DEDICATION

TO DR. O. H. CESSNA - - -
WHO, IN HIS THIRTY YEARS OF
SERVICE TO IOWA STATE, HAS
ENDEARED HIMSELF TO THE
HEART OF EVERY STUDENT
FOR HIS UNFAILING YOUTH-
FULNESS OF SPIRIT, AND WHOSE
FINE EXAMPLE OF CHRISTIAN
LIVING AND THINKING SERVES
US AS AN INSPIRATION AND
GUIDE - - - -

WE, THE CLASS OF 1930, DEDI-
CATE THIS THIRTY SEVENTH
VOLUME OF THE B O M B.

FOREWORD

TO PORTRAY THE LIFE OF THE
MODERN STUDENT IN A MODERN WAY
--- TO RECORD THE EVENTS OF THE
YEAR AT IOWA STATE IN THEIR TRUE
LIGHT THAT THE ALUMNUS MAY,
IN THE TURNING OF THESE
PAGES, RE-LIVE HIS COLLEGE
DAYS - - - - - WE
PRESENT THE BOMB OF 1930.

A Message from the President

PERHAPS the motto of our college, "Science with Practice," really tells as much about her spirit and ambitions as a much longer statement. Iowa State College has developed under the men who founded her and under students of these very men, and she has been true to the motto of her founders.

Iowa State College is a scientific institution, and in every department, along with a strong scientific staff and program, has developed a very active interest in applying the several sciences to the service of the people. Here we are proud to solve, so far as we can, the problems of the farmer, the manufacturer and the merchant, and in addition such problems as arise in pure science. We are proud of our opportunity to carry to the people in the state the latest developments in science through our Extension Staff.

From the first we have been deeply interested in training men and women along scientific lines for practical service. The alumni of Iowa State have given a fine account of themselves in the state and in the nation. In the several fields of work covered here we have won a good name in the educational field, and the responsibility rests on us, teachers and students, who are now here, to maintain it.

I like to think of Iowa State College, Iowa State University and Iowa State Teachers' College, all as being parts of the great University of Iowa which is developing in harmony and unity in three different cities under the direction of the State Board of Education. It is my ambition to develop to the highest possible excellence the work here in teaching, extension and research.

R. M. HUGHES.

RAYMOND M. HUGHES, *President*

PRESIDENT RAYMOND M. HUGHES was graduated from Miami University at Oxford, Ohio, in 1903. After teaching science for two years in the Hamilton High School he held a teaching fellowship in chemistry at the Ohio State University for two years and studied chemistry at the Massachusetts Institute of Technology during the following year (1897-98). He then was called back to his alma mater as Professor of Chemistry and Physics in the fall of 1898, where he served successively as Professor of Chemistry and Registrar, Dean of the Liberal Arts College, and President until 1927, when he resigned to accept the Presidency at Iowa State College.

During this period he has been active in the service of the Association of American Colleges, the North Central Association of Colleges and Secondary Schools, the National Association of State Universities, and the American Council on Education, in each of which organizations he has at one time served as secretary.

MARIA ROBERTS
Dean of Junior College

Dean Maria M. Roberts came to the Mathematics Department of Iowa State College in 1891. In 1921 she took over the office of Dean of the Junior College. For eight years she has served Iowa State and its students in that capacity, devoting her rare executive ability and capacity for friendship to the well-being of all undergraduates.

HERMAN KNAPP
Business Manager

Mr. Herman Knapp is a graduate of Iowa College of 1883. Since that time he has served his college in various capacities. Two years ago, in addition to his duties as Treasurer and Business Manager, he acted as President of Iowa State College.

J. M. SHAW
Assistant to the President

Mr. John Shaw is a graduate of Washburn College, Topeka, Kansas, in 1913, and of Iowa State in 1922. Several times during the absence of Dean J. E. Foster, Mr. Shaw acted as Dean of Men. At present he serves in the capacity of Assistant to the President and Personnel Director.

MRS. MADGE MCGLADE
Acting Dean of Women

Dean Madge McGlade came to Iowa State in 1924. She received her Master of Science degree here in 1928, having previously received her Bachelor of Science degree at Parsons College. She assumed the position of Acting Dean of Women at the time of Mrs. Stanton's death and has efficiently served in this capacity since that time.

R. E. BUCHANAN
Dean of Graduate College

Dean R. E. Buchanan, in his twenty-four years at Iowa State College, has served in various capacities: Instructor, Professor and Head of the Department of Bacteriology, Dean of the Division of Industrial Science and Dean of the Graduate College.

J. R. SAGE
Registrar

Mr. J. R. Sage received his education at Ohio State University and Rose Polytechnic Institute. Previous to his appointment as Registrar of Iowa State College in 1920, he was connected with the Mathematics Department of the college.

DR. J. F. EDWARDS

Hygiene Department Student Health Service

Graduates of fifteen years ago would scarcely recognize the college infirmary of their day, tucked in, as it is now, behind our modern, well equipped hospital and dispensary building. The old hospital is now used only for contagious diseases.

The first or north wing of the newer hospital, built in 1915, has a capacity of 40 beds and includes the kitchen and dining rooms and operating rooms. The east wing, built in 1924, more than doubled the capacity and gives added dispensary and laboratory facilities so that now the college has ample facilities for caring for such of its students as need hos-

pital or ambulatory care. No other institution, except perhaps those with medical schools, is better equipped in this respect and few hospitals anywhere are better provided with laboratory, X-ray and other equipment for diagnosis and treatment, both for curative and preventive purposes.

The Hygiene Department is also a teaching department and gives classroom instruction in hygiene to all freshmen in Industrial Science and Home Economics, the divisions which have admitted Hygiene as a credit course.

Another line of work has to do with the sanitary environment of students both on and off the campus.

Esther Sprague Fern A. Goulding Virginia Light
Dr. V. A. Ruth Dr. F. L. Hall; Inez Hardwig Fannie Hoffman Dr. J. F. Edwards; Dr. H. L.
Johnson
Catherine McDermott Helen McDowell Dr. Mary Roe Marie Ford Dorothy Anderson

It must not be thought, however, that the care of the sick is the only or even the most important part of the work of the Department of Hygiene. It is even more important that it prevent illness and improve health of the students while here and give them such positive knowledge of health principles and practices as will enable them to keep well and to best serve their community in after life.

As the first step, all entering students are given a careful "once over" during the entrance physical examinations. Such as show physical defects or health impairments are followed up in further conferences, and advice and treatment is given with a view of correcting or improving their condition. Many students are thus enabled to continue their college course and at the same time improve their physical condition.

HELEN MCDOWELL
Supervisor

According to a recent survey of thirty-seven hospitals of the state, the hospital here at Iowa State was rated first in management and equipment. We feel sure that in after years we will more fully appreciate the wisdom of the state in developing a health service that emphasizes the importance of a sound body for housing a sound mind. Altogether, it is one of the busiest departments on the campus and performs a real service for our college community, though many of us are slow to recognize its usefulness.

DR. C. H. BROWN
Librarian

Library

The College Library is designed primarily to serve the needs of the faculty and the students of Iowa State College in their research and study.

The library is the most used building on the campus, loaning on an average of three books per student per month during the college year.

The new building, opened for the use of the public in the spring of 1925, is designed to meet adequately the needs of both graduate and undergraduate students. The library affords facilities for bibliographic research in the scientific literature of the departments

giving graduate instruction. The single class subject offered may be allowed as either major or minor credit in any department.

The library collections consists of about 170,000 carefully selected volumes. A special attempt has been made to strengthen the library in sets of periodicals and society publications. The library is receiving currently over 3,000 periodicals, principally in English, French and German, although nearly every language is represented. The collections in the library adequately represent the specialized research work of the college.

Extension Service

Iowa State College has become a great repository of scientific information concerning agriculture and home economics. This information has been gathered through extensive experimental and research investigations in Iowa and through access to the work of investigators in other states, including the United States Department of Agriculture. The Extension Service is conducted in order to make the workable part of this information available to the people of the state. Its purpose is to place within reach of farmer and homemaker the latest and best information concerning agriculture and home economics.

In order to accomplish this purpose a staff of workers representing each department in the Divisions of Agriculture and Home Economics and certain phases of Industrial Science and Veterinary Medicine are maintained at the college. These workers are available to the people of the state for lectures, demonstrations and consultation.

R. K. Bliss

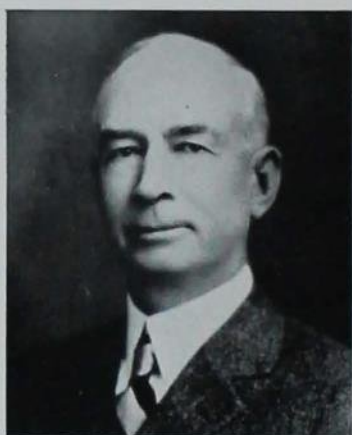

The Extension Service of Iowa State College continues to extend the benefits of its experimental and research work to the farmers of the state. Under the direction of Mr. R. K. Bliss and Mr. P. C. Taff, the Extension Service has reached nearly every township in Iowa. Information concerning livestock, clothing and poultry projects continues to lead in the number of townships reached, but the work of the entire service comprises many more projects than these three.

The work of scientific information such as is disseminated by the Extension Service can scarcely be over-estimated. In actual dollars and cents, it saves the farmers of Iowa many times the cost of the entire service.

Extension Staff

DEAN C. F. CURTISS

Division of Agriculture

The Division of Agriculture comprises the following departments: Agricultural Engineering, Agricultural Economics and Rural Sociology, Animal Husbandry, including Dairy Husbandry and Poultry Husbandry, Dairying, Farm Crops and Soils, Genetics, Horticulture and Forestry, Landscape Architecture, Floriculture and Vegetable Crops, Technical Journalism and Vocational Education.

For many years, beginning with the founding of Iowa State College, all the work of the Agricultural Division was under the supervision of two departments, which were called the Department of Agriculture and the Department of Horticulture.

Four-year collegiate courses are offered, embracing work in all of the major lines, and research work is conducted in practically all phases of technical and practical agriculture.

The enrollment of students in the Division of Agriculture is the largest in that subject in the United States. The enrollment of graduate students in agriculture is in excess of 100. Many students from other institutions and foreign countries come to Iowa State for graduate work.

Student judging teams afford opportunity for twenty-five to thirty men to participate in Interecollegiate Judging Contests annually. The consistent winning of our teams has brought distinction to our college.

In addition to the buildings and laboratories and other extensive equipment, the various departments of the division have over 1,500 acres of land used for educational and research work.

Agricultural Faculty

Division of Engineering

Undergraduate instruction in the Division of Engineering is given in ten four-year courses, which have uniform requirements for entrance: Agricultural Engineering, Architectural Engineering, Ceramic Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, General Engineering, Mechanical Engineering, Mining Engineering and Trades and Industries (Industrial Arts). Each of these courses leads to the B. S. degree.

In addition to this instruction, the Division of Engineering carries on work in Engineering Extension and Engineering Experiment Station Research. Iowa State College was the first engineering institution in the United States to systematically organize its work along these three major lines.

DEAN ANSON MARSTON

In each of the collegiate branches of instruction except Industrial Arts, a year of graduate work has been definitely outlined, completion of which entitles the student to a M. S. degree. In addition, two years of graduate work, leading to the Ph. D. degree, are offered in several courses. An increasingly large number of students are taking advantage of these additional years of training.

The student activities of the Engineering Division are directed by the Engineering Council. Members of the council, at the end of their sophomore year, serve two years. Each of the nine departments has two representatives, and the Iowa Engineer and the Cardinal Guild each have representatives.

Engineering Faculty

DEAN GENEVIEVE FISHER

Division of Home Economics

The Home Economics Division of Iowa State College, with an enrollment exceeding one thousand and an instructing staff exceeding sixty, is ranked as one of the largest and best in the United States. The division is housed in a building which competent authorities claim has no equal in this country. The work of the several departments is keeping abreast with the best that is offered in Home Economics.

The division aims to give a liberal education and practical training in Home Economics by means of instruction in the arts, the natural and social sciences, and their place in modern civilization. "Science with Practice." Three home management houses afford an unusual opportunity for the application of these principles of home management

which are taught in the classroom. A nursery school and a tea room afford practical experience for those who are interested in child care and training or institutional administration.

Courses in Home Economics fit the student for intelligent citizenship and efficient homemaking, which are the basis of American ideals. Technically, they fit students for pedagogical positions and, in the field of industry, for those commercial opportunities which demand technically trained women.

The "Iowa Homemaker", which is edited by the student club, is one of the few Home Economics magazines being published chiefly by Home Economics undergraduates.

In the past, the Home Economics Division has possessed an enviable record. It is the present aim of the division to augment, if possible, the fame of Iowa State College.

Home Economics Faculty

Division of Industrial Science

The Division of Industrial Science serves as an administrative unit for those departments whose work, while not in itself technical, is necessary to a well-rounded education in any of the technical courses of Iowa State College. These departments comprise Bacteriology and Hygiene, Botany, Chemistry, Applied Economics and Social Science, Geology, Mathematics, Military Science and Tactics, Physics, Zoology and Entomology. In addition, the work of the departments of English, History, Psychology, Modern Languages and Public Speaking is under the supervision of the Dean of Industrial Science.

In the early days of Iowa State College, when no distinction was drawn between the different divisions now existing, all of the in-

DEAN S. W. BEYER

struction offered in the institution was given by this Industrial Science Division. When the growing need for specialization and the number of students enrolled made this administrative scheme inadequate, the four other divisions were created. When, in 1879, the Division of Veterinary Medicine was created, the Division of Industrial Science assumed the status it possesses today.

The Industrial Science Council is made up of students of the different departments and are elected at the divisional convocation in the spring quarter. The council acts as a governing body for the Industrial Science Division and sponsors such activities as the Industrial Science Barbecue, the Industrial Science Club and the Divisional Open House during Veishea.

Industrial Science Faculty

DEAN C. H. STANGE

Division of Veterinary Medicine

When the Veterinary Medicine course of Iowa State College was made a separate division and a Dean of Veterinary Medicine appointed in 1879, Dr. Walker, the first Dean of the division, was confronted with the impossibility of obtaining competent instructors. It became necessary for him to establish a graduate course, the chief purpose of which was to train instructors for Iowa State College.

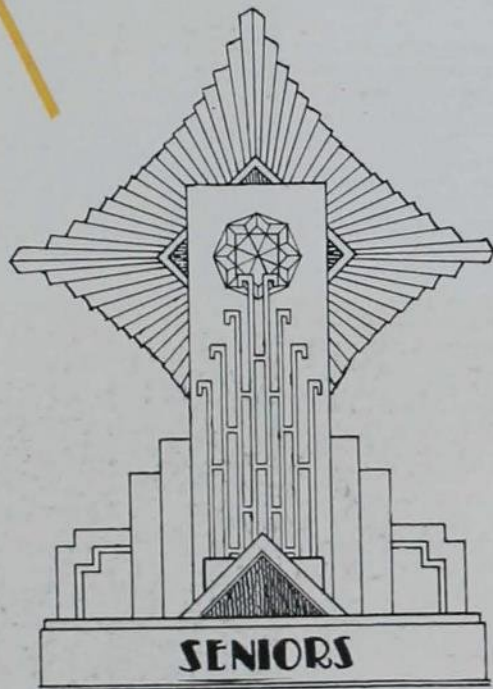

The twenty years from 1880, when the first class in the division was graduated, to 1890, were full of advancement for the science of Veterinary Medicine. Growth has been steady and at the present time the work of the Division comprises: Anatomy, Medicine, Pathology, Physiology, Surgery and Veterinary Investigations. Each is a separate depart-

ment, and, together offer the instruction which was originally administered by a single unit.

In 1884 the Veterinary Medical Society was first established. The membership is composed of all students enrolled in the division. Meetings are held in the Auditorium of the Veterinary Building twice each month and are presided over by the president, who is elected from the senior class. Various committees are appointed to consider matters of special importance. Outstanding events of the year are: the freshman mixer during the fall quarter and the faculty picnic held during the spring quarter. Faculty members aid in planning and suggesting interesting programs for meetings, but the meetings are always conducted by and for the benefit of the student members.

The Iowa State Student is the official student newspaper, published tri-weekly during the college year. The entire staff is made up of students, and editorial positions are filled by appointment from the reporters and assistant editors. The paper seeks to unify the student body, to serve as an outlet for faculty and student opinion and criticism, and to further those ideas and ideals which point toward a better Iowa State College.

The Iowa Engineer, monthly publication of the students of the Engineering Division, was established at Iowa State College as the I. A. C. Engineer, the first issue being printed in June, 1894. In 1901 the name was changed to the Iowa Engineer.

The publication board directs the policies of the magazine and makes the appointments of the staff executives, who take office at the beginning of the spring quarter.

The Cardinal Guild is the Student Governing Association of the college. Its purpose is to foster, maintain and guard college traditions; to officially voice the sentiment of the student body; to further cooperation between the student body and the faculty; to serve as a unifying body between the several divisions of the school; to further cooperation between them and to combine their interests toward the development of a greater Iowa State College; and to assume such powers and perform such duties as may come in acting as the official representative of the student body.

The Agricultural Council is the governing body of the Agricultural Club and is composed of a junior and a senior representative from each of the departmental clubs. The officers of the council are the same as those of the Agricultural Club. It is the purpose of the Agricultural Club to foster among agricultural students and faculty a closer bond of fellowship. The council annually sponsors the Ag. Carnival, the All-Ag. Banquet, and the Ag. Ball.

The Iowa State College Home Economics Club was organized in 1918 to unify the efforts of the girls in the division and to stimulate their interest in Home Economics. As an affiliated member of both the American and Iowa Home Economics Associations, delegates are sent each year to the association meetings.

The business of the club is carried on by the executive council while the members participate in quarterly meetings, Home Economics Club picnics for Freshman girls, Home Economics Vodvil, Divisional Open House and Cherry Pie sale at Veishea, ushering in Home Economics Hall, Vocational Education Club, and in support of the Iowa Homemaker and Catherine McKay Loan Fund.

The Industrial Science Council was conceived with the idea of bringing the various departments of the Industrial Science Division into closer fellowship, and to promote the spirit of loyalty to the division and its members. The members of the council are chosen from the student-body of the divisions at the divisional convocation during the spring quarter.

Besides acting as a student governing body for the Industrial Science division, the Council sponsors the Industrial Science Barbecue, the Industrial Science Ball, the Industrial Science Club, and the Divisional Open House during Veishea.

Veishea, an all-college celebration sponsored by the five divisions of the college, is held during the spring quarter of each school year. The term Veishea is made up of a union of the initial letters of the divisions: Veterinary, Engineering, Industrial Science, Home Economics, and Agriculture. The purpose of this celebration is two-fold: namely, to create and promote the spirit of unity among the divisions and to place the college on exhibition.

The tour of the Men's Glee Club was taken, this year, through the western part of Iowa, including in its itinerary, Omaha, Neb., Sac City, Ia., Storm Lake, Ia., and Humboldt, Ia.

Before leaving on tour, the Club appeared in the "Messiah", Farm and Home musical programs, two appearances in the twilight musicals at Great Hall as well as an appearance in the leading theatre in the city.

This club is made up each year from the singers who try out at the spring and fall trials. They rehearse three times each week under the direction of Prof. Tolbert MacRae. This season a departure from their regular work is made to assist in the fine production of the opera "Robin Hood," by DeKoven, which is presented as the big attraction during the Veishea Celebration.

Members of the Girls' Glee Club of Iowa State College are chosen by competition each school year.

The annual Christmas Carol Concert, which has become a tradition on the campus, is the objective of the fall quarter. The Glee Club takes part in the "Messiah" and the "Sabat Mater", the program given on Good Friday night. This year the Glee Club is helping with the chorus work in "Robin Hood", the Veishea Week, Twilight Musicales, and other campus affairs. They also gave several out of town programs.

Iowa State Training Band

OSCAR HATCH HAWLEY, *Bandmaster*

The Iowa State Band was organized ten years ago with a membership of fifty members. Since then it has grown so much that we now have two bands—a concert band and a training band in which the students gain the experience needed to qualify for the Concert Band. At present the Concert Band has a membership of almost a hundred men and the Training Band fifty-five.

The Band, decked out in its Cardinal and Gold Uniforms gives an annual fall concert, and several spring concerts and, in addition, appears at all athletic events. Professor Hawley has been the conductor for the past ten years.

Music

The Music Department tries to get all the students who are musically inclined to associate themselves with the different organizations that are under the direction of members of the faculty. These organizations include the two glee clubs, the concert and training bands, and the symphony orchestra. In the men's glee club is the Iowa State quartet and the girls' glee club has the I. S. C. octette. All of the musical organizations give concerts on the campus as well as in neighboring cities during the year.

International Livestock Judging Team

An Intercollegiate Livestock Judging Contest has been one of the big features of the annual International Livestock Exposition ever since its founding in 1900. Iowa State has entered in every one of them and has taken nine of them to the nearest college's three. This year there were twenty-three teams entered and Iowa State ranked seventh, Maurice Soultz taking fifth place in the individual scoring.

The same team competed in the American Royal Livestock Show at Kansas City, at which seventeen teams were entered, Iowa State placing tenth. Russell Smith was tenth in the individual scoring.

Dairy Products Judging Team

The Dairy Products Judging Team of Iowa State College for 1929 consisted of W. M. Tweeten, M. C. Escher, W. C. Edwards and Geo. Kirchoff, alternate.

The team won third place in judging all products; first place in judging ice cream and second place in judging cheese.

M. C. Escher, in individual scoring, won second place in cheese and W. M. Tweeten eighth place in cheese. In ice cream M. C. Escher won third place and W. M. Tweeten seventh.

Fifteen colleges were represented, with 45 individual judges.

Kirchoff Escher Tweeten Edwards

Kopf Helfert Culbert Dorchester (coach) King

Farm Crops Judging Team

In the seventh annual Interecollegiate Crops Judging contest, held this year during the American Royal Livestock Show at Kansas City, Iowa State won first place. In individual rankings Elton King was high man, Kenneth Kopf placed third, and Kenneth Helfert was fourth.

The trophies were awarded by the Kansas City Board of Trade. Iowa State's winnings consisted of one team trophy, four gold medals, and a \$100 scholarship. The scholarship was awarded by the Farm Crops Department to Kenneth Kopf.

The contest is in three divisions, comparative placing, commercial grading, and identification. The team rank in the different divisions was first in comparative placing, and second in each of the other two. Consistent work in all lines gave the Iowa State team a 160 point lead over its nearest competitor.

Meat Judging Team

Iowa State ranked second in the Interecollegiate Meat Judging Contest held at the International, in which nine universities and colleges competed.

Hill of the Iowa State team ranked fifth. The team ranked second on mutton and lamb, second on beef, and sixth on pork.

The team ranked third in the meat judging contest at the American Royal. There were six teams competing. Held was fifth and Plager ninth. Iowa State ranked second on beef, third on pork, and fourth on lamb.

Seven meat judging contests have been held to date. Iowa State won one first, two seconds, three thirds and one fifth.

On a percentage basis, Iowa State stands at the head of the list for the seven contests held.

Held M. D. Helsor, Coach Plager Pepper Hill

Bowie Plager Pepper Syndergaard

Dairy Cattle Judging Team

The four members of the Dairy Cattle Team who finally won out after a long series of eliminations for the right to represent Iowa State were William Bowie, Carroll Plager, William Pepper and Edward Syndergaard.

At the Waterloo Dairy Cattle Congress they placed sixth, with William Pepper taking second individual scoring honors. Carroll Plager was the alternate.

At the National Dairy Show, held at St. Louis, the team as a whole placed tenth in a field of competition of twenty-eight college judging teams. William Bowie acted as the alternate in this contest.

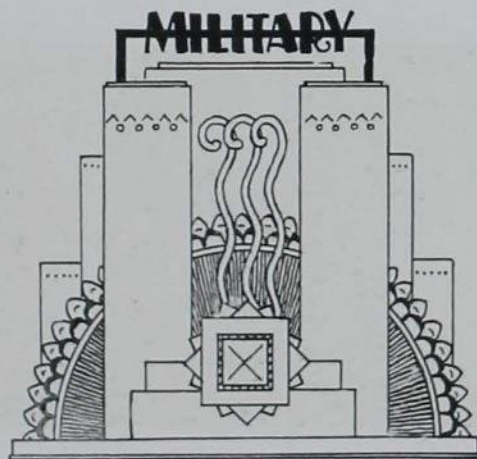

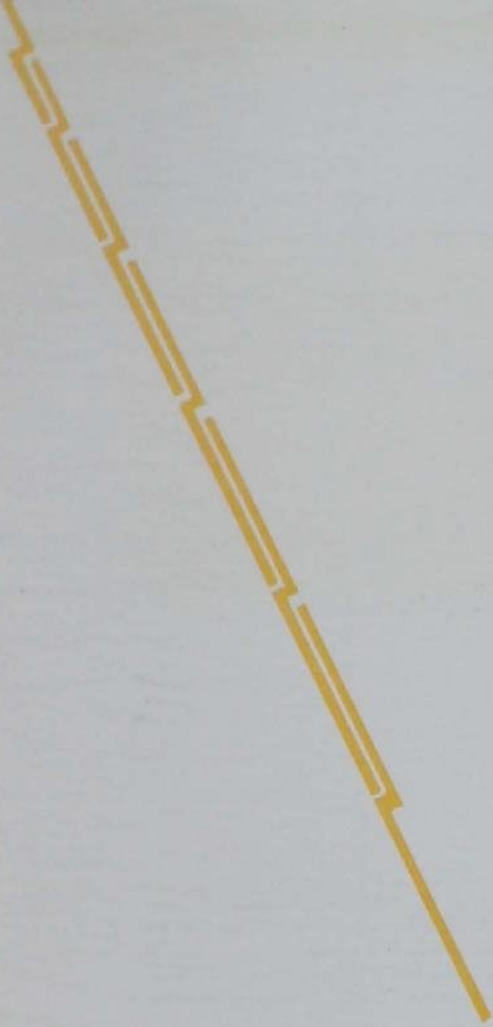

Poultry Judging Team

The Poultry Judging Team, consisting of Herbert Folken, Deane Pendarvis and Ransome Nelson, with Edwin Burton acting as alternate, competed in the poultry shows held in connection with the National Dairy Show at St. Louis and the International Livestock Exposition at Chicago.

The team placed third at St. Louis and was fourth in all-around judging at Chicago. Herbert Folken was top man of the contest at Chicago, R. A. Nelson was second in the examination over the "Standard of Perfection", and Herbert Folken also took third honor in the Standard judging, while the team as a whole took third in Standard Judging and second in the examination over the "Standard of Perfection."

Burton Folken Nelson
Pendarvis Knox (coach)

MAJOR P. W. BOOKER

Reserve Officers Training Corps

The Reserve Officers Training Corps at Iowa State was awarded the 'Distinguished College' rating for the years 1925, 1926, and 1927.

Since then the War Department has seen fit to discontinue all comparative ratings of R. O. T. C. units, but the standard of military training at Iowa State has remained at the same high degree of excellence as is to be found in all other departments. This degree of excellence is due to the high standard of the students in the Advanced Military Course. Undoubtedly the work of these men will be rewarded in some form by the War Department in the near future.

Rifle and Pistol Teams

Due to the organization of the R. O. T. C. units at this college, the rifle team is composed of students selected from the Engineer Unit, and the pistol team of students from the Field Artillery Unit. Both teams fire telegraphic matches with R. O. T. C. teams of other schools throughout the season. The outstanding match fired by the pistol team is the National Field Artillery R. O. T. C. match. The important rifle matches are the Seventh Corps Area Match, the Society of American Military Engineers Match, and the Hearst Trophy Match.

FRANK KOWSKI
Drum Major

Bugle, Fife, and Drum Corps

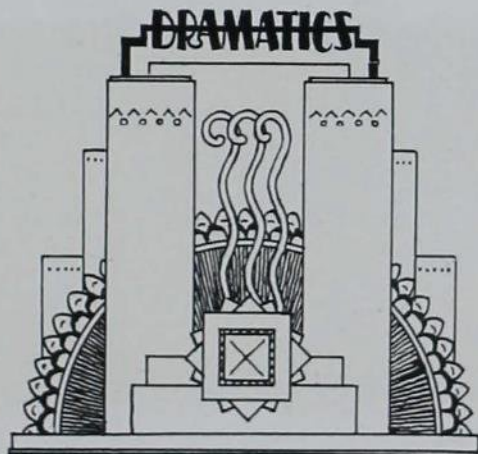

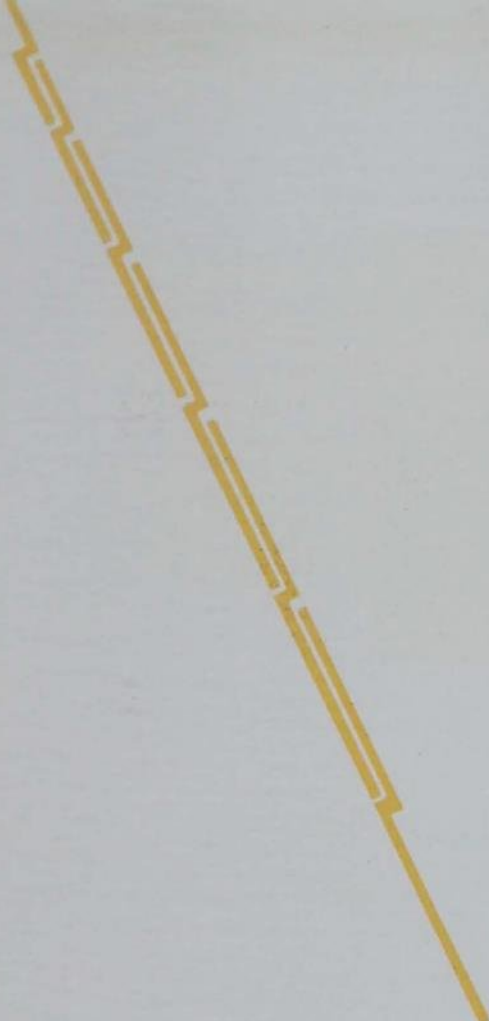

This was the second year of the existence of the Bugle, Fife and Drum Corps, which is composed of students in the R. O. T. C. unit.

Fifes were added to the corps this year, adding considerable to the music, size and spirit of the organization.

A number of the men were in the corps last year, which aided greatly in working the corps into shape this year. The new men, starting with a meager knowledge of music, became accomplished fifers, buglers and drummers since fall.

The full corps of sixty men add a great deal to the R. O. T. C. unit reviews in the spring, with their stirring martial music.

Dramatic Club Production Staff

The production staff, made up of those in charge of student directing, staging, costuming, lighting, properties and business, has shown increasing efficiency this year. The growth of the club has enabled it to buy added equipment for the stage, so that varied problems in production have been met with skill and ingenuity. Thus in the future it is felt that even greater productions can easily be given.

"The Cat and The Canary"

NORMAN HOPP
AND
CLAUDINE HUMBLE

"The Cat and the Canary" was the opening play of the year, presented on November 15 and 16. The audience witnessed a very successful presentation of the mystery play, and suspense was the predominant characteristic throughout the play.

The story deals with the difficulties encountered by an heiress, who is spending the night in the apparently haunted house of her dead uncle. The source of the mysterious knocks, hands coming from the wall, and revolving bookcases, is found to be Charles Wilder, one of a trio of jealous lovers. It is his aim to frighten Annabelle into giving up her inheritance, but she proves to be too clever for him, and not only wins her millions, but also a lover—Paul Jones.

PATTERSON	<i>John Sharf</i>

“Meet The Wife”

“Meet the Wife,” presented by the Dramatic Club, was the first play of the season. It was very successfully played and gave the audience many laughs.

This play portrays an over-artistic wife and her very practical husband, who attempts to dictate the future of their very modern young daughter. The wife has appointed herself as hostess to the renowned poet, Philip Lord, in behalf of the ladies’ club. Her husband is distracted with the artistic atmosphere which is being created in his home for the benefit of his future son-in-law.

He creates an intense dislike for the man he imagines North to be.

The climax comes when the wife finds Philip Lord to be none other than her former husband, who had run away years ago. She had supposed him dead and now finds herself a bigamist.

Lord uses this means to aid his daughter in marrying the man she loves. The curtain falls with the present husband praying for an earthquake.

"Come Seven"

By
OCTAVUS ROY COHEN

"Come Seven," an all-negro play, was presented by the Dramatic Club on February 28 and March 1. This was the first all-negro play ever to be produced by the Dramatic Club. The players' portrayals of negro characteristics were well done.

The setting for this farce comedy was in the home of the indolent Urias Nesbit and his wife, Elzevir. It happens that Florian Slappey, friend of Urias and "Pres. of the Colored Chauffeurs' Club", is in love with the classy dame, Vistar Goins, who has been working as a real lady's maid.

Complications arise over a "genuine" diamond, which is claimed by three different people. The diamond was originally the property of Elzevir, but by the assisatnee of Urias and Florian, who are in need of cash, the diamond finds itself in foreign hands.

Everything turns out in favor of Florian and Urias in the end; Florian wins his Vistar and Urias gets his cash and a life of ease.

"The Queen's Husband"

By
ROBERT EMMET SHERWOOD

"The Queen's Husband", written by Robert Sherwood, was presented March 7 and 8. Capacity crowds enjoyed the presentation each night.

In a kingdom "somewhere", there existed much strife between the laboring class and the royalty, and all because the chancellor, Northrup, refuses to arbitrate. Within the king's home is unhappiness, for the queen refuses to allow him to play his beloved game of checkers, and forces him to attend to the bloody business of signing the death warrants of the laborers. Princess Anne is grieved over the news of her mother's arrangements for her marriage with Prince William, a rotter, whose mistress is repulsive. Her love for Gratton, the king's secretary, also is a factor in her disgust for the diplomatic marriage. Events, including an American trip by the queen, a revolution, the near-dictatorship of Northrup, follow in rapid order; and the whole situation is finally unravelled by two amazing coup d'etats by the king, in which he saves his state and also settles Anne's romance—to her satisfaction.

The Amazon

"Amazon", a musical extravaganza, written, produced, directed and acted by Engineers, played Feb. 7 and 8 to audiences which filled Great Hall with themselves, their laughter and their applause.

Jerry Campus was fired from Heifer College. His sweetheart, Patricia, sought consolation in an expedition to the Amazon. Jerry rescued her from the natives. Not a complicated plot, but one which served well to give the boys a chance to sing, dance, and show the girls what girls are like. It cost a lot of hard work, and more than one con at the end of the quarter; but who will say, ten years from now, that the memories of the show are not worth more to those responsible for it than the vector diagrams, chemical formulas and structure designs that were missed?

Hec Vodvil

For the past ten years Home Economics coeds have been expressing themselves in a Home Economics Vodvil. This year the Vodvil was transformed into an interpretation of campus life as coeds see it.

A coed's boudoir, with girls dressed as powderpuff, mirror, lipstick, perfume and rouge, others in beads and colored pajamas and La Belle Jeune Fille, made up the first act.

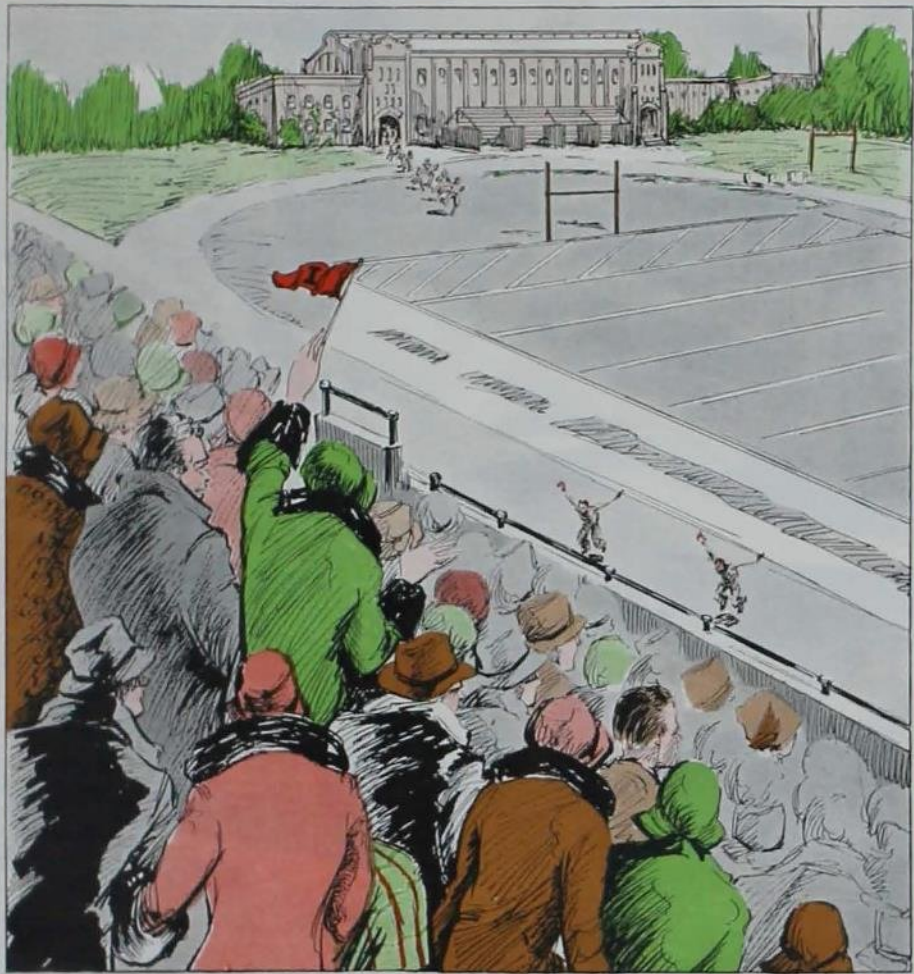

College boys lounging on the steps of the college postoffice, trying to sell Green Ganders and flirting with the girls who passed by, made Act II seem familiar.

"Acrobatic Antics" by girls who could do stunts on their heads and make spectacular formations comprised Act. III.

Aladdin looking for his lamp in the cave of jewels, soft colored light effects and beautiful dancing to violin music, made an appropriate climax in Act IV to the 1930 Hec Vodvil.

T. NELSON METCALF
Director of Athletics

 THE 1929 football season formally opened competition in the Missouri Valley Intercollegiate Athletic Association. Since the opening Iowa State has annexed two seconds, one second and one-half, two fourths and one sixth. The summary below shows the placings to date of all major sports and reveals the fact that competition in the Big Six was closer than ever before. In spite of a disappointing football season, Iowa State made an excellent recovery in other sports to place second in the conference standing.

	Nebraska Univ.	Iowa State	Kansas Univ.	Oklahoma Univ.	Missouri Univ.	Kansas State
Football	1	6	5	4	2	3
Cross Country	5	4	2	1	6	3
Basketball	3	4	2	6	1	5
Wrestling	2½	2½	6	1	4½	4½

CECIL BROUGHTON

Cheer Leaders

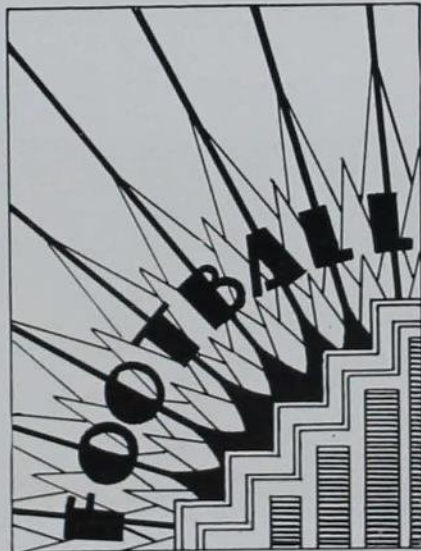

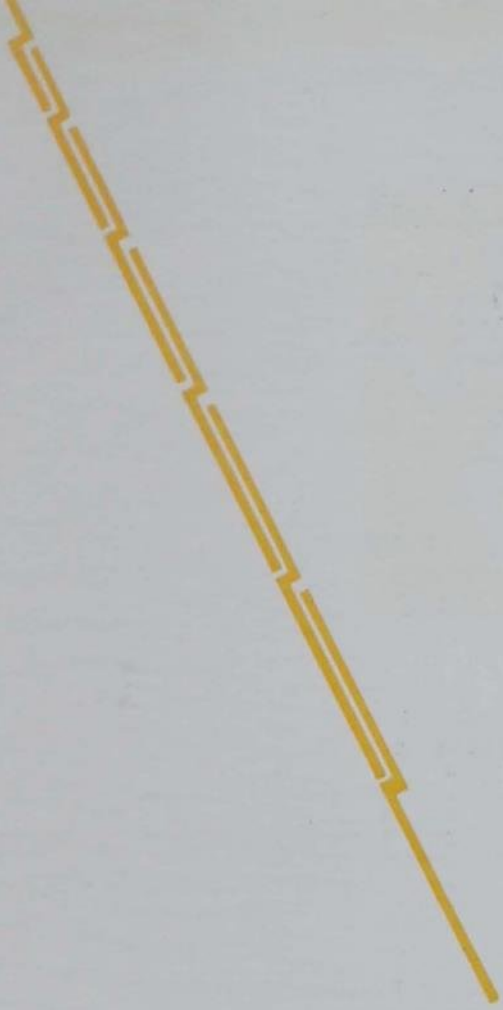

Cecil Broughton and his constabulary of cheer leaders, composed of Connelly, Griffith and Sharf, have successfully perpetuated that old Iowa State spirit from football to baseball.

With the 1929 football jinx permanently invading the Cyclone camp, these men had to work against tremendous odds. The stadium was kept cheering for that ill-fated Iowa State eleven which was destined to go down in defeat in seven out of eight starts.

The national pep organization, Pi Epsilon Pi, assisted the cheer leaders during the football season. They staged "between-the-halves" stunts which were amusing to the crowd as well as to those who listened to the descriptions over WOI.

Iowa State—27 Grinnell—6

With bright prospects ahead for one of Iowa State's strongest elevens, the Cyclones met Grinnell for the opening game of the year. The forward wall, averaging well around 185 lbs., was one of the heaviest and rangiest which has worn the Cardinal and Gold for several years. Among the sophomores playing their first Varsity game were Smith, Nolte and Nagel, with Lounsbury alternating at tackle. The fast and heavy backfield combination of Trauger, Tegland, Bennett and Larson, looked equally imposing. Bowes, a sophomore half-back, of fast ball-toting ability, displayed pretty work in his first college game.

From the whistle, Iowa State displayed a smooth and deceptive running attack, which bewildered the Grinnell defense. With the elusive Trauger carrying the ball behind the hard blocking Tegland, Bennett and Larson, the score was run up to 27-6. At no time were the Cyclones headed. The defense showed exceptional strength, with Fullback Tegland plugging the holes on every play. Bowes was inserted in the lineup and shortly after fought across for the first score of the game after receiving a pass from Trauger. Trauger followed with a scintillating 55-yard run through the entire Grinnell team for the second touchdown.

CAPTAIN SCHLENKER

Grinnell opened up its dangerous aerial attack in the second quarter. Three first downs were made in succession while the Iowa State defense lapsed. This sustained drive netted them their only touchdown. From then on it was all Iowa State.

Altho this game was a decisive victory over a team which was unbeaten for the remainder of the season, it was a costly one for the Cardinal and Gold. Paul Trauger, the stellar quarterback, sustained a severe back injury and was lost to Iowa State until late in the season. This was the beginning of the Cyclone injury jinx, which hovered over the squad the entire season.

Trauger breaks into the open around Grinnell's right end.

Missouri—19 Iowa State—0

SCHLENKER
Guard

Iowa State lost its first game in the Big Six Conference to Missouri. The Tigers put the game safely away with two touchdowns in the second quarter. The first quarter was played pretty much on even terms, but the Tigers' weight advantage came into play and the Cyclones were helpless to penetrate the line or skirt the ends consistently.

Trauger did not see any service in this game because of injuries received in the Grinnell game the week before. This was a serious handicap because he was counted on to bear most of the ball carrying. He was replaced by Wilcox, who made a creditable showing.

Trailing by 12 points, the Cyclones made a desperate effort in the final period to score by passing to all corners of the field. As a result of this,

TRAUGER
Half Back

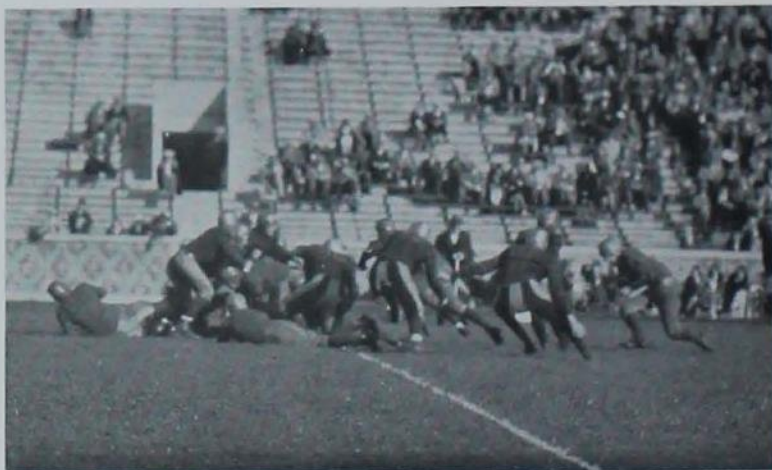

a Tiger substitute intercepted a pass from Wilcox and ran 25 yards for the final touchdown. Iowa State threatened to score in the second quarter as a result of a 25 yard return of a punt, a 25 yard end run by Wilcox, and a 15 yard penalty, but the Tigers held on their own 25 yard line and took possession of the ball on downs. The ball changed hands often after the second half opened, with neither team having an advantage. The Tigers

gained a little more yardage from scrimmage, but the Cyclones overcame this with superior punting by Wilcox and Tegland. Straight football was played during the third quarter by both teams, but the Cyclones used an aerial attack in the final period with little success.

TEGLAND
Full Back

Tegland smashes Missouri's left guard for a short gain.

Marquette—14 Iowa State—6

Coach Workman took his men to Milwaukee for a tilt with Marquette University. This was the Golden Avalanches' Homecoming game and was played at night before a crowd of 19,000.

According to the statistics of the game, Iowa State should have won easily, but the final score was 14 to 6 against them. Two long runs of 82 yards and 62 yards, respectively, featured the Marquette offense. Both resulted in touchdowns.

The Cyclones were advancing the ball consistently throughout the game, but could not put it over the line. In the first quarter a fumble on the 11 yard line spoiled the chances for a touchdown. It was from here that Marquette broke loose with the 82 yard run.

BURTON
End

JOHNSON
End

SPEAR
Tackle

Iowa State scored its touchdown late in the final period. Bowes, a sophomore halfback, entered the game with the ball on his own 30 yard line, and by a series of end runs and line smashes carried the ball over for a touchdown a few minutes before the game ended. The flashy halfback thrilled the crowd with his spectacular runs time and again, and he was given his due writeup by the Milwaukee scribes.

Swoboda, the Cyclone halfback, had to be taken from the game with a broken leg. This was a serious handicap to the Cyclones, as he was a power on backing up the line.

Time out
during the
Marquette
night game.

Kansas U.—33 Iowa State—0

BENNETT
Halfback

A badly crippled team took the field against Kansas University for the annual Homecoming game on State Field. Three regulars were unable to play. Nolte injured his ankle in the Missouri game, Trauger had not sufficiently recovered from his back injury, and Swoboda was lost to the team for the remainder of the season due to a broken leg received in the Marquette game.

The Jayhawks displayed a running and passing attack that gave them a commanding lead from the start. They were represented by large, fast men in every position, and stopped every Cyclone advance and in the meantime piled up a 33 to 0 score.

The Cyclone defense was very ragged throughout the entire game. On several occasions a Kansas ball

KERN
Guard

toter would spin or twist out of the arms of some Iowa State tackler.

The game throughout was very disappointing to the Homecoming crowd, because the Cyclones were off form and not playing the brand of football they were capable of and had displayed in former games. At the same time the Jayhawks were up on their toes, taking advantage of all the breaks and playing one of their best games, both offensively and defensively, to pile up the large score.

At no time did the Cyclones threaten to score. They were forced to play defensively most of the game and as the game went on they weakened somewhat, which made it easier for Kansas to push over scores.

ROK
Guard

Wilcox
stopped
by Kansas'
right end
for
no gain.

Oklahoma U.—21 Iowa State—7

In a game featured by aerial attacks by both teams, Oklahoma emerged on the long end of a 21 to 7 score, by virtue of a rally starting in the third quarter.

Iowa State scored first on a series of end runs and passes in the opening period. A pass, Wilcox to Bennett, was good for a touchdown and the former dropkicked for the extra point. This seven point lead looked big until part of the third quarter had elapsed and then the Sooners opened up and scored two touchdowns in rapid succession. The second one was the result of an intercepted pass and a 60 yard run by Warren. The remaining scores were made at the start of the fourth quarter. Captain Crider carried the ball mostly in this march of 47 yards for a touchdown.

Wilcox was the shining light in the Iowa State offense with his kicking

SMITH
Tackle

WILCOX
Quarterback

DOTY
Center

and passing outstanding, while Captain Crider gained consistently for the Sooners.

Iowa State was the victim of hard luck on two occasions when touchdowns were made against them. Wilcox, in attempting to snag a pass near the edge of the field, just tapped it enough to lodge it in the arms of a Sooner back who already was on the go and ran unmolested 60 yards for a touchdown. On another occasion the Cyclones were in a position to score when a costly fumble put the ball in Oklahoma's possession and was punted out of danger.

Bennett was stopped without gain on this play.

Kansas State—3 Iowa State—2

DUSENBERG
Fullback

After losing three straight conference games, Iowa State met Kansas Aggies at Manhattan, determined to cop the honors from a team that was high up in the standings, but lacked two points, as the game ended with the unusual score of 3 to 2 against them. Time and again the Cyclone defense stopped the Aggies, dead.

It was in the second quarter that the Aggies scored their three points by a dropkick from the 24 yard line after several attempts to carry the ball had failed. In the last quarter Wilcox placed a punt out of bounds on the Aggie 1 yard line, putting them in a dangerous position. After two attempts to carry the ball, the Aggie quarterback touched the ball down for a safety, which gave them a

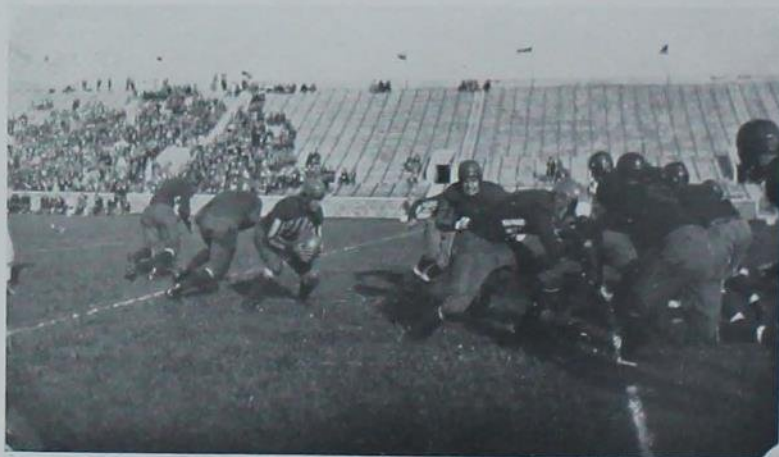

LOUNSBURY
Tackle

free kick from the 30 yard line and two points for Iowa State.

The Cyclones started a march down the field that was halted on the 35 yard line by a fumble. Neither team relied much on the aerial attack due to the soggy condition of the field.

Wilcox was again the offensive threat, but Hitch, Cyclone right end, was the defensive star in smearing up Aggie plays. He was in on every play and tackled his man before the line of scrimmage was reached, so that very little yardage was gained around his end. The score might have been different had the Cyclones been able to open up with their aerial attack, which was their best scoring agency.

HITCH
End

Tegland about
to smash the
line on a

Drake—7 Iowa State—0

The annual game between Drake and Iowa State lived up to the expectation that it would be the hardest fought game of the year. Although doped to lose, the Cyclones outplayed the Bulldogs in the first half, and played about even in the second half except the last few minutes, when Drake completed two forward passes after having been put in a scoring position by two penalties amounting to approximately 35 yards. King dropkicked for the extra point.

Iowa State, immediately after receiving the ball, made a desperate attempt to score via the air. Wilcox threw a 50 yard pass to Johnson, who ran up the edge of the field and stepped out of bounds as he caught the heave, thus making it incomplete. The game ended soon thereafter.

Both teams made eight first downs

G. NAGLE
Center

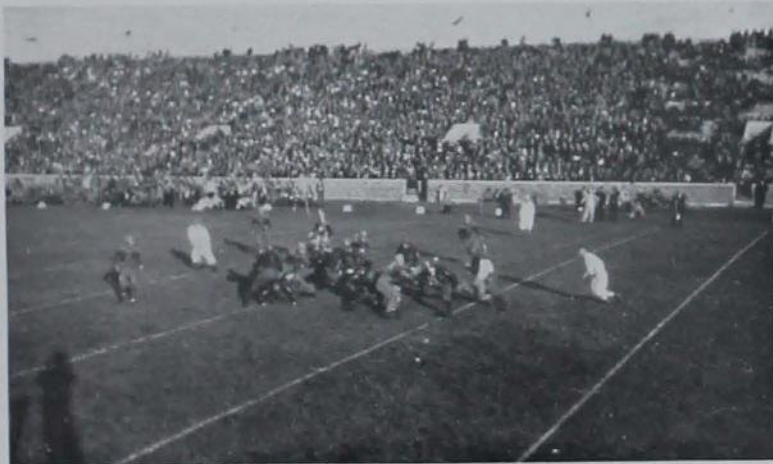

BOWES
Half Back

NOLTE
Tackle

during the game. The entire Cyclone line played a brilliant defensive game in stopping the Bulldogs' running attack. Penalties for roughing too much were numerous because of the intense rivalry that existed between the two teams. It was due to one of these penalties that Drake punted to Wilcox on the 20 yard line, and was given the ball at this point when a Cyclone player was penalized for

clipping. This broke the morale of the Cyclones and gave the Bulldogs new life; they completed two passes for a touchdown immediately thereafter.

Nebraska—31 Iowa State—12

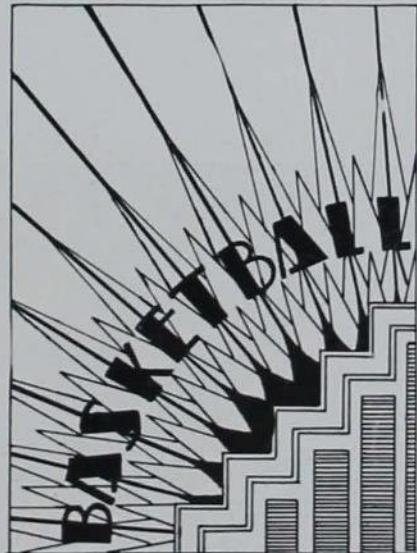

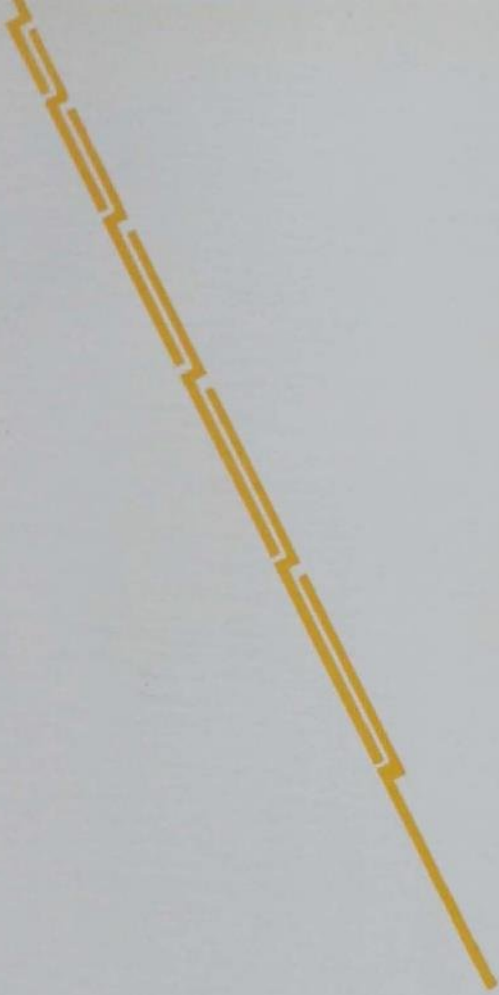

After getting away to a good start against the Cornhuskers, the Cyclones finally succumbed to the conference champs and lost the final game of the season by a 31 to 12 score. Iowa State scored first on a touchdown a few minutes after the game started on two long passes. The try for extra point failed. The Huskers scored one touchdown to tie in the first half. The Cyclones came back in the third quarter and with Wilcox passing to Hitch, another touchdown was pushed over, giving them a 12 to 6 lead. Nebraska made two touchdowns in the third quarter and it looked like either team's game at the time, but several bad breaks turned the tide in favor of the Nebraskans. A blocked kick and 15 yard penalty put the ball on Iowa State's 10 yard line, from where McBride and Young carried it over. Later in the quarter Trauger muffed a punt that Nebraska recovered. The line held three times, but on the next play Trauger attempted to intercept a pass, but instead tapped it into the hands of a Cornhusker, who ran unmolested to the goal. Hitch broke his arm in the last quarter. This handicapped the Cyclones' offense greatly. The passing combination of Wilcox to Hitch had been working perfectly up to this time and was responsible for both Cyclone touchdowns.

Varsity Basketball

The 1930 basketball season at Iowa State was characterized by an enthusiasm among fans unequalled in recent years. Every home game saw State Gymnasium packed to the doors, and the successes and misfortunes of the team became a major topic of conversation among students. The major cause for this increased spirit concerning the winter sport can be attributed to the coaching of Louis Menze, who completed his second year at Iowa State this spring. Coach Menze has gained the confidence and friendship of the entire school in a short time and has developed such a clever and effective style of play, that his team receives the whole-hearted backing of fans whether winning or losing.

The entire season was featured by the brilliant play of two sophomores, Jack Roadcap and Dick Hawk, who both received their prep coaching under Coach Menez at Central High, Kansas City. Roadcap, weighing but one hundred and thirty pounds and continually at a disadvantage in the matter of height, covered the hardwood court at a pace unsurpassed in conference circles. The season's wind-up found him in the runnerup position for Individual Big Six Scoring Honors.

Hawk formed the back-bone of the Iowa State defense, and proved an able general in getting the proper offensive play under way. His steady, effective guarding was a big factor in Iowa State's cage success, and in addition he possessed ability as a dribbler and basket shooter that would have made him a valuable forward on most any conference team.

Captain Glenn Woods made an admirable general for his sophomore teammates.

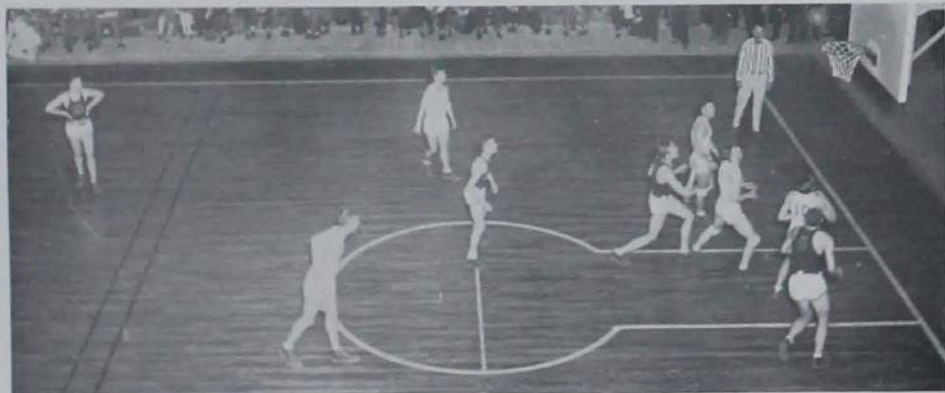

CAPTAIN WOODS

Seldom as brilliant as Roadcap, the Cyclone captain was far more consistent. He could always be counted on for eight or ten points, and frequently came through with high scoring honors.

Al Heiman, rangy sophomore center, handled the toughest assignment on a cage team in a most commendable manner. His ability to win the tip-off gave added impetus to the Cyclone offense, and as the season progressed he became increasingly proficient at getting the ball on rebound.

The fourth sophomore regular was Max Rieke. He teamed with Hawk in protecting the Cyclone basket, and did his best playing in the earlier part of the season. Dick Wileox, Herman Holmes and Burnet Zimmerman subbed at the guard positions, and Wileox and Zimmerman alternated in replacing the regular Cyclone forwards.

Roadcap scores in game with Drake. The ball can be seen just above the basket.

Varsity Basketball

WOODS
Forward

Competition in Big Six basketball proved much keener in 1930 than during any previous year. No team came through the season with less than two defeats, and the only team which failed to win at least two conference battles was Oklahoma University, 1929 champions. The fact that individual scoring honors were 40 points short of the 1929 record is ample proof that conference teams were evenly matched.

Iowa State opened the conference season at home with the veteran Missouri squad. The Tigers proved too deadly in their shooting, and won the encounter 31 to 24. The game was featured by the offensive play of the two opposing guards, Waldorf of Missouri and Hawk of Iowa State. Each collected 10 points to tie for high scoring honors.

The next Tuesday Nebraska Uni-

versity invaded Iowa State territory and overcame the Cyclones 32 to 22. The game was peculiar in that Iowa Iowa State had little trouble in working the ball down to the basket, but try as they would, they could not connect with the hoop. Their number of tries for baskets easily doubled those of the Huskers.

The next Friday Coach Menze and company traveled south to Lawrence, where the Kansas University quintet defeated them 37 to 16. Then things began to change. The team traveled on south to Norman, Oklahoma, the following day, and won their first conference victory over the Sooners by a score of 34-33. This was the most thrilling game played away from home, and the one in which Jack Roadcap first gained widespread publicity for his uncanny basket shooting. The Cyclones were trailing seven points with but two minutes and forty seconds left to play. Defeat seemed inevitable. Then Roadcap, the "Iowa Sparkplug", as the newspapers termed him, got "hot" and sunk four baskets in rapid succession. This put Iowa State one point in the lead just as the gun ended the game.

Varsity Basketball

The next game, with the Kansas Aggies, in State Gymnasium found Iowa State in top form. They led the K-Aggies throughout the entire game, winning 37 to 21. Roadcap sank baskets from every angle of the floor, winning high point honors with 16 points. Captain Woods had his one-hand "push in" shot down to perfection, and totaled 8 points. Hawk held the veteran Negro, star Kansas Aggie forward, down to one field goal.

A return engagement with Missouri was next on the card, the game being played at Columbia. Led by Craig, flashy Tiger forward, the Missourians never let Iowa State endanger their lead, and won the game by a score of 43 to 34. Individual honors were high, Craig of Missouri hitting the loop for 15 counters, and Roadcap and Woods totaling 12 points each.

The Sooners came to Iowa State the following week, prepared to avenge their last minute defeat at the hands of the Cyclones earlier in the season. Their form, however, was far poorer than that displayed at Norman, and the Menze-men had little difficulty

ROADCAP
Forward

HAWK
Guard

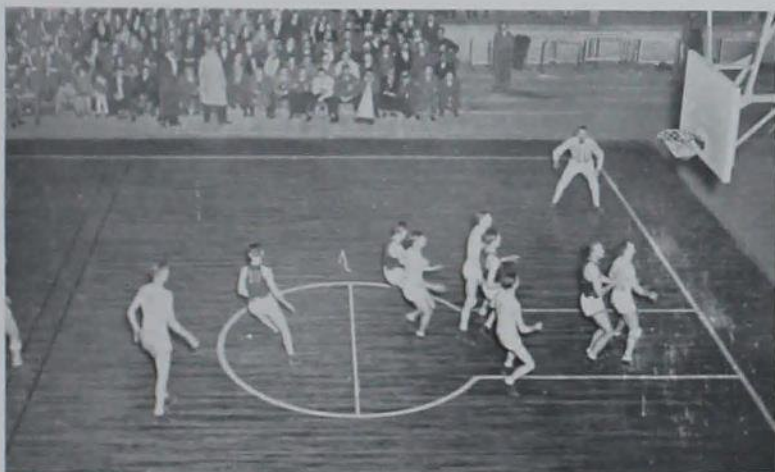

HEITMAN
Center

in winning this second encounter. The final score was 39 to 23. The game was unusually rough, 19 personal fouls being chalked against the two teams.

A Saturday to Monday trip was next on the Cyclones' calendar. On Saturday they traveled to Manhattan and beat the Kansas Aggies in one of the closest games of the season. On the previous night, the K-Aggies had overcome the hitherto undefeated Missouri team, and were apparently in the best of form. At the end of the first half of the game, the Kansas Aggies were leading 14 to 11, but the second period saw the Cyclones come back with a spurt to win 25 to 24. Monday's contest at Lincoln proved to be one of the freest scoring contests either team

played all season. Both teams sunk baskets desperately all through the contest in an endeavor to gain a substantial lead over their opponent, but the margin never rose above a few points in either team's favor, and when regular time was up each team had 44 points to its credit. The overtime period, the first of the season for either team, was crowded with action. The Huskers made three baskets as fast as Fisher and Grace could toss the ball. Then Woods and Rieke counted for Iowa State, bringing the count to 50 to 48. The Huskers sank another, but Roadcap cut down the margin with a long shot from

the side. He then tried two more shots in succession, but the gun ended the contest. Fisher of Nebraska nearly tied the scoring record for a single contest by gathering 21 points single handed. Roadcap and Woods also exceeded their former high marks by totaling 18 and 17 points, respectively.

The final Big Six game with Kansas University was the most exciting and hardest fought contest played in State Gymnasium all season. Already holding one victory over the Cyclones, and in need of but a second one to clinch the conference championship, Coach "Prog" Allen's basketeers came to Ames expecting an easy victory. Iowa State, however, displayed an attack that was not to be thwarted even by potential conference champions, and when the shouting was over, they possessed 30 points to the Jayhawkers' 27. Roadcap was at his peak that night, and counted for 16 of the Cyclones' 30 points. On two different occasions he dribbled at an amazing pace down the entire length of the hardwood court to swish through baskets, while the Jayhawkers stood flatfooted. The doughty Bishop, who only a week before had collected 23 points against Nebraska to set a new conference record, found the Cyclone guards too much to cope with, and had to be content with but 7 counters.

The Big Six championship was not decided until a week later, when, in the final conference contest of the year, Missouri defeated Kansas University.

BIG SIX MEET

Oklahoma	1
Kansas University	2
Kansas State	3
Iowa State	4
Nebraska	5
Missouri	6

When the 1929 cross country season rolled around, Coach Bob Simpson, for the first time in many years, was faced with a shortage of cross country men. The four Cyclones, Hoak, Behrens, Christensen and Bailey, who had carried off high honors in nearly every distance race for the past three years, had been lost by graduation the former spring. The only letterman left was Captain Ray Putnam. The remainder of the squad, with the exception of Thompson, lacked varsity experience completely. As a result of this situation, the past season was not a successful one. However, the brilliant work of Captain Putnam somewhat compensated for the team losses. Putnam won every dual run in which the Cyclones took part in an easy fashion, and in the Big Six meet at Lincoln was forced to relinquish his big lead during the last 20 yards, due to a leg injury.

The first run of the year for the Cyclone barriers was held with Kansas University between halves of the Kansas-Iowa State football game, at Ames. Captain Putnam led the pack of runners to the tape by a full quarter mile, but all five Jayhawk runners followed him in a pack to win the meet 20 to 35.

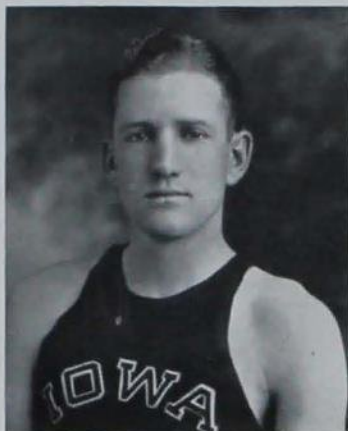

Simpson Putnam Gore Thompson

Individual Point Summary

	K.U.	Okla.	Kan. State	Big Six
Putnam	1	1	1	2
Thompson	9	6	2	17
Howell	8	8	6	27
Gore		9	10	
Roadcap	10	10	9	24

CAPTAIN PUTNAM

The following week Coach Simpson took his men to Norman to compete with the Sooner runners. Again Putnam broke the tape in the excellent time of 26 minutes 30.4 seconds, and also again sufficient Oklahoma runners copped places to beat the Cyclones, 21 to 34.

The next meet, with Kansas Aggies, who were undefeated during the dual season, proved somewhat of an upset. The K-Aggies were doped to have things all their own way; however, the final score gave them but a one point advantage over the Cyclones, it being 27 to 28. In this race Captain Putnam took first, and his team mate, Thompson, stepped out to finish second. Howell came in sixth to cut the Iowa State total to 28.

The Big Six run was held on a cold and disagreeable afternoon, Thanksgiving Day, at Lincoln, Neb. Putnam was doped to take the race due to his former victories, with Miller of Kansas Aggies figured as his chief competitor. When the runners came within sight of the finish, the Iowa State captain was a full 200 yards ahead of his nearest competitor, Dawson of Oklahoma University. Then his stride broke, apparently due to a leg injury, and limping toward the tape, he was passed by Dawson in the last twenty yards of the five mile run.

Putnam winning with no one else even in sight.

1929 Track

The 1929 track season at Iowa State was a most successful one in view of the competition which they faced nearly every week-end during the season. The Cyclones didn't win either the conference indoor or outdoor championships, but came within three points of winning the former, and placed a strong third in the outdoor carnival. A lack of field event performers proved the Cyclones' weakness, for in every conference meet they scored heavily on the track, but fell down on the field events.

A resume of the season shows that Iowa State dropped one indoor dual meet to Nebraska, but won victories over Drake and Grinnell during the indoor season and over Missouri and Drake in the outdoor competition. The Illinois Relays, the Texas Relays, Southern Methodist University Relays and Drake Relays found Iowa State men placing high in their respective events.

The consistent performance of the distance relay team, both as a team and individually, counted for many of the Cyclone points. The team was composed of Captain Harry Hoak, Irving Christenson, Dick

CAPTAIN HOAK

Behrens and Ray Putnam, all of whom, with the exception of Putnam, are lost by graduation this spring. The individual performances of Maurice Soultis in the pole vault, Hubert Meier and Art Engle in the dashes, and Bob Hager in the hurdles stamp these men as numbered among the country's best in their events. Of this latter group, only Engle is lost by graduation.

Low Hurdles—Big Six Outdoor Meet Here.

Indoor Track

HOAK
880, Mile
and Two-Mile

The first annual conference indoor track meet proved the most exciting competition for the Cyclones during the winter season. Oklahoma University and the Cardinal and Gold men matched point for point through nearly the entire meet. However, the Sooners' mile relay team proved superior to that of the Cyclones', and in the final event they garnered enough points to edge out Iowa State for the conference championship.

The best races of the new meet were the mile and two mile runs, featuring Poco Frazier, diminutive Kansas University runner, and Ray Putnam, fleet Iowa State distance man. In the mile event Frazier and Putnam led the pack of runners all the way, and on the final stretch began a heart-

breaking struggle to reach the tape first. Contrary to expectations, the Cyclone sophomore forged ahead of the Kansas veteran and hit the tape for a new conference record in the mile. His time was 4:22. The two mile run looked like a duplicate of the former race, but Frazier possessed the greater endurance, and won this race to even the count.

Meier bested Wilcox of Kansas, Lowe of Nebraska, and Adkinson of Oklahoma in winning the dash. Captain Hoak won the 880 yard run handily, and Maurice Soultz defeated Bryce of Oklahoma and Ossian of Nebraska, winning the pole vault at 12 ft. 6 in. Bob Hager ran second to Carmen of Oklahoma in the high hurdles.

HAGER
Hurdles

ENGLE
Dashes

Wilcox nosing out Engle and Meier to win the 100 yd. dash in the Big Six meet.

Indoor Track

The first indoor competition of the year was the Kansas City Athletic Club Games at Kansas City, Missouri, on Feb. 9. The Cyclones captured two firsts in this meet. The two-mile relay team composed of Behrens, Putnam, Christiansen and Hoak, won first in their event, and Maurice Soultis cleared 12 ft. 3 3/4 in. to win the pole vault event. On February 15, Iowa State entertained the annual triangular meet with Drake and Grinnell, and, rather impolite for a host, walked away with nearly all the honors. The point summary showed Iowa State 87 points, Drake 22 1/2 points, and Grinnell 20 1/2 points. The Cyclones took firsts in ten of the twelve events. Hager and Soultis scored first and second in both hurdle events; Meier and Engle did the same in the dashes;

Bailey, Putnam, Hoak and Christiansen scored all of the points in the distance runs.

The following week Coach Simpson took his men to Lincoln, Nebraska, where they lost a close meet to the Huskers' team. The score was 59 to 45. Meier and Engle took first and second honors in the dashes, and the Cyclone distance men, Putnam, Hoak and Christiansen, made a clean sweep in the mile. Maurice Soultis won the

pole vault, Hoak the 880 yard run, and Hager the 60 yard low hurdles. At the Illinois Relays, March 16, Hager placed second to Rockaway of Ohio State in the high hurdle event, and Maurice Soultis scored fourth honors in the pole vault. The Iowa State shuttle relay team placed second to Chicago University in a race which was run in world's record time.

Hursley of Missouri winning the 440 yd. dash at Big Six meet.

Outdoor Track

BEHRENS
880 and Mile

The first outdoor competition of the year were the Texas Relays and Southern Methodist University Relays on March 29 and 30. In the first of the two meets, at Austin, Iowa State won the medley relay with a team composed of Engle, Christiansen, Putnam and Hoak. In the special events, Maurice Soultis tied for second with Bryce of Oklahoma in the pole vault at 12 ft. 11½ in. Hager broke the tape in the 120 yard high hurdles, but was disqualified for upsetting one more than the allowed number of hurdles. On the following day the Iowa State four mile team composed of Behrens, Christiansen, Hoak and Putnam, placed second to Indiana University. In the special races, Meier took third and Engle fourth in the century dash, compet-

HOPPE
High Jump

ing with such men as Bracy of Rice Institute and Simpson of Ohio State. Bracy, with the aid of a stiff breeze, won the event and was timed in 9.4 seconds. Soultis again placed second in the pole vault.

The Drake Relays on April 26 and 27 found the ranks of the Iowa State track team sorely depleted due to an epidemic of the flu. The distance relay teams were completely crippled, thus eliminating one of the Cyclones' chief sources of points. In the special events, Hager placed third behind Sentman and Rodgers of Illinois in the high sticks, and Soultis tied for second in the pole vault.

Outdoor Track

On May 5, the Iowa State track team journeyed to Columbia, Missouri, and defeated the Tiger tracksters for the second consecutive year. The final score was 75 to 56. The Cyclones scored nine firsts to the Tigers' five. Meier and Engle again won first and second, respectively, in the dashes, while Hager broke the tape in both hurdle races. Iowa State scored shutouts in the mile and two mile runs, with Missouri doing the same in the 440 yard dash and broad jump.

Again, in the Big Six meet, the lack of ability to score consistently in the field events forced Iowa State to relinquish a substantial lead they had built up during the early track events to both Nebraska and Oklahoma. The Cyclones scored but 8 points on the field, while Oklahoma

COOMER
Shot-put and Discus

PUTNAM
880, Mile and
Two Mile

BAILEY
Mile and
Two Mile

amassed 33 $\frac{2}{3}$ and Nebraska 22 $\frac{1}{2}$ in this way. In the first event, Hager placed second to Lamson of Nebraska, and Maurice Soultis third in the 120 yard high hurdles. Next came the 100 yard dash, in which Wilcox of Kansas tied the conference record of 9.6 seconds established by Locke of Nebraska. Wilcox and Meier and Engle ran down the straightaway neck and neck, and only in the last two or three yards was Wilcox able

to pull away from the Cyclone sprinters, who finished second and third. The next event, the mile run, developed into probably the finest race of the meet. In view of his record breaking performance in the K. C. A. C. games, Putnam, of Iowa State, was doped to win this event. All went as expected for three laps, with the Cyclone sophomore holding a substantial lead. Then the unexpected happened. With every other runner beginning his final sprint, Putnam's stride

broke, and as he slackened his pace, Miller of Kansas Aggies shot by him. Captain Harry Hoak, who had been running a poor third, saw his team mate falter and finally fall, and began a sensational sprint, and with but five yards to go, pushed himself by Miller to capture the event for Iowa State. Hager placed second to Carmen of Oklahoma in the 220 yard low hurdles, while Maurice Soultz tied for first in the pole vault at 13 feet $\frac{3}{4}$ inch. This was a new Iowa State record for this event. The only meet record broken was in the broad jump. Tomson, a red-headed Nebraska sophomore, leaped 24 feet $2\frac{5}{8}$ inches to better the former mark of 23 feet $11\frac{3}{4}$ inches, established by Spangler of Kansas University in 1928.

The final dual meet of the season with Drake University at Des Moines proved a walk-away for Coach Simpson's men. The score was $99\frac{1}{2}$ to $44\frac{1}{2}$. Iowa State took eleven firsts, and took all the possible points in the broad jump, mile run, high hurdles and javelin throw.

Varsity Wrestling

Iowa State had a comparatively successful wrestling season, by sharing with Nebraska the honors for second place in the Big Six Conference. At the Big Six Individual Championship Tournament, Williams, 125 pounds, and McCormick, 118 pounds, were the champions of their respective classes. Captain Linn, 135 pounds, was awarded the conference cup for winning the most points during the dual season. The no-team championship for the meet was officially announced to Iowa State College with 23 points. Linn again showed his superior ability at the National Collegiate Association Wrestling Tournament by winning a decision over Lewis Bauerle, Big Ten Champion, for the national 135-pound title.

The first meet of the year was with the Iowa State Teachers, which the Cyclone grapplers won, 26 to 8. Coach Otopalik's masters of the "gentle art" won four falls and two decisions. McCormick and Cole both won by falls, and in doing so ran up ten points. Griffith met the Tutors' star, Erickson, 135 pounder, and dropped the only decision that the Cyclones lost. Captain Hugh Linn won an overtime decision, wrestling in a class above his normal weight. Juhl had little difficulty in disposing of Orr by pinning the latter's shoulders to the mat in quick fashion.

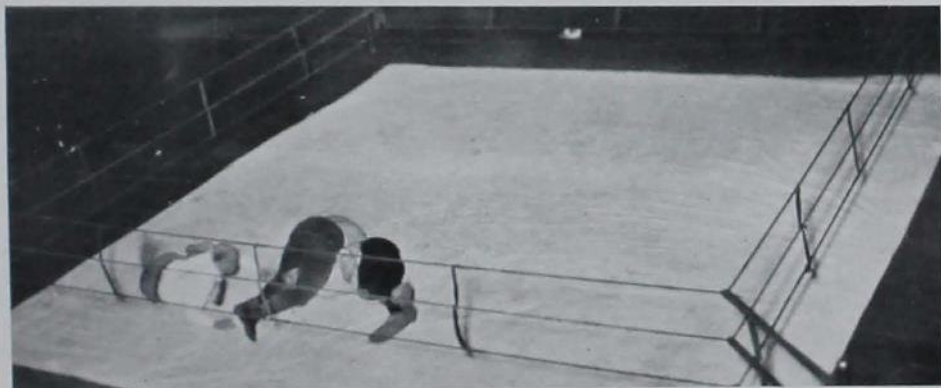

The following Saturday night found the strong Wisconsin team facing Coach Otopalik's pupils. It was the first home match

CAPTAIN LINN

of the season, and the Badgers found that their Big Six opponents had too much experience and power for them. The 175 pound weight was the only match that the Big Ten school won; Iowa State took the rest, which brought the final score to 27 to 3. McCormick and Cole repeated their point winning performance by throwing their respective men. Goodale, making his first mat appearance of the season, made short work of Spaeni when he pinned the latter's shoulders to the canvas in the short time of 2:01 minutes.

Oklahoma A. & M. furnished the next opposition to the Cyclones. The national champions from the south broke the win-

A near fall in the 165-lb. class.

Varsity Wrestling

LINN
135 pound

ning streak of the Iowa State matmen by winning 26 to 6. The Aggies were superior in the heavier weights—winning in the heavyweight by a fall. The most attractive match of the evening was fought between two bitter rivals, Dick Cole, Iowa State's able 125 pounder, and Bobby Pearce, the Aggie sophomore. During the first two minutes the men did not go to the mat, both knowing each other's powers and looking cautiously for an opening. Every trick known to college wrestling was used in the match, which resulted in a time advantage of 1:02 minutes for the southerner. Captain Linn, showing catlike speed, rode an angry Aggie cowboy all over the mat, spoiling every trick on his opponent's part to break loose. Linn's superiority was clearly shown, and as a result he won a time advantage of 9:30 minutes.

GOODALE
Heavyweight

"Iron Man" Juhl furnished the Cyclones with another victory by continually applying a deadly bone-crushing half-nelson upon his red-headed and speedier opponent.

Smarting from the defeat from the hands of the Oklahomans, Coach Otopalik's men, with a week's rest under their belts, showed their abilities over the much feared Missouri Tigers. Hansen, of Iowa State, won a desperate struggle from the Tiger captain by pinning his shoulders to the mat in the last minute of their bout. Showing their usual aggressive style, McCormick and Cole won their matches. Welty, substituting for Schroder, won a fall over Young of Missouri in another hard fought match.

Cornell next felt the superior strength of the Cyclone grapplers when they toppled before superior brain work and cunning strength to

COLE
125 pound

Cole
using a

hold to stay
behind Juhl.

Varsity Wrestling

the tune of 35 to 0. Iowa State won five of the eight bouts by falls. Welty again furnished one of the most exciting matches of the meet, when he finally won by clamping a head scissors on his opponent. Williams, Iowa State's sophomore, wrestling his first varsity match, made a creditable showing by downing McCarty in 3 minutes. Hansen showed ability with the scissors on his opponent's head when the former won a fall in 8 minutes. Goodale, Linn and Nelson also won by falls.

In the first match of a four day trip, the Iowa State matmen defeated the Kansas Aggie wrestlers 12 to 9. Goodale, with the result of the meet resting on his shoulders and battling a man who had defeated him twice before, showed his best form of the season when he succeeded in breaking

HANSEN
145 pound

MCCORMICK
115 pound

JUHL
155 pound

the cunning holds of the Aggie heavyweight. By applying a back-breaking body scissors the Iowa State wrestler gained a 3 minute time advantage. Williams, clever 115 pounder, lost a decision to an Aggie man, as did Hansen and Pontius. Linn won a decision over his ancient rival, Mantzee. "Iron Man" Juhl, by clever wrestling took a decision in the 155 pound class.

Oklahoma University, conference champions, upset the dope bucket by putting Iowa State on the short end of an 18 to 8 score. Linn continued his winning streak by throwing Danforth, the strong Sooner, in six minutes. Goodale also won a decision in the heavyweight class. Dick Cole found the going too difficult against Captain Mantooth, national champion, in the 125 pound class, and lost a close decision to him. Juhl lost his only match of the season by failing to win a time advantage over his southern opponent.

Cole
and Juhl

Varsity Wrestling

WILLIAMS
125 pound

Nebraska upset more dope by beating Otopalik's grapplers 16½ to 13½. The characteristic pep and fight were lacking in the Ames men. Williams, Iowa State, lost an overtime decision to a Cornhusker. Welty's fight and nerve against Skinner, of Nebraska, was outstanding, but the former failed to win the match. Cole won a close decision in his own weight, as did Captain Linn.

With the sting of two defeats in their ears and knowing that the meet with Kansas University would be the last dual meet of the season, the Iowa State mat artists put the Jayhawkers under to win by a score of 33 to 3. Before thirteen minutes had elapsed, four falls had been won by Iowa State. The Jayhawkers' lone match came in the 165 pound class,

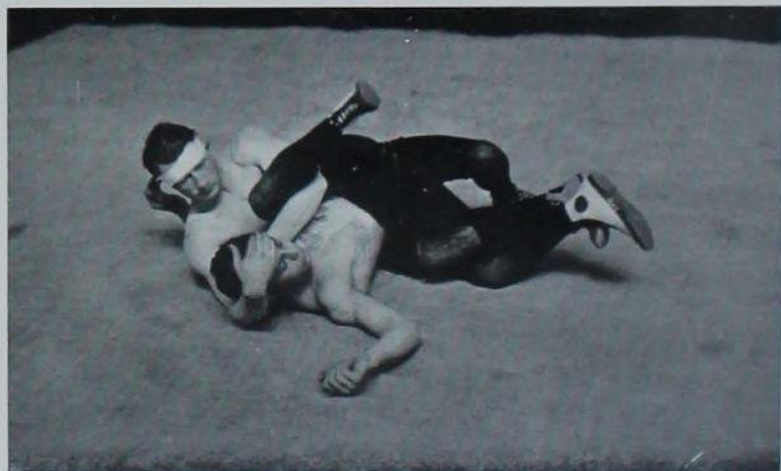

WELTY
165 pound

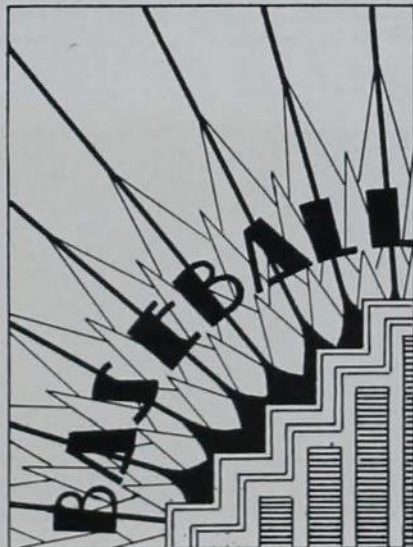

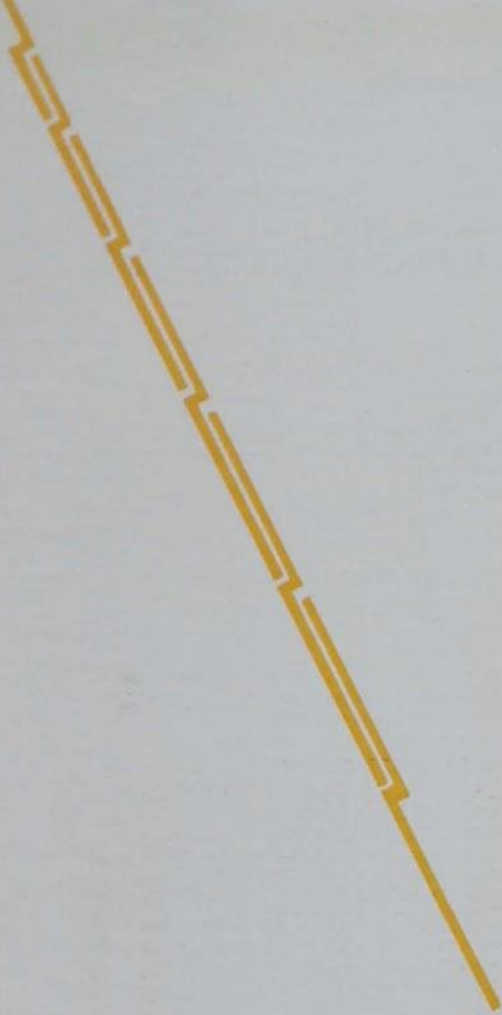

when Captain Steve Church, Big Six champion, won a time advantage over Weltay. The flashy Cyclone skipper, Captain, Linn, pinned his opponent in sixteen seconds after "Go" was given by the referee. It was a spectacular finish for Linn, who was wrestling his final match before a home crowd. He will long be remembered by Iowa State fans as one of the most capable wrestlers that Otopalik has ever produced. McCormick threw his man by applying a half-nelson and crotch hold. Changing the up and down position twelve times during the bout, Schroder won a referee's decision in an overtime bout.

Iowa State started the 1929 season with great hopes. Ten lettermen reported at the first call, Capt. Paul Dale and John Thorngren being the only two lettermen of the previous year that were not still in school. The weather was very bad, so the first few weeks were confined to indoor practice.

Drake opened the season, at Ames, losing to a much superior Cyclone nine, 9-2. The game looked like a one point victory for Drake until the last of the seventh, when Oldham, Cyclone outfielder, found King's groove for a long drive, his team mates following, scoring eight runs and seven hits before they retired. Lande bore the brunt of the pitching for Iowa State, being relieved in the eighth by Gustafson.

Iowa State opened the Big Six season with Kansas University. In the first game K. U. came from behind in the last two innings, overcame the lead and went on to win 6-4. The Cyclones scored in the first and added three more in the third, on a pass to Oldham, Hill's infield hit, and Towne's home run to deep center. Kansas University made it two straight on the next day by defeating Iowa State 3-1. Two Kansans scored when Maney singled with the bases full and a third when Adland let one of Lande's fast balls get past him. The

CAPTAIN GETHMAN

Cyclones pushed Marsh across on a walk, two hits and an infield out. Tomsen was a trifle wild, and poor base running cost Iowa State at least two tallies. Lande pitched air-tight ball until the fifth inning.

Iowa State then started her invasion of the south. Her first game was with St. Mary's (there), where she suffered defeat 3-0. Oboynich, St. Mary's pitcher, held the Cyclones to three hits and allowed only one man to reach third. The batteries for Iowa State were Arthur and Kruse. Arthur pitched good ball, losing the game mainly because of ragged infield playing.

Gethman swings at a fast one.

Varsity Baseball

Coach Noel Workman's Iowa State Cyclones divided a twin bill with Oklahoma University at Norman. The first game had to go an extra inning, the Sooners winning when Tompton scored on Towne's error on Kruse's peg. The game seemed to be a pitchers' duel and a very even game until the fatal error.

The Cyclones broke the ice in the third inning of the second game. Adland was safe when Murray failed to touch the bag at first. Gustafson fanned, and Huntbach singled, scoring Adland. Huntbach came in on Gethman's single. In the fifth the Cyclones won the game. Huntbach singled, stole second and beat the throw to third on Gethman's infield roller, Gethman pulling up at first. Towne bunted, scoring Huntbach, but Haswell threw the ball away attempting to catch Towne, scoring Gethman.

Iowa State played her next game with Kansas State. The first game was called off due to rain. In the second, Lande played "Babe Ruth" to score the lone run for the Cyclones. The Big Six leaders completely swamped the Iowa diamond artists to the tune of 7-1. Gustafson and Lande pitched for the losers.

Iowa State won a ragged game from the Missouri Tigers, leaders of the Big Six Conference race. The final score was 9-7, but the Missourians threatened till the last man was out, scoring runs in the last inning. Gustafson pitched an erratic game, but managed to settle down in the third inning. The Cyclones hit Gerselman hard at the start, scoring four runs in the first, one in the second, two in the fifth and two in the seventh.

After dropping the first game, the Missourians came back and easily took the second game by an 8-3 score. Fieldeamp, the Missouri left-hander, allowed the Cyclones only seven scattered hits. This was Iowa State's last home conference game.

Nebraska swept the series with Iowa State, winning 4-1 and 6-4, respectively.

The first game was an easy victory for Nebraska. The Cyclones didn't threaten until the fifth, when they managed to get a lone score. Gustafson pitched. In the second game, the Cyclones played much better ball. Nebraska had a 4-0 lead in the first five innings. Iowa State scored in the sixth when Lande walked, stole second and scored on Marsh's single. Lande's sacrifice scored Huntbach in the eighth. Hill's single sent Rudi and Adland across in the ninth.

Arthur, Ames' moundsman, allowed only one hit in the game with the Upper Iowa Peacocks. Coach Dorman's Upper Iowans were held hitless until the eighth, when Humphill, pinch-hitter, drove one of Arthur's slants over third for a single. Coach Workman's sluggers got to Moulton for seven singles during the course of the fray.

The next game in this after-season barnstorming trip was with Luther. The Iowans had the game 1-0, but a sixth inning rally in the seven-inning game gave the Luther Norsemen a 6-1 victory over Iowa State. Youngquist, who pitched for Luther, struck out eleven men and allowed only seven scattered hits. Lande allowed ten hits, but seven came in the sixth inning.

Iowa State next met Iowa State Teachers. The first seven innings seemed to be a pitchers' battle between Huntz of the Teachers and Gustafson of Iowa State. Despite the fact that the Teachers scored two hits in the initial inning, they got only two safe hits up until the seventh. Iowa State came to bat in the seventh and soon tied the count. The Teachers came back with a vengeance to score a victory.

In the final game of the season, Iowa State fairly slaughtered the offerings of two Carleton pitchers to win 14-1. Les Lande, Cyclone ace, pitched masterful ball, striking out eleven men and allowing only two hits. Huntbach got two home runs, and Marsh and Kruse each one home run. Needless to say, the Cyclones had things much their own way.

Coach Campbell Hendricks Robins McMurphy Welsh Klein

Varsity Tennis

The 1929 tennis season opened under the new Big Six rules. The former method of haphazard matching has been superseded by a system of regulation. A four-man team played a series of four single games and two double games. The men matched were of the same rank in their respective teams. In the doubles matches the top two men in each team formed the opposing pair.

The Iowa State tennis team opened the season with a defeat at the hands of Drake on the home courts. This match was featured by the stellar playing of Captain Robins, who defeated Brody of Drake in the singles. However, Iowa State lost both doubles matches after splitting the singles.

The two-game trip south resulted in the same number of defeats from Missouri University and Oklahoma University.

In the next meet with Kansas on the home courts the Cyclones staged a partial comeback. They split the singles and doubles matches to tie the score.

The first victory of the season was over Nebraska University at Lincoln. Iowa State downed the Huskers 4 to 2, taking two single smatches and both doubles matches.

CAPTAIN ROBINS

In the Big Six Conference Championships, Hendricks and McMurphy lost to Thurman and Brown of Oklahoma University in the second round, 6-2, 7-5. Robins and Welsh succumbed, 6-2, 6-3, to Landis and Coerver of Missouri, who later won the championship.

The new cement courts now used by the Varsity.

RAYMOND IGOU

By winning second place in the Big Six Conference and defeating Kansas Aggies and Kansas University in a triangular meet, Coach "Jake" Daubert had a team that he might well be proud of. Even though the dual season was not as successful as that of last year, Iowa State's aquatic stars made a very creditable showing.

The Cornhuskers furnished the Cyclones, first opposition, the meet being held in the home pool. During the first events both teams showed good form and as a result the lead went from one to the other during the early stages of the meet. MacDuff, 20-yard breast stroker, and Smith were point winners in their events. As the meet went on, Iowa State took the lead, and with the start of the last event, the Cyclones were on the better end of a 33 o 34 score. Nebraska, needing a first in the 300 yard medley relay to win the meet made a strong bid

CAPTAIN BURTNER

for first place and succeeded in nosing Iowa State out in the last lap to win 40 to 35.

Drake next met Coach Daubert's swimmers in their own pool. Here, again, the meet was very close and the outcome rested on the results of the allimportant 300-yard relay. Iowa State, leading by one point at the start of the final event, was not equal to the speed of the Bulldogs and, as a result, lost the meet. The unusually good swimming that Maynard Smith, high point man of the season, did was the feature of the whole meet. Fleig, Iowa State's diver, showed form in this meet that has never been approached in any competition between the two schools. Weigel, in the back-stroke, was a point winner.

Smarting from two defeats, "Jake's" men went after Grinnell with one thing in mind—to win, and to win decisively. During the meet the team, as a

Varsity Swimming

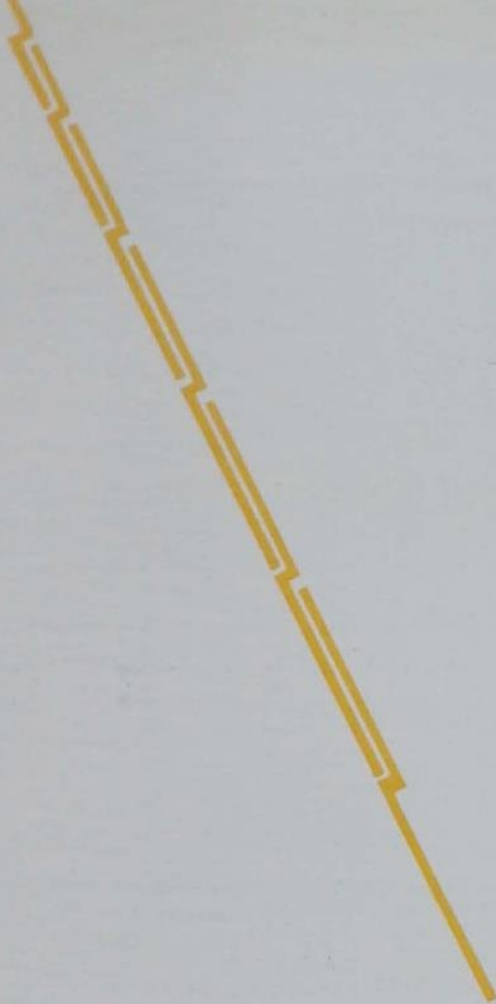

whole, showed the best form of the season, and after it was all over, Iowa State was on the long end of a 48 to 27 score. The noticeable feature of the meet was the superiority that the aquatic stars from Iowa State had in endurance. The Grinnell men always started strongly, but, as last year, lacked the necessary drive to finish in the lead.

The triangular meet held at Kansas City between Iowa State, Kansas Aggies and Kansas University, resulted in a one-sided victory for Iowa State with a total of 70 points. Kansas University was second with 25, followed by the Kansas Aggies with 18.

For individual scoring, during the entire season, Maynard Smith led with 37 points to his credit. The following is the individual standing for the rest of the squad: Weld 29 $\frac{3}{4}$, Unser 29, Fraser 22, Fleig 21, Petsch 19 $\frac{2}{3}$, Burtner 15, MacDuff 15, Chieken 13 $\frac{2}{3}$, Swoboda 9, Weigel 8, and Smith 8.

The Cyclone mentor, "Jake" Daubert, has discovered a lot of promising material in the freshman class and expects to have an excellent, well-balanced team next year.

Freshman Athletics

Presenting a formidable array in nearly every sport, the Freshmen of Iowa State have inspired in the Cyclone fans a lot of confidence in the athletic prowess of the Class of 1933. Under the excellent tutelage of the freshman coaches, much promising material has been uncovered during the past year. These are the men who are destined to uphold the future athletic accomplishments of the Cardinal and Gold. We hope that they raise those achievements far above the record of all time—we know with that spirit of "Iowa State Fights" behind them that they cannot lower it.

The 1929 call to the gridiron brought nearly 200 yearlings. These men were divided into separate teams in relation to their individual experience. The season consisted mainly of a series of round robin games among the freshman elevens and several scrimmages with the Varsity. As the season came to a close, three elevens known as the Freshman Varsity were picked from the entire group.

The annual football tilt between the Iowa State and Drake freshmen afforded an opportunity to view the Baby Cyclones in real action. Although the game ended in a disappointing 0-0 tie, it was comforting to see the Iowa State freshmen out-smart, out-gain and out-pass the Bullpups for four consecutive quarters.

Not for some time has Coach Bob Simpson been so thoroughly pleased with his freshman aspirants to cross-country. As a further proof of this, the number of numerals awarded this year was larger.

In basketball the material uncovered and developed during the season was nothing short of exceptional. The men who were awarded numerals, as well as those who received honorable mention, had the ranginess and speed which go to make up championship quintets.

The freshman swimming team has been called by Coach Daubert as one of his best. With the aid of these new swimmers, combined with the remaining varsity, next year's swimming would appear to be of championship caliber.

Tennis and baseball seemed to be about average in material, three or four promising yearlings being uncovered in baseball and one in tennis.

HARRY SCHMIDT
Director

Intramural Athletics

The Intramural Department of Iowa State College is one of the best organized departments in this institution. At the head are the Director of Athletics, T. N. Metcalf, and the Director of Intramural Athletics, Harry J. Schmidt. This division has four managers, namely: Senior manager, Frank L. Wylie, and junior managers, Marion T. Bruch, James A. Brockelsby and Glenn Younkin. The department holds regular meetings for the purpose of notifying the intramural managers of the various fraternity and independent groups. Cups are awarded for the league winners of all the leagues of the major and minor sports, and for the winners of the fraternity, independent, and all-college championships of the major, minor and special sports. A large cup is awarded to the winner of the majority of points for the entire

year, and is given permanently to the group winning it three times in succession.

Intramural athletics is a program of competitive athletics for the students and various groups on Iowa State campus. The main purpose of intramural athletics is to provide clean and wholesome recreation for those students who spend the majority of their time in class rooms or at a study desk.

The various forms of athletics are scattered throughout the three quarters at equal intervals. The major sports include play-ground ball, basketball, baseball, indoor track and outdoor track; the minor sports include volleyball, pentathlon, swimming and tennis; and the special sports include cross-country, wrestling, horseshoe and handball. The intramural department feels that every male student in college will have ample opportunity to participate in some of these various sports throughout the entire school year.

This competition helps promote the physical welfare of the students, and thus aids indirectly in attaining the best possible results in scholarship. Participation in these sports promotes association, organization and that vital thing we call "team play". The "team play" fosters those many virtues of courage, determination and self-control. It teaches the student group loyalty and self-sacrifice. This competition develops a real interest on the part of the students in their various groups, as well as in their college as a whole.

Atkinson Mettler Jacobsen Smith
Robinson Brockelsby Wylie Bruch

Intramural Athletics

The function of this department may be summed up to be: To encourage the entire male student body to participate in organized athletics, and to instill in the various students those characteristics of fair play, sportsmanship, and manhood that make real students as well as real business men.

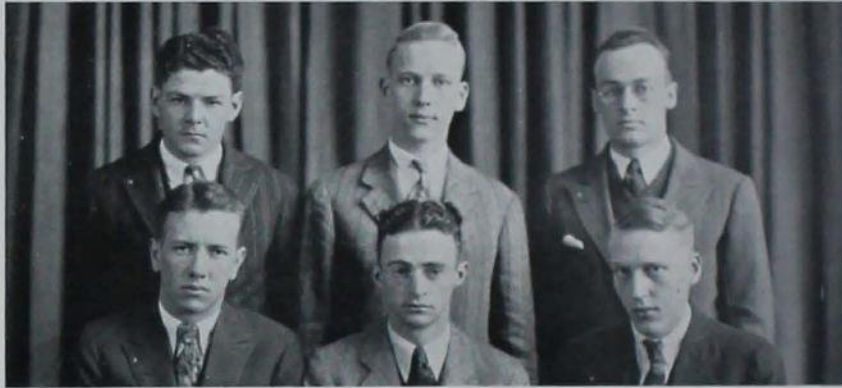

FRANK L. WYLIE
Senior Manager

Beauty Contest

THE six girls whose pictures are presented in this section were chosen by Florenz Ziegfield from a group of twelve which had been voted by the general student body as the twelve most beautiful girls at Iowa State.

Each sorority and dormitory was permitted to make two nominations from its group in order that the nominees might be representative of the entire school. These thirty-six girls nominated were voted upon by the student body and the photographs of the twelve selected were sent to Mr. Ziegfield who chose these six girls as 'Iowa State Queens' of 1930.

THE EDITOR.

MISS WINIFRED TILDEN

Physical Education Department

To present a program of sports which will interest every girl in recreational activity and to meet the challenge which the increased participation of women in sports offers, are the goals of the Women's Physical Education Department.

Under the able guidance of Miss Winifred Tilden and her staff, these purposes are being fulfilled. In so doing they have selected activities which tend to develop leadership, initiative, sportsmanship, vitality and strength, all of which qualities make for capability and efficiency.

By promoting the highest ideals of women in Physical Education and by instilling in the women of Iowa State the spirit of "Play for the Joy of Playing," the Physical Education faculty is doing a fine piece of work.

Ernestine Bunnell Marion Brock Madge Hill
Mildred Shouldice Myrtle Hinderman Winifred Tilden Elizabeth Maybury

Women's Athletic Association

The Women's Athletic Council is the governing body of W. A. A. The council arranges the athletic program for the year, and passes upon all business matters before they are presented to the Association.

The Women's Athletic Association, with the aid of the Physical Education Department, sponsors all extra-curricular sport activities, having as its motto, "Play for Play's Sake."

Penly Whitehouse Merrick Mosher Gring Pyle
Wherry Haerem Stoughton Chenoweth Guthrie Shepard

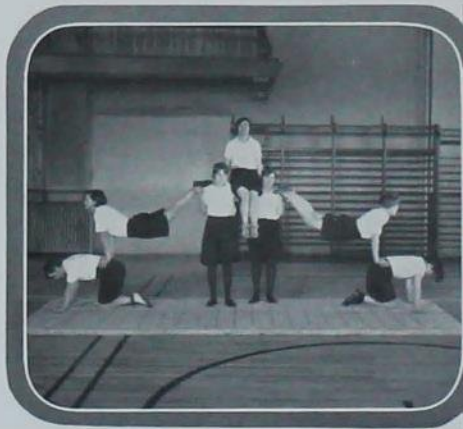

Hockey and basketball are both class sports, the latter played only during the winter quarter.

Pictured above are the junior hockey team, winners of the tournament, and the honorary varsity team which won from Drake on the local field last fall.

In the basketball tournament the freshmen won, with the juniors close seconds, and with the seniors third. During the winter quarter two local teams won two games from Drake with scores of 57-16 and 28-16.

Iowa State girls are also good acrobats. The accompanying tumbling pictures are representative of only a few of the acts given at Hee Vodvil.

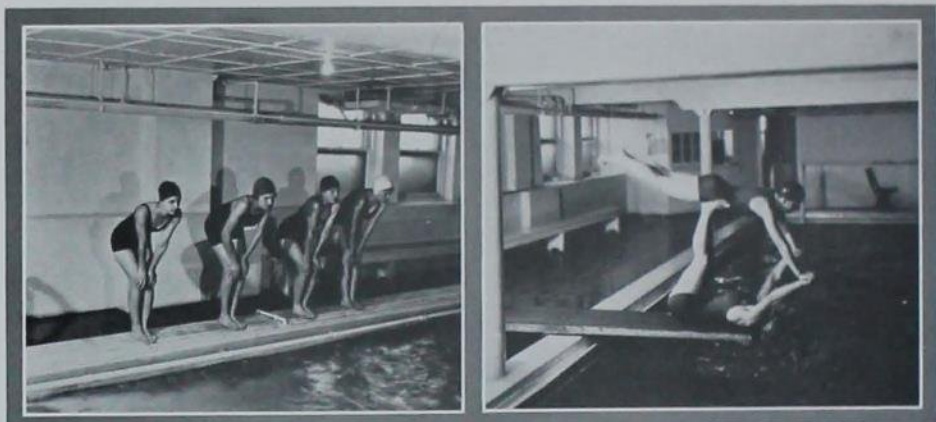

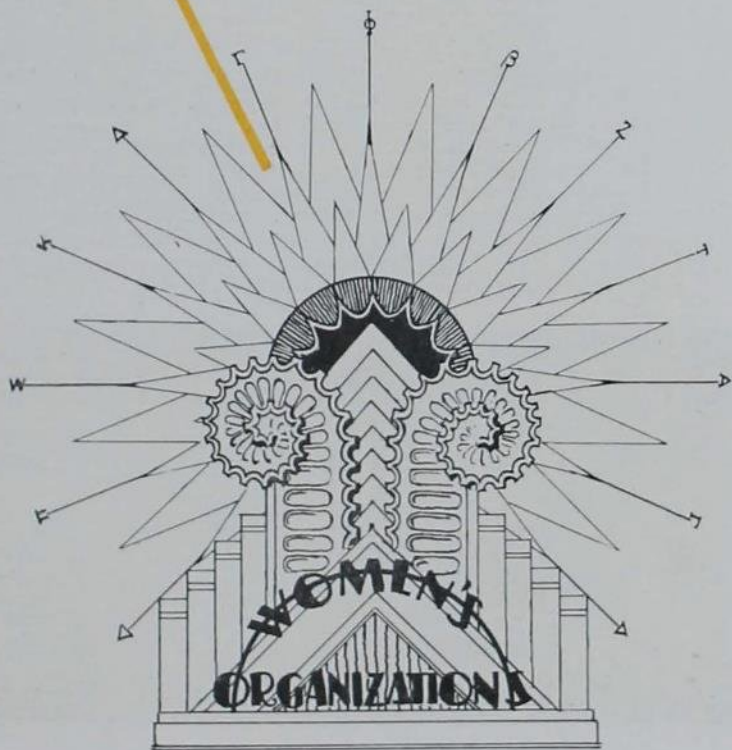

Phyllis Penly, '31 (right) was the 1929 tennis champion. The year before Frances Pyle, '31 (left), was the winner.

To be proficient in archery a girl must have good vision, a true aim, and a "strong right arm". To the right are pictures of some good marksmen.

Field hockey is without doubt the best liked of all W. A. A. fall sports. Last November the Ames varsity team won from Drake 3-1 in an exciting game on the local play field. This was the first intercollegiate play day of such a nature to be held for a number of years. Below are shown two scenes from this game.

On May 28, 1912, the organization of Delta Phi Delta art fraternity was completed and the Alpha chapter was established at the University of Kansas, Lawrence, Kansas. The Omicron chapter was established at Iowa State College on May 26, 1928. In recognition of the fact that, although honorary and semi-social, the greatest service on the professional side must come from the alumni group, the objects of this fraternity are:

1. To select from undergraduates in American Universities and Art Schools the type that gives the greatest promise of potential professional ability. 2. To promote and recognize scholarship. 3. To provide social activity based on the true friendships formed while working together, with the same interests and ambitions. A candidate for Delta Phi Delta may have no failures, and only one subject below 75, with an average of 85.

Sigma Alpha Iota Music Fraternity was founded at Ann Arbor, Michigan, in 1903, to promote a feeling of friendliness among the most talented women musicians of the school, so that working together and helping one another they might attain the highest ideal in music scholarship and be a credit to the school. There are now 56 active chapters. Sigma Lambda chapter was established at Iowa State College in 1924. The fraternity strives to create and to promote interest in music and music activities. The members are elected from the outstanding women musicians, for their participation and interest in music activities, their personality and scholarship.

The object of the League shall be to foster education in citizenship; to work for needed legislation; to interest women in college policies and the promotion of self-government; to teach them how and when to vote; to urge women to join the party of their choice; but the League shall not be allied with nor support any party.

The League of Women Voters Council is composed of two representatives, preferably an upper and an under class woman, from every organized house and hall on the campus. The general membership of the League is composed of the council and any college girl who is interested in politics.

The Iowa State College League of Women Voters is a member of the State and Federal Leagues of Women Voters.

ELEANOR THOMAS

WILLIAM BOWIE
MARVIN SANDSTROM

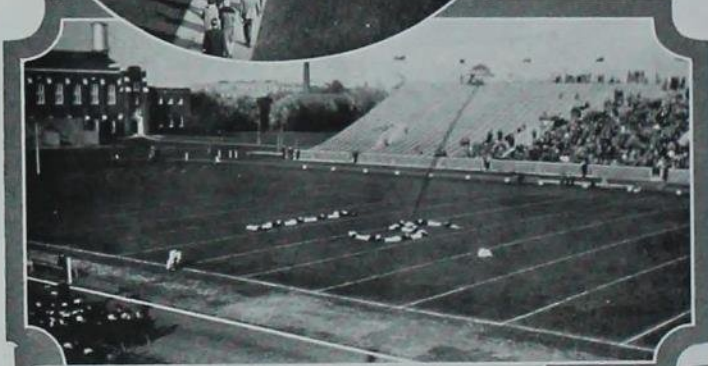

Margaret Stanton, Home Economics senior, was elected Queen of the May Fete at an all-women's election during the winter. As is the tradition, the secret of the choice was withheld until the opening day of Veishea, when "The King Who Never Laughed," as the May Fete was called, was presented.

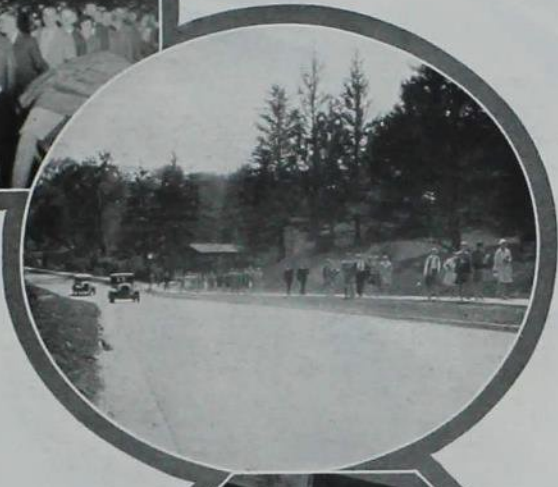

FALL

Rushing begins with fraternity men meeting the incoming freshmen at the station—Headquarters of the Sunshine Club—Pi Epsilon Pi performs between halves—We wallop Grinnell in the first game of the season.

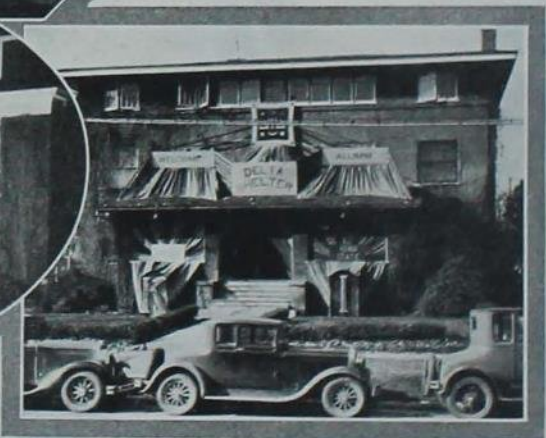

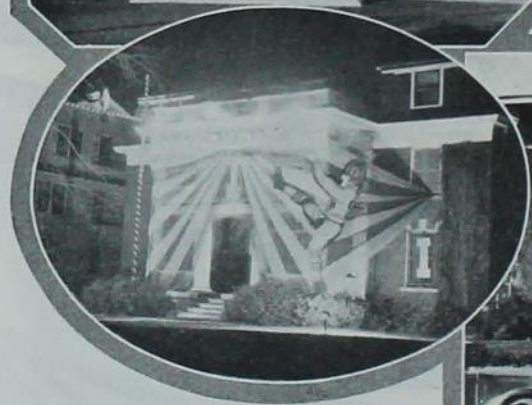

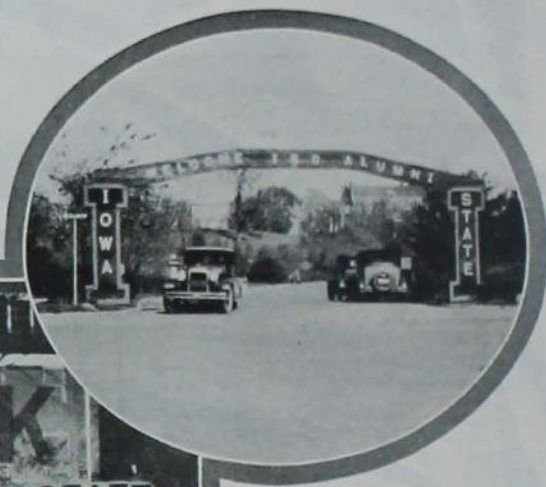

FALL

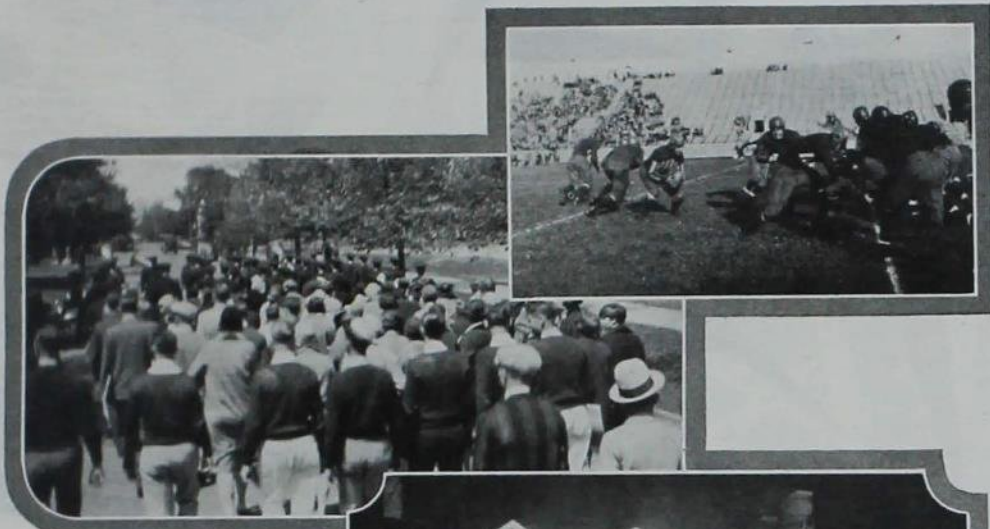

Free ice cream cones at the annual Y. W.--Y. M. C. A. Mixer in the Armory—The girls daily troop to Hee Building—Doc Gilman telling the boys a few things about Organic Chemistry—Union dances brighten up the week-end—The Tri-Delts get ritzy with garden furniture while their new house is being completed.

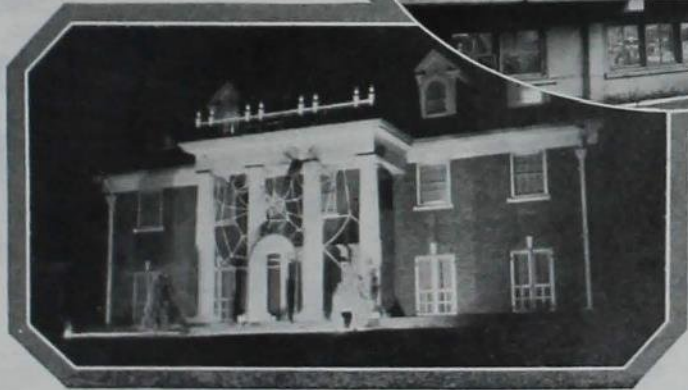

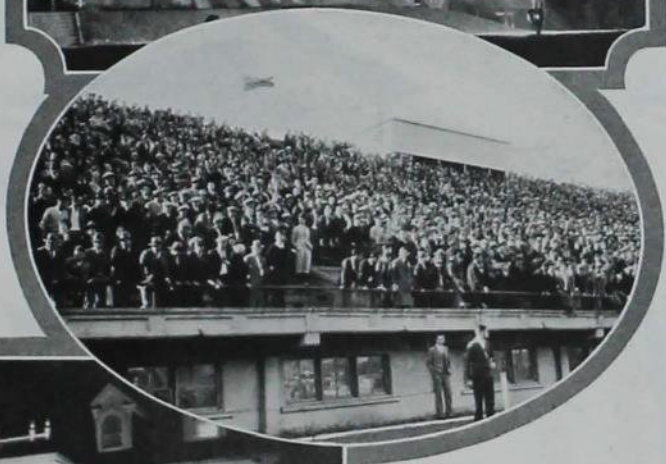

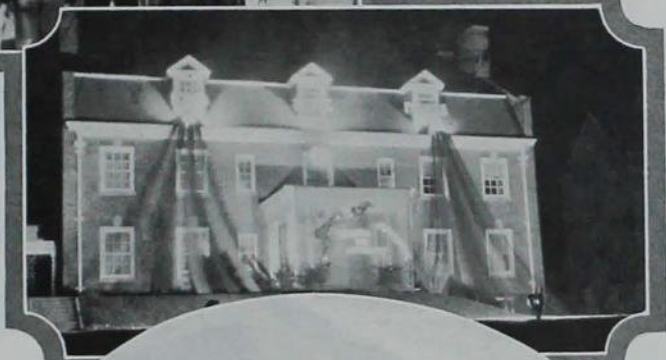

HOMEcoming

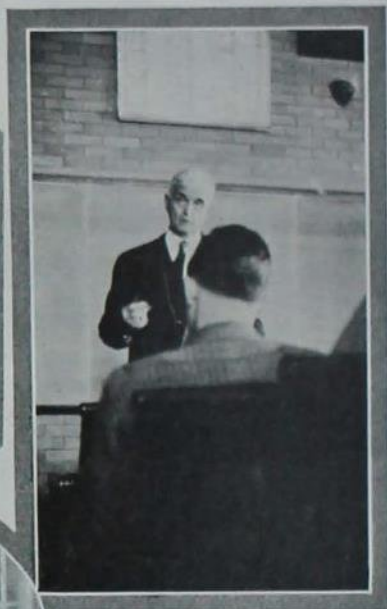

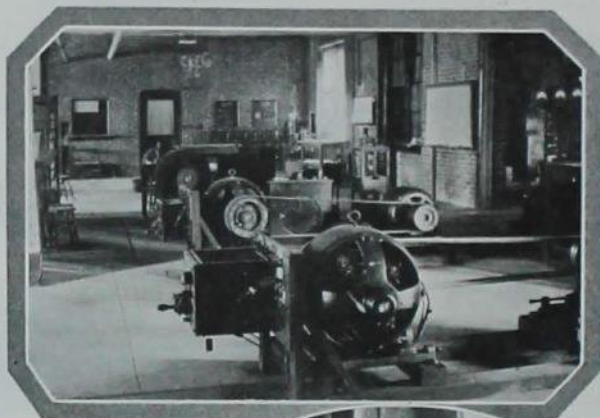

Homecoming—Welcome Alumni and Beat Kansas, all in the same breath—Fijis' homecoming decorations feature the new locomotive—Lambda Chi's get clever with a unique clock—You can get a big kick out of the Theta Deltas' decorations—Deltas have their Delta Shelter again.

HOMECOMING

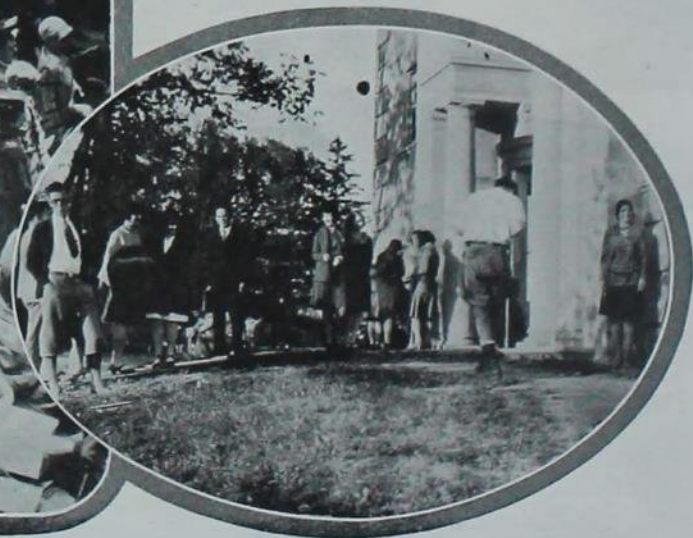

Plenty of pep was shown before the game—Let's not talk about the game—The Sigma Nu house all lit up—Plenty of alumni and students in the stands to see the slaughter—"Come into my house, said the spider to the fly"—Chi O's.

FALL

Prof. Meeker in "Spec and Con"—Electrical Engineering lab on a hot afternoon—Some engineers actually working—Preps suffering in Chem lecture—Juniors posing for their Bomb pictures.

PROBATIONS

Honor "I" neophytes before their big polo game—Alpha Zeta probationers parade around the old lamppost—Porpoise has its "ducks" bathe in Lake La Mud—Seabard and Blade pledges have monkey drill in front of the Post Office—Tau Beta Pi men with their traditional robes and big volumes.

WINTER

Hees battle snowdrifts to get to class—Sleet storm enhances beauty of Campanile—Ice skating by the Memorial Union—Amateur hockey on Lake La Verne—The Knoll after the biggest snowstorm of the year.

SPRING

The "punch" corner of Great Hall at the Senior Prom—The Union from across the lake—Maury Soult's clearing the bar in perfect form — Probably headed for North Woods—Where the mail comes in.

VEISHEA

"The Wedding March" by the Hort students—New Mortar Board and Cardinal Key pledges—Iowa State on Display—Right after the parade passed Central—Home Economics prize-winning float.

VEISHEA

The march to Veishea convocation and Moving-Up Ceremonies — Station A isn't exactly flattered in the parade—The Queen is crowned at the May Fete—The Vets put in plenty of time on this one—Pi Epsilon Pi also had a float.

SUMMER CAMPS

Military engineers build pontoon bridge at camp at Fort Leavenworth—Geology students in the Black Hills—Inspection at Artillery Camp near Louisville, Ken.—Seiffert manning a machine gun at Leavenworth—Foresters at log pond near their camp in California.

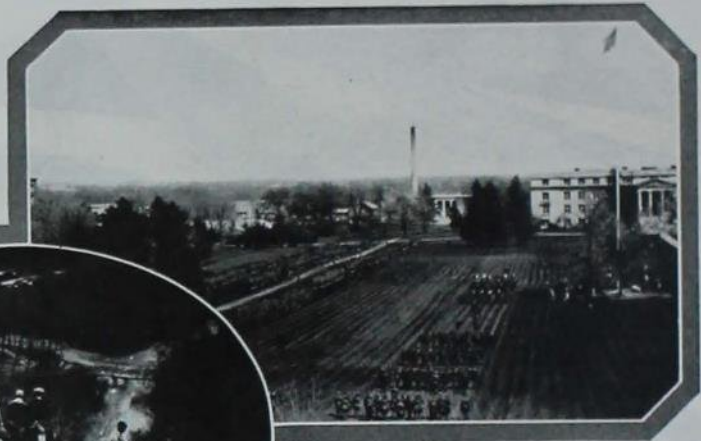

SUMMER CAMPS

Setting up exercises at Artillery camp—Bob Fickes is the loafer in the foreground of this picture taken at Louisville—Foresters returning to camp a la logging train—Landscape Architecture students visiting a garden in the Orient—Civil Engineers' famous orchestra on the shores of Ranier (Rainy) Lake, Minnesota.

SPRING

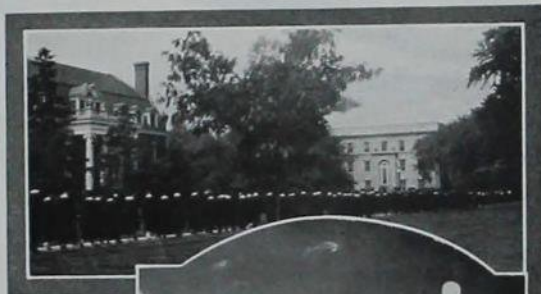

Annual spring military inspection—On top of table rock at the Ledges—Making military maps of the campus—Crowds listening to dedication of new bells in Campanile by Anton Brees—Co-eds leaving dorms for one o'clocks.

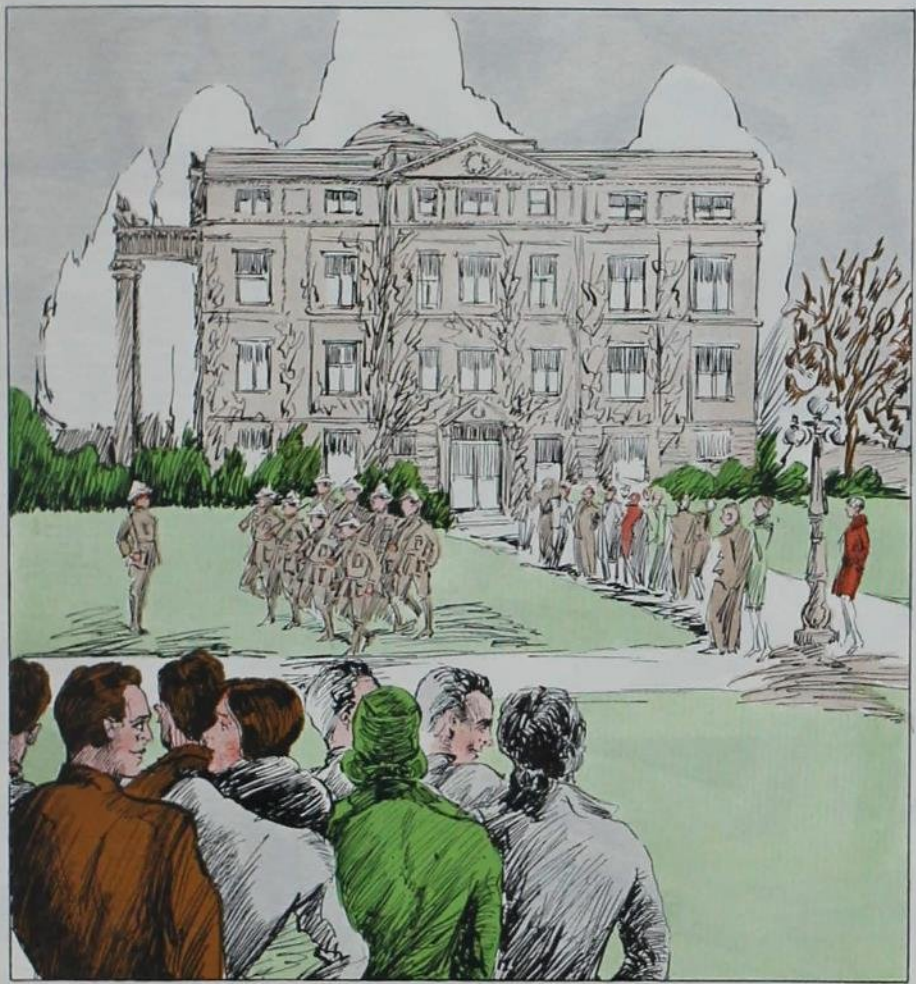

SPRING

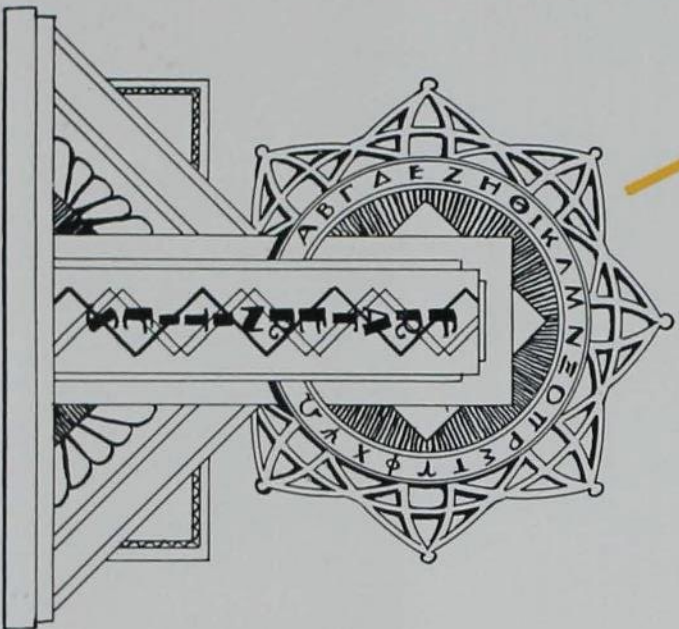

Gathering for the graduation march—The faculty starting the procession from Central—Seniors on way to Gymnasium for their sheepskins — Night scenes of the campus: Don't get sentimental.

The Interfraternity Council of Iowa State College is an organization of representatives from each national fraternity. Regular meetings are held monthly to handle all matters relative to the fraternity system and to study the various campus fraternity problems, initiating and fostering whatever tends toward the best growth and development of the fraternity system.

The Interfraternity Council, further, subscribes to the so-called "Greek Letter Creed," particularly to the statement: "It is our earnest wish and desire to inculcate in our various chapters true principles of manhood, to promote the moral welfare of all of our members, to stimulate and encourage loyalty to the active interest in the institution where they may be located, to foster a democratic and friendly spirit between our members and to all others with whom they may be associated, and to inspire among our members a true, loyal and lasting friendship."

Men's Dormitory

The first of a series of dormitories for men at Iowa State College was completed and opened for use in September, 1927. Into it have been incorporated the best available ideas for making an ideal college home for freshman men, where they eat, sleep, study and come in contact with one another under favorable conditions. This is a definite effort to help the freshman in making the necessary adjustments to campus life, which are always difficult.

The building is divided into three units, Alpha, Beta and Gamma, each separate from the other. About forty men can be accommodated in each of these units, which insures a group large enough to inspire a group consciousness and yet small enough to provide good fellowship, which all may share.

The men have been given the greatest possible freedom in working out plans for self-government. Each of the three units has its own organization and there is a central committee, which takes care of matters pertaining to the entire dormitory. The dormitory men have proven that they are able to manage themselves in a very creditable manner. In the next three years they can be depended upon to loyally uphold and maintain the ideals and traditions of Iowa State College.

The Alpha Chi Sigma fraternity was organized at the University of Wisconsin in 1902. The chapter in Ames was installed Nov. 9, 1929. There are now 46 active chapters.

The object of this organization is to further increase interest in science, and to bring men having a common interest together in a fraternal relationship. Members are chosen from the graduate and undergraduate colleges in chemistry and chemical engineering. The selection is based on personality and scholarship.

Cardinal Key was organized as a Senior Honorary for Iowa State men to recognize such qualities as Service to Iowa State, Character, Leadership and Scholarship.

Each spring, during Veishea, twelve men are tapped at the base of the Campanile—six seniors and six juniors. The six seniors tapped round out the representation from the graduating class and the six juniors rewarded carry on the organization for the next year and are the men who select the recipients of the reward the following spring.

Eta Kappa Nu is the honorary fraternity of Electrical Engineering. The organization was founded at the University of Illinois in 1904 for closer cooperation among the students and others in the profession, who by their attainments in college or in practice manifest exceptional interest and marked ability in Electrical Engineering. The Nu Chapter was installed at Iowa State in 1916. The official publication is "The Bridge."

The qualifications for membership are high scholarship and activities.

National Collegiate Players is conducted as a purely honorary organization, selecting its membership from casts and production staffs of campus theatricals upon the basis of experience and excellence of work. Its purpose is to affiliate closely the college groups which are working for the betterment of drama in their own institutions, and so to raise the standards of amateur drama in America.

The purpose of this organization is to foster school spirit and tradition. The graduating class of 1924 created a pep organization known as the Twisters. This band sponsors the college pep meets, the departure and arrival of the college squads when on their trips, the welcome of the visiting teams, and, in general, all athletic activities.

The Twisters chapter of Pi Epsilon Pi, national honorary pep fraternity, was installed during the winter quarter of 1925. The Twisters are composed of 38 students, 19 each from the junior and senior classes.

Pi Mu Epsilon mathematical fraternity was founded at Syracuse University, Syracuse, N. Y., in 1914, having for its aims, scholarship for the individual members in all subjects, and particularly in mathematics, and the advancement of the science of mathematics for the mutual and personal benefit of its members. There are now 19 chapters. The local chapter received its charter as Iowa Alpha Chapter in November, 1923. Members are chosen on a basis of general scholarship and scholarship in mathematics with an indicated intent for the pursuit of mathematics and allied subjects.

The Porpoise Club of Iowa State College was organized in 1921 in response to the need for some means of promoting activities. Since its organization the club has contributed materially to the growth of swimming as a major sport at Iowa State, and, under the influence of the swimming coach, C. E. Daubert, it has promoted the development of the Red Cross Life Saving Corps.

Membership is limited to those who show outstanding ability and an active interest in swimming. College women and others of marked prominence or interest in swimming may be admitted as honorary members.

Sigma Alpha was organized at Iowa State College in the spring of 1926. The major purpose of the organization is to further the cause of agriculture in the state to the end that 100 per cent of the farmers will farm scientifically. The minor purposes are: To increase the prestige of Agricultural Education among members of the teaching profession, to promote closer cooperation between those engaged in agricultural work in the field and those in college, and to impress on Agricultural Education students the extreme importance of the department club. Membership is based primarily on service and secondly on leadership and scholarship.

Sigma Delta Chi is an organization of men whose chief interest is journalism and who intend to follow it as a profession following graduation. The local chapter sponsors the annual Gridiron dinner, awards prizes to outstanding country weeklies and college newspapers in various contests, awards a gold watch to the outstanding campus journalist each year, and assists in the publication of the Green Gander, humor publication. During the eight years in which a national efficiency contest has been conducted by the national organization, the local chapter has won the F. W. Beckman trophy four times.

Sigma Upsilon was founded in 1906 by the federation of four southern literary clubs; Calumet of Vanderbilt University, Sopherim of the University of the South, Osiris of Randolph-Macon, and Senior Round Table of the University of Georgia. There are at present forty-one active chapters. Sigma Upsilon conducts a national short story contest every year. The national organization publishes the monthly Sigma Upsilon News-Letter.

Kappa Lambda Alpha Chapter was organized as a local literary fraternity in March, 1924, by a group of faculty and students, who were publishing the first series of the "Ames Narratives." In June of the same year Kappa Lambda Alpha became the twenty-ninth chapter of Sigma Upsilon.

The purpose of the organization is to develop and encourage creative work on the campus. Eligibility to membership is based primarily on literary ability, interest and attainment.

Frisbie Fellowship is an organization composed of all students who give Congregational as their church preference. The Iowa Conference of Congregational Churches maintains the student center—Frisbie House—and provides a college pastor, the present incumbent being W. Norris Wentworth. The organization is governed by a cabinet of thirty-five, which is divided into departments in order to carry out efficiently the activities of that body. These activities include religious services, study and discussion groups, and social gatherings.

Roger Williams House was erected during the past year by the Board of Education of the Northern Baptist Convention. The building has been equipped, and will be maintained by the Baptist Board of Education. It has been built as a center of activities for the Baptist preference group of Iowa State College. In conjunction with the local Baptist church it will help provide religious training for the students during their college career. The objective of the entire work is to so instruct and train students that they may grow as fast spiritually as they grow mentally while in college. The Rev. and Mrs. R. B. Davidson are in charge of the work.

The Newman Club

EDWARD V. WORLEY *President*
FRANK WHEELAN *Vice-President*
FRANCES REA *Secretary-Treasurer*

The Newman Club is an outgrowth of the Catholic Students' Association and is composed of all Catholic students in the college.

The aims of this club are to promote good fellowship between the Catholic students, to further the good will already existing between Catholics and non-Catholics, and to aid the new students in becoming quickly oriented. To accomplish these purposes, a number of mixers and parties are held each year.

Forensic activities on the campus have enjoyed a very successful year. Seventeen students, comprising three distinct squads, appeared in seventeen debates. Three subjects were used:

Resolved: that trial by jury should be abolished.

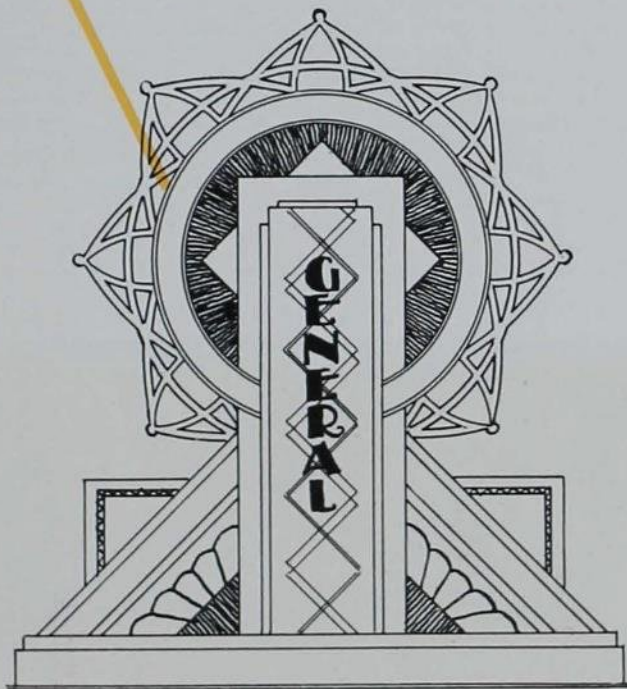

Resolved: that modern commercial advertising is more harmful than beneficial to society.

Resolved: that nations should adopt a plan of complete disarmament except such forces as are needed for police purposes.

Most of the debates were the open-forum, no-decision type. A few decisions were made by judges and by an audience vote by ballot. At Omaha and Creighton, Iowa State lost a judges' verdict; with Drake and Kansas the men won audience approvals. The girls took three audience decisions; one each from Missouri, Drake, and Grinnell.

Society of Agricultural Engineers

OFFICERS

AUSTIN ZINGG *President*
RUSSELL O. JOHNSON *Vice-President*
BYRON T. VIRTUE *Secretary-Treasurer*

The American Society of Agricultural Engineers is the national organization representing the agricultural engineering profession. Its purpose is to promote intercourse among engineers in its field, and to encourage research and development in the fields of farm power and machinery, farm structures and sanitation, land reclamation and education. The society was organized at the University of Wisconsin in 1907. Iowa State has been a pioneer and long recognized as a leader in this field, and has always had an active part in the national organization. The society maintains student branches in schools where professional instruction in agricultural engineering is offered. The Iowa State student branch carries on its meetings in connection with junior and senior seminar and sponsors many departmental activities, as well as the interests of the parent society. A monthly magazine, "Agricultural Engineering", is the official publication of the society.

Block and Bridle Club

OFFICERS

LEONARD D. ZAHN	<i>President</i>
BERNARD R. DOHRMANN	<i>Vice-President</i>
KENNETH R. LITTLEFIELD	<i>Treasurer</i>
WILLIAM ENO	<i>Secretary</i>

The Block and Bridle Club is a national organization of Animal Husbandry students. The purpose is to bring about a closer relationship among men pursuing some phase of Animal Husbandry as a profession, to promote more interest in intercollegiate judging contests, and to encourage students to take up Animal Husbandry in some phase as a profession.

It was founded in 1919 at Chicago by livestock judging teams of Iowa State, Missouri, Kansas, and Nebraska. At this time there are nine chapters located at agricultural colleges of Nebraska, West Virginia, Kansas, Missouri, Oklahoma, Kentucky, Pennsylvania, Minnesota, and Iowa.

The Iowa State Student Branch sponsors the Little International Livestock Show held every year in the fall in connection with many departmental activities, as well as the interests of the club.

The organization was founded during a convention of the National Brick Manufacturers' Association in 1898. It was founded for the purpose of studying ceramics from a scientific standpoint, and to increase a student's technical ability along ceramic lines. A banquet is given at the beginning of each school year, the purpose of which is to introduce the new students and to create a better fellowship between faculty and students.

Chemical Engineering Society

The organization has for its purpose the promotion of departmental activities and the fostering of a fraternal and professional spirit among the students and faculty of the department. All Chemical Engineering graduate and undergraduate students are eligible for membership.

American Society of Civil Engineers

OFFICERS

JOHN G. STROHBEHN *President*
MOORE METCALFE *Vice-President*
CARL WAGNER *Secretary-Treasurer*
JAMES WATSON *Junior Engr. Council Representative*
PROF. A. H. FULLER *Faculty Advisor*

The Civil Engineering Society was organized in the fall of 1910, having had for its object the rejuvenation of the old junior and senior seminars, which were gradually losing their popularity and value. It was felt that more good could be obtained from addresses by prominent engineers than was being derived from student papers presented before the old seminars. Since the society has been organized, it has instigated and sponsored many divisional activities besides carrying out the purpose for which it was founded.

The objects of the society are the advancement of the science of engineering, the professional improvement of its members, and the encouragement of intercourse between students of civil engineering and between such students and practicing engineers.

Iowa State Dairy Club

OFFICERS

GEORGE B. HAMILTON	<i>President</i>
RUSSELL WEAVER	<i>Secretary-Treasurer</i>
HAROLD SADLER	<i>Senior Rep. to Ag. Council</i>
ROY HOLMBERG	<i>Junior Rep. to Ag. Council</i>
RALPH GOODALE	<i>Publicity</i>

The Dairy Club was founded at Ames in 1909 and was the first organization of its kind in the United States. With the growing student body, the need was felt for a common meeting ground for all dairy students. It was impossible for members of the different classes to become well enough acquainted in their class room work. The club was founded with the idea of promoting a better fellowship among students of the different classes and members of the faculty. The Dairy Club was a success from the start and has been a big factor in building up a spirit of loyalty and enthusiasm among its members which is not surpassed by any other group on the campus.

The A. I. E. E. is the national, professional society of Electrical Engineers. It is composed of engineers with varied experience, training, and standing in the profession, and who hold rank accordingly. These ranks are Honorary Member, Fellow, Member and Associate. The purpose of the student branches is to give to the students an opportunity to become better acquainted with needs and accomplishments of the profession.

Any person registered as a full-time student in a university or technical school of recognized Electrical Engineering may become enrolled, although membership is generally limited to Juniors and Seniors.

The local branch sponsors E. E. Smokers, technical lectures and demonstrations, educational pictures and the Electrical Engineering Open House at Veishea, as well as being affiliated with the work of the national organization.

The Herdsmen's Course is a two quarter course given only in the winter quarter of the college year. It is planned for those who are primarily interested in good livestock, and who have only a short time to prepare themselves to care for livestock. Those who finish the course go out as herdsmen for breeding establishments, supervise cow test associations, or go back home to their own livestock farms.

The Herdsmen's Club is for the purpose of furthering the interests of the members in an educational and social way.

The Iowa State Student Branch of American Society of Mechanical Engineers is one of the many organizations of its kind in the country. The American Society of Mechanical Engineers is a national organization of graduate Engineers. The student branch is an undergraduate society for the purpose of acquainting the student with the practical side of the field of Mechanical Engineering.

The activities of the local branch are: managing Veishea open house for the M. E. department, sponsoring meetings at which lectures are given by some well known engineer and also showing several reels of films dealing with engineering, and sponsoring smokers to acquaint members of the M. E. department.

The Vocational Education Club is the organization of the vocational education department. Its members consist of the students and faculty of the department. The purpose of the club is to foster the interest of this group of men while they are on the campus; to bring them together in meetings, called the "Laboratory of Leadership"; to make them better acquainted with each other; to practice cooperation; and to bring them into closer contact with the members of their profession in the field. This year they are putting special emphasis upon helping the Future Farmers' organization of Iowa.

DEDICATION

Hello, dare.

Fine night.

Tonight we got big bissness. Not only must we look around the campus, but also we must dedgikate da Satire Section of da Bomb for da big fat boy what runs the beauty contests. He didn't ask me to; he was bissy paying off election debts for the representative men and women contest.

I was asked to do dis by da Green Gander staff, which is writing a section on student life. Dey told me that I haff been here longer than any of the students—Steef McDonough almost beat me do—and I should ought to know more about da bissness than anyone else, even G. B. himself. I guess I haff seen more than anyone else around da campus, and so I am glad to dedgikate da section.

I cant really take much time, becos I must go out and take roll call at da Campanile. This is Toosty, and maybe Henry and Efa will be there. I neffer learnt their last names, but I t'ink it doesn't matter—it'll all be the same eventually. Dey say he will marry her Thursty, but he doesn't know which Thursty. Dey aren't bad, do, dey neffer giff me troubles. One flash of da light shows no faces, and so I know just who it was.

Last night I found a new couple there. I felt kind sorry for them the way they jumped. They were some scared, too. They needn't be. I was young myself once, and I neffer interfere if I can help it. I ushually aim not to scare the new folks, so I always flash da light on da bushes so da people in da Companile will know I'm coming.

Nightwatching isn't what it used to be, do'. All I effer see now is da L. A. boys telling stories up in Botany Hall, or a few lone couples out on da campus. In da old days I had all dis and a lot of fraternity pledges on probation who were looking for four-leaf clofers at 2 o'clock in da morning. Maybe dey needed a black cat with a white tail, or an albino sparrow. I found even once a bunch out to get a roast pig. Dat story has been forgotten now. I guess the Betas they haff odder troubles.

I like to go up to da L. A. lab, do', 'cos it's da only part of da old days left. Da L. A.'s giff me a cup of coffee and part of deir lunch. I can get it without so much climbing when dey move into da historic hall. Most people t'ink L. A.'s haff no time for fun becos dey always are doing so much in the newspaper. Dey are a classy outfit, do', and haff fine dinners and parties. Maybe I won't have to work sometime, and I can do da same.

Da Union is one of my main worries now. It didn't used to was. Ofer at the dance Saturday night I was making my rounds of the little pen east by the Union. What do you suppose I find? I find some people. First the automobiles

they look empty, maybe. But the window of one was down, and it looked like rain. I t'ink I put the window up to keep out rain.

What did I hear? Someone say, "Oh."

I say, "Oh, what?"

Someone say, "Oh, Knute."

I say, "Hello, dare."

"Hello."

I say, "Fine night."

No one said noddings.

I say, "Aren't you fraid you get cold?"

Someone says, "NO." One high voice, one low voice—I guess two people there.

No one still says noddings again.

"I must look in second car ahead," I say.

"Good idea," low voice say.

"Don't stay too long," I say. "T'anks for the wisit."

When I come back—nobody there.

Well, maybe the home management house girls give me most worry. They go around in such cold weather in such few clothes. They haff fur coats around their necks and silk sox around their ankles. The girls haff no sense. Last winter I find some girls running across the campus to keep warm while they were getting cold. They were going to home management house, and were froze half to death. I was locking up Morrill Hall. I could see by the red knees that they were cold. I open up door and say, "Come on in, girls, and get good and warm. Put your gluffs on the radiator."

They crowd up to da radiator and say noddings.

"Girls ain't got no sense," I say. "Such clothes are all right in summer, when the boys will look, but in winter they are too cold even to see. Your knees must be terribly cold—they look all swelled up; efen your legs, too," I say to one looking coldest. I guess the radiator didn't help much—they got no smaller.

"Such clothes are dangerous to health and make temper bad too," I say. "Once I go from Post Office to Central last week, and I see two girls coming to Post Office with dress like yours. They had teeth chattering and I heard one say to other, 'It's co-ol-ll-der tha-aa-an he-e-ell.' Girls neffer did say such things so gentlemen could hear in the old days when girls wore clothes."

By this time the girls were warm and left. I lock up Morrill Hall and wade out into snow.

But spring has come. I like spring best, 'cos the whole campus is full of life. People are eferywhere, and it isn't lonesom on da campus. Eferyone is also friendly and seems to be enjoying college.

Well, I guess this is enuf from me. I don't know what is in the Satire Section, but I am glad to be called upon to dedgikate it. I hope you will enjoy it as much as I haff enjoyed talking to you.

I must go out and look in the second car ahead. I come back sometime.

T'anks for the wisit.

STATE COL-LEGE OF I-O-WAY

1929-30 EDITION

Being the Swan-Song of the Events of the Greatest Year at Li'l Ol' Alma Mater—A Recital of Our Valorous Deeds—A History of the Comic Currents of Student Life—Recorded by the Ubiquitous Reporter

What with the big parties, the big daze, the big hams and the bigotry which were in evidence, hard it is for a mere scribe to chronicle the series of events which constitute the year 1929-30.

Not only is it hard to record the stirring happenings, but it is hard to look forward to campus meetings with the alleged celebrities whose requests to be not mentioned were complied with. Only the knowledge that virtue is its own reward consoles him when he thinks of all the honors, dates, privileges and other things which were tendered him for a little innocent personal advertising. (The list of the "other things" includes pledge pins for his sister from every chapter here, and duebills for P.P.'s from the Kappas and Thetas at the University.)

History, however, becomes textbooks and patriotic speeches when it is so colored. With a high resolve to rise above the pettiness of campus leaders, and determined to include herewith no personality, the scribe plunges into the task of recording the year's events.

Many of those events should not and need not be recalled. Deeply impressed upon the memories of the sadder and wiser studes they are, as they have been upon the memories of other studes who heeded not the words of the Y. M. C. A., the W. C. T. U., the junior dean and the student counsellors. For those of us who are left, however, there remains the story of the little things which happened despite our best efforts. This is no reflection on residents near the foot of Ash Avenue. The story will simply review those happenings so that our posterities will understand what they are doing when they pay our Memorial Union pledges. It is to be hoped that none of them will say, if called upon to define a college man, that he is a strongly potential damfool.

Greeting the studes when they recovered from returning last fall was an addition to the Campanile Chime. The addition was in the form of 26 tinkling bells. They were installed because it was felt that if there must be tinkling at Iowa State, let it be beautiful. Another explanation is that the sweet-toned, high-pitched bells were added out of respect for the growth of the Home Economics Division, which before had but slight representation in the deep, booming tones of the original chime. The new chimes were dedicated in a week of practice for Anton Brees, celebrated Belgian carillonneur; if he is the Belgian musical breeze, the campus would like to hear a Belgian musical wind. Lights added to the outside of the tower ruined the added attraction, however, until it was generally known that the rays could not reach the ground. The famous structure now continues as the center of the hearts of Iowa State students.

The next thing was a rural life conference. It didn't mean much to the great Iowa State College, however, since every day is a rural life conference, on the east side of the campus, at least. One shouldn't speak so disparagingly of the famous food-producers, however, since they can prove that their boys are very capable and important: Witness the fact that the Ags dominate the Ag Council. The famous future (?) farmers have done much to prove an old axiom, tho. Each year they hold an All-Ag banquet, which should dispel forever any doubts as to the truth of the statement about misery loving company.

Fresh from summer camp, hometown grocery store, and road gang, the Engineers felt the urge to congregate in the open again, and planned the annual Campfire in North Woods. When all the members of the Engineering Council had secured dates (with freshman girls, of course), the date of the party was set. But Jupiter Pluvius frowned, and sent rain on the day appointed. The Campfire then was held in the Armory, and only the more venturesome even found out where North Woods is. The customary entertainment prizes were awarded for alleged comic acts, and the Sig Eps took first with a brotherly scene at your favorite fraternity house. Other contestants complained that the dissipation portions should be ruled out in judging, since the Sig Eps did it so naturally. No action was taken, however, and the Chi O's put on their annual dancing drill. It was effective this time, they having pledged some good looking girls for the front row. The D U's missed first place by a technicality. Their singing and musical act was sensible, which ruled it out. Another blow was the applause which was pre-arranged by Huggo Alexius Stahl. The ruse was discovered, and the prize went elsewhere.

Incidentally, as a result of the no-North Woods feature of the affair, three of the Council boys had dates broken on them. Consequently, no Campfire next year. The Council members, however, had won a moral victory in making Knights of St. Pat an exclusive organization. Despite their best efforts, tho, a couple of people not members of the Council were elected.

A full contingent of Cardinal Guild members registered last fall, went to a meeting, and have been neither seen nor heard of since. On occasions when weighty problems were to be settled, the great journalists presented a solution thru the medium of the press; so have the

affairs of the campus been kept in shape during the year. Anent the Guild, it is said that its members were hard at promoting a winning football team and were pledged to do naught for the Guild until the Cardinal and Gold lads had cruelly cycloned some traditional foe. If future Guildmen must so pledge themselves, let them cross their fingers full well all the while.

Speaking of football, Iowa State saw a powerful scoring aggregation on State Field. The fact is, it saw such an aggregation every time, excepting when Grinnell was here. But consoled can we be in the thought that when, in 1950, Harold, Jr., wins the Big 6 title in a spectacular game, we can proudly say, "And I've seen times when we couldn't even win a game."

The winter sports, in general, were much more satisfactory. To quote a co-ed, "Ooooooh, I think those wrestlers are marvelous." The officials, however, had but poor luck holding attention during wrestling meets. Many times the fans amused themselves by cooing the word "Boo-ooo-ooooooo." Occasionally they would play train—"sss-sss-sss-sss-sss." They always applauded a victory, however, which shows the old spirit.

Always present were the yell leaders, who gave the customarily good account of themselves. They showed extreme cleverness in teaching new yells. The southernmost contortionist gyrated considerably after the other boy, *so that the crowd could see the gyrations twice*, thus learning the yell more quickly. Many of the spectators would have seen them twice anyway. At any rate, the enemy was occasionally vanquished, as the yells have been since.

Among the great events of which the campus knew but little is the story of the highly feared pink elephants—or why certain prominent officials closed

their eyes with fear when they saw the postoffice. It seems that the Arch E.'s took an old eagle drawing model, and mounted it atop the ridge pole on the postoffice. There it stayed thruout the summer. Many a campus official bemoaned the presence of the forlorn gray spectre. To advertise a publication, a campus editor had it painted green on the night before the officials took some toasts at break-

fast. When they later saw the bird turned green, they clutched the side of the seat fearfully and looked for the elephants.

Then there was a phenomenon of a type most uncommon at Iowa State—an honest class election. Both parties had promised one for years, but had also found it convenient not to cooperate. It was probably more inertia than honesty in this case, also. Possibly the near-scandal last spring, following a rather questionable mis-counting of ballots and the consequent award of victory to the wrong party, caused the boys to settle down and let the voters decide. But the phenomenon was apparently disapproved by the Guild, which forthwith abolished the fall election. The result will probably be that campus politics will again be patterned after the national type.

Thanksgiving came this year, also, thanks to President Hoover's proclamation. With it came the first Thanksgiving vacation to be observed here in many moons. For weeks before, all the big boys on the campus were breaking the news to each other, confidentially of course, they not being supposed to tell. (When a man is gentleman enough to break his word of honor to tell another fellow, the second boy ought to be gentleman enough to respect the confidence. That principle was fought for by one of our forefathers, the other three not being of the gentlemanly strain. The principle is also widely established on the campus, and it is quite generally observed as long as there is no occasion for disregarding it.)

Anyhow, as the East Side jargon goes, the vacation was awarded by the Board of Deans, which wanted a vacation anyhow. One student having suicided, it was feared that others would follow after the disaster at Nebraska on Thanksgiving Day. "Let the studes enjoy themselves, and they won't even know about the game, let alone care," the wise ones said. And so we had our first Thanksgiving vacation. The more conscientious of the studes came back to school to learn a bit more before Christmas vacation, but a large number said, "Shueks, we won't have a long Christmas vacation, so I'll get Bill to finish up my work while I enjoy a sojourn with the folks." It seems that in some cases, at least, the heads of the family had just returned from the sophomore year at Leavenworth, and that, on account of increased efficiency of revenueurs, they would shortly be remanded. Under those circumstances, one can understand the filial solicitude.

Well, plenty whoopee was made, according to all accounts; which is to say, the efficiency of the Christmas parties was greatly increased by the late November drill. Of the Christmas season, he it said that it was quite enjoyable, many students registering by proxy for the winter quarter. Studes living in Ames had a big advantage over those living elsewhere, since they lost little time going home; this reason was not valid in the case of those who rode the busses. One Ames stude, little known for versatility, entertained the neighbors of his fraternity house for five hours one night, while he played the piano and sang for the first time in years. The neighbors thought that he might have been doing well toward the end of the evening, had he not forgotten what he was trying to do. The Christmas season also produced its quota of cynics and misanthropists, as a result of the usual Santa Claus jokes. All in all, it was a big time and everyone was loath to return to the classroom, even at the school we all love so well.

About that time, 436 eager and wide-awake Memorial Union campaigners sallied forth to get new pledges for Mr. Pride's office building. After the records were finally straightened up, it was found that the collectors could start planning to work on 218 more people in a few years.

Current funds were needed, however, and so a scheme of Sunday afternoon gatherings at the Union was promulgated. Some exceedingly pleasant programs were presented there in Great Hall, and they were among the genuine pleasant memories of the year, not only to those who attended, but to the Grill cash registers as well.

A feature of these programs was the presentation of the new Iowa State song, "For We Will Fight, Fight Fight at Iowa State—." Being simple and rollicking, it just suited most of the campus leaders. It was taken up and has spread widely. When an Iowa State man visited Washington and Lee last winter, he heard a modification of it there. He was insulted when they said they had used their song for 30 years and had recently recorded it for a news reel.

About that time the Beaux Arts Ball, one of the major sadnesses of the year, o'ertook us. It was a plot to throw a party like which the campus has never seen. Two hundred invitations were to be administered at five bucks each, and in return the holders were to have "A Night in a Forbidden City." (All the dorm girls thought that this

meant Ames.) Great Hall was scheduled to be the Forbidden City, with peanut and popcorn stands, no doubt. The Grill was slated to become a series of mysterious caverns. The campus was all excited about the 1 o'clock night that was promised, but the Board of Deans was not; and so the Beaux Arts Ball turned out to be a party like which the campus has never seen.

In the period of planning the Ball, the committee recognized exceptional talent and playfully christened one member the most ladylike on the campus. The scribe could have learned the name, but in this case he doesn't choose to be wise.

Among the things which happened at and to the Union was the decoration of the Men's Dining Room. The decorations emphasize the MEN'S part, since those males who lack nerves of steel, who slink away from a past, or who are anemic could ever face the magnificent daubs without quailing. To the artistic, the decorations represent an excellent job; to the uninitiated, however, they constitute a job to be viewed thru heavily colored glasses.

Another hectic period was the Bomb sales campaign, in which the sorority girls committed any and all crimes in the attempt to sign up the boys for the famous yearbook. The girls swarmed the district and seemed to feel at home in many a house where girls had never been known to be seen before the advent of housemothers. Dating was never so easy as during this period, particularly the dates for four-weeks-from-Friday-night. Broken dates were also never as prevalent as after the contest closed. The boys who took the worst browbeatings will be interested to remember that the Gamma Phi's did win the contest.

"Amazon," one of the season's attempts at musical comedy, next burst upon us. It was a fantastic portrayal of what some people think can happen to

a stude. It was, further, an all-male revue; that was perfectly apparent. How-
ever much individuality there was not in the boys who played the leads, those in
the choruses showed plenty. There being 20 legs in the chorus, there was one
chance in four thousand that they would all be in unison. The show was long,
but the four-thousandth chance didn't come. Time-tried jokes were taken for
the scenario from the Green Gander of 1928. The two hot shots in the show
were impromptu, it was afterward learned.

But "Amazon," at least, was long enough so that during the acts one
could hold hands and plan the evening. The Home Ees' annual Vod-Vil proved
to be a 30-minute series of between act waits, with the house lights on. Chronic
late arrivals needn't have removed the coats at all. Fortunately, there was a
dance at the Union, to which we repaired, so the night wasn't entirely wasted.

Two outstanding functions of recent weeks have been the Ag Ball and the
Engineers' Ball. Some 300 Ags and perhaps 60 university folk attended the
first-mentioned party. The East-campus group was there in its best Ag man-
ners, and the conversation ran to the planting of the north 40, and to the wel-
fare of old Polly. Those engineers present bore up bravely and longed to work
sometime in a non-agricultural section. There was little room for dancing, and
so the dancers huddled up at the front. Those candid folk who could mutually
admit that they didn't care to dance remained in the foyer; of which, more later.

Fully 100 fewer tickets were sold to the Engineers' Ball. It turned out to
be a nice, but hot, party. The sponsors claimed that the restricted ticket sale
was planned for the comfort of the dancers. Those who experienced the epi-
demic of formals and the painful shortage of tuxes last winter know that the
reason is: More tuxes couldn't be seared up. Many an unassuming stude learned
last winter that he had dozens of unexpected friends. Each one called him
assuringly and asked to borrow the uniform. Of the Ball, he it said that George
and Nell looked sweet, if uncertain.

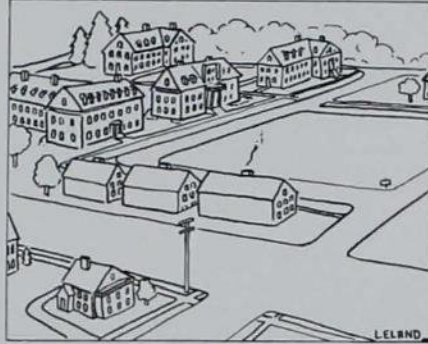

It shouldn't be inferred that the Union is the biggest thing on the campus.
The Sunshine Club can attest that it isn't. The Union dances, however, have
consistently been the center of attraction during the year. Dozens of people
have swarmed the
three floors and envi-
rons every weekend.
A very effective Uni-
on pledge campaign
could be staged at
11:32 any Saturday
night, and not less
than \$500 should be
exacted from deni-
zens of the foyer of
Great Hall.

Another big explo-
sion was the Military
Ball. The hosts were
the big, strong men
who carry sabers. Civ-
ilians who were present were apprehensive lest the Japs have a bunch of spies
present to ferret out military secrets such as who first startd this "Hi, Shorty,
where is the Vet barn—" yarn. The most important reaction on the Ball was
expressed by one of the Fair Sex: If the sojers fight no better than they dance,
she hopes to live in Switzerland, where neutrality rights obtain.

One of the interesting developments of the year came up in connection with Veishea. Appointments were to be made to certain responsible posts, and one central committee member was sent to last year's workers for advice. They made identical recommendations for one boy, and against another. The member confused the two in reporting, and a fraternity brother would have been elected had the committeemen not begun to wonder. Such cases are no doubt psychological phenomena.

The girls having gained the right to smoke (if they're not caught at it), it is only right that they should be subject to some other restriction. So the ruling comes that all sorority houses built in the future must be located on the women's campus and must have no windows in the south side. An artist's conception of Lincoln Way in 1940 is given hard by. It is probable that if the girls are allowed to have a clothes-line, it will either have to be screened or north of the house. What is more probable, however, is that they will be required to send whatever I may be talking about to a laundry, and one which employs only women at that.

Passing from past and present to future, there remains little else to occur, when Veishea is past. The seniors will have an off-campus day. Most of the plus-juniors will try to get in, since they heard the wondrous tales of the party last year. Chaperones will be provided this year, though, and the festivities will be limited to three days, except in meritorious cases. It is almost discouraging to present freshmen to

realize that by the time they are seniors, they may be required to go to school like gentlemen during the last quarter.

The next thing will be the cessation of classes, and the underclassmen will be allowed to leave for work, home, summer camp or whatnot. Ostensibly they are allowed to leave so as to make room for returning alumni. Actually, it is done so that they will not see the seniors walk the plank to the realization that, despite the great achievements of the four years, the long anticipated success in life will be several years late in arriving.

By the time of the plank-walking stunt, unless the great corporations of the nation recognize and engage talent now wasting on the desert air, many of the grads will help to stage a reversal to the famous farm-to-city movement.

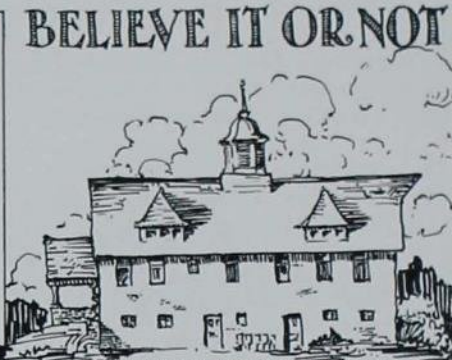

All-in-all, the year will have been a great one. But having lived thru the period, the scribe (a perennial undergraduate) can but regret that he wasn't graduated with his class three years ago.

Mr. Editor and the Bum Bored:

It is not without trepidation that we present to you our discoveries and revelations. After Philo Vanceing furiously on our trip around the campus and later excavating in Dean Shaw's files, we have decided that the subtleties of campus life have been proven to be realities after all.

(Signed) THE CONSTABULARY.

* * *

A rumor that padlock proceedings were being instituted sent us dashing to the Phi Psi house. As we trekked up the walk we were amazed to find the freshmen rehearsing their famous Passion Play (Bottle Day at Yale). Donning our tin helmets, we came thru the "battery salvo right" and entered the house unscathed. A noise, resembling the Ag Club's annual hog calling contest, informed us that Big, Bad, Bull Bill Barrett was on the premises. With true Philo Vance technique, we traced the sounds to their origin and found Bill practicing for the 1930 football season with "a whole loaf of bread and co-captain Weinie Huff."

And so to the antediluvian D. U. house . . . we had to admit ourselves because all of the

freshmen were manning the pumps. Much to our chagrin, we discovered that the water polo game in the basement dining room was nothing more than the waiters setting the rafts—er, pardon—tables. Harry Johnson came paddling out of the kitchen in the house bath-tub waving the plans for the new house which is to be built A. D. —, some time or other. He apologized for the rest of the chapter. They were all out in the back yard fishing because they had heard that there was a sucker there who might take a third mortgage.

The shades of night were falling so we wended our way Tri-Deltward. Lo and Ach Leibie! No shades had fallen there. The Tri-Delts think it bad form to pull down the shades, but, upon investigation, we found that they are displaying worse form by leaving them up. Undaunted, we went in. The Gibson Girls dropped their tatting and coyly asked us to sit down in THE chair while they reveled in a ten-minute orgy of phonograph music by Joseph C. Smith's Novelty Orchestra.

I suppose you've heard the fable
Of the Tri-Delt's study table,
If you don't make eighty-five,
Just as sure as you're alive
You'll miss the thrill of college whirls
"For we must raise that average, girls."

(Signed) VIRGINIA BEEMAN.

Commencement, a milepost—not a finish line

There are those, of course, who drop exhausted at the tape, satisfied with their token of one race well-run—but they are not the stuff big names are made of.

The graduates who bring success to themselves, and fame and honor to their schools are those to whom a sheepskin is like sharpened spikes to running shoes. To these, commencement is just a better starting post.

How will your name look in the record 10 years from now?

IOWA STATE COLLEGE

AMES

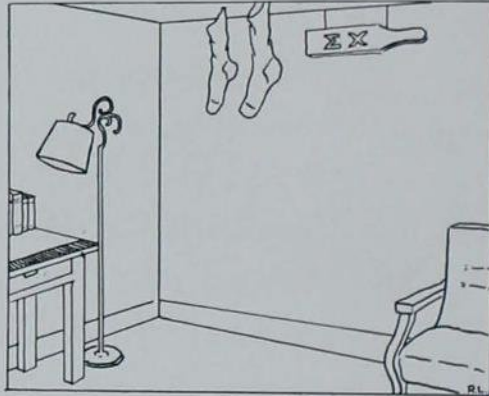

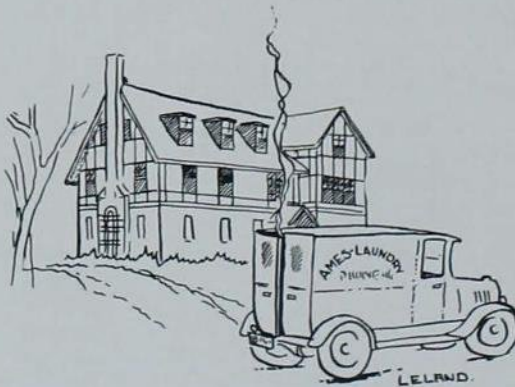

vague noises, we crashed the gate. We are forced to admit that, in the flickering firelight, it was our privilege to witness a truly remarkable exhibition of the Marquis of Queensbury rules.

We went over to the "Dollar Sixty-five" house, where a freshman finally broke down and let us in. We helped solve the mystery of who put the red ink in Patrak's throat gargle (we think that's what he calls it, now). We found most of the boys engaged in assisting "Prof." Henry Black into his steel vest. This manner of dress which he affects, a la Al Capone, has been necessary ever since he flunked the Sigma Chi scholarship committee out of school.

We feel that it is our duty to warn you that the pious and unworldly should never venture upstairs during their house dances.

Speaking of the Sigma Chi's reminds us—we never were able to understand why they were so fond of sleeping in that laundry truck, altho their dump really does have a dormitory up around the third turret. Anyway, observe the results of sleeping with your clothes on this way. The flat face Dane who runs the truck

tested his socks out one night when he had sweated them off at the Foresters' Brawl. You can see what happened.

One thing leads to another. Speaking of the laundry "ease" reminds us. We did a Paavo Nurmi to the K. D. house of a Saturday night, arriving at 11:15. Odes bodes! We are knock-kneed centipedes if the girls were not preparing for a sub-rosa excursion by way of Duluth. Who but the K. D.'s would ever think of having a date in a laundry case? We were greatly interested in the concealed lighting which they have in the basement. It is done entirely by luminous wrist-watch dials.

And thence to the house of darkness. Their "Fiji-an" way of answering the phone had aroused our suspicions, so, with a wary eye out for cannibals and head-hunters, we rang the bell of the Phi Gam house. One of the high-yellow freshmen answered the summons and informed us that the other freshmen were

on the solarium roof taking their daily sun-bath preparatory to initiation. We infer, from this, that the cook and maid are charter members of the fraternity.

Hearing that the Delts were laboriously heaving a dance, we dashed over. As we entered, Bob Fieckes was making an announcement that "if there were any other actives or guests who didn't like the dance, they would find a hilarious game of hide-and-go-seek on the third floor." Upon looking over the dates we found that all the freshmen (except one—that big man from the south) were acting in strict conformity to the new chapter policy of rushing daughters of alumni to promote a new house—"Contributions at any cost."

Dear Mr. Bomb Editor—We have decided not to pass any remarks about the Kappa Sigs. Consider yourself fortunate that we don't publish what we really know about your place.

P. S. At this point our magnifying glass became hopelessly fogged. To add to our difficulties, a horrible slug from our cracked briar pipe laid us low. Consequently, we were incapacitated and were unable to solve the two remaining mysteries, to-wit—how in h—l do the A. T. O.'s get their sopranos to win the inter-fraternity sings? Also, who is the nit-wit Theta Delt freshman that always turns in their fire-alarms after the far-sighted actives have tried so hard year after year?

And This Was Practice House

Jan. 6—Well, here I am in the home management, alias practice house. Wonder if it's as bad as I hear? The supervisor (hereinafter called Supe) says each girl sings her own song here. 'Spose the child director's is "Tonight's My Night With Baby." Her assistant's matutinal chant is "Irish Wash Woman." The cook ought to hum "Burning Up"; her helper, "Me and the Garbage Pail."

Jan. 8—Baby got burned. Fuss? You'd think we tried to bake him.

Jan. 10—Irma Farquhar threw the laundry downstairs when Supe was coming up.

Jan. 13—Yesterday was bad, day before worse, but the only reason for recording today is that it's the worst ever. Cake fell, potatoes burned, baby bumped his head, groceries late, and unexpected guests. If all these disasters actually befall one household, I'm in favor of polygamy.

Jan. 15—Fire in next room in wastebasket. I'm being careful.

Jan. 17—Supe found Baby missing vitamins for some days. Need I give details? Well, they said there'd be days like this.

Jan. 20—After long serenades from the nursery, I adopted a prayer:

As into bed I crawl,
I pray, Dear Lord,
That brat won't bawl.

Jan. 24—Room cold—radiator not functioning. How I wish I could cuddle up on the oven door at home.

Jan. 26—Sunday. The boy friend was over. Said he loves children. He left early, however.

Jan. 28—After dinner, Charlie Cookinham puts her arms around herself and says, "How a college education does broaden one."

Jan. 30—Processed the toast thru the carbon stage this morning.

Feb. 5—Baby has to be pinned in bed. Might be a good way to keep the coed in nights.

Feb. 9—Supe says: Sweep under the radiators and out again—not just under. Also, that the furniture must be antique—it appears to have been untouched with dustcloth for ages.

Feb. 15—Not sure that grace went over so big at table tonight:

Good food,
Good meat,
Good God (or night),
Let's eat.

Feb. 18—Disillusioned on homelife, tomorrow I go back to the campus, where men are men and hiking is a popular sport.

BALLY BOT—By Bab

Forever after, Bur Anthony, the white-headed boy who writes the sports column, will look before he leaps (in and out of a door). It seems that Bur wanted to play a little joke on Phyllis Penly the other night, while waiting for her to come downstairs at the Alpha Delt house. Bur was in the kitchen, and decided to hide. He slipped into a side door which happened to belong to a room not ordinarily open to gentleman callers.

* * *

The Theta Delt's had a fire, but because they own the house they put it out while debating whether to take a chance on the cute little red fire wagons.

* * *

The prize wise crack of the month appears to be, "Aw, why should I go to bed? I can sleep in class tomorrow." Bab didn't used to think it was possible, but after phys lecture—Oh, welcome Morpheus.

BALLY ROT—By Bob

The other night Catherine McFall was out with Babe Seaton (again) and she was wearing his fraternity ring. One of the fellows in the party said that where he came from, wearing a man's fraternity pin meant that the couple was in love, and therefore engaged. Somewhat embarrassed, Catherine said, "O, Babe, TELL them WHY I'm wearing it."

"Don't mind at all," says Non-chalante; "it's 'cause it hurts my finger."

We suggest cotton padding be supplied with all Sig Sig pins.

* * *

Representatives of three well-known fraternities called upon Bab last night to implore him to do something about the regrettable habit the Zetas have of leaving a dress form in the unshaded window, and whatnot. Of course, no one was fooled, as the form was that of a medium sized gal, but of course the idea is disturbing, to say the least.

SERVICE

BALLY ROT—By Bab

A close perusal of the quarterly pamphlet furnished by Alma Mater leaves us still ignorant of the whereabouts of the course, offered last quarter, which was so aptly labeled, "How to Handle Silver." You know, Bab sorta wanted to include it in the curriculum this session. Bab never has had much trouble with the bills, but the silver—the silver—ah, yes, the silver—there's the sticker.

* * *

Consider this one, and conclude with Bab that the weather affects others as well as Ags. A loyal engineer, in lab last week, sat preoccupied for a long time and then broke out into a wide smile.

The boys: Thinking of the Ball?

L. E.: Yeah—and the weather.

The boys: But the weather's changed—why so happy?

L. E.: Ummm—cool enough to neck.

* * *

And when, barks Oscar inquiringly, is it ever too hot or too cool to neck?

BALLY ROT—By Bob

Oscar, prowling about the campus as usual, reported that a straggling band of Navajos was evidently encamped out in the wilderness near the end of Welch Ave. However, a careful scouting trip proved this to be false. Oscar received his misleading impression from the habit the Alfalfa Delts have acquired of wearing Navajo blankets cut in the form of coats. To complete the costume, may we suggest one, or possibly two, brilliant but modest eagle feathers placed at a fetching and reductive angle in the very peak of the scalp topknot.

A beautiful fountain, we are told, is to be placed in the new L. A. studio. Thru it will flow and glisten streams of pure, spring-like water. We wonder if, in later years, as the ghost of Jalap comes in from cropping a few tufts of dew laden grass from Elysian fields, he will stop perchance and sip about three fingers from the ornamental fountain before he gives a soft snort and canters into his misty cell,

there to doze and muse among familiar surroundings.

We're all a-twitter about the prospects for a college golf course. The thot of trotting over to the course for a round or two after classes just goals us—nothing less. Still, we dunno. Never will we forget that afternoon, at the university, when we took a Hagen swing and topped our drive in full sight of a bevy of coeds. Their ill-timed and ill-tuned giggles smote our reddening ears like blows and we cursed, heartily but not loudly, the day we saw a college course. However, by the end of the round the thot of such trivialities was forgotten and we cried for more.

Today is election day! What a thrill! But we do wish they'd sorta keep the tickets straight on the ballots. Many's the day Bab has walked into the polls a dyed-in-the-wool All-College party man and came out to

BALLY ROT—By Bob

find he had voted the straight Representative ticket. Of course, it didn't really matter, for he didn't know anyone on either side, but after all, who does? We can only hope and pray that some of our friends are elected so we may attend at least one class dance next year without paying scalper's prices.

* * *

Bob reports that among the leading campus lights a pre-lunch siesta seems to be the order of the day. Not many mornings ago as a prof was repeating a question for the third time he noticed a disturbance in the rear of the room. Suspecting that someone had been awakened by his clever change of tone, the prof consulted the seating chart and called upon one Welsh, then awake. Even tho the customary five minutes warning had not been given, Freddy was not dismayed. He rubbed his eyes to clear his vision, pinched himself to increase his bodily metabolism, flashed his four out of

five smile and said, "Ask me again, please, I was not following your line of thought and missed the question!" Such adherence to truth rings thru the ages.

The first sign of Veishea is here. In fact, the sign was put up yesterday. We are informed by Bob Cochran that the thing is structurally superior to any in years and will take a vast amount and effort when it finally must be taken down. All this leads us up to the first Veishea epigram, "Harder to get down than a Home Ec pie."

We only managed to see one wily politician since election. His statement was extremely short. "Well," sezze, "I didn't make any friends and lost a couple besides, but it sure would have been tough if my candidate had lost for I saw to it that she ran on both tickets!" Such popularity must be deserved!
