraternity Sing and was runner up in all-college intramurals.

Varsity "I" men include Bock, president; Kischer, Silver, Morin and Vickerstaff. Kischer and Bock were football co-captains. Morin, Glab and Vickerstaff make up the rest of the Sigma Chi gridiron representatives. Sargent and Silver are varsity track men; Kischer, Ehrke and Moon take part in baseball. Sigma Chi pledges were prep track winners.

Sargent is a member of Engineering Council; Birkness of the Memorial Union Board of Directors; and Birkness and Cannon are members of the Bomb staff. Musical Sigma Chis are Dix, member of Phi Mu Alpha and president of the concert band, and Pfaff and Eckhart, also members of band.

Strickland and Walter belong to Scabbard and Blade; Bock is a Knight of St. Patrick.

Sigma Chi house dances included a fall barn dance, winter dinner dance and a spring formal.

Among the Sigma Nu athletes this year we find Anderson, Boswell, Heileman, Lechtenberg and Stoecker, all members of the football team. Metzler is a track man; Stoecker is a wrestler, while Rowe, Nye, Gibson and Jones are athletic managers.

In the honor societies are Pfunder, a member of Psi Chi, and King of Tau Beta Pi. The Scabbard and Blade roll includes Anderson, Burns, Childe and Risk.

Musical Sigma Nus are Milligan, Robertson, Van der Linden and Wilson, who play in the band; Dodd, who belongs to the Glee Club; Milligan and Wilson of the orchestra; and Tillson, who is a member of the marching band.

Van der Linden represents the fraternity on the Sketch and Iowa State Student staffs.

During the past year Tau Kappa Epsilon won the all-college basketball championship and first place in the Interfraternity Sing.

The "Tekes" boast four major activity men: Anderson, who is president of the Cadet Officers' Association and chairman of the Military Circus; Gregory, who has the distinction of being the president of the American Veterinary Medical Association; Wilkes, who claims membership in Scabbard and Blade and College Cossacks; and Codlin, who is president of the American Society of Mechanical Engineers. Varsity "I" men are Krause, Ferguson, Gathmann, Roberts and Whitford.

"Barroom Brawl" and the winter and spring formals were the social high spots this year.

J. Frederic Schlott is well known on the campus as leader of his dance band, but not everyone knows that he is the president of Theta Chi fraternity. He also heads the Rhythm Club and is secretary-treasurer of Tau Sigma Delta.

The majority of Theta Chis are musically minded, claiming membership in glee club, chorus, band and orchestra. Freddie Glassburner is Iowa State's booking agent and as treasurer of the sophomore class is a member of Cardinal Guild. Eagles is a member of Iowa State Players.

On May 22, 1937, the Theta Chis held a garden party. Colored lights, lanterns and flowers formed a picturesque setting for outdoor dancing. Their winter formal was held in MacKay Auditorium on Dec. 11.

PANHELLENIC COUNCILS

Due to the efforts of the Women's Panhellenic council, fall rushing will begin before school officially opens in the fall of 1938. With Marian Weinel as general chairman, the council worked out a program which schedules the teas and parties during Freshman Days. The council undertook also the revising of the constitution, copies of which will be ready to be distributed to rushees in the fall.

Maxine Anderson was chairman of the Women's Panhellenic ball held on Jan. 29 in the Memorial Union. Stella Mae Brinkman headed the decorations committee.

The past and present presidents of Iowa State sororities held their annual spring banquet at the Memorial Union on May 5.

Robert Von Gillern was chairman of the Men's Panhellenic ball this year, for which Anson Weeks, famous maestro, and his orchestra played. The scene of the ball was Great Hall and the date Feb. 5. Members of the dance committee were John Ferguson, Freddie Schlott and Leo Mores.

The council again sponsored the annual Christmas party for underprivileged children of Ames. Following a special program in Great Hall, the children were entertained at the various fraternity houses. Kelley Hannan, assisted by John Ferguson, Charles King and Hubert Bierman, made all necessary arrangements for the event.

- ★ A member of the United States Olympic team in 1920, George Bretnell came to Iowa State last fall highly recommended from Baker, where he developed a chain of conference championships.
- ★ Charles R. McCaffree, Jr., is the new swimming coach. His first Cyclone team overwhelmed the Big Six rivals in the conference meet. He came to Iowa State from an assistantship at the University of Michigan, where the Wolverines were NCAA champs last year. Previous to this he coached six state championship teams in as many years at Battle Creek High School.
- ★ Louis Menze, veteran cage coach, learned his technique from Phog Allen, who is now guiding the Kansas Jayhawks to one conference title after another. Working with limited material, Menze has always produced hard fighting, well coached quintets.
- ★ A former football and wrestling star at the University of Nebraska, Otopalik has concentrated his efforts on developing wrestling and golf champions since coming to Iowa State. His 1938 team was one of the best, going through the dual meet season undefeated.
- ★ LeRoy (Cap) Timm, newly appointed baseball mentor, is a former baseball and football star at the University of Minnesota. Cap coaches the backfield men in football and the prep basketeers in the winter. He moved up from trainer when "Truck" resigned to go to Wayne.
- ★ James J. (Smilin' Jim) Yeager, head football coach, came to Iowa State as line coach in the fall of 1936 following the resignation of Marshall Wells. Jim was moved up to head tutor the following fall and is preparing his charges for his third season as boss. Yeager graduated from Kansas State in 1931, where he was a star lineman.

Major letter winners in Iowa State athletics make up the roll of the Varsity "I" Club. With an eye toward the betterment of athletics and the athletic spirit at Iowa State College, the club is marked by a rugged initiation ceremony and by a strong bond of fellowship.

Contributions of the club to the college social calendar are the Homecoming Pep Dance and the "I" Carnival, both among the best attended functions of their kind on the campus.

Each spring the Athletic Council sponsors what is known as the Athletic Bust, a general get-together for all varsity and freshman athletes. At this time the club presents "I" blankets to graduating seniors who have won at least two letters. Funds for these blankets come from the proceeds of the pep dance and carnival.

CLARENCE DEE
Captain

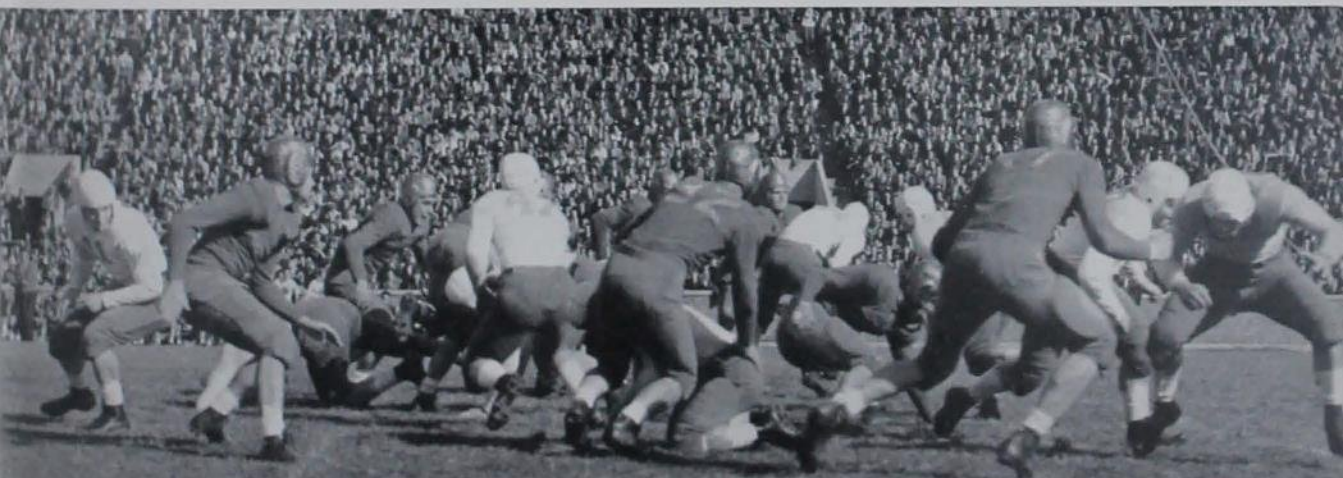

A thrilling last quarter rally that netted the Cyclones two touchdowns and a 13 to 7 upset of the Kansas State Wildcats and the Grantland Rice award as the "team of the week" in the Missouri Valley climaxed an otherwise mediocre 1937 Iowa State grid season.

Coach Jim Yeager, in his first season as head tutor of the Cyclone bunch, developed a powerful line that played the best of them to a standstill. The backfield was a constant source of worry to both Yeager and Backfield Coach LeRoy Timm. Injuries proved a constant backfield bugaboo and it was not until the last two games that the Cyclones were really at full strength.

The team arose to an early season's peak by playing brilliantly against the highly touted Nebraska eleven. The Cornhuskers came to State Field fresh from a dramatic upset of the mighty Minnesota Gophers and were doped to win without much opposition.

With sudden Everett Kischer sparking the way the Cyclones unleashed a brilliant aerial attack that swept the Nebraskans off their feet and netted a Cardinal and Gold counter within the first five minutes of play. With the ball resting on the Nebraska 40 and the Cyclones apparently headed for another score Everett Kischer was injured in one of the pileups. Without Kischer in the lineup the Iowa State offense bogged down and they were forced to kick. With the ball in their possession on their own 20 Nebraska uncorked a

Nebraska tries an end run against an inspired Cyclone crew to no avail.

An Iowa State back skids through a gaping hole in the line in the Homecoming game with Missouri.

tricky end around play which left the stunned Cyclones gaping and the score was tied 7-7 at the end of the quarter.

At the worst the game should have been a tie. In the final quarter Paul Morin, punting sophomore tackle, sent a beautiful punt soaring over the Nebraska safety man's head. Plock, midget Husker back, fielded the ball on his own 24 and reversing his field he ran rampant through the entire team to score. Later in the period the Cyclones, trying desperately to score, had a blocked pass intercepted on the 15. The fighting Cyclone forwards held valiantly, but on third down the Huskers were not to be denied. The game ended 20-7 for Nebraska but those who saw the game acclaimed the Iowa State team as the best in years.

The Cyclones opened the season with two non-conference opponents, State Teachers and Northwestern. The Tutors displayed a stubborn defense and amazed the fans on the first play of the game when John Magovitch, veteran climax runner, broke loose for a 78-yard touchdown gallop. Again in the first half the Teachers scored on a lateral pass play. With Everett Kischer on the pitching end and lanky Jim Dishinger and Chuck Heileman receiving, the Cyclones scored twice in the first half. Kischer's accurate toe spelled the Iowa State victory margin of 14-12, as he booted both placements.

1937 FOOTBALL

POSWELL
HEILEMAN

DISHINGER
KISCHER

The Northwestern game was the case of a big, powerful squad with a world of reserve and a bit of an awed Cyclone eleven. Outside of a few mental lapses on the part of the Cyclone defense the Cardinal and Gold warriors held the Wildcats in check. An 85-yard return of a kickoff by Bernie Jefferson, colored Northwestern star, and a 30-yard punt return for another counter by Swisher featured the Wildcat attack.

Despite the all-star parade of Northwestern backs there wasn't a more outstanding man on the field than Everett Kischer. His offensive work was overshadowed only by his work on defense. The play of Iowa State's great guard combination, Captain Dee and Bock, stood out in the Dyche Stadium game.

Then followed the great Nebraska game and the injury of the brilliant Kischer. Followed a period of experimentation in the backfield. The Kansas U Jayhawkers nipped the new combination in the bud and triumphed 14-6. A last half counter on a lateral pass from Al Waite to Hugh Vickerstaff saved the Cyclones from a shutout. The Iowa Staters played lethargically and probably registered their dullest performance of the fall.

Next came the homecoming battle against the Drake Bulldog at the Des Moines kennels of the blue and white. A great Drake team that rose to un-

The Cyclone back shakes off a would-be tackler in a homecoming action shot.

On a snowy field the Cyclones pound out a season ending 13-7 victory over Kansas State.

precedented heights on this, their homecoming battle, crushed the Cyclones with a four touchdown barrage featuring the redoubtable Manders duo of Pug and Phil and the "Scooter Kids," Underwood and Suter. Hank Wilder, sophomore Cyclone back, was trapped in the end zone for the other two Drake points.

Don Faurot's Missouri Bengals provided the opposition for the homecoming game—a bit too much as it were! The Cyclone defense consistently piled up the Mizzou efforts, but it was the Cyclone offense bogging down at crucial moments that turned the tide.

The Oklahoma Sooners packed too much reserve strength for the Cyclones down at Norman in the following week's game. It was the Sooner numbers and the dazzling aerial display from the arm of Jack Baer to end Pete Smith that actually totaled the Cyclone defeat. The game signified the return of Kischer to the lineup and during the brief period he graced the playing field he personally conducted the only Cyclone scoring threat when he tossed a pass to George Bazik for the Iowa State tally.

Determined to shoot the works, a grimly determined Cyclone crew invaded the Marquette homecoming and spoiled the Hilltoppers' festivities with a 3-0 victory. Rollie Rushmore booted a 29-yard field goal to register the first Cyclone triumph in history over a Golden Avalanche eleven. The Cyclones piled up a 12 to 2 margin in first downs and more than tripled the Hilltoppers' gains from scrimmage.

VICKERSTAFF
WEST

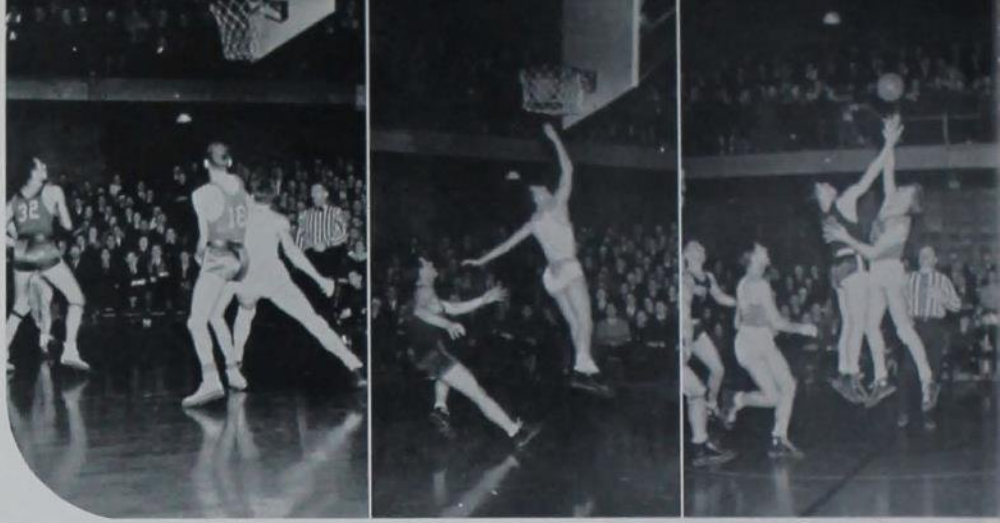

The Cyclones concluded the season in a blaze of glory with a smashing triumph over the Kansas State Wildcats on State Field. A spectacular last quarter rush that produced two touchdowns within 10 minutes gave the Cyclones the winning margin of 13-7. Al Waite was the bright haired boy of the backfield as he gained nearly 100 yards in his 31 attempts. Waite skidded through the big green Kansas State tackles for the first counter and Everett Kischer burst through the line for the second six points. The Cyclone line rose to unprecedented heights as they battered the K-State backs into submission through their vicious charges. Eight of the starting eleven played the entire game in a true "iron man" stunt.

Iowa State's great guard pair, Capt. Clarence Dee and Ed Bock, were named as All-Big Six on most of the conference selections. Kischer, although missing three conference games, was chosen as second team quarterback. Rowland Rushmore, Al Waite and Paul Morin received special mention for their season's play.

Only seven of the 17 major lettermen are seniors, and but one of the nine minor lettermen. Although the losses will be keenly felt the Cyclones are looking forward with optimism to the fall of 1938.

In the shadow of his own goal, Morin, burly Iowa State tackle, pulls out of the line to kick the Cyclones out of danger . . . the Nebraska game.

1. A lanky Nebraska quintet found the Cyclones stubborn, but height finally won out.
 2. Blahnik tips in another basket for Iowa State.
 3. Sophomore Hilary Ryan tips the ball to an incoming teammate.

CAPTAIN BLAHNIK
ALLAN

Iowa State's young basketball team, under the wily tutelage of Louis Menze, didn't compile an unbeaten record during the 1938 winter season—they didn't even win half of their games, but they were never outfought.

Cyclone fans who jammed their way into State Gymnasium on game nights were always assured a battle royal with the Cardinal and Gold youngsters carrying the fight to the opponents all the way.

When we speak of youngsters we really mean youngsters, for the regular starting lineup for most of the season averaged about 19 years of age. Bob Blahnik, the lone senior, was the granddaddy of the quintet at 20. Four sophomores were regulars.

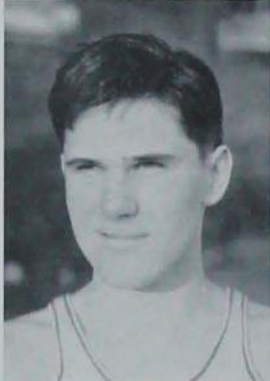

The basketeers opened the season with a highly successful non-conference schedule which included victories over Simpson, Iowa State Teachers and Grinnell and a heart breaking 28-26 loss to Cornell in an overtime period.

In the opening game it was Bobbie Menze who "iced" the game for the Cyclones. The little 5 foot 6½ inch forward drove under the basket twice for counters in the last minute to give the Iowa Staters a 41 to 37 win.

Next the Cyclones twice tripped Iowa State Teachers, each by four point margins—41 to 37 and 30 to 26. Again in the first game it was Bob Menze who clinched the game with a last minute scoring barrage. Blahnik scored 14 of the Iowa State total of 30 in the second game.

The boys seem to be having a little "get-together" under the basket.

1. Oklahoma's "boy scats" in action.
2. Stellar defensive play under the basket.
3. The ball is tossed and the Cyclone and Husker centers go into the air.

Iowa State tripped a highly touted Grinnell quintet the next week to the tune of 28 to 26. It was a virtual field night for Blahnik, as the senior forward netted 16 counters.

Coach Menze's proteges opened the conference schedule with a surprising 41 to 30 victory over the Kansas State quintet. Then followed a disastrous road trip which saw the Cyclones drop games to Kansas, Oklahoma and Missouri. Valiant defensive work by Bill Bliss and brilliant offensive efforts of Bob Blahnik went for naught.

Some splendid clutch shooting by Don Beresford, substitute forward, netted the Cyclones their second conference victory over the Missouri Bengals, 38 to 35. Again Blahnik was high scorer, but it was Beresford's timely field goals that paved the way to victory.

The Cyclones closed their 1938 season by losing a pair of tough ones to the league leaders, Kansas and Oklahoma. Phog Allen's University of Kansas were held in check for 38 minutes, but the lanky invaders started ringing them in the last two minutes to win 31 to 23.

Rising to great heights, the Cyclones nearly stemmed the tide of Hugh McDermott's sensational Oklahoma "boy scat" aggregation. Bob Blahnik netted 19 points and headed the spirited Cardinal and Gold charge.

Bob Blahnik finished the 10 game conference schedule with a total of 119 points. Fred Pralle, Kansas' high scoring guard, scored 27 points in his final game to nose out Blahnik for the scoring title. This is the second year

MENZE
RYAN

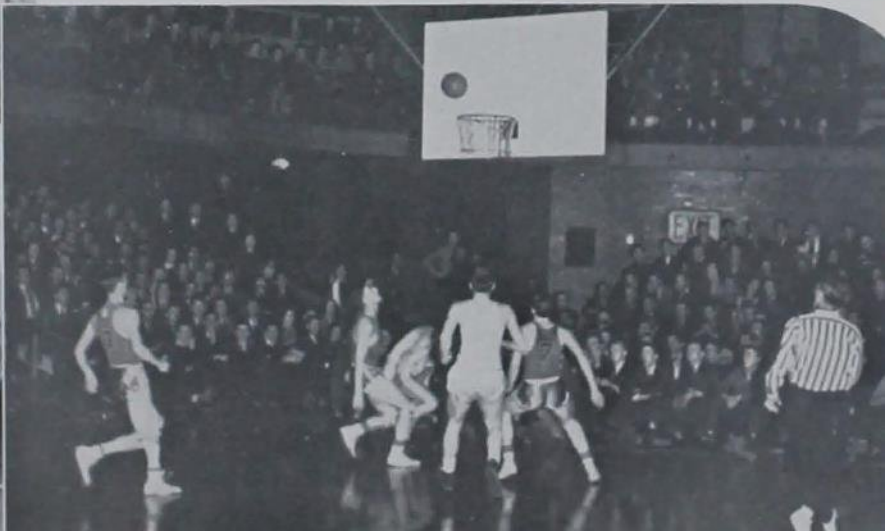

an Iowa State man has lost out by the final game. Last year it was Jack Flemming, probably the outstanding forward in Iowa State basketball history, who was nosed out of the crown by Frank Groves.

At the conclusion of the season Blahnik was named unanimously all-conference by the sports writers of the middle west. Bill Bliss, rugged sophomore guard, and Bob Menze, Coach Louie's son, received honorable mention on most of the selections.

Blahnik is the only major letterman lost to the squad and with a group of rangy preps on Freshman Coach LeRoy Timm's yearling team in prospect, Cyclone basketball stock for 1939 is definitely on the upgrade. Such performers as Bob Hunt, 6 foot 3 inch guard from Marshalltown, and Don Carlos, a sharp-shooting forward from Perry, will greatly help Louis Menze and give him some much needed height from which to mold his next quintet.

Jim Henderson, retiring sports editor of the Iowa State Student, very aptly summarized the basketball season in his Sport Spotlight column, "The season was marked by a splendid non-conference record, a disastrous record on the road, a string of fine home performances, and steady improvement of the young Cyclone sophomores as the season progressed."

1. A closely knit zone defense in action.
2. Following in an out court shot.

SEASON'S RECORD

Iowa State	50	Minnesota	54
Iowa State	34½	Drake	69½
Iowa State	36	Missouri	68
Fourth in Big Six indoor			
Third in Iowa indoor quadrangular			
Iowa State	65⅓	Missouri	65⅓
Iowa State	45	Minnesota	48
		Kansas State	69
Fifth in Big Six outdoor			
Iowa State	80	Drake	51

Drawing from the most outstanding sophomore crop in years for the bulk of the team strength, Bob Simpson, in his farewell season as Cyclone track mentor, developed a conference champion mile relay quartet that set a new school record and beat Drake in the final dual meet of the season.

Going into the last meet of the season the Cyclones, keyed to a high pitch by the realization that it was their last chance to win points for Bob, crushed a heavily favored Drake aggregation 80 to 51.

A mile relay team composed of three sophomores and a senior established a new college record in the event when they won the Big Six outdoor in 3:17.7 and came within a tenth of a second of the present loop record.

The sophomores—Bob Dean, Orville Schmidt and John Cunningham—and the senior—Bill Stouffer—compiled a great season's record, winning every dual meet and losing the Big Six indoor only by a disqualification.

The Iowa State vaulters were a source of constant joy to Coach Simpson. In nearly every meet it was the Cyclone trio one-two-three. Phil Johnson headed the sophomore trio the most of the year, although Bob Byers flashed brilliant form in the conference outdoor when he beat Johnson with a 13 foot leap. Warren Sargent, elongated Des Moines lad, completed the threesome.

For the first time since the days of Labertew and Guse, Simpson had a pair of fine half-milers in the persons of Rog Bailey and Frank Silver, first year men. Both placed in the conference meets.

Freddie Poole, one of the few eight lettermen in the annals of Cyclone athletic history, completed a colorful career by being the high scorer of the 1937 track season, nosing out Captain-elect Cunningham by a fraction of a point.

Top row: Johnson, Ritter, Bailey, Reeder, Sargent, Silver, Briley, Brettnall
Front row: Stimson, Byers, Waite, Phillips, Dean

After a disappointing indoor season that saw them lose duals to Minnesota, Missouri, Drake and Missouri on successive weekends, the Cyclones upset predictions and barely missed an upper division berth in the conference meet.

The outdoor dual schedule included a "believe it or not" 65²/₃ to 65¹/₃ loss to Chauncey Simpson's Missouri Bengals for the second straight year, a triangular meet with Minnesota and Kansas State during Veishea and the final melee with Pitch Johnson's Drake Bulldogs.

In the loop outdoor held at Lincoln the mile relay quartet was first; Cunningham won a second in his event, the 440; Silver, Byers and Poole had thirds, and Johnson, Schmidt and Bailey fourths. Lawrence Minsky, defending champion in the javeline, injured an ailing arm and did not place. The team total of 24 points placed the Iowa Staters fifth, one point behind Oklahoma.

Following the regular season, three sophomores—Cunningham, Dean and Bailey—competed in the National Collegiate Meet at Los Angeles. Cunningham and Dean, entered in the 440, ran their best races of the year in their preliminary heats of 49 and 49.1 seconds, respectively. Bailey ran the 880 in 1:55 but failed to place in one of the greatest collegiate half-mile fields in many a year.

John Cunningham leads off for the Cyclone mile relay team in the conference meet at Lincoln.

Larry Minsky uncorks a mighty javelin heave. Minsky was conference champion for two seasons but pulled a muscle early in the spring and was out of competition most of the year.

In the high barrier event Freddie Poole leads the flock to the first hurdle in his last race against Drake. Jud McGuire is crowding him in second.

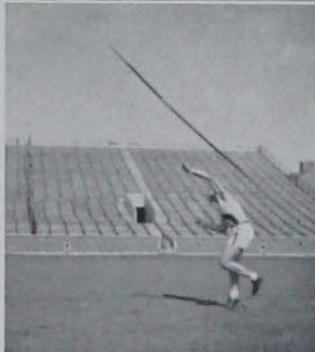

Warren Sargent, Kenny Fulk and Jake Stimson take a bit of time out between events.

Warren Sargent scissors over the high jumping bar.

The finish of the conference 440-yard dash at Lincoln. Cunningham is second and Schmidt finished fourth. Simmons of Nebraska is the winner.

Orville Schmidt anchors the victorious mile relay team at the conference meet. The Cyclones set a new school record in winning the event.

The start of the low hurdles in the loop battle. McGuire is in the third lane.

Starting with a veteran squad composed of six lettermen and two sophomores, Coach Hugo Otopalik developed a 1938 wrestling machine that compared favorably with any in Iowa State's history. Although the Cyclones did not win the Big Six nor National Collegiate championships, they did complete an undefeated dual meet season, beating, in the process, six of the Big Ten's most powerful grappling aggregations, a feat which gave Iowa State an unofficial Big Ten title.

The Cardinal and Gold opened the 1938 mat season by walloping the Badgers of Wisconsin 18½ to 7½ in a match in Madison, Wis., Jan. 8. One of the largest early season crowds in Badger history turned out to watch the Cyclones, led by Capt. Frank Linn, Jack Larson, and Joe Loucks, completely outclass the dairy state crew.

Two days following the Badger fray, Iowa State started her home stand by meeting Northwestern University in State Gymnasium. Displaying the same power that had made them Big Six champions in 1937, the Cyclones trounced the inexperienced Wildcat octette 23½ to 4½. The Otopalik men held the whip hand all the way, and swept through to victory with only one defeat and a draw charged against them.

On Jan. 17 the Cardinal and Gold men entered a match with the highly touted Big Ten champion Illinois crew, led by the powerful John Ginay. Distinctly the underdogs, the Cyclones were classed as but a warm up for the Illini aggregation. However, the Otopalik determination showed itself, and the fighting Cyclones turned on the heat to down the neighboring staters 18½ to 7½ in the year's biggest upset.

The next match, Jan. 22, found Minnesota an easy victim. The score was 19 to 9. Only the stellar grappling of Earl Steidler, Gopher 126-pounder; Bill Culbertson, 155-pounder, and Capt. Clifton Gustafson, Big Ten champion heavyweight, prevented the Gophers suffering a complete rout. Jack Larson, Cyclone sophomore, and Al Stoecker, Big Six champion heavyweight, received their first reversals of the season in this meet.

Journeying to Cedar Falls, the Iowa Staters engaged in what was undoubtedly the closest battle of the season. Hampered by the absence of Jack Larson, whose father's death prevented his competing, the Cardinal and Gold battled nip and tuck throughout the thrill filled match, finally winning 21 to 13. High point of the fray was Capt. Linn's fall over Merewyn Bahling, powerful Tutor 145-pounder.

Feb. 5 the Otopalik men renewed their civil war with the State University of Iowa at Iowa City. Entering the meet as distinct favorites, the undefeated Cyclones ran into plenty of trouble with the Hawkeye crew, but managed to win, 19 to 11. Jack Larson, John Kirstein, Joe Loucks, Royce Cox, and Capt. Linn starred for the winners.

Returning to Ames, Iowa State engaged in its first Big Six meet of the season. The Nebraska Cornhuskers, considered weak but always dangerous, furnished the opposition, and the Cardinal and Gold swept to an easy victory, 26 to 6. The one dark spot of this victory over a traditional rival was Captain Linn's inability to compete because of a boil on his arm.

In the final dual meet of the year, the Chicago Maroons fell before the onslaught of Coach Otopalik's bone benders. Although again hampered by the absence of Capt. Linn, the Cyclones crashed through to a decisive 24½ to 9½ victory, completing an undefeated dual meet season.

With nearly everyone looking forward to an easy Cardinal and Gold victory, the Big Six championship tournament got under way at Ames March 5. Leading the way into the championship brackets, Iowa State seemed certain to retain her title, won at Lincoln, Neb., a year before. However, the powerful Sooners of Oklahoma came rapidly from behind to leave the bewildered Cyclones in a tie with Kansas State for second place. Nevertheless, two Otopalik grapplers, Kenneth Stewart and Captain Linn, were crowned Big Six champions.

Kenneth Stewart, Jack Larson, Frank Linn and Joe Loucks represented Iowa State in the National Collegiate championship tournament in State College, Pa. Loucks and Linn captured third places and Stewart and Larson fell by the wayside in the early rounds, as the Cyclones ended up in a three way tie for tenth position.

And so ended the wrestling season of 1937, and three cheers go to Coach Hugo Otopalik, "the man who made wrestling what it is at Iowa State."

KENNETH STEWART, "the most improved man on the squad." Two years ago Ken was a major letterman at Iowa State and apparently had the 118-pound situation well in hand. However, a sensational chap named George Haynes stepped in and took over the position in 1936. Undaunted, Stewart came back in '37 not only to fill the shoes of the absent Haynes but to wear his Big Six crown as well.

JACK LARSON, sophomore sensation deluxe. Victor in five out of seven dual meet matches during the season, the Fort Dodge boy climaxed a brilliant first year by placing second in the Big Six fracas.

JOHN KIRSTEIN, 135-pound veteran. John, who hails from Eagle Grove, has completed three highly successful years as a Cyclone grappler. His 1937 record shows four wins, two losses and two draws in eight dual meets.

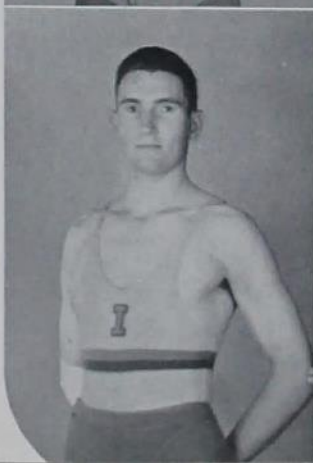

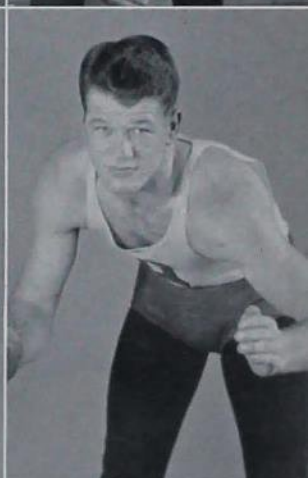

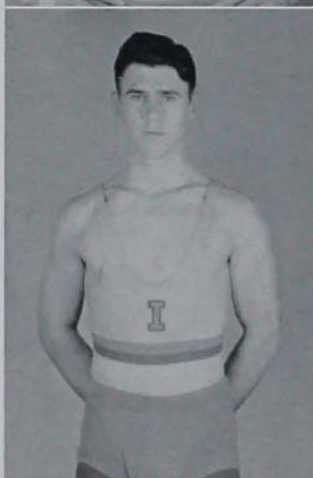

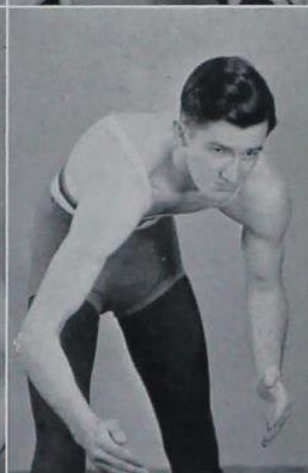

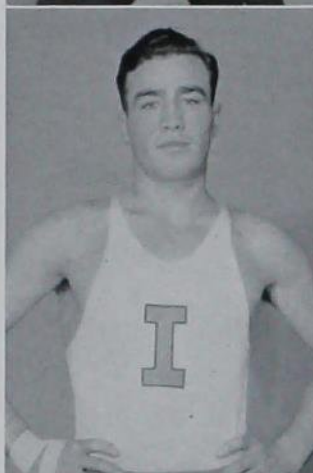

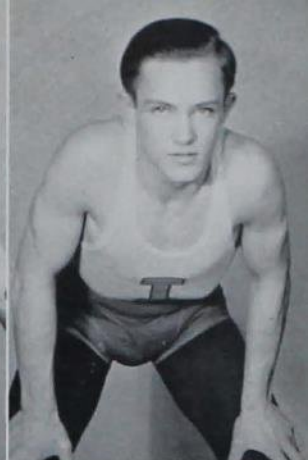

CAPT. FRANK LINN, member of Iowa State's most famous wrestling family, climaxed a brilliant career by capturing the Big Six championship and winning third in the National Collegiate meet. He boasts the only unblemished 1937 Cyclone dual record.

ROYCE COX, junior 155-pounder. One of the most dependable of Iowa State's grappling octette because he seems to have the knack of always coming through in the pinches, he has six wins and two setbacks on his 1937 dual record.

JOE LOUCKS, a 155-pound sophomore, who wrestled over his weight all season. One of the most promising prospects in Cyclone grappling history, this ex-state high school champion from Cherokee was victorious in seven of his eight 1937 dual meet matches, and placed third in the National Collegiate meet.

GUY HENDERSON, three years a topnotch 175-pounder for Iowa State. Big Six consolationist in '37, Guy has handled his light-heavyweight assignments with all the skill and fight that denotes a great wrestler. He'll be hard to replace.

AL STOECKER, brawny heavyweight. Big Six champion in 1936, Al was victorious in four out of six dual meet battles in 1937. He placed third in this year's Big Six scramble.

SCOTT LORIMOR

A disastrous mid-season slump that saw the Cyclones lose eight conference games in a row cost Coach Joe Truskowski's 1937 Iowa State baseball team a chance at an upper division conference berth.

The baseballers opened the season with a string of six victories, then sank into the losing streak and finished strong with three victories.

When the Cyclones opened their schedule with the half dozen wins, fans began to talk about another conference championship. Iowa State nines shared the Big Six baseball crown for both the 1935 and 1936 seasons.

Ineffective hurling from rookie pitchers and spotted hitting contributed to the Cyclone downfall. The graduation loss of Torvald Holmes and Bob Scott, veteran hurlers for three years, appeared too big a handicap to overcome.

Co-Captains Maurie Johnson and Jack London, along with Clarence Gustine, were the spearheads of the Cyclone attack. Gustine was the leading hitter on the squad, with 24 hits in 69 trips to the plate. This gave him an average of .349 for the 17 games, 16 points better than Ken McKinnon, senior catcher.

Jack London worked opposing pitchers for 25 walks and also led in the base pilfering department, with 12 thefts. Johnson, who alternated between third base and behind the plate, was one of the hardest hitters and his ringing blows in the clutch saved many a game for the Cardinal and Gold.

The Cyclones opened the season by polishing off Simpson to the tune of 10 to 4. Both teams were hitting freely, but the Iowa Staters bunched their blows more effectively to triumph.

Top row: Fleming, Edwards, Neal, Gustine, Adams, Koch, Pudenz
Front row: Straight, Johnson, Kischer, Weber, McWilliams, Swandahl, McKinnon, Warrington, London

Followed a two game series with Iowa State Teachers with the Truskowski lads winning both; the first 1 to 0, and the second 10 to 5. The first was a pitching duel with the Cyclones squeezing over a run in the eighth inning. The second was a hitting bee with Iowa State leading all the way.

Next Coach Truskowski's nine traveled to Lawrence and drubbed Coach R. L. Conger's Kansas team in a two-game series. The first game was a closely contested slugging match with Iowa State emerging a 12-11 winner. The second was a different story with Iowa State holding the whip hand all the way 21-11.

The Cyclones won the sixth game against Nebraska and then embarked on their prolonged losing streak. The last game of the series with Nebraska and then losses to Missouri, Oklahoma and Kansas State in successive series. Then came the second Nebraska series and the rise of the Cyclone.

After losing the first game 5-4, they rallied to clinch the second contest 8 to 6. They finished the season with a series triumph over the highly rated Luther nine. Gathering impetus with every game they won the first game 4 to 0, and then turned on the heat to win the second 16 to 6.

Truskowski resigned his position on the Iowa State athletic staff at the close of the season to accept a similar position at Wayne University in Detroit. "Cap" Timm, a football and baseball star at Minnesota, took over his position.

The season ended with the Cyclones resting in fourth place and a season's record of nine wins and eight losses. It was a team that flashed championship form at times and dropped to mediocrity at others. Although frequently outscored they were never outfought and always displayed the fine sportsmanship so characteristic of Iowa State Athletic teams.

John Kaskie, Cyclone outfielder, looks as if he really means business as he strides to the plate for a few practice cuts.

Coach LeRoy (Cap) Timm, newly appointed baseball mentor, gives the boys a few final instructions before the game.

A Kansas State batsman takes a lusty swing at a Cyclone twirler's offerings and misses . . . one of the 1937 Veishea games.

At one of the games . . . Andy Woolfries and W. E. Stewart bring a thriller to you over WOL

A shot taken from deep in center field showing a portion of the crowd at one of the 1937 Veishea games with Kansas State.

Coach LeRoy Timm of the Cyclones and Frank Casey, Simpson headmaster, get together for a chat before the game.

Here is Al Bauman, slugging catcher, calling for the ball to head off an opponent dashing for the plate.

Out at first! Ot Pudenz, hard hitting first sacker, takes a peg from one of the Cyclone infield for the putout.

Dick McWilliams, third baseman, watches an attempted theft of the third sack as he waits for the throw.

Coach Harry Schmidt's racqueteers completed a fine 1937 dual meet schedule, winning six matches while dropping three and tying two. George Graves of Ames captained the Cyclones, playing Number 1 most of the season.

Teams encountered during the season included rivals from the Big Six, Big Ten, Missouri Valley and North Central conferences. With the exception of the Big Ten the Cyclones held the whip hand over the majority of the other rivals. Minnesota and Iowa drubbed the Iowa Staters in their encounters and they dropped the third decision to Nebraska.

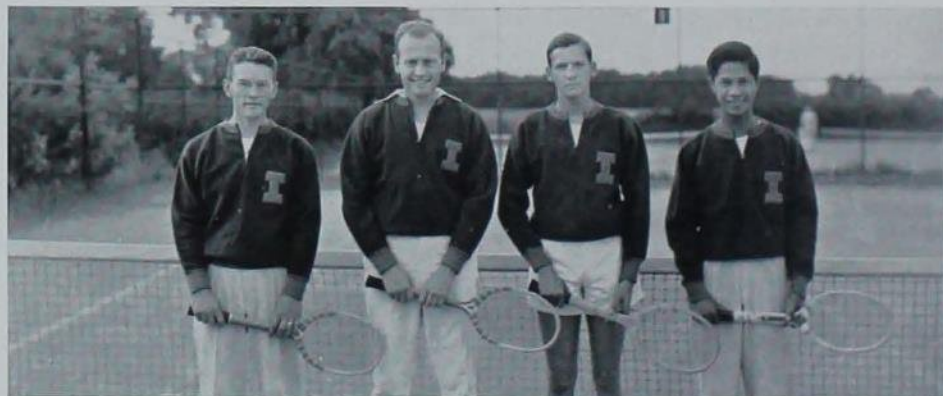

Carleton, Drake, Coe, and State Teachers fell before the Cyclone charge, each by substantial margins. The Iowa Staters took Drake twice by 6-0 scores, Coe to the tune of 4-0, Carleton 4-0, and Coe 4-0 and 6-0.

In the conference meet held at Lincoln in late May the Cyclones tied for third when Tony Dizon scored a first round win.

At the conclusion of the regular season Tony Dizon was elected captain for the coming year. Other major lettermen were Capt. George Graves and Carl Payson. Dudley Haseltine received a minor award.

As an additional feature the tennis squad sponsored professional tennis matches during the winter and spring quarters. This spring the Vines-Perry troupe was featured and played to a large and appreciative group.

Filled with the zest that comes only to golfers in the spring time, Coach Hugo Otopalik's par chasers got off to an early 1937 season start.

Practice went exceedingly well throughout those opening weeks, and on April 17 the Iowa State stokers journeyed to Grinnell to open their dual meet season with the Pioneer green crew. The Cyclones were in top form and downed the Cardinal and Black 17½ to ½.

With one well earned victory to their credit, the Iowa Staters started their home stand with a thrilling dual battle with Nebraska. Although the Cyclones, led by Vernon Waldorf, were in great form, the polished Cornhusker crew was too tough to stop and won handily 13 to 5.

Following the Nebraska meet, the Otopalik men ran into tough going, losing heart breaker after heart breaker to Northwestern, Minnesota, St. Ambrose, and Nebraska.

Hardly had the sting of a 15½ to 5½ defeat at the hands of Northwestern University worn off, than the Cyclones again met disaster, dropping an 18 to 3 decision to the mighty Gophers of Minnesota.

On May 7, the Cardinal and Gold met the St. Ambrose College stokers at Davenport, and although the Iowa Staters were heavy favorites, the Saints did the impossible and won 14 to 4.

After handing Grinnell its second defeat, 12½ to 6½, May 14, the Cyclones, with revenge in their hearts, completely turned the tables on the St. Ambrose crew, smashing the Davenport boys 15 to 6.

A last minute attempt to end the dual meet season in a blaze of glory ended in failure as the Cornhuskers of Nebraska, for the second time, downed the Otopalik charges, outpointing the Cyclones 11 to 7 at Lincoln May 21.

Turning their eyes toward Lincoln and the Big Six tournament, the Cardinal and Gold golfers headed into the conference championship campaign. Waldorf, carding a 156 for the 36-hole grind, led the Cyclone contingent, winding up in a tie for ninth. Dillon Turney and Capt. Robert Bauge grabbed a tie for twelfth and sixteenth places, respectively, as Iowa State tied for fourth place in the scramble.

Still using many of the same ponies they started with nine years ago, the Iowa State poloists started off their ninth year under the direction of the third polo coach in the organization's history, Capt. M. Milton Potter. Transferred here from Fort Sam Houston to replace Capt. John H. Lewis, Captain Potter has gone a long way to put the boys back into the form of the Midwest Champions of 1935.

Even in defeat the team showed definite promise. At Columbia, Mo., against a powerful Tiger quartet, the Cyclones took their first defeat—losing by one point in an overtime period. Stopping Missouri drives consistently and taking advantage of every Tiger error, the Cyclones displayed a smart brand of polo. With the score knotted at half-time it was anybody's game. In the final chukker Hayward tied the score, only to have Missouri's No. 2 man put the Tigers in the lead with an accurate shot from far out. Burrell tied the score again, but Oliver of Missouri pushed another over to give the Missouri boys the edge. Then, with seconds to go, Hayward, in a long, spectacular run down the sideboards, pushed over the tying goal. As the bell rang, after the throw-in, ending the game, Captain Kraft of Missouri pushed the ball down into Iowa State territory and before a Cyclone could shove it to the sideboards—officially ending the chukker—Kraft, with a very difficult shot under his horse, put the ball through, scoring the winning goal and setting the Cyclones down 8 to 7.

The following week, with the weather definitely discouraging to polo fans, the fighting Illini from the University of Illinois defeated the Cyclones in their second game.

Ending the season on Homecoming morning in a burst of brilliance and a flash of excellent polo, the Cyclones triumphed over

Captain Potter, Blackman, Burrell, Hayward, Guthrie, Jebe, Captain Gibson

Missouri in a comparatively easy win. Never losing the lead they established in the opening chukker Iowa State held a 4-1 lead at half-time. Missouri's fourth chukker rally led by Kraft failed to capture the lead, and the Cyclones maintained a narrow one point margin through the last two chukkers to win 7 to 6, thrilling the 2500 Iowa State fans present.

Spring practice, starting with the spring quarter, found the entire first team, Sam Blackman at No. 1, Jack Burrell at No. 2, Gene Hayward at No. 3, and Chester Guthrie at back, all in excellent condition and available for the spring games. Emil Jebe, the playing manager, along with many other promising sophomores and juniors, bolstered the team and added to its reserve strength this spring.

Spring schedule included games with the strong Alabama Polytechnic Institute team, the Michigan State College indoor team, the fighting Illini, and the Tigers from the University of Missouri—all powerful Mid-West contenders.

The game of the year was played at home as the climax of Weishea activities when Iowa State met its friendly enemies, the Missouri Tigers from Columbia.

A typical action shot of a member of the 1937 Cyclone polo team which won its third consecutive Mid-West title.

At the stables . . . preparing the mounts for the afternoon's game.

The horseman to the extreme right has stopped and lofted the ball into the air toward the goal. Note the white sphere in the air in front of the right fore leg of the mount.

In battle formation . . . the rival squads line up before the game. The horses are fresh and eager, the riders tense! Polo!

Following a chukker . . . the official tosses in the ball and we're off for another exciting 10 minutes.

An unusual action glimpse with horses straining every muscle and the riders, poised with mallets in air.

Bayard Scott, one of the hardest riding back shot artists in Iowa State polo history, dons his armor and ventures forth to the wars.

Two hard riding horsemen fight for the ball. The pounding hoofs and swinging mallets make polo thrilling enough for the most daring sportsman.

Pounding at top speed for the goal with a rival in hot pursuit . . . one of the most exciting moments in a polo game.

Nose to nose, in perfect tandem formation, the rival riders drive for the ball. Note the ball spinning across the grass in the foreground.

Swooping down from the rear the rider attempts to capture the ball . . . this happened in the Missouri game.

SEASON'S RECORD

Iowa State	54	Gustavus Adolphus	30
Iowa State	39	Carleton	36
Iowa State	27	Minnesota	54
Iowa State	57	Nebraska	18
Iowa State	48	Grinnell	36

Iowa State's mighty swimmers, under the capable tutelage of Coach Charles McCaffree, Jr., swept through a successful season to cap the year's accomplishments with the winning of the 1938 Big Six conference championship.

Composed of such tankers as George Haldeman, breast stroker and outstanding swimmer in the Midwest; Eugene Armstrong, back stroke artist; Don Allen, yearling dash man; Capt. Harry Harris and James Noland, fancy divers; Robert Wempe, John Ferguson, Fred Hargesheimer and George Hargrove, distance swimmers; James Simon and Keith Cochran, breast stokers, and Robert Cooper and John Gibbs, back stokers, the team won all but one of its contests.

Beginning the season with a bang, the Cardinal and Gold squad journeyed to Minnesota and put its first two wins in the victory sack by knocking the pins from beneath Gustavus Adolphus and Carleton Colleges. The scores were 54-30 and 39-36, respectively.

Following a long period of inactivity, the Cyclones met the University of Minnesota swimmers in State Gymnasium pool, falling before the overwhelming strength of the Gophers by a score of 54-27.

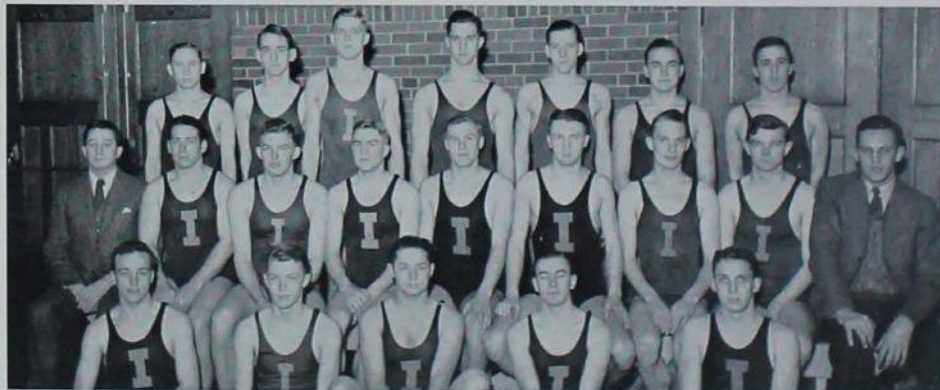

Rallying, the Iowa Staters tangled with Nebraska's defending Big Six champion squad 2 weeks after the Minnesota meet, inundating the Cornhuskers with a top-heavy score of 57-18. Making a strong follow-up, the Cardinal and Gold team traveled to Grinnell the next day and added another victory to its string, winning over an obstinate Pioneer crew.

The Grinnell meet marked the close of dual meet competition for the season, with only the Big Six conference championship contest at Norman, Okla., remaining.

Setting out for the southern state in fine form, the Cyclones churned through the meet to win seven of the nine first places, scoring a total of 76 points and far outdistancing their nearest opponents, Nebraska's defending champs.

Since this is Coach McCaffree's first year at Iowa State, the record set by his team this year is one to be proud of. Previous to coming here, McCaffree served as assistant coach at the University of Michigan.

INTRAMURALS

INTRAMURAL BOARD

HARRY J. SCHMIDT

The Department of Physical Education for Men promotes the program of intramural activities designed to fulfill the desires and needs of every male student at Iowa State College. An organization grouping the students to accomplish this end divides the student body, faculty, and activities into seven main groupings. These are the Fraternity, Fraternity Freshman, Ward, Dormitory, All-Campus, Divisional Class, and Clubs. The first four of these are based upon the residence of the individual; the Divisional Class upon the classes of the various divisions; the All-Campus includes the sport championships among the first four groups, as well as individual competitions of an all-college nature; while the club grouping is composed of activities for which interested groups of students form club organizations.

Athletics of both the strenuous and non-strenuous types comprise the program of individual and team competition. Sufficiently diversified to meet the desires of every student, this program includes the following activities:

Fall; Touch Football, Golf Putting, Archery, Handball, Track, Swimming, Water Polo, Wrestling, Tennis, Horseshoes.

Winter; Basketball, Wrestling, Swimming, Indoor Track, Bowling, Handball, Skating, Fencing, Skiing, Ice Hockey, Badminton.

Spring; Volleyball, Horseshoes, Tennis, Track, Softball, Baseball, Lawn Bowling, Golf, Archery.

A subdivision of the Department of Physical Education under the direction of H. J. Schmidt is charged with the responsibility of running this program. A staff of student managers, headed by Roy Joens as Senior Manager, three junior managers, Charles Nye, Robert Bonnewell and Leo Weiner, and manager candidates assist in the supervision and conduct of all activities. Relations between the Intramural office staff and the various competing organizations is effected by unit managers. The policies of the Fraternity, Fraternity Freshman, Ward and Dormitory groups are controlled by their respective Intramural Managers' Councils, while an Administrative Board composed of the presidents of the councils and the senior and junior managers coordinate the program for the entire student body.

Over the net goes the ball . . . Mary Lyon Hall was winner of the volleyball competition and Delta Delta Delta was the runner-up.

Archery Club members practice in the open spaces. Jane Sproul of Alice Freeman was the winner of the archery tournament.

Observers on the sidelines watch as a tennis participant receives some coaching. Mary Belle Moore of Welch West was the winner of the tennis singles tournament.

Three charming mermaids poised for a dive. High scorers in swimming were Delta Delta Deltas, and the plaque went to them for this winter's competition.

Vim, vigor and vitality are shown in this basketball practice. Mary Lyon Hall won the plaque for basketball after a long siege of keen competition, defeating the Town Girls in the final round.

Badminton players waiting for the bird. Badminton honors were won by Virginia Lincoln of Margaret Hall.

Deck tennis participants in action. Jean Potter and Margery Bell took the deck tennis title from their sorority sisters, Helen Reuling and Zerelda Nicholson, but the plaque still went to Delta Delta Delta.

Hard at play are these ping pong rivals! Marisue Cash of Kappa Delta won the ping pong singles when she met her sister, Billy, of Birch Hall in the finals.

The dance club, specializing in modern dancing, is directed by Miss Ruth Hassinger, assisted by Jean Brownlee. Each year, this group gives a program for Farm and Home Week, and also sponsors the Spring Concert presented during Veishea.

Book six

CAMPUS LIFE

HOMECOMING

It didn't come true, but the Delta Sigs had the right idea. . . .

They charged and won—first place for FarmHouse fraternity. . . .

Wonder when Kischer will break loose? . . .

The annual Homecoming walkout—the student body on strike. . . .

Touching up for a touch down. . . .

Bob McBride—goin' to classes on a mule, an old Missouri mule. . . .

Pep personified. . . .

Just eating it up. . . .

Dorothy Stearns hanging on for Iowa State. . . .

"Hold that line! . . ."

The Pi Kappa Phi's place the "welcome" on the balcony. . . .

Larry Howes, football manager, grins happily. . . .

Mu hero! . . .

Grand entree. . . .

Gulp!—Liz Elliott in action. . . .

Score? We'd rather not say. . . .

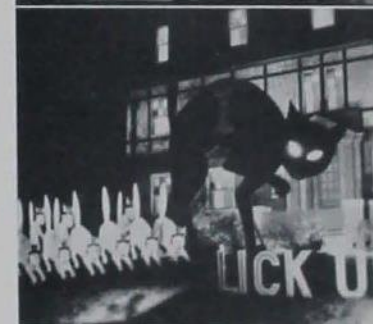

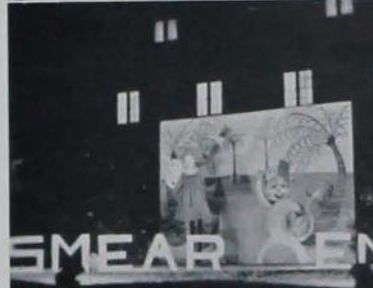

At the kick off, gone with the wind. . . .

The Gamma Phis had the right spirit too. . . .

The Betas all lit up for Homecoming. . . .

Hands across the gridiron. . . .

The prize winning Kappa Delta Cat and Kittens. . . .

Civil Engineering Camp—looks like Loren Heiple and Morgan Johnson forgot to shave. . .

Soil conservationists out at the crack of dawn. . .

It's 10 p. m. and all is well for foresters Bob Hirt and Gibson Nesbitt. . .

Soils boys go native—who would ever think Gene Hamilton was an economist? . . .

Thirty miles from nowhere and not a barber in sight—"I'll cut your hair myself," says John Crumbaugh to Ray Pfeifer. . . Howard Falb is just an interested spectator. . .

'Twas "Science with Practice" for the summer camp boys. . .

Harris Hart rests from his timber felling duties at Soils Camp. . .

Bill Wheeler on a plane table. . .

"We ought to be about here," Ralph Willits tells Bill Helscher as they try their hands at mapping. . .

Fellows are all "ears" listening to Julander's lecture. . .

"Making little ones out of big ones" in the limestone quarry. . .

Wheeler, Sargent and Dr. Edwards wait for their boat to come in. . .

Richard Dunck, Merrill Edmunds, Robert Blaser, Ted Silker writing up cruising reports. . .

Professor Peterson and Frankie Byers go inspecting. . .

An "eye view" by ISC campers. . .

Leaving for home from Kaibab National Forest, Jacobs Lake, Ariz. . .

Noon-day siesta at Flagstaff, Ariz. . .

"Siesta is over," and ISC taskmaster arouses Professor "Pete". . .

Prety good close-ups of J. S. Dodds and bearded Heiple. . .

It's the 4th of July and a day of vacation. . .

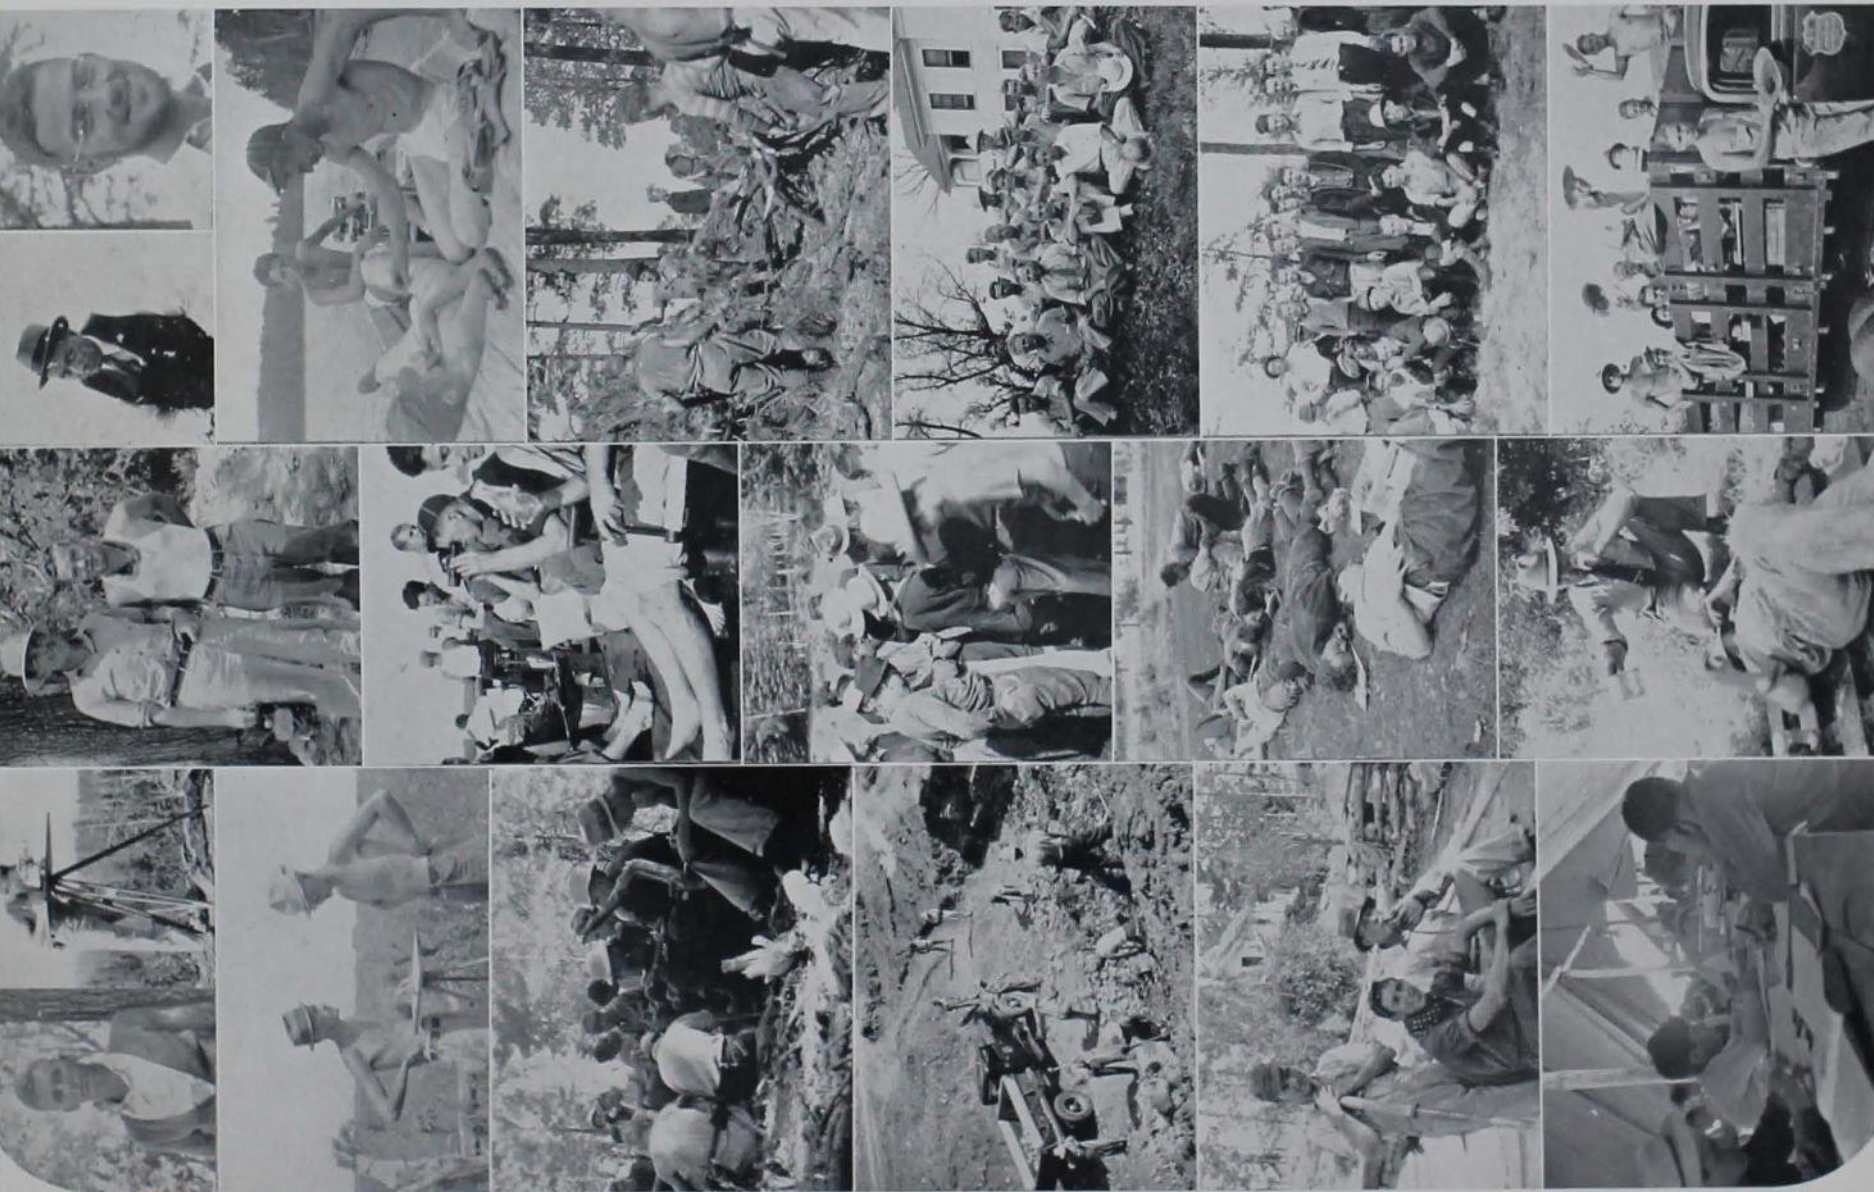

"Just cutting brush" on Coconino National Forest at Mormon Lake. . .

At Bethany, Mo., every member answers roll call. . .

CE boys prepare for that homeward trip from Rainy Lake. . .

"We're here to save the soil," shout the Missouri campers. . .

SCIENCE WITH PRACTICE IN SUMMER CAMPS

SCIENCE WITH PRACTICE IN SUMMER CAMPS

Military students become "soldiers" at Fort Riley, Kans. . .

Sentenced, by custom, to carry a rifle, a group of engineers practice aiming. . .

Bob Schreiber, Bill Patterson, Francis Byrnes, Bob Swatosh and Johnnie Davidson line up for inspection outside of their abode, tent 5. . .

It's called "Balk Detail," but it looks as if Bob Blahnik is the one taking it easy. . .

Polished and shined, Iowa State's engineers smile for the photographer, "Blurry Joe". . .

Groomed, even to having their hair combed, field artillery men pose. . .

First to arrive at camp, Swatosh, Patterson and Byrnes spend the evening in Kansas on kitchen police. . .

It's not a fake—only an officer taking a horse over the Rim Rock, or is it vice versa. . .

Lewis Fuller prepares a target for rifle practice. . .

Talking it over are some of the camp officers, including Lieut. Col. H. R. Odell, Capt. Harry Storke and Lieut. John Walter. . .

The end of the rainbow, or standing in line in front of the paymaster's tent. . .

Relaxing between rounds are the field artillery boys, including Kelley Hannan, Ernie Gray, Glen Ehmke, Herman de Neui, Harry Newell. . .

Dr. Peterson hard at work—handy with the shovel, we'd say. . .

An Iowa State soils professor, but a Missouri corn field. . .

Bud Hunter nurses an injured foot—"We'd better get you back to civilization," says Professor Dodds. . .

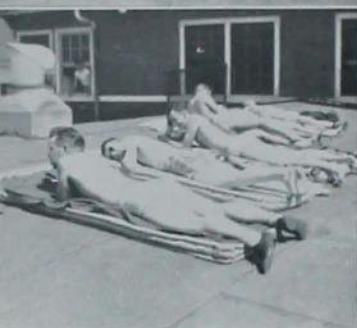

In his own quiet way, Kenneth LeMoine takes a shot. . .

Oak Creek Canyon, Ariz., and the forestry boys are inspecting. . .

Dorothy Holt and Margre Henningson really hit the books—and what a place they pick out to study. . .

Oak Lodge boys "sun" themselves.

Jean Howes practically hides herself amidst the laundry at Memorial Union. . .

All ready for bed—but he didn't quite make it. . .

Margaret Hall girls have a "get-together." Included are Jeanetta Westbrook, Lois Ludeman, Carol Saul, Edith Wahr-enbrock, Irene M a m m e n, Mar-jorie Forester and Roberta Stock. . .

Homeward bound, the dormitory girls trek, trek, trek. . .

Soph President Fred Sawyer uses his typewriter at a late hour over in Alumni Hall. . .

Sandman gets the Union girl—but she's all prepared. . .

Oak Lodger Herb Plagge sits down at his desk. . .

Union girls do have such handsome boy friends. . .

Who said Oak Lodge men are not clean? . . .

Behind the scene a "tubbing" goes on. . .

Evelyn Ingalls plays Santa for the Welch Hall women. . .

Oak Lodge Barracks between the trees. . .

We'd guess this is the way Iowa State men get ready for formals. . .

Over in the Men's Dorm proctors Earl Kindig and Keith Lungren settle their problems. . .

Morris Christy relaxes before his big debate. . .

Berneice Hooper, Mary Lyon Hall, takes a few stitches and Jeanetta Westbrook, Margaret Hall, looks happy after a perfect evening of dancing. . .

Clara Barton—one of the cooperative dormitories. . .

Oak Lodge fellows "tune up" for diversion. . .

Janice Souder studies in comfort at Memorial Union. . .

Men's Dorm proctors Bristol, Christy, Ramsey, Ross, Harlow, Dee, Kindig and Lungren meet with the house director, Mrs. Grace Dudgeon. . .

Kitchen mechanics at Oak Lodge work while the pot boils. . .

DORMITORY LIFE

INDEPENDENTS AND TOWN GIRLS

Intramural boss, Glen Jamison, gets in a few licks in Harry Schmidt's office. . .

With a hat for atmosphere and a drawing board for comfort. . .

Headed for that waiting tub of cold water. . .

"Solemn" burial of Minne the Mouse, dead mascot of champion Iota Mice. . .

After lunch relaxation. . .

Pete Kreamer, Bob Kalen and Bud Stafford handle a board job. . .

Ward intramural bigwigs talk things over—Hauser, Gunderson, Cutler, Fanshler, Loufek, Clement, Wilson (back row); Fleming, Schmidt, Jamison, Ita and Kreamer. . .

Coveted ward key—ten given each year for service. . .

Bill Schworm gets a late telephone call (or is it early?). . .

Bob Foeller entertains his girl friend, "Muriel". . .

The "sleeping beauty"—Ernie Behn to you. . .

Ward Treasurer Butler takes a look at his motor. . .

Zeta boys pour out the volume—all for good old ISC. . .

Mu fellows have a session in the YM basement. . .

Nimble-toed Maxine Anderson rests for a moment in preparation for an hour's study. . .

Frances McClure looks especially interested as she peeks around the columns of Memorial Union. . .

"Posin" for you is Margot Bacon, program chairman of Town Girls. . .

Dorothy Umble inadvertently gets her picture taken.

"Time for a ride in the new car," says Ruth Umble. . .

Carrie Palmer has a good time with "Uncle Beenie," a favorite guest of the girls. . .

Niece of Belle Lowe, Jacqueline Sparling, is a bit annoyed by that ever-popping up photographer. . .

Must be a serious matter—just look at the expression on the faces of President Harriet Graves and club adviser, Margaret Stanton. . .

Triple triangle beauty, Marjorie Bell goes soulful. . .

"What, O what'll I wear tonight?" wails Jeannie Vieth. . .

Gamma Phi Beta's pose in the sun with their waiters (lucky fellas). . .

Cute Alpha Delt smiles into a magazine while "being made" beautiful. . .

Betty Straight and Dorothy Schuller "pretty up" for a big Saturday night. . .

Gamma Phi's go native. . .

"Life" goes on at the Delta Zeta house. . .

Up the fire-escape so soon! Why, the moon isn't even out. . .

Betty McDade and Bonnie Lawshe get initiated. . .

Delta Zeta's smile pretty for the nice man. . .

Tri-Delta's relapse—all on a Saturday afternoon. . .

Smiles and more smiles in the air—this time it is the Gamma Phi's. . .

Kappa Delta gals get cozy—Winnie Royce comes clean. . .

A bunch of the surer ones practice up. . .

What Lucy Watson needs is a good piece of beefsteak. . .

"We're for bicycles built for three," say the Delta Zeta's. . .

Looks like a regular style show at the Kappa Delta house. . .

What—do the coeds think it's a ship rail . . . Chi Omega's dancin' in the snow. . .

Pi Phi's have the pledges over for dinner—formal, too. . .

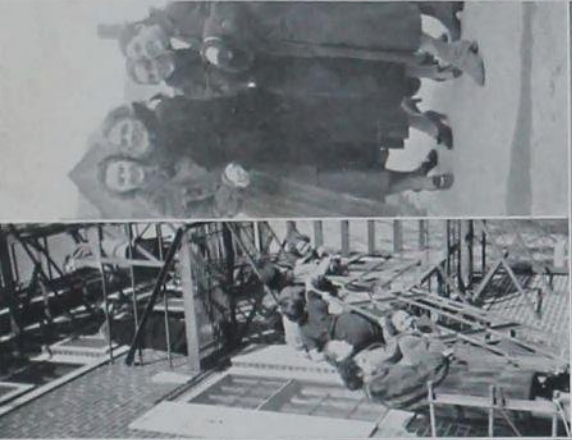

Yes, we have some bananas, smiles Madeline Fitch. . .

Can Helen Jane Klinger be exhibiting a diamond? . . .

Sunny dispositions at the Chi Omega house. . .

Three pseudo-bridesmaids pose, trimmings 'n' all. . .

SORORITIES

FRATERNITIES

Jack Burrell writes home for money; has he ever been known to study? . . .

A Delta Chi lad looking too pleasant to be gainfully occupied with books. . .

"Try the Black Mark System" Kelley Hannan will shudder when he sees this . . . but the Adelantes must play. . .

A lovely complexion to Vincent Kelley as FarmHouse boys clean up. . .

Sweetheart of Sigma Chi, M. T. Bertha, goes for an airing. . .

"Chip Off the Old Block" Morelli presents "Butch" Schuler with their annual traveling clever trophy. . .

Very, very tender—Kenny Fulk on varsity "I" probation. . .

The Beta system in effect—egad, it works. . .

Social elite leaving the D. U. house following a date dinner; Director of Social Life steals the picture again. . .

Fraternity pledges see how the hand may be quicker than the eye, as Trix Cooney performs for the annual Delta Chi Pledge Smoker. . .

Bill Nechanicky, Pi Kappa Phi, says, "A snooze any time feels fine. . .

Believe it or not (I know the Profs won't) "Campus" Lasser is actually subdued in a text book. . .

No, no, Hank Bollman, campus styles don't warrant such a display of masculinity. . .

D. U. fellows pose. . .

A pie-eating contest with but one thought in mind—catch the new President and kiss him. . .

More probation activity at the Adelante house. . .

Boudinot gets another trimming—Remember Bush. . .

Delta Chi house mother rules. . .

Rod Dodds, Theta Chi, running through a few bars of "Foolish Feeling"—and why shouldn't he have such a feeling? Tsh, tsh, Dodds. . .

Capt. Henry Bollman looks on while U. S. S. Delta Sig guests dance. . .

Kappa Sigma Walt Jackson gets a bath in Lake LaVerne. . .

Bob Dix, Sigma Chi, folds his arms and just thinks. . .

Scrambled Theta Chi's are Rod Dodds, Charles Amick, Freddy Schlott, Richard Vogel and Freddie Glassburner take to the lawn—all on a Sunday afternoon. . .

Pi Kappa Phi Robinson takes a snooze in solitude.

Would would life be without beautiful women? Why, Harry Harris—how could you? We know you just couldn't do without us?????. . .

Arlo Knowles gets a stretching from the Phi Delt pledges. . .

Militarists gloat over first Honorary Cadet Colonel, Beth Cummings, stepping with Jim Taff, Cadet Colonel. . .

Sophisticated Jane Mason reigns as Harvest Queen for Ags. . .

Bouquets to Olive Swanson as Queen of Vet Therapy. . .

"Tiger-smile" Dick Boudinot and Margre Henningson rule Engineers as St. Patrick and Lady. . .

Women repay (?) men at Pan-hel. . .

Preps mix. . .

"Minnie" Leonard and "Mickey" Anderson win at Railsplitters' Ball. . .

Junior Prexy Schworm leads the promenade with Prep Prexy Moorman. . .

St. Pat's Party with Freddie Schlott's band. . .

Anson Weeks signs for Eleanor Jean Warsaw at Men's Pan-Hel. . .

Dean Agg pins green and white on engineers at Carnival. . .

Brother Tom Stanton leads social leader Margaret. . .

Publicity psychological. . .

Jane Darger and Abe Lincoln at Science Swing. . .

Prexy, Jr., and Playboy Smith present trophy to FarmHousers at Homecoming. . .

Queen Cummings naps, Bob Bauge, too. . .

Hoedown hilarity. . .

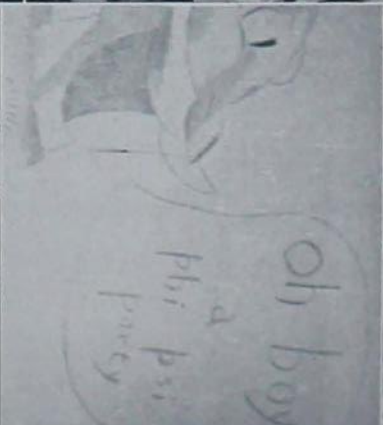

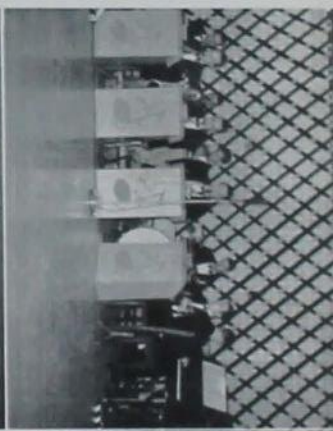

More preps and a senior or two. . .

Men's Pan-Hel; note four-in-hand tie. . .

Marian Chandler steals photo. . .

NITE LIFE

Jim Crosby and dance floor at Kappa Sigma winter formal. . .

Adelante fireside with "game-cock" Anderson strutting at right. . .

Phi Psi clip joint. . .

An A T O's first shave. . .

Sig Chi's spring a formal. . .

Hayloft chorusing at Pi K A barn dance. . .

One-time Engineers' Lady, Fran Johnston, turns hick at Phi Delt Bowery. . .

Jimmy Noland and Jean Fisher truck at Trophy Tavern. . .

Chorus girl Norm Dunlap. . .

More Pi K A barn dance; Harriet Knudson in bonnet. . .

D. U. formal (?) or informal (?). . .

Mr. Esquire advertises. . .

Gad, those five women again. . .

D. U. speakeasy with phoney liquor. . .

Kappa Sigs wrestle Pi Phi's for a change. . .

Prof. "W. C. Fields" Kimball in quiet moment of Apple Polishers' Ball. . .

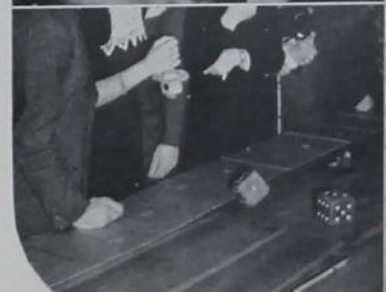

Ward Formal. . .

Charles Prentice Clayton, of the Minneapolis Claytons, is chief Apple-polisher. . .

Carolyn Groves (center) shines surrounded by Juniors at prom. . .

Off-guard—Big Butch Friley, Butch and Mrs. Helser. . .

The hard way (?). . .

When Irish (?) eyes are smiling . . . anyway, when Mary Lou Gilmore and her escort smile. . .

Photographer catches Queen Jane Mason (and sweetheart of Sigma Chi) in an open up with Harold Birkness. . .

Irishman Dan Murphy gets out his tails to swing blond Eloise Johnson. . .

Dancing cheek to cheek are blond Alvina Iverson and Iowa State Debaters prey, Hadley Read. . .

Good ol' Cyclone Cellar days are gone with the winter wind . . . while out in the open the Trophy Tavern takes its place. . .

We're not telling who they are . . . if you have a guilty conscience . . . well???

No twister trouble for Johnny Shepard tonight . . . he dances all evening with Delores Swigert, and is he happy? . . .

"I" men advertise their Carnival Dance—the Ruggles brothers lend their laundry truck. . .

Rudolph Ganz, famous pianist, renders a selection. . .

Stretch Thompson tells the two little girls, "There really is a Santa". . .

Peggy Schenk and Art Smith assist in entertaining Ames children at the annual interfraternity Christmas party. . .

Clyde Shugart shifts to end position for "I" Club initiation—Hayward, Reupke, Fleming and Dizon look on. . .

Winifred Tilden takes a look at "Life" between conferences on registration day. . .

Kaiser Wilhelm Penly takes command at Scabbard and Blade initiation. . .

Cossacks close their chorus with a Russian dance. . .

Frosh women leave Physics Building after having had initial college picture taken. . .

Mac actually takes time out to catch up on the news of the day. . .

Ex-Editor Crossley calls a meeting of the Green Gander staff. . .

Registrar J. R. Sage and B. S. Pickett iron out registration difficulties. . .

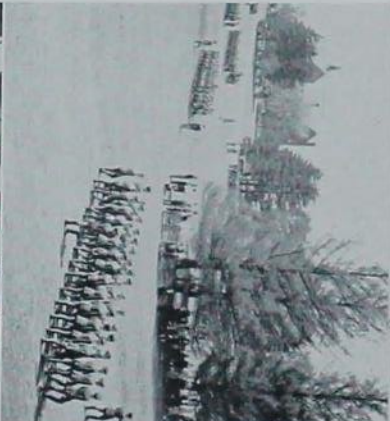

Beth Johnson interviews Mrs. Aurelia Reinhart, Iowa State's first Women's Day speaker. . .

College band performs at football game. . .

Esquire MacRae directs Wilma Highland while Rosalind Cook accompanies. . .

IN CAMPUS FOCUS

Melody from Leo Kucinshi's strings is accompanied by the symphony orchestra. . .

Our man Radcliffe appeases his appetite. . .

Soldiers on the right of us, but who's the little guy who got left behind? . . .

A snow storm—but the boys at 129 Welch don't mind. . .

Old man winter adds local color to the campus in April. . .

Harris Hug, snapped while snapping. . .

Freddie sticks his neck out—again. . .

Wilma Highland, Bomb beauty, models at the style show. . .

Barbie Bush says, "Yes, I expect to graduate this quarter!". . .

Louise Peterson gazing at the moon. . .

There was a gal in Kentucky, so was Cy. . .

Oh, for the life of a Delta Sig sailor. . .

"Tea biscuit," the Vets' favorite left at the post. . .

A swim in the lake for another poor unfortunate. . .

Fran Johnson and Fritz Rausch are interested in each other—definitely, we'd say. . .

Soon he'll be Dr. Stretch Thompson and then Swanson will not be the name for Olive any more. . .

Mary Bush wears the pin of Dick Boudinot, Phi Delta Theta. . .

All the boys love Bessie, the Bomb sweetheart. . .

Sweethearts enjoy our Lake Laverne. . .

Louise L'Engle and Jack Cochran dance formally. . .

Ex-Editor Hermanson and Beverly Jensen have a drink. . .

Jean Antrim and Kennie Goden smile at each other . . . must be love. . .

Fire destroyed Margaret Hall on April 9, 1938!

While hundreds of students, faculty members and townspeople watched in awe, the blaze, discovered about 9 p.m. in the basement, enveloped the whole structure, sending flames into the sky.

Of the 61 undergraduate and 20 graduate women living in the hall only about 20 were in the building when the fire broke out. Aroused by Mrs. Katherine Phelps, housemother, they gathered up whatever effects they could in an instant and rushed from the blazing dormitory, many of them clad only in pajamas.

After disaster came reconstruction—and the facilities of the college were taxed to the limit to provide for the dormless women. Elm Hall absorbed the greater portion of the refugees. Voluntary contributions from all sources flowed in to aid the women, emergency loans were made, local merchants extended credit.

The burning of Margaret Hall was the passing of the first "Ladies' Hall" on the campus, the end of an old era, as the building was the last on the campus to carry the initials I. A. C., Iowa Agricultural College.

Built in 1894, the dormitory was named in honor of Mrs. Margaret MacDonald Stanton, first wife of Dr. Edgar W. Stanton, grand old man of Iowa State.

Characterized by its ornate dormer windows and fancy ornaments, Margaret Hall represented one of the finest examples of French Renaissance architecture in this part of the country. Replacement cost of the building was estimated at \$220,000.

To the Students:

THE Bomb Staff acknowledges with appreciation the support of loyal and interested "boosters" of Iowa State College and the Bomb who have advertised in the following pages. The business concerns listed in the advertising section are staunch supporters of school functions and projects. They are loyal friends of this institution who believe in its strength, purpose, and its future. Only through the cooperation and contribution of the advertisers has the publication of the Bomb been made successful. Let you, in turn, support them and their business by your patronage.

The Bomb Staff

THE COLLEGE SHOP

*Where the Younger
Set Finds the New
Fashions . . . First*

✶

It's a tradition, especially among the college set, to look for the newest of the new in the College Shop . . . college girls know that's where they'll find it . . . College Shop clothes are created by young designers for youth . . . that's why they're so right.

Miss Barbara Bush poses in a crisp summer formal of dotted organdie, demure, yet sophisticated; delicate and charming at once.

—The College Shop: Third Floor; West

DIESEL D4 PAYS ON 160-ACRE FARM BECAUSE OF FARM POWER CONTRACTING!

Clyde Palmer, Kingman, Indiana, farms only 160 acres for himself. Yet he purchased a 4-5 plow "Caterpillar" Diesel D4 Tractor—and is making it earn him good wages, with Farm Power Contract work.

Mr. Palmer's outside work in 1937 includes plowing 515 acres, combining wheat and soybeans, picking corn, making seedbed, threshing and other jobs. Neighbors engage more than 75% of his Diesel D4's working time! Next year looks even better.

This owner replaced a 3-4 plow distillate tractor with the Diesel D4. *He states that his Diesel does far more work than his former tractor and also saves over 60% on fuel every hour it operates!*

For two excellent reasons, "Caterpillar" Diesel Tractors are reviving the custom farming practice on

a sound business basis. (1) With the lowest operating costs on record, this tractor also has an amazing capacity for work; and (2) with non-slipping, non-packing traction, this tractor equips its owner to choose from a wide variety of jobs, and keep busy every month of the year—instead of a few weeks in only one season!

**FARM POWER CONTRACTING
IS A PROFITABLE BUSINESS
WITH "CATERPILLAR" DIESEL**

FACTORY FUR SERVICE AT YOUR DOOR

Your furs will be protected in our Hygro-cold Storage vaults from fire, theft, heat and damaging moth. A card will bring our Bonded Messenger to your dormitory or sorority to pick up your coat and will deliver it back to you next fall wherever you may be in Iowa.

Fraternity and Sorority Pins

Joseph's Jewelry Store invites you to see its interesting new fraternity and sorority jewelry.

The workmanship and materials used will appeal to all of discriminating taste. The prices will be found attractive.

Crests and pins of many of the national fraternities and sororities are available. May we show them to you on your next visit to Des Moines?

JOSEPH'S Jewelers

Des Moines Sixth at Locust Iowa

"Your Place in the Sun"

"A place in the sun" is the hope of every young couple . . . not necessarily in fame . . . but just a rectangle of sunlight and blue sky over a quiet comfortable home. We can help you attain this ambition. Come in and talk it over with our savings advisors.

It's "TOPS" for TRIPS--

4-Star Travel by

Air-Conditioned Super-Coach

MAKE this the finest, happiest vacation ever, by going by Interstate bus the 4-star travelway to all the nation.

★ *Air Conditioned Buses*—Air filtered, deodorized, dehumidified and refrigerated for cool comfort.

★ *100 New Super-Coaches*—The luxury liners of the highways—with their smart design, beautiful upholstery, individual reclining chairs, and indirect lighting.

Ask your local Interstate bus agent for complete details on dollar-saving trips, or write to Interstate Transit Lines, Omaha, Nebr.

★ *Reduced running time*—On all main schedules.

★ *Expense-Paid Tours*—Transportation, hotels, sightseeing tours arranged in advance. Less cost far more fun.

Your first ride will convince you that the air-conditioned Super-Coach is "Tops" for every trip.

IOWA STATE DAILY STUDENT

OFFICIAL PUBLICATION OF IOWA STATE COLLEGE

Published Daily Except Sunday and Monday

*A Personal Letter
Five Times a Week
From Iowa State*

YOU seniors will soon be alumni, probably far away from Ames and the campus where you have spent four great years. You'll be missing those football games—the Union dances and twisters—the free shows—firesides and exchanges—and above all the friends who will still be in school after you are gone.

The Iowa State Daily Student will bring you news of all these things as well as the snappy, newsy columns, and pertinent editorials about things of interest to you. You needed it when you were here. You'll want it even more after you are an alumnus.

Faith in the Future

We have faith in the ability of the graduating seniors of Iowa State College to become successful men and women in the future.

We also have faith in our ability to continue the banking policies which have given Iowa State students and the people of Ames 22 years of uninterrupted banking service.

STOKOL

TAKES COMPLETE CHARGE OF YOUR
COAL BURNING HEATING PLANT

Stokol stokers bring automatic heat within everyone's reach. A small down payment installs Stokol in your present heating plant—terms to suit. Pays for itself out of savings. Act while prices are still low. Guaranteed for two years. Available in bin and hopper types. New Stokol bin-feed only stoker that feeds from any angle.

SUNRAY OIL BURNERS

Fuel—our facilities for serving homes with Automatic Heat is most complete. All three accepted grades of Heating Oils delivered by two modern tank trucks for oil heated homes—A complete line of Stoker Coal for the stoker fire heating plant—and Carbon King for those who want the best in coal for hand-fired heating plants.

AMES GRAIN & COAL CO.

The Reason Why

That Molloy-Made covers have been used on so many of the nation's leading annuals over a long period of time is testimony to the fact that they really do represent more value.

The Bomb, like many other leading annuals, started using Molloy-Made covers "away back when"—and the Molloy trademark on the cover of this 1938 issue is the best evidence of an eminently satisfactory standard of quality and service throughout the years.

Milestones of 1937-38

- ★ Continued development in the graduate college reflected in the fact that 126 M.S. degrees and 48 Ph.D. degrees were conferred during the past year.
- ★ Assignment of editorial responsibilities for five scientific journals of international scope given to staff members of the Division of Industrial Science.
- ★ Accrediting of every department of the Division of Engineering by the American Engineering Council for Professional Development.
- ★ The Iowa State College Agricultural Foundation Fund received donations of \$100,000 and nine farms throughout the state.
- ★ 268 Home Economics graduates placed through the college from January 1 to September 30; departments unable to fill all available positions.
- ★ Inauguration of the new curriculum in Industrial Science.
- ★ Establishment of Iowa State College as headquarters for a large cooperative program for the improvement of swine, with the United States Department of Agriculture and the twelve North Central Corn-Belt Experiment Stations as cooperating agencies.
- ★ With 5,574 full time students during the winter quarter, Iowa State College takes the enrollment lead as the largest school in the state.
- ★ National Farm and Home Hour becomes regular daily feature of WOI program.
- ★ Under direction of the Extension Service 98,142 farm women participated in projects, a 40 percent increase over the previous year. One-third of the farm homes in Iowa, 74,045, were reached through Home Economics Extension. A total of 12,769 boys and 13,117 girls were enrolled in 4-H club activities. Extension and AAA information reached most of the farmers in the state.
- ★ Physical plant: Completion of the new \$170,000 Charles Henry Stange veterinary clinic; development and opening of the new 158 acre golf course and recreation area; continuation of the dormitory expansion program, with the opening of Elm Hall, new women's dormitory; renovation of the power plant with latest equipment; addition of the \$50,000 Mechanical Engineering Unit to the Engineering Division; completion of the fourth and fifth floors of Memorial Union.
- ★ Eightieth anniversary of Iowa State College observed; 1858 to 1938.

To the Students of Iowa State:

Acting in the capacity of official photographer for the BOMB of 1938, we feel as though we know each of you personally. It has been a privilege and a pleasure to render this service. We wish to thank each of you, the student body, the faculty, and the publication board for their considerate cooperation.
