Forsurord

To present to the best of our ability, so that in the years to come you who have gone forth from Iowa State College, may relive the year of 1935 in your memories — so that the spirit you have conceived on this campus may go with you into the world so that you may keep with you a chronicle of the high-lights of the year, of the campus stars, and of the activities in which you have shared — this is our true desire; the endeavor of the Bomb to keep the stars of college life shining for you through the years.

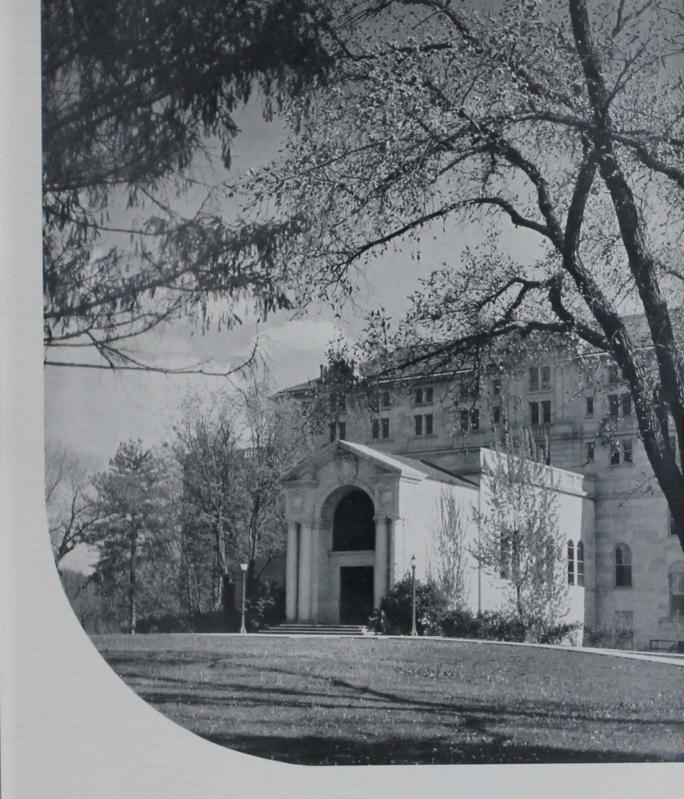

Declication

This Bomb of 1935 is dedicated to the spirit of lowa State College; the spirit of democracy on the campus, the spirit of love for our Alma Mater — a spirit which may best be exemplified in our fighting teams and in our well supported student activities. The spirit that calls for expression in class rivalry, in intramural "athletics, in loving cups and contests — this is the spirit that must never be thwarted, that must live and grow and never die. You, the students, are the true personifications of this spirit. It is you who have conceived this spirit and it is you who must keep it alive.

Through the north entrance of the Memorial Union pass thousands of students, pleasure-bound. Whether it's a dinner, a dance or a business meeting, the Union is the proper meeting place. CENTRAL BUILDING, where steps are worn in grooves by thousands of tramping feet, where freshmen learn to say, "Comment allez-vous?", where the executive offices are located, where liberal arts courses are taught.

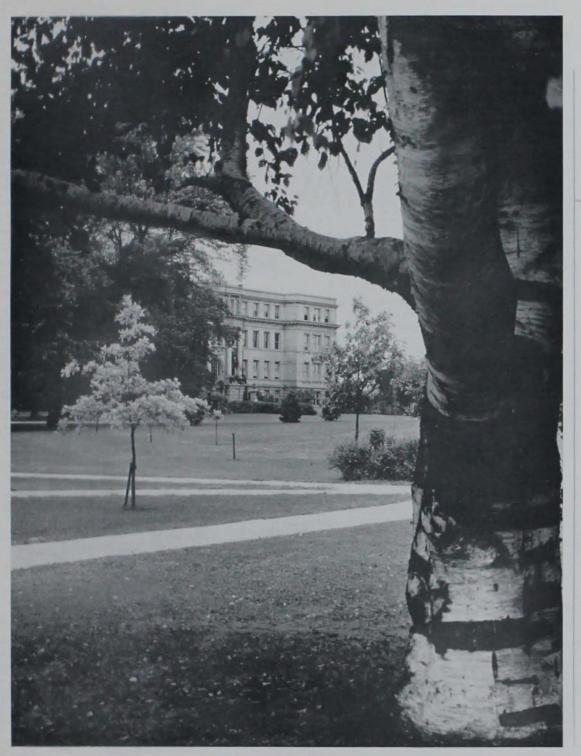

A Peaceful Promenade

A GRICULTURAL HALL, home of Iowa's rural life. Animal Husbandry, Farm Crops and Economics are taught here. It also houses two of Iowa State's most important journalistic offices, the Iowa State Student and the Collegiate Press. The Photographic Laboratory is in this building.

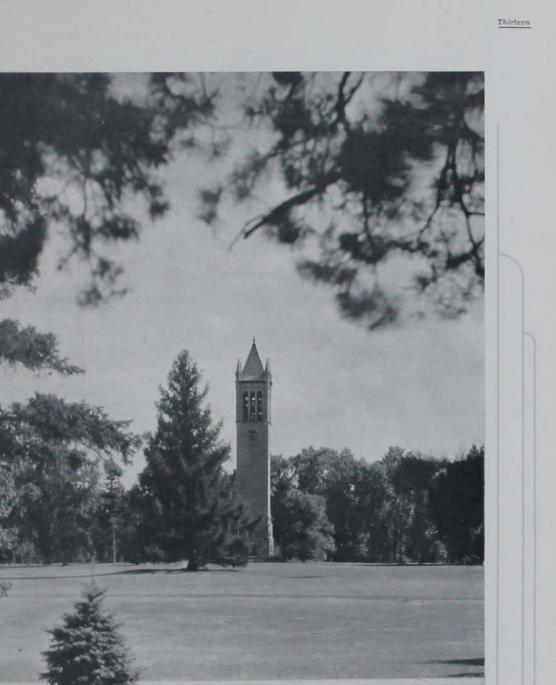

Engineering Hall

THE KNOLL—historic president's home. President Hughes often entertains groups of students here in his efforts to become better acquainted with them and their interests. The lawn south of the house overflows with students and parents at the annual spring reception given by the president.

MARY KOOS. Perhaps

it's the charm of the hostess that attracts so many couples to the Union's Saturday night dinner-dances. Mary's smile is superb, her manner gracious. Greatly interested in dramatics, this junior industrial scientist has appeared in several plays. No Greek organization claims Mary . . . she belongs to the all-college sorority. Mary also is interested in athletics. At present she is rather matrimonially-minded about a certain lowa. State athlete.

THE Iowa State Board of Education consists of nine members selected from the state at large solely with regard to their qualifications and fitness to discharge the duties of the office. Prior to 1909 there was more or less friction between the three state institutions of higher learning regarding appropriations from the legislature. In order to promote economy and eliminate duplication in the schools, the State Board of Education was established in 1909 by the thirty-third general assembly of Iowa. It is the duty of the board to govern the State University of Iowa, Iowa State College of Agriculture and Mechanic Arts, and Iowa State Teachers' College. The state institutions for the blind and deaf are also administered by this board.

The term of each member lasts six years, arranged so that three of them expire the first of July each odd numbered year. During each regular session of the legislature, the governor appoints, with the approval of two-thirds of the senate in executive session, three members to succeed those retiring from office the following July.

The board usually meets once a month. One of its important duties is to elect the president, superintendent, treasurer and secretarial officers for each institution. It also officially appoints, with the recommendation of the president, the professors, instructors, officers and employees, and fixes their compensations.

Besides this the board makes rules for admission to and for government of the institutions, manages and controls their property, accepts and administers trusts, directs expenditures of all appropriations, and performs all other acts necessary and proper for the execution of the powers and duties conferred by law.

The State Board of Education appoints a finance committee of three from outside its membership. This committee makes investigations and reports and performs such administerial duties as the board, by resolutions, may direct. It audits all expenditures every month, approves all bills, and attends to all minor appointments and administrative duties.

The State Board of Education reports to the governor and legislature biennially, and publishes a report of its activities every year.

STATE BOARD OF EDUCATION

WITH the presidency of a college goes the power to initiate policies which will

ultimately determine the success or failure of the enterprise. Efficiency, experience and fineness of character have fitted President Hughes for his position as the guide of the enterprise which is Iowa State College. His resignation as president of Miami University at Oxford, Ohio, in 1927, to accept the presidency of Iowa State, brought to us a man whose ideal is to assist others in the realization of their ambitions—a man who radiates an unselfish, impartial and kindly personality.

President Hughes has been active in the service of the Association of American Colleges, the North Central Association of Colleges and Secondary Schools, the National Association of State Universities, and the American Council on Education, in each of which he has at one time served as secretary. President Raymond M. Hughes

0

JUNIOR COLLEGE

M. D. HELSER

DEAN of the Junior College and comparatively new at the job, Mr. Helser serves also as Director of Personnel. He came to us straight from the Animal Husbandry Department, and at one time served as Assistant to the President along with his other two positions.

Radiating a charming and interesting personality himself, Dean Helser is an ardent admirer of character in men. His coordination and fine sense of humor have won friends for him among the entire faculty and student body.

dent body. The freshmen and sophomores who find difficulty in becoming adjusted to the new life at Iowa State have discovered that Dean Helser is the one to see. He is the pilot at the helm, the sympathetic listener, the one who conscientiously endeavors to straighten out troubles in or out of class work.

PERSONNEL WOMEN

As EVERY girl on the campus knows, Miss Sims is the charming little lady in the personnel office, whose task is the difficult but interesting one of friend and advisor. It is to her that the women of Iowa State take their problems—problems which are never too insignificant for personal consideration from Miss Sims.

Through the proper coordination of work and activities Miss Sims hopes that every girl may have adequate opportunity to make the most of all of her talents. It is with this goal in mind that she advises those who seek counsel with her.

opportunity to make the most of all of her falents. It is with this goal in mind that she advises those who seek counsel with her. Following her own advice, Miss Sims has taken an active interest in the Women's Self-Governing Association, of which she is sponsor. This organization refers to her for guidance in all of its numerous activities.

FRANCES A. SIMS

PRESIDENT'S OFFICE

GEORGE GODFREY

I w 1909 George Godfrey graduated from Iowa State and from the Agricultural Division. For several years he was a member of the agricultural staff. Then he returned to farming, where his main interest lay. It was not until September, 1933, that Mr. God-frey came back to Iowa State. This time it was to serve as Assistant to the President in Agriculture.

A man or woman who is as unpretention a spheuture. A man or woman who is as unpretentious as he, is the kind of person who appeals to Mr. Godfrey. Not an orator, but a fine speaker, Mr. Godfrey is in fre-quent demand at various meetings and banquets.

Mr. Godfrey has served on the State Board of Education, has been very prominent in farm bureau work, and has continued to rise in our estimation every year that he is with us.

GRADUATE COLLEGE

I would have been strange indeed if backership such as that given by President Welch, Dr Bessey and their associates in the early days had not beet to a desire on the part of students to go further in the campus that some organization was essential of the campus that some organization was essential and Dean R. E. Buchanan chosen to head it between this department, and those who had it students organed and Dean R. E. Buchanan chosen to head it thembership in the organization includes all students organed and and edgere from the college. Twa State's Graduate College was starred (highest particulation of the college.

R. E. BUCHANAN

MARIA ROBERTS Director of Student Loans

MRS. MCGLADE Director of Housing

MARGARET STANTON Director of Social Life

UNDER the present plan of student organization the diverse interests passing through the office of student affairs are divided into three phases—student loans, housing and social life. This is a busy service office for all students on the campus, and one which strives for the greatest improvements possible over conditions pertaining to social and financial college life.

Since hundreds of students could not continue in college without financial aid, close to fifty thousand dollars are distributed annually for this purpose. To make sure that this goes only to those who are worthy, who feel their responsibility and will be a credit to the college if continued, requires many conferences and careful judgment. Correspondence with graduates during the first struggling years of professional life often helps to strengthen the ties with the college which aided them in obtaining their educations and still stands read to help.

Housing conditions and plans for their betterment are being studied constantly. An effort is made to create a wholesome atmosphere in the campus halls, houses and private homes. To have merely a place in which to stay is not enough. The Student Organizations' aim is to provide for the students a comfortable, happy home on the campus. Much time and thought are necessary to provide qualified personnel for the direction of these campus residences and to bring about the best results for the students concerned. During the past year it was suggested that the state pay one-half of the salary of the house director if the salary was above fifty dollars a month. Thus it is hoped that directors of a higher caliber may be hired.

Without social direction and experiences the well rounded education could not be attained. Poise and charm are as necessary qualities as those gained from any classroom and are only achieved through correctly directed social channels. In planning the program an attempt is made to organize functions that will provide opportunities for social development for all groups of students—undergraduates living in organized houses, in town, and in rooming houses, graduate students and foreign students. When such things are planned it has been noticed that students are usually very eager to attend. In the past year there have been several wonderful opportunities to hear such well known peopel as Amelia Earhardt and Commodor Fellows lecture, Poldi Mildner and her piano, and to see the Ted Shawn dancers.

ORGANIZATIONS

ADMINISTRATION

D_R. HERMAN KNAPP, the first registrar of Iowa State College, officially supervised all registrations until July 1, 1920, and since that time continued to be a familiar character until his death last March. At that time he was not only treasurer, but vice-president as well. This jovial and much admired man gave Iowa State College over a half century of service. During the past 2 years it was his duty to handle receipts of all funds, including appropriations from the General Assembly and all other sources. He was responsible for the safe-keeping and the paying out of funds upon the approval of the Finance Committee of the State Board of Education. Doctor Knapp's administrative ability will long be remembered.

H. C. Gregg, the secretary and business manager, is responsible for such business functions as keeping accounts, auditing, preparing financial reports, purchasing, managing the physical plant, caring for leasing all rental properties, supervising all auxiliary activities, selling and disposing of all goods and products of the institution, auditing accounts of all student organizations, hiring, employing and dismissing all employees aside from the academic and research staffs.

J. R. Sage, the registrar, is a little man with lots of power. From the time of admission to college until the long hoped for graduation, each student is greatly indebted to the work of Mr. Sage. For it is he who is responsible for college admission-for recording all grades -for the publication of statistics and grades-for fraternity and all-college averages-for graduation-for the publication of the general catalogue, the directory, schedule books and registration procedure. It is also Mr. Sage who certifies grades from other colleges, takes care of the directory for the faculty, the administrative committees and their chairmen, and of the graduate committee and faculty. Mr. Sage is not only registrar-he is chairman of the personnel committee and vice-dean of the Junior College. Another of his many duties is to decide what students are eligible for honor societies and for honors day.

HERMAN KNAPP Vice-President

H. C. GREGG Secretary and Business Manager

J. R. SAGE Registrar

PRACTICAL and scientific agriculture is the basis of the study of students enrolling in the Agricultural Division. The ten departments offer sixteen four-year curricula in addition to certain offerings requiring less time. All offer graduate work and several are preeminent in their respective fields.

The instruction in Applied Agriculture is well balanced with work in the biological, physical and social sciences. Extensive practical instruction is afforded by the well-equipped laboratories, fields, orchards and barns provided by the division.

Systems of marketing agricultural products, better methods of feeding, and latest improvements in farming are brought to light in the Agricultural Experiment Station. A number of students take part in the work through a system of student employment.

A divisional personnel service has been develdped to the degree that insures very effective cooperation between counselors, department heads and the personnel service in helping the students prepare for and find employment in the work for which they are best qualified.

An excellent record of graduate placement has been made. In spite of economic conditions practically all of the graduates of the past three years are in profitable employment in the lines of agricultural work for which they made preparation. H. H. KILDEE Dean of Agriculture

AGRICULTURE

ENGINEERING

T. R. Acc Dean of Engineering A SCIENTIFIC technique for the control of the forces, materials and energy of nature, in so far as these relate to engineering, a technique for the organization of human effort, a technique for appraising the resulting benefits to mankind—these are the distinctive qualities of a complete education in engineering as taught in the Iowa State Division.

Beside the regular engineering departments, which furnish the student with instruction in basic science, technical and humanistic courses, are three closely allied departments, differing in character from the teaching departments. The first, the Engineering Experiment Station, carries on research for

the division. During the past year experiments have been conducted relating to the utilization of agricultural wastes, the disposal of creamery and other wastes, the operation costs of automobiles, skidding and others.

The second of these departments, the Engineering Extension Service, holds short courses both on the campus and throughout the state. Surveyors, welders, gas-metermen, painters, plumbers and others take advantage of the short period of instruction by the college. The department also provides a technical information service.

The third of these related departments is the Engineering Personnel Service, which establishes contact with the employment and personnel divisions of industrial, commercial and business organizations, and thereby is enabled to advise and aid those engineering graduates who are seeking employment.

HOMEECONOMICS

N A recent study of the employment of the Home Economics graduates of the last four years, ninety-three percent of the seven hundred and sixty-one who have received bachelor degrees are employed; ninety-five percent of the one hundred and fifty-nine in the class of 1934 are employed. High school teaching ranks first in the occupations of the graduates of the four-year period; homemaking ranks second, and dietetics third. Most of the other graduates are employed in some one of the other fields of Institution Management, Extension Service, nursery school teaching, commercial food work, journalism or home servicing.. The division

expects to have little trouble in placing this year's graduates in good positions.

The Home Economics Section of the Experiment Station has twelve research projects under way. In addition, it cooperates with other sections in work on six projects.

The division aims to give a liberal education and practical training in home economics by means of instruction in the arts, the natural and social sciences, and their place in modern civilization. Home management houses, a nursery school and a tea room are unusual in most institutions, but offer practical experience to girls at Iowa State College. GENEVIEVE FISHER Dean of Home Economics

EVERY student of Iowa State College comes into contact with the Division of Industrial Science during his college career. For students majoring in any curriculum the fundamental studies are provided by the several departments in this division. In addition, students in all divisions are encouraged to include in their programs as many as possible of the general studies such as Public Speaking, Psychology, Music, Literature, History and Modern Languages, which are offered as a part of the work of the Industrial Science Division. The program has now been revised so that the students from Junior Colleges can enter Iowa State College as juniors with full credit for their first two years of work in the college from which they transferred.

C. E. FRILEY Dean of Industrial Science

One of the important phases of the work of the division is the pro-

gram of research in Industrial Science, directed primarily toward the solution of problems of agriculture and industry in Iowa through the application of techniques and principles developed by the various scientific groups within the Division. This program is closely correlated with the research work of the Agricultural Experiment Station, the Engineering Experiment Station and the Veterinary Research Institute.

Plans are under way for the establishment of a divisional publication, fostered primarily by Industrial Science students and devoted to the development and progress of science in Iowa.

INDUSTRIAL SCIENCE

VETERINARY MEDICINE is steadily approaching a new concept of its field of service. Instead of thinking in terms of disease, as has been the habit until quite recently in all branches of medicine, it is thinking of the application of medical sciences to all life, and particularly with a view of assisting to maintain health instead of curing disease.

The new Department of Veterinary Hygiene is organized and functioning. It has taken over the milk inspection service for the City of Ames, which serves as an excellent laboratory in food hygiene.

The Veterinary Research Institute was well represented at the first International Veterinary Congress to be held in the United States. The number in attendance was 1,820 from a membership of over 3,000, 750 of whom were from 61 foreign countries.

The first class to enter under the one-year college entrance requirement will graduate in June. It has been necessary for the veterinary faculty to adopt a selective system of admissions because there are approximately twice as many applicants as the facilities of the veterinary college can accommodate. Those who have had more than one year of college work will be given preference. All but two of the veterinary colleges of the United States have adopted the same requirements inaugurated four years ago by Iowa State College. C. H. STANGE Dean of Veterinary Medicine

VETERINARY MEDICINE

EXTENSION SERVICE

R. K. BLISS Director of Agricultural Extension By MAKING available the research work and other information that Iowa State College has to offer to the people of Iowa does the Extension Service bring this institution to the million people who live on the 214,000 farms in the state.

Through a trained staff of extension specialists, county agents, home demonstration agents and club agents, the Extension Service carries information concerning all phases of agriculture and homemaking to the rural people. Its work embraces some activities of all the five divisions of the college.

Agricultural Adjustment Administration programs, in addition, drew heavily upon the educa-

tional facilities of the Extension Service during 1934 and 1935. Extension specialists and members of the State Corn-Hog Committee trained the 1934 county and township corn-hog workers.

Education of farm homemakers, through the women's home project work in every county, and of rural girls and boys through 4-H club activities, naturally, was continued. Cooperation in maintaining and conducting Station WOI, the college broadcasting station, went forward as usual.

There are, besides the administrative staff, specialists in agricultural economics as well as in every other department of Agriculture, Dairy, Home Economics and in club work.

HYGIENE DEPARTMENT

A LTHOUGH care of the sick plays an important part in hospital work, an even greater one is that of prevention of illness and improvement of health among students.

As the first step, all entering students are given a careful "once over" during the entrance examinations. All who show physical defects or health impairments are followed up in further conferences, and advice and treatment are given with a view of correcting or improving the condition. Then once a year all students, graduates and undergraduates must be examined. Tuberculosis tests have been continued this year, and every student who shows a positive test is given an X-ray examination.

The plan of first aid instruction for all house mothers of and presidents of sororities and women's dormitories has been continued this year. This plan has shown remarkable results, for the number of students who formerly went to the hospital for minor cuts and bruises has greatly decreased.

The north wing of the hospital, built in 1915, has a capacity of 40 beds and includes the kitchen and dining room. The east wing, built in 1924, more than doubled the capacity and gives added dispensary and laboratory facilities so that now the college has ample facilities for caring for such of its students as need hospital or ambulatory care. No other institution, except perhaps those with medical schools, is better equipped in this respect and few hospitals are better provided with laboratory, X-ray and other equipment for diagnosis and treatment, both for curative and preventive purposes.

DR. J. F. EDWARDS Head of Hygiene Department

TUDENTS took increased interest in library books in 1934-1935, in the belief of Librarian C. H. Brown. In a recent summary it was found that over two thousand books are used daily, and over a million a year fall into the hands of Iowa State students.

The new mural paintings, painted last year by Iowa CWA artists under the direction of Grant Wood of Cedar Rapids, one of America's most noted painters, are now in position.

One of the latest additions to the files is a collection of books on birds. In this collection of rare books, published many years ago, there are thirty volumes. The collection is a work of Mr. Clyde E. Ehinger of Keokuk, Iowa.

> Plans were made, also, to sound-proof the lower hall to reduce the echoes of clattering student feet on stone floors and stairs.

> The Library is the most used building on the campus. The new building, opened for the use of the public in the spring of 1925, is designed to meet adequately the needs of both graduate and undergraduate students.

> Yearly additions to the Library are 10,000 volumes. The collection has increased 550 percent since the new building was opened.

C. H. BROWN Librarian

COLLEGE. LIBRARY

MEMORIAL UNION

MI_{EMORIAL} UNION is the Iowa State club. Here the undergraduate, the graduate and the faculty member finds that unique quality of social and recreational life which distinguishes Iowa State College.

Iowa State life centers around this monument to service. It is here that students and faculty members come for amusement, both educational and entertaining. Dances, lectures, musicals and variety programs bring the student body to the Union many times a week. Incomplete and unfurnished, the full potentialities of this attractive center have been but glimpsed during the past seven years of service.

Improvements in building, decorating and the programs offered are constantly under the consideration of the Memorial Union staff. The grill and commons are under very capable direction. We wonder what people did before there was a Union, and hereby give our vote of thanks to those who spend their lives making it an even more delightful place.

The Memorial Union is but a tangible expression of the great interest the alumni have in Iowa State College. Most faculty members and about seventy percent of the alumni are life members of the Union. The interest and cooperation of such a large proportion of the members of the college family make Memorial Union truly "our college club." H. E. PRIDE Director

CARDINAL and gold days! But perhaps we should say Cardinal Guild days because this organization has been responsible for many of our good times this year. Football and basketball games, lectures and concerts, are just a few of the things we enjoy through our activity books that the Cardinal Guild sponsors.

This year the old red prep cap was formally discarded by consent of the Guild, and in its place freshmen now wear a small recognition pin. The freshman election was changed and put on the same basis as the other class elections.

A gift of \$500, made to the General Student Loan Fund by Cardinal Guild this year, represents small surpluses in the budget for many years.

Other things which Cardinal Guild oversees are the divisional and intramural athletic awards, numeral sweaters, the Homecoming Barbecue, and the pep program.

ASSOCIATED WOMEN STUDENTS

O ACQUAINT every girl with Iowa State College and its many activities is the aim of Associated Women Students.

This fall a Campus Carnival was held. Each organization had a gaily decorated booth where the freshman girls might meet and talk to members of the club. A project of personnel training for leaders in student organizations was successfully carried

out by A. W. S. this spring. Associated Women Students is affiliated with the national organization of Intercollegiate Associated Women Students. Every girl on the campus is a member of this organization, which sponsors all women's activities.

AGRICULTURAL COUNCIL

HE Agricultural Council, student governing body of the Agricultural Division, is composed of two members selected from each departmental club in the division.

Last fall the council sponsored a reception for Ag freshmen to welcome them to Iowa State and acquaint them with their division. It awards medals to winning judging teams of various departments in intercollegiate competition.

The council sponsors two dances—the Ag Carnival in the fall and the Ag Ball in the spring. In the winter, it holds an annual Ag Banquet.

COUNCIL

Wilton Green McCartney Wolfnes McGrew Farnham Luithly Pallas Barton Stewart Prall Gonder Palmer Lukermann Stillians Fasold Miller Smith Christensen

LACH Thursday at 11 Home Economics students gather for a convocation hour in Catherine MacKay Auditorium. Sometimes visiting speakers who will create a professional interest among the girls are present, and other times the program is made up of talent chosen from our own community.

But whatever the program, these convocations are the regular meetings of the Home Economics Club, of which the Home Economics Council is the governing body. Over half of all the girls enrolled in the department are now members of the club.

There are seven divisions in the Home Economics Club. Each division, with its own president and assistant, represents one department of the work carried on in the general program.

The Council continually strives toward unification of efforts of girls in home economics. To accomplish this aim, meetings of major students in the different departments are held. Assisting with the Catherine MacKay loan fund is another project of the club and council.

A formal dance, replacing the Masquerade Ball of last year, was successfully held this winter. During Veishea the Home Economics Club assisted with the open house. The famous cherry pies of Veishea were sponsored by this group.

HOME ECONOMICS COUNCIL

INDUSTRIAL SCIENCE COUNCIL

S TUDENT activities in the division are supervised by the Industrial Science Council. In the fall, convocations were conducted and many interesting speakers were brought to the campus. Later in the year, personnel leaflets for graduating industrial science seniors were issued.

The old traditional Ax-Grinders' Ball, to which everyone came dressed in old clothes and costumes, gave way this year to a formal dance. Pomp and stateliness were the characteristics of this occasion. Doormen in bright red uniforms lent distinctive tone to this dance of the scientists. This formal dance will be an annual feature of the Division.

During spring quarter the Industrial Science Division sponsored Spring Day and an open house for the Industrial Science Division during Veishea.

MEMORIAL UNION STUDENT COUNCIL

HE Memorial Union Building may be called the play house of Iowa State students.

This is where we go to dance on Friday and Saturday nights, to meet our friends at four o'clock, and to sit for long hours over sandwiches and coffee.

During winter quarter, Sunday afternoon became a favorite time to drop in at the Union and join in singing old and new favorite songs at the traditional Twilight Musicales.

Winter quarter brought Campus Varieties on Friday nights and tea dancing each Wednesday afternoon. The new sound system which was installed in Great Hall this year made dancing there more popular than ever, and organdy formals and tuxes filled Great Hall almost every Saturday night during spring quarter.

The Student Directors Council of Memorial Union is responsible for the successful program of student social life carried on in the Memorial Union. Harold Pride is its director.

VIRGINIA BRAYER-

is habitually wielding the gavel. Gamma Phi Beta, Associated Women Students, and the Women's Social Council have been headed by her. Mortar Board chose her as vice-president. She takes great interest in campus social life, chairmaning the Campus Varieties programs. Has been an asset to Cardinal Guild, Phi Upsilon Omicron, Y. W. C. A. Virginia likes everybody everybody likes Virginia.

CHARLES ROY

Noted Phi Delt—wields the Scabbard and Blade paddle—presides over the Engineering Council—skillfully acted as business manager of Veishea.

WILLIAM MUTSCHLER

The Conversationalist —Extreme—held the gavel for Sigma Chi and for A. I. Chem. E. headed all Chem. E. open house last year business manager of the Iowa Engineer— Engineering Council.

ALFRED KARLSON

A veterinary geniusbelongs to Alpha Zeta, Cardinal Key and FarmHouse.

WALDO WEGNER

Last year's basketball captain—this year's Big Six center—Varsity "I" —Sigma Pi—a swell fellow.

FRANK HOOD

A 6-letter man—basketball captain—Varsity "I"—football.

GALEN MEUWISSEN

(You pronounce it) editor of this book— Dairy Club—Veishea open house—one of the Sigma Chis who are interested in Delta Delta Delta.

TOM SCOTT

Dynamo speed on the track—Scabbard and Blade—Varsity "I"—Pi Kappa Alpha.

HARLIE ZIMMERMAN

The diver superb president of Dairy Club and of Memorial Union Student Council—a Phi Delt, so naturally interested in a Gamma Phi—a scholar and a gentleman.

HILDE KRONSHAGE

As president, looks after the Tri Delts—industrious Delta Phi Delta—Phi U p s il o n. Omicron—H o m e Ec Council.

C. A. IVERSON

Professor in dairy industry—faculty advisor for Veishea Central Committee; member of Cardinal Key; most popular chaperon on the campus.

ROY KLINE

St. Patrick himself does a good job of editing the Iowa Engineer —a Sigma Alpha Epsilon—and a fine fellow.

CARL HAMILTON

"Ham," Editor-in-Chief of the Student—an enthusiastic member of the activities fee committee—Cardinal Key —Cardinal Guild. Past editor of the Iowa Homemaker—graduated at the end of fall quarter and stepped into an excellent posi-

GERTRUDE HENDRIKS

into an excellent position—a Theta Sigma Phi because of excellent journalistic ability —home-economically a Phi Upsilon Omicron.

DON THEOPHILUS

Famous football captain—fullback—socially a Delta Upsilon—scholastically an honor student.

PAUL BERGER

A mainstay in athletics — football — track — a member of Varsity "I".

WILBUR-yes Wilbur-LATHAM

Confuses many by looking like his twinagriculturally minded -Alpha Gamma Rho and Alpha Zeta-other honors?-dates a Tri Delt, is president of the Y. M. C. A., and a member of Cardinal Key.

VIRGINIA BRAYER

Dignified, but with a swell sense of humor -guided A. W. S. through a convention or two-does her part to make Veishea a success - enthusiastic about Campus Varieties -Cardinal Guid-Mortar Board-Phi Upsilon Omicron.

HUGO OTOPALIK

Wrestling coach who produces champions still hopes to beat Oklahoma—latest campus author.

DON MCGUINESS

Alias the Duke of Undaware—manages everything, including the Student, the Green Gander, Cardinal Key and the Bomb Board is a Sigma Alpha Epsil on — distinguished himself by being the only male on the Iowa Homemaker staff.

KARL FEISE

A Yellow Jacketwields a mighty paddle in Varsity 'I' initiations - swimmer -Knight of St. Patrickchief Pi Phi sponsor.

HORACE CHENEY

An excellent judge of man and beast—a member of FarmHouse —Alpha Zeta—Cardinal Key.

WALTER KEFFER

Business manager of the Bomb—holds the pay-check over the editor—youngest looking senior in college— Scabbard and Blade— Knight of St. Patrick— Alpha Chi Sigma—Sigma Chi.

TOLBERT MACRAE

Head and professor of music—a college entertainer—the backbone of the Men's Glee Club.

CARLTON STODDARD

The inspiration for Homemaker poetry and a connoisseur of English poetry—business manager of the Student—Green Gander—and anything else journalistic.

PERSONALITIES

BETTY SPARLING

Once guarded the cof-fers of A. W. S.—wears the cloak of Mortar Board—can be found at any time on the W. A. A. field—Jack O'Lantern.

JANICE STILLIANS

An energetic president of the Home Economics Club—active in Phi Upsilon Omicron, Mor-tar Board, Cardinal Guild—Jack O'Lantern.

GRACE RAFFETY

A peppy president of Y. W. C. A. and Mortar Board—a member of Phi Upsilon Omicron— wears the white sweater of Cardinal Guild.

GERALD SEAMAN

Blieves in combining agriculture and jour-nalism—editor of Iows Agriculturist — Alpha Zeta—Cardinal Key— Delta Chi.

Mrs. I. A. Merchant Retired director of social life—now directs Professor Merchant— charming to the nth degree.

H. V. GASKILL

H. V. GASKILL Professor of psychology —and humor—k e e ps classes in continual laughter—drives a car much too big for such a small guy—addresses all students as Brother and Siter and Sister.

HAROLD TIMM

Knows agriculture from A to Z-belongs to American Society of to American Society of Agronomy—Alpha Zeta —judging teams—acted as chairman of the farm crops and soils open house last year— a member of the not-a ble Interfraternity Council—Alpha Gam-ma Rho.

MARGARET STANTON

New director of social life—old auditor for the college—plans most of the social functions and attends them herselfcharming, gracious.

THE American Society of Mechanical Engineers is a national professional society of Mechanical Engineers. The student branch is an undergraduate society for the purpose of acquainting the student with the practical side of the field of Mechanical Engineering. All members of the student branch are student members of the national organization and are eligible for junior membership upon graduation. The local branch sponsors smokers, technical lectures, eduations and an entry membership upon graduation.

The local branch sponsors smokers, technical lectures, educational pictures, manages the open house for the Mechanical Engineering Department for Veishea, as well as being affiliated with the work of the national organization.

IOWA STATE STUDENT

IOWA STATE STUDENT

CARLTON STODDARD

HE Iowa State Student serves as a practical workshop for the journalism students on the campus. It affords a major activity for some sixty students, many of whom are not professionally interested in newspaper work but who wish to acquaint themselves with newspapering.

The Student is managed entirely by an undergraduate staff, which finds in it a medium for expression and decision, quite unrestricted by faculty or administrative influence. On the campus it serves as a reflection of student life and opinion. During the past year, under the activities fee and a circulation therefore increased to more than

4,000, the Student has been able to more adequately serve the campus community in the medium of a progressive newspaper.

MAGAZINE for Homemakers from a Homemakers' School—aptly describes the Iowa Homemaker, the only magazine of its kind in the country.

The staff, learning new principles in daily classes and actually applying them, is well able to bring new technical facts and information to the public.

As a divisional magazine it has attempted to keep campus women informed and up-to-date.

Technical articles, helpful hints, trade information and other material of interest to workers in this field is found on its pages. The Homemaker began its existence in April, 1921, and has a large circulation outside of the college.

THETA SIGMA PHI

A PPRECIATION of good journalism and higher standards of writing have been the goals of members of Theta Sigma Phi, women's professional journalistic society, this year.

A series of meetings was devoted to the study of humor, its principles, forms and origin.

This organization entertained Miss Bess Rowe, staff member of The Farmer's Wife, at a luncheon. Its members had charge of sales for every issue of the Green Gander, humor magazine.

Each spring Theta Sigma Phi honors women interested in journalism at Matrix Table, its annual spring banquet.

OWA STATE PLAYERS

THE LATE CHRISTOPHER BEAN

DR. HAGGETT and his family, in a small New England town, have given refuge to Christopher Bean, an artist without reputation and in poor health. Some years after Bean's death, as the play begins, he has become famous and an excited world is in pursuit of his works. The Haggetts, who have some of Bean's works, which they have heretofore believed worthless, learn of their value and become hard, selfish and ill-tempered in their struggle to gain a fortune from the sale of the pictures. The play ends with the revelation that Abby, the family servant, the only one who really understood and appreciated the artist, is also his wife by a secret marriage and is thus the rightful owner of the pictures, with which she refuses to part.

MEN'S GLEE CLUB

WENTY-FOUR singers from the Men's Glee Club toured northern Iowa and southern Minnesota this spring, giving concerts before alumni groups and musical societies.

At Christmas time the glee club took part in the singing of Handel's "Messiah," and on Easter Sunday the group sang Mendelssohn's "Hymn of Praise."

The men's organization, combined with the Girls' Glee Club, gave several other concerts during the year at chapel services and Twilight Musicales on Sunday evenings.

HI MU ALPHA made it possible for musical talent of national fame to come to Iowa State College this year in the Artist Concert Series. John Charles Thomas, baritone, the Minneapolis Symphony Orchestra, and Poldi Mildner, pianist, were enthusiastically received by students and faculty.

The interfraternity singing contest was sponsored by Phi Mu Alpha, and a concert made up entirely of music by American composers was given this year.

Regular meetings of this honorary music fraternity are of a program nature with emphasis upon music appreciation.

WA STATE BAND

PROVIDING music and pep for college activities kept the Iowa State Band busy this year.

Two concerts, a trip to Lincoln with the football team, and to Drake for the relays were part of the band's program. At home football and basketball games the blue and red uniforms of band members were always to be seen in the cheering section.

HE Iowa State Symphony Orchestra, one of the more cultural activities of

the school, has given three concerts this year.

One of the Lecture Series consisted of selec-tions by this group. The orchestra played at a Twilight Musicale last winter, and it will play a final concert Baccalaureate Sunday.

The accompaniment for "The Messiah," pre-sented at Christmas time, was played by the Symphony Orchestra.

I^{*}OR three days each spring quarter Iowa State College forgets study, dons its most festive attire and welcomes friends, alumni and prospective students to Veishea.

A parade of all the departments opens the celebration. Open houses, athletic contests, nite shows and dances are arranged for the special entertainment of the sightseers.

Practically each member of the student body helps to make Veishea a success. "Have You a Job? Veishea Needs You," is the slogan among students for weeks preceding the gala weekend.

The Veishea Central Committee is the managing force which appoints committees and generally oversees all the arrangements.

"The Student Prince"

HIS is the story of a prince who is permitted to leave his parental castle for a year, during which time he is to prepare himself for ascending the throne. He has been tutored by Dr. Engel, who takes the prince to Heidelberg. While at the University he becomes a member of the student corps and has the usual escapades. The prince falls in love with Kathie, a waitress, who realizes the difference in their stations, but agrees to elope with him and leave the kingdom. However, at the wrong moment the king dies, the elopement is upset, and the prince is forced to return to the royal castle and marry the Princess Margaret.

Military Training Iowa State's Men For National Defense

Capt. Matlack Capt. Warner Capt. Lewis Lieut. Storke Lieut. Van Giesen Lieut. Col. Odell Capt. Hill

A FTER two years of required drill in military training, students may decide whether or not they desire to continue in the advanced course of two years. When the advanced training is completed, the graduate is qualified for a commission in the Organized Reserve Corps.

During the advanced course the student acts as a cadet officer and assists in training the beginning military classes. This experience gives training in military leadership. Engineering students are usually assigned to

engineering units, where they are taught the fundamentals of army engineering. Other students are assigned to field artillery units.

LIEUT. COLONEL OFELL

RESERVE OFFICERS TRAINING CORPS

CADET OFFICERS' ASSOCIATION

GLENN TROYAK

GLENN TROYAK

CHARLES ROY ELMORE HOFF HE Cadet Officers' Association is made up of all junior and senior students taking the advanced courses in military training at Iowa State College.

Special effort is directed by this group to interesting freshman and sophomore students in continuing their military course beyond the required two years. The advancement and betterment of the Military Department is the general aim of the Cadet Officers' Association.

President

Vice-President Treasurer

The highlight of the year's activity for the Cadet Officers' Association was the annual Military Circus held in the Armory. This brilliant affair began with a grand parade of all participants. Riding of all kinds by both men and women was featured. Clowns were there in flashing red, yellow and orange suits, scaling walls, swinging on trapezes and falling off horses. The DeLofto troupe of acrobats was part of the program.

The Cadet Officers end the year's work with an outdoor picnic held in the spring.

HE aim of all good military students is membership in Scabbard and Blade. This organization, a national honorary for advanced military students, seeks to raise the standards of drill in colleges, foster the essential qualities of good officers, and promote good fellowship among cadet officers.

The colorful Military Ball, with is flash of saber and arch of steel, was sponsored by Scabbard and Blade. Formal pledging for new students elected to membership took place at the dance. During the year two other uniformals were held for members.

B_{EATING} the State University in rifle shooting was the achievement of the Iowa State Rifle Team this year. Among all the colleges in the Seventh Corps Area, the team placed fifth, and J. H. Butterworth was high individual scoring man. Because of this record, the Iowa State Rifle Team has a chance of engaging in national competition.

F

Dual shooting matches with several other schools were held during the year.

BARBARA APPLE.

Interested in a dozen activities, Barbara has been doing her bit since her prep days, when she was elected secretary of her class. Some of her major activities are: President of Jack O'Lantern and Phi Upsilon Omicron, secretary of Theta Sigma Phi, secretary and treasurer of A. W. S., a member of the editorial staffs of the Homemaker and the Bomb. The Gamma Phi Betas claim her—the whole college is, proud of her.

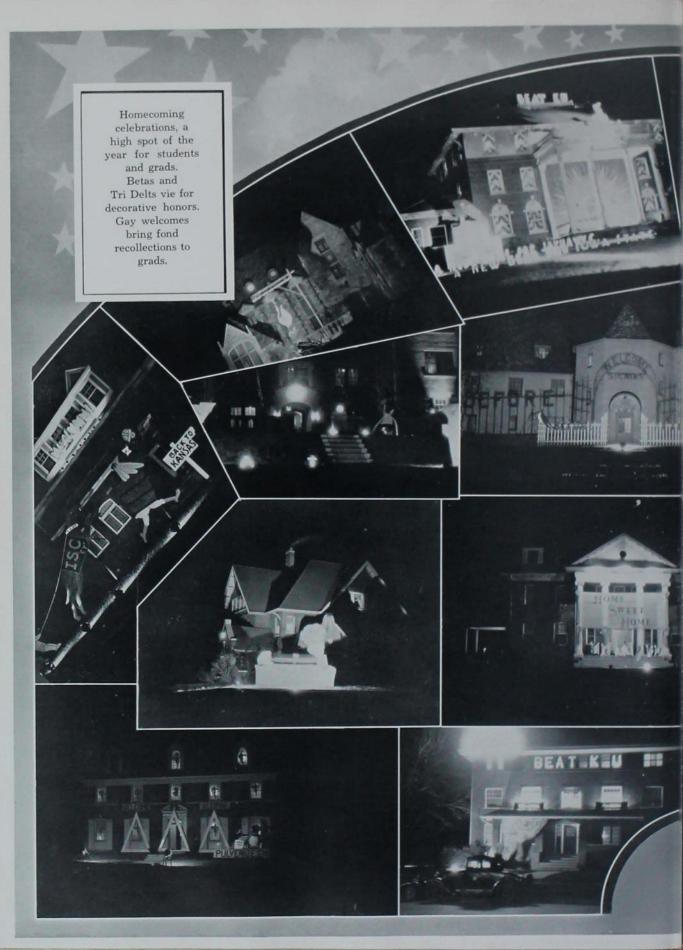

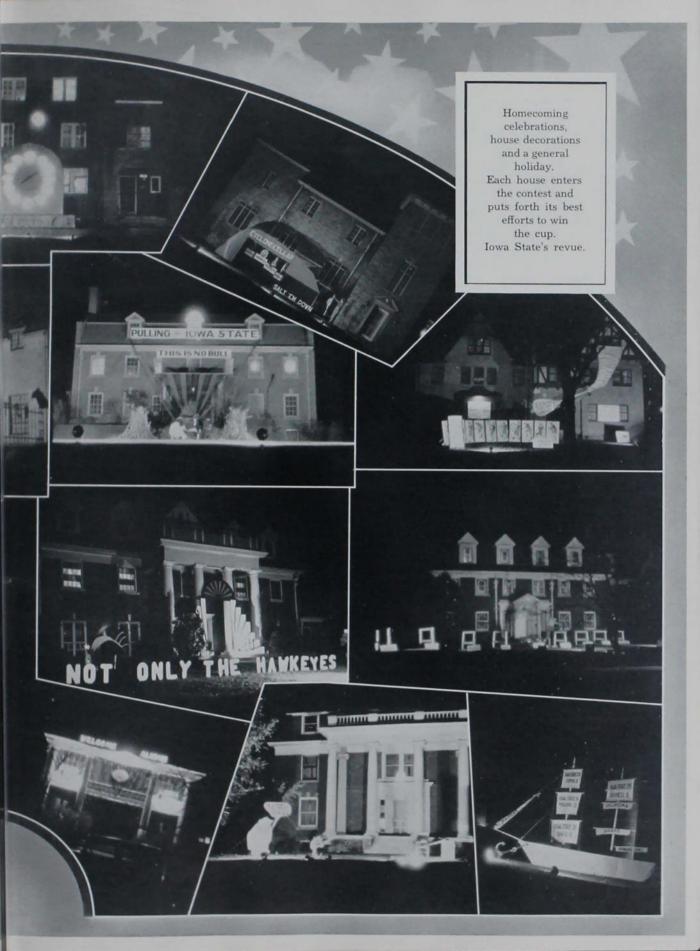

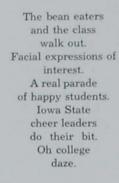

Enthusiastic football fans. Class walkout. Pep meeting at station. An impromptu band for the big walkout. Queen Martha and the second Ray. Also bean eaters.

ALL DE CO

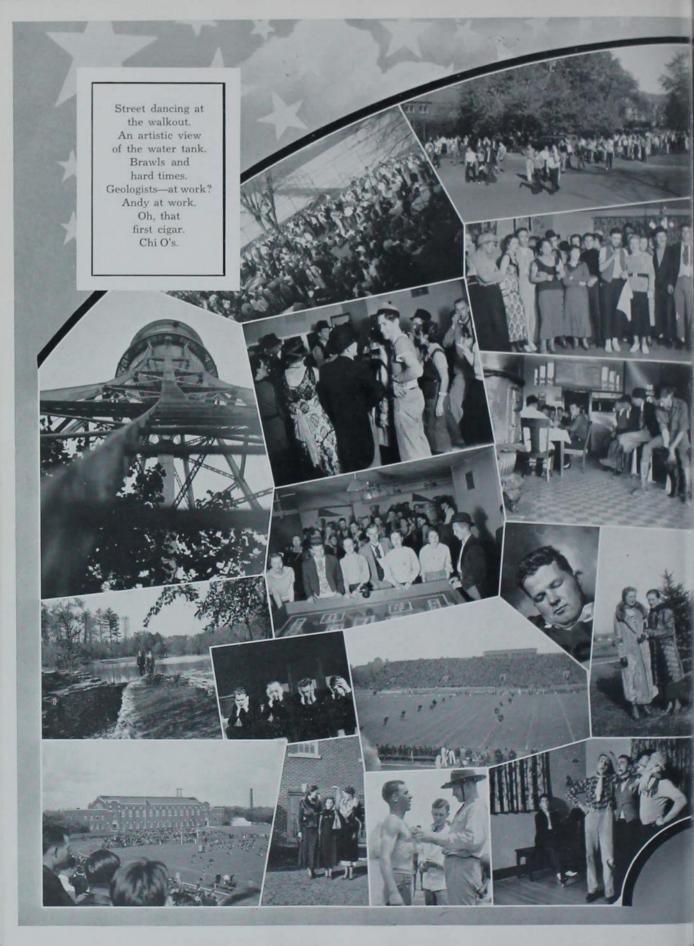

From Central's window. The men's gym. Where's Otopalik? More prepping. All the comforts of home and some cute coeds. And just to prove that Iowa State does have students. We see here?

Bomb Beauties

Presenting: Miss June Staman Miss Margaret Markert Miss Helen Johnson Miss Jeannette Ford

June Staman

One hundred thirty-two

Delicate, blonde, dainty—June's soft features and voice add to her loveliness. She is affiliated with the Gamma Phi Beta sorority.

Vivacious, petite—Margaret was chosen Engineers' Lady as well as a Bomb Beauty. This peppy little sophomore is a member of Pi Beta Phi sorority.

Johnson One hundred thirty-six

Sparkling brown eyes and flashing smile bring friends as well as beauty to Helen. Pi Beta Phi is proud to claim her.

Sannette Jord One hundred thirty-eight

Her flawless complexion, her sweet even temper, her willingness to cooperate, her good taste in clothes win friends for Jeannette. Pi Beta Phi is her sorority.

HILDE KRONSHAGE.

Fraternally-minded Hilde wins colors in every field. Delta Delta Delta chose her as its president. Omicron Nu, Chi Delta Phi and Phi Upsilon Omicron have honored her with membership. Most people would call this enough, but Hilde, a senior in Home Economics, is too much interested in Intramurals, Veishea, and the Homemaker's staff to neglect them. To know Hilde is to know the true meaning of fraternalism-friendliness and close association.

WOMEN'S PAN-HELLENIC ASSOCIATION

HE Women's Pan-Hellenic Council is organized to create friendliness among sororities on the campus.

Printed programs of the meetings were made and given to each member of the council this year. The histories of the various sororities furnished topics for some of the meetings. Every other time faculty advisors of the sororities were guests of the council at their meeting. The Women's Pan-Hellenic dance was held January 26.

The Women's Pan-Hellenic dance was held January 26. In the spring the council entertained all new and old house presidents and advisors at a banquet.

Miss Margaret Stanton was the new faculty advisor for the Women's Pan-Hellenic Council this year.

 $$\mathbf{T}_{\rm HE}$$ Interfraternity Council was reorganized this year to make each house president a member.

Harmony between fraternal groups is the goal of the council, and all problems mutually affecting the houses are discussed at the bi-weekly council meetings.

New students received valuable advice and suggestions of fraternity life in a handbook prepared for them by the council last year and distributed for the first time this fall.

The Men's Pan-Hellenic Ball, a formal dance held February 16, was a social affair for all fraternity men. Large lighted crests of every fraternity were displayed during the dance.

HE Ward System is an organization for the men on the campus who are not affiliated with fraternities and dormitories. Through this system a general and organized program of athletics and social life is carried out.

This year the Wards held exchanges with Greek organizations and participated for all college intramural championships in athletics. Mass meetings of all Wards and forum series within the groups are part of the general program. The "Ward News" serves to tie the groups together.

The Ward Executive Council is composed of the presidents of the various Wards and is the governing body of the Ward System.

TAPPING—passing through the crowd assembled for the May Fete during Veishea and slapping chosen men on the back—is the method used by active members of Cardinal Key to pledge new members and announce them to the public.

Membership is based on qualities of character, leadership, scholarship and service to Iowa State. Six graduating members are chosen, and six juniors who carry on the work of the organization during the following year.

Each fall and spring, Cardinal Key, in conjunction with Mortar Board, sponsors a Leadership Conference for problem discussions and leadership promotion on the campus.

LITTLE black pin, symbolic of leadership and scholarship, is the emblem worn by members of Mor-tar Board, national honorary for outstanding college women. Each spring, active senior members choose women from the junior class to carry on the organization during the next year. During the past year, Mortar Board sponsored Leadership Conferences for presidents of campus organizations, and as-sisted with the social program of Campus Varieties. Its members handle the sale of caps and gowns for seniors each year at graduation. It promotes vocational guidance and interest through experience stories written by alumnae members for the Iowa Homemaker.

LOWLY a procession of black robed figures, carrying lighted lanterns, wends its way across the campus to the foot of the campanile to the annual spring pledging of sophomore girls to Jack O'Lantern. This organization is an honorary fraternity for junior women who are selected because of their scholarship, attitudes and campus activities.

Some project of benefit to all women on the campus is carried out each year by the group. This year Jack O'Lantern gave the Y. W. C. A. a tea-set for twenty.

All freshmen and transfer students were invited to a Jack O'Lantern dance last fall. Jack O'Lantern members were present in their black robes. New students winter quarter were entertained by this honorary at a tea. In the spring outstanding sophomore women are guests of Jack O'Lantern at another tea. New members for the organization are selected from this group.

PHI UPSILON OMICRON

WO HUNDRED fruit cakes, measured,

mixed, baked and sold by members of Phi Upsilon Omicron, national professional home economics honorary, have added to the ever-increasing fund for student loans. A sale of honey comb candles before Christmas and a movie, "Great Expectations," Dickens' famous novel, were sponsored by Phi U.

On December 6, Bess M. Rowe of the "Farmer's Wife," was brought to the campus by Phi Upsilon Omicron in conjunction with Omicron Nu, as a speaker for the Ellen H. Richards Convocation.

Other activities, in addition to monthly meetings held at the homes of faculty members, were a fireside, Founders' Day Banquet, and a booth for the "Get Wise" meeting last fall. Members of Phi Upsilon Omicron interest high school girls in home economics through the annual Vocational Homemaking Congress during Veishea, and contact college girls of high scholastic standing who are out of school, encouraging them to return.

A MATHEMATICAL club for the general public was sponsored by Pi Mu Epsilon, honorary mathematical fraternity, this year. The programs included proofs of geometrical formulae, discussions of probability, mathematical oddities, and related subjects. Regular meetings of this club were held monthly.

Pi Mu Epsilon also offered prizes for students in mathematics this year, and aided the mathematics department in preparing and handling the Veishea displays.

TAU BETA PI is the goal of nearly every engineering student. Its membership is an honor reserved for those outstanding engineers who have achieved a high scholastic rating along with a record of service in activities and a reputation for sterling character.

Iowa Alpha of Tau Beta Pi was installed in 1908. Organized in 1885, Tau Beta Pi now has 66 chapters and a membership of over 20,000.

Business, educational and social meetings are held throughout the year.

faculty and in service to the college, Eta Kappa Nu has enjoyed a most successful year.

This honorary organization for electrical engineering students believes that social training is as important in a student's life as technical training. As part of the social training that Eta Kappa Nu offers its members, impromptu meetings with faculty members and a rating system of personality characteristics for seniors have been worked out.

Closer cooperation with students and faculty and mutual benefit for both groups in the electrical engineering profession have always been the aims of Eta Kappa Nu. Scholarship among members is also stressed, and each year the chapter presents an award to the sophomore student in the department with the highest scholastic average.

SIGMA DELTA CHI

D IGMA DELTA CHI, professional journalistic fraternity, this year sponsored the second of an annual forum series discussing pertinent topics of interest to newspapers and newspaper readers which culminated in the traditional Gridiron Banquet, "roasting party" to which are invited faculty members, Ames townspeople, newspapermen of Iowa and a few students.

This year the Iowa State chapter was rated second in the efficiency contest sponsored by the national chapter. Sigma Delta Chi each year presents a watch to the undergraduate doing the best editorial work on the campus. It also gives scholarship certificates, and has established a plaque on which is placed the name of the journalism student receiving the highest grades.

Sigma Delta Chi publishes the Green Gander in collaboration with Theta Sigma Phi. It is made up of men students of journalism with professional intent.

HROUGHOUT the long years in which the Young Men's Christian Association of Iowa State College has been in existence, there have been many changes in program. Always the emphasis has been on methods and procedures for building a better world by instilling in the lives of undergraduates high purposes and worthy objectives. Throughout all its program the Y. M. C. A. has held the Christian ideal uppermost.

This year the Y. M. C. A. has done much activity with the Iowa high school boys' Hi-Y Club at Welch school. A camp for freshmen was held this year at Boone.

A dinner for all fraternity pledges, a new social event for the college, was sponsored by the Y. M. C. A. The quartette traveled over the state and several deputation trips were made to other schools and institutions.

The Y. M. C. A. joined with the Y. W. C. A. to sponsor Religious Emphasis Week last fall.

HE Young Women's Christian Association was organized this year into groups planned by the cabinet to study the particular needs of the campus during the quarter. Each quarter five or six of these groups, under the direction of a cabinet member, held interesting discussion and social meetings. Faculty members and towns people were frequent guest speakers at the meetings. Philosophy, international relations, economics and literature were some of the topics studied. The Clippers' Club was organized this year as an hour for collecting poetry.

During winter quarter the Y. W. C. A. sponsored a short training course for senior girls expecting to teach in Girl Reserve training.

The Y. W. C. A. joined with the Y. M. C. A. and sponsored the all-college mixer and Religious Emphasis Week.

FORESTRY CLUB

HE aims of the Forestry Club are to develop a spiirt of comradeship among Iowa State foresters; to create an interest in topics relating to forestry among students of the department; and to provide for the publication of an annual magazine.

The publication of the club is called "The Ames Forester." It is of a semi-technical nature, dealing with the activities of the club and alumni.

The Forestry Club was founded in the spring of 1912, and every student enrolled in technical forestry is eligible for membership. Meetings are held in the evening on every other Thursday. The club, during the 1934-1935 school year sponsored two campfires, a game banquet, the Hoedown, and a banquet.

Foresters can be recognized by the green "stag shirts" that they wear on the campus. This shirt, bearing the foresters' emblem, the pine tree, was adopted by the club in 1914.

MARTHA ROBERTS.

A chubby Pep Queen, peering out of a racoon coat, received cheers and flowers at the Homecoming Barbecue last fall. Later, protesting a cold, she surprised dancers at the Homecoming Dance by singing exceptionally well. Besides being very much interested in music, this Sigma Alpha lota neophyte enjoys playing tennis (deck and otherwise), wearing 'mums to football games, and watching lowa State beat lowa U.

GEORGE F. VEENKER Director of Athletics IN HIS four years as football coach at Iowa State, Director of Athletics George F. Veenker has developed a reputation for giving Cyclone grid fans surprises.

First notice of this leaning came in the fall of 1931. He took a team that had not seen victory for two seasons and nursed it along until it was in a position to play Nebraska

for the Big Six title. Nebraska won. Last fall his men were the week's national sensation when they trounced the State University of Iowa 31-6.

In the past year of his regime as director of athletics Coach Veenker has brought several new features to the Iowa State athletic plant. Thirteen acres were added to the intramural field north of the tennis courts and west of the Armory, bringing the total to 35 acres. Three new tennis courts were built. In cooperation with President R. M. Hughes a bowling green was built. Putting greens were constructed between the running track and the Gymnasium. The capacity of the Gymnasium was increased to 3,500.

Of the activities fee, which went into effect at the beginning of the fall quarter, Coach Veenker says, "It proves to be a fine thing for morale. There is no doubt that the college is better off for it."

Quiet, never outspoken, this big Cyclone mentor places his words where they do the most good—and with a subtle humor.

DIRECTOR OF ATHLETICS

VARSITY "I" CLUB

VARSITY "I" CLUB members are chosen from men who have won a major "I" in some sport. A rugged initiation ceremony and a strong bond of fellowship mark the organization.

The Varsity "I" dance held in State Gymnasium during the fall quarter served as a pep dance during the football season; the Blanket Carnival, in spring quarter, provided funds for the purchase of "I" blankets for the graduating members of the club.

The Varsity "T" Club has endeavored to demonstrate and promote good sportsmanship among the crowds at Iowa State athletic contests, and has done considerable work at popularizing Iowa State College among high school athletes.

Poole Cowen Feise Cowan Grefe Porter Wegner Templeton Catron Zimmerman Friley Loyd Grant Oberg Way Murphy Freeman Theophilus Dixon Brown Hood Whitmore Gute Holmes Williams Winter Griffin Matthews Thayer Schafroth Birney Smith Scott Ruggles Neal Roberts Wilson Herrick Nelson Hayes A TFOOTBALL games, Coach George Veenker is the noncommittal, hatted pacer-of-the-sidelines. At squad workouts he is the leader in a baseball cap and blue jersey. After dinner he leaves his cigar to give his hearers short, terse talks that never tire. Coach Veenker's dry wit tickles, but rarely irks his men.

GEORGE VEENKER

LOUIS E. MENZE

HUGO OTOPALIK

MAKER of champions—Coach Louis Menze came to Iowa State in 1929 to take over the basketball reins. After six seasons of indifferent success he gave fans his 1935 edition, the greatest basketball team ever to represent the school. He coaches teamwork. Head coach of freshman football is another title to which he answers.

A NOTHER year of green material, yet Coach Hugo Otopalik tutored his matmen to second place in the Big Six conference this season. Coach Otopalik's physical education classes are always high spots in the underclassmen's college course. Golf, now a minor sport, keeps him handing out advice in the spring.

COACH C. E. (Jake) Daubert, better known for his swimming teams and record-breakers, is also outstanding in the life saving field. His Red Cross Life Saving Corps is one of the largest units in the country. Jake's hobby, the DeLofto Troupe, provides entertainment for many college events during the year.

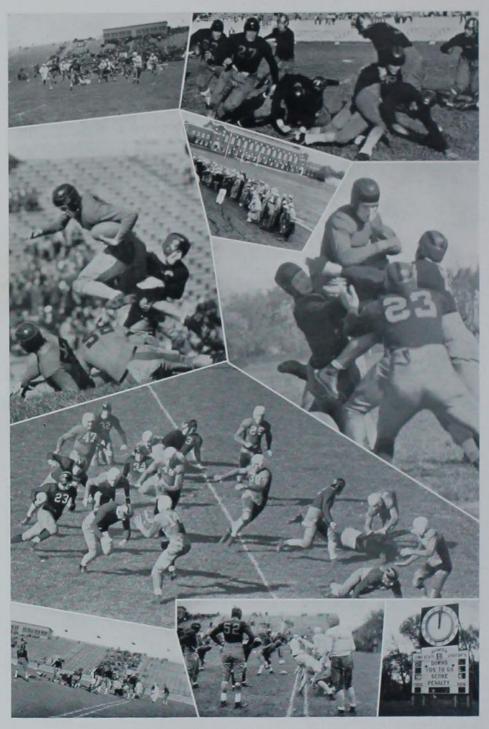

BOB SIMPSON'S 1934 track team helped make it a great year for Iowa State athletics by winning the state title. Former holder of nearly every world hurdling mark and father of the present style of high hurdling, he has seen his own athletes erase his name from parts of the record book.

BOB SIMPSON

JOE TRUSKOWSKI

JOE TRUSKOWSKI, former Michigan three sport man, was last summer appointed Cyclone baseball coach after two years as frosh coach in that sport. Picturesque phrases brighten up his lectures to the ball players. In the fall he helps Veenker on the gridiron and in the winter he prepares freshmen for Menze's basketball teams.

BIRNEY follows interference—the Yellow Jackets perform—Miller backs up the defense— Miller starts on an off-tackle run—the Cyclones open up for a touchdown—Iowa State 23, Luther 3.

Kansas State College, at Manhattan	0	20

Schafroth Oberg Brown Gute Kroeger Poole Gustine Truskowski Birney Berger Loyd Catron Hood Grefe Hayes Barker Allender Neal Garner Theophilus Winter Harlan Miller Veenker

Miller Hood Berger Catron Williams A STRONGER and faster eleven than in several years, said pre-season dope. "They won't be champions," declared Coach George Veenker.

Both of these predictions were faultlessly correct, and the combination gave Iowa State football fans the most thrilling gridiron season that they have had since 1931, when Iowa State lost only one conference game.

Iowa State had a team that was strong and fast. They did not turn out to be champions in their conference and ended up in the same fifth place that they had held the year before. But—there is no doubt in the minds of those who saw the Cyclones drub the University of Iowa and nearly break the Nebraska jinx that Iowa State had a team of top power. Every team in the Big Six conference feared Iowa State. The Iowa State game was the one to point for. Coach Veenker's men commanded respect.

 $\mathbb{I}_{\mathbb{N}}$ Iowa the Cyclones stood head and shoulders above any other team. Luther, Grinnell, Drake and the State University all fell on State Field before the deadly blocking and elusive running of the Iowa State backs.

Rarely did the forward wall submit to reverses at the hands of state teams in these games. Captain Don Theophilus, Marlowe Williams and Bill Allender blocked with machine-like accuracy while Tom Neal and Harold Miller snaked in and out for yardage that chalked up results on the scoreboard.

But to Fred Poole was left the most spectacular single day's work. It was Fred's toe that started the Iowa rout with a placekicked field goal early in the game. It was Fred's toe that repeatedly put the ball out of the reach of Oze Simmons, Iowa's Ebony El, hailed as "the greatest open field runner in America." It was Fred who turned in one of the best kicking distance averages recorded in college football.

FIVE Cyclones, Captain-elect Ike Hayes, Poole, Frank Hood, Neal and Miller, were placed on "All Big Six" teams at the end of the season.

The whole Cyclone line, from Poole to Frank Hood, showed its power consistently in the early games, and every man was recognized by one or another sports writer when the time for rewarding merit arrived.

Hunter Brown, a man who was playing his first as well as his last year with the Cardinal and Gold, held down the center position with rugged stability. On his right was Paul Berger, a veteran who had formerly been a tackle.

Captain-elect Hayes, 156 pounds and all fight, proved that the lightest guard in the conference was by no means the least. Hayes came to Iowa State meaning to be a backfield man. Shoved into

Two hundred thirty

the line, he made himself indispensible. Both tackles were newcomers. Marvin Oberg, with, like Brown, one year to serve, played a steady, dependable game on the right side of the line, and Harold Schafroth managed to be across the line on nearly every play.

On the whole, Coach Veenker expressed satisfaction at improvement made by many memAllender Theophilus Hayes Gute Harlan

bers of the team in several departments of the game, notably tackling.

DURING the first two weeks of practice for the season the team took all of its meals at a training table, which was instituted at Iowa State as well as all of the other Big Six schools as the result of a conference ruling adopted in the spring of 1934. Because of this project it was generally felt that the team was able to reach peak condition much sooner than it had in previous seasons.

The effect of the training table was possibly reflected in the early part of the season, Iowa State winning the first three starts, Luther, Grinnell and Missouri, without hitting its full stride. The fourth game, which was with Iowa, was the game to win for every member of the team. Members will testify that they had begun to worry about this game in the middle of the summer. Consequently, the boys were on their toes, took advantage of every break, and proved themselves potentially unbeatable. The following week enthusiasm was still high, but so was the wind. Nebraska, outgained and outnumbered in first downs, managed to kick the winning point for a 7-6 score. From that time fate varied. The Jayhawk giant-killers stopped the Cyclones completely for a scoreless tie at a muddy homecoming game, then Oklahoma took full measure of the boys, who returned to Ames the following week to "take it out on Drake." Conference champ Kansas State breezed through an Iowa State team "nothing like the one that played Nebraska" as the season ended for the Cyclone.

I owa STATE'S Cyclone made its debut by downing Luther College 23-3, September 29. A first quarter flash of brilliant play brought Iowa State a touchdown by Allender.

In the fourth quarter, with the score 10-3, the starting lineup was run into the game, and, with Allender and Neal sharing the ball-toting the Luther goal was crossed twice, Allender making both touchdowns.

The following Saturday the Cyclones, hosts to Grinnell, were slow getting under way, and when they finally assumed their full power, they were on the short end of a 6-0 score. On the kick-off after the Grinnell touchdown, Hood recovered the ball on the Pioneer 38-yard line. In five plays, Harold Miller galloped over the goal. From that point Grinnell seemed to lose its opening drive

FOOTBALL 1934

Garner Loyd Winter Kroeger Poole and the game was all Iowa State, ending 26-6. Tom Neal entered the game when the score was tied at 6-6 and immediately ran in two touchdowns to put the game on ice.

Another slow start at Missouri October 15 did not keep the Cyclone from looking like a champion. After the first quarter that was all Missouri the breeze raised its tempo to win 13-0. At the

opening of the second quarter Tom Neal ran the ball 41 yards from his own 27-yard line. From this point four plays, two perfect passes from Allender to Hood, left the Cyclones with a 6-point margin to work on. It was in the third quarter that Poole's deadly punting came into public acclaim. He placed three successive punts out of bounds within the Missouri 11-yard line. In the fourth quarter he sent one 75 yards against the wind. The second Iowa State counter came in the third period when the Cyclones marched from mid-field to a position for Tom Neal to run 20 yards untouched over the rival goal.

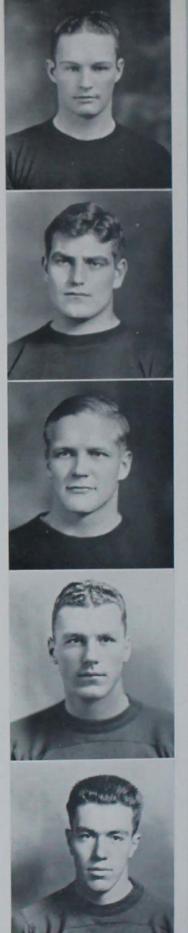

THE day before the Iowa game, betting was still in favor of the State University, but not as strongly as had been earlier. Iowa still had a team that was all-American, at least on paper. They had trounced Northwestern and had been beaten by Nebraska by the perennial one point. Still, the Cyclones had admittedly breezed through their first three wins. And on top of this, the boys were not handicapped by injuries. Their mental condition as well, was top notch, every member of the team having pointed for the game for months. Iowa had lost its leader, Captain Russ Fisher. True, they still had Dick Crayne and Oze Simmons, two of the country's best backs. But there was something lacking. When the Cyclones took the field for the 31-6 rout they looked like champions and were champions. They were keyed for every break. They hit hard. They literally "clicked." Soon after the opening whistle, Poole place-kicked one 30 yards into the wind for the first 3 points. Soon after, Ike Hayes recovered one of Oze Simmons' fumbles on the Iowa 8-yard line and two plays later Tom Neal stepped over the goal. Again, Hunter Brown recovered one of the Ebony Eel's muffs on the Iowa 17-yard line. A pass, Harold Birney to Neal, netted 4 yards, and Neal scored on the next play. Score, 17-0.

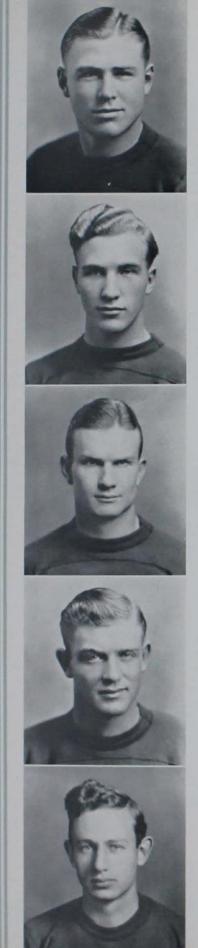

One drive led by Crayne in the third period netted the lone Hawk counter. Two brilliant runs, a 28-yard one by Neal and a 44-yard one by Miller, completed the drubbing.

The fates and a perverse wind kept the Cyclones, still "hot" from the week before, from the victory it deserved in Memorial Stadium at Lincoln the following Saturday. The score, 7-6, left another Iowa team the victim of a one-point defeat at the hands

OOTBALL 193

Two hundred thirty-two

of the Cornhuskers. Outgained on paper and on the field, Nebraska made a forward pass. Sauer to Cardwell, good for its lone touchdown, and then added one for the deciding margin. Led by a fighting Harold Miller, the Cyclones made two sustained drives the length of the field, making a touchdown on the second. Poole's kick, manhandled by the fickle breeze, kept the game for the Cornhuskers.

The 0-0 score of the Homecoming game the following week likewise indicated faithlessly the relative performance of the Cyclones and their opponents, the University of Kansas Jayhawks. This time the faithlessness favored Iowa State. Pushed all over the muddy field, the Cyclones, doped to win, were lucky to leave the field with their honor unstained. The entire game was a line battle.

Two thrusts by the Oklahoma Sooners in the first quarter at Norman gave them a 12-0 lead that proved to be the final score of the game. The first came after one of Poole's punts was blocked. A brief drive and Ben Poynor carried the ball over. Harold Miller blocked the conversion kick. Soon afterward, Harold Miller intercepted a pass on his own 3-yard stripe and returned to his 5. Poole's kick was blocked for the second Sooner touchdown.

SATURDAY, November 17, saw the Cyclones hosts to Drake in a determined battle to remain supreme in the state. The fierceness of the attack netted a 33-12 score. In the opening minutes, a pass, Allender to Don Grefe, was good for the initial mark. Soon after, Tom Neal made what was probably the most spectacular run on State Field during the season. Going around lef end behind interference that sent Drake men actually sprawling, Neal cut back diagonally to the right to run 78 yards to the Drake goal. The remaining Cyclone scores came in the second half when Neal and Allender each ran over markers, and Clarence Gustine caught a pass over the goal after it had bounced off two Drake blockers.

In the season's finale at Manhattan, the conference champion Kansas State Wildcats completely outclassed Iowa State to win 20-0. Late in the first quarter, Ayres of Kansas State returned a Cyclone punt to the Iowa State 25-yard line. In two plays, a pass to Freeland was good for the only score of the first half. In the second half a pass and a line smash from the Iowa State 31yard line netted the second Aggie counter and an intercepted pass which brought the Wildcats to the Cyclone 6-yard line resulted in the final touchdown.

GAMES PLAYED

Timm Schafroth Cowan Wegner Kilborn Thomson Hood Truskowski Bland Anderson Flemming Cowen Perkins Sweitzer Holmes Menze Wegner Holmes Cowen Hood Cowan I owa STATE'S 1935 basketball season will linger long in the minds of Cyclone fans—chiefly because of the record left on the books—the greatest by far of any ever made by a Cyclone cage team.

The first conference basketball title in Iowa State history was one honor that the tally of thirteen wins and three defeats brought to Coach Louis E.

Menze's men. Mythical supremacy in the state of Iowa was another honor. This distinction brought the year's third major state title to Ames, the other two being in track and football.

One feature of the season which may have contributed indirectly to the championship was the turnout for the games. There was a 40 percent pick-up in attendance over any previous season, due directly to the activities fee. Where few more than 2,000 spectators had ever before attended games in State Gymnasium, as many as 3,600 were present at games during the 1935 season.

PEP and enthusiasm bid fair to push out the walls of State Gym at times during the latter part of the season when the Big Six flag hopes began to glimmer and then to burst into full flame.

And through it all the team, headed by Capt. Frank Hood and Waldo Wegner, played championship ball, never letting up at the crucial points. Defense was at times impenetrable and offense was deadly in its precision. The Des Moines Register, in commenting on the Kansas game at Ames, said, "The Iowa State defense was almost perfect."

At the end of the season, Wegner and Captain-elect Torvald Holmes were accorded All Big Six team positions by the Des Moines Register. Wegner was second high in the conference individual scoring, being led by Ray Ebling of the Kansas team, which was seeking its fifth consecutive Big Six title. Holmes, a junior, won his place in the loop team by his general excellency in handling the ball and his ability to rise to the heights of performance when the going was tough.

JACK FLEMMING, the only sophomore regular, made a first string position for himself at the outset by his uncanny ability to hit the basket. In spite of the work of these three players, Iowa State would not have been at the top were it not for the steady team play of John Cowan, Jack Cowen and Captain Hood.

Coach Menze says of his champions, "There is no doubt that teamwork, and teamwork alone, was the factor that made the boys league leaders rather than merely a first division team. I have had Cyclone teams composed of stars with more experience than most of these men, but they only clicked occasionally, instead of constantly. These men had the right attitude and weren't afraid of hard work."

BASKETBALL 1935

Two hundred thirty-six

In their opening home game early in December, the Cyclones led all the way to down Coe 26-23, and a few days later they journeyed to Cedar Rapids for a return Coe game, winning 30-26.

The next game was played at the expense of Grinnell in State Gym, December 14. The score, 32-26, was no indication of the closeness of the battle, as but a few points separated the two teams until the closing minutes. Sweitzer Flemming Anderson Thomson Perkins

As the fall quarter closed, the Drake Fieldhouse saw the Missouri Valley co-champion Bulldogs give promise of things to come as Iowa State fought bitterly to a 28-27 win.

ON New YEAR'S DAY the State University brought another Big Ten title threat team to Ames, and went home on the short end of a 41-33 count as Iowa State recorded its fifth consecutive win of the season. After running up an 11-0 lead on the Hawks, the Cyclones dropped to the lesser end of an 18-15 score at halftime, but managed to get functioning again in the middle of the second half, in time to finish at the top without trouble. In this game, Wegner mixed with Ivan Blackmer, Hawkeye star, and emerged with 13 points.

Three days later Iowa State opened its Big Six championship drive with a 31-23 win over Missouri in State Gym. The game was Iowa State's in floor play, but was kept on the grill by Tiger long distance sniping, the score at the half being 16-16. Along in the middle of the second half, Torvald Holmes sneaked through the Missourians for the bucket that began the final Cyclone drive.

THE darkest moment in Iowa State's title drive came the following week, when Nebraska took another one-point victory at Lincoln, 32-31, dropping the Cyclone percentage to .500. Leading at the half, the Menzemen were unable to cope with a last 10 minute Husker drive.

Hopes looked up two days later as Kansas State fell before the Cyclones, 29-25, at Manhattan. A 22-7 halftime disadvantage proved the Wildcats' downfall. Wegner managed 6 baskets for top scoring.

A second win over Missouri in the Tiger stronghold clinched a conference third place for the Cyclones, the score being 37-28. Jack Flemming won his spurs beyond all dispute by accomplishing the double feat of holding star Ken Jorgenson to one basket while dropping 7 in the hole for himself.

State Gym saw Iowa State's teamwork gain another rung in the championship ladder Feb. 4, when the Oklahoma Sooners were knocked from their loop lead by the decisive score of 33-22. An early see-sawing lead changed to a safe Cyclone margin during the second quarter.

BASKETBALL 1935

The Iowa State-Oklahoma game

Iowa State's second setback came at Lawrence, Kansas, where the defending champion Jayhawkers displayed their traditional zip in the second half to win 35-18.

An overtime after a 40-40 score at the end of the game gave Iowa State a 50-44 victory over Oklahoma at Norman. Waldo Wegner continued his season's brilliant play in this game, garnering 19 points.

DRAKE, fresh from a decisive victory over the State University, came up to Ames Feb. 15 to dribble out a 45-42 win at the State's expense, handing the Cyclones their third and last drop.

Perhaps the most airtight game played by Iowa State during the season was the Kansas game at Ames, which the Cyclones won 32-20. It was this game that proved to be Iowa State's turning point. At no time during the game was Iowa State in arrears, and the starting lineup of Wegner, Holmes, Cowen, Cowan and Flemming played the entire game.

The second Nebraska game, played at Iowa State, was by no means a repetition of the first, the Cyclones winning handily, 22-14.

Kansas' double loss at the hands of Missouri preceding the Cyclone season finale with Kansas State in State Gym placed Iowa State in position to win the title.

A determined Kansas State team came to Ames, not to keep the championship in the home state, but to keep out of the cellar. Iowa State was also determined, and hung tenaciously to an early lead, to win in a blaze of glory, 39-31.

Berger Chisholm Sheetz Miller Nelson I owa STATE's fortune on track and field in 1934 brightened perceptibly as Coach Bob Simpson's men reigned supreme in their own state, winning the Iowa Intercollegiate Meet for the first time since 1917 and turning back every state foe met in dual competition.

The only setback the Cyclone runners encountered in their own state was a third place in the

Iowa Quadrangular Indoor Meet at Iowa City.

OUTSIDE of the state the going was a bit stiffer, the cindermen placing fourth at the Big Six Indoor Meet at Columbia, Missouri, and sixth in the conference indoor meet at Lincoln in the spring. Two dual meets with the University of Missouri were split, the Cyclones winning the indoor dual and the Tigers winning a close outdoor meet.

Three members of the team distinguished themselves by individual performance during the season. One of these three, Carl Ripper, was named on the national intercollegiate track honor roll.

Ripper, by virtue of a winning javelin heave of 206 feet 5 inches in the Kansas Relays at Lawrence, was placed on the honor roll and was also eligible to enter the national collegiate track and field meet at Los Angeles at the end of the school year.

K EN WESSLING topped all quarter milers in the state of Iowa and qualified for the national meet with his time of :48.5 made in the Drake outdoor meet.

Wayne Lyon, a sophomore, repeatedly pole vaulted with the best in the middlewest and climaxed his season by tieing the great Kansas trio, Clyde Coffman, Bob White and Glenn Gray at 13 feet 37/8 inches for first place in the Big Six outdoor meet. Coffman was a member of the 1932 American Olympic track team.

Coach Simpson, long a mentor of great distance runners and distance relay teams, turned to the higher speeds for his top relay group and gave Iowa tSate one of the fastest half-mile relay teams in the country. It was composed of Ike Nelson, Don Sheetz, Tom Scott and Wessling. Second only to the Texas University team in both the Kansas and the Drake Relays, this team easily outdistanced the great Marquette team, with Champion Ralph Metcalfe running anchor, in the Drake Relays. This team was champion in its own conference as well as in Iowa.

THE Cyclones started the indoor season at Columbia, defeating the Missouri Tigers 59-45, February 10. In this meet, Lyon made his debut as a college pole-vaulter by winning his event. He was followed by two teammates, Elton Whitmore and Glenn Cooper, giving Iowa State a grand slam in the pole vault. Wessling won the quarter mile and Vernon Guse, Iowa State's third

Two hundred forty

qualifier for the national meet, won the half mile.

The following Friday evening the Drake Bulldogs fell in the Drake Fieldhouse as Iowa State came out on the long end of a 59-45 count. The C y c lo n e s brought in eight firsts. Bob Freeman, hurdler, was individual performer of the meet, winning both the high and low hurdle events. Lyon and Cooper tied for first in the pole vault.

Feb. 24, the Grinnell team came to Ames to take a 70-34 beating. Iowa State won 9 first places in this meet and took slams in the pole vault and broad jump.

 T_{HE} Big Six meet at Columbia the following Saturday found Iowa State battling with Kansas State and Missouri to keep out of the cellar. The Cyclones topped the three for fourth place as Kansas University, led by Star Glenn Cunningham, won the meet

In this meet Cunningham set conference indoor records in the mile and half-mile and ran anchor on the winning mile relay team. Guse of Iowa State ran second to Cunningham in the half mile. Wessling and Scott were second and third to Bart Ward of Oklahoma in the 440 and Freeman was second in the high hurdles.

The going took a definite turn for the worse March 17 when the defending state indoor champ Cyclones took the track at the state quadrangular indoor meet at Iowa City. The State University won the meet, seconded by Drake, Iowa State coming in third, ahead of Grinnell. Cooper won the pole vault, Sheetz the 70-yard dash and Guse the half-mile.

The Cyclones first tasted outdoor competition at the Kansas Relays April 21, where Carl Ripper and the half-mile team were outstanding. The relay team was second to the record-breaking Texas University team, and Ripper won the javelin with a heave of 206 feet 5 inches.

The following week Iowa State entered the Drake Relays at Des Moines, and both the relay team and Ripper placed second in the finals of their events. Ripper's throw of 206.8 feet was his best during the season, but he was bested by Bud Blair of Louisiana State University.

Missouri, still feeling the indoor trouncing earlier in the season, came to Ames May 5 and held a slight lead throughout the meet to win 69-62 from the Cyclones. In this meet, Ken Wessling gave promise of the performance to come during the season by running ahead of John Cooper, stellar Tiger 440-yard man to win the quarter-mile with a time of 0:49, a meet record.

The climax of the 1934 track season for Iowa State came May 12 at Grinnell, when the Cyclones garnered 42 7/60 points to take

4

TR

A

the state intercollegiate track title from the University of Iowa and Drake University, the defending champion. It was the first state championship the Cyclones had won since 1917.

Ripper again distinguished himself in the javelin, setting a new state record of 196 feet 7 11/16 inches to beat the distance of Mark Panther, Hawk-eye sophomore, by 2 inches.

Wessling topped the state quartermilers by running his event in 0: 49.9 on a muddy track. Guse was the half-mile champ and Whitmore and Cooper tied for first in the pole vault. Ike Nelson managed second places in both the 100yard and 220-yard dashes. The half-mile relay team continued its supremacy of the Midlands and Joe Porter was second in the discus.

The Big Six outdoor meet at Lincoln, May 19, found Iowa State, Kansas State and Missouri again battling for last, but this time the Cyclones were not so lucky and bumped hard into the cellar. The main feature of the meet was the manner in which Glenn Cunningham bluffed his way to wins in the half-mile, mile and two-mile races. In each event his time was slower than the best that his opponents had made during the season, but he managed to keep the pack slow enough in each case so that his killing sprint was sufficient to win.

It was the pole vault event at this meet in which Wayne Lyon barely missed the Iowa State College record and tied three of the country's best vaulters, Gray, Coffman and White, at 13 feet 37_8 inches for first place. The Iowa State half-mile team won to prove its claim to top honors in the Middlewest.

Drake fell easy prey to the Cyclone runners May 26 by a count of 84-47. Ken Wessling won the right to compete in the national meet that day when he ran his quartermile in 0: 48.5, coming within five-tenths of a second of the Iowa State record held by his old high school coach, "Deac" Wolters. He also won the 220-yard dash. Guse turned in dual wins, taking both the half-mile and the mile races, and Bob Freeman won both the high and low hurdles.

Otopalik Taylor Cranston Yarger Wilson Ruggles Smith Thomas Buck Thayer Matthews

Yarger Cranston Smith Thomas Wilson L ACK of material with experience again proved the partial downfall of an Iowa State wrestling team during the 1935 season.

The Cyclones, for years nationally prominent and leading in the grappling game, came through their campaign with a dual meet record of four wins and three losses, not a bad record, yet it was not up to past

performances. In two of the meets that were lost Iowa State managed 1½ points each and in the other two draws brought a lonely 3 points. Still, Coach Hugo Otopalik's men placed second in the Big Six, both in duals and in the conference meet, and downed the State University team, Big Ten runner-up.

KEITH CRANSTON was the only Cyclone to gain honors in the Big Six finals, drawing with his Oklahoma opponent, and for the first time in years Iowa State is without an undisputed Big Six champion to bolster its future hopes.

Glen Yarger, 1934 Big Six champion 118-pounder, was the only member of the team to fill one weight assignment all season. To Marshall Thayer was left the giant killing assignment of changing weights to suit the needs of the team. He wrestled in the 165 and 175-pound classes in dual meets, then went up to the heavyweight division for the conference meet, where he defeated two titleholders to gain a place in the finals.

Ralph Ruggles, brother of two former Cyclone grapplers, Kenneth and Art, kept the family name to the front by winning a fair share of his matches and making the conference finals along with six teammates, all of whom met with more or less reverses.

January 26, the University of Missouri team came to Ames for the season's opener, which Iowa State won 21½ to 16½. Although seven of the eight matches in this meet went by the fall route, the meet was slow, and nearly every match was one-sided. Ruggles showed the most class of any of the Cyclones in throwing Anderson of Missouri. Capt. Dave Matthews threw Ferguson of Missouri with a neat key lock that smacked of the days of the Hesses, Boyveys and Pruntys. John Catron wrestled to a draw with Conference Champion Fender of Missouri in the heavyweight division.

THE second meet, with Oklahoma at Ames, began the series of three of the most stunning defeats that Cyclone mat teams have ever received. The score was $28\frac{1}{2}-1\frac{1}{2}$, Ruggles being the only Cyclone to manage even a draw. Two falls and five decisions told the story for the Sooners. The feature match of the evening was that between Matthews and Robertson of Oklahoma. It was fast with both supplying much action and little advantage until the closing seconds.

1935 WRESTLING

Two hundred forty-four

The Kansas State mat team provided a breather for the Cyclones before their disastrous eastern trip. Iowa State, host to the Wildcats, won 16½-10½. Thayer, moved into the 175pound class, treated the fans to a performance that gave the oldtimers a treat as he threw Swift of Kansas State in 3 minutes flat. Cranston drew with Fanscher of Kansas State. This meet saw sev-

Buck Ruggles Thayer Matthews Catron

eral newcomers in the Iowa State lineup. Besides Cranston, there were Frank Linn in the 145-pound class and Jack Taylor in the 165-pound class.

THE following week, February 15 and 16, found the Cyclones in-

vading two Big Ten camps, Indiana and Illinois. They were turned back by the Indiana team $24\frac{1}{2}-1\frac{1}{2}$ and lost to the Illinois squad by a 25-3 count. Iowa State failed to win a single match during the two meets, but three went to draws. In commenting after the meets, Coach Otopalik said that the Iowa State grapplers had met two teams that no team in Cyclone history could have defeated.

In the Indiana meet Smith drew with his man to win Iowa State's $1\frac{1}{2}$ points, and at Urbana Ruggles and Thomas pulled in the markers.

The only one-sided meet in the Cyclones' favor was waged with the University of Nebraska team at Lincoln, the score being 25-3. Glen Yarger and Walter Smith won their matches by falls and Ruggles and Catron battled to draws. Otherwise the matches were decisions in favor of the Cyclones Cranston, Thomas, Wilson and Matthews.

February 27 found the Big Ten runner-up team, the University of Iowa, in State Gym. Another Iowa State team took the measure of its Iowa City rival. This time the score was $15\frac{1}{2}-10\frac{1}{2}$. Glen Yarger scored the only fall of the evening in throwing Sedlacek of Iowa with a double arm lock. The 5-point margin thus gained was carried throughout the whole meet and proved to be the margin of victory. Two decisions went to each team and there were three draws. Cranston and Walter Smith were the two Cyclones winning with time advantages.

THE Big Six meet held in Ames March 8 and 9 turned out to be the annual Cyclone-Sooner test, with the Oklahomans strong favorites to repeat their win of the previous year. Although Coach Otopalik's men were able to place 7 men to Oklahoma's 6 in the finals, they were unable to win a single final match and had to be content with the same second they had taken in 1934. Keith Cranston was the only Cyclone to score in the last round, wrestling to a draw with Fanscher of Kansas State. He and Fanscher had also drawn in their mtach in the Kansas State dual meet. Other Iowa State men in the finals were Yarger, Smith, Thomas, Ruggles, Matthews and Thayer.

George Steinmetz, Manager James Perry, Minor

THE 1934 Cyclone baseball team started out its season April 7 by administering an 11 to 5 beating to Simpson. The Cyclones started out as though they meant business by pushing two runs across the plate in their half of the first inning and following this with six more in the fifth with the help of Torvald Holmes' four-base clout with two runners on the bases.

With one scalp already hanging from their belts, the Cyclones traveled to Iowa City to play the University there in a two-game series. The first game, played April 13, saw the local ballhawks lose a loosely played game to their University rivals 6 to 2. Ossie Digranes was on the mound for the Cyclones.

 $T_{\text{HE next}}$ day, the Cyclones tried to turn the tide, but could not hit deliveries of Frohwein, the Iowa pitcher, who gave up only 5 hits. The Hawkeyes batted the ball all over the lot for a total of 15 base hits and came out on the long end of a 15 to 1 count.

In a return game series at Ames, the University of Iowa once again showed its superiority on April 20 by bunching 2 hits, mixed in with 2 free tickets to first base to make 3 runs in the sixth inning and win over the Cyclones, 5 to 1.

The following day Iowa U. made it four straight by again beating the Cyclones in a well-played game, 5 to 2, at State Field.

ON AFRIL 26 the Iowa State Teachers arrived in Ames to play the Cyclones, but in this game the Cyclones regained their lost batting eyes and belted the Teachers' pitcher out of the box in the third inning with a deluge of baseknocks, including home runs by Bert Aldrich and John Graveno for a total of 7 runs. The Cyclones kept picking away at everything the Teachers offered and ended the game far ahead, 15 to 6.

934 BASEBA

934 BASEBALL

The following day the Teachers reversed the tables by eking out an 8 to 7 victory over the battling Cyclones when they scored the deciding run in the first half of the ninth on 2 hits and 2 errors on the part of the Cyclone infielders.

ON MAY 4, with Holmes on the rubber for the Cyclones, they upset the dopebucket by beating the University of Nebraska at Lincoln to the tune of 6 to 4. Holmes pitched a beautiful game, issuing only 1 pass and striking out 5 men. Aldrich hit a home run in the seventh with Jim Perry on the cushions.

The next day the Nebraskans retaliated by taking a 13-inning thriller from the Cyclones and scoring 2 runs in the last half of the thirteenth to win, 13 to 12. The Cornhuskers let loose with a barrage of base-knocks to run the Cyclones ragged in the eighth inning by crossing the home plate 9 times.

After breaking even in the 2-game series at Lincoln, Nebraska journeyed to Ames to play a 2-game return series with the Cyclones, starting on May 19. The local sphere-chasers played a heads-up game, and committed only one error behind the fine pitching of Ossie Digranes to win, 6 to 3. "Tarzan" Jack Shea clouted a screaming line smash far into the handball courts for a home run in the third with Digranes scoring ahead of him.

MAY 11 saw the last game of the series played between the Cyclones and Nebraska and it was in this game that Holmes proved his worth by pitching a fine game, together with getting a home run, triple, single and walk in four times at bat. The Cyclones unleashed a miniature whirlwind of base-hits in the last half of the seventh to win, 9 to 8. Holmes again pitched the Cyclones to a victory over the Iowa State Teachers at Cedar Falls on May 17, the Cyclones being on the long end of a 6 to 4 total.

The next day the Cyclones met with stiff competition when they were trounced by the Upper Iowa baseball club, 13 to 8, at Fayette. Hughes, Upper Iowa, was the batting star, connecting safely four times and getting on first on a fielder's choice in the third.

The concluding game of the season was played against the Iowa State Teachers at Cedar Falls on May 19, and once more the Cyclones lost a heartbreaker, 5 to 4. The Teachers bunched 4 hits, mixed in with 3 Cyclone errors, and scored 5 runs in the first inning to get away to an early lead which they never relinquished.

FROM the outset Iowa State's 1935 swimming team met with indifferent success, mainly because Coach C. E. Daubert's tankers were not able to turn back three University of Nebraska tankers and consequently did not bring in their fifth victory in 6 years.

The Midwest A. A. U. meet inaugurated the tank season at Iowa State Feb. 1 and 2, with the State University team completely dominating the show. The Hawkeyes assaulted Midwest A. A. U. records at a terrific rate, finishing the 2-day session with seven in the bag. Every event was won by an Iowa City man.

A FTER the A. A. U. meet the Cyclones began their dual meet schedule with a home contest with Gustavus Adolphus College, winning 54-30. The 400yard and medley relay teams won their events handily, Murphy performed in his usual manner to win the 100-yard and 60-yard free style events in the exceptionally good times of :57 and :30.6, and was second to the Gusties' one man team, Haapaniema, in the 220. Haapiniema also won the 200-yard breast stroke. J. R. Smith and Harlie Zimmerman turned in Cyclone wins in the back stroke and fancy diving events.

The meet with Nebraska at Lincoln, Feb. 15, was merely a forecast of what was to take place in the conference meet later. The Cyclone relay teams won,

Daubert Starbuck Burkett Smith Feise Zimmerman Ralya Bovey Harding Fries Murphy Grant Holmberg

Harlie Zimmerman in a practice dive

and four Nebraskans, Smith, Lynde, Prixley and Kuklin, took all of the individual firsts. Iowa State won all of the second and third places.

Father met son at the pool in State Gym Feb. 20, when the Michigan State tank team, coached by Russell B. Daubert, son of the Cyclone mentor, met Captain Murphy and his mates. The father triumphed 54-30. Murphy turned in his best performance of the season, winning the 60, 100 and 220-yard free style events. Murphy's time in the 100 was : 56.7. In this meet Bob Burkett showed vastly improved form to place second behind Harryman of Michigan State in the 440-yard free-style.

WASHINGTON UNIVERSITY was the next tank team on the home program for Daubert's men. Starting with a win in the 400-yard relay, the Cyclones nursed a safe lead all the way to win 53-31. Jack Fries kept the ball rolling by topping the breats strokers and John Smith and Arthur Holmberg were first and third in the 150-yard back stroke.

Bob Burkett fulfilled early promise in the 440-yard swim by winning with a time of 5:42 to lower the varsity record of 1.9 seconds held by Smith.

Zimmerman and Dwight Bovey cleaned up first and second places in the fancy diving for the remaining Iowa State top positions.

THE second Gustavus Adolphus meet, at St. Peter, Minn., March 1, was won by Iowa State 40-34.

The following day the Cyclones went down to their worst defeat of the season before the University of Minnesota team at Minenapolis. The score was 58-26. Iowa State's only firsts were made by Zimmerman in fancy diving and Murphy in the 60-yard dash.

Entering the Big Six meet at Lincoln March 8 and 9, the defending champion Cyclones were faced with slim hopes of repeating. The Nebraskans swam true to earlier season form to break five individual records and win the meet with 54 points. The record-breaking time in the medley relay was 3:25.8, 7.2 seconds better than the old mark. Fries and Murphy were second in the 200yard breast stroke and the 50-yard dash, and Murphy added another second to his list in the 100-yard free style. Zimmerman was second in the dives.

JOHN MACRAE KARL MELENBACKER STANLEY PETERSON CHARLES TABOR

OLF, now a major sport at Iowa State College, is gaining in the realm of I athletics.

Iowa State's schedule included eight dual golf matches, and under the tutelage of Coach Hugo Otopalik, the Cyclones were victorious in three matches, lost four and tied one.

The first match was played against the State University at the Ames Country Club, April 14, where the Cyclones lost 10-8.

A PRIL 21 found the Cyclone golfers exchanging swings with the Drake Bulldogs at Des Moines. In doubles, the Cyclone foursome could not compete with the par-shooting of the Drake team, and the final score gave the Bulldogs the long end of an 11-7 total.

On April 26, the Cyclones met the University of Nebraska at Lincoln. The outcome was an 8-8 tie, with Tabor and MacRae shooting brilliant golf to keep the Cyclones in the thick of the battle.

Two days later, the University of Omaha journeyed to Ames to meet the Cyclones, only to lose by a 13-5 count at the Country Club.

In a return match with the University of Nebraska on May 15, at Ames, the Cyclones unleashed an attack that defeated the Nebraskans 91/2 to 81/2, making up for the tie played earlier in the season at Lincoln.

In the return match with the Drake Bulldogs at Des Moines, the improved Cyclones showed their superiority by whipping the Drake foursome 10-8. Melenbacker of Ames and Hird of Drake gave sterling exhibitions of golf throughout the match.

A T Iowa CITY, on May 18, the University par-shooters thoroughly drubbed the Cyclone troupe 14-4, thus making a clean sweep of the two-meet series played with the Cyclones.

The final match of the season saw the Cyclones tangle once more with the University of Omaha, May 26th. Still smarting from the defeat handed them earlier in the season by the Cyclones, the Omaha club-wielders evened the count to the tune of 12-6. In this match, Shuey and Blackledge replaced Tabor and MacRae, who, with Melenbacker and Peterson had played in most of the matches throughout the season.

LETTER AWARDS

Major Robert Hawley Gene Wallar Minor Howard Frazer Donald Hutton

F

The artful game of tennis has always proved its worth at Iowa State College and the Cyclones boast of an enviable record for the last few years.

The 1934 team was composed of Captain Gene Wallar, Bob Hawley—both seasoned veterans—and two less experienced men in the forms of Don Hutton and Howard Frazer.

The first game of the season was played at Iowa City against the University of Iowa, April 28. The Cyclones lost a well-played match to the University boys by the score of 5 to 1, Wallar being the only Cyclone to win his individual match.

O^N APRIL 30, at Lincoln, the Nebraska Huskers downed the Cyclones 5 to 1, Frazer being the only Cyclone who could cope with the Husker volleys. He won his singles match after dazzling sets of 7-5, 1-6, 6-3.

The Cyclones made up for the previous defeats by whitewashing the Drake Bulldogs at Des Moines on May 2. The Cyclones played faultless tennis to romp to a decisive 6 to 0 victory.

In a return match at Ames on May 5, Nebraska again took the measure of the Cyclones, winning all but the tennis court to whip the Cyclone hopes, 6 to 0.

May 11 saw the Cyclones again engaged in a bitter match with the Drake Bulldogs, but as in the previous encounter, the Cyclones showed that they were masters of the situation by once more topping the Bulldogs, 5 to 1. In this match, Frazer was the only Cyclone who failed to win his share of the encounter.

 $T_{\rm HE}$ Cyclones next traveled down to Lincoln to take part in the Big Six meet, held May 18 and 19. Wallar was defeated by Voss of Kansas in the second round of play and Hawley was also eliminated in the same round by Haegan of Nebraska. The Cyclone doubles team of Wallar and Hawley reached the semi-finals, only to lose to the sharp-shooting combination of Voss and Kell of Kansas.

In the concluding match of the season the University of Iowa took the measure of the Cyclones on May 21 at Ames by coming out ahead of the local racqueteers, 4 to 2. Wallar won his match handily, and the duo of Wallar and Hawley won their doubles match, for the second Cyclone point after thrilling sets of 7-5, 3-6 and 6-1.

 \mathbf{T}_{HE} College Cossacks is the only group of its kind in the country. It is composed of those students who are outstanding in horsemanship and who put on an exhibition of daredevil riding three times during the school year. These are at the Little International, the Military Circus and Veishea.

The College Cossacks are coached by a prominent rider, elected to that position yearly. They are entirely a self-supporting group.

The aim of the College Cossacks is to give opportunity to students who are not able to participate in athletics to take part in extra-curricular activity. It enables any student to become an expert horseman.

Men's Intramurals "They Played ,They Fought, They Won"

INTRAMURAL

UNDER the direction of Harry Schmidt, an intramural system has been set up at Iowa State which successfully reaches 77 percent of the male student body through the medium of competition in touch football, wrestling, track, handball, swimming, tennis, horeshoes, golf, basketball, bowling, volleyball, baseball, playground ball and fencing.

Mr. Schmidt has reached this large percentage through the organization of the wards, dormitories, fraternities and fraternity freshmen. The skill of the ward and dormitory athletes is recognized by the presentation of charms, and in the fraternity groups trophies are the rewards for proficiency. Last year Sigma Alpha Epsilon accrued the highest number

HARRY SCHMIDT, Director of points in the all-year competition to capture the huge traveling cup.

SCRAPS FROM A STUDENT'S SCRAPBOOK

A Solution

Great things (as well as other things) happened to Iowa State College in this year of our emancipation, nineteen hundred and thirtyfour-thirty-five (34-35), which officially began on registration day last spring and wound up in a blaze of basketball (Hi, Wag) at the end of the recently gone, but not forgotten, winter quarter.

High lights of the year, excluding the stars, included the Cardinal Guild's reckless abolishment of everything except the mosquitoes in

"They met the milkman . . . "

North Woods, the widespread conflagration on the campus last spring which optimistic people called a WSGA convention and the subsequent male protectorate organized over at Phi Delta Theta, the first appearance of Sketch, new inspiration to prep English flunkers, the gradual advent of summer, the bevy of beautiful freshman coeds which appeared on the campus in the fall, but either disappeared or rubbed the paint off, the discovery by the state that Iowa State played football, the Big Six basketball olive wreath, etc., et cetera, en how, en many more things.

The true facts are scarcely known to the campus, because true facts get around very early in the morning and in classes. Since students are asleep at both times they know nothing. For verification called T. & A. M. Department. The following pages (one follows another, you funny fellow) are extracts, excerpts, extollings, exams and all the other eggs from a student's scrapbook—facts, fantasies, foolishness and filosophy.

Intelligence Test

One magazine figured out a test to estimate how much you knew about what was happening around in this world. Another has devised a series of question ferrets for the corners of your brain. But nothing successful yet has been devised for the campus along such lines. The Phi Kappa Phi pledges proved (we already knew it) that you can't believe in psychologists, the women's questionnaire last spring didn't find out anything, and even the Romeo who asked his Juliet where she was last Saturday night doesn't know exactly where he stands when he gets through.

So, in view of the incompleteness of all previous intelligence examinations, it seems plausible to present a campus rater (not ratter) that will tell you exactly where you stand in the scale of brain ability. If you get in the fifties you might just as well go back home and start working for pappy, if you're in the sixties you

"The Twin Star's business was increased by 1,000 bags."

They understand him.

show a flicker of intelligence, in the seventies you're not at all bad, in the eighties you are smart enough to pass chem the second time, and in the nineties . . . well, what in hell did you take it for?

It is a survey of campus happenings within the past year; things you should know about; not from reading the papers, but from keeping your ears to the ground. Try it, and find out about yourself. There are 100 questions; the correct answers are at the end of this section, as well as at the end of your wits.

- Who was selected to succeed Professor Meeker as head of the Mechanical Engineering Department: Elwood, Diesel, Bailey, St. Patrick, Dana.
- The six stadium rats were: a group of expressions comparable to nuts, a half dozen Cyclone athletes, Coach Veenker's team of pet field mice, the six companies who held the bonds on the stadium, the six coaches who played handball every day.
- Jack Crawford is: a professional dancer, Otopalik's heavyweight grappler, president of the sophomore class, head of the Entomology Department, a band leader.
- The men's glee club gave concerts on its field trip last spring. 13, 12, 32, 7, kept still all the time.
- The first name which was selected for the present Sketch magazine was: The Bearded Roman, Scriptorium, LaVerne Ripples, The Literati, Derby's Endeavor.
- The chief topic of discussion (theme) of the W. S. G. A. conference here last spring was: successful blind dating, gold-digging as a declining art, the social aspects of grades, intelligence, rushing.
- In what class was it that the professor said "in other words" 86 times in an hour: English, economics, general engineering seminar, convocation, bull session.

- When Iowa State coeds cast their ballots on entertainment preferences, they favored: exchanges, picnics, Dutch dates, formals, libe dates.
- Miss Grace Hoover resigned her position as head of: the Anti-Sham Battle Movement, Applied Art Department, College Cossacks, Y. W. C. A., Iowa Homemaker.
- Brownie, unofficial assistant nite show manager at Iowa State last spring was: an ice cream sandwich, a monkey, champion pig, Dr. F. E. (Chem) Brown, the campus grass, a dog.
- 11. "Blue Cheese" was a name given to: reflection of moon on Lake LaVerne, faction in the senior class advocating blue as class color, dairy industry invention, name of Iowa State's champion Jersey at State Fair, a Sigma Nu cuss word.
- The Women's Intramural cup was won last spring by: Beta Theta Pi, Men's Glee Club, Kappa Delta, Al Hoppe, Pi Beta Phi.
- 13. Paulus J. H. Lange was selected to hurl the old apple on the all-college, all-time baseball team because: he could really throw it, he struck out so many English students, he gets by with more things, he can eat Union steaks, he understood curves.
- 14. The important individual who opened the gate to let the water into Lake LaVerne last spring was: John Pilmer (from the CCC camp), Dean Marston, President Hughes, Jo Tenor, the Duke.
- 15. When asked if they were satisfied with hours as they were, Iowa State coeds said: Okay, we have to stay out too late, we can't stay out late enough, what are the hours now, we don't want 8 o'clocks.
- The group destined to become famous for five-pounds was: physics weight laboratory, maternity ward in the College Hospital, Delta Delta Delta, Campus Drug, Gamma Phi.

Zimmerman said, "Eeny, meeny . . . "

What does L. I. D. mean?

- Official book checker-uppers found last spring that the Campus Varieties programs were: earning money, losing money, never heard of, dull, hard on one's feet.
- What national event was held on the campus last spring: 4-H Girls Convention, A. A. U. wrestling tourney, Dunkards, National Peace Conference, Republican Convention.
- The Apple Polishers Ball is put on by: the horticulture students, Walt Rognlien, the L. A.'s, the Association of University Professors, the Union of Graduate Students.
- The name of the Nite Show at Veishea last spring was: Chocolate Soldier, Tin Pan Alley, La Tosca, Student Prince, Pinafore
- How did the Cyclone grapplers place in the National A. A. U. tourney last year: first, fourth, last, third, in the money.
- "Where Iowa State meets to eat" is the slogan of: North Woods Picnic Association, Scoreboard, Phi Delta Theta, Guild Barbecue Committee, the Hec Division's cherry pie selling campaign during Veishea.
- The party which won 12 class offices in last spring's elections was: All-College, Dark Horse, Representative, Independent, Wild.
- One of these was a Bomb beauty last spring: Campus Idol, Jo Kennedy, Miss Sims, Little Audrey, Jean Porter.
- The party made famous for its anti-scalping efforts was: Military Ball, Foresters' Hoedown, Sham Battle, Ax-grinders' Bawl, Senior Prom.
- A famous violinist who was on the campus last spring was: Caruso, Cornell, Elman, Brahms, Hawley.
- The Delicate Dellas were: a group of coeds who had to take very little school work because of ill-health, a brand of sandwich

served in the Union, stool pigeons, an organization of coeds dedicated to promote and demote campus romances, red-headed coeds.

- In a pair of baseball games with Iowa State Teachers' College, the Cyclones: halved the series, won both, lost both, were rained out, skipped out with TC coeds.
- One of these was elected president of Cardinal Guild last spring: Carl Hamilton. Wilbur Latham, Dr. J. F. Edwards, Virginia Brayer, Art Sterrenberg.
- Believe it or not, there is a bird in this list who has been cut out as the campus' professional treasurer: H. C. Gregg, Chuck Cownie, Grill cashier, Knute, Al Karlson
- Who was it that originated the name for Veishea: Bradstreet & Dunn, Bomb editor, "Shorty" Paine, Mary Lyon, Wallace Barron.
- The opening convocation for Veishea last year was addressed by: Frank Reck, Ding, nobody, Governor Herring, Dr. Hughes.

The score was 31 to 6.

- 33. Semiannually Mortar Board sponsors a leadership conference in conjunction with one of these organizations: A. W. S., Town Girls, Y. W. C. A., Industrial Science Council, Cardinal Key.
- How many skits were given in the student vodvil during Veiseha last spring: 8, 1, none, 4, there was no vodvil, too many.

The faculty liked the way the students drank it.

- 35. One of the numerous meetings held on the campus last spring was addressed by Alden H. Hadley, and was chiefly attended by: firemen, League for Industrial Democracy, Town Girls, Sigma Chi, ornithologists.
- 36. Last spring the Iowa State Players presented George M. Cohan's famous play: As Thousands Cheer, The Tavern, Ah Wilderness, Peace on Earth, Billy the Kid.
- 37. The 1933-34 president of the Interfraternity Council was: Hollis Hilstrom, M. D. Helser, Jean Edwards, Arnie Finnern, Clayton Cooper.
- 38. At the Leadership Conference in the spring, students asked for: prep caps prep caps again, more self-government, later hours, more coeds on the campus, administrative bounty on new pledges.
- 39. Indiscretion on the part of Iowa State students last spring led to considerable publicity in state newspapers and caused the abolishment of what tradition: hell week. prep caps, football, class cuts, Off-Campus Day.
- 40. The new pep organization which was born on the campus last year and blew over the campus last fall was: Varsity "I" Club, Sigma Alpha Iota, Pi Epsilon Pi, the Veenkermen, Yellow Jackets.
- 41. A famous campus character who left us for good last spring was: Campus Idol, Frank Mettler, Colonel Booker, Interfraternity Council, polo team.

- 42. How many degrees were given at graduation exercises last spring: 550, 1,000, 150, 25, nobody knows.
- 43. The fraternity which won the big intramural cup was: Phi Delta Theta, Harry Schmidt, Eta Ward, Sigma Alpha Epsilon, Alpha Gamma Rho.
- Registration figures zoomed skyward last fall to the tune of: 3.2 percent, Happy Days, Sage comment, 40 percent, pure propaganda, 10 percent.
- 45. The campusite who became famous as the "Blond Guard" was: Knute, Hilde Kronshage, Paul Berger, Helen King, a group of light-haired coeds who organized.
- 46. The football game which started the Cyclones off on their famous season was with: Luther, Simpson, Adelante, bang, wrong foot.
- 47. Dr. W. H. Stevenson last fall attended an agricultural conference in: Boone, Rome, Scoreboard, Cyclone Cellar, Minneapolis.
- 48. The shady club (for dancing) which caused a ripple in Greek circles this year, but which everyone soon forgot, was: Athens, Red Coats, Monoclans, Subduers, Scabbard & Blade.
- 49. What great event got its start on the campus at the beginning of the fall quarter: Kenny Ruggles' grid signs, the Activities Fee, Bob Williams, Art Auditions, new senior class.
- 50. What was the by-product of soybeans developed and announced at Iowa State last fall: synthetic peanuts, domestic fertilizer (flower pot edition), dandruff remover, synthetic linseed oil, chewing gum.

His I. Q. rating was low, but . . .

TO THE STUDENTS:

The Bomb staff is indebted to the advertisers in this volume for their assistance in its publication. All those firms which do business with the college or the students have been given an opportunity to advertise with us, and the following pages plainly indicate those who are ready and willing to co-operate and assist us. The firms represented herein are deeply interested in the college and the students. In all future dealings it will be well to remember that they have rendered us a valuable service.

THE BOMB STAFF

- What group put on the carnival for new women at Iowa State during the fall quarter: A. W. S., A. A. U. W., Mortar Board, Interfraternity Council, Faculty-Fraternity Committee.
- The score of the now-classic Iowa game on State Field was: 32-3, 31-6, 27-7, 30-5, 7-6.
- 53. The most picturesque character of the entire Iowa game weekend was called "Filbert" and was: the Pi Phi pet poodle, a turtle, a name connotated as synonymous with the victory, the first name of the dance band leader who played in Great Hall on that eventful night, an affectionate title for a day attached to Joe Gerbrach.
- John Charles Thomas, a fall visitor to the campus, was a: baritone, psychologist, lecturer, Chicago Tribune reporter, member of the state board of education.
- The precedent-breaking class cut was fostered on the eve of the game with: Iowa, Kansas State, Oklahoma, Chicago Bears, Nebraska.
- Two of these men represented Iowa State in the international debate with the London team Nov. 7: Armstrong, Nahas, Molln, Helser, Brockett.
- 57. Botanists gathered here in the fall to honor the memory of a former Iowa State man whose name was: Karlsrue, Sass, Bessey, Finnern, Wallace.
- 58. What abode on the campus overnight acquired the title of "Iowa Guernsey Farm": Ag Hall, Dairy Building, Delta Delta Delta, Margaret Hall, Campus Drug Store.
- The team which played before the sober grads at the Homecoming celebration met: Iowa, Kansas, Kansas State, Missouri, defeat.
- 60. What dance band has more or less become a tradition as a Homecoming tune furnisher: Herbie Kay, George Shuey, Dannie Russo, Vikings, Cato's Vagabonds.
- The man who was named to prexy the freshman class last fall was: Holmes Brown, Waldo Wegner, Sid Gaylord, John Sandham, Marshall Wells.
- A famous character who received an honorary doctor of science degree from Iowa State recently was: Hughes, Friley, Zimmerman, Wallace, Demoratsky.

- 63. Fellowes spoke before an Iowa State audience on the: alcoholic effects of beer, chinch bug menace, America of Today, grass as a basis for picnics, the danger of more Kappa Sigs on the campus, flight over Mt. Everest.
- 64. The man who was elected to captain the grid team of 1935 was none other than our own: Reggie, Freddie Poole, Harold Birney, Ike Hayes, Tommy Neal.
- Otis McCreery spoke at the first annual dinner for: G. A. R. veterans, fraternity pledges, varsity "I" winners, alumni, students who passed chemistry.
- 66. The Lost and Found Department of the college is maintained in the: Student office, office of the director of social life, president's office, there is none, registrar's office.
- 67. Mrs. Iza Merchant resigned her position as social life director to be succeeded by: Miss Sims, Miss Penley, Miss Herr, Miss Edwards, Miss Stanton.
- 68. A new program was announced during the fall quarter to aid freshmen in: engineering, acquiring social charm, veterinary medicine, getting dates, pledging fraternities.
- Campus organizations spent, during 1933-34, money totaling: \$94,000, \$15,000, \$75,-000, \$120,000, unknown.
- 70. A new team which last fall was billed to play the Cyclones in football this year for the first time in many a moon was: Notre Dame, Marquette, Ames High, Chicago Bears, Brown.
- Iowa State College last fall at the International Livestock Exposition won ribbons numbering: 100, 205, 38, 27, unaccountable.
- 72. One of these was not chosen among the 10 biggest news stories on the Iowa State campus in 1934: Women's smoking, Iowa State whips Iowa, Activities Fee passed, Registration increased, 554 4-H boys visit campus.
- One of these campusites received a wire from the Byrd Antarctic Expediton last winter: R. K. Bliss, F. E. Brown, C. A. Iverson, C. S. Gwynne, Hazel Moore.
- The man from Rochester Colgate Seminary who delivered the Religious Emphasis Week talks was: Morganthau, Hopkins, Cooper, Hadley, Beaven.

Milestones of 1935-

During the last college year Iowa State College has:

1. Granted 690 B.S. and D.V.M. degrees, 98 M.S. degrees, 43 Ph.D. degrees, 11 professional degrees. (Degrees granted since first commencement in 1872 total 13,804.)

2. Placed 90 percent of its graduates. (Personnel Service reports 3340 degrees granted during last four years; 200 of these degree holders are "missing" in Personnel files; 2826 are "placed."

3. Conducted 26 short courses with total enrollment of 7,351. (One of these was the first Diesel power course in the United States.)

4. Recorded an average increased enrollment by quarters of 12.4 percent over the previous year.

5. Observed the milestones marking 50 years of service to Iowa by two staff members, Dean C. F. Curtiss and the late Herman Knapp, vice-president.

6. Produced judging teams which completed establishing an all-time record of leading all collegiate competitors in eight divisions of agricultural judging over periods ranging from 5 to 33 years.

7. Enrolled approximately 75 percent of undergraduate students in the voluntary program of "Athletics for All," besides showing marked progress in intercollegiate athletics.

IOWA STATE COLLEGE

AMES

- Before Iowa State's Big Six basketball champs received their first set-back they had won straight games totaling: 5, 6, 4, 3, 7.
- The minute, dynamic conductor of the Minneapolis Symphony Orchestra in its concert here was: Jim Clift, Ormandy, Toscanini, Stokowski, Hawley.

"They weren't getting the mosta of the besta . . ."

- 77. The Headliner Hop, new-crowned social affair, was put on by the: foresters, Midweek Dance Club, Town Girls, Athens Club, industrial scientists.
- Fred Henderson, prominent lecturer, spoke last winter on the subject: Manchuria, religion, socialism, China, the fraternity system.
- The two debaters, scheduled to meet an Iowa State team but did not arrive, represented: Notre Dame, University of Nebraska, University of California, London University, Harvard.
- Out of ten national awards, Iowa State landscape architecture students won: 2, 5, 6, 8, 11.
- The Veishea coupon books sales during winter quarter was: smaller than ever before, the same as last year, larger than ever before, undetermined for certain, abandoned.
- 82. A famous Cyclone trackman of former years who returned to school winter quarter to take graduate work was: Polly Wallace, Hal Tellier, Kenny Ruggles, Ray Putnam, Paul Berger.

- Dr. J. L. Lush last winter returned from an extensive research trip to: Boone, the Ledges, Denmark, Turkey, Mexico.
- Our much-in-evidence campus radio announcer, fifty-thousand watt, is planning a trip, according to rumor, to: Borneo, India, Boone, Nevada, Hell.
- At the Engineers' Ball the slide rule pushers named as their St. Patrick: Chuck Roy, Jack Dodds, Margaret Markert, Walt Rognlien, Roy Kline.
- 86. Dr. R. M. Hughes once suggested to a group of fraternity men a rule that every student should live up to before graduation. It was: pass swimming tests, make 500 acquaintances, live in dormitories for at least 1 year, eat spinach every day, pledge Teke.
- George Sokolsky, who lectured recently on the campus, wrote a widely acclaimed book, entitled: The Forty Days of Musa Dagh, Good Earth, We Jews, The Future of China, While Rome Burns.
- L. L. Thurstone, who also spoke on the campus not many moons ago, is a noted: chemist, psychologist, magician, inebriate, fraternity expert.
- March 22 was celebrated as the birthday of Iowa State College, just entering itsth year: 75th, 77th, 100th, 81st, worst.
- 90. A prominent Iowa State faculty member who went to the University of Minnesota to teach during the spring quarter was: Mitchell V. Charnley, Tolbert MacRae, W. G. Murray, James Finney, Carter Glass.
- Dr. George Earle Raiguel is: an international affairs authority, authority on chemistry of the body, commentator on Chinese civilization, brain surgeon, nationally known engineer.
- Green Gander, campus humor magazine, is published by: Sigma Upsilon, Journalism Department, Sigma Delta Chi, Wesley Players, Iowa State Student.
- Church denominations on the campus number: 17, 24, 9, 45, unknown.
- 94. The director of the extension service, which has done so much during the past year, is: R. E. Buchanan, R. M. Hughes, R. K. Bliss, H. H. Kildee, Derral Langham.
- 95. Two of these men are representatives on the faculty-fraternity committee: Horace Cheney, Art Davidson, Jack Stolp, Bud Hyde, Charles Chase.
- An Iowa State department head who was recently in Hawaii is: Sweeney, Rich, De-Vries, Strom, Fuller.

DOWNTOWN

- A building still standing on the campus which once housed the administrative offices is: chemistry, Station A, The Knoll, old office, Union.
- The girl who was selected at the end of winter quarter to head W. A. A. was: Betty Taylor, Virginia Brayer, Fritzy Jones, John Sandham, Kenny Ames.
- 99. The phase of Iowa State College which was treated to a new deal this year, according to newspaper reports, was: scholastic, social, sport, picnic, extension service.
- Waldo Wegner is: a Sigma Pi, Sigma Upsilon, football player, president of the senior class, wrestler.

"Finnern was an astronomist . . ."

CCC and Pay

Registration day caused the first consternation for the pleasure-loving stooges last spring. The college on that day adopted the CCC (Carry Cash Constantly) policy which was aimed at bad checks and other miscellaneous items. As an example, take the case of Arnie Finnern (later destined for a senior class prexyship), who tried to pay his registration fee at the town gals' booth, got jerked out of line three times for not having the proper amount of Denison samouliens, and finally wound up on the third floor of Central with nothing but black despair in his heart.

Arnie was a good boy, but he was a Sigma Nu out to see the world, and if that doesn't mean something ask any one of the Gamma Phis, Alpha Delts, Sigma Kappas or Chi O's. As a result of his indiscretions he came down with scarlet fever exactly 11 months later.

The Culture Conquest

Simultaneously (well, within a day or so of each other) rotund Jack Crawford and Tarzan Ted Shawn came to the campus. Redwood Anderson, Jim Eicker and George Wilhelm went home for the weekend—there wasn't room for all three of them on the campus (all three of them meaning, of course, Anderson, Eicker, Wilhelm and Shawn).

At the Crawford tune fest in Great Hall there was a preponderance of avoirdupois, and at the Shawn dance there was a preponderance of women. The lucky outgrowths of the affair were: (1) That Crawford beat Shawn here, (2) That the gals who witnessed Shawn were too late to exercise any new dances on their hapless boy friends on the evening of the Crawford affair, (3) That even the great are inclined to assume bay windows, and (4) That if George Shuey would grow a mustache and take off his pants he would make a swell Crawford-Shawn person, all in one.

Who? How? What?

It can be said of questionnaires,

Dost take a brave coed who dares To answer as she really thinks,

About late hours, a smoke, or drinks.

They asked about religious aims

Of our benign, but wary, dames. The gals believed in formal things;

Were satisfied with curfew rings.

The dorms they guessed were quite OK; But term exams they shunned with nay.

The Cyclone Cellar got its start . . . The Grill became Tobacco Mart.

WSGA, Etc.

For once there were enough women on the campus so that every socialite could have a date on the same night. La femme representatives came from every quarter of the country. The situation was so favorable that even such blacklisters as Seaman Knapp, Bob Dodds, Johnnie MacRae, etc., got dates for the Women's Panhel, which just happened along about the same time. Rumor reported that 17 Phi Delts took advantage of the unusual opportunity afforded by WSGA.

As a result the organization was changed to AWS, which in sorority-dormitory yodel means "And We'll Showem." They did, and still are.

MAN-POWER

There will always be jobs for man to do, and meat will always be one of his best efficiency foods. There will always be a market for meat and meat animals. But prices are at all times determined by the number of jobs. Even under present conditions you, the producer of meat, can help put men back to work—create a broader demand and higher prices for your product, by patronizing the primary market.

In doing so you help both yourself and the consumer of meat. The primary market is the most economical place for your cattle, hogs and sheep to pass into consumption. Only there are highest prices possible at the lowest net cost to both producer and consumer.

You get more money to spend for products of the city when everyone sells on the primary market. That additional money, when spent, helps the city worker. It comes back to you in the form of still higher prices for your stock —and everyone can live better.

When it comes time to sell your stock . . . remember that---

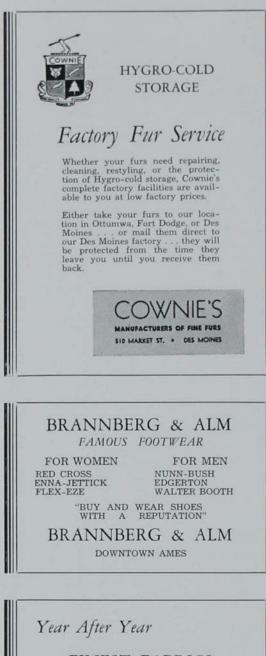

PRIMARY MARKET DOLLARS BUY MORE GOODS! MAKE MORE JOBS! BOOST PRICES ALL ALONG THE LINE!

SOUTH OMAHA OFFERS

Broad demand, hence competition for your live stock—efficient service—modern equipment kept in A-1 condition—strict sanitation—natural drainage system plenty of fresh water. SOUTH OMAHA is your logical market because it is convenient. No matter how you ship, it is easy to reach from all directions.

Union Stock Yards Co.

of Omaha [Limited]

FINEST FABRICS

Come from

STEPHENSON'S

If you don't believe that, ask Herb Howell he graduated. Waldo Wegner has been trying for a year and a half to convince everyone that AWS means either "As Wag Says," or "Ask Wag, Sooky," which goes without saying that he would be glad to go, he never has a date anyhoo.

But Wag or no Wag, the campus wags had plenty of fun over the affair, that is, those what didn't have dates. For instance, WSGA and Amazon became synonymous, and 2 days after the ladies had retired from the campus, Mem Union Director (and general manager) Pride put a bevy of plasterers to work repairing the chips above all the Union gateways. The gals, all of them well on their way to seven feet, outchipped even Art Sterrenberg, Stretch Kilbourn, Cullen Dodds and Joe Porter.

The boys who took the dates beefed plenty the night of the fatal dance, but at the present rate they'll still be telling the grandchildren all about it.

Pattering

E. H., as in Engineering Hall, really means Earthly Hell . . . Public Enemy No. 1: A good lawyer backed by a gang of skunks armed with machine guns . . . he couldn't be ketched either if he was entrenched atop the Phi Gam house . . . the campus nit-wit is Betty Coed, who thinks snoring is sheet music . . . a college progessor is a guy who leads a hard life in order to keep a soft job.

One word conscriptions: Pop Ross: shiverish . . . Hugo Otopalik: woof . . . J. R. Sage: g-r-r-r . . . Rollie Cannon: B-r-r-u-p-p . . . Art Roberts: aw fellers . . . Arnie Finnern: whoa now.

Mottoman bumpires: Ray Rich—You know me, that guy I'm always talking about . . . Dr. H. V. Gaskill—With a hammer-and-saw philosophy you are bound to get a head (or an A in advertising) . . . Walt Rognlien—An apple a day, if it's polished, keeps the flunks away . . . Dr. J. F. Edwards—A stitch in time, and you may have the measles . . . Oren Bolin—Don't count your chickens before they're catched . . . Dick Heitman—Don't cross your bridges before they've been tested in our C. E. laboratories . . . Keith Cranston—A pop on de chest is worth two on the mush.

Slater, Iowa Phone 82 lege baseball team, which it might be well to repeat for posterity and before prosperity.

KNUTE for catcher—he catches everything on the campus, and nothing ever gets by him. He also knows all the signals.

PAULUS J. H. LANGE was nominated to take over the mound assignment. Reason for the selection was rather brief: "He really can throw it."

PROF. RUTHERFORD was scheduled to handle the assignment at first base, because, in the first base, he is tall, and it is rumored that he can reach right out into thin air and spike 'em. Spike what? All the answers, of course.

HARRY SCHMIDT went out to second base where he could lecture on "Putting an Intramural Athlete in Every Home" without hurting anybody, or hurting himself.

FRANK HOOD got the third base berth where he would be in a natty position to sit down on the base (a natural pose for Frank) and prevent anyone from reaching it.

F. ELLIS JOHNSON won the honorary shortstop job, because the electrical engineers claimed he never stopped short of an hour and a half.

KENNY RUGGLES was selected to play right field, with the explanation that he couldn't catch a ball but he was a good cleanup man.

REDWOOD ANDERSON took the center field assignment because he covers a lot of territory.

BROWNIE, Augie Sindt's famous pooch, got the other field job, because he could be away out thar where he could catch all the flies he wanted to.

RUTH COOK shall be the newly appointed coach of this famous aggregation, for as editor of the Iowa Homemaker, she should know how to make homes safely.

LaVerne, La La, Lament

If it hadn't been for the fact that Iowa State was still nursing its April Fools' Day wounds, April 6 would have been great. As it was, things weren't bad. The occasion was the opening of the sluice gates which let in the water that flooded rejuvenated Lake LaVerne. It called for a dedication ceremony and speeches. Dean Marston did all the work, and everybody else stood around and cheered.

The CCC boys and the Veishea Central Committee (at least the ones who knew they were on the committee) were allowed to stand on the upper dam. The president of the college was supposed to be there for the valve turning, but OUR COLLEGE CLUB

ON THE BLUE SIDE OF THE LEDGER OF SERVICE

Iowa State College men and women have few opportunities to make better investments of themselves and their means than in Memorial Union. Conceived as a noble memorial to service, this building and its staff have become tremendous factors in the enrichment of life at Iowa State. Thru the sacrifice and service of thousands of members who have created this investment and still other thousands who have yet to come to Iowa State, Memorial Union will grow in unselfish service to the College and to all Iowa State men and women on and off the campus,---will thus pay interest on the investment.

like Governor Herring usually is when they want him to dig the first shovel of dirt for the new hospital or get on the mound and pitch the first ball in the opening game of the season, he was sick.

After that everyone had his picture taken. That is, except for the students who were doing so much cheering. Dean Marston had trouble getting the gates open, and a lot of film was used up. After that everybody rushed over to see the sparkling water rush out into the lake, which called for more cheering and a great deal of babbling (of voices, not the brook).

After the dedication ceremonies began to drag and the students were straggling lunchward, those who had tickets went with the CCC boys to their mess, which was deserted by some of Prof. Iverson's famous ice cream. The Veishea Central Committee complained of the CCC coffee being pretty strong, since they had been holding all their meetings in the Cyclone Cellar and drinking Union coffee while they Veishead, but apparently everyone was happy.

That is, except for the editorial writers on the Student, Homemaker, Engineer and Green Gander, for they suddenly found themselves without any more material for editorials, having filled thousands and thousands of inches of space with "Beautify Lake LaVerne" stuff ever since a Dakota dust storm filled it up one day back in pre-beer times. They lamented.

Candy and Candy

The day after the lake was opened the Gamma Phis leaped into prominence, by holding two five-pound parties simultaneously. This in itself, caused quite a campus stir, but inside of six months, that same sorority was staging such parties so often that unless they had two a week, the campus was disappointed.

Last spring also witnessed Dan Cupid coming out of his depression stupor to catch up for lost time. As a result the jewelled pin and diamond companies began to put men back to work.

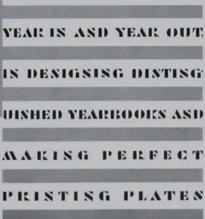

Wrestling Politics

The National A. A. U. wrestling meet came to State Gymnasium in the spring of 1934. It featured such famous foreigners as Robe Hesselovitch, of Petrograd; Georgio Martinski, from Eagle Groveski; Roland Lillieanova, from Boone; Kenny Rugglesberg, of Red Gap, and

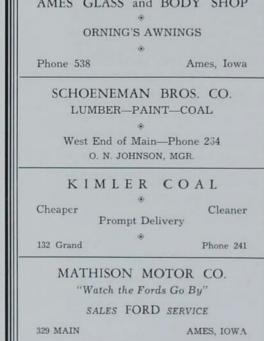

GRAPHE ARTS

ANSAS CITY

Two hundred eighty-five

Two hundred eighty-six

Doc Gaskill, of . . . ahem . . . m-m-m.

The wholly unsuspected result of the wrestling tourney was the roar of political guns which began to whistle. Again there were three parties, each one of them claiming to be the dark horse group, mostly because of the romance connected with the name.

But politics in connection with the trio of political parties was not as involved as that of Jack-o-Lantern, benign little honorary for sophomore women. The members had a principle for activity which, in effect, meant that Jack-o-Lantern should be doing something on the campus that nobody else was doing. They did.

They bought a soap dish for a campus lavatory, which, in itself, was a good, clean idea, but to date, there has been no soap in the dish. Getting back to the politics of it all, however, the organization split into two factions over the purchase, one side holding out for a pewter plaque to go over the dish, the other holding out for bronze. It goes without saying for those who use the soapless soap dish that the pewterites won out, a momentous decision indeed, which will no doubt alter the course of civilization.

Politics Is Colored

The backwash from all the political uprisings and comprisings was inevitable, although it was hardly conceivable. The major policy of the campus for nigh onto 20 years had been the fact that the Industrial Science Council was crooked, undeniably, unconstitutionally and irrevocably crooked. The council accepted the decree, in fact it reveled in it.

But about that time Arnie Finnern came to the throne, succeeding Walt Goeppinger (the keyaddict). Arnie was a great man, so his dad said, and he had accomplished many impossible things, getting literally thousands of pledges for Sigma Nu, and heading a potential senior class destined to graduate many great men and many grate (I'll see you in hell) men. It is needless to say that he cleaned up the scientists' little Tammany pot, but therein was the danger.

The Ag Council (goaded on by Russ Plager) suspected indecency, and suspected the industrial scientists of sending its criminal tendencies eastward along the campus walks. First the ag council members decided there had been dirty work afoot (and in truth Horace Cheney had been out batting around the night before the election), and then they decided that there AGAIN it has been a great pleasure to reproduce the photographs used in the Bomb of 1935. If our work has been helpful in any way in making this year's book a success, we are gratified. To the faculty, students and Bomb staff we extend our thanks for their helpful cooperation.

hadn't (Al Leffler had not been out batting it around the night before the election). Finally the hadn'ts beat out the hads and the election results were announced. Harlie Zimmerman griped because nobody wanted to listen to his "Eenie, meenie, minie, mo" theory of representation; some still think it was used.

The Usual War

Every spring the fraternities stage their respective hellweeks, much to the amusement of the entire campus. Hellweeks have long been known to furnish a great many things to the campus, among which are: new initiates, giggles for the sorority fans, brunts for jokes, even more sleepers for classes, people who like to stand rather than sit, et cetera.

Burlap underwear took its toll of pledge hide along with the paddles last spring, and in class many were the pledges who got down to scratch, and that is meant literally. Things even went so far that the Phi Sigs placed a guard on their front yard to see that the international rights of trespassing were not trammeled. G. A. R. and World War veterans in and about Ames who have lost their sentiment about such old military instruments as bayonets, tin hats and rusty blunderbusses find a ready market for the souvenirs in the gullible fraternity boys.

Nothing is too old for a pledge to wear or to cart around, and nothing is older than the hoary excuse, "We've got to see if they can take it." Military spirit was the theme of the depredations and sorority celebrities found themselves awakened in the black of night to be presented with such little favors as wooden soldiers; and the headliners of America, had they appeared on the campus, might have been surprised to see their likenesses stalking about in the persons of subdued freshmen.

Gulp

When "The Tavern" was presented, Iowa State students and faculty members were so impressed by the suave way in which student Rathbones and Cornells downed their imitation liquors that they asked for its repetition. It was done.

Not long after that all the faculty members and some unidentified students hurried to Des Moines, Boone and Nevada to take out liquor permits, much to the amusement of the stooges, but we hope to no one's chagrin.

--- SUCCESS ----

MI ANY of you will soon leave behind you the class rooms to enter the larger life for which you have been preparing. The future looks bright and will prove so to those who realize that success is achieved through their own individual efforts. Mr. Victor Hugo Coleman says—

"The making of success depends largely upon your own efforts, rather than upon what others do. You are actually working for yourself, regardless of what your position in life may be, and unless you are doing your level best for yourself, taking advantage of every opportunity, you cannot expect to be more than an ordinary workman. No person is to be pitied except the one whose future lies behind."

MAY SUCCESS ATTEND YOUR EFFORTS AS YOU FORGE STEADILY AHEAD

III Literacy

There was a young poet named Dan, Who wrote verses that no one could scan; When quizzed by a poet,

He said, "Yes, I know it,

But I always try to put as many words in the last line as I possibly can."

Beauties? But No Bath

It was announced on May 8 that a bathing beauty contest would be added to the usual features of Veishea, and it was hoped that this would add zest to Veishea. But as usual all the zest came before it should, and from the administration to boot, so there was no beauty contest, at least it was stipulated that there would be no beauty contest if the bathing were to be included.

But since it lacked the proper approval (not popular approval), it was decided that there would be no baths during Veishea.

Likewise (or otherwise) one of the oldest traditions was revived (it was never dead) on the campus during the last Veishea. The hecs continued to sell their cherry pies. On the surface this business has been ostensibly to raise money through the years for something aruther, nobody ever did know just what.

But the truth has at last come out, just as the leaves do in the spring, and finally the hecs were pinned as to their pie-selling motives. In reality they are trying to hook husbands by displaying their culinary attainments (Doesn't it sound dumb?), and this dazzling statement is further borne out by proof. Stooges will remember what a devil of a job it is to get through the Hec Building during the annual exposition; that is to give the gals a chance to hook the boys, and, by the way, the pies are not the only things which have crust in this Amazonian attempt on the Iowa State man's freedom.

Hughes That

Danny Hughes' rather tempestuous affairs of the heart took a rather serious beating the night of the Bomb Beauty Ball last spring, when he had the crust (no, he hadn't had any

cherry pies) to appear at that formal in his shirt sleeves. Promptly a red line was drawn through his name in many of the little black books in Welch West and elsewhere. Danny always was a great Welch Wester anyway.

His tough luck, caused by his indiscretion, freed many of the campus benches on moonlit evenings, and thereafter the engagement reports began to mount. They had previously hit a new low.

Gad, Man

Clipped from the Newton Record: "See by the papers where a dormitory full of Iowa State College coeds got sick on their own cooking. And here we thought all the time they specialized in 'domestic science and home economics' over there!" It's too bad he never had the opportunity to go on a picnic with our home economics students. Maybe he would understand things a little better.

P, As in Personality

Personality is a thing which everyone has heard Shorty Paine talk about, the psych profs rave about, and which is specifically a natty little runabout. Personality seems to be such a remote thing, and so far removed from so many of us (keep the runabout in mind) that a friendly, unbiased analysis should be welcome.

Now, physics isn't worth a vote for the Representative Party to most of us, with all its coefficients and expansions, yet perhaps there might be a tie-up between the two P's. For instance, in waves! We have sound waves, light waves, ultraviolet waves, infra-red rays, ocean waves, flag waves, permanent waves . . . Stop . . . It's no choking. . . But why can't we have personality waves?

Telegraphic Memoirs

Flash: Last fall a pair of physicists said 150 million tons of Dakota dust were hanging over Iowa. Second flash: Wrong count. Three bees in air when first weighed. Three flashes: Physicists counting night and day now. Have reached $5671/_2$ million tons with south eighty yet to go.

Poloists Win

Iowa State suffered from many shocks last spring, but by far the worst was the victory which the Cyclone horsemen registered over their ball-batting opponents from the University of Illinois.

The shock was so great that one of the teammembers took the measles, and the administration had a tough time holding the whole college from taking a week off (We coughed when they sat down, on the horses, to play). The win was so surprising that it has never been done since.

YOUNKERS

Browsing through the dictionary is a noble (no bull) sport. It's one of the most versatile books ever to be thrust upon the American public. You can have light reading, dark reading, shady reading, heavy reading, etc., etc., etc. The stooges really ought to try it sometime. They have several copies over in the Library.

Sample copy: Imp, a little demon, a mischievous child . . . ah, ah, and then along comes Jerry Vance. Picnic, an excursion of pleasure into the country . . . they must not have had mosquitoes and bugs when Webster was young enough to picnic. Night, the time of absence of life from nature . . . Oh, yeah.

WHoot

Who's the world's Nastiest man? Why, the prof who gives A final exam.

Senioritis

(Reprinted by request)

'Twas the night before commencement, Not a senior was in sight.
They saw the world before them, But they all were kinda tight.
As they sat up in the Union, Where the lights were burning low,
Says Russ Plager to the 'semblage, "Boys & girls, we gotta go."

There was Mettler on the left of him, And Temp sat on his right; They were looking pretty woozy, For they'd had a tough old night. "Ere we leave, the Campanile," Said the senior on the right,

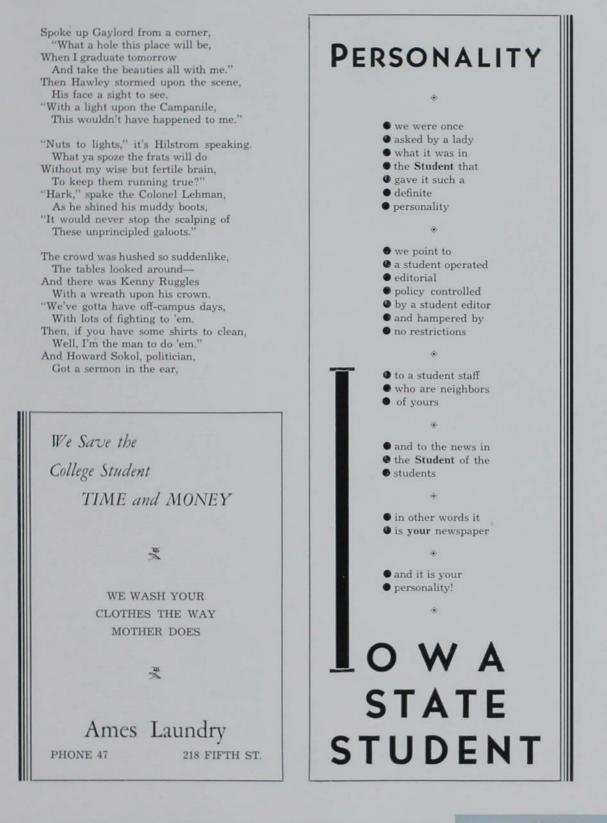

"Must have upon its watchful face Some sort of shining light."

"A light? Hell, no!" says Garby, From beneath a table top. "I know that Pete'll think

The plan is not so hot."

Then the mighty Proctoromis, A doctor soon to be,

Said the thoughts of all assembled, "Twould be good if it were free."

> DES MOINES, IOWA 2215 INGERSOLL AVE.

- 7. Economics (remember the Schrampfer cases).
- Formals (but the men know better, at 8. least in warm weather).
- 9. Y.W.C.A.
- 10. A dog (old dogs will remember Augie's doggie, Dawggone).
- 11. A dairy industry invention (it's too mild for the Sigma Nus).
- 12. Pi Beta Phi (the Betas do the singing).
- 13. He could really throw it (the preps will well remember).
- 14. Dean Marston (Pilmer was the mythical CCC boy who saw it all).
- 15. Okay (the liars).
- 16. Gamma Phi (Motto: Give me a ring sometime, beeg boy).
- 17. Earning money (dull, as such, wasn't mentioned . . . in the official documents).
- 18. A.A.U. (who ever heard of the Republicans?).
- 19. L.A.'s (Walt should have been there, but he wasn't).
- 20. Student Prince (remember George Shuey's AWOL voice).
- 21. Third (there's no such thing as "in the money" in amateur competition, mebbe). 22. Scoreboard (alias the Runyon roost).
- 23. Representative (of what?).

We Rent and Sell Academic Apparel CAPS-GOWNS-HOODS

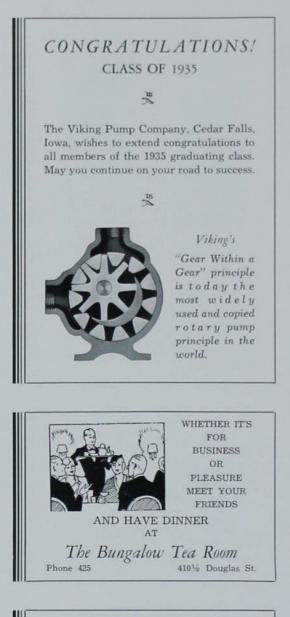

Proper Color and Designs for All Universities, Colleges, and Schools.

We Manufacture Special Garments for Bands, Orchestras, Glee Clubs and Other Musical Organizations.

> Write for Information indicating garments interested in.

TILDEN MANUFACTURING CO. AMES, IOWA

- 24. Jo Kennedy.
- 25. Military Ball (thanx to Kernel Lehmann).
- 26. Elman.
- An organization of coeds dedicated to promote and demote campus romances (thank gawd it is now quite dead).
- Halved the series (who ever heard of rain last spring, anyway?).
- 29. Carl Hamilton.
- Karlson (spelled with a "K" as in Chicago).
- 31. "Shorty" Paine.
- 32. Nobody (the lake was pageanted).
- 33. Cardinal Key.
- 34. 8.
- Ornithologists (surely you must remember those birds).
- The Tavern (a good job, from basement to attic).
- 37. Hilstrom (Pete, of Alpha Sig).
- 38. More self-government (no gettee).
- Off-campus Day (it still smells—the administration).
- 40. Yellow Jackets (sh-h-h-h).
- 41. Col. Philip Booker.
- 42. 550 (in spite of J. R. Sage, registrar).
- 43. Sigma Alpha Epsilon (dammit, said Harry).
- 44. 40 percent (beer was 3.2 percent).
- 45. Berger (his bashfulness didn't make any difference).
- 45. Luther ('twas a swede game).
- Rome (he Mussolini'd, but when in Rome shoot Roman candles—Dr. H. V. Gaskill).
- Athens (it was enough to make the hair stand up on your old Acropolis).
- 49. Activities Fee.
- Synthetic peanuts (thereby increasing the business of the Twin Star by thousands of bags. Aw, shucks).

- 51. A.W.S. (the intelligence experts).
- 31 to 6 (you're lucky if you remembered anything about that weekend — Dean Helser).
- 53. A turtle (he was drunk, too).
- 54. Baritone.
- 55. Nebraska (I Nebraska for anything, do I?).
- 56. Armstrong and Brockett.
- 57. Bessey (Finnern is an astronomist).
- 58. Delta Delta (they met the milkman).
- 59. Kansas (and it rained then, too).
- Cato's Vagabonds (not to be confused with the Pi K. A.'s).
- 61. Sid Gaylord (Fiji).
- 62. Wallace (Iowa State's most prominent alumnus).
- Flight over Mt. Everest (which he didn't fly).
- 64. Ike Hayes (he loves music).
- Fraternity pledges (the meat was tender for once).
- 66. Registrar's Office (lost loves are not tendered).
- 67. Miss Stanton.

tion of fine foods, Jack Sprat would have earned a "Masters" years ago. For at least 30 years—the name "Jack Sprat" has been identified with fine foods that are consistently uniform in quality packed garden-fresh and honest values. Compare Jack Sprat foods with other brands and learn the difference.

- Engineering (they weren't getting the mosta of the besta).
- 69. \$94,000 (yours and mine).
- 70. Marquette (not the brand of cement).
- 71. 100 (for references, see ag hall).
- 4-H boys visit campus (they've been doing it for years).
- 73. F. E. Brown (the phys profs were griped).
- 74. Beaven.
- 75. 6.
- 76. Ormandy (he talked brokenly).
- Industrial scientists (the ushers wore red coats).
- 78. Socialism (what, again?).
- 79. University of California (cited illness).
- 80. 6 (ask P. H. Elwood for details).
- 81. Larger than ever before.
- Ray Putnam (not of the calendar Putnams).
- 83. Denmark.

 $84.\ Borneo$ (they understand him down there).

- 85. Roy Kline (he likes Boone).
- 86. Make 500 acquaintances.
- 87. We Jews.
- 88. Psychologist (poor devil).
- 89. 77th.
- 90. W. G. Murray (another economist).
- 91. International affairs authority.
- 92. Sigma Delta Chi.
- 93. 17 (check, Dr. Horn).
- 94. R. K. Bliss.
- 95. Cheney and Stolp.
- 96. Sweeney of chemistry.
- 97. Old office.
- Betty Taylor (Aye tank aye like 'em beeg 'n strong).
- 99. Sport.
- 100. Sigma Pi (a lover in his private life).

SATIRE

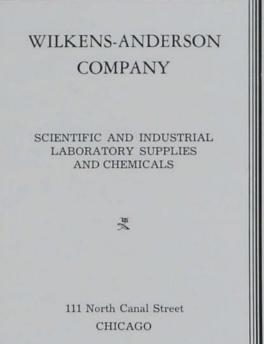

Dust Storms

Iowa now for several years has been the Mecca for a good many things, but most important, most persistent, and most annoying (besides the Red scare) have been the dust storms. When the students dust don't know what to do next.

Its direst effect was that it severely taxed the integrity of our new Lake LaVerne. Civil Engineer Marston had figured aright, however, and nothing ever came of the blankets of dust which settled over the lake, except that the lawbreaker stooges who went swimming suffered severe dirty faces.

Consequently, spring fever took a back seat to dust fever, and the Chi Omega girls had to stop going on so many picnics. This was a real hardship for the girls, because they had to cut down to 5 picnics a week instead of the usual dozen.

The excess dust which could not find room on table tops or piano legs was gathered and boxed by the political parties to use for the next dirt-throwing campaign.

L. G. BALFOUR Company	ALLEN MOTOR CO. Chevrolet Sales & Service "Always Good Used Cars"
Manufacturing Jewelers and Stationers Attleboro, Mass.	
Æ	A PUBLISHING SERVICE is available to faculty members and re- search workers of Iowa State College through the Collegiate Press, Inc.
	Worthy manuscripts capable of sufficient sale to return production and distribution costs will be considered for publication.
Maker of Commencement Invitations for the Class of 1935	If you have written or plan to prepare a book, the Collegiate Press would be glad to consider with you its publication, prob- able sale and returns.
