IOWA STATE

For more than a lifetime, Iowa State College has been sending her men and women into the business of human service.

We should rejoice that we were born on these wide, Iowa prairies, and be proud of our heritage, for

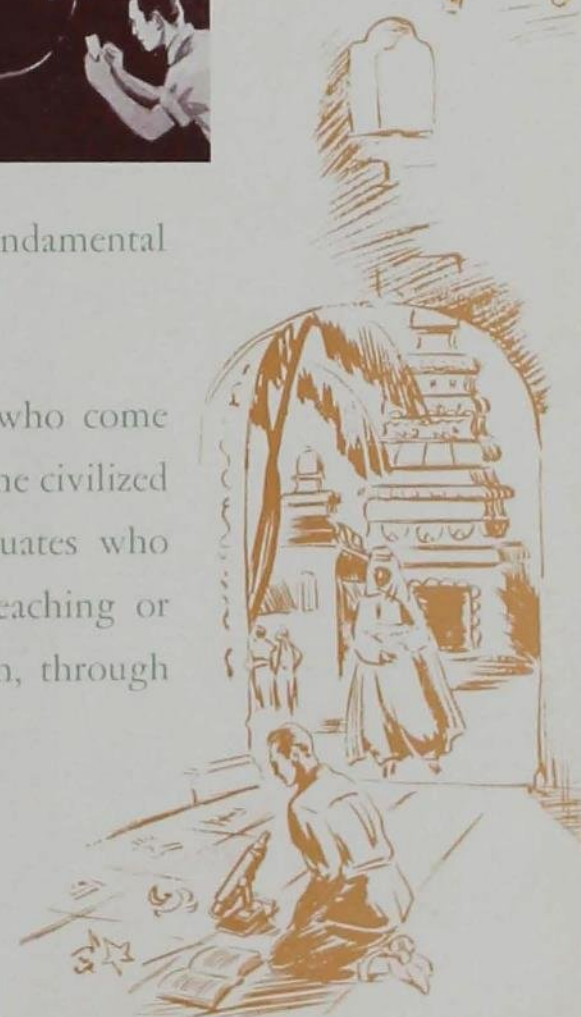

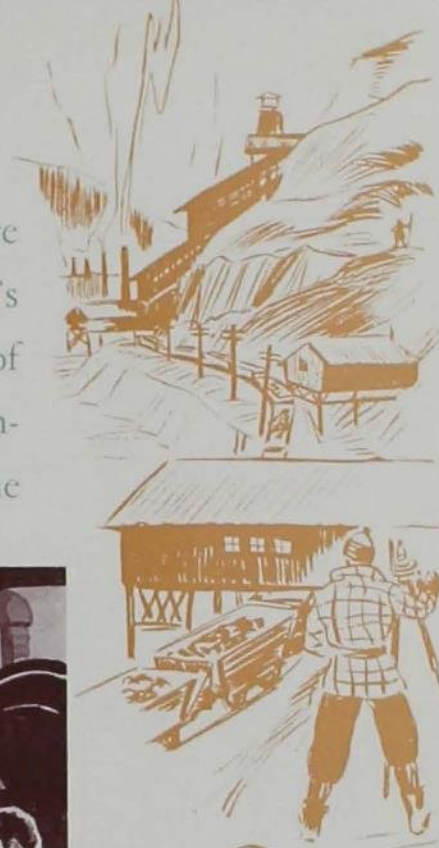

this Alma Mater of ours is far more than Iowa State College. It is Iowa's contribution to the betterment of mankind, a great power-house generating world-wide influence for the

common good and fundamental progress of humanity.

Through the students who come to her from all parts of the civilized world, through her graduates who find their niche in life teaching or practicing their profession, through

her faculty, her president, through the researches and discoveries perfected in her halls, through international collaboration on experiments and exchange of ideas—through these and other ways the vital force that is Iowa State College has become a valiant factor that is felt and recognized throughout the world.

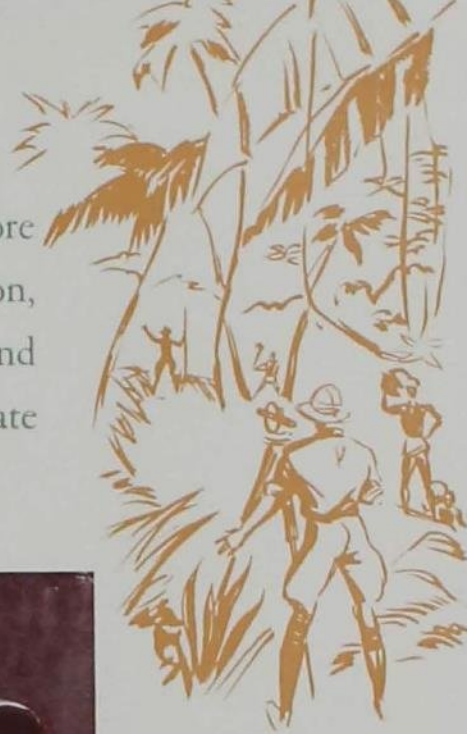

Nor are the benefits one-sided. On the contrary, there is no more broadening influence in Iowa's vig-

orous life and culture, no more enriching element in our education, than the world-wide contacts and outlooks provided by Iowa State College.

Therefore, we dedicate this Bomb of 1937, to the Cardinal and Gold Alumni throughout the world. We hope that this link in the chain of records will bring back living memories of days spent at Iowa State College.

IS

COLLEGE

■ An institution recognized throughout the world, a leader in its field Iowa State College provides for its students a firm foundation and a fine heritage. New classes, new professors, and the inauguration of a new president all serve to strengthen the COLLEGE.

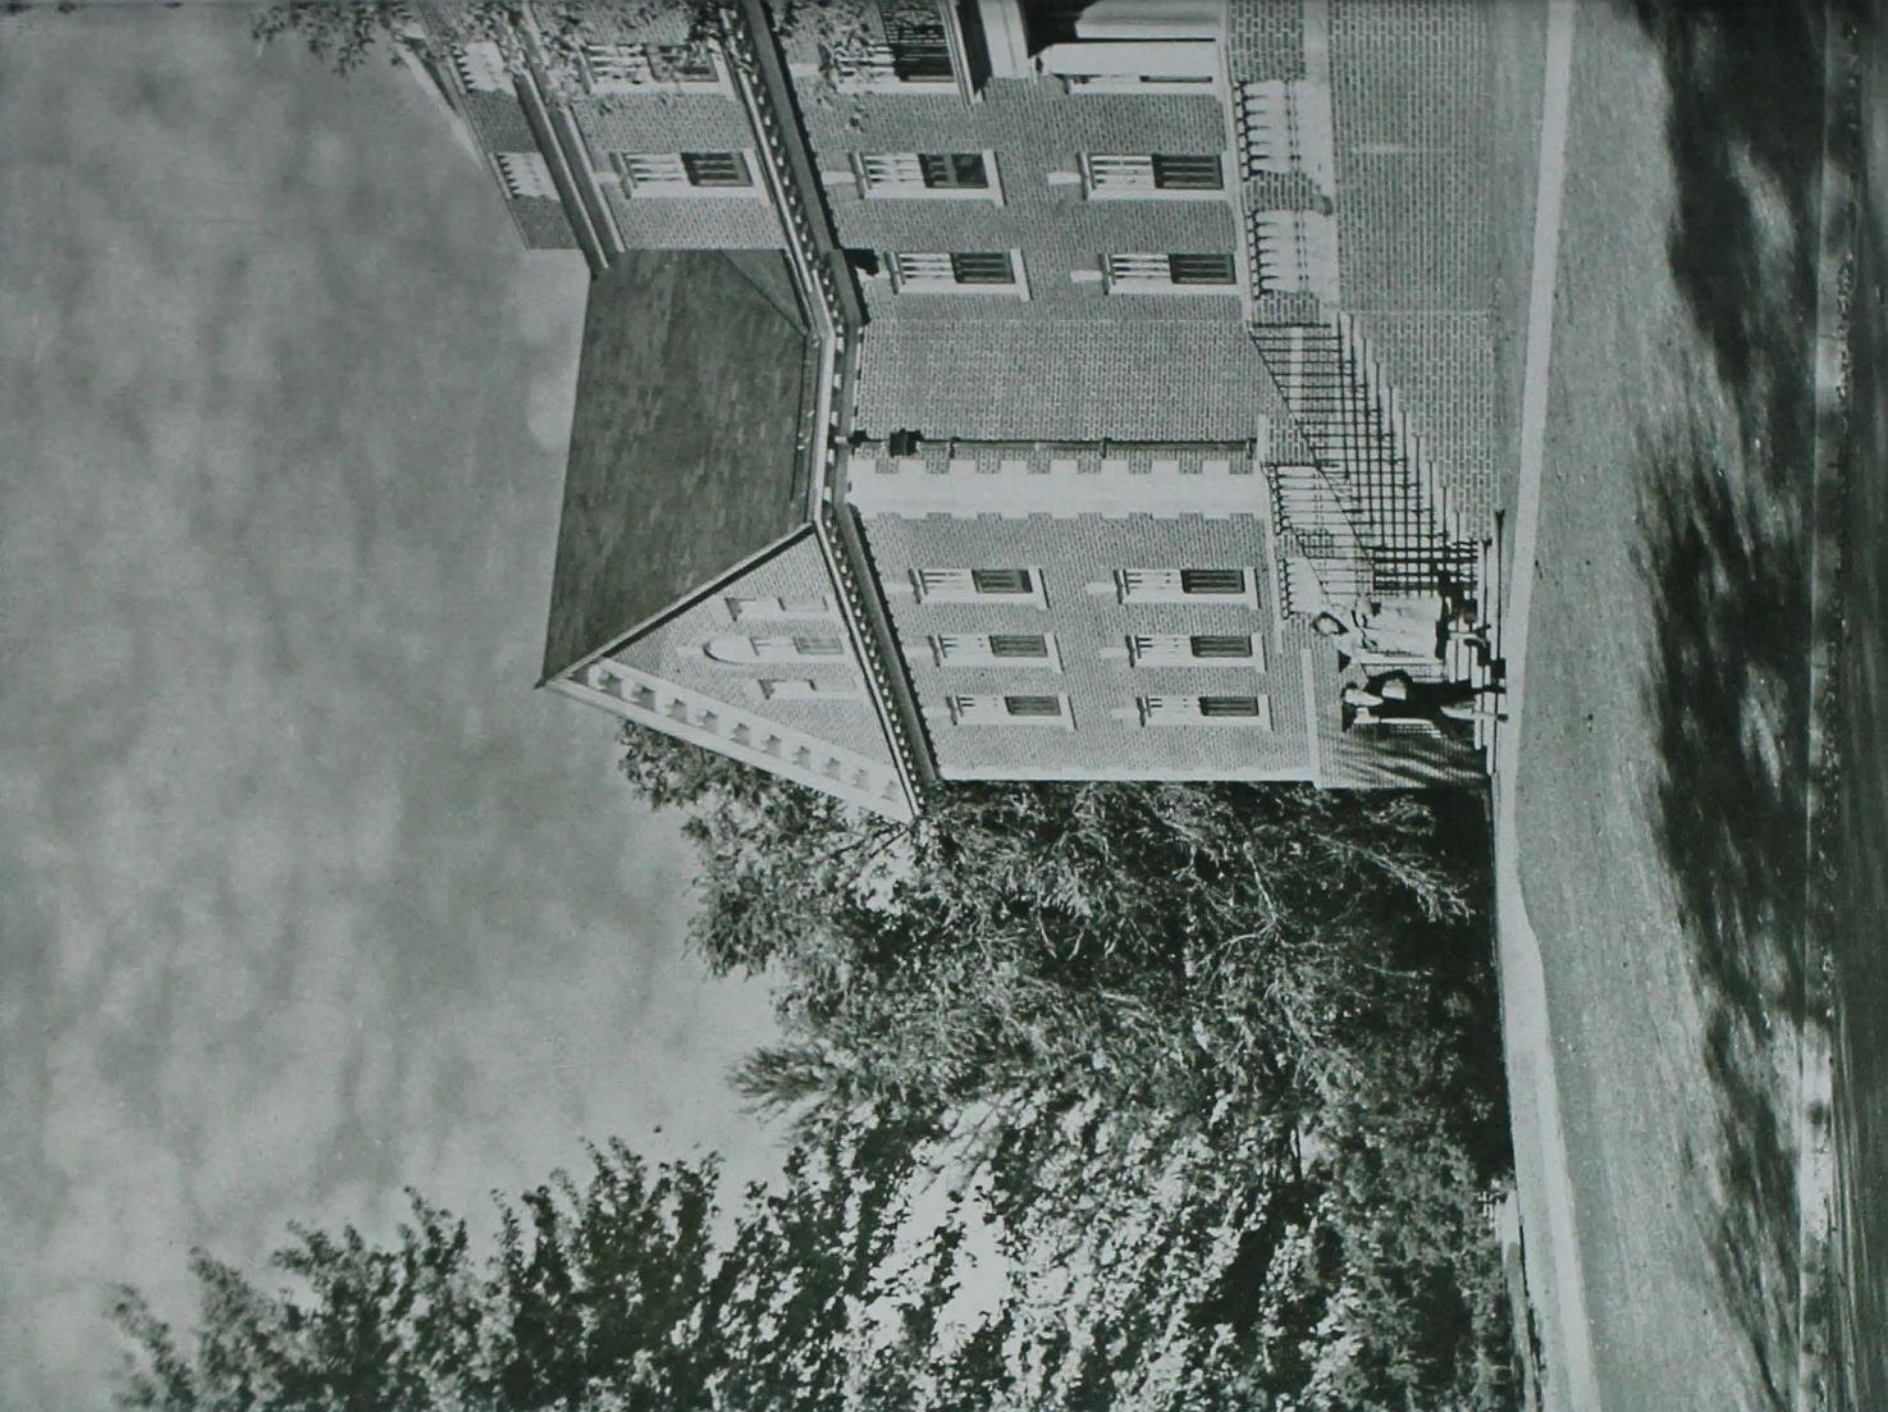

BOOK ONE

*Stately stands our Alma Mater
On the Western plain.
From her halls and to her glory
Raise we now our strain.*

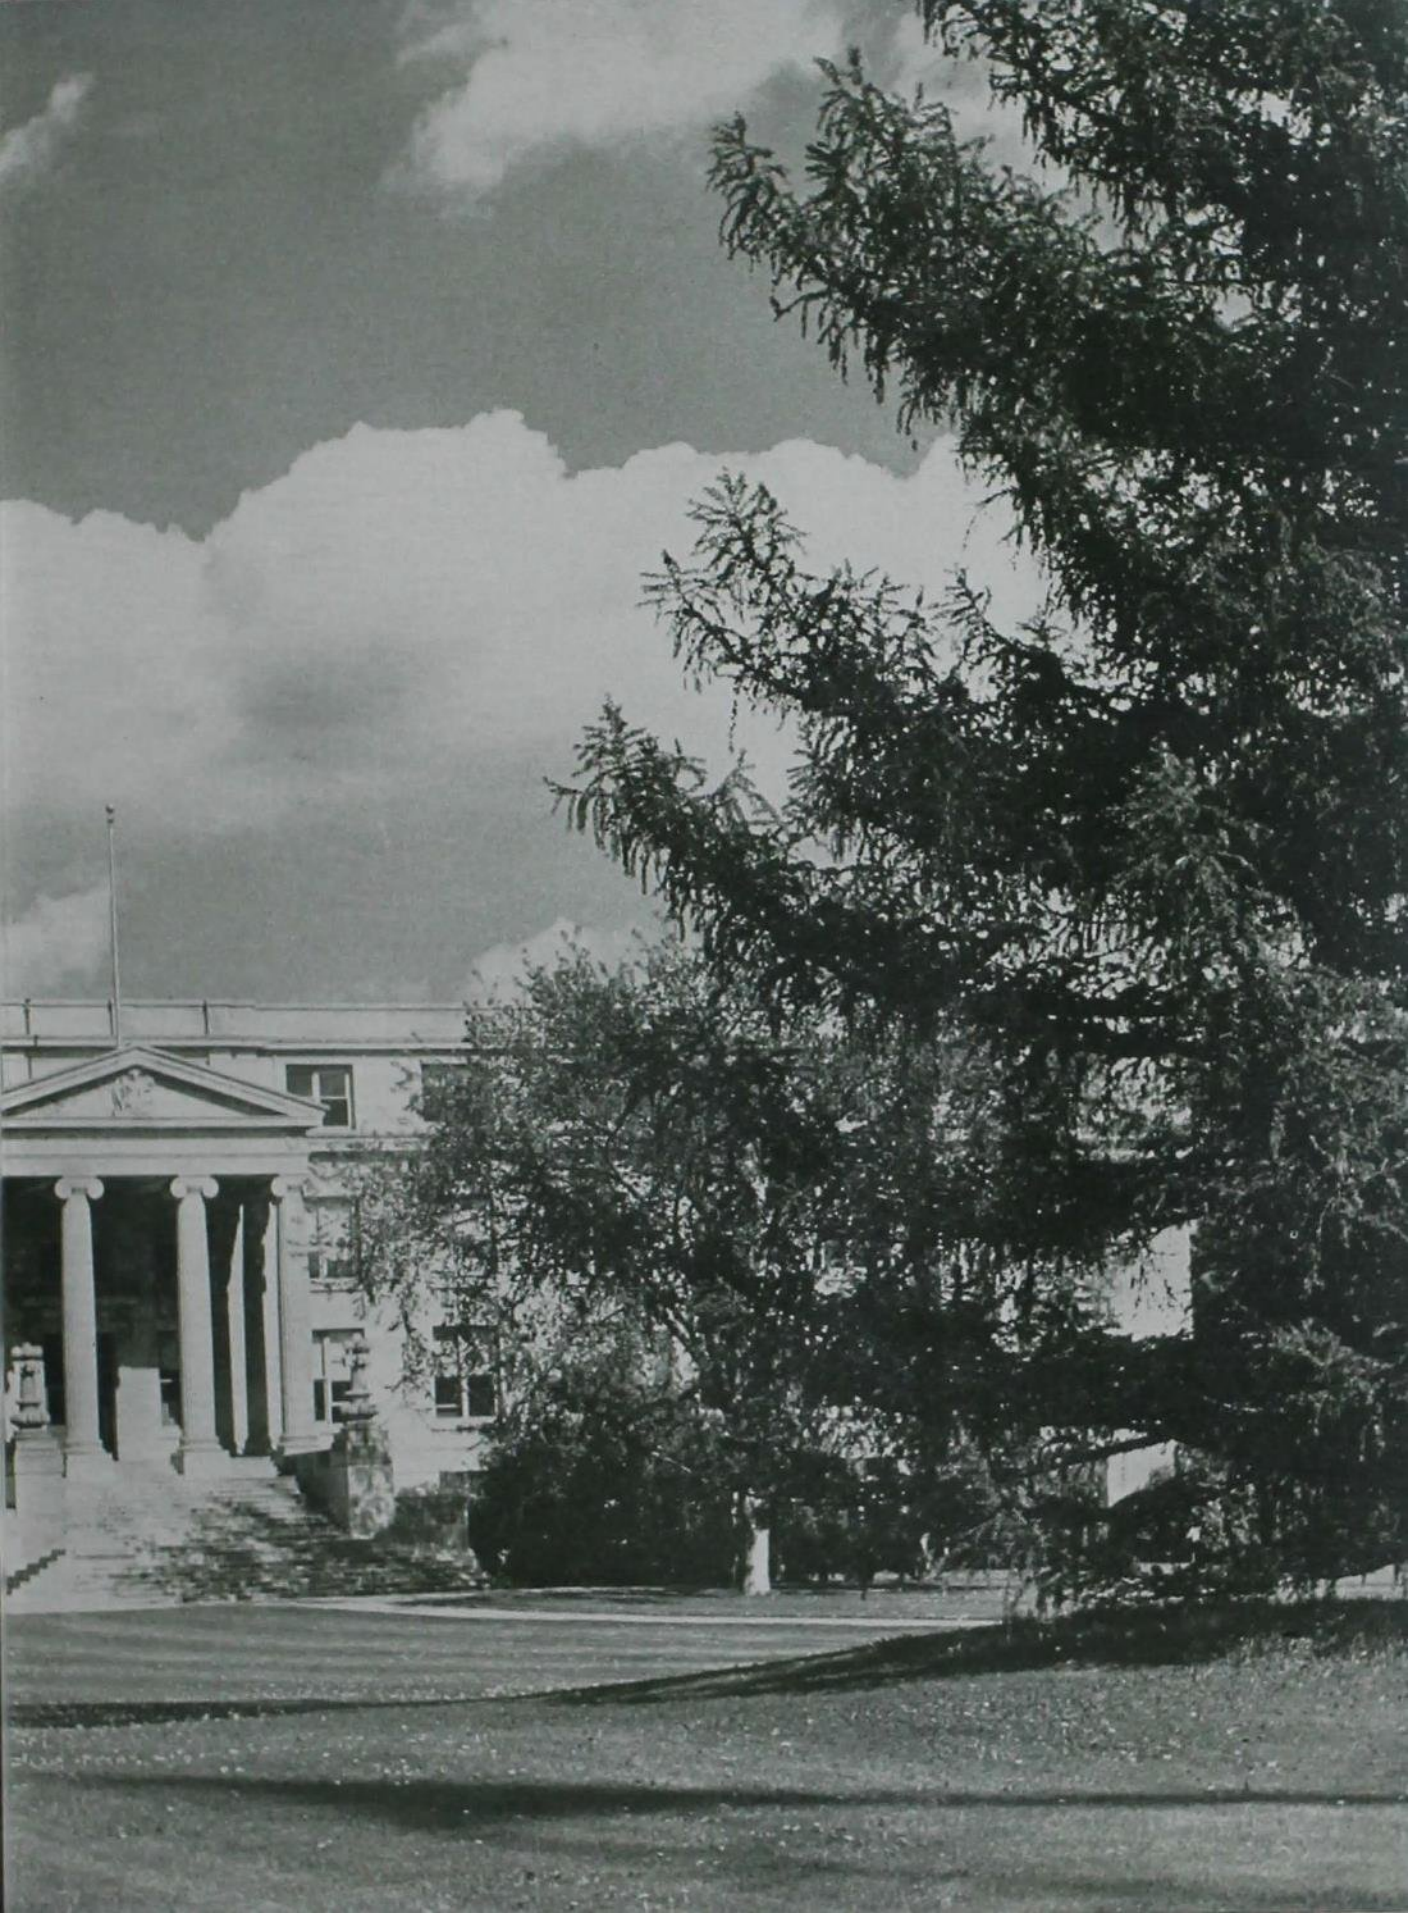

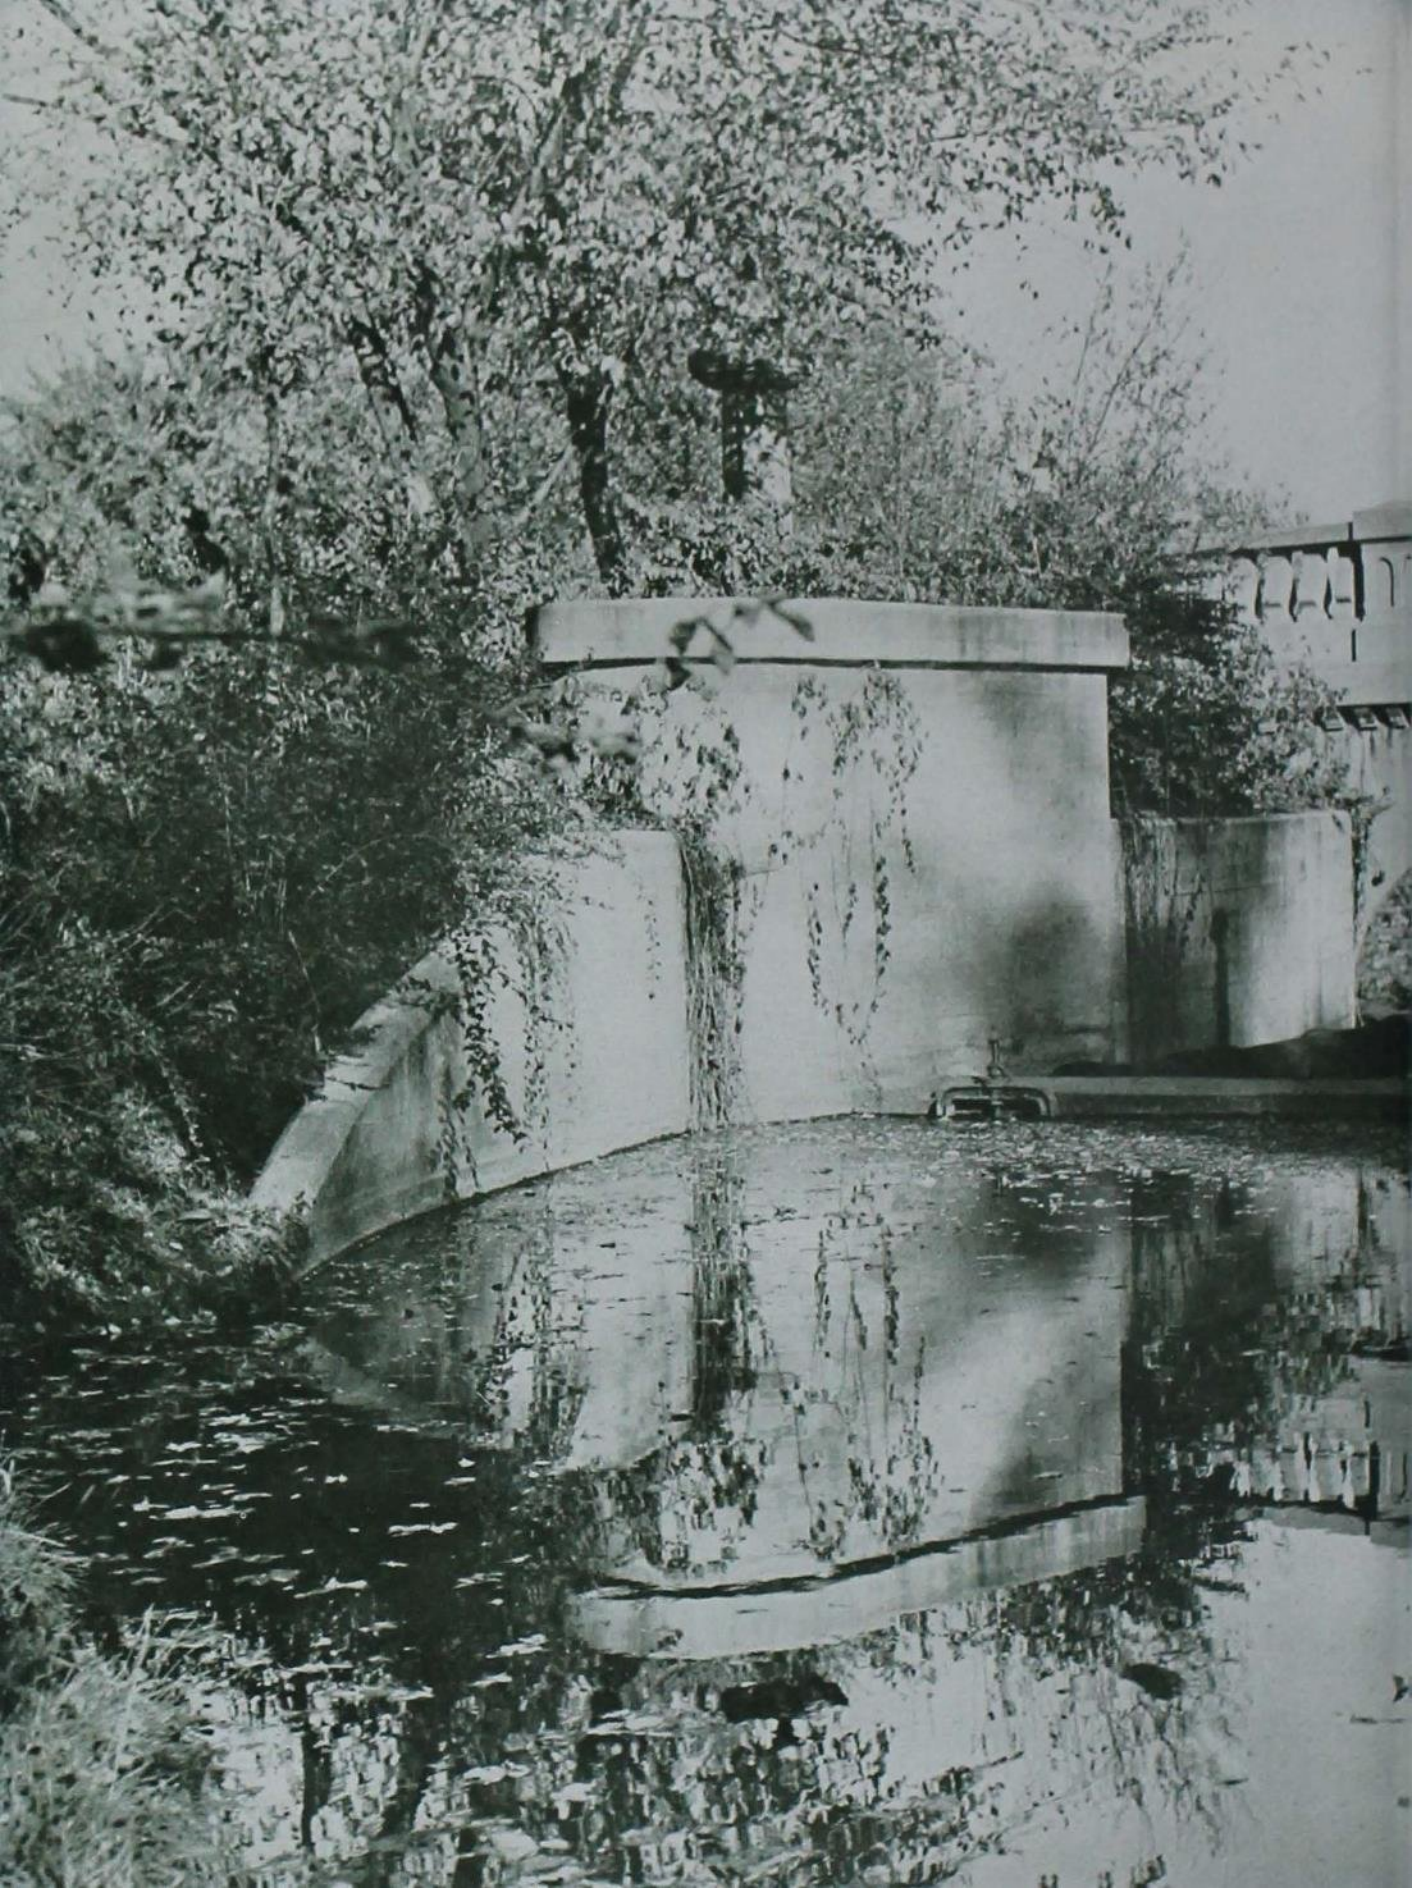

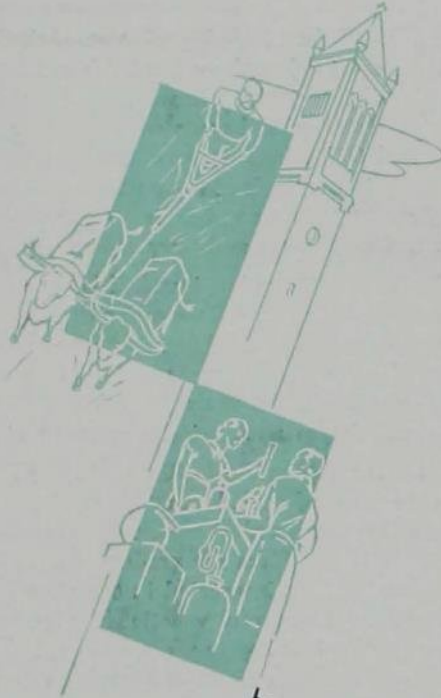

ADMINISTRATION

MORE than 25,000 graduates of the Iowa State College are scattered throughout the length and breadth of this country and in many of the other nations of the world. These young men and women received their undergraduate training, and some of them their graduate training, in the various fields of science and technology sponsored by the institution. They are holding positions of responsibility in the fields of agriculture, engineering, science, home economics and veterinary medicine. Some of them occupy positions of high importance in government circles and in colleges and universities here and abroad.

The State of Iowa has invested large sums in plant, physical equipment and personnel at the Iowa State College for the purpose of providing the best possible instruction in science and technology. With the cooperation of the federal government it has sponsored important programs of work in research and extension. During the seventy-nine years of its existence the Iowa State College has attained a place of national and international importance in industry and agriculture.

There is sometimes a feeling that an institution of higher education has little or no interest in the student following his graduation; and sometimes the student has a similar feeling toward his alma mater. The Iowa State College has never subscribed to this philosophy. It considers the graduates of the College still as members of the great College family; it is interested in the efforts of the graduates to establish themselves in constructive and useful vocations; it is concerned when failures come and when mistakes are made; it is happy when success has been attained. Throughout all of the relationships between the College and the student, both at Ames and after he leaves the halls of the institution, every effort is made to instill in the student the finest ideals of loyalty and service—loyalty to the institution, to one's associates and to the state and nation; and service to every individual and to every cause which can be helped by the activities of an Iowa State graduate.

The officials of the Iowa State College believe that they should keep in close touch with the young men and women who go out from its halls, and that they should stand ready to assist them whenever and wherever possible. At the same time it is reasonable to expect the same attitude of friendship, loyalty and helpfulness on the part of the alumnus toward his alma mater. The very term "alma mater"—fostering mother—carries the implication, if not the obligation, on the part of the student to render every aid and assistance in his power to preserve and strengthen the work and the traditions of the College which prepared him for his life's work.

One of the glories of the Iowa State College is the fine atmosphere and tradition which surrounds its students. Perhaps this atmosphere and tradition are more or less intangible, but their effect on the lives of the students is evident and unmistakable. In it there looms large the emphasis on the finer things of life and on the spirit of service to one's fellow men. In it also is a definite interest and emphasis on the things of the spirit.

The value of such traditions and such intangibles in the lives of Iowa State College men and women cannot be overestimated. No group of alumni has a finer opportunity for constructive work, for outstanding leadership and for unselfish service. It is the hope of the President and other officials of the Iowa State College that these high ideals will always loom large in the minds and hearts of Iowa State men and women wherever they may be and under whatever circumstances they serve.

CHARLES E. FRILEY.

PRESIDENT FRILEY

On October 7, 1937, Dr. Charles Edwin Friley was inaugurated as the ninth president of Iowa State College. On this occasion a huge crowd assembled to pay tribute to a man who, still in his youth, became the executive head of a world renowned institution of learning.

Dr. Friley, before coming to Iowa State College, was Dean of the School of Arts and Sciences at the Texas A. and M. College, and preceding his presidency he held the office of Dean of the Division of Industrial Science at Iowa State. Born in Ruston, Louisiana, in 1887, he graduated from the Sam Houston Teachers' College in 1909. Wishing to further his education, he obtained his bachelor of science degree from Texas A. and M., his A. M. degree from Columbia University, and his LL.D. from Simmons University.

Dr. Friley is a member of many prominent educational organizations such as the Iowa Academy of Science, the American Association of Collegiate Registrars, the Iowa State Fair Board, and the governing board of the Iowa Geological Survey. Last year he was initiated into Sigma Alpha Epsilon fraternity. He is also a member of many honoraries, including Phi Kappa Phi, Phi Delta Kappa, Phi Mu Alpha, and Scabbard and Blade.

Although President Friley is imposing and formal in his executive role, he is a very charming and informal host. His southern accent and ready smile insure him many friends. A father of three children, he is interested in young people and enjoys working with them. His home, "The Knoll," is often filled with young people's groups.

Placing special faith in the importance of the intangible aspects of education, Dr. Friley appreciates the fineness of music, art and literature. Besides being an accomplished pianist, he is also fond of golf and gardening.

Because of his strong belief in personality growth through college work, President Friley hopes to develop the strongest possible staff in teaching and research, a fine environment, the most beautiful campus in America, and a stimulating program of student activities so that Iowa State students may have the finest chance possible.

BOARD OF EDUCATION

The Iowa State Board of Education acts as the governing body of all the institutions of higher learning in the state: Iowa State College, Ames; State University of Iowa, Iowa City; Iowa State Teachers' College, Cedar Falls; Iowa School for the Blind, Vinton; Iowa School for the Deaf, Council Bluffs.

Divided into two committees, it is this board that presents the needs of each institution to the state legislature. Miss Lawther is chairman of the Faculty Committee, and Mr. Galvin is chairman of the Building and Business Committee. The Finance Committee functions entirely separate from the board; it is this committee that approves all appointments, leaves of absence, salaries, vouchers—in other words, this committee attends to all the details of governing the state institutions, while the board dictates the policies of the schools.

Under the law, the board is required to meet at least four times a year, but actually it meets at least once every month during the school year, conferring at least once a year at each institution under its jurisdiction.

M. D. HELSER
Dean of the Junior College

FRANCES A. SIMS
Director of Personnel for Women

JUNIOR COLLEGE

The office of Dean of the Junior College was created in 1903 at the recommendation of President Storms. All freshman and sophomore students were placed under the supervision of the new dean in order that more emphasis might be stressed on foundation laying in the first two years of college.

In 1928 President Hughes introduced the Junior College counselor system. Thirteen faculty members were chosen to devote approximately one-third of their time as counselors for all Junior College students. The system has been enlarged and is one of the department's most important functions at the present time.

Schedules, mid-term grade reports, and absence excuses are supplied to three thousand freshmen and sophomores through the Junior College office. Here also conferences are held with the Junior Dean, and students are advised and assisted with their problems.

PERSONNEL WOMEN

To develop in Iowa State women a fine, wholesome attitude toward college life and life in general and to help students become well-rounded individuals is the aim of Miss Frances A. Sims, Personnel Director for Women.

This charming director helps adjust any difficulties women students may have. Fee exemptions, advice on financial matters, help in finding employment, are subject-matter for adjustment. Her wish is not to make a student's decision for her, but to point out various aspects of the situation and to suggest sources of further help and information; so that the student may make her own decision more intelligently. Thus the office serves as a "clearing-house" for women students' affairs. This year employment problems, for summer as well as the school year, have especially concerned the student and Miss Sims.

Before holding her present position, Miss Sims was Head of the Textiles and Clothing Department of Iowa State College.

THE PRESIDENT'S OFFICE

In addition to his duties as assistant to the President, and as director of the Department of Agricultural Relations, one of the newer departments of this institution, Mr. Godfrey will be responsible for the coordination of the extensive agricultural program of Iowa State College. In cooperation with the heads of research, teaching and extension divisions in Agriculture, he will devote particular attention to the development and strengthening of the relations between the college and the agricultural interests of the state of Iowa and the middle west.

GRADUATE COLLEGE

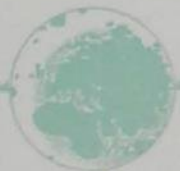

Progress in the Graduate College is reflected in the addition of outstanding men to the Graduate Faculty, in the increased enrollment, and the steady rise in numbers of masters' and doctors' degrees conferred. The demands of an increasingly technical world for competent leaders are evidently met by our graduates, for a surprisingly large percentage of those with higher degrees are now finding excellent positions.

The present trend in society is clearly in the direction of leadership trained in the scientific treatment of industrial and agricultural problems. Iowa State College is in a commanding position to contribute vitally to these aspects of life. As the numbers of our graduate students grow we hope to avoid the evils of mass production, and to give our men and women a broad philosophy of science and of life. Technical proficiency is expected, but the complex problems of society are already calling for leaders to go beyond the narrow confines of the technical expert. Graduate training of the future must face this challenge.

GEORGE GODFREY

R. E. BUCHANAN

REGISTRAR

J. R. Sage is the man who is responsible for college admissions, recording all grades, for the publication of statistics and grades, for fraternity and all-college averages, for graduation, for the publication of the general catalogue, the directory, schedule books and registration procedure.

The increasing enrollment at Iowa State College has meant more and more work for Mr. Sage. This has been handled with increasing efficiency in the past two years under the new system of registration in the gymnasium.

It is also Mr. Sage who certifies grades from other colleges, takes care of the directory for the faculty, the administrative committees and their chairmen, and of the graduate committee.

For the past year Mr. Sage has held the presidency of the American Association of Collegiate Registrars. In addition he is the chairman of the committee dealing with graduation requirements. The standard of those requirements has been adjusted during the current year, but the situation is still being studied carefully. It is expected that an acceptable plan will be found soon and will be placed in operation on January 1, 1938.

J. R. SAGE

BUSINESS MANAGER

It is the duty of the business manager to consult with the president and administrative board, solve problems of business and finance, and be responsible for the supervision of people in charge of these functions.

The business manager is responsible for such business functions as keeping accounts, auditing, preparing financial reports, purchasing, managing the physical plant, leasing all rental properties, supervising auxiliary activities, selling and disposing of all goods and products of the institution, auditing accounts of student organizations, hiring, employing and dismissing all employees aside from the academic and research staffs.

H. C. GREGG

TREASURER

The State of Iowa, the United States government, the students, through payment of their fees, various donors, and the public, through the purchase of the various products incidental to the conduct of a technical school, contribute several million dollars a year to Iowa State College.

Many safeguards are used to protect the funds of the college, including time locks and delayed opening electrical devices.

Prior to being appointed treasurer by the Iowa State Board of Education in 1935, Mr. C. B. Murray had been continuously connected with Iowa State in various auditing and accounting positions.

C. B. MURRAY

MISS MARIA M. ROBERTS

MRS. MADGE I. MCGLADE

STUDENT LOANS

The Student Loan Office makes loans available to students needing financial aid. This year approximately \$48,000 has been loaned to students either as emergency loans or as regular loans.

Regular loans to the amount of \$200 a year may be secured by juniors and seniors of high standing needing assistance.

Miss Maria Roberts, B. L., Iowa State College, has also attended Cornell, Chicago and Columbia Universities. She has served Iowa State since her graduation and fills the position of Director of Student Loans and Chairman of the Alumni Fund. Before taking over this work, Miss Roberts was Professor of Mathematics and Dean of the Junior College.

MISS MARGARET STANTON

HOUSING

The Office of the Director of Residence announces that the original plans for the women's residence quadrangle are almost completed through the erection in the summer of 1936 of the new hall which is connected with Mary Lyon Hall by a loggia.

There is a plan eventually to replace Oak and Elm Lodges with two new residence halls for women. The one replacing Elm Lodge will be built this summer. These will be connected by a loggia through which entrance will be gained to the amphitheater north of the dormitories.

Mrs. Madge I. McGlade, Director of Housing, has also served as dean of women. She is a member of Phi Kappa Phi, Mortar Board, Psi Chi and Pi Gamma Mu.

SOCIAL LIFE

Approximately 1,200 social functions are registered and approved each year in the Office of Social Affairs. These functions include formal, informal and semi-formal dances, dance and dinner exchanges, formal and informal dinners, firesides, and also functions planned for either men or women separately.

Under the auspices of the director of social life, plans are made for major dances, campus varieties are approved, etiquette classes conducted and dancing classes sponsored. Pan-Hellenic advice is given, rushing is supervised, the Town Girls' Council, Ward Social Council and Joint Social Council are advised.

Margaret Stanton has been director of social life at Iowa State College since 1930. While in school she served as president of Mortar Board and was a member of Jack O'Lantern, Phi Upsilon Omicron, Omicron Nu and Chi Delta Phi.

DEAN H. H. KILDEE

DEAN T. R. AGG.

AGRICULTURE

Iowa State College ranks first among the Land-Grant Colleges and Universities in enrollment of undergraduate students in Agriculture, and well toward the top in number of graduate students majoring in this field.

Its ten departments offer 14 four-year curricula, in addition to certain offerings requiring less time. All offer graduate work and several are preeminent in their respective fields.

The enrollment of agricultural students, which has increased materially in recent years, now numbers approximately 1,400.

A study recently completed shows that 90 percent of the 1,758 graduates in this division, from 1926 to 1935, inclusive, are at present working in the fields for which they prepared during their student days. In some departments this percentage was as high as 96 percent. A recent study indicates that many new types of positions are being filled by graduates of this division. This fact, together with the fact that physical, economic and social structures of agriculture are changing, is making necessary corresponding changes in the agricultural courses and curricula.

ENGINEERING

The Engineering Division has made progress in several fields during the last year, including new buildings and equipment, enrollment increases, and substantial improvement in employment.

A three-story brick building joins the Steam and Gas Laboratory and the Machine Shop making them all one large building which houses all mechanical engineering work excepting aeronautics, modern gas and electric furnaces for treatment of metals. Acetylene and electric welding equipment are now used in class work, replacing the traditional forge shop practice.

Enrollment in engineering showed a ten percent increase over last year. Two-thirds of the increase is in the freshman class, where the enrollment rose from 450 in the fall of 1935 to 531 in the fall of 1936.

Placement of engineers showed definite improvement in 1935, and has improved steadily during 1936. Recent analyses have shown that only ten percent of those who have graduated since 1931 are engaged in non-engineering work. For the 1935 and 1936 classes this figure is about five percent.

HOME ECONOMICS

Iowa State College is the first institution to offer a course in Home Economics. In 1872, Mrs. Mary B. Welch, wife of the first president of Iowa State College, began her course of lectures in Domestic Economy.

Growing and increasing every year since then, the Home Economics Division now includes eight departments: Applied Art, Child Development, Foods and Nutrition, Household Equipment, Home Management, Home Economics Education, Institution Management, Textiles and Clothing, and, in addition, the Department of Physical Education for Women.

Twelve hundred young women and a staff of 80 instructors and research workers now make up the personnel of the division.

Graduates are filling positions of leadership in practically every state in the Union, the territories and island possessions, and in foreign countries in every part of the world. During the past year over 300 students secured either their first positions or better positions through the efforts of the Home Economics placement service.

Iowa State is justly proud of its Division of Home Economics. It is recognized throughout the entire United States and many foreign countries as the best school for thorough training in Home Economics in the world.

INDUSTRIAL SCIENCE

The Division of Industrial Science is principally a service division. Every major department on the campus includes work in some departments of the Industrial Science Division. There are 19 service departments, such as Chemistry, English, Mathematics, Library, Modern Language and Zoology. The popularity of the division as a major division has been increasing steadily every year.

This year the two curricula of the Industrial Science Division, General and Industrial Science, have been combined under the name of the curriculum in Industrial Science. The college program for majors in the division has been worked out so that the combination will facilitate the selecting of a major course and the making out of individual programs. The major fields will be enlarged through this combination, and the student will be able to make wider choices in planning his course.

MISS GENEVIEVE FISHER

H. V. GASKILL, *Asst. Dean*

DR. CHARLES MURRAY

DIRECTOR R. K. BLISS

VETERINARY MEDICINE

The curriculum in Veterinary Medicine prepares men for general practice in agricultural communities; small animal practice, chiefly in the cities; food hygiene and disease control for federal, state and city governments; commercial biological work; and service in the veterinary corps of the army.

For the first time in 25 years the Division is to acquire a major building for its educational work. The Board of Education has authorized the expenditure of \$180,000 for a new clinic building which should be completed in time for occupancy in the fall quarter, 1937. A niche in the entrance hall is to be set aside for a bust of the late Dean Stange, in whose honor it is named the "Charles Henry Stange Memorial Clinic," who visioned it many years ago and under whose direction it was so carefully planned.

Dr. Charles Murray came to Iowa State College in 1908 after his graduation from Drake University, and in 1912 was associated with the Department of Pathology as a bacteriologist. During 1917 he was appointed head of the Department of Veterinary Research, serving as such until April, 1936, at which time he became the acting Dean of the Division. In November, 1936, Dr. Murray was appointed the Dean of the Division of Veterinary Medicine.

EXTENSION SERVICE

The Iowa State College Extension Service in cooperation with the United States Department of Agriculture and county farm bureaus conducts a state-wide educational program in agriculture, home economics and related subjects. In addition to the central office on the campus, an office is maintained in each county of the state. A staff of 100 county agents, 50 home demonstration agents, 40 club agents and 75 specialists and supervisors is employed.

Reports of county extension agents in 100 counties showed that 161,085 families were reached with extension information. Of that number 153,685 were farm families. There were local committees in 14,014 townships which have planned definite programs in cooperation with county agents.

Besides its regular educational work, the Extension Service does emergency work. The Extension Service is always ready to serve in time of drouth, flood, insect invasions, animal disease outbreaks and other unavoidable calamities.

C. H. BROWN

H. E. PRIDE

THE LIBRARY

The library staff has made a comprehensive survey of those books that are most needed and most used by the students of Iowa State, and the results of this survey have been applied in purchasing more copies and duplicates than ever before. In addition, steps have been taken to duplicate copies of valuable works that heretofore have been available only to members of the faculty.

Early summer will see the installation of the library's newest mural, designed by Grant Wood.

An increasing interest in literature and an appreciation of an ideal place in which to study has been evidenced by the large numbers of students and faculty who use the library.

DR. J. G. GRANT

MEMORIAL UNION

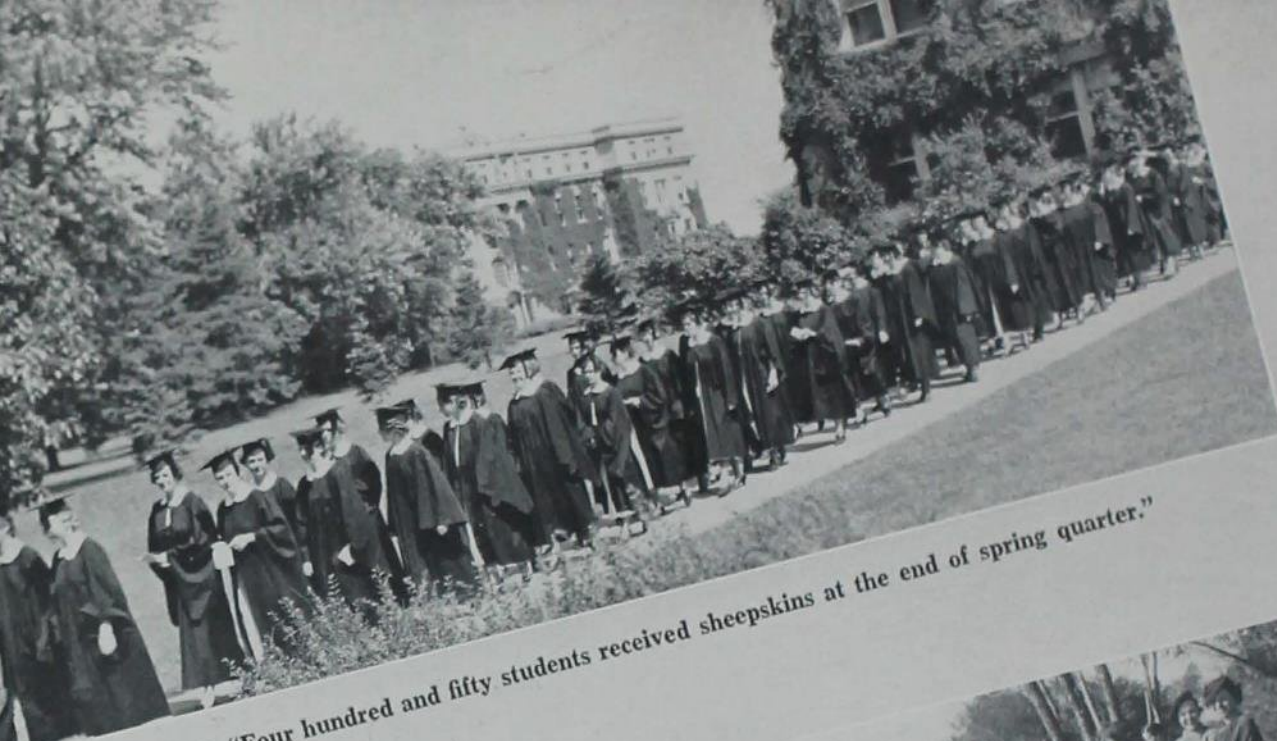

The Memorial Union has had a very interesting and successful year. On October 6, 1936, the new pipe organ was installed in Great Hall as a prelude to the inauguration of the college president. Since the first of the year the 4th and 5th floors of the building have been completed, an elevator has been installed and the new fountain has been erected.

The Union is fundamentally a commemoration to the sons and daughters of Iowa State who gave their lives in the Great War. It serves as the social and recreational center of the campus. Musicales, debates, dances, banquets, lectures, campus varieties, coffee forums and many other activities take place in the Union.

HYGIENE

This year the College Hospital has seen the installation of equipment which will enable the hospital staff properly to diagnose eye ailments, without the necessity of consultation with other physicians, and definitely to advise as to the necessity of corrective glasses. Also, in an effort to decrease the great amount of work incurred by the physical examination of every student in college every year, Dr. Grant, newly appointed head of the Department of Hygiene, has instituted the system of giving a more thorough physical examination to the students entering college for the first time, and to graduating seniors. In addition, the department has the responsibility of keeping our varsity athletes in good health, as well as of examining those men who elect to take the course in advanced military, while other students who feel the need may receive such an examination upon application.

• "Four hundred and fifty students received sheepskins at the end of spring quarter."

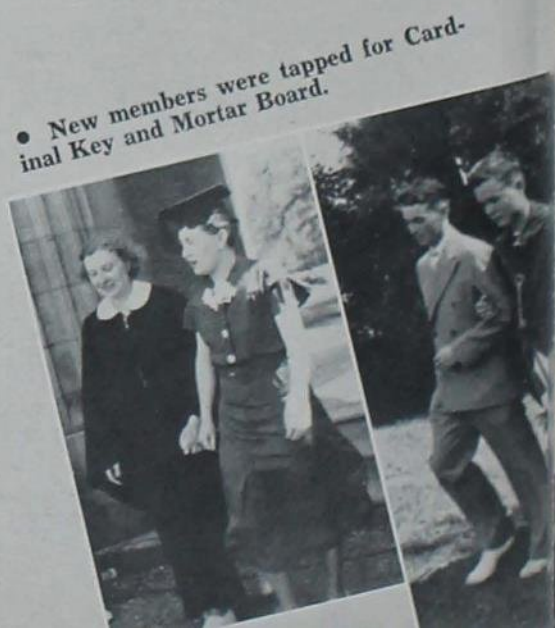

• "On April Fool's Day a snow flurry postponed the coming out of the swans and ducks on Lake L. Verne." (This picture was taken a few weeks later.)

• The student members of the ROTC polished their buttons and shined their shoes for the spring review.

• The hit that brought in the winning run when Iowa State played Missouri.

• New members were tapped for Cardinal Key and Mortar Board.

• "The students returned to the campus after spring vacation."

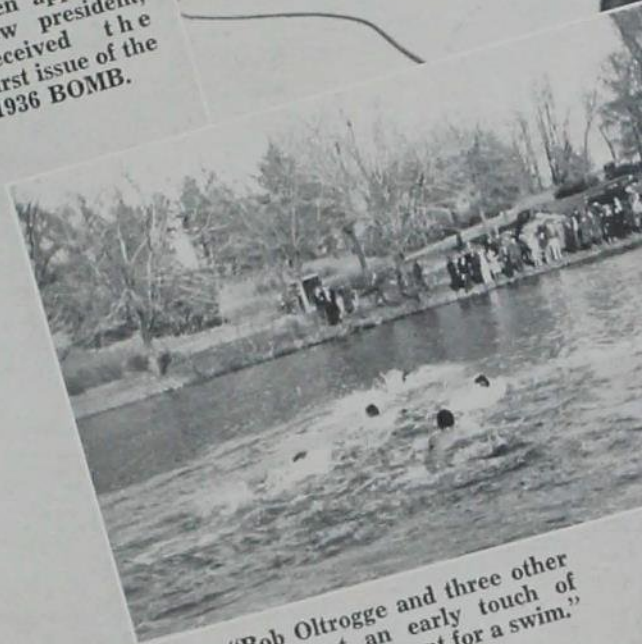

• Dr. C. E. Friley, who had been appointed new president, received the first issue of the 1936 BOMB.

• Nineteen hundred and thirty-six—spring quarter—things big and little made it a crowded year on the campus—crowded with work, play, laughter, embarrassing moments, dull moments and bright moments . . . but moments eventful in the lives of Iowa State Students . . . the scholastic year of 1936-1937, from spring quarter to spring quarter.

When students returned to the campus after spring vacation, they found that Dr. C. E. Friley had been appointed new president of the college. Bob Oltrogge and three other students got an early touch of spring fever and went for a swim in Squaw Creek. On April Fool's Day a snow flurry postponed the coming out of the swans and ducks on Lake LaVerne. Then came the first big splurge of the spring quarter. The Representative Party, composed of Greek houses, had been planning a campaign dance and even a pajama parade. The Independent Party was silently girding its loins. Then the Guild abolished eight class offices and the Representatives emerged victorious after a quiet campaign.

Dick Hull was elected Cardinal Guild prexy . . . and Welch Richardson put out an issue of the Green Gander between meals. Four hundred and fifty students received sheepskins at the end of spring quarter . . . and Acacia fraternity topped the scholarship race for the seventh consecutive time.

• "Bob Oltrogge and three other students got an early touch of spring fever and went for a swim."

• ". . . and Welch Richardson put out an issue of the Green Gander between meals."

• Lois Hawk receives decoration cup for Chi Omega

• In the middle of September the men of fraternity row bought floorwax, applied elbow grease and got ready for rush week and freshmen days. On September 29, the deluge came and all registration records were broken when 4,771 students had enrolled.

Then autumn with its coloring leaves and fading grass came and the Ags chose Mary Janet McDonald their first Harvest Queen . . . Both the Ags and the Engineers held carnivals this fall.

While the Cyclone gridsters won 21-7 over Kansas University, men of the glee club serenaded the football fans, and the cheerleaders turned on their personalities.

There was a big inauguration ceremony and Dr. Charles E. Friley was officially made president of Iowa State College. Led by four drummers and a clash of cymbals, students opened up with a premature burst of pep in a class bust just before Homecoming. Some of the local orchestra boys brought along instruments and played for an informal pavement dance in front of dignified Central Hall. That night, victory expectant students ate apples and beans at the pep barbecue.

A national election came with its usual wake of paying for lost bets. And the last big news of the quarter was the announcement of the resignation of George Veenker as head coach. J. J. Yeager was named football coach, and Veenker remained as director of athletics.

• A hot trumpeter

• "... cheerleaders turned on their personalities.

• Mortar Board welcomes freshmen girls to Iowa State College

• Craig Trumbull doing a bit of Sherlocking

• "... a young man's fancy ..."

Why they're usually late

• Hell week with its worries, its laughs, and its mental and physical beatings . . . practical jokes of one sort or another . . . bull sessions and house meetings (who is to distinguish between the two?) . . . intramurals and sorority relays . . . costume parties that are unforgettable . . . cigars that are passed as a result of a dark corner combined with a moonlight night . . . dinner exchanges and dance exchanges . . . formals and picnics . . .

"Five pound party, everybody out!" That's what you can expect some night when you are comfortably asleep and some Iowa State co-ed "went an' done it" to the surprise (?) of all concerned. It seems to this incompetent observer that there is nothing so conducive to the fulfillment of a young man's fancy (or a young woman's for that matter) as the happy way in which fraternities and sororities work "hand in hand."

From football to ping pong, one house is set against another, guys against guys and gals against gals. But when it comes to getting dates, then it's gals against guys.

• "So here's to the gals . . ."

• Gallery at a touch football game

• Bob Dobbin ready to go

elt pledge on probation. • "... cigars that are passed ..."

• Marjorie Butler at the sorority relays
• Four Betas at bridge

• "... and dance exchanges ..."

• "... costume parties that are unforgettable ..."

• "... and lots of hard work"

• "Chick Reynolds,
Phi Delt's pride . . ."

• Formals and lots of hard work — that's winter quarter . . . But no matter how much work there is to be done, there's always time to knock off a few hours to cavort frivolously hither and yon about the Iowa State Campus. Lake LaVerne trades its ducks and swans for a bunch of hockey-playing snow birds and the golf course trades its golfers for skiers and sledders. Girls trade dresses for snowsuits which become the all-college uniform.

At the first signs of spring, Chick Reynolds, the Phi Delt's pride and joy, decides it will be safe to bring his ears out of hibernation via the Union barber shop. Through thick and thin, we have with us Beenie, whose smile is one of the warmest things around these parts when the mercury drops to 30 below zero (gosh what a night!) . . . Even if the days are colder, things like the Forester's Hoedown and the Applepolisher's Ball with the aid of hot swingsters keep the nights warm . . . people have more fun than anybody, especially in pairs. You work and slave and then when it's all over, you haunt the desk to see if the college is going to let you be one of those present next quarter.

So passes winter quarter, checking out with frozen noses, Cyclone twisters, Coffee Forums, and Joe's cinemas.

• Olive Swanson and "Stretch" Thompson find the camera man amusing.

• "... hot swingsters . . ." • "... we have with us Beenie . . ."

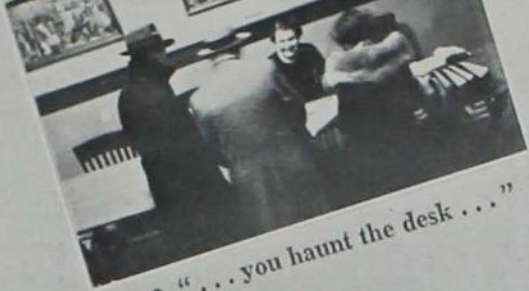

• Applepolishing at the ball

• "... especially in pairs."

• More night life—the L. A. Ball

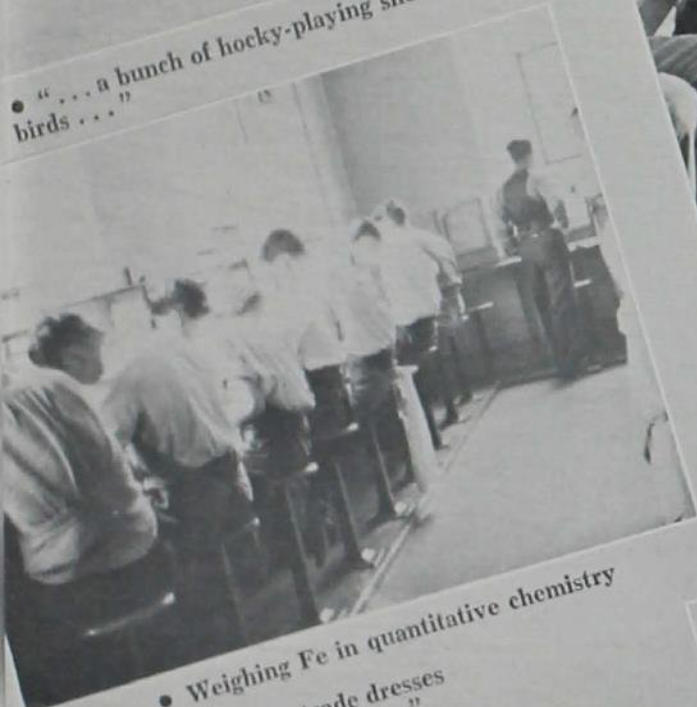

• "... you haunt the desk ..."

• "... a bunch of hocky-playing snow birds ..."

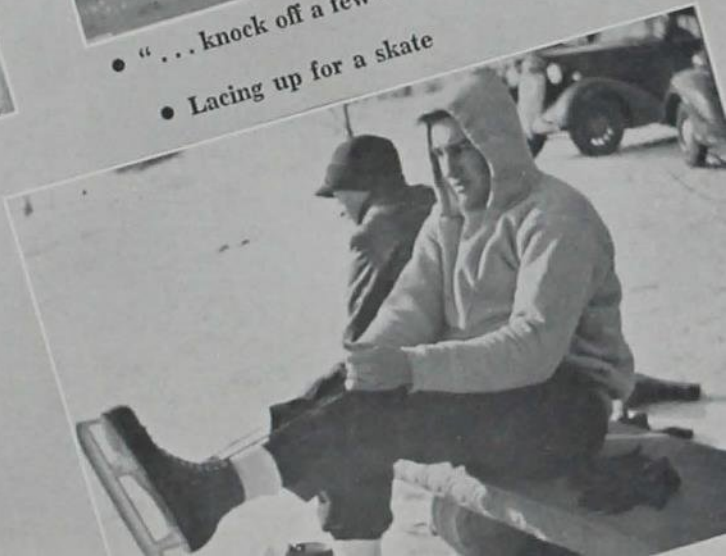

• "... knock off a few hours to cavort frivolously"

• Weighing Fe in quantitative chemistry

• "Girls trade dresses for snowsuits ..."

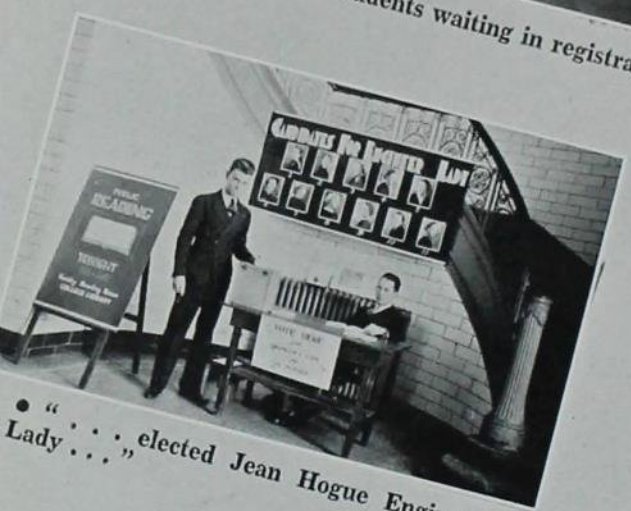

• Lacing up for a skate

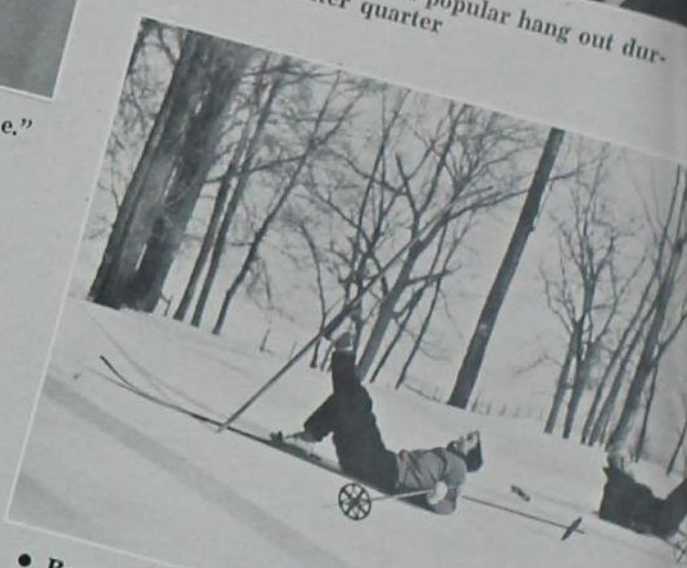

• "... and familiar scenes of students waiting in registration line."

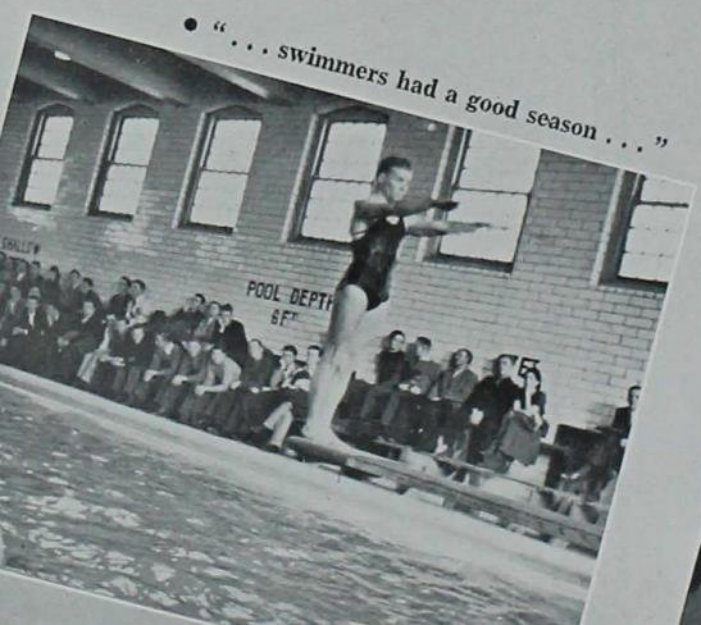

• The Grill is a popular hang out during winter quarter

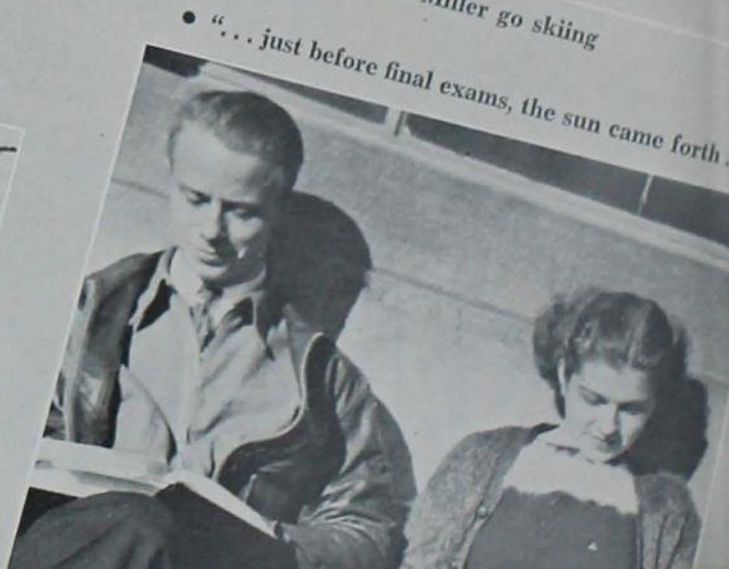

• "... elected Jean Hogue Engineer's Lady ..."

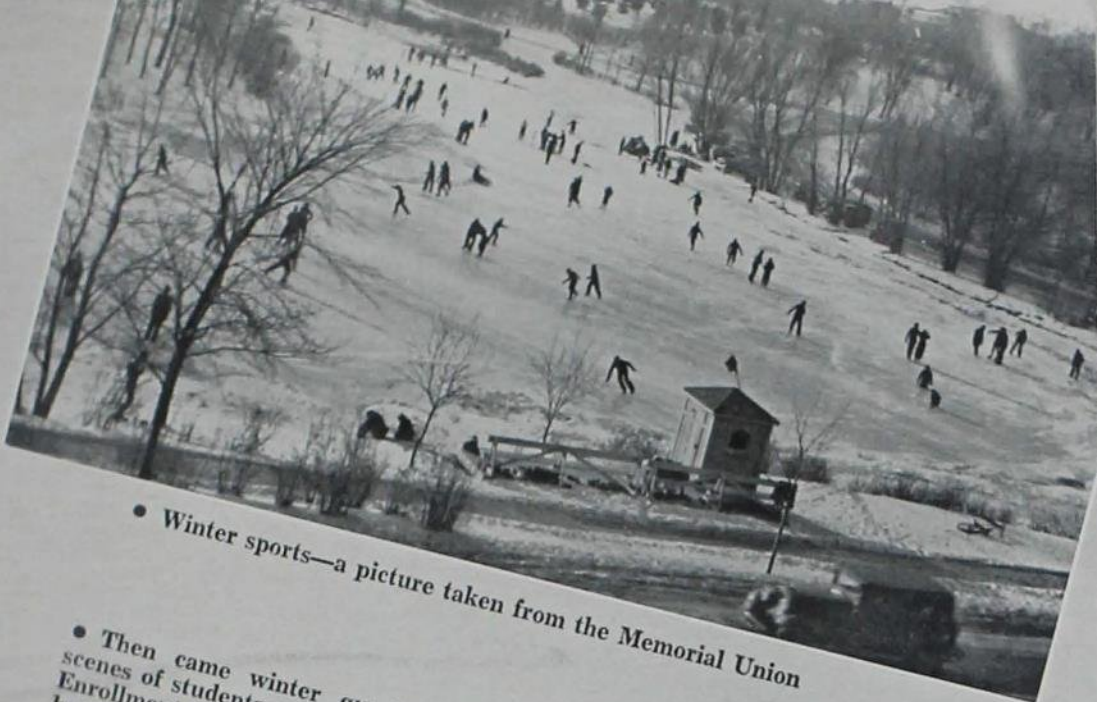

• Ronny Ronnigen and Francis Miller go skiing

• "... swimmers had a good season ..."

• "... just before final exams, the sun came forth"

• Winter sports—a picture taken from the Memorial Union

• Then came winter quarter and familiar scenes of students waiting in registration line. Enrollment dropped a little from fall quarter, but not much. The Veishea ticket sales force conducted the most successful campaign to date.

A new women's dormitory was approved . . . and the wards held their first annual banquet. Scabbard and Blade members decided to select an honorary cadet colonel for the military ball in the spring.

With the first snow came the snow suits . . . coeds went skiing and Lake LaVerne became a popular place for the ice skaters. The Engineers elected Jean Hogue Engineer's Lady and Bob Dodds as Saint Pat.

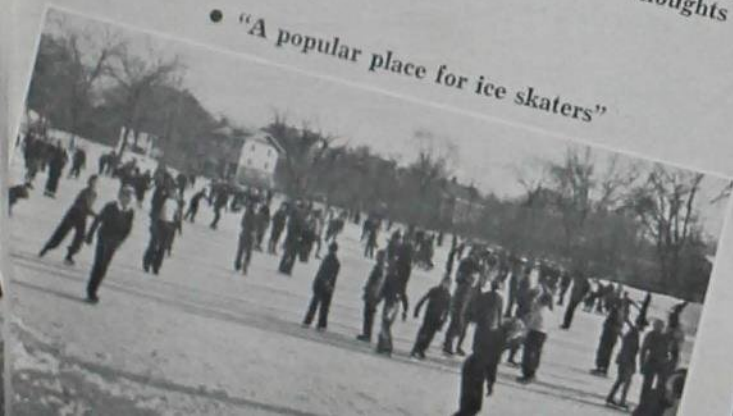

George F. Bretnall and Charles R. McCaffree were named track and swimming coaches respectively to take over duties in July. The swimmers and wrestlers had a good season while the basketball team fought valiantly, but didn't sink enough baskets.

The Dairy Industry Department patented a candy bar . . . and work was begun to finish the two top floors of Memorial Union. T. R. Agg was named head of the Iowa Engineers and as the quarter drew to a close, the military men strutted their stuff at the military circus. And just before final exams, the sun came forth, laziness settled on the campus, men and women of Iowa State turned their thoughts toward spring.

• "... came the snow suits . . ."

• Back again for another quarter

• "A popular place for ice skaters"

The

CLASS

of 1937

■ Guiding spirits on the campus who have set a higher goal for those that follow..... They have left their footprints on the walks of college life and have added their stone to that great structure, Iowa State College.....
THE SENIOR CLASS.

BOOK TWO

CLASS OF 1937

It is with a mixed feeling of triumph and yet regret that the class of 1937 surveys the past four years. Triumph in that we have sidestepped the pitfalls of Chemistry 103, the Dean's office, and spring weather slumps. Regret because we shall no longer spend pleasant hours in the grill over a cup of coffee, stroll slowly along the walks between the Union and the dorms, or cheer fighting Cyclone teams on State Field. With our new sense of importance it is a little disturbing to think that Central will still stand as majestically as before on Iowa State's spreading campus. It's always hard to think that you won't be missed when you're gone. Maybe we will, who knows. Maybe we have left our little mark in the annals of a school which will be looking forward to new classes for years to come. That is for you who remain to judge.

At any rate, we have witnessed some startling events during our four-year term. During our freshman year the last "official" Senior Off-Campus Day was held. A flashy Cyclone basketball team brought Big Six laurels to Iowa State. We experienced fraternities, sororities, big dances, military activities, picnics of the number 1, 2 or 3 variety and novelties too numerous to mention.

As "seasoned" sophomores we did our best to crash the freshman "Mixer," acclaimed the football team which trounced Iowa University 31-6, and in general tried to show the "preps" their rightful places. The Junior year brought us a little more dignity and a surer insight into the art of "apple polishing." Honoraries, activities, dates and politics began to assume an importance in our minds which overshadowed studies. And then, all of a sudden, here we were, Seniors.

Now, it doesn't seem as though it should be finished. We look back and wonder how the years slipped away so quickly. But they were memorable years, and as we join the ranks of alumni we shall be slow to forget the ageless Campanile, the green lawns and lilacs at Veishea time, and the classmates with whom we worked and played. We have learned the fuller meaning of the oft-repeated, "It means something to be an alumnus of Iowa State."

TORVALD HOLMES,
President of Senior Class.

■ Committee meetings, "Student" parties, "Bomb" picnics, play practices, Nite show, honoraries..... The punch and spice of college life. There is nothing that gives one greater satisfaction or makes one feel a greater part of the school itself than ACTIVITIES.

BOOK THREE

CARDINAL GUILD

Cardinal Guild, official student governing body, has been in the limelight this year as sponsor of the leadership conferences which were held during the winter quarter.

If you have forgotten that you nearly froze at the Homecoming Barbecue last fall, you probably haven't forgotten the good hot food dished out to you by members of the Guild—nor the pep dance afterward in the gym.

Among projects that the Guild sponsors annually are activities tickets, numeral sweaters, and divisional and intramural athletic awards. It also manages all-college elections.

JOINT SOCIAL COUNCIL

The Joint Social Council, composed of social chairmen from the various organized houses and representatives from the ward system, has tried to advance the culture of college students through lessons in etiquette which are discussed at each meeting and taken back to the groups by their representatives.

Dancing classes held every Thursday night, Campus Varieties programs during the winter, and announcements of all social affairs are sponsored through the Council.

ASSOCIATED WOMEN STUDENTS

The A. W. S. Carnival for freshman women, the Campus Sister Movement, the Student Book Fund, and the awarding of scholarship cups for dormitory and sorority groups is part of the work sponsored by the Associated Women Students.

Associated Women Students is a national organization composed of every girl on the campus which sponsors all women's affairs. "To coordinate all women's groups on the campus, and to promote efficiency of the girls as leaders," is the association's motto.

AGRICULTURAL COUNCIL

The Agricultural Council sponsored the Harvesters' Ball in the fall, the Agricultural Banquet in the winter, and the Agricultural Ball in the spring. At the Harvesters' Ball the first Harvest Queen, Mary Janet MacDonald, was presented. The Council awards 34 medals to members of judging teams representing the division in intercollegiate competition.

ENGINEERING COUNCIL

The Engineers' Ball, held in the winter, featured the formal dubbing of the Knights of St. Patrick, and the formal presentation of the Knight, Robert Dodds, and the Engineers' Lady, Jean Hogue. The Blarney Stone was recovered from its resting place in one of the fraternity houses, despite a desperate battle, and the engineers' flag was hung on Agricultural Hall.

The Council, composed of representatives from each department, also sponsors the engineering convocations as well as a faculty-student banquet for members of the Engineering Division.

HOME ECONOMICS COUNCIL

Everything from baking cherry pies at Veishea to arranging weekly convocations has kept the Home Economics Council busy this year. The Council, governing body for the Home Economics Club, is composed of the club's officers and representatives from each department.

This year a new division was added to the club, that of technical journalism. This division sponsored several luncheons for prominent visitors on the campus who were connected with its field of work.

INDUSTRIAL SCIENCE COUNCIL

Such activities as Spring Day, Veishea Open House, and a formal ball are sponsored by the Industrial Science Council, governing body for the Industrial Science Division. Composed of eight members from the senior class, six from the junior class, and four from the sophomore class who have a high average, good character and an active interest in their division, the body brings a closer fellowship among the various departments in the division.

WOMEN'S STUDENT HEALTH COUNCIL

The Women's Student Health Council was organized in 1930 with a local membership only. It is composed of representatives from each women's residence on the Iowa State College campus, with a membership at large of any student who is interested in participating in the organization activities.

The Council actively assists in maintaining high health standards among college women and carries on a health program through weekly meetings during the school year. It also assists with the annual Tuberculosis Seal sale and carries on Red Cross relief work.

EXTRA

CAMPUS

• Maria Morzkoska, '28, of Warsaw, Poland: "I am standing in my diet kitchen-classroom. These girls are students of II class of dietetic college. This is the only college of dietetics in Poland."
 "I have been working in dietetic school two years as a special instructor. Since I left U. S. A., I have organized two diet kitchens and published books on dietetics."

• Jonathan W. Groenwald, '28, of Pretoria, South Africa: "I am enclosing a recent photo of myself and daughter. At present, my chief recreation takes the form of wandering among the livestock on the Station. I am, however, generally interested in sports, and am making an attempt to take myself more seriously."

• Stanisla J. Chagnon, '21, of Quebec, Canada: "Giving a judging demonstration to farm boys at our Provincial School Farm. Although far away from Ames, I have kept the best remembrances of my Alma Mater and some of the dear friends I made at college."

NOTES FROM ALUMS

• Gariele M. Kruger, '31, of Villa Plautage, Germany: "The picture shows me with my students on a field trip through the "Sprucewald" in July, 1936. . . . When I came back from U. S. A. in 1931, I taught in Berlin at the University of Agriculture, and did research work."

• Dr. Alcibiades A. Aroseman, '33, of Panama City, Panama: "I am sending a couple of snapshots of me and my Boston Terrier."

• Maria C. Vermeulen, '32G, of Bloemfontein, South Africa: "Our greatest sport while out for a picnic is rowing. . . . I find that I appreciate I. S. C. even more than ever after being back in South Africa for three years."

• Mrs. A. H. Humphries, (Ida Forest), '18, of Kennecott, Alaska: "After graduation, spent two years studying Spanish in the West Indies. Then cruised Iceland and North Cape. Married an Englishman and now living happily in a mining camp atop the world in the Alaskan Rockies."

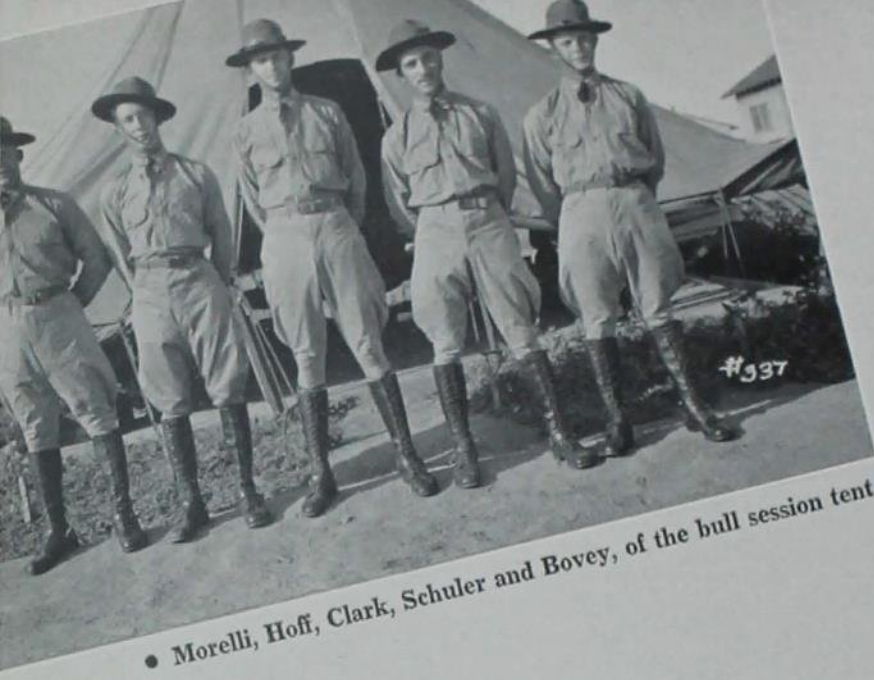

AROUND THE WORLD

• J. W. Mac Ewan, '28, of Saskatoon, Canada: "I am enclosing a snapshot taken at a recent outing . . . I am with the University of Saskatchewan. My responsibilities include teaching, experimental work and administration."

• Martha L. Eder, '27, of Kausai, Hawaii: "The large picture showed four women and I looking over some Hawaiian crafts at our Semi-Annual Marketing day in our home industry project. Kauai's principle industry of course, is raising sugar cane. We also have two large pineapple canneries and the largest acreage of rice of any county in Hawaii. The climate is temperate and almost perfect. The island is considered the most beautiful of the group."

• Morelli, Hoff, Clark, Schuler and Bovey, of the bull session tent

• "... made a campaign tri
Topeka ..."

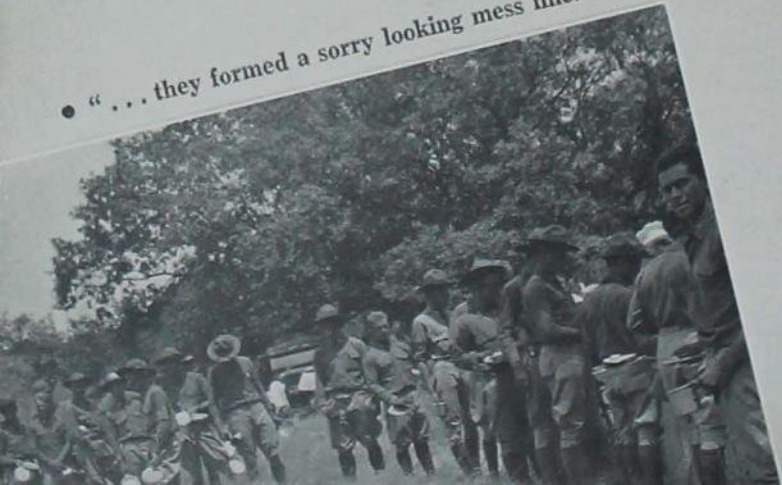

• Schuler got a raincoat that was a little short

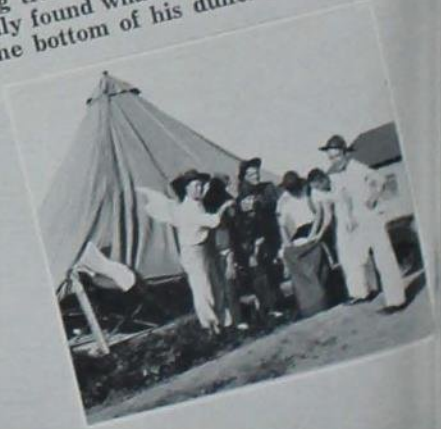

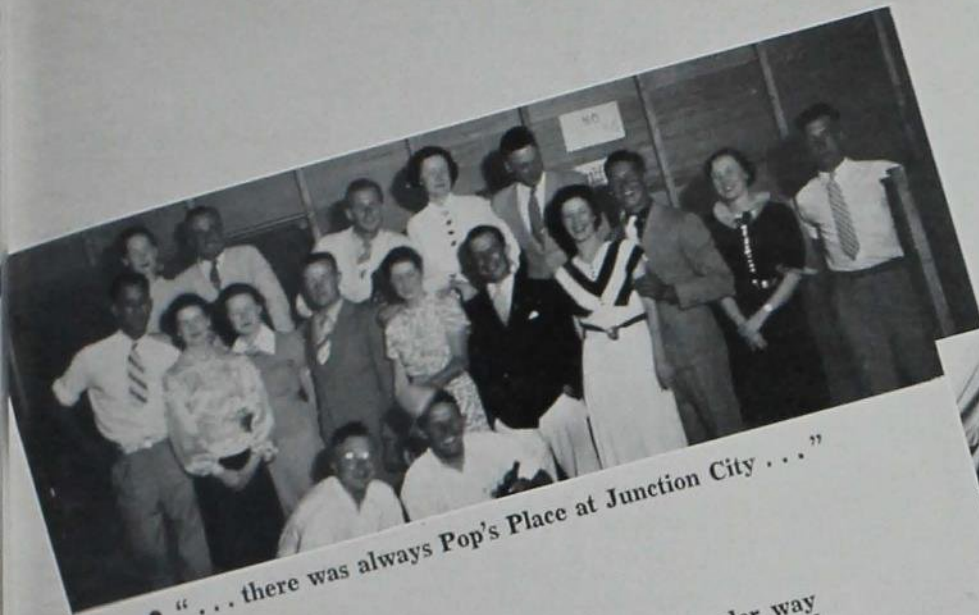

• "... and firing some of those F

• "... they formed a sorry looking mess line."

• Morelli had a hard time keep-
ing track of his stuff and eventu-
ally found whatever he wanted in
the bottom of his duffel bag

• "... there was always Pop's Place at Junction City ..."

- "Set!"
- "Ready!"
- "Fire!"

And another military camp was under way which filled the days between June 15 and August 1 with sweat and laughter. Sweat is really the word, too, for when the temperature out on those Kansas plains reached 113 degrees in the shade, all the little soldier boys were wearing rubber gas masks—the kind that make your face clammy—and firing some of those French 75's.

However, it wasn't all work for a carload of the more political minded found time to make a campaign trip to Topeka with a Roosevelt banner on their car. Then, too, there was always "Pop's Place" at Junction City to gather for dances and other such night maneuvers. One night, the soldiers went out dressed in their civilian clothes, but shortly after sun-down remembered that they had an overnight hike that night. They had quite a time finding their horses and changing clothes in the dark, and the next morning, after an hour's sleep on the ground, they formed a pretty sorry looking mess line.

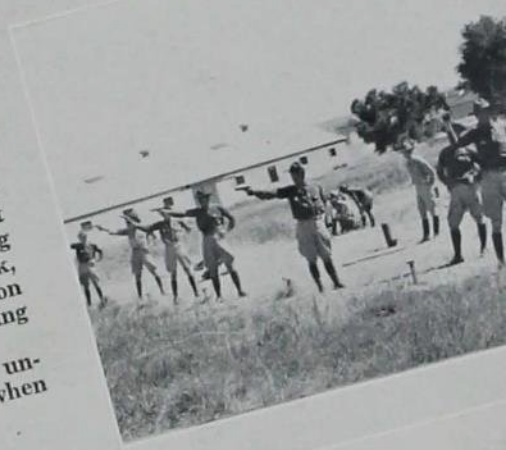

It was a long hot summer filled with unforgettable events, but the boys were glad when it was over.

- "... were wearing rubber gas masks ..."

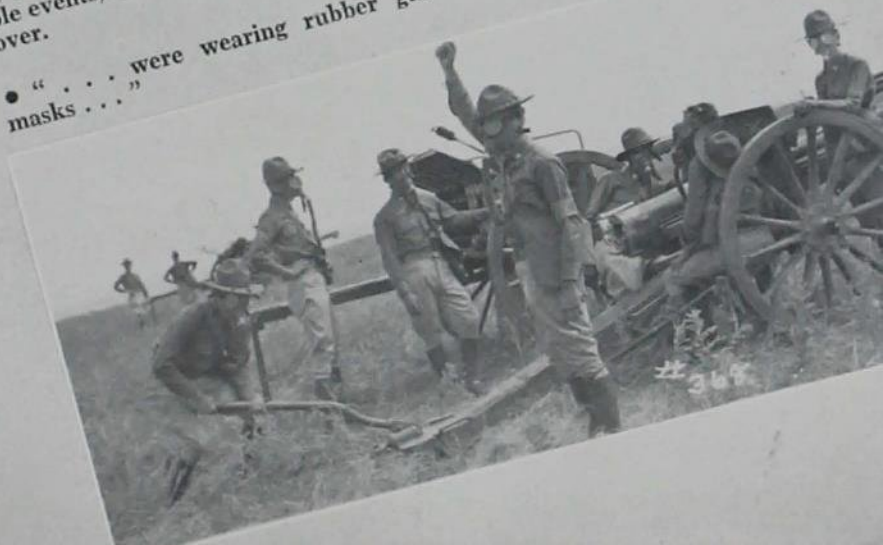

• Clark in kitchen police clothes.

• Firing on the pistol range

• One way of cleaning up before inspection

● On the Tonto Rim

● "Dr. J. (Alpiner) Edwards and the remainder of the camp took a jaunt up Mt. San Francisco . . ."

● "When the boys started out, they were all spic and span . . ."

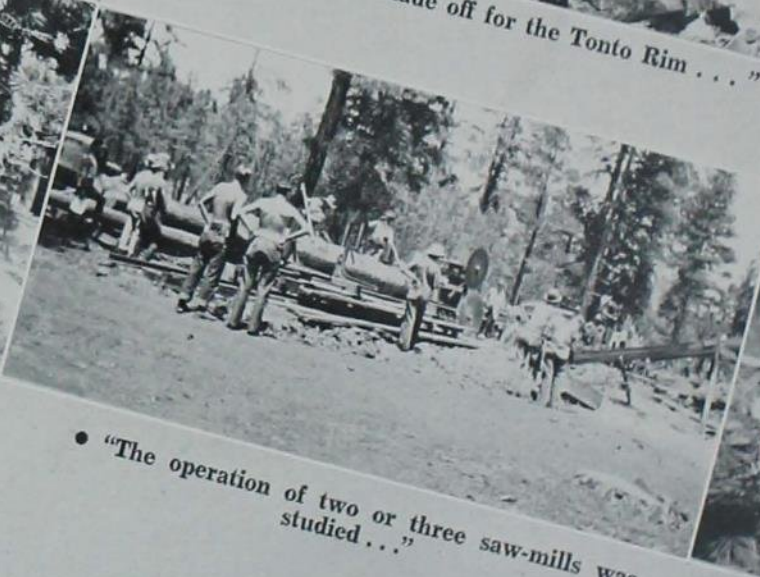

● Dr. Edwards, students Finchel and Cook, and a native

● "... so they made off for the Tonto Rim . . ."

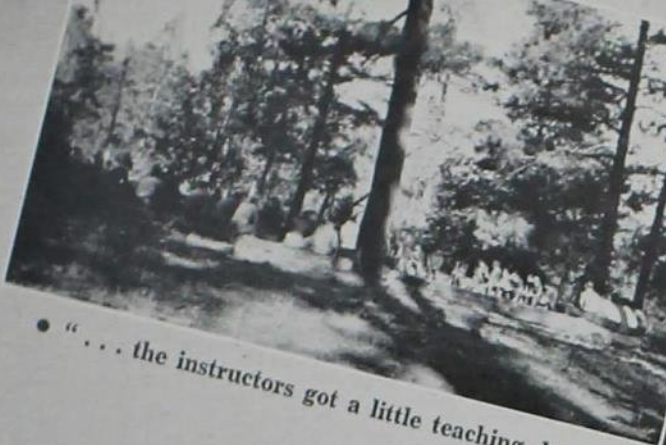

● Kindig took this picture while he and Scott were lost

● "The operation of two or three saw-mills was studied . . ."

● "... along with a little logging and camp technique"

• "... the instructors got a little teaching done."

• On the edge of the Grand Canyon

Science with practice. No forests in Iowa so the foresters spent last summer practicing among the pines about thirty miles south of Flagstaff, Arizona. Presumably, the day was spent in classwork and study, but the boys packed up and took a few trips. They whipped down to the Grand Canyon for a couple of days to see the sights and maybe a girl or so. Some of the foresters always were pretty hot on this fancy literature by the outdoor authors like O. Henry and Zane Grey, so they made off for the Tonto Rim to get the proper atmosphere. Dr. J. (Alpiner) Edwards and the remainder of the camp took a jaunt up Mt. San Francisco to whet their appetites. It's only 12,600 feet above the level of the sea. Upon returning, they found that the cooks, Mrs. Scoltock and Mrs. Peterson, had brewed up the usual fare of half a dozen jackrabbits and three or four gophers for each and every one of the lads.

In spite of all this running around the instructors got a little teaching done. The operation of two or three saw-mills was studied, along with a little logging and camp technique.

When the boys started out they were all spic and span, but it didn't take long for a certain crustiness to develop. So they were just plenty glad when the time came for them to leave the wide open spaces and return to the civilization which they symbolized as a bathtub with hot running water.

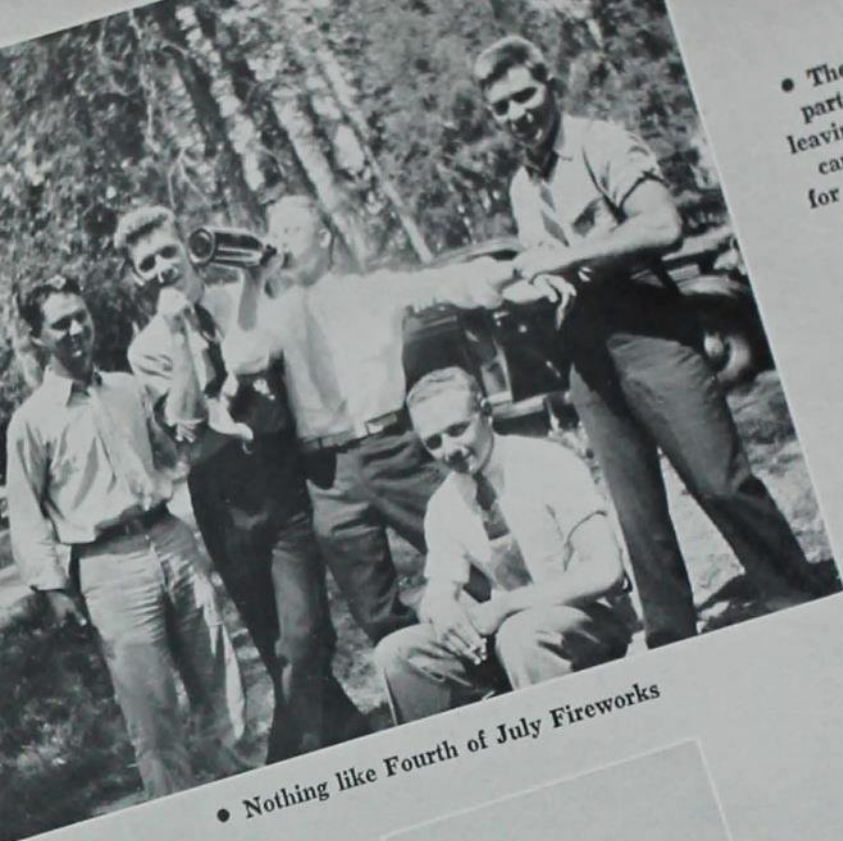

• "... the cooks, Mrs. Scoltock and Mrs. Peterson, had brewed up the usual fare ..."

• "They whipped down to the Grand Canyon ..."

● Nothing like Fourth of July Fireworks

● The party leaving camp for the last time

● Inspection of the Minneapolis sewage tunnel

● George Faulkner actually doing a little work

● Jack Dodds getting a little suntan

● Setting out for an overnight hike

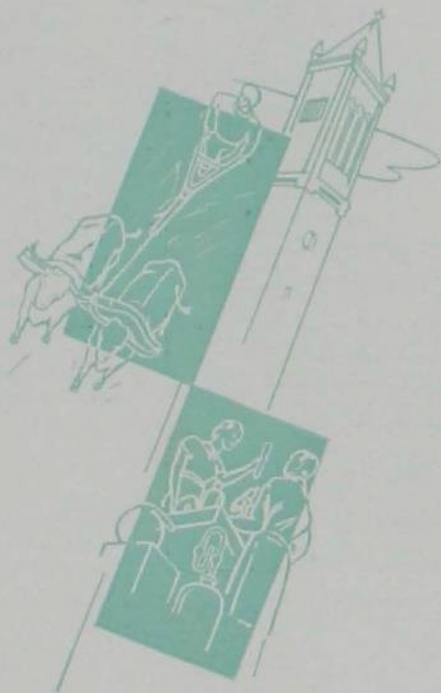

● Members of the Moyer Bunk Cabin: Warrington, Greisse, Woodward, Scheibenberger, Faulkner, VanVliet, Dodds

● Wrestler Al Stoecker with Katy Dodds, Lew Cliff, and two girls from International Falls. (Names unknown but he still has their telephone numbers)

PUBLICATIONS

EVERETT HERMANSON

BOMB EDITORIAL STAFF

Energy, optimism and the ability to do without sleep made this year's editorial staff unusually qualified to carry out the numerous duties falling on it.

The goal that they worked toward was to make the Bomb of 1937 a monument to Iowa State College as a world-wide institution through the influence of its alumni in their life work.

Able directing this staff was Everett Hermanson, energetic editor of this year's Bomb, assisted by Burdet Heinemann, in charge of pictures, and V. J. Horswell, who did many of the write-ups. Dorothy Bernick, Beth Cummings, Gaynold Arnold and William Jensen were also included in the staff writers.

Miriam Richardson very efficiently handled the copy with the assistance of Virginia Quaife, Betty Feyder, Henry Espensen, Russ Amberson, Helen Doss, Gwendolyn Griffith, Bill Stelzer and Paul Strickland.

Harold Birkness finally compiled the index, aided by the untiring efforts of Jane Mason, Francis Berger, Marian Glidden,

Marjorie Campbell, Lucy Lee Mallory, Nancy Pinkerton and anyone else whom he could inveigle into working.

Credit for the photography goes to Jack Morton, who was assisted by John Hay, Gregory Knowles, Jim Burkhart, Joe Dain and Bob Strom.

Bruce VanDeMark patiently scheduled the group pictures while Tom Gauthier acted as engraving editor, and Gay Starrak worked tirelessly on the senior picture section.

The title of sports editor was held by Jim Henderson, under whom was John Rohlf.

And last in the book and last to be forgotten, the satire section was headed by that well-known humorist, John Garberson, under whom worked Gene Rosebrook and Paul Masters.

Searing Radcliffe Cannon Reynolds Muller Mason

BOMB BUSINESS STAFF

Special deliveries, sorority sales, sleepless nights and a certain amount of sweat contributed to the activity of the business staff of the 1937 Bomb to make things lively and interesting. The object of this activity is primarily to have the Bomb ready for Iowa State students at Veishea time and to have the book a financial success.

This year the business of the Bomb was given a flying start by Bill Terrill, making budgets and starting the sorority sales contest. A change in business managers was accomplished in October without too much of a backslide through the excellent cooperation of Bob Cannon, who took charge of sales, and Larry Searing, who capably handled the collections, with the new business manager, Charles P. Reynolds.

The sorority sales contest was an outstanding success through the concentrated efforts of the organized houses on the campus. The contest was won by Kappa Delta in a close race with Pi Beta Phi, last year's winner. Gamma Phi Beta took third. In a large part, the success of the Bomb is dependent on this cooperation of the sororities.

The accounting work and contact with the college business office was efficiently taken care of by Cyril Radcliffe.

George Muller sold the advertising. Mary Bush, Culver Brooks and George Arnold assisted ably in this part of the business.

Other members of the staff on the sales committee were Dorothy Bernick and Paul Strickland. Jane Mason was active as general secretary for the Business Staff. In charge of the Kappa Delta sales was Janet Kirkbride; for Pi Beta Phi, Betty Whipple; from the Gamma Phi house, Maurine Hobkirk; and from Delta Delta Delta, Barbara Heggen.

CHARLES P. REYNOLDS

IOWA STATE STUDENT

K. WENDELL MARSH

"Science with Practice" in a very real sense is carried out day-by-day in the Iowa State Student office. By working on the Student, professional journalism students find practical experience, and the whole editorial staff—some ninety persons—find in it a year around, day-in-and-day-out activity. It is open to every student.

Wendell Marsh, editor-in-chief, this year had an extraordinarily capable group of co-workers. For two quarters Bill Jensen handled the job of managing editor, but left school in the winter quarter in favor of another position. Francis Byrnes carried on. The same situation occurred in the sports editorship, Jim Henderson replacing Win Hanssen.

Robert Bliss, Robert Long and Clifford Briggs were issue editors, assisted by Walter Barlow, Dorothy Fedderson, Doris Ingle, Charles Kelso, Ruth Sawin, Eugene Hamilton, Elizabeth Dickinson, Dorothy Grant, Clyde Zimmerman and Leah Scott.

Theo Herrmann, John Rohlf, Ben Helmick, John Klas and Robert Menze assisted the sports editor.

Society Editor Gaynold Carroll and associates, Peg Belken, Jean Cole and Margaret Burnstedt, were assisted by Evelyn Ingalls, Eleanor Henderson, Gene More, Barbara Field, Lenore Smith, Marie Larson, Harriet Knudson, Mary Frances Williams, Connie Taylor and Naomi Geiger.

Reporters included R. Verle Johnson, Beth Johnson, Alvina Iverson, Katherine Dodds, Merrill Samuelson, Beth Cummings, Maurice McMurray, Robert Swatosh, Louis Champlin, Betty Gaylord, Garner McNaught, Gay Starrak, Carol Brueck, Clarence Wilson, E. Jean Reis, Laura Bliss, William Schworm, Louise Chandler, Hadley Read, John Siberell, June Gaylord, Mary Ellen Lynch, Jane Helser, Vera Grigsby, Marian Chandler, Lee Skillingstad, Dudley Haseltine, Tom Stewart, Arlo Miller, Ole Lande, Helen Clark, Dean Clark, John VanderLinden, Dorothy Bernick, Garnett Carty, Annabelle Erickson, Ruth Hendrix, Daisy Kimberly, Ruth Kunerth, Maurine Smith, Robert Crossley, Richard Johnson, Tom Kennedy, Bernie Kooser and Jo Betty.

Welch Richardson, Ken McGuiness, John Garberson and Richard Hull made up the Student's columnists, while Martha Roberts, Jo Fiene, Robert Bliss, Francis Byrnes, LeRoy Harlow and Walter Barlow aided in directing editorial policy.

Maurice McMurray David Spencer Parry Dodds Lee Bagby Arthur Radcliffe
Leo Mores George Arnold Frank Johnson

IOWA STATE STUDENT

Not so showy, not imbued with any particular platform to get itself in dutch . . . you know what we mean; the good old conservative element of the Iowa State Student. That's the business staff. Well, anyway, the students on the business staff do work hard, and may justly claim a large share of responsibility for presentation of the news to the students of Iowa State . . . that may seem a bit bold, but the financial support of the paper rests entirely in the hands of students.

Through the opportunity offered by the Student's business operations, every year a group of Iowa State students become acquainted in a practical way with many fundamental business relations. Such things as salesmanship, collection, circulation, advertising copy-writing, and contacts with national advertising agencies are counted as important to the future business careers of the staff members. It's a sort of testing grounds for students who have a fancy for the business side of newspaper publications. What's more, it does just that, for if they do well they stick, if they don't they fade out of the picture.

This year the Student was particularly fortunate in having a group, though small, which was intensely interested in the workings of the business and remained loyal all year.

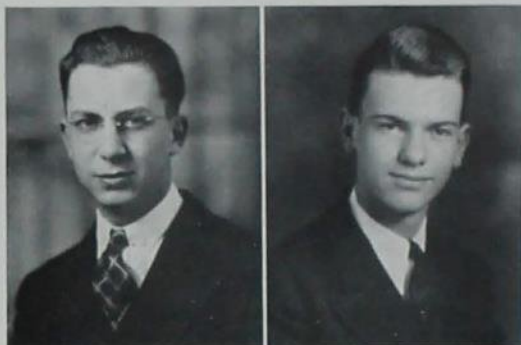

Included in the staff this year were: Leo Mores, Advertising Manager; Frank Johnson, National Advertising Manager, and Isabel Bruechner, Secretary. Students who made up the sales staff were: George Muller, Art Radcliffe, Parry Dodds, Dorothy Kraus, Maurice McMurray, Lee Bagby and Virginia Lynch. The credit department was made up of David Spencer, Dick Jenkins, Bill Helscher and George Summers.

GEORGE ARNOLD

IOWA ENGINEER

WILLIAM GREEN

CHARLES AMICK

Probably the most noticeable change in the Iowa Engineer during the past year was the alteration of the cover design to permit the use of larger illustrations and two-color printing. This, along with a tendency to depart slightly from the very conservative type of make-up which had been characteristic of the magazine, helped to arouse reader appeal.

The Iowa Engineer is published entirely by students of the Division of Engineering, monthly, from October throughout May. The subject matter is written, for the most part, in a semi-popularized form in order that it may be clearly understandable to engineering students of all classes, although some more technical articles are used.

This year the Iowa Engineer sent six delegates to the University of Michigan for the annual convention of the Engineering College Magazines Associated—an organization which members of the Iowa Engineer staff were instrumental in founding in 1922. Prof. R. W. Beckman, alumni representative on the Iowa Engineer Publication Board, was elected national president of the E. C. M. A. at this meeting.

Members of the publication board for the year 1936-37 were: editor, William Green; business manager, Charles Amick; faculty representatives, F. E. Lightburn and L. O. Stewart; alumni representative, R. W. Beckman; engineering council representative, Arthur Knapp.

Responsible for much of the work in obtaining good illustrations was Staff Artist Charles Ritts, who was responsible for the cover design.

Circulation was in charge of Kreigh Carney. Robert Booth managed the advertising for the publication, and associate editors were Ellert Anderson and Virgil Anderson.

The editorial staff is composed of: Ellert Anderson, Virgil Anderson, Warren Deck, Dan Edwards, Hale Faris, William Green, William Hambly, William Loomis, Herbert McMillan, Joe Martin, Harry Morgan, Charles Ritts, David Ryan, Robert Sar, Dillon Turney and Walter Wolf.

On the business staff are: Charles Amick, Hubert Bierman, Fred Boardman, Robert Booth, Lester Buechler, Kreigh Carney, Wesley Frels, Richard Jay, Maurice Kirby, Tom Little, Horace Mellem, Emery Olson, William Scott, Niels Steenhill, David Thurlow, George Weirick and Robert Werkman.

THE HOMEMAKER

The Iowa Homemaker, the only college home economics publication of its kind, has taken on some new features in the last year. Outstanding in these is the cover, which is designed each month by an applied art student and portrays through modern art seasonal and home economics subjects.

A department of "What's New in Home Economics" is a crystallization of the latest ideas and developments in the various departments in the Division of Home Economics.

Paid subscriptions to the magazine have more than doubled in the past year—copies that interpret to home economics students and professional people the latest information from the largest school of home economics in the world.

On the publication board for this magazine are Dean Genevieve Fisher, Miss Paulena Nickell, Miss Katherine Goeppinger, Mrs. Bess Storm Ferguson, Marjorie Griffin, Miriam Richardson and Marian Rahn.

Marjorie Griffin, editor-in-chief, has been assisted by the managing editor, Miriam Richardson; the circulation manager, Marian Rahn; and the editorial staff: Virginia Berry, Helen Peg Belken, Josephine Betty, Jean Boland, Carol Brueck, Mae Louise Buchanan, Rose Butler, Gaynold Carroll, Garnett Carty, Beth Cummings, Faithe Danielson, Margaret Dawartz, Dorothy Fedderson, Mildred Green, Madeline Griffin, Jane Helser, Katherin Hoffman, Mary Elizabeth Humke, Evelyn Ingalls, Ruth Kunerth, Mary Ellen Lynch, Mabel Morrell, Clare Pell, Louise Peterson, Marjorie Pettinger, Marjorie Puckett, Virginia Quaipe, Jean Reis, Arlene Schafroth, Peggy Schenk, Leah Scott, Gay Starrak, Katherine Taube, Harriet Werner and Ida Ruth Younkin.

The business staff, also under the supervision of Marjorie Griffin, was made up of Jane Curie, Doris Dechert, Beth Hayes, Margre Henningson, Jennie Hughes, Dorothy Kraus, Peg McGuire, Francis McTigue, Helen Miller, Gene More, Charlotte Nilsson, Lucille Plocker, Ronnie Ronningen, Dorothy Smith and Mary Frances Williams.

Marian Rahn, circulation manager, was assisted by Phyllis Berger, Doris Braden, Clara Byam, Marjorie Campbell, Kathryn Ann Dobbin, Elizabeth Eaton, May Elder, Marian Hickey, Evelyn Ingalls, Alvina Iverson, Lorene Johansen, Ruth Lee, Winifred Loomis, Alice Mae Lyons, Florence Muir, Emily Novak, Maxine Price, Winifred Royce, Betty Shoemaker, Lenore Smith, Lucy Watson and Mary E. Wilkinson.

MARJORIE GRIFFIN
Editor-in-Chief

MIRIAM RICHARDSON
Managing Editor

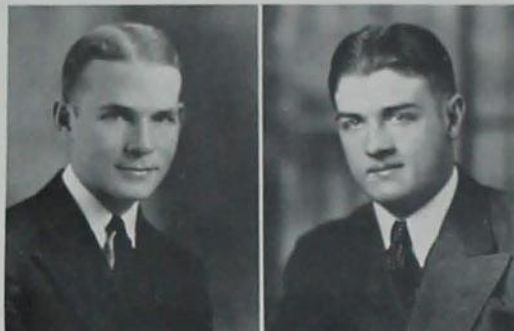

IOWA AGRICULTURIST

Serving as the "house organ" of the largest agricultural college in the world is the IOWA AGRICULTURIST. Managed entirely by students, it endeavors to give to its readers, first hand, the newest information in agricultural progress. Campus news, from the standpoint of both students and the faculty, is also given prominence.

Although the executive responsibility rests on the holders of the three major staff positions, much of the work is done by the Magazine Management class offered every quarter by the Journalism Department. Staff membership, however, is open to all who are interested.

On the editorial staff John Beckett served as editor. Associate editors throughout the year were: William

JOHN BECKETT
Editor

JACK BURRELL
Business Manager

McConnell, Cliff Briggs, Win Hanssen, Wendell Marsh, Jerry Engelman, Francis Byrnes, Wesley Kitchell, Eugene Hamilton and Professor Converse. The art editorship, a new position, was held by Jerry Engelman and the alumni editor was Burl Gall. Other official editorial staff members were John Airy, Robert Crossley, Parry Dodds, Jim Henderson, Harold Hofstrand, Clarence Kinkor, John Klas, Beatrice Leffler, Russell Medin, Lael Moon, Harold Rice, Wayne Simington, Harry Spahn and Clarence Wilson.

Jack Burrell was business manager and his assistants were Kenneth Fulk, Wayne Jackson, Jonathan Pulling, William Alexander, Darwin Larson, Joe Petersen, Nelson Fox, Jerome Smith, Robert Lawhorn, Richard Jenkins and Keith Myers.

On the circulation staff Harley Wood, Gleason Diser and Lee Bagby each served one quarter as manager. Assistants were Elias Bell, Rollin Bass, Russell Borchers, Floyd Fawcett, Lucien Harryman, Nelson Fox, Harold Held, Vincent Kelley, Paul McNutt, Dixon Moore, Henry Kling, John Rukgaber, Jay Partridge, David Willey and Allen Jauer.

In the management class, which was supervised by Prof. Blair Converse, were Lee Bagby, John Beckett, Clifford Briggs, Jack Burrell, Gleason Diser, Kenneth Fulk, Burl Gall, Win Hanssen, Robert Lawhorn, Wendell Marsh, Jerome Smith, Wayne Jackson and Jerry Engelman.

The Agriculturist Publication Board is composed of F. E. Ferguson, chairman; Prof. B. J. Firkins, Prof. J. C. Holbert, John Beckett, Jack Burrell, Harley Wood, Gleason Diser and Lee Bagby.

GREEN GANDER

Four times a year, rain or shine (usually rain, or at least cloudy) the Gander honks stridently of things often better left unsaid.

Sigma Delta Chi, professional journalism fraternity, takes the responsibility for the publication along with its sister group, Theta Sigma Phi. The societies take the financial responsibility and emoluments, if any, while the editor bears the moral castigations, usually deserving the round abuse that he receives. The officers, by tradition Sigma Delta Chi members, are: Welch Richardson, editor; Leo Mores, business manager; Bob Dodds, circulation manager.

The staff comes from the free souls about the campus, as typified by, most notably perhaps, people like Bill Hynes, Ronnie Ronningen (whose name we constantly misspell), Betty Gaylord and others of equal capabilities.

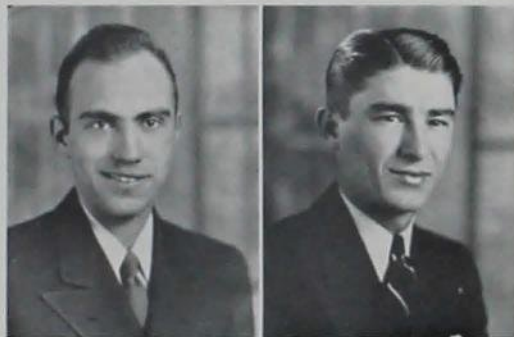

The editorial staff, in toto, include these people: Seymour Banks, Walter Barlow, Cliff Briggs, Bob Bliss, Robert Booth, Bob Dobbin, Maurice Costello, Betty Gaylord, Win Hanssen, Jane Helser, Dave Holmgren, Dick Hull, Bill Hynes, Wallace Inman, Bill Jensen, Bob Long, Wendell Marsh, Leon Prenn and Grace Ronningen.

They aren't all in the picture for the simple reason that the most of the work is assignment work and there is no closely knit organization. That many people drawn from all over the campus are hard to get hold of.

The business staff included Maurice McMurray, Dick Jenkins, Parry Dodds, Cliff Briggs, Marian Rahn and Dorothy Fedderson. Briggs and McMurray were advertising managers, Win Hanssen was exchange editor and Jack Powers was art editor.

VEISHEA

Mrs. Catt and President Friley receive the first Bombs

VEISHEA

This year's sixteenth annual Veishea does its utmost to continue the evolution of a great Iowa State College institution . . . an institution beginning as a local one-day picnic and existing today as a gala, week-end celebration attracting thousands of gay out-of-town visitors.

Chairman of the '37 Veishea Central Committee, on whose shoulders rests the destiny of the exposition, is Harold Hofstrand, from Churchs Ferry, N. D. For more than six months, he and Business Manager Don Kaser, Adel, have directed the committee in its function. Membership on this committee means work, and plenty of it. The tremendous job of getting Veishea ready for Veisheagoers is divided into departments—and each of the committee's sixteen members is head of one of

them. It's no child's play . . . there's plenty of routine work, whether it be writing reports or transporting bleachers; and each year there's new work, because Veishea changes.

Veishea is still in the process of evolution! For example, last year's exposition proved such a success that more people flocked to the campus than could be easily accommodated. Each performance of the Nite Show played to a record-breaking crowd. So, this year, we find two Nite Shows, one a Gilbert and Sullivan operetta, the other a famous 3-act play. The extensive task of coordinating the college music department and the Iowa State Players, dramatic organization, with the Veishea management, is this year entrusted to Alan McCurdy of Ames.

Each year Veishea changes to meet the desires of Veishea crowds . . . the affair is planned specifically to produce the best in real Iowa State College life and achievement.

This year—as always before—Veishea is a non-profit enterprise. So with surplus

The
Crowd
Gathers

*Here Comes
the Parade*

built up gradually through the years Veishea now cooperates with Iowa State College in presenting the campus with a beautiful memorial fountain. Situated in front of Memorial Union, this fountain and its surroundings, upon completion, will add permanent beauty to the grounds of Iowa State College.

Veishea is not merely a conglomeration of ideas for fountains, polished dramatic and musical productions, and laughing crowds. There's the manual labor of moving chairs, building platforms, keeping statistics, distributing blotters, that Addison Page, Des Moines, and his department conducts. There's the task of preparing "souvenir programs," complete mementos of the happy week-end with Iowa State, prepared this year by Des Moines' Peggy Schenk. If there's a check to be written or any sort of financial record to be kept, Charles King, Omaha, Neb., is on the job. Perhaps there's work to be done on "features" . . . well, the debate with Iowa University is such work, and it was arranged by June Gaylord, Mason City.

Max Kneedy and Jean Ripple manage the Agricultural and Homemakers' Congresses, popular attractions staged for all the people of Iowa. On and on it goes, with a central committee member in charge of each department.

The A. G. R.'s ought to know

Don Kaser and Harold Hofstrand

And the significant thing about Veishea's organization is that it does not stop with a few committee members. Responsibility and tasks are assigned to nearly every student enrolled.

This year's Veishea is not successful merely because of a few hard-working managers. It's due to hearty cooperation of all Iowa State College!

For three sunny, frolicsome days—days unbroken by traditional Veishea rains—Iowa Staters celebrated their 1936 exposition—an exposition equal to the best of the fine Veisheas of the past.

To a man, 4,000 loyal and enthusiastic students worked on the glamorous Veishea events—lively events enacted this time for a record-breaking number of guests.

Thursday—always the opening day—saw central campus alive with students, alumni and visitors attending the opening ceremonies. To Mrs. Carrie Chapman Catt, noted woman suffrage worker and alumna, and to President Friley went copies of the Bomb, which makes its debut each year at Veishea.

A speaker at the ceremonies was Wallace McKee, who was the first student general manager not so long ago. You see, Veishea is young!

Back in 1922, Veishea was first conceived by W. E. Beanblossom, then a senior in animal husbandry. It was conceived, not as Veishea—the naming was left to Prof. Frank D. (Shorty) Paine of general engineering—but as "something" that would unite the weekends-off of all divisions.

Previously, the engineers had their Irish-flavored and hilarious St. Patrick's Day. The ags had their county-fair "carnival in a sheep pasture." The hecs had their cherry-pie day.

But on May 11, 1922, all were having Veishea.

And on May 14, 1936, all were having the fifteenth Veishea.

The
"Naughty
Marietta"
cast
convenes

Climax of the 1936 Veishea festivities was the colorful parade which showed Iowa State students at work and at play. An hour before the band struck up a tune to start the floats on their way, interested spectators, craning their necks so as to see everything, lined the campus drives from the library to Memorial Union. Newspaper reporters estimated the number of people all the way from 5,000 to 16,000.

Three women fainted.

Civil engineers, by showing how the men in their profession bridge the gap between log cabins and skyscrapers, won the sweepstakes cup. Kappa Deltas, with their Miss Veishea, and Phi Deltas with their Merry-Go-Round of Knowledge, captured the sorority and fraternity prizes.

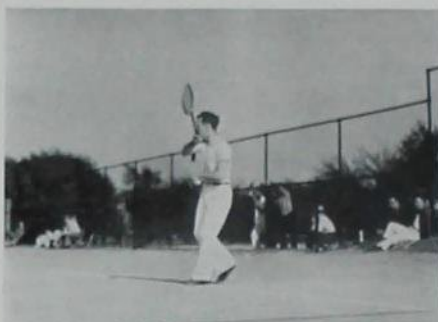

Widely acclaimed was the Alpha Gamma Rho float demonstrating the evolution of love making from the sparking of horse-and-buggy days to the necking of the jazz era to the smooching of the "Cyclone Cellar."

The open houses, which depict what the work of Iowa State graduates is like, were thronged to capacity by eager-eyed high school students, less-hurried, but equally interested older folk, and college students looking over other departments.

Home Economics coeds, of cherry pie fame, were hostesses to 6,791 visitors, an increase of nearly 1,000 over the previous high. Physics attracted 3,152 as compared with a former record of 1,800, while other open houses were filled in spite of overlapping events.

Feminine Creations

Rosebrook drives a fast one
"Scotty" wins his own ball game

The girls from Delta Delta Delta, boasting a musical leg show, captured first prize in the Student Vodvil with their chorus girls of the Student office, a clever satire on the politicians and journalists of the campus.

Tracing the history of song and dance through the ages the Spring Concert was produced by the Women's Glee Club and the women's physical education classes.

Veishea sports went Iowa State.

The men from Iowa State swept six out of seven events from their opponents, winning two baseball games from Nebraska, two polo games from Ohio State, a golf meet from Grinnell and a tennis meet from State Teachers.

College Cossacks and a swimming circus completed the Veishea sports card.

While "Stately Stands Our Alma Mater" was played on Iowa State's famed carillon, six junior and six senior men who had distinguished themselves during their college careers were tapped to Cardinal Key. Seven seniors made Mortar Board, the goal of all Iowa State women.

Long live Veishea!

Three departments held special "days." Agricultural engineers sponsored a field day, poultry husbandry students a "cake and cookie show," and dairy students a "dairy day."

Nearly 1,700 high school students attended the Agricultural and Home Economics Congresses. Many entered the competitions, while all learned useful knacks which would help them in their work and play back home.

A new feature of the fifteenth Veishea was a debate with the University of Georgia on "Resolved that the younger generation is going to the dogs." Gale Johnson and Dick Hull upheld the affirmative for Iowa State.

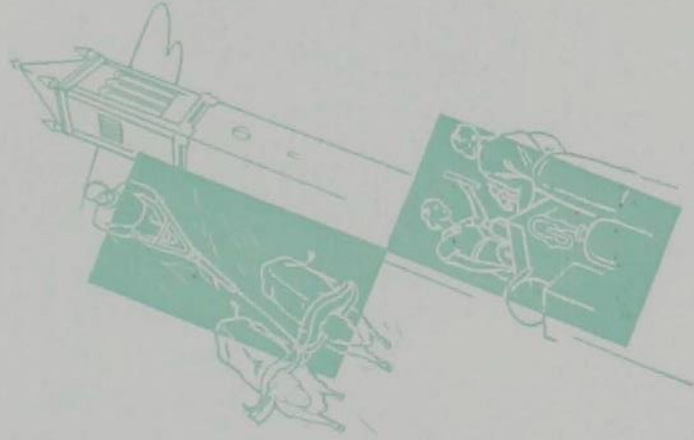

Nights were devoted to dancing to the rhythmic strains of Charlie Agnew and his band and to attending the shows (Nite Show, Spring Concert, Vodvil, etc.) produced by hard-working, talented students.

Those musically inclined were in "Naughty Marietta," Victor Herbert's operetta and the 1936 Nite Show. Leads were played by Betty Straight, Dean Horning and Bill Swett. The house was sold out.

SYMPHONY ORCHESTRA

This year the Iowa State Symphony Orchestra maintained and increased its reputation for music of a fine quality. Conscientious practice and the earnest endeavor of all its members brought the orchestra to a level that is seldom attained by such organizations in colleges.

During the fall quarter regular practices were held under the direction of Professor Edgar. Beginning winter quarter the number of practices a week was doubled, and the 75-80 members had occasion to show their worth. Audiences at Twilight Musicales, faculty convocations and special performances were entertained and proud to know that Iowa State might boast of such a polished symphony orchestra.

MEN'S GLEE CLUB

The Men's Glee Club spent an active season throughout the year 1936-37 furnishing music for their own enjoyment and for the enjoyment of others. At Christmas time, together with the Girls' Glee Club, they sang "The Messiah" to a packed hall. The men also gave numerous concerts at the Sunday evening musicales, convocations and meetings of prominent people throughout the state, and made a spring tour of mid-western cities.

GIRLS' GLEE CLUB

Under the direction of Miss Rosalind Cook, the Girls' Glee Club presented the annual Christmas Candlelight Service. During winter quarter, Great Hall was the scene of the Twilight Musicales which closed with the familiar song, "Farewell, Speedwell." The Glee Club sings for Farm and Home Week visitors, aids with Spring Concert during Veishea and presents several chapel services.

In cooperation with the Men's Glee Club the two organizations combine to form the Iowa State Choir. The choir is especially to be remembered for the presentation of "The Messiah" and at Easter time "The Crucifixion."

IOWA STATE PLAYERS

The Iowa State Players began their 1936-37 season by completely remodeling the theatre workshop to provide facilities for producing all their plays there. Once this work was complete, the players offered three major productions, leading off with George Kelley's satirical comedy, "The Torchbearers," and including Phillip Barry's "Spring Dance" and R. C. Sherriff's "Journey's End." In addition to this program of three-act plays, which furnished members and workers production experience of all sorts, two evenings of one-act plays were presented, with the express purpose of increasing the opportunities for acting experience for freshman and sophomore workers.

As an added attraction, the players were asked to repeat their fall quarter play, "The Torchbearers."

JOURNEY'S END

"The best play written for the English stage in this century," was Alexander Woolcott's opinion of R. C. Sherriff's "Journey's End." In choosing "Journey's End" for their second production of the winter quarter, the Players offered their audiences a chance to see an exceptionally fine play and secured for themselves the valuable experience of studying a literary and dramatic masterpiece.

The play deals with the World War from the British viewpoint, the single scene representing a dugout near St. Quentin, occupied by a company of British infantry. In the uncertain light of candles stuck in the necks of bottles, and against a background of battle noises, there is shown, as the action of the play unfolds, all the heroism and horror that the war occasioned. Stanhope, the company commander, receives as a replacement officer young Lieutenant Raleigh, just out from the school where, three years before, Stanhope himself had been the idol of all the younger boys, Raleigh included. The great changes in personality which three years of the worst of the war have made in Stanhope are a puzzle to Raleigh, and the misunderstanding which arises between the old friends is an important part of the tragic theme of the play.

In addition to this main clash of emotion, other conflicts appear. There is the usual question of the poor quality of the food, there is the coward who tries to desert, and there is the unnecessary raid which sends the senior officer and a number of enlisted men to their deaths—all these are written into the lines with a quiet restraint that is highly effective.

The production of "Journey's End" was also remarkable for the high degree of coordination with which the work of the scene designers and builders, the costume and make-up committees, and those in charge of properties and sound effects was fitted into the general scheme of the production.

IOWA STATE RHYTHM CLUB

A new organization on the campus this year, the Iowa State Rhythm Club, has already made itself prominent. The group is composed of the most outstanding dance orchestra members on the campus, with membership limited to 16. Each graduating senior is given the opportunity to select a man to replace himself.

The Rhythm Club played for two Twisters during the winter quarter and put on a Campus Varieties program. To encourage improvement in music, five keys are awarded to the most outstanding orchestra members in school. This year Glassburner, Kupka, McCray, Stewart and Johnston received the awards.

The Iowa State College Dairy Products Judging Team won the national butter judging title at the National Dairy Exposition held in Atlantic City, N. J., this year. Eighteen teams were entered in competition.

John Griffith was high in butter judging and was awarded a gold medal for this honor. The team placed tenth in cheese judging.

The Dairy Cattle Judging Team participated in two contests last fall—the National Dairy Cattle Congress at Waterloo, at which the team placed first on Jerseys and second on Ayrshires. Harold Hofstrand was high individual in the contest in these two classes.

At the National Dairy Show the team placed sixth in a field of twenty. Kermit Teig ranked fifth high individual in the contest.

FARM CROPS JUDGING TEAM

The Farm Crops Judging Team compiled an enviable record this year for future judging teams to shoot at in years to come. At Kansas City, in the latter part of November, the team won first place in a contest with the highest team score ever attained in such competition. Later the team continued its fine work by placing third in a national meet in Chicago early in December. The team is coached by Prof. C. S. Dorchester, who has taken a genuine and constructive interest in the team for many years.

MILITARY

R. O. T. C.

All men enrolled in Iowa State College are required to take two years of military training. After completing this they may enroll in the advanced corps for two additional years of training. On the completion of the advanced course, the graduate is qualified for a commission in the Organized Reserve Corps.

The advanced students serve as cadet officers and assist materially in the training of the freshman and sophomore students. Mechanical and civil engineers are taught the fundamentals of army engineering, and all other students are enrolled in the artillery unit.

SCABBARD AND BLADE

To the man taking advanced military, Scabbard and Blade, an honorary organization, is the culmination of four years of rigid training.

Each spring Scabbard and Blade sponsors the Military Ball, one of the most colorful dances of the year. This spring a Cadet Colonel was chosen by the organization and presented at the dance.

BETTY HOLLISTER.

PETTY 1809 COYLE WENDE CHICAGO

December 10, 1938.

Mr. E. J. Hermanson,
Editor the 1937 Bomb,
Iowa State College,
Ames, Iowa.

Dear Mr. Hermanson:

Enclosed are the four
leading Sweethearts of the Tall Corn State,
in one man's humble opinion.
And where will you find taller corn or more
Beautiful Sweethearts?

Sincerely,

A handwritten signature in dark ink, appearing to read "George B. Petty". The signature is written in a cursive style with a long, sweeping flourish extending upwards and to the right.

George B. Petty.

HONORARIES

CARDINAL KEY

Six men in scarlet robes stand motionless beneath a brilliant Iowa sun and survey the Veishea crowd before them as though searching out the faces of those they seek for membership. At length one man leaves the line and moves through the crowd till he finds a man who has been chosen for the coming year. A smart slap on the unsuspecting back and another is pledged to the ranks of Cardinal Key.

Every spring twelve men are thus "tapped" at the traditional ceremony during Veishea, six from the senior class and six juniors to become the active organization during the next year. These men are chosen on the basis of four requisites for membership in Cardinal Key—leadership, character, scholarship and service to Iowa State.

During the year 1936-37 Cardinal Key and Mortar Board sponsored two leadership conferences. The one early in the winter quarter had as its purpose a closer understanding among Iowa State campus leaders on pertinent discussion subjects. Toward the end of the quarter another such meeting was held, this time attended by leaders from other campi throughout the middle west. Prominent speakers were engaged to talk on business, religion, politics and international relations. A consensus of opinion was that this latter type of conference should be continued in the years to come as a desirable contribution to student thought.

One of the most pleasurable occasions of the year for Cardinal Key was a formal dinner given for Mortar Board at the Sigma Alpha Epsilon house. Earlier the men had been the guests of the women's honorary at a dinner in the Union. A close working relationship with Mortar Board was preserved throughout the year to the mutual benefit of both organizations.

MORTAR BOARD

Mortar Board, in cooperation with Cardinal Key, was especially active this year in sponsoring leadership conferences. At the beginning of winter quarter, representatives of all campus organizations met for discussion. The purpose of the conference was to reach a consensus of opinion on prominent campus issues. These two organizations also sponsored a mid-west conference for leadership honoraries, called "Blueprints for Tomorrow," which was built around four world issues which college graduates will face—religion, business, politics and international affairs.

Mortar Board, an honorary organization for senior women, also presided at an induction service, an official welcome for freshmen, held a homecoming luncheon for alums, initiated Monday morning messages, short sayings which rotated among the houses, and sponsored the second annual Mother's Day Luncheon for students and mothers during Veishea.

SIGMA ALPHA IOTA

Sigma Alpha Iota, professional honorary music fraternity for women, was organized to uphold the ideals of music in colleges.

This year the inter-sorority sing was sponsored by the organization, a practice which will become an annual custom. Sigma Alpha Iota holds regular meetings at which musical programs are presented and sponsors several of the twilight musicales.

ALPHA ZETA

The national agricultural honorary, Alpha Zeta, chooses its members on the basis of leadership, scholarship and outstanding ability. The organization brings into closer harmony the various departments in the division, and helps sponsor weekly convocations. It also awards a medal to the agricultural freshman with the highest average.

Alpha Zeta belongs to the junior section of the American Country Life Association.

ETA KAPPA NU

Acting as a direct stimulus on departmental activities, Eta Kappa Nu, honorary organization for electrical engineers, promotes a feeling of good fellowship. As a means of promoting scholarship, at the Honor's Day convocation an award is given by the group to the sophomore student enrolled in electrical engineering who has attained the highest average.

Eta Kappa Nu affords a professional contact among electrical engineers in the various fields. During the last two years a recognition plan to honor outstanding electrical engineering graduates of not more than ten years was inaugurated by the national organization.

PHI MU ALPHA

Phi Mu Alpha, honorary music fraternity, was established to promote a greater appreciation for music on the campus. Its members, chosen from students who have participated actively in at least five quarters of work, hold bi-weekly meetings at which there is usually some musical program presented.

The Interfraternity Sing is sponsored by Phi Mu Alpha. This year a book of college songs, including fraternity and sorority favorites, was published by the organization.

PHI UPSILON OMICRON

Phi Upsilon Omicron, professional home economics honorary for women, sold over a thousand pounds of fruit cakes this year in their annual Christmas sales. Proceeds from this sale are contributed to a loan fund for senior women.

Besides selling fruit cakes, Phi U. members arranged for the painting of the portrait of Anna E. Richardson, famed home economist, and for its hanging in Catherine MacKay Auditorium. Phi U. girls also support divisional activities, contribute to the Iowa Homemaker, and financially aid the national organization furthering their consumer education project.

SIGMA DELTA CHI

The Iowa State Chapter of Sigma Delta Chi, national professional journalism fraternity, ranked second in the national efficiency contest sponsored among chapters of the fraternity.

On March 2 the chapter presented the annual Gridiron Banquet to more than 280 faculty, townspeople, newspapermen and students. Together with Theta Sigma Phi, the journalistic group publishes the Green Gander, Iowa State humor publication.

Sigma Delta Chi each year presents a watch to the student doing the best editorial work on the campus. It also gives scholarship awards to students and has established a permanent plaque honoring journalism scholarship.

Each year a cup is presented to the newspaper in Iowa performing the best "service to agriculture in its community." The editor's picture is placed in the chapter's journalism hall of fame.

TAU BETA PI

Tau Beta Pi is to the engineer what Phi Beta Kappa is to the liberal arts student. It represents the goal of undergraduates in engineering, for it was founded to promote scholarship and achievement in engineering schools.

Each year Tau Beta Pi awards a prize to the sophomore engineer with the highest grade average. It also holds regular meetings with the faculty, and sponsors a convocation, bringing a well known outside engineer as a speaker.

THETA SIGMA PHI

To interest women students in being better journalists has been the goal of Theta Sigma Phi, professional journalistic society. The society entertained Zona Gale at a luncheon held in Memorial Union, and in cooperation with the journalism division of the Home Economics Club, entertained several campus speakers.

Theta Sigs help the Sigma Delta Chi's put out the Green Gander. Matrix Table is the annual spring banquet.

DELTA PHI DELTA

Delta Phi Delta, national art fraternity, was founded to promote art interests among college students. Its members are chosen from members of the junior and senior classes who are art majors.

In the fall Delta Phi Delta sponsored a tea for students and faculty, and exhibited the work of Christian Peterson, sculptor, the guest of honor. Members also made and sponsored the sale of Mother's Day cards.

TAU SIGMA DELTA

Tau Sigma Delta was organized at the University of Michigan as an honorary fraternity in architecture and landscape design in May, 1913. It was first known as Tau Delta Sigma and continued under that name until 1914.

Tau Sigma Delta now has twelve active chapters, the Kappa chapter being founded at Iowa State College in 1930. The purpose of the society is, "To unite in a firm bond of friendship, such students of architecture and the allied arts . . ." The members are chosen upon the approval of the faculty.

CHI DELTA PHI

Chi Delta Phi and Inkhorn are the men's and women's honorary writing fraternities. Membership is open to those who have shown a true interest in creative writing and have been recommended by the English Department.

The societies meet regularly to hear original compositions of their members, and to read current writings of prominent authors. Inkhorn offers a prize to the best piece of writing submitted by a student in an annual contest. This year many of the compositions written by members were broadcast over WOI.

OMICRON NU

Omicron Nu, honorary for women in home economics, selects its membership on the scholarship basis alone. At Christmas time the organization sold candles and also sponsored the sale of "Food for the Young Child," a book written by one of its members.

Omicron Nu encourages scholarship by awarding a medal to the freshman girl in home economics with the highest grade at the Honor's Day Convocation, and in collaboration with Phi Upsilon Omicron it sponsors Ellen H. Richards Day.

PSI CHI

Psi Chi is the national honorary for psychologists. Members, chosen from those students who have had above average grades in at least four advanced courses in psychology, meet weekly to discuss subjects related to their field. One of the most interesting meetings this year was centered around a talk on the psychology of education in the CCC camps.

Dr. M. F. Fritz, faculty advisor for the organization, was elected national president of Psi Chi for this year.

ORGANIZATIONS

A. I. CHEM. E.

The student chapter of the American Institute of Chemical Engineers was organized, not only for the purpose of acquainting its members with the recent developments in the chemical engineering industry through lectures and films, but also to further the spirit of companionship between the men of different classes. Each year the society offers an award to the sophomore chemical engineering student who exhibited the greatest proficiency in his school work during the preceding year. This year the prize was awarded jointly to Allan Erdman and Robert Dix. Activities of the society include making a Veishea float and conducting the Veishea open house for chemical engineering.

A. S. C. E.

The student chapter of the American Society of Civil Engineers hold bi-monthly meetings at which outstanding men of the civil engineering profession speak on subjects of common interest to the students.

The highlight program of the year was the meeting of January 18, when 1,500 persons heard C. Earl Webb, of the American Bridge Company, present a lecture on the construction of the San Francisco-Oakland Bay bridge, showing slides and talkies of the actual construction. Other programs of high interest were "Short Talks of Interesting Summer Experiences," by faculty members; "Inspection and Control of Materials," by Bert Myers of the Iowa Highway Commission; showing of summer camp pictures and B. K. E. banquet; talk on Bonneville Dam construction by Major H. A. Skerry; talk by and banquet held in honor of Daniel W. Mead, national A. S. C. E. president; "The Grand Central Terminal Improvement," by M. S. Coover; and the spring banquet of the society at which our own Dean of Engineering, T. R. Agg, gave a very fine talk on "The Engineer as an Expert Witness."

The student chapter sponsors a senior inspection trip to Chicago, and the civil engineering Veishea open house and parade are undertaken by this organization.

The organization was one of the twelve student chapters in the nation to receive a letter of commendation from the president of the society for work done during the year 1935-36.

AMERICAN CERAMICS SOCIETY

The student branch of the American Institute of Electrical Engineers holds two meetings each month featuring guest speakers, student papers on technical subjects of interest to electrical engineers, demonstrations and films by electrical companies and fun fests which include amateur performances and group singing. An outstanding social function of the department is the annual Electrical Engineers' Banquet.

The fall quarter officers were: Stanley Kurz, president; Maurice Kirby, vice-president; Alice Churchill, secretary; Harry Shillington, treasurer.

Those serving for the winter quarter were: William Brown, president; Philip Sproul, vice-president; Carl Knorr, secretary, and Ronald Harder, treasurer.

In order that the current problems of ceramic engineering might be studied and discussed by students in that field, the American Ceramic Society was established in the leading ceramic schools in the country.

JACK FLEMMING *President*
RALPH GROTHUSEN *Secretary-Treasurer*
MAYNARD MCHARDY *Program Chairman*

AGRICULTURAL ECONOMICS CLUB

The Agricultural Economics Club meets once each month with faculty or prominent out-of-town speakers who are in a position to acquaint them with the field of agricultural economics.

A spring picnic each year is an important social event for the year.

Officers: Roger Fleming, president; Eugene Hamilton, vice-president; Parry Dodds, secretary-treasurer; Francis Kutish and Kenneth McKinnon, Ag Council representatives.

The Agricultural Education Club, founded in 1912, is this year celebrating its twenty-fifth anniversary.

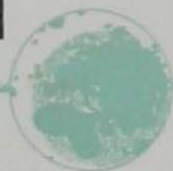

The club meets once each month for discussions and talks concerning agricultural education. There are about 70 student members and 7 faculty members.

Officers: Fall Quarter—Ralph Gruenwald, president; Vernon Mathews, vice-president; William Horr, secretary-treasurer.

Winter Quarter—Morris Christy, president; Vernon Mathews, vice-president; William Horr, secretary-treasurer.

A. S. AG. E.

The student branch of the American Society of Mechanical Engineers, a national professional society, has for its purpose the acquainting of undergraduate students with the practical side of the field of mechanical engineering.

Officers: Fall Quarter—James Codlin, chairman; Owen Garretson, vice-chairman; Robert Rae, secretary; Lowell Haas, treasurer.

Winter Quarter—William Shoemaker, chairman; Donald Arp, vice-chairman; Charles Clay, secretary; Donald Eno, treasurer.

The Iowa State College chapter of the American Society of Agricultural Engineers was awarded the Farm Equipment Institute trophy this year for being the most active student chapter in the United States.

Lawrence Skromme of the Ames chapter was elected national president of the student branches.

Last year at Veishea the first annual agricultural engineering field day was sponsored by this society. It is to be an annual affair.

Officers: Orville Fox, president; Richard Frevert, vice-president; George Dunkelberg, secretary; Charles Thomas, treasurer.

GENERAL ENGINEERING SOCIETY

Juniors and seniors of the General Engineering Department are members of the General Engineering Society. Meeting weekly for seminars, the seniors are under the direction of Prof. F. D. Paine, while the juniors are directed by Prof. J. C. Hempstead.

Officers: Darwin Soder, president; Robert Wilkes, vice-president; Sherrill Brown, secretary-treasurer; Dwight Johnson, senior Engineering Council representative; Eugene Billings, junior Engineering Council representative.

The Industrial Arts Society is a departmental organization of young men who expect to become industrial arts teachers. Weekly meetings are held which vary greatly in nature but are mainly educational. One major activity is to cooperate with other departments to arrange the Annual Education Dinner.

Officers: Lawrence Simmering, president; Orvine Schaefer, vice-president; Lawrence Peterson, secretary-treasurer.

DAIRY CLUB

To promote social and athletic relations among the students and faculty of the Dairy Industry Department, the Dairy Club was organized.

Social activities of the organization include the annual Dairy Club Banquet, held each winter at the time of the short course, and the Christmas party.

Each year the club pays half the expenses of the Dairy Judging Team. Awards are made to the members of this team.

Much of the business of the Dairy Club is handled by an executive committee which is composed of two members from each class. Two members of the club serve on the Agricultural Council each year.

At Veishea time the club conducts the open house for Dairy Industry. It is also largely responsible for the Dairy Short Course held during the winter quarter.

FORESTRY CLUB

Open to all students of the Forestry Department, the Forestry Club attempts to bring together for business and social purposes all those interested in the profession.

During the winter quarter the Forestry-Horticulture Ball was held for the first time. The annual Foresters' Hoedown took place during winter quarter. The spring banquet and the game banquet are two other important social events for members of the club.

This year saw the inauguration on this campus of the first Conservation Society of its kind in the United States. The purpose of the society is to promote conservation in all its aspects.

Thomas McLintock is editor of the Ames Forester this year. This is an annual semi-technical publication of the department. Other members of the staff are William Henry, associate editor; Clarence Kinkor and Frank Mullen, assistant editors; James Barton, art editor; Wayne Lewison, business manager; Amos Smelser, circulation manager; Joseph Smoke, assistant; Richard Snyder, advertising manager; Joseph Scaltock, assistant advertising manager; Ray B. Thomson, faculty advisor.

HORTICULTURE CLUB

The Little Midwest Horticultural Exposition, familiarly known as the Hort Show, is held each fall quarter in Catherine MacKay Auditorium by the Horticulture Club. It occurs the same weekend as the Horticulture Short Course and the annual meeting of the Iowa State Horticultural Society and affiliated organizations.

This year for the first time the Horticulture-Forestry Ball was held. Herbie Kay played for the dance.

Meetings are held twice each month. They feature out-of-town speakers who talk on horticulture and related subjects.

After the Hort Show the faculty gives recognition to about 25 of the students who have been most instrumental in making the show a success. These students are taken to Des Moines for dinner and a show. Women were included this year for the first time.

A spring picnic provides social recreation for the members.

This club sponsors the horticulture open house and the float for the Veishea parade.

POULTRY CLUB

Every student enrolled in either poultry husbandry or poultry industry at Iowa State College is a member of the Poultry Club.

The purpose of the club is to promote a closer relationship between the students and the poultry business men of the world. Through this organization, prominent out-of-town speakers are brought to the campus. The speakers are not necessarily poultry men, but men who have a broad scope on the affairs of the world.

During Veishea the Poultry Club is one of the most active organizations on the campus. At this time it stages a Baby Chick show and a cake and cookie show. After the show a sale is held each year and the displays are disposed of at public auction, the proceeds going to defray expenses of the show.

The purpose of these annual shows is to create a greater interest among the poultry breeders of Iowa, and to give the producers a chance to compare the quality of their chicks and produce with that of other poultry men of the country.

VETERINARY MEDICAL SOCIETY

Taking as its members the students and faculty of the Veterinary Division, the Veterinary Medical Society has for its purpose the discussion of all subjects relating to the veterinary profession. It is the student chapter of the American Veterinary Medical Association.

At its meetings, which are held twice each month, prominent men of the medical profession are invited to speak. These men include both faculty members and out-of-town guests.

In the fall the freshmen and the sophomores get together for a free-for-all. Both in the fall and in the spring banquets are held for members and guests. The annual Veterinary Ball was held on January 9 this year. A Christmas party and a spring picnic at which contests are held are also included in the society's social calendar.

During Veishea the organization has charge of the veterinary open house.

VISTONIAN CLUB

Organized to bring about closer relations among students, faculty and the profession, the Vistonian Club includes in its membership students and faculty of the Landscape Architecture Department.

This year the Apple-Polishers' Ball became a college affair. In other years it has been limited to members and invited guests. The decorations were surrealistic. A Belle of the Ball and a Chief Apple-Polisher were chosen.

A new system of programs was inaugurated this year by the Vistonian Club. Every two weeks speakers from among the faculty spoke to the members on furthering the status of the club and its relations to other organizations on the campus.

Nationally prominent landscape architects, city planners and architects are brought to the campus each year by the club.

COLLEGIATE PRESBYTERIAN

In so far as it is possible, the Collegiate Presbyterian Church is a student church. Under the direction of the Student Council, a varied program of religious and social activity is planned and carried out. Opportunity for service is found in teaching a Sunday School class, working with the Boy Scouts, ushering, singing in the church choir or playing in the student orchestra.

For 26 years the students of Iowa State College have played a major part in the life and organization of the church by the West Gate. They have taken their places in the administration of its affairs by serving on the Student Council and as student elders, deacons or deaconesses. Under the able guidance of the pastor, Rev. Walter Barlow, the church has become an important factor in the lives of many of the students as well as the townspeople.

WARD EXECUTIVE COUNCIL

The ward system was organized at Iowa State College in the spring of 1931 at the suggestion of Pres. R. M. Hughes by a committee representing four main lines of activity, namely, housing, intramural athletics, social life and general campus activities.

Consisting of the ward presidents and the presiding officer of each of the other councils, the Ward Executive Council is the administrative body of the ward system. Its purpose and function is to determine the general policies of the ward system.

The Ward Advisory Board was made up this year of Miss Margaret Stanton, Dean M. D. Helser, Prof. H. J. Schmidt, Prof. John B. Peterson, Jesse Jacobsen, Paul Kramer and Roger Fleming.

Every man who does not live in a fraternity house or dormitory is eligible for membership in the ward system. Each member is privileged to participate in organized social functions, organized intramural athletics and general ward activities on the campus.

WARD SOCIAL COUNCIL

Composed of the social chairmen of each ward and a representative from the Ward Executive Council, the Ward Social Council sponsors all group social activities of the wards. Of great importance to the members is the Ward Round-Up held each fall as a get-acquainted scheme for the men and for the dormitory women and town girls. The Ward Semi-Formal, held last year for the first time, was repeated this year.

OFFICERS

Y. M. C. A.

On April 29, 1937, the Iowa State YMCA celebrated its first half century of service to young men.

For a chosen handful of men, the YMCA is a major activity. In their meetings one can catch the outcropping of a sincere desire and goal in service with which no other men's organization on the campus is favored. For other hundreds the YMCA is a place for fun, rest or thought—according to the mood of the hour or day. Others—a far greater number—use the YMCA as a business aid in obtaining their education.

Ray C. Cunningham has devoted a decade of his life to making the "Y" what it is today. Harold Templeton has added much during his tenure as assistant secretary.

The YMCA is supported by the administration, faculty, townspeople and students. It is recognized as one of the outstanding of like institutions in the middlewest, an organization which any Iowa State man will find worthwhile.

An inspiration to all Christian women students, the YWCA this year extended its organization to a Freshman Y, which is to be permanent.

"Hoops and Hobbies" again proved popular among the members. At "Gab Fests" national and international problems were discussed. Faculty teas given this year were called "Appleshines." At these teas the students had an opportunity to know their instructors outside the classroom. Music hours held each Monday afternoon provided rest and relaxation for the women interested in music. Faculty, townspeople and out-of-town speakers have added much to the various programs.

Another new project started this year was the Thanksgiving vesper service which is now to be an annual affair. Dorothy Golden was in charge of this year's service, which included organ music and singing by the glee clubs.

The advisory board for this year is composed of Miss Ida May Shilling, Mrs. Madge McGlade, Mrs. Jack Finegan, Mrs. A. L. Bakke, Miss Maria Roberts and Miss Gertrude Herr.

LUTHERAN STUDENT ASSN.

The Lutheran Students' Association was organized in 1923 at Augustana College in Rock Island, Illinois. It was started on this campus in 1925. At present there are 25,000 members in prominent colleges and universities all over the United States.

The aim of the organization is to promote fellowship and personality development by association with Christian youth both on its local campus and on campi of other colleges and universities.

To further their purpose a national conference of leaders in the Lutheran Students' Association was held in Wisconsin last August. Sixty-five representatives attended.

In November, 1936, a regional conference was held at La Crosse, Wisconsin. A number of the local members attended.

DORMITORY COUNCIL

The presidents of each of the dormitories compose the Women's Dormitory Council. The group tries to make for uniformity among the dormitories by discussing problems which arise in their respective halls.

The officers are: Roberta Young, president; Ferne Whetstone, secretary; Frances Sims, faculty advisor.

FRATERNITIES

■ Bull sessions, firesides, cigars, Monday night chapter meetings..... Carefree evenings, rounds of bridge and ping-pong..... That unforgettable initiation service..... Deep-rooted friendships..... Rush week, Hell week, and above all a spirit of loyalty deeply ingrained in that which we call FRATERNITY.

BOOK FOUR

WOMEN'S PAN-HELLENIC COUNCIL

The Women's Pan-Hellenic Council regulated rushing affairs for the coming year and helped plan the new quota system. For the first time, a rushing fee for those wishing to be sorority pledges was charged by the organization, in order to aid the sororities in rushing those who were really interested.

Composed of a junior representative and the president from each organized house, the Women's Pan-Hellenic sponsored a formal dance in February and a banquet in the spring.

INTERFRATERNITY COUNCIL

The Interfraternity Council, board of directors of the fraternity system, completed with success its second year as an organization composed entirely of fraternity presidents. In its meetings every two weeks throughout the year, many problems pertaining to fraternities were solved and constructive improvements were innovated.

During the year the activities of the council included a religious convocation in the fall and the distribution of information to incoming freshmen. Winter quarter the Men's Pan-Hellenic Formal was held and a series of radio broadcasts from the fraternity houses was begun. The annual Interfraternity dinner will be held during spring quarter.

ODE TO ACACIA

*They sing to Phi Delta Theta,
They talk of Sigma Chi;
And of the dear old Betas,
Just as you and I.*

*They love to sing of the Phi Gams,
And to old Sigma Nu,
But we sing to thee dear Acacia,
For we love you.*

SONS OF ADELANTE

When the busy day is over,
And the shades of evening fall,
Then the Adelante spirit
Re-awakes within us all;
Grips the heart strings, draws us closer,
With a bond both strong and true.
'Tis the wish to keep thy mandates,
Banner of the Gold and Blue.

'Tis the wish to nobly serve thee
For thy scholarship and might;
For thy fellowship and courage
To push FORWARD in the fight.
Worthy sons of Adelante
May we ever strive to be,
Worthy of thy past and present,
Adelante, here's to thee

ALPHA CHI RHO

Founded at Trinity College 1895
Active chapters, twenty-one
Phi Tau Chapter established 1932

THE GIRL WITH GARNET LIPS

*My Alpha Chi Rho sweetheart
Is the girl that I adore.
Sweetest of all the sweethearts
That I have had before.
A vision it seems, conceived in my dreams,
And meant for me to love.
Then she came to be a reality,
The one I'm singing of.
The girl with the garnet lips
Is the girl who is sweet to me.
I love her smile and her pretty bright eyes
She's just the kind I idolize.
I asked her to wear my fraternity badge;
She answered me with a sigh:
So the girl with the garnet lips
Belongs to an Alpha Chi.*

ALPHA DELTA PI SWEETHEART SONG

*In my eyes there's a smile because I love you,
On my lips there's a kiss because I care,
Before I met you dear I dreamed of you,
You're my sweetheart and my ideal.
When these gay college days
Bring thoughts of future years
Will you wait through those years for me?
For I know my love for you
Will last forever, dear,
For you're my Alpha Delta Pi Sweetheart.*

REVERIE

*In my dreams I hold anew
Each college friendship tie.
Old campus chums pass in review
As dream wings flit them by.
From out the ranks a chosen few
Still linger close to me,
And staunch and true
As years pass through
Is my fraternity.*

THERE IS NO GIRL LIKE A K. D. GIRL

*There is no girl like a K. D. girl
With a smile like the dawn of the day,
There is no vow like a K. D. vow
That's as true as three stars they say,
For the sweetheart you love
Wears a K. D. pin
And her love is as deep as the sea,
And her heart will be yours if she swears it is
By the honor of her K. D.*

HERE'S TO PHI DELTA THETA

*Here's to Phi Delta Theta,
Long may we honor her name.
No other pledge is greater;
With true zeal and deepest fervor,
Bound until death to serve her.
Here's to our loyal comrades,
Phi Delta Theta men;
Honor is theirs, every brother who wears
The Phi Delta Theta pin.*

Fiji Honeymoon

*On a Fiji honeymoon,
In the merry month of June,
Together we will wander,
Where the honeysuckles bloom;
And we'll buy a toy balloon,
And we'll sail up to the moon,
To the land of love and kisses,
On our Fiji honeymoon.*

PHI TAU SWEETHEART

*Scotland may have her bonnie lassies,
France and England have their fair ones, too;
But the charms of all these foreign beauties,
Only make me care the more for you.
Won't you be my little Phi Tau Sweetheart?
Won't you be my little Phi Tau Girl?
Won't you let me be your Phi Tau Lover?
Wear above your heart a Phi Tau pearl?
Promise me that you will always love me,
And I'll swear that I'll ever be true;
Whisper that you'll be my Phi Tau Sweetheart;
Let me give my Phi Tau badge to you.*

THE DREAM GIRL

When the night birds are singing their love
song,
And you sit by the firelight and dream,
There's a thought of a girl
Puts your brain in a whirl,
For her eyes like the bright embers gleam;
She is fair as the heavens above her,
She is true to the trust that she bears,
For though she is far away,
She'll be yours some sweet day,
She's the Dream-Girl of Pi K A.

THE ROSE OF PI KAPPA PHI

*Oh her eyes are the stars of heaven
That shine as a lamp so bright,
Her lips are the roses' petals, which
Open their folds to the light.
Her hair is the gold of sunset as it
Fades in the western sky,
No flower that grows is like the rose,
She's the flower of Pi Kappa Phi.*

SWEETHEART OF THETA XI

*When T X men grow weary,
 Of happy rounder songs,
 There's another song and sweeter,
 That wafts the dream along.
 Our thoughts go back to sweethearts
 That girl of days gone by,
 Our dreams are always of you,
 Sweetheart of Theta Xi.*

A T H L E T I C S

■ "Tear 'em up Cyclones" resounding through the gym and across the football field. "I" Club initiations, intramural competition, swimming meets and track trips..... The stimulating spirit that keeps the college full of pep and enthusiasm is ATHLETICS.

BOOK FIVE

George F.
Veenker

DIRECTOR OF ATHLETICS

Grey tweed coats, pearl grey hats, 18-hole golf courses, strong cigars and a compelling voice, and you've got the material approach to George Veenker, Director of Athletics. A man from men's view and by the same token a man for all. Blessed with a non-paralleled sense of humor and a wit for cynics, he's a crowd favorite and a spell-binder de luxe for the boys so fortunate as to play under him. A philosophy gained in the world and polished with finesse, his imprint is indelible for those who know him. Coming to Iowa State at its lowest ebb, his effect was instantaneous. Some called him the "miracle man," but those knowing him prefer a term not suggestive of impertinence and take him to their hearts as "The Old Man."

A son of South Dakota, his college choice was Hope in Michigan. Years spent in high schools strengthened a background replete enough before his advent at Michigan U. as basketball coach. Came then his change to Iowa State to salvage a floundering gridiron system. A job well done he moved to athletic director when T. Nelson Metcalf resigned. Critics call the Iowa U. defeat, 31 to 6, the climax of his career at Iowa State. Feeling the necessity, he's retired now to directorship only, leaving in his stead his capable assistants. Grey tweed, fine wit and plans for the future, you've met George Veenker.

JIM YEAGER

Jim Yeager, who takes over the football coaching job this fall, is the youngest head football mentor in the Big Six. Coming here from Fort Hays Kansas State Teachers' College as line coach last fall, Yeager has already won the confidence and respect of everyone who knows him. He is a Kansas State alumnus.

LOUIS MENZE

Learning his technique from "Phog" Allen, Coach Louis E. Menze has passed on his training to Iowa State's basketball men in true championship form. In Jack Flemming, he has turned out the best all around basketball player Iowa State has ever had.

HUGO OTOPALIK

At both wrestling and golf Otopalik turns out winners. In 1936 Iowa State took the Big Six wrestling title. Coach Otopalik has always made the most of his material, picking up green material and making champions of them.

BOB SIMPSON

A track star himself, Bob Simpson has coached champions in every event in track. He originated the present form of high hurdles. Indoor track keeps Simpson busy in the winter and by spring his track teams are in the best form to take the Big Six titles.

JOE TRUSKOWSKI

A coach of champions is Joe E. Truskowski, "Truck" to the pupils who hold a lot of respect for their big, jovial coach. In his first two years as baseball coach at Iowa State, 1935 and 1936, Truskowski's Cyclones have won Big Six co-championships.

JAKE DAUBERT

Coach C. E. (Jake) Daubert came in 1920 and has been turning out Big Six swimming champions ever since. Besides his work with the swimming team Daubert has devoted much time to Red Cross life-saving, and to his hobby, the De Lofto troupe. He was replaced this year by Charles R. McCaffree. Iowa State will miss him.

VARSIITY "I" CLUB

In line with Iowa State's sane and healthy athletic philosophy is the Varsity "I" Club. Composed of athletes who have earned a major letter, it strives to better athletic conditions at Iowa State.

It originated as the A.A. Club while the school was still called "Ames" throughout the state, and was renamed when the letter award was changed to "I".

Promotion of pep-dances, carnivals and athletic events of intramural scope, the "I" Club has in view the betterment of athletic spirit at our school.

The club has this year launched a program designed to sell Iowa State as a school to the high school students throughout the state, using Veishea, Science Day and other such opportunities.

These 1936 Cyclone football players were home-loving boys. Not once during the season did the Iowa State eleven lose a game on State Field. Regardless of how mediocre was the performance of the Cyclones in their games away from home, they would return to their home grounds the next weekend and put on a colorful show for their student and state supporters.

Beaten by a strong Nebraska eleven at Lincoln, the Cyclones returned to State Field to whip Kansas and Cornell by big scores. Downed by Missouri down in Tigerland, the Cardinal and Gold team came back to State Field a week later to tie a highly-touted Oklahoma team. Finally, given a bad drubbing by Kansas State at Manhattan, the Cyclones spilled Drake, 21 to 7, at Ames in the final game of the season.

The high spots of the season were the thrilling tie with Oklahoma and victory over Drake. Luckily, from the standpoint

DEE
REUPKE

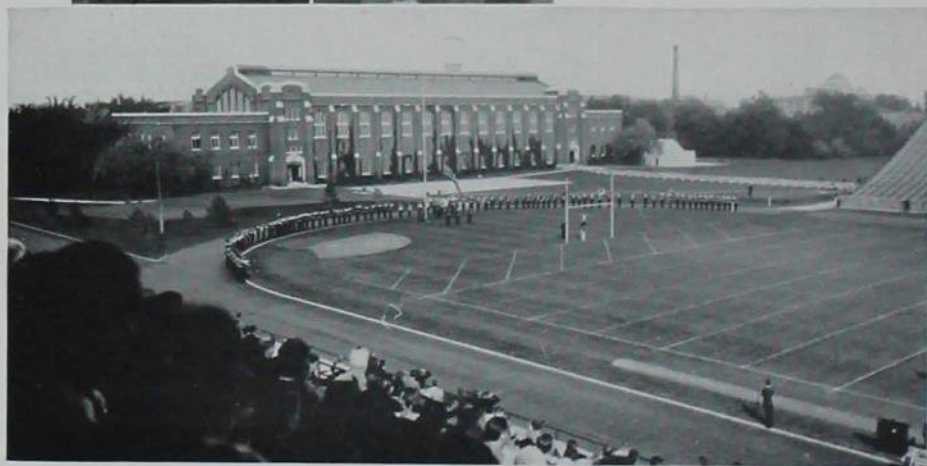

of the Iowa State students, these games were held on State Field.

Homecoming spectators were little more than seated in the stands when the Cyclones in one rapid thrust scored a touchdown against the highly touted Sooners from Oklahoma. A brilliantly-executed triple pass play counted the six points.

Rain began to fall a few moments later and the teams wallowed through the mud the rest of the game. Oklahoma's power began to tell toward the waning moments of the game, and the Sooners scored on a fake reverse by Breeden. With the score tied at 6-6 the Cyclones fought valiantly to check the Sooner drives, and barely succeeded in doing it.

A jubilant Drake crowd repeated an "I told you so" when the Bulldogs pushed over the first touchdown and extra point in the annual grudge battle with the Cyclones. By halftime, however, the Cyclones had evened the count, and by the

Iowa State's band made an impressive sight and impressive music

The boys think up a fast one as the ref looks on

time the final gun had sounded the Iowa State men had pushed over two more counters.

The results: Iowa State 21—Drake 7; a dejected Drake crowd; the Cyclones marked a brilliant finish to an otherwise mediocre season; Iowa State kept its unbeaten home record.

Early fall predictions said that the Cyclones would be fast and deceptive and would excel in their passing attack—correct. With Everett Kischer, whom Coach Veenker rates as one of the three best passers he has seen doing the passing, the Cyclones completed more than 40 percent of their aerial attempts. At the end of the season Capt. Clarence Gustine was a unanimous selection for all-conference end, while Ed Bock was on many selections at guard. Second all-conference choices were Kischer, half back, and Harold Schafroth, tackle. These four were also first all-state choices, while Tom Neal and Clarence Dee were second team choices.

The Iowa State basketball team qualifies, without reservations, for the title of the hard-luck quintet of the Big Six conference. Injuries, sickness, one or two point losses teamed with a dearth of material of Big Six caliber to deprive the fighting Cyclones of a victory in conference competition. But, never let it be said that the Cyclones didn't go down fighting. Six of their ten losses in the conference were by six points or less. Meanwhile the morale of the team was high.

Speaking of the Cyclones' morale, W. H. Browne, coach of the co-championship University of Nebraska team, paid Coach Louie Menze's a fine tribute. "You have to give that Iowa State team credit," said Browne after his team had defeated the Cyclones in the closing game to gain a share of the Big Six title. "Iowa State had not won a conference game all season. It came against us tonight with nothing at stake; it was just playing out the schedule, or should have been. But every player was bearing down just as hard as though victory meant the title. There must be wonderful morale to do that.

Moorhouse Rushmore Neumann Coach Truskowski
 Poole Diekmann Coach Menze
 Kliebenstein Johnson Roschlau Capt. Flemming Blahnik Heileman

Flemming waits for the ball to come out of a mix-up

"And there is Flemming. Well, you say it, words fail me."

Yes, the Cyclones had Flemming, Capt. Jack Flemming, the outstanding forward in this region. Page after page could be written about the basketball achievements of the Iowa State captain, but space forbids.

Anyone who saw Flemming play can attest for his greatness without examining the statistics which, incidentally, prove it conclusively. At a first glance you might get the impression that this gangling six-footer with unusually big hands is awkward. By the time he has eluded two or three guards with an elusive feint and a baffling change of pace to dribble in for an open set-up, you will have changed your mind. And, after he has piled up 13 points—his average per game last season—you'll know that here is more than just another basketball player. Defensively, too, Flemming is tops. Coach Menze says that Jack's defensive footwork is the best he's ever seen.

Now for the statistics. The Cyclone captain completed his collegiate career of 50 games in three years with an average of practically 10 points a game, 9.8 to be exact. In 10 Big Six games last season Flemming dumped in 137 points to finish in second place. In all of his 50 collegiate games, Flemming was held without a field goal only once and in this game he counted eight free throws. Out of 249 free throw attempts during the three-year period, he made good on 66 percent. His record is all the more remarkable since he was assigned to guard the best offensive man of the opposing team. Too, the opposing teams were concentrated on stopping him.

Five letter men greeted Coach Menze when the opening call for basketball material was made last fall. One of these was lost for the season through ineligibility on the eve of the first game. Only three of the letter winners, Captain Flemming, forward; Burton Thomson, center, and George Gibson, guard, were regulars last year. Two of the mainstays of the 1936 quintet which tied for fourth in the Big Six, Capt. Torvald Holmes, all-conference guard, and Jack Cowen, sharp-shooting forward, had completed their eligibility. Two more lettermen, reserves of the previous season, Maurice Johnson, speedy little guard, and Fred Poole, center, were available as was Bob Blahnik,

DIEKMANN
HEILEMAN
KLIENSTEIN
ROSCHLAU

minor letter winning forward. For the first time in years Menze had no particularly brilliant sophomore talent to depend upon.

It was evident from the start that the Cyclones would have to depend upon something besides height. Even with 6 foot 5 "Stretch" Thompson in the lineup as center, the Cyclone quintet averaged a mere 6 foot in height. With this in mind Iowa State turned its attention to the fast break with which they hoped to be able to overcome the big disadvantage in height.

For the first game, Coach Menze sent this lineup on the floor against Central College: Flemming and Blahnik, forwards; Thompson, center; Johnson and Gibson, guards. With Flemming in mid-season form the Cyclones won from the 1936 Iowa Conference champions, 37 to 30. The Iowa State captain scored 13 points for scoring honors while Stretch Thompson poured in five field goals. The contest marked the varsity debut of Diekmann, while Perkins also broke into the lineup.

After a poor start, the Cyclones rallied their forces to whip Grinnell, 39 to 26, in the second game in State Gym. Again Flemming led the scorers with 15 points, while Blahnik and Thompson made eight apiece. Roschlau got his first taste of varsity competition in this game.

Their offence failing to click, the Cyclones lost their first game to the fast-breaking Denver University five in Ames. Flemming got 10 points. The game launched the varsity career of Chuck Heileman.

On the eve of the game with Utah the Cyclones lost George Gibson, star junior back guard whom physicians warned against playing because of a weak heart. Flemming, Blahnik, Thompson, Johnson and Heilman went the full route against the Utes, winning in spectacular fashion, 40 to 27. Blahnik rung up 19 points while Flemming made 15.

The Cyclones picked a bad time to have an off night against the Minnesota Gophers, Big Ten co-champions, and the northerners triumphed 49 to 16. The Creighton jinx was still effective as the Bluejays nipped Iowa State, 33 to 28.

The Cyclones launched their disastrous Big Six campaign against Kansas State in State Gym. Paced by Burns, who made 19 points, and the towering Groves, the Wildcats won 44 to 31 in a game much closer than the score indicates. Flemming counted 14.

In another close one the Missouri Tigers triumphed 31 to 28. Trailing 17 to 6 at the half, the Cyclones rallied, but too late to pull up on the Tigers. Flemming's 15 points were not quite enough.

The tall Nebraska five had too much basket eye for the Cyclones and downed them, 45 to 33, at Lincoln in the next game. The Iowa State quintet was beginning to think that fate was against its cause when in the third nip-and-tuck game they were nosed out. Scoring 13 points in the last 3½ minutes of play, Missouri squeezed under the wire ahead of the Cyclones, 39 to 37.

In, unfortunately, their poorest showing of the year, the Cyclones dropped a one-sided game to the fast-breaking, close-guarding Drake team at Des Moines, 35 to 20. In the return game the Cyclones fought hard but couldn't quite turn the tide. The final count was 36-32. While Flemming was held to eight free throws, Blahnik counted 10 points.

After a Cyclone rally had thrown a scare into the conference leading Kansas U. team, the Jayhawks pulled away to win, 36 to 26. Blahnik again led the scoring with 9 points. In the return game at Lawrence the Jayhawks again showed too much strength and won 41 to 28.

A last half spurt gave the Oklahoma Sooners a 28 to 22 victory over the Cyclones at Norman. The Cyclones led most of the game with Blahnik and Flemming making 10 and 8 points, respectively. The former held Martin, all-conference guard, scoreless. Traveling to Manhattan, Kan., the Cyclones again found Frank Groves, all-American center, too potent and went down, 48 to 40. Flemming's 17 points didn't quite match Groves' 19.

In a whirlwind game the Oklahoma quintet nosed out the Cyclones, 48 to 42, in a real thriller in State Gym. Flemming put on probably the best performance here in years when he racked up 26 points. Nebraska had just too much height for the fighting Cyclones and triumphed, 48 to 31, here in the last game of the season. By winning this game the Huskers clinched a tie with Kansas for the Big Six title.

Ranking next to Flemming in the season's play were Bob Blahnik, hot-shooting guard, who shifted from the forward position, and Chuck Heileman, rugged football end, who improved right along all during the season.

BLAHNIK
JOHNSON
POOLE
THOMSON

1936 TRACK

STOUFER, captain-elect

"We will be 20 points weaker than last year's team," Coach Bob Simpson announced at the opening of the 1936 indoor track season. Just how correct this prediction was may be seen by a survey of the outdoor and indoor season completed last June.

Not only was the performance of the 1936 team as a whole on a par with the one of 1935, but many more individual records were set and more titles won.

No less than 15 records fell before the onslaught of the Cyclone runners, jumpers and weight men. Wayne Lyon, in his third and last year of competition in the pole vault, was the chief breaker-of-records. He set no

less than six new marks in his specialty during the season as well as topping all the Cyclone scorers with $48\frac{3}{4}$ points.

The Cyclone squad opened the 1936 season at Minneapolis, Minn., in a dual meet with the University of Minnesota. Tired after an all-night bus trip to the northern city, the Cyclones allowed the Gophers to trod over them, 66-38. Bill Stoufer won the 440 and Wayne Lyon the pole vault while the Cardinal and Gold mile relay quartet was first.

A week later the Cyclones upset the dope by out-scoring Drake, $55\frac{1}{2}$ to $48\frac{1}{2}$, in a dual meet held in Ames. Again Stoufer, Lyon and the relay team counted victories, but this time Captain Freeman, Freddy Poole, both hurdlers, and Lawrence Costigan added victories. The outcome of the meet hinged upon the result of the final event on the program, the relay, but the Cyclone quartet of Stan Christie, Jim Henderson, Bill Brown and Bill Stoufer, romped to victory to put the meet on ice.

A small Cyclone squad scored seven points and finished in fifth place in the Big Six conference championships. Lyon won the pole vault and set a new record of

Coach Simpson Witmer Henderson Fulk Poole Kooser Waite Chesworth Gruenwald
Whitmore McHardy Christie Lyon Captain Freeman Follen Minsky Capt.-elect Stoufer Brown Hoff

King Coach Simpson McHardy Bailey Capt. Stafford Capt.-elect Fulk

13' 2½" in the event, Costigan finished fourth in the shot put and the mile relay quartet, Henderson, Follen, Stoufer and Brown, finished in fourth.

Lyon was the Cyclones' only entrant at the Texas Relays early last spring. He went 13 feet to tie for fourth place in the pole vault. He was joined at the Kansas Relays by Lawrence Minsky and Captain Freeman. Lyon tied for the pole vault title with Sherm Cosgrove of Nebraska, while Minsky finished third in the javelin.

A full squad represented Iowa State at the colorful Drake Relays but only Lyon and Freeman landed in the placings. The former leaped 13 feet 6 inches to tie for third in the pole vault, while Freeman placed fourth in the high hurdles. The mile relay team of Christie, Henderson, Brown and Stoufer finished fifth.

The first outdoor dual meet was with the Missouri Tigers at Ames. After a close battle for points the Tigers ended up on top, 52²/₃ to 52¹/₃. Carrol Witmer and Bill Brown, sophomores, nearly turned the tide the Cyclones' way with double victories. Minsky provided the only record-breaking performance of the meet when he heaved the javelin 194 feet 9 inches. Al Waite set a new school record of 43 feet 9³/₄ inches in the shot put.

In the outdoor Drake-Cyclone dual, the Bulldogs caught the Cyclones napping and beat them by 12 points. The score would have been much closer had the Iowa State relay team's victory been allowed. The Cyclone hurdling duo of Poole and Freeman won the hurdles, Bill Stoufer won the 440, Lyon the pole vault, Minsky the javelin and Al Waite the shot put.

Scoring 22 points in the indoor conference meet at Lincoln, Neb., the Cyclones landed in fifth place. Thirteen of the Cyclones placed. Minsky successfully defended his javelin title with a toss of 183 feet. Lyon finished second in the pole vault, while Stoufer ran a beautiful race to finish third in the 440. Waite finished third in the shot put while Poole ran fourth in the high hurdles. Both the Cyclone mile and half mile relay quartets finished in fourth place. Fifts were won by Bill Brown in the 220 and the broad jump, Henry Hoff in the pole vault, and by Bob Freeman in the high hurdles.

In the state college meet held in Ames again the Cyclones trailed Drake and Iowa, but three individual victories for the Iowa State athletes were bright spots of the meet. Lyon won and set a new state record of 13 feet 3½ inches in the pole vault, Minsky heaved the javelin 195 feet 8¾ inches for first place and the Cyclone mile relay four was champion.

Four Cyclones, Lyon, Freeman, Minsky and Stoufer, competed in the National Collegiate meet at Chicago in June of 1936. Minsky became the first Cyclone since 1933 to finish among the place winners. He heaved the javelin 196 feet 3 inches to take sixth place. Lyon's leap of 13 feet 3 inches in the pole vault put him only one position below the place winners.

Big Six Champions

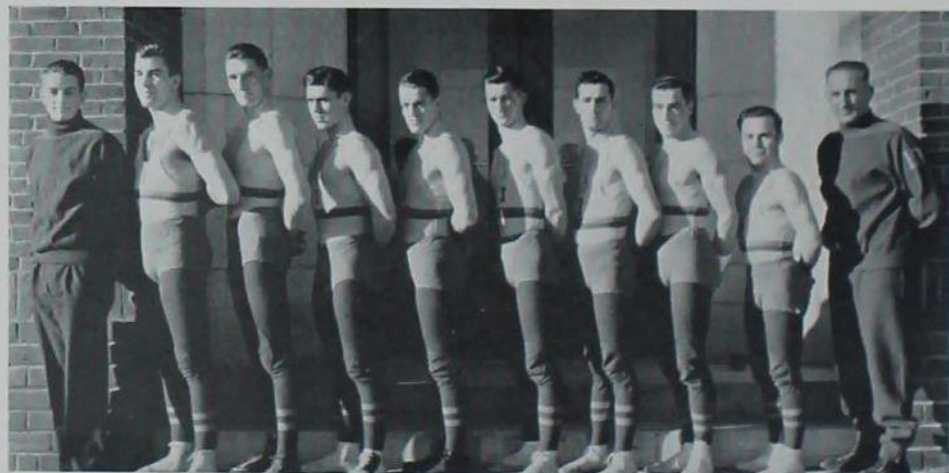

Big Six champions—this is the title that is proudly borne by the Cyclone wrestlers after their surprising victory over Oklahoma and Kansas State early in March.

The winning of the Big Six title came as a climax to a thoroughly successful season in which the Cyclone grapplers won six meets, lost two and tied one. The home wrestling fans were treated to some fine wrestling as the Cyclones performed in a fashion reminiscent of the days of 1933 and previously when Iowa State swept to national supremacy in the grappling sport.

Two Cyclones, George Haynes, sophomore 118-pounder, and Al Stoecker, junior heavyweight, won individual Big Six titles. Winning runnerup positions for Iowa State in the Big Six were Capt. Lawrence Hamilton, 126; John Kirstein, 135; Frank Linn, 145, and Gene Farrell, 155. Royce Cox, 165, and Guy Henderson, 175, won third places. In addition to his second place in the Big Six, Farrell won third place in the National Collegiate 165-pound division.

For the first time in history the Cyclones competed in two meets before Christmas, going on a tour through Illinois. On a Friday night the Cyclones overwhelmed Northwestern, 21 to 11, but the next afternoon they lost to Illinois' veteran team by the same score. Frank Linn, 145-pounder, won both of his matches, as did Royce Cox, 155-pound sophomore. George Haynes, Lawrence Hamilton and John Kirstein also won their matches at Northwestern.

Mgr. Rowe Stoecker Henderson Cox Farrell Kirstein Capt. Hamilton Capt.-elect Linn Haynes
Coach Otopalk

Royce Cox Gene Farrell Capt. Lawrence Hamilton George Haynes
 Guy Henderson John Kirstein Captain-elect Frank Linn Al Stoecker

Weakened by an influenza epidemic, the Cyclones were able to only nose out the State Teachers, 16½ to 15½. Iowa State won three of the eight classes, all of them by falls, while one match ended in a draw. Haynes, Hamilton and Farrell threw their Tutor opponents while Henderson wrestled his man to a draw. A week later the Cyclones overwhelmed a strong Kansas State team, 20½ to 7½, in State Gymnasium. Linn returned to his winning ways as he won by a fall. Henderson also scored a fall, while Haynes, Hamilton and Stoecker won decisions, and Kirstein gained a draw.

It seemed as if all the breaks went against the Cardinal and Gold grapplers as they battled to a tie with the University of Nebraska team at Lincoln. Linn won his match by a fall, while Stoecker, Cox and Kirstein won decisions.

George Martin, national champion for the Cyclones in 1933, brought his University of Wisconsin wrestlers to face Iowa State in its next match and the Badgers went home with a 29 to 5 defeat. Haynes, Kirstein, Cox and Henderson won falls, while Stoecker, Hamilton and Linn won decisions.

In their second loss of the season, the Cyclones bowed to a powerful Minnesota team, 17 to 11. Linn won a fall, Hamilton a decision, and Kirstein and Haynes wrestled to a deadlock with their opponents for Iowa State's points.

The Cyclones finished their home season in spectacular fashion as they downed Missouri, 32 to 0, and Iowa, 24½ to 7½, within four days' time. The Cyclone grapplers won eight falls out of sixteen matches in the two meets. In the Tiger match, Haynes opened the meet with a 5-minute fall. Hamilton and Kirstein won by decisions and then Linn added another fall to the Cyclone total. Cox won a decision, Farrell and Hahn won falls and Stoecker climaxed a perfect evening with a decision over Missouri's stout heavyweight.

Three days later the Cyclones kept a big crowd on its feet most of the evening as they downed the University of Iowa team in a thrilling manner. Haynes again opened the proceedings with a fall. Hamilton won a decision over Maland of Iowa, who had won 38 matches in a row previous to this, and Kirstein fought to a draw with the Iowa captain. Then came three falls in quick succession. Linn, Cox and Farrell tossed their opponents to a total time of 7 minutes. Iowa's two heavier weight entrants won decisions to bring their total to 7½ for the meet.

The rise of Iowa State in Midwestern collegiate baseball circles, launched in 1935, took another forward step last spring. The 1936 Cyclone nine, the second Iowa State club coached by Joe Truskowski, won the co-championship of the Big Six conference for the second consecutive season, winning all of its loop games. The co-champions of the circuit, Oklahoma, played only five Big Six games, these within a week's time.

Pacing the Cyclones through the season was Capt. Torvald "Fat" Holmes, the number one pitcher of the Big Six conference. Holmes pitched victories in all seven of his games. In the 56 innings he hurled, he was touched for only 35 hits and 16 runs. In addition he batted .269 for the season. Sharing the hurling duties with Holmes was Bob Scott, who won three out of four.

Iowa State 8—Simpson 0: With Capt. Torvald Holmes limiting the Simpson nine to

two hits, the Cyclones shut out the Methodists, 8 to 0, in the season's opener on State Field. Maurice Johnson led the hitters with three safe blows, one a double, and three runs.

Iowa State 13—Nebraska 8: The Cyclones successfully opened their Big Six conference baseball campaign when they downed the Cornhusker nine, 13 to 8, at Lincoln in a loosely played game. The Cyclones had a big fifth inning, collecting five runs without a single hit.

Iowa State 7—Nebraska 4: Captain Holmes the following day took over the mound assignment and, limiting the Huskers to five hits, pitched the Cyclones to a 7-4 victory. Maurice London collected three hits in four trips to the plate.

Iowa State 14—Kansas State 11: In one of the wildest baseball games ever played by a Cyclone nine, Iowa State won its fifth straight game, a 10-inning, 14 to 11 victory over Kansas State at Manhattan. Each team made 15 hits but the Wildcats made 11 errors compared with four miscues for the Cyclones.

Although Bob Scott pitched nine innings, Holmes was credited with the victory after he fanned three Wildcat batters in the last half of the tenth.

Iowa State 8—Kansas State 3: The Cyclones downed the Wildcats, 8 to 3, in the second game of the series. Captain Holmes limited the Kansas State nine to seven hits. The Cyclones scored five of their runs in the fourth inning from the same number of hits.

Iowa State 6—Missouri 5: Clarence Gustine, Cyclone left fielder, smashed out a home run in the last half of the eleventh inning on State Field to give Iowa State a 6 to 5 victory in the first of a two-game series with Missouri, and at the same time stretch the consecutive wins of the conference-leading Cyclones to seven. The Cyclones executed three double plays: Snell to Neal, Scott to Snell to Neal, and Neal unassisted. Bob Scott was the winning pitcher.

Iowa State 6—Missouri 5: Only through a late rally was the Iowa State nine able to squeeze out a 6 to 5 victory over Missouri in the second game of the series and keep its slate clean. It remained for a pair of substitutes, Dick McWilliams and Ken McKinnon, to pull the Cyclones through to victory after they trailed 5 to 0 going into the seventh inning. Holmes, on the mound for Iowa State, allowed, but five hits and struck out six men.

Iowa State 10—Nebraska 3: The murderous bats of the Cyclones collected 14 hits off a trio of Nebraska pitchers and won the first of a two-game series with Nebraska, 10 to 3, as a feature of the annual Veishea celebration. Bob Scott hurled seven-hit ball for the Cyclones.

Iowa State 8—Nebraska 2: The Cyclones won their tenth straight game, their eighth and final conference encounter, to clinch a tie with Oklahoma for the Big Six baseball title in a one-sided, 8 to 2 triumph over Nebraska.

| Second in Midwest A. A. U. | | |
| Second in Big Six | | |

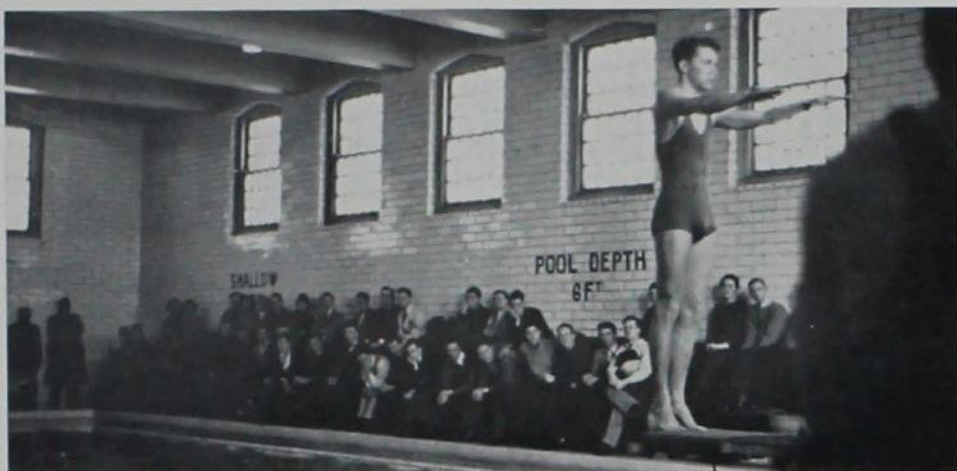

Several outstanding individual performances and a second place in the Big Six marked the Cyclones' 1937 swimming season. Headed by Capt. Bob Burkett and a pair of Canal Zone students, Bob Wempe and George Haldeman, the Cyclone tank men won two and lost one dual meet and finished second in the Midwest A. A. U. and Big Six meets.

The Cyclone mermen opened the 1937 season by winning second place in the Midwest A. A. U. championships ahead of such teams as the University of Nebraska and the Lincoln YMCA. The Omaha Athletic Club won first place. The Cyclone 440-yard relay team—Bob Wempe, Bob Roberts, Bob Burkett and George Haldeman—took second. The medley relay team of Jim Noland, Bill Helscher and Burkett was first.

Wempe was first in the 200- and third in the 500-yard free style. Burkett was second in the 200, while Ferguson was fourth in both the 200 and 400.

Schwane Roberts Egenes Noland Conrad Wempe Ralya
Coach Daubert Cochran Harris Haldeman Burkett Ferguson

Iowa State tankmen came through a long season in fine style

In the second meet, held in State Gym, the Cyclones downed Gustavus Adolphus, 47 to 36. Haapanieni, the Gusties' student coach, won three firsts for the losers. Jim Noland won both the 150-yard back stroke and the fancy diving event. The 400-yard relay team of Bob Wempe, Bob Roberts, Hubert Egenes and Bob Burkett won first as did the 300-yard relay quartet of Bill Helscher, George Haldeman and Bob Burkett. Keith Cochran, Dwight Bovey and John Ferguson also broke into the scoring column for Iowa State.

Displaying by far their best form of the season, the Cyclones downed Carleton college a week later by a count of 55 to 20. The Cyclones splashed to first places in seven of the nine events. Two pool records were shattered. Capt. Bob Burkett swam the 220-yard free style in 2:21.6, .4 of a second better than the pool record and also below the previous varsity record. George Haldeman, Canal Zone sophomore, tore off the 100-yard free style in 55.8 seconds to set a new pool standard and tie Burkett's varsity record.

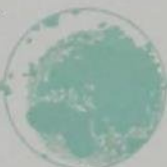

Again Jim Noland was a double winner as he annexed the back stroke and fancy diving titles. The Cyclones' relay teams—Helscher, Haldeman and Roberts in the medley, and Egenes, Ferguson, Noland and Burkett in the 440-yard—were first place winners, also. Garbisch of Carleton nosed out Bob Wempe for first place in the 440-yard free style.

In a meet in which Nebraska won every first place and bettered five of the existing Big Six records, the Cornhuskers overwhelmed the Cyclones, 53 to 22, in a meet at Lincoln. With Capt. Bob Burkett out of the lineup because of sickness, the best the Cyclones were able to do was six seconds and four thirds.

The Big Six meet was held a week later in State Gymnasium. Although Nebraska was favored to win in a walk-away, the Cyclones made it a closer race than was anticipated. Though the Huskers' margin of victory was 58 to 36, if each of the Cyclone swimmers would have been given one single stroke more the count might have been reversed.

Capt. Bob Burkett, competing his third year of Big Six competition, put on a fine performance, as did sophomore Haldeman. Burkett finished a close second in both the 100- and 220-yard free style races and swam a fast lap on the 440-yard relay team. Haldeman set a new conference record of 2:36.6 in the preliminaries of the 200-yard breast stroke but was nosed out of first place in the finals. The Cyclone sophomore also won thirds in the 60- and 100-yard dashes.

Wempe won second in the 440 and third in the 220 and in the back stroke. Harris was third in diving, Cochran was third in the breast stroke and Ferguson was fourth in the 440. Both of the Cyclone relay teams—Noland, Cochran and Egenes in the medley, and Roberts, Ferguson, Burkett and Egenes in the 400—were second.

1936 POLO

Although not as Cyclonic as their 1935 predecessors, the 1936 Iowa State College polo aces successfully retained the Midwest circuit title.

Despite a pair of losses to Missouri, the Cyclone mallet swingers again won the right to wear the Midwest crown last spring. With only spring games counting toward the title, the Cyclones came through with a higher percentage than their southern rivals, the Missouri Tigers.

Two victories over Illinois and a pair at the expense of Ohio State, together with a single triumph over Missouri, placed the Cyclones at the top of the heap with a percentage of .715.

The final Midwest circuit standings for 1936:

| | Won | Lost | Pct. |
|------------------|-----|------|------|
| Iowa State | 5 | 2 | .715 |
| Missouri | 4 | 3 | .572 |
| Illinois | 2 | 4 | .333 |
| Ohio State | 2 | 4 | .333 |

The Tigers lost one game to each conference opponent. Illinois and Ohio State split a series between themselves, while each also broke even with Missouri. Neither the Illini nor the Buckeye riders were able to take the measure of the Cyclone riders.

The season was opened with an indoor winter game with Illinois. The Cardinal and Gold four got off on the right foot by winning this one.

A lone goal supplied the narrow margin of triumph as Capt John Lewis' Cyclone poloists snatched a last-minute 12½ to 11½ victory from a hard-riding Illinois trio on May 2. The game was played in the Armory under indoor rules because of the wet grounds outside.

The game, marked by untimely fouls by the Illini, was hard-fought throughout. Illinois took an early lead which the Cyclones soon overcame. A late Illini rally, however, threatened to turn the tide.

Cyclone poloists showed Midwestern opponents how the game is played

It's a rough game at times, but the spectators like it

Inspired by the stellar play of Capt. Bill Herrmann, who turned in the most spectacular game of his career, the Iowa State quartet christened its new field with a barrage of brilliant performances that swept Missouri before a steady rush of Cyclonic power. The final count was 11 to 6.

Herrmann's five goals were nearly enough to net a Cyclone victory, but the brilliant work of Max Gutshall, Dick Dilworth, Bayard Scott and Don MacArthur contributed in no small measure to the Tiger rout. Bill Fluallen, Jack Burrell and Chet Guthrie also broke into the lineup.

It was just a case of locking the barn after the horse has been stolen in the polo fiasco in which Missouri evened the score with Iowa State in the second game of the series. A Missouri lead established against the Cyclone reserves was too much for the Cyclone regulars to overcome when they made their belated entrance and the final score was 6 to 5 in the Tigers' favor.

The Tigers scored thrice in the first chukker and at the half led, 5-2. A Cyclone rally was thwarted by the brilliant defensive play of Dorsey Bass.

Captain Lewis' Cyclone polo four swept to a double win over Ohio State, 9 to 5 and 7 to 5 in a pair of thrilling games during Veishea. While the former match disclosed more polo, it was the latter affair which gave the Veishea customers their money's worth.

Iowa State copped the first game on Thursday by grabbing a 4 to 1 lead in the first chukker. From that time on the Buckeyes never threatened. The Ohio State four took an early lead in Saturday's game, led 2 to 1 at the end of the first chukker and 3 to 2 at half time. Scott and Don MacArthur put the Cyclones into the lead 4 to 3 going into the last chukker only to have the visitors knot the count. Captain Herrmann scored a goal and two fouls to ice the game. Herrmann and MacArthur, playing their final home games, played brilliantly.

To wind up the season the Cyclones traveled to Columbia, Mo., to meet the Tigers in a hastily-scheduled rubber game. The Missouri four scored a 4 to 3 upset victory but the results of previous games in the Midwest circuit allowed the Cyclones to keep their loop lead.

COSSACKS

The Iowa State College Cossacks is the only student organization of its kind in the United States. They feature bareback riding, facing front or rear.

The organization has an interesting beginning here at Iowa State. The first group was organized in 1928 by Lieut. H. M. Jones, who was at that time a member of the military staff at this school. When a small boy he had seen an army "monkey-drill" team performing at Fort Meyer, Va. Here at Iowa State while reminiscing with Sgt. Henry Scanlon it was brought out that Sgt. Scanlon had been a member of the Fort Meyer team seen by the lieutenant.

As a result of this conversation the idea of having a college "monkey-drill" came to Jones. In 1928 the first group was called together with Lieut. Jones acting as coach. At that time the group was called the "monkey-drill" team.

The first "monkey-drill" team consisted of only 7 horses and 14 riders. In the spring of 1931 the members chose the name, "College Cossacks" for the team, elected officers and elected one of the members to act as captain to supervise practice and performances. The ROTC horses used in the act are all trained by members of the Cossacks. The group gives exhibitions at the Military Circus and Veishea every year.

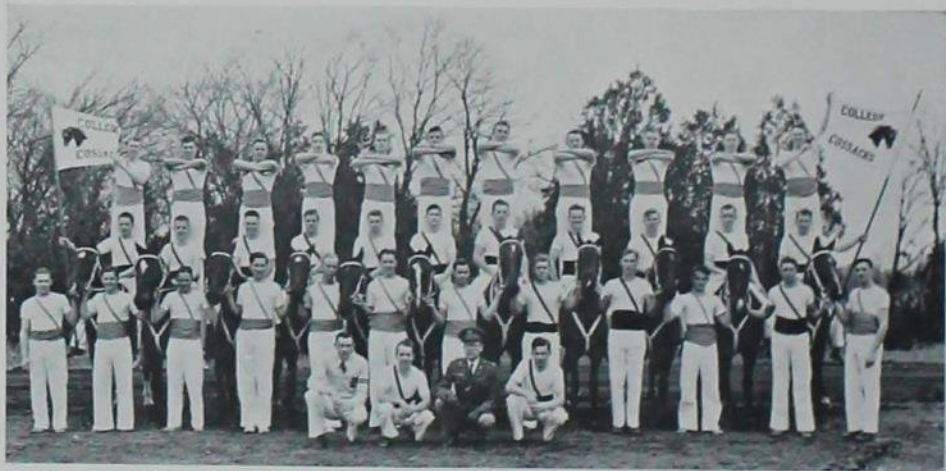

Today the full team consists of 20 horses, 40 Cossacks, 2 guidons who lead the troupe and act as pace-setters. The aims of the organization are to provide an extra-curricular activity, to remain self supporting and to provide training in acrobatics and horsemanship.

Captain J. B. Matlack has been coach of the Cossacks for the past four years. Acting captain of the organization is Charles Hanna.

| Iowa State..... | 6 | —Nebraska | 12 |

Under the leadership of Capt. Harlan Anderson the Iowa State golf team emerged from the 1936 season with a record of three wins in seven dual meets and a fourth place ranking in the Big Six tournament.

The University of Iowa proved a tough opening opponent for Coach Hugo Otopalik's Cyclones and they came out on the short end of a 16 to 2 score at the Hyperion Club course. Though the score seemed to indicate a one-sided affair, it was far from such. In most cases the Cyclone defeats were due to inexperience.

A second disastrous defeat, this time at the hands of a fine University of Nebraska team, 17 to 1, at Wakonda Club in Des Moines marred the following contest. The only bright spot was a 110-yard hole-in-one by Dillon Turney.

By decisively trimming Grinnell College on the Des Moines Country Club course the Cyclone club-wielders won their first dual victory of the year, 16½ to 1½. Captain Anderson was low scorer with a 76 and Bob Bauge and Dillon tied for second with 78's.

At Northfield, Minn., the Cyclone golfers swung their way to a 12½ to 5½ victory over Carleton College. Iowa State's most able performers were Bob Bauge and Dillon Turney, who took three points each on match pairings and then teamed with MacRae and Captain Anderson to earn five more in best ball play.

Playing hosts to the Grinnell squad on the Country Club course the Cyclone mashie-wielders proved their supremacy for the second time by a 17 to 1 margin. Dillon Turney and John MacRae both whitewashed their Pioneer opponents and then teamed with Anderson and Bauge to shut out their challengers. MacRae of Iowa State was low man with a medal score of 77.

For the second time the Nebraska Big Six co-champions downed the Cyclone quartet 12 to 6. Captain Anderson shot a 77, and Bauge and Turney won their foursome, 3 to 0.

| EUGENE ROSEBROOK | | | |

Annually the tennis squads at Iowa State show constant improvement and at the rate they are now progressing it won't be long until the Cyclones will be a real threat to anyone's club.

The first match of the season found State's men battling Coe's veterans and a tricky wind, which combined to defeat the Cyclones, 6-2. Two weeks later in a return match at Cedar Rapids the Iowa State netsters evened the score with a 5-1 victory.

The day following the first Coe match saw Iowa State in a 4 to 2 victory over the veteran Nebraska team. Capt. Frank Brown, George Graves and Carl Paysan won singles matches and Gene Rosebrook and Carl Paysan the doubles to account for the Cyclones' points. In the last dual match of the season at Lincoln, the Huskers gained partial revenge by holding the Cyclone racqueteers to a 3 to 3 tie.

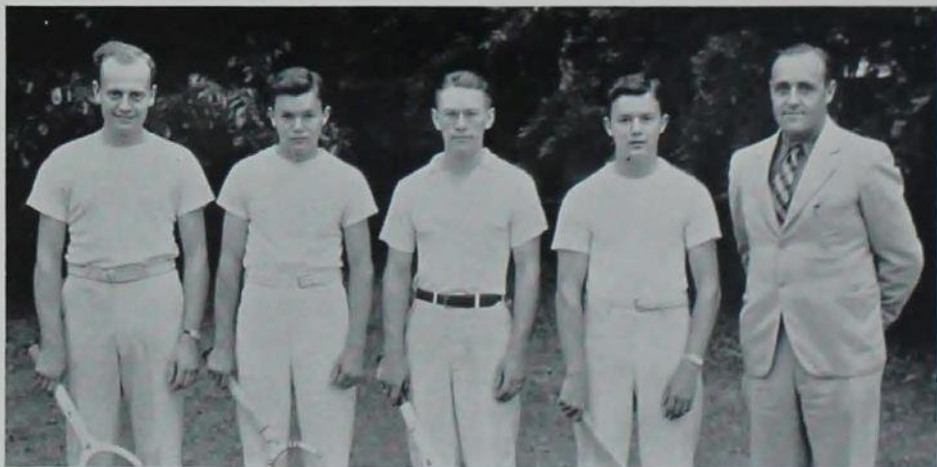

The third match of the season was a setback at the hands of Drake, 4 to 2, at Des Moines. The Bulldogs took both the doubles and two of the singles matches. Later in the season the Cyclone court artists drubbed the Drake team, 5 to 1. Paul Annear, Drake star, was the only Bulldog to salvage a victory from the fighting Cyclones.

At mid-season Iowa State traveled north to meet Carleton and Gustavus Adolphus. The Carls proved another stepping stone as they were defeated 4 to 2.

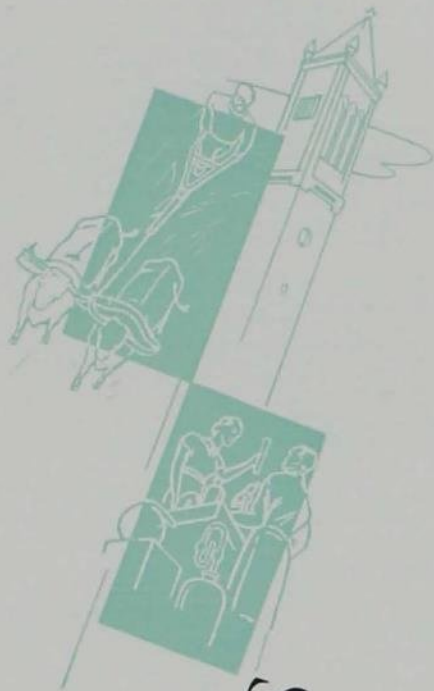

Veishea, to State's netsters, meant two whitewashings—one to their credit and one in red ink. Friday's contest with Iowa State Teachers proved to be little more than a warmup, none of the matches going to more than two sets. Apparently the warmup was disconcerting, for the following day a powerful Iowa U. aggregation completely outclassed the Cyclones.

At the close of the '36 season Iowa State's netsters traveled to Lincoln, Neb., and the Big Six meet. Through the efforts of Frank Brown, Iowa State broke into the scoring column and copped fifth place. George Graves, Cyclone No. 1 man, had the ill fortune to draw the Oklahoma champion in the first round.

INTRAMURALS

The basic idea of athletics, play, recreation and exercise for all is exemplified in the intramural program at Iowa State College. The well-rounded program directed by Harry Schmidt is held in high esteem throughout physical education circles of the nation. The program drew these comments by Prof. Richard Beckman of the Technical Journalism Department in the *March Alumnus*.

"When you dig into the statistics of a college athletic department and discover that more than three-fourths of the boys in that college are taking part in organized sport, voluntarily, you can come to only one conclusion—that there must be something real and solid to this business of intramural athletics . . .

"What a puny thing the intramural scheme of twenty years ago was as compared to its husky brother of today. Three-fourths of the men in college—77 percent to be exact—taking part in some form of sport. . .

"The objectives of the intramural program are, in the words of George F. Veenker, director of athletics, 'fun, friendship and health.' . . . One thing that is particularly noticeable in the program is the number of sports that have a 'carry-over' value, such as bowling, volleyball, handball and softball."

Nine sports in which over 1,200 men competed was on the fall quarter program. A total of 900 men representing 66 teams competed in touch football, the major sport. A fraternity freshman group, Phi Delta Theta, pulled an upset by winning the all-college championship.

Last winter over 1,400 men competed in basketball alone while several other men competed in one of the other 10 winter sports. Tau Kappa Epsilon for the second consecutive year annexed the all-campus cage title.

BOOK SIX

...I AM BORN AND PRETTY SOON I HUSTLE OFF TO THE STATE COLLEGE OF AGRICULTURE AND MECHANICAL ARTS.. PA TELLS ME ITS 'BOUT AS BIG A PLACE AS I'LL EVER GET INTO, BUT THEY'LL BE A **COUNSELOR** IN JUNIOR COLLEGE AND AN **ADVISOR** AFTER THAT, SO EVERYTHING WILL BE HUNKY-DORY ...**ALSO** SAYS HOW I BETTER KEEP AN EYE PEELED FOR MEMBERS OF OUR **FAMILY** AROUND SCHOOL, BECAUSE THEY'S THICK AS **ALL HELL** AT AMES - THE WHOLE COUNTRY FOR THAT MATTER ... I SAY SURE I WILL, AND HE GIVES ME THE NAMES OF 50-60 IN THE AMES BRANCH OF THE **FAMILY** TO BE SURE AND LOOK UP JUST FOR A STARTER I FIGURE ON GOING BACK TO OSCEOLA COUNTY PRETTY SOON.

JOHN CARBERSON - WHO WROTE IT...
GENE ROSEBROOK - WHO DREW IT...
THE BOMB STAFF - WHO ALLOWED IT...

Pa Says, "Son, Pick Up a Smattering of Sanscrit . . ."

It was raining fit to bust and the lightning was cutting across the sky something awful. It sure was a sight. All of a sudden I was born, and Pa, when he saw I was a boy, let out a holler you could hear 'bout as far as Ocheyedon. Blew the fire in the fireplace out, but soon as Mom got it lit again Pa picked me up on his knee and said I looked like I'd be a good strong kid as soon as I got my growth, and be an asset to the Family.

I'll never forget that night as long as I live, on account of Pa told me a lot of things about the heritage of our Family. Said we reached 'way back to George Washington, and by now was spread over 'bout all the U. S. A. Said 'bout everybody of any account was one of the Family, on one side or other.

"You little runt," he says, and people all over the county said later they heard him giggle. But I came right back at him with how I wasn't so little (though in those days I hadn't begun to fill out yet, and only weighed about 320-30, and was about seven feet in my stocking feet), and mentioned the day before, when I'd broken the neck on Mom's favorite milk-cow. When I told him about that you could see he was pleased as Punch.

Pretty soon he sobered up, though, and I figured he had something pretty serious and important up his sleeve.

"Son," he bellered, sort of brushing away a tear before it lit on me and hurt (might have drowned me otherwise 'cause I was just a little fellow), "tomorrow morning I'm taking you down to the State College of Agriculture and Mechanic Arts to get you an education. There's lots of the Family down at Ames, and I can fix it up for you to stay at Chuck Friley's house until you sort of get settled. Chuck's a second cousin on your mother's side. Texas branch. You can join one of those fraternities and probably meet some more relations.

"I want you to pick up a smattering of Latin and Greek and Sanscrit and philosophy and theology and French and theory and applied mechanics and steam and grease and genetics and military theory and English and journalism and biology and chemistry and physics and economics and sociology and foods and nutrition and dietetics and even a little child development, textiles and interior decoration and if possible a Malacca walking-stick.

"Knowledge of the teachings of Homer and Diogenes and Methuselah and Aristotle and Agassiz and Newton and Darwin and T. L. Cook and L. B. Schmidt and Tru Manning and Bill Schramper and Blair Converse and Dean Agg and Chuck Friley and Doc Gaskill and Bertrand Russell and Leon Trotsky and Shakespeare and Esther L. Cooper and Gowens and Allen and Anderson and Jones and F. E. Brown and numerous others will give you a good foundation to build on when you get out into the world and start continuing for the Family."

Went on to say it would seem a little strange at first, being away from home, but I'd be looked after pretty well. Said there was no drinking at the college, and there would be counselors to be regular Pas to me.

Said to be sure and not forget about keeping an eye peeled for members of the family, because they was thick as hell in Ames. Said I could tell right away if they was related to me, 'cause if they was they'd be famous or outstanding, one or other, or vice versa. He gave me the names of 50-60 just for a starter to look up and tell how the Osceola branch of us was coming along. We always had stuck together and been interested in our kin.

Next morning bright and early we started jogging south, and 'bout noon we pulled into Ames. I was a little winded, but Pa just left me at Dr. Chuck's front door and turned around and started jogging home. He was getting hungry, he said, and wanted to get back in time for supper. I never did see such a man for running. Never believed in these automobiles, because they were more expensive than by foot.

I gave my luggage a hitch up on my back after Pa set it down and walked up to cousin Chuck's front door, whistling a strain from Pagliacci Pa had taught me on the way down.

T H E I Q U I T

Some Saints, and Why

(These people are all from one branch or other of the Family, just like Pa told me it would be. I owe most of them money.)

One night 'bout two months after Pa leaves me on Dr. Chuck's doorstep I see this Stella M. Brinkman pirouetting and curtsying and buck-and-winging at one of these Iowa State College dances I been reading about in the papers before coming down here. I figure there is something sort of familiar about her, so ask her if maybe she isn't from say the Rolfe branch of the Family. Sure enough, she is. And I admit she has conducted herself like one of us . . . conscientious, intelligent, comely, tasty, and with a noticeable hankering for outside activities, as the boys call them. She has exhibited considerable talent in social graces also. According to Pa, though, who tells me considerable about the teachings of Galileo and others, she is a Perfectionist. Last summer she spends the entire vacation improving her posture and stance and carriage by walking around home with a book balanced on her head.

Charles (Chick-Moose) Jensen, who is a large fellow from the Perry branch (they split off from the rest of us 'bout fifty years ago), is what us folks back in Osceola county call a damn' good guy. Sig Alph president once, and a little quiet in spite of it, and a damn' good guy. Don't know any too much about him, but maybe it's just as well, because you know how it is finding Saints when you know too much about them.

This Dillon Turney seems to me to be a good guy, though I suppose this Annabelle will put up a hell of a holler when she sees he is a Saint. He gets good grades here around the schoolhouse, but I see him squirm once when I give him that teaser 'bout four Indians and four missionaries. Mom give me that one 'fore I went to kindergarten. One time I am sitting sipping a glass of milk with him down on Lincoln Way and he said sure he'd heard of our branch of the family. Said his great-great-grandfather was Benjamin Franklin too.

This possum Chick Reynolds is a Saint more on account of his social qualities, or what is known more commonly as success with the women, than on account of grades and activities and things. I'll never forget the time 'bout forty of the guys over at the Union were saying about how Reynolds could seem to be all interested in somebody out of town and still attract 'bout all the local girls he wanted. The boys went on to say, or continued, that he wanted considerable.

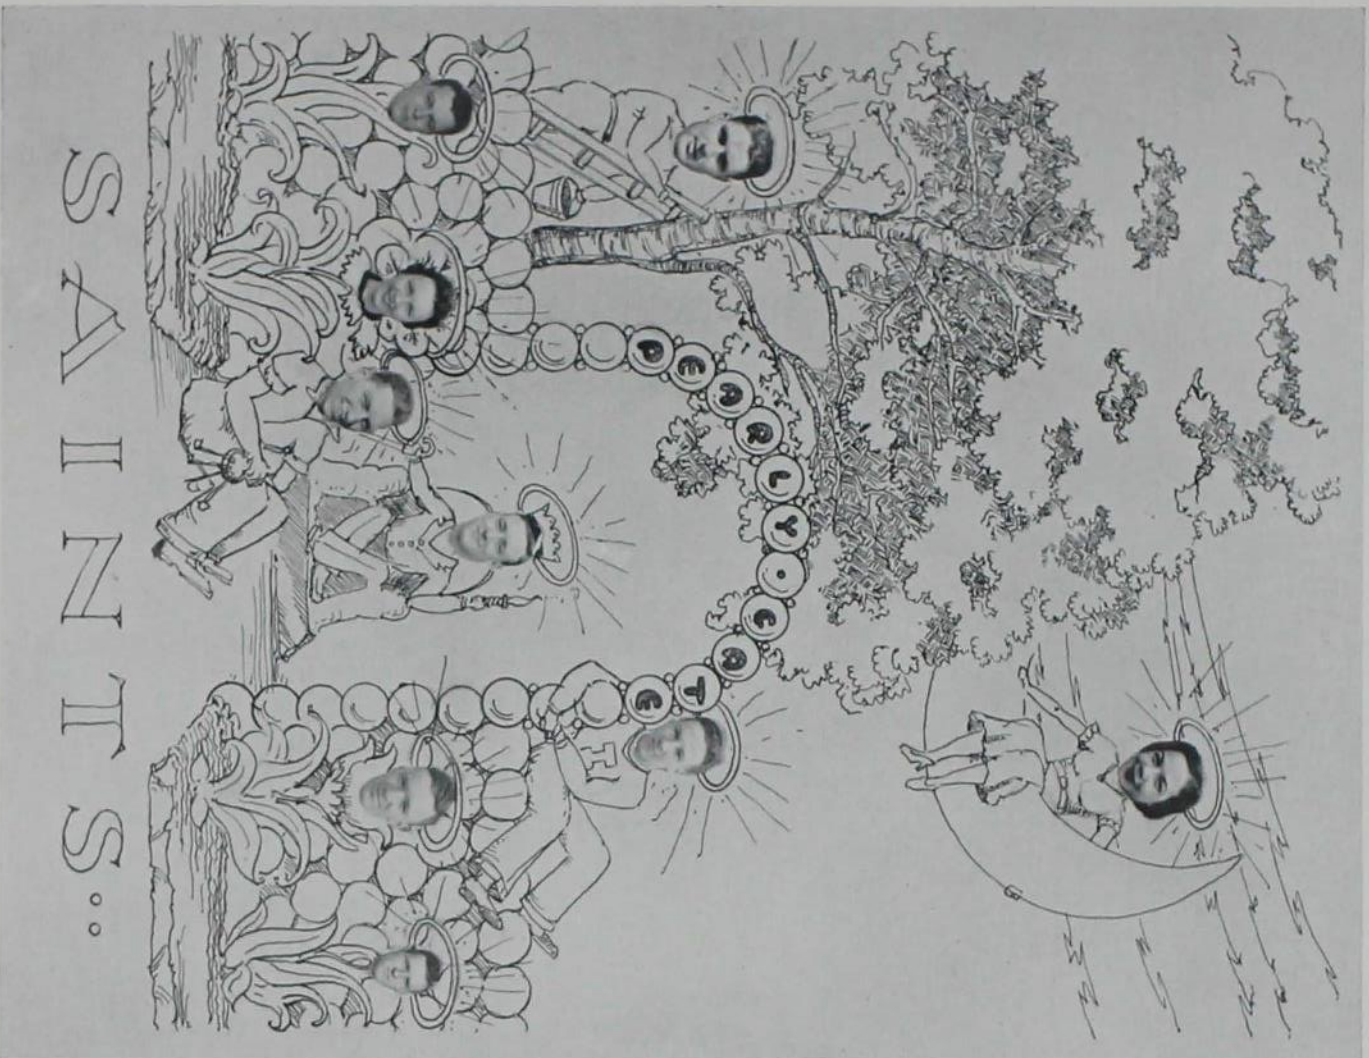

Richard Brenner Hull is out of school until next fall. I'll be doggoned if I don't wish I knew that earlier, because I could of just as well used him as a Sinner if I knew he wouldn't be around to do anything about it. Ain't saying much either way about him, 'cept somebody must of thought he had the stuff to make him president of 'bout everything they is left after the boys on the Student got done cleaning up all the inactive honoraries.

Like the fellow said, no list of campus Saints would be complete without mention of Walt Barlow. Of course he is a member of the Family. No telling where the boy will end up if he keeps a-buckling down and a-plugging. First guy I ever hear of that gets six hours of A out of Converse, and I see it with my own eyes, too.

This here Addy Page comes in next. He's the one besides Barlow who is peeking over the tulip petal, or pistol, or stamen, as they say in botanical circles. Had a couple years out to Dartmouth, where some of the Family set up a school in the '50's, before he came here. One of the profs—seems to me it was the president—says, "Hell, Page, you've learned everything we got here. Go out and take some chem e. under Sweeney and the Ames boys. Might be something new for you there." This Page used to be nothing of a social lion. But he rang the Bell.

In spite of Butterworth and other pressurers, this here Martha Roberts is definitely in. Definitely, in spite of Sigma Chi and things. I tell you the first time I ever hear this girl sing I wonder how come it's the first time. Takes practically no time at all to find a third. First time I hear her I know she is a member of the Family. I ask her about it, and she admits she is descended from this Caruso fellow, same as me.

I been saving this Bill Jensen for the last, or what the epitomizers say not the least. Fancy cravats and galluses and hosiery and ulsters and garters and fedoras do not prevent this Jensen fellow from being a good guy and what Sigma Delta Chi calls a good journalist.

Some Sinners, and Why

They tell me this Leon Prenn is a pretty smart boy if only he goes to class, but he is always home reading Huxley and Arnold and great-great grandfather Franklin and Tom Paine of an evening, so he does not do so well. It seems he has been here for some years. Dr. Chuck was telling me only the other day he and some of the other boys upon the administrative board are going to take up the matter, at their next biennial meeting, of whether or not they are going to put Prenn on a pension. Went on to say maybe the board better not act, though, like in Friday 12 o'clock nights and things, because the case had not gone through the regular channels and the whole affair was not very conservative anyway. It's a sin the way Prenn never lost his some-kind of accent in the decade at Iowa State College of Agriculture and Mechanical Arts.

This Cramer, I don't know so much about. But I been talking to some of the fellows that do, and they say hell, yes, put Cramer in. Takes a nice picture and probably cocky enough so it won't hurt his feelings any and at the same time you are being accurate because of this ego.

Ever since I left Pa and Mom and the sisters I been down here exposed to a guy who holds those positions where you can always pan somebody. I mean like Ballyrot, that epoch which runs in the Student, or the Green Gander, alleged campus humor magazine, or such. And I been exposed to the guy who wrote this section of the Bomb, which is the college annual, last year. That guy is Welch Richardson. He has been holding the editorial whip for so long I am quite sure everybody will agree that he is deserving of this here tremendous punishment.

And this Fred Poole is another one. I am not saying why, because he is apparently quite masculine. But Poole is another one all right.

Say, did you ever hear about this K. Wendell Marsh fellow? He is most certainly a sinner, because who is editor of the Student, which is a local tri-weekly newspaper, and isn't? And this same Marsh gets sinfully involved in harangue and debate and tete-a-tete about whether military training should be required and such. I have even heard it said that he likes to harangue just for the sake of haranguing, which I think is a very poor word to use if one has to argue.

And Then There Are Some Sinners With Redeeming Features

Now take this Bill Schramper, over in Industrial Economics, there is a guy who is neither. He is not in this Saint business which I have been talking about because he does not use what they call a saddle. He rides you bareback and with spurs. Also, he is the kind of guy who bowls 125 until 'bout the time you bet him the price of the line. It is not uncommon for this Schramper fellow to roll 250-300 under these conditions.

And then this Palmer Kalsem is another borderline case, if you know what I mean. One of them that's 'bout right in everything he does, and one of them that does a better job than you do. Pa said, like he did about Cramer, that when you run across one of these guys give him the axe.

This Pete Walker fellow seems to really have the stuff. He's another one with that Brooklyn-English accent, though, and you know what me and Pa and Mom thinks about that. Too bad about the broad aaa's, though, because this Walker fellow would look good with one of those halos you see on Reynolds and the Jensens and a limited number of others.

I tell you this Kenneth McGuinness fellow has got me. Didn't know what to do with him 'till 'bout two weeks ago when he beat out a fraternity brother of mine in a social affair. Right then I figured maybe I would show what they call lack of house spirit if I put him in as any better than one of those who are neither Saint nor Sinner.

Say now I am rubbing my hands with glee, or what they call joy, when I see this H. V. Gaskill man is a clear-cut case of on the fence. Here this fellow is, like this Schramper over in economics, what is known as a very good teacher and with everything apparently to live for, and he has his faults. He acts like a nice guy, like he would be a pushover to slip through substitution on, and things. You go in and try to put one through, though, and what is this Gaskill but a lot tougher than Dr. Chuck used to be before we decided he should be president of us.

SINNERS

My Fourth College Spring, and I See the Birth of a New Era

It is a very peculiar thing, and Pa would belt hell out of me if he thought I was lying, but I tell you I see the Birth of a New Era not so very far in the offing, as they call it. I been studying my heart out here at this Iowa State College of Agriculture and Mechanical Arts for four years, and I have hopes for a New Day.

In my four years I've seen the Cyclones win football games. I've seen them be Big Six Champions, which is a local get-together of athletic teams. I've seen the Cardinal Guild, which is the campus student governing body, function. I've seen Iowa State's males being aggressive. I've seen my cousin Chuck light a cigar at the Union and stand there talking very chattily, or, as they say, conversationally.

Oh, I've seen plenty

Oh, I've seen plenty, I tell you.

And now I see this Birth of a New Era I told you 'bout. It is all because I will soon be graduating, if all goes well. I will be stepping out into the cold outside world, and all this mad scramble of a great educational institution will be behind me.

And then what will I have? Well, I'll tell you . . . I'll have *memories*. Ah, memories. (To get the proper gurgle into this "ah," pummel the adam's apple, or what Hendrickson and zoology would call the heebiscus, while swallowing hard.)

I've seen the Cyclones win

Ah, Memories . . .

Why, I remember French class. Which is not the same as saying that I remember French, although I am still enrolled in it. Repeatedly have I sat there in front of Mes-soowah Marlow while somebody or other has gotten the exact flavor of meaning. I might say the precise shade. I think I will say it. I say "The precise shade."

This French class I am in now, it is an excellent class. It is one of those desirable classes where the majority are not sharks, with the exception of this Dorothy Moser and maybe a couple others. Why, this Poole, who you see is a sinner, and Hoff, and Schuler, and Lasser, and Townsend, and Richard Moorhouse, and several others who do not come so very often and I can't remember their names. Out of this list I might single out as the best students, for my purposes, Schuler and Hoff and maybe Townsend. I tell you, with a few people like that around I do not see how I can flunk. When they know the lesson they whisper it to me, and when they don't they pull down the class average until I get over this wire you hear about.

Moorhouse, he's a little better at the stuff, but not so very good. Anyway, we call him an outsider.

To the Students:

The Bomb staff acknowledges with appreciation the support of loyal and interested "boosters" of Iowa State College and the Bomb who have advertised in the following pages. The business concerns listed in the advertising section are staunch supporters of school functions and projects. They are loyal friends of this institution who believe in its strength, purpose, and its future. Only through the cooperation and contribution of the advertisers has the publication of the Bomb been made successful. Let you, in turn, support them and their business by your patronage.

The Bomb Staff

Father Ross Would Say . . .

I remember changes, too. Or as L. B. Schmidt and Father Ross and others would

Graduates out into the cold . . .

say, I remember great transitions. I remember back when this Gamma Phi Beta sorority, which is over on Sunset Drive almost, hung up the very enviable mark of 105 lbs. Whitman's Sampler, all in one year. Which, to you freshmen who don't know the ropes, is the equivalent of 21 bona fido engagements in one year. Which is some going, and speaks quite well for the pulchritude of any organization.

Well, to get to this transition I mentioned earlier. I am willing to wager that there have not been any 25 lbs. Whitman's or anything else over at this Gamma Phi sorority this year.

Yes, there has been a transition, and I do not know why. One thing Pa said was when

you don't know the answer just don't give it. Well, I'll tell you why . . . it's because Iowa State males are less aggressive.

And Then This V. J . . .

And then this V. J. Horswell might have had something to do with it. Or this Stella Mae Brinkman, who is a Saint. They both believe in practically a minimum of amours. Not quite a minimum, but practically.

Now I do not think there is anything so very bad about a good simple transition. But I remember something about somebody thought there is something bad about forced publicity, which is certainly something I personally hate. But I am no judge as to whether this little matter I am bringing up is it or not. Besides, I sometimes think I am a little partial to the Pi Phi's, so as I say, who am I to judge?

Anyway, I know for sure there was a nice story on this new house of the Pi Beta Phi girls' in the Student, which is this campus tri-weekly paper. And it came out, sitting in a very nice position, just at the beginning of the time when freshman girls were going to pledge some sorority or another, if they slipped under each of the Women's Pan-Hellenic outfit's ruling.

And I just heard the matter got forced publicity. Nothing definite, but I thought maybe somebody would want to know.

Haven't got any kick coming personally, because I'm doggoned if up ain't coming a nice new Pi Phi house.

Then these Delta Delta Delta, which is also a sorority, girls, they certainly have got a little mention coming. I mean that with last year being labelled the Iowa Guernsey Farm and all. But I can think of nothing. I am

Then these Delta Delta Deltas

Iowa Receives Constantly a High Yield on This Investment—

Develop Mold Toxin That Will Inhibit Mold Growth

Predict Discovery May Protect One-fifth Iowa's Annual Corn Crop

Ames, Ia.—Iowa State College scientists today announced the discovery of a new "toxin" for molds, the parasite that sucks the life sap from plants and ruins food by its growth.

Dr. I. E. Melhus and George C. Kent, nationally prominent botanists, announced the discovery after 3 years' work on the project.

Intended originally to curb the activities of *Diplodia Zeae*, the gray mold prevalent on corn, the experiment resulted in isolation of the toxin after it was discovered that mold growth was inherited in meal from corn upon which the mold had formerly grown.

It was formerly assumed, the scientists said, that mold, being a higher form of life than bacteria, would not produce the toxic substances.

The greatest and perhaps the most immediate application of the principle is in corn growing. The corn kernels, carrying upon them the mold reproductive cells, are soaked in the inhibiting liquid. The toxin contained in the liquid keeps the mold from growing until the corn plant is able to grow away from the sap-sucking parasite.

Of Iowa's average 350 million bushels of corn produced yearly, about one-fifth is damaged badly by mold and fungus growth. Half of this damage may be prevented with application of the toxin, when it becomes commercially possible, the scientists estimate.

Heavy metal and poisonous sprays, now in use to control fungus diseases, eventually can be dispensed with, saving Iowa farmers millions of dollars annually, the scientists believe.

The Associated Press news dispatch reprinted at the left of this page is but one of many which might be cited to show the profitable returns which accrue from the investment this state has made in Iowa State College.

New varieties of oats are developed. In two decades a large percentage of Iowa's oat acreage switches to the more profitable, disease-resistant varieties.

A new Blue Cheese that rivals the expensive, imported Roquefort starts a new industry.

New varieties of fruit are moving the profitable orchard belt farther north.

Improved disease control methods save Iowa livestock, fruit and vegetable producers millions annually.

Corn has been bred to resist drouth, disease, wind; to facilitate mechanical picking and through increased yield to lower the cost of production.

New products from farm wastes keep the wheels of industry turning and taxpaying Iowans employed.

Improved breeding of many kinds of livestock, sponsored and encouraged by Iowa State College, is influential in making Iowa the fountain head of the more profitable bloodlines.

Improvements in farm machinery, farm and plant management, schools, buildings, bridges, roads, household science and adult education—all of these and many other developments originating at Iowa State College, are enriching the lives of Iowa's 2 million citizens.

IOWA STATE COLLEGE

THE 1937

not just shutting my mouth about it, either, as as yet I have no connections there.

Oh yes, and as I sit back here and think I remember a thing or two about these fraternities, which have been getting so much space in the papers.

These Fraternity Broadcasts . . .

I remember 'bout these fraternity broadcasts, which is an idea of this interfraternity council, which is the governing group of the whole deal. Well, the idea was that it surely would be a nice boost to this whole fraternity set-up. And let me tell you about the upshot of the whole thing. It was that everybody who went on the air told about what rank *his* fraternity held in some particular line or other. Now as I see it the whole program didn't change the state of the fraternity system at all, because each fraternity told how much better it was than the others.

Something of a Hoity-Toity . . .

And then there was, as I remember, something of a hoity-toity, or a fracas, between these A. T. O.'s and these Betas. The way I

Something of a hoity-toity

Don't ring bell . . . call hogs

got it, Moorhouse and his Betaboys abducted, as they say, one of these A. T. Omega pledges, and took him out in the country and dumped him. Well, this Schuler and this Hoff, they thought something was sort of fishy, so they got in touch with these Betas, and said boys you better get our pledge back. Went on to say better get him back pronto. Meanwhile this A. T. O. pledge called up Schuler and Hoff and fraternity bros., and arranged a quiet little job of getting back to town. But these A. T. O. boys didn't tell the Betas, but instead acted like they were getting mighty worried about that pledge of theirs. The way it all ended was, I guess, that these Betas thought something maybe pretty serious had happened to the A. T. O. And while they searched for him all night, pretty near having a tizzy, these A. T. O. boys had a smug and happy sleep.

Call Hogs at Dinner . . .

You know, it was told me on good authority that over at this Farm House the actives have their freshman pledges call hogs instead of ring the dinner bell at meal time. Now I am no one to judge, and back home Ma never

even rang any bell, but I'd think the pledges were sort of casting reflections if they called hogs when they wanted me to come to eat.

But to get away from this Greek situation and get back to white men, I think it is high time I tried to remember some things about the faculty, or what editorials call the powers-that-be. For example, Schramper and Gas-

Dahlias and thingamajugs

kill, who you know are neither Saints nor Sinners. And quite conversely, Blair, and Bill Dachtler, and others.

Sage, Who Is Our Registrar . . .

One thing that comes suddenly to a fellow's mind is the deal on this Sage, who is our Registrar. Now he has taken quite a panning,

T. L. tells I. S. C. student "No Santa"

what with the local publication, the Student, and the Gridiron Banquet, and all. But it was indeed a sportsmanlike postcard he sent to this K. Wendell Marsh, who used to be editor of this publication, and others. It said something about (he was on a vacation in the South) how they had peaches and pears and pimentos and dahlias and thingamajugs in Florida, but never any razzberries. Went on to say he sure liked Florida.

I remember quite a hullabaloo the boys on the faculty had about the right of freedom of speech. They were having a Coffee Forum, which is a free Hyde Park that the Union boys thought up, and they asked this Tom L. Cook in to say a few words 'bout labor and General Motors, and sundry issues. He did. Said just what they asked him to say,

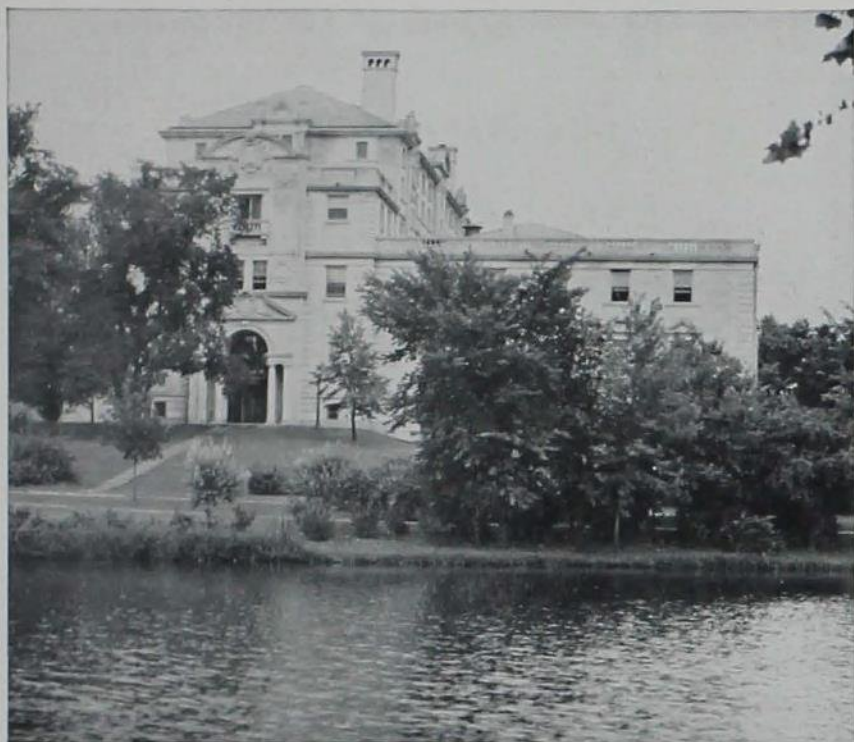

Some of the boys knew Prugh

and maybe put in an opinion or so of his own along with the facts. Admitted he did, in fact.

T. L. Says "No Santa"

But I'll be doggoned if some of the big boys didn't pin him down, same as if he'd issued signed handbills saying there wasn't

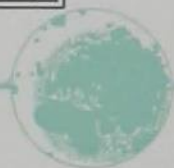

WE COME to college not alone
to prepare to make a living
but to learn to live a life.

—M. J. Riggs, '83

MEMORIAL UNION

our college club

no Santa Claus.

Course I said something about seeing the Birth of a New Era, but I still haven't the old sheepskin. Even if I did I probably wouldn't give any opinion on this deal involving the Big Shots.

It wasn't so very long ago, though, that there was another bolt popping around in the machinery away up there where this school is run. This Student, a paper, got ahold of some facts on how many Iowa State faculty men were getting drawn away by higher outside salaries. Had in a pretty long piece about it.

Then pretty soon some of the boys who knew this Harry Prugh, over in Industrial Economics, found out he was leaving to go down and balance accounts for the newspaper that Iowa depends upon. They were a little sulky, because he didn't get much of an offer from the paper but it was still good enough to get him away. Figured he was a pretty good prof, just like this G. M. Fuller, who left 'bout three months before. Arguments of these fellows went something to the effect that maybe in Prugh's case in particular he'd have stayed with a little encouragement (not necessarily monetary, either). Seems to me there was some hard feeling because somebody got the idea that it had been said maybe you got to get your doctor's degree from the right place before it counts.

I don't know. Never did get all the conflicting stories straight.

Oh yes, and there was a Leadership Conference this year, put on by this Cardinal Key organization. As I understand it, it was definitely decided that women should smoke, students should be more friendly with profs and vice versa, and this Iowa State College should have these 12 o'clock Friday nights.

Everybody Went to Lunch . . .

Then everybody went to the Oak Room in this Union for lunch, and the results of the morning's conference were read to the assembly (which included the college administrative board, as I heard it).

That matter out of the way, everything was promptly forgotten.

I tell you there is something about the

strength and independence we students have that, well . . . sort of gets you. Particularly when you've had four years here, and are about to see the Dawn of a New Day.

Oh, I don't know, it just sort of makes you stick out your chest when you realize you're a *part* of it. A *part* of this huge student body which makes up its mind and then really pushes things through.

But there I go, waxing sentimental, and you know what Pa said about that. Said never do it, son.

What was this I remember hearing about some of the seniors on the ag side of the campus? Graduating Christmas, I think they were supposed to. Anyway, time came around and only a very small percentage of them had grade points high enough to get out. I think that's the way the story went.

Let Down the Academic Wire . . .

Anyway, they had to let down the old academic wire and let a few of the sub-borderline cases slide over, as I understand it.

A very funny point, the one that that calls to my mind. Now I am just an Osceola county boy off to the big college, but I never could get it through my head how a guy can pass a course and still not be through with it. In other words, I am befuddled by this business. A guy or his girl could pass everything right straight through and never have a high enough one of these grade-point averages to graduate.

Personally, I'd think when a prof said I passed, that meant I'd passed, and no monkey business about it.

This way it doesn't mean that . . . it means you pass if you pass high enough. Otherwise they'll just pass you by.

But there I go, arguing and trying to reason, instead of just remembering things, like I started out to do.

We Had Plans for a Senior Prom . . .

Well, I remember back when we had plans for a Senior Prom, or great big shindig, with a real high-priced band. You know, one of these outfits like they get at Iowa U. and those other big, modern places you read

about. Well, last favorable thing I heard was that cousin Chuck says o. k. and so did Margaret and Harold Pride.

Last unfavorable thing I heard was that it was no go, and we'd dance to the same sort of band we'd always danced to. Whether we'd have paid the price for better music or not. That's the last thing I heard, and you got to admit it has an air of finality about it, particularly when you consider where it came from.

Has a Girl by the Name of Jones . . .

This decision sure made this booking agent, Russell Winn, who has a girl now by the name of Jones, plenty sulky. I bet he thought about ten percent times \$300 and ten percent times \$600.

I am willing to join hands with this Winn and chant about life is just one disappointment after another.

On the basis of one thing and another, I will not be surprised if you all join this Winn's and my little circle.

All in all, though, you've got to admit that maybe civilization here on the campus is progressing. Year before last we had no political organization among the different pledge groups around the school. Then last year we crash through with the Interfraternity Pledge Council. I tell you it's encouraging.

And this year brings another contribution. It is none other than a Stewards' Guild.

I really think this sort of a thing may have its good points, as it is reputed to have economy as its aim . . . cooperative buying of fraternity food, and such.

Even if nothing ever comes of this goal, I think the Stewards' Guild is as good as the Interfraternity Council, which I hear doesn't have economy as its aim.

Gosh. Once I Even Heard . . .

Gosh, once I even heard it never had an aim.

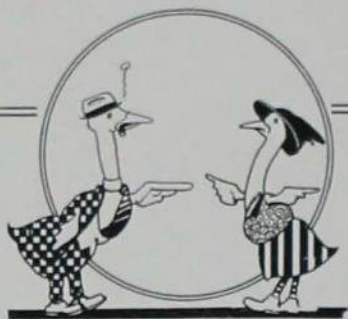

As the fellow said, I think it's now about time to deal a bit with personalities. Take this R. Verle Johnson, there is a personality. Seems he pulled kind of a boner, though.

A TANGNEY-MCGINN HOTEL

It all started with this radio news broadcasting course this Dick Beckman teaches over in agriculture annex hall. This Johnson was in the class, and doing a very nice job of radio reading he was, too.

But during this Farm and Home Week, which is another service of Iowa State College, they were to have a speaker over WOI one afternoon. Somebody sent out the story on the speech a couple hours in advance, and this United Press outfit down in Des Moines wired it back up to Johnson in Ames, for his broadcast. Johnson read it right out over the air, doing a very fine job, too. He gave all the details of the lengthy speech.

The only thing wrong was that the speaker hadn't given this speech yet, and he came on this WOI station with it right after Johnson finished the report.

They tell me this Andy fellow sure had a fit. Andy is this regular announcer over there since Dick Hull went to Ohio State to take over the reins.

I Remember Some People . . .

By gosh it is hard to write so much stuff when you are just an Osceola county boy. Here it is only 'bout 3 o'clock in the morning and I'm nearly run out of ideas.

But I see now how I am going to be able to finish this thing up. I have here, in my chubby little right hand, one of these Iowa State College herd books which generally have your name and year in college spelled right. Anyway, I am sort of going to skip down through the faculty part of it and see some of the pedagogues I remember and why.

Heavens-to-Betsy but I think this is going to be fun.

To start with this faculty part of the herd book, who do I run across first but this Dean T. R. Agg. Talked to him once, and he impressed me as the sort of a guy who gets an idea quick like and then deliberates for several minutes so you'll think he's not passing this snap judgment, as they call it.

Then this C. Arnold Anderson. Say, but he likes to argue. Haavaad man, without one of them accents, and sure gets all wound up in class.

MOST of the Photographs reproduced in this issue were made by us in our capacity as official photographer for the Bomb of 1937. It has been a pleasure to render this service, and we use this medium to thank the faculty, student body and board of publication for their considerate cooperation.

drawing to a close. Hummel I remember because when I was a freshman the older boys would come home moaning about Jug, which is one of the first names to ever stick with me.

Even Drinks More Coffee . . .

This Iverson acts like a good guy. Kahlenbeck always trails DeVries, grunts like DeVries, and even drinks more coffee. W. B. King acts like he thinks he's tough and probably is and was a good chem prof . . . the best I ever had. Fred Lorch is sure a swell guy, and I hope he guesses (wrong) that I know my American literature. Fine fellow, Dr. Lorch.

Truman Manning is the most democratic, as they say in speaking of *regular fellows*, prof in school. As they say in speaking of *politics*, I think he is probably sort of Republican.

ing out the right map. L. B. Schmidt is what they call scholarly. T. W. Schultz talks over your head pretty consistently. Joe Truskowsky looks mighty healthy and remembers your name right from the start, but sure has a hell of a handle.

Just Start Rambling . . .

Well, that sorts of gets me through this faculty herd book business. Probably best now just start rambling among these Iowa State personalities again.

One fellow who probably by rights ought to be in the Those Who Are Neither section is this Geo. Veenker, who is our athletic director and one of the members of the local athletic staff holding his position over from last year. The reason that he is on the fence as I said, is that some people think he just boosted Simpson and Daubert out without much of a show or an advance warning. Then there are those that I remember said something about this Geo. was right.

Nevertheless I think it would be very nice, as they say when they mean comfortable, to be athletic director.

By George, they sure have one hell of a time with this advertising selling for the Bomb, which is the campus annual, don't they, Muller? They tell me, some people do,

L. B. Schmidt runs scholarly class . . .

that the only reason a merchant buys advertising space in the Bomb, this annual, is to get rid of these salesmen which are such a pest.

But I think that is a very good reason, and I don't see why all the muddle.

There was one thing I remember 'bout this year that caused a pretty good hullabaloo, or clash of opinion as the fellow said. It was this argument about Memorial Union service which centered about a letter from a Cedar Rapids boy and a retort made by this Poole, who is so fluent in French and who you know is one of these Sinners.

This Cedar Rapids boy, who by the way has got himself a girl who used to live up near Osceola county, said something in the Student, local publication, about this Memorial Union service is lousy. Said 'bout half the time you walk in there and nobody ever waits on you, etc. Fact is, these Sigma Delta Chi boys intimated 'bout the same thing in this Gridiron Banquet, an annual frizzle fest.

Cheap Screw Plow Technician . . .

Well, these accusations 'bout Union service certainly got under the hide, which is fairly thick, of this Poole, who wrote back

to the Student, a paper which publishes such opinions, and said the author of the original article surely as hell must have been a cheap screw plow technician.

Oh, I tell you things were in a furor for a while. This Watson Townsend, who keeps Union service running smoothly in between these French classes of Messooer Marlow's, like to had a fit. Mac started getting refills for customers. Chuck Whipple, who also works for the Living Room of Iowa State, got a new plaid suit.

Yes, there is no getting around the fact that things were certainly a-popping there for a while. There are those that say, however, that of course this Poole would never have any trouble getting Union service, though, because the minute he steps into the Grill of course all the waiters can hear him.

Which you must admit gives this Poole quite an advantage over this Cedar Rapids boy, if true.

I ask you who am I to pass judgment on these things some of the older fellows have been telling you.

there is a fellow who drives a creamy coupe and buys two plaid ensembles, as they say in interior decoration, at one time. I think this Schroeder is no slouch in spite of being on the faculty, or what some would call the oligarchy.

An Osceola County
Boy Bids Adieu

I told you about this business of Seeing the Birth of a New Era. But I have kept practically secret this little conclusion that I have drawn, largely enabled by deductive logic, a smattering of which I picked up under the tutelage of this Paulus Lange, which is a funny name. As I bring his name in, it occurs to me that it must keep a guy on needles and pins to squire a Director of College Social life.

But to get back to this little secret . . . it is something of a temptation to digress, as any class lecturer will tell you, when you

have such good material for it. Anyway, a New Day is not far in the offing.

And a significant thing to be pointed out is that with this *Birth* must come a *Death*. The Death of an Old Era.

After nearly four years of diligent work, I am quite sure that it will be only a matter of months before I bid this Old Era adieu. And I will step out into the New, or what is more commonly known as the cold, cold world outside.

So I bid my premature Farewell. I do it now, in mere anticipation of its realization, because it is my last formal chance.

Adieu, Living Room . . .

I say goodbye to the Memorial Union, where you can be on the Student Board of Directors if you pay your Union pledge. To the Living Room of Iowa State, where many a girl has learned to smoke and eat grilled hamburgers in a collegiate atmosphere. To Memorial Union, which has been as a second

home to me and Ruth Hendrix and Bill Stoufer, who is her fellow, and Chickering Smith, and no end of other people.

It is what they call tra-la to the Central Building, where this Miss Rawson and J. R. Sage and Anna Mae Sokol and Cousin Chuck and the former M. Kerr, in whose office is this Gaskill, all work. Central, where the Administrative Board is reputed to meet in order to collectively, conclusively veto 12 o'clock Friday nights, which really are an issue not making much difference one way or another to anybody. Goodbye, Central, trimmed with red tape, padded by backslaps, reinforced by final authority, as this Englishman Galsworthy would have put it.

No more of you, Engineering Hall. You are where this W. Schrapfner spends several hours daily, as do numerous engineers, as one might guess by the name of the building. You are where seniors come to interview representative of these big corporations that they may hire the cream of the American college crop, for Iowa State College has the

 BOMB OF '37 110, 111

Three Personal Letters . . .

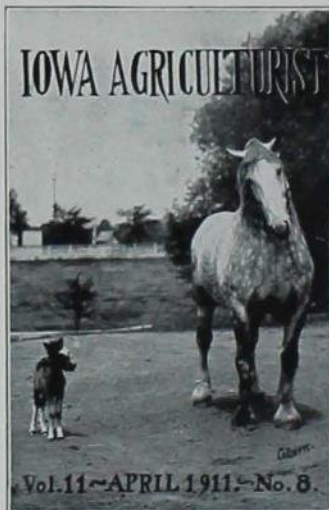

Delivered Every Week

Now that you are an alumnus you will soon be far away from the campus . . . missing the Cyclone football games . . . free shows . . . fraternity pals . . . college dances . . . exchanges and firesides . . . profs and studies and campus foolery that makes college life what it is . . . **BUT** you can return to the campus three times each week by subscribing now to the Student. It's your personal letter with all the news. You needed it when you were here . . . you will want it more now as an alumnus.

SAVE MONEY—SUBSCRIBE NOW FOR \$1.75
PRICES ADVANCE IN THE FALL TO \$2.00

IOWA STATE STUDENT

OFFICIAL PUBLICATION OF IOWA STATE COLLEGE

"IMPUDENCE AND DIGNITY"

A reproduction of the cover on the April, 1911 issue of the Agriculturist.

Keep Up With Agriculture

The IOWA AGRICULTURIST Presents Features
in

Agriculture Personalities

Agriculture Economics

Agriculture Production Problems

Keep abreast of the latest developments in Agriculture. Know what is being done at one of the world's leading agricultural institutions.

SUBSCRIPTION PRICE — \$1.00 PER YEAR

The IOWA AGRICULTURIST

"Exponent of the Newest in Agriculture"
