DEDICATION

-----Uncharted seas luring
venturesome youth-----
Hidden treasure flinging a
challenge to the dauntless--
Mates to "Stand By"-----as
with anchors aweigh the
sturdy craft puts out.
Unfurl Sails-----This
is your voyage-----
---Class of '28---

FOREWORD

With a new pilot at the helm, the ship of Iowa State has sailed through storm and calm for another year-----

Here within this chest bound with memories lies the log---of victory and defeat---of joys and honors---the crew---the passengers---and the commanders-----

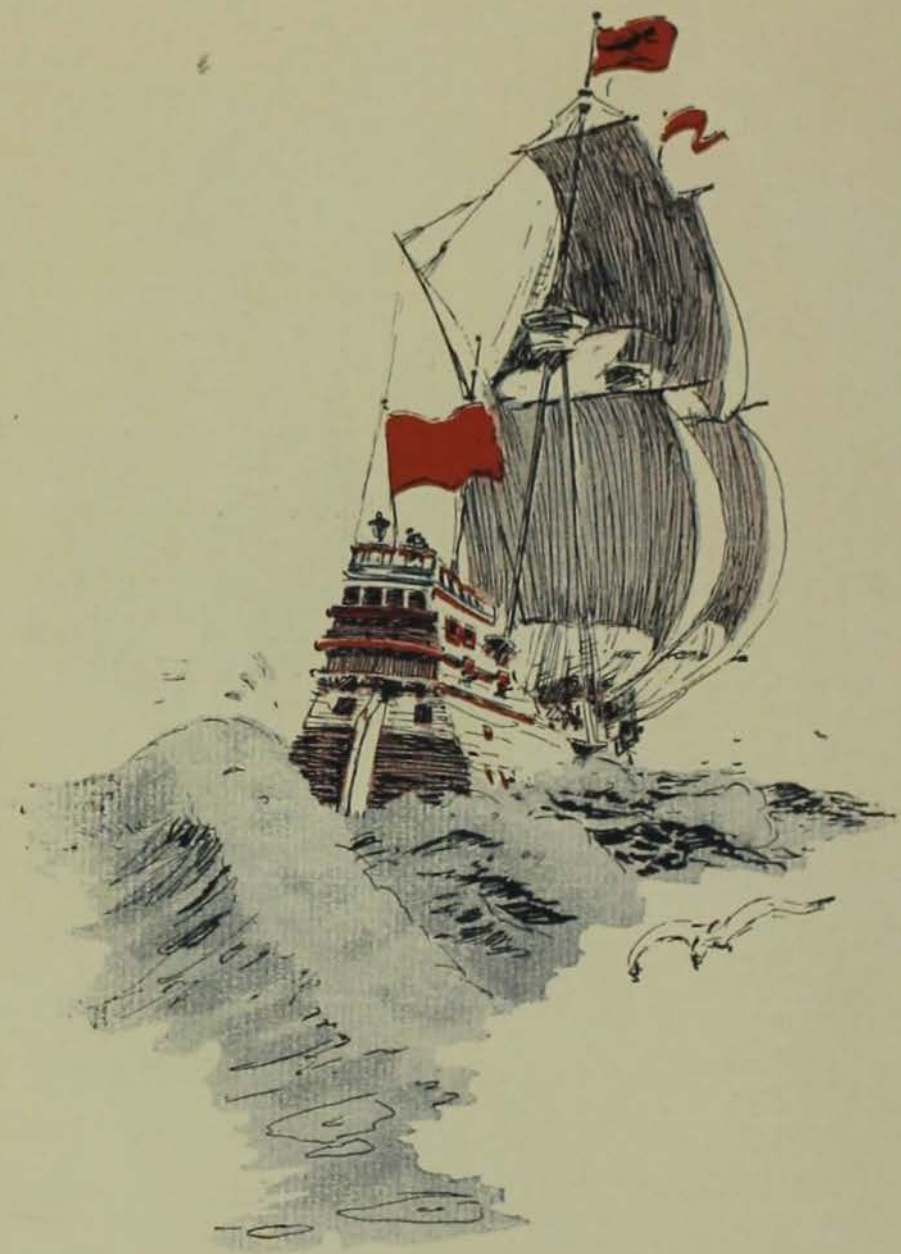

A guide and a challenge to future mariners.

CONTENTS

PIECES OF EIGHT

*The College
Athletics
Cardinal and Gold Days
Activities
Iowa State Women
Organizations
Military
Gold-Diggers*

MEMORIAL

A vision long seen

A memory to those who fought and died.

CENTRAL

*A plastic softness to fit the hour's mood,
A deep strength groined of the soil,
A tempered, majestic calm
Of one who sees the ages slip away.*

LIBRARY 

*Where rough experience once trod
Now a vision of dignity and learning.*

AGRICULTURAL
HALL

*A frame so beautifully wrought,
A picture rarely caught,—
Like souls' revealing folds.*

HOME
ECONOMICS
BUILDING 

*Calm is this noble facade, as to the
south it rears—*

*As the bearing of one who waits in
patience and without fears.*

ENGINEERING

*Some of your firm and dominant will
And fearless, ironcast courage
You fix in them who dwell with you.*

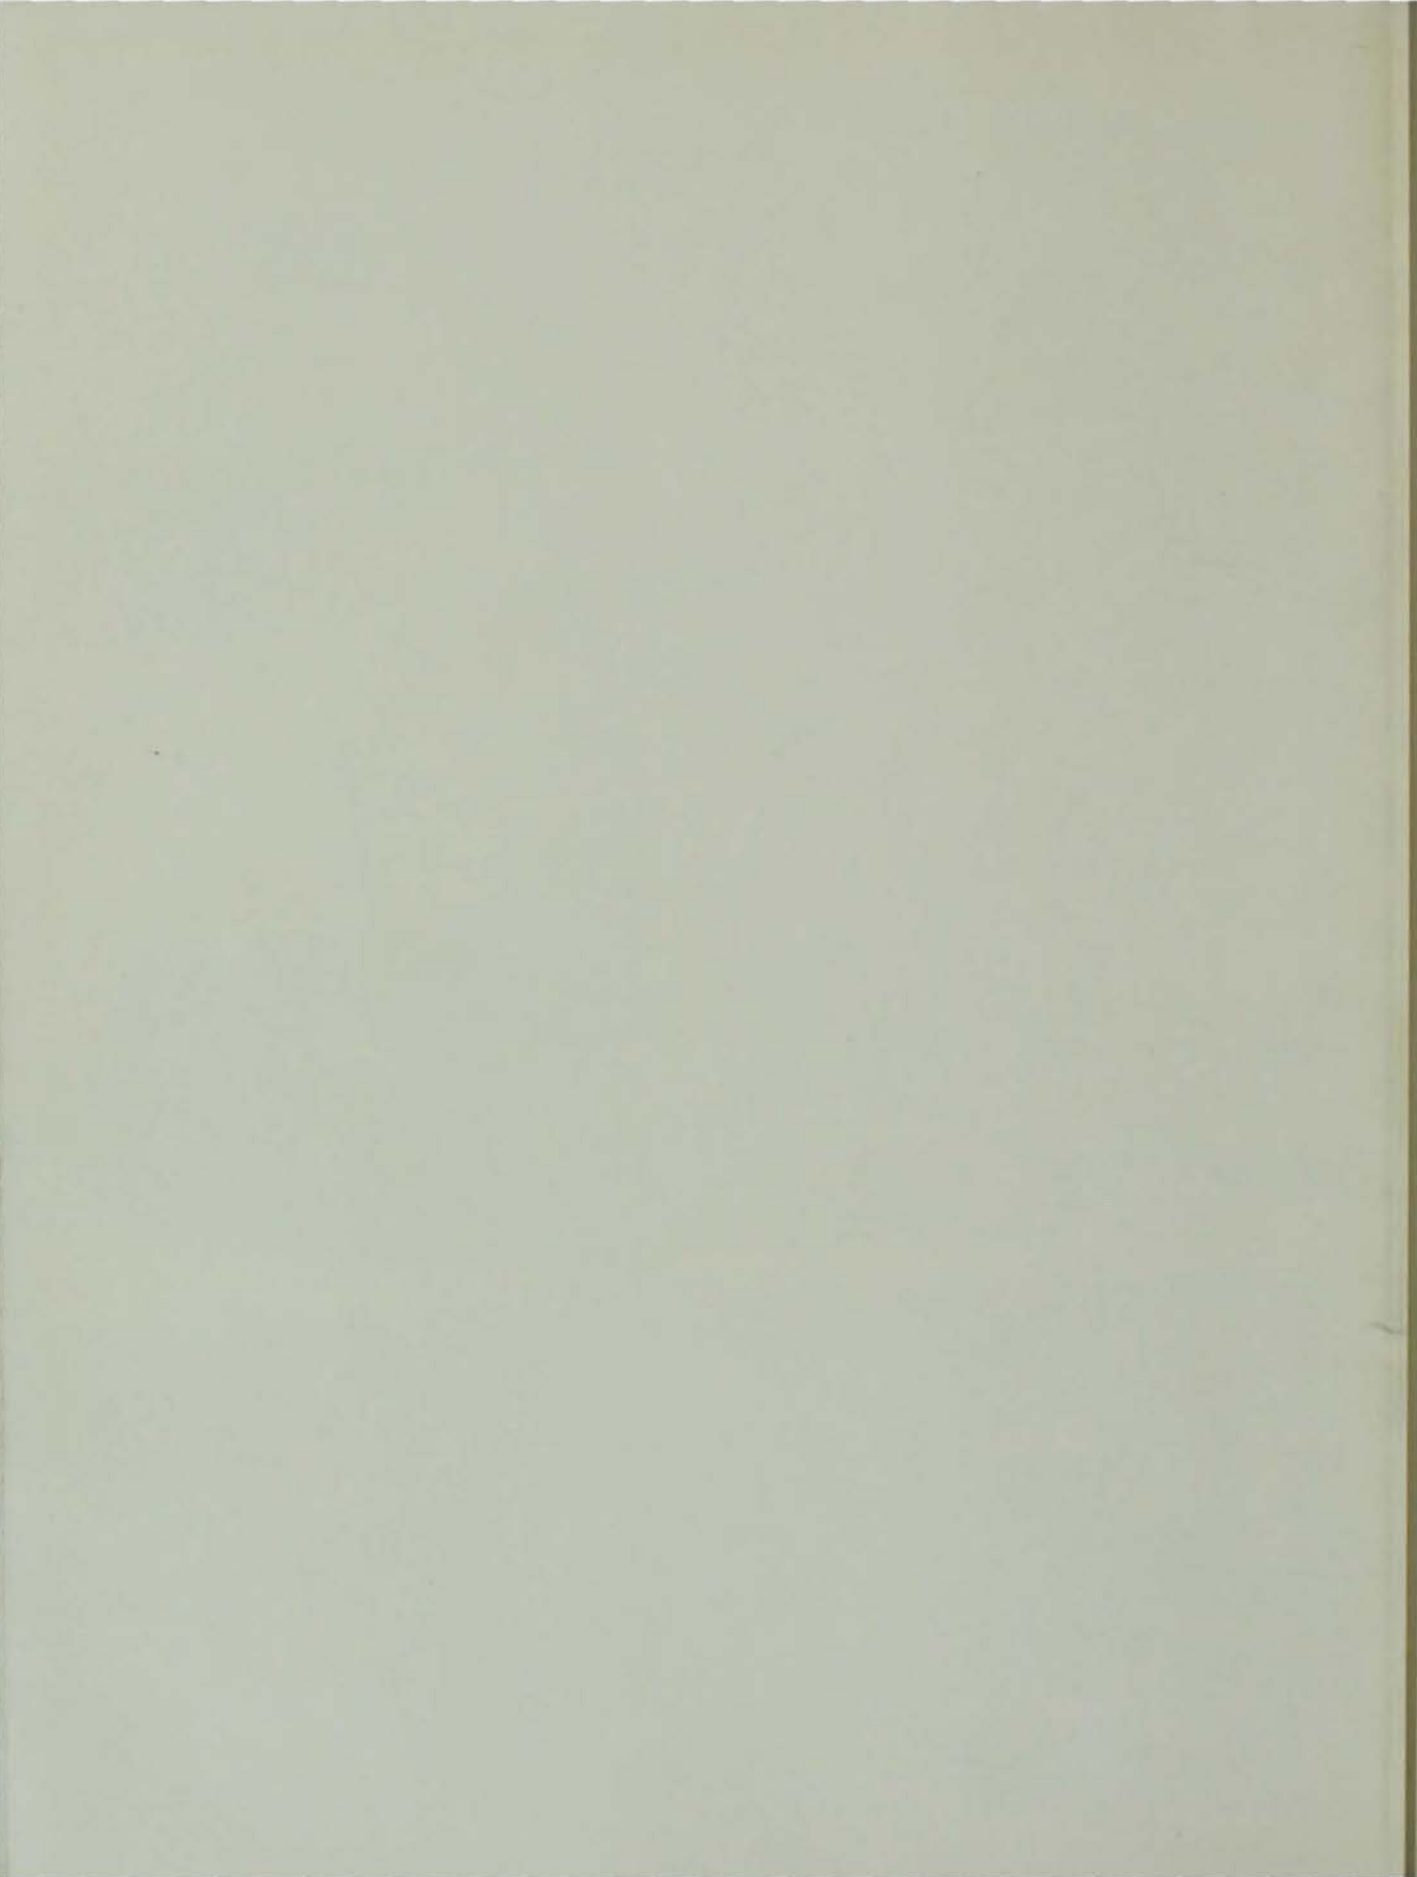

ENGINEERING HALL

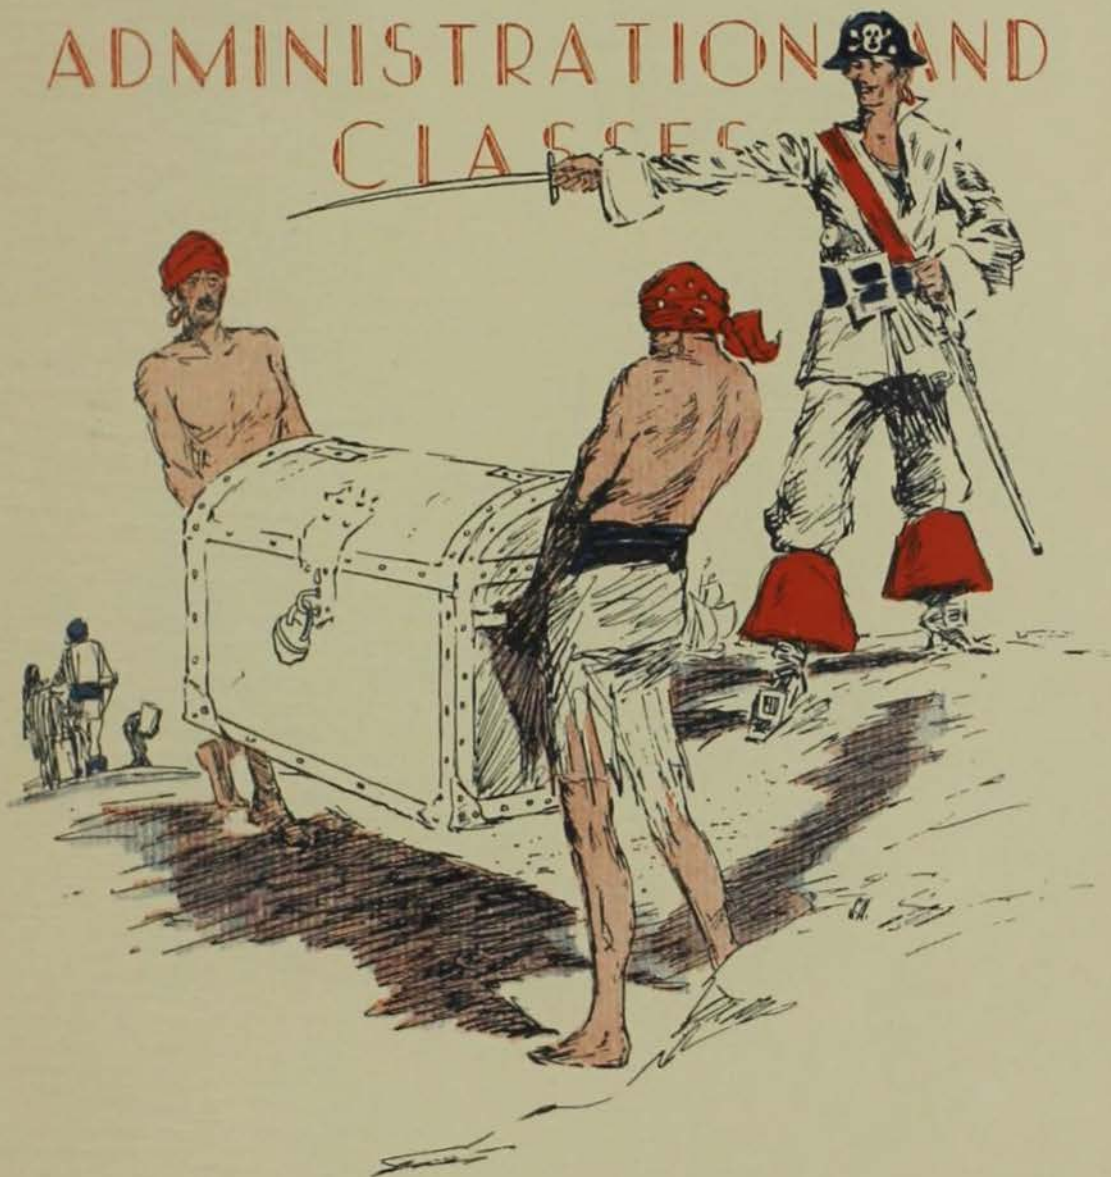

VETERINARY
QUADRANGLE 

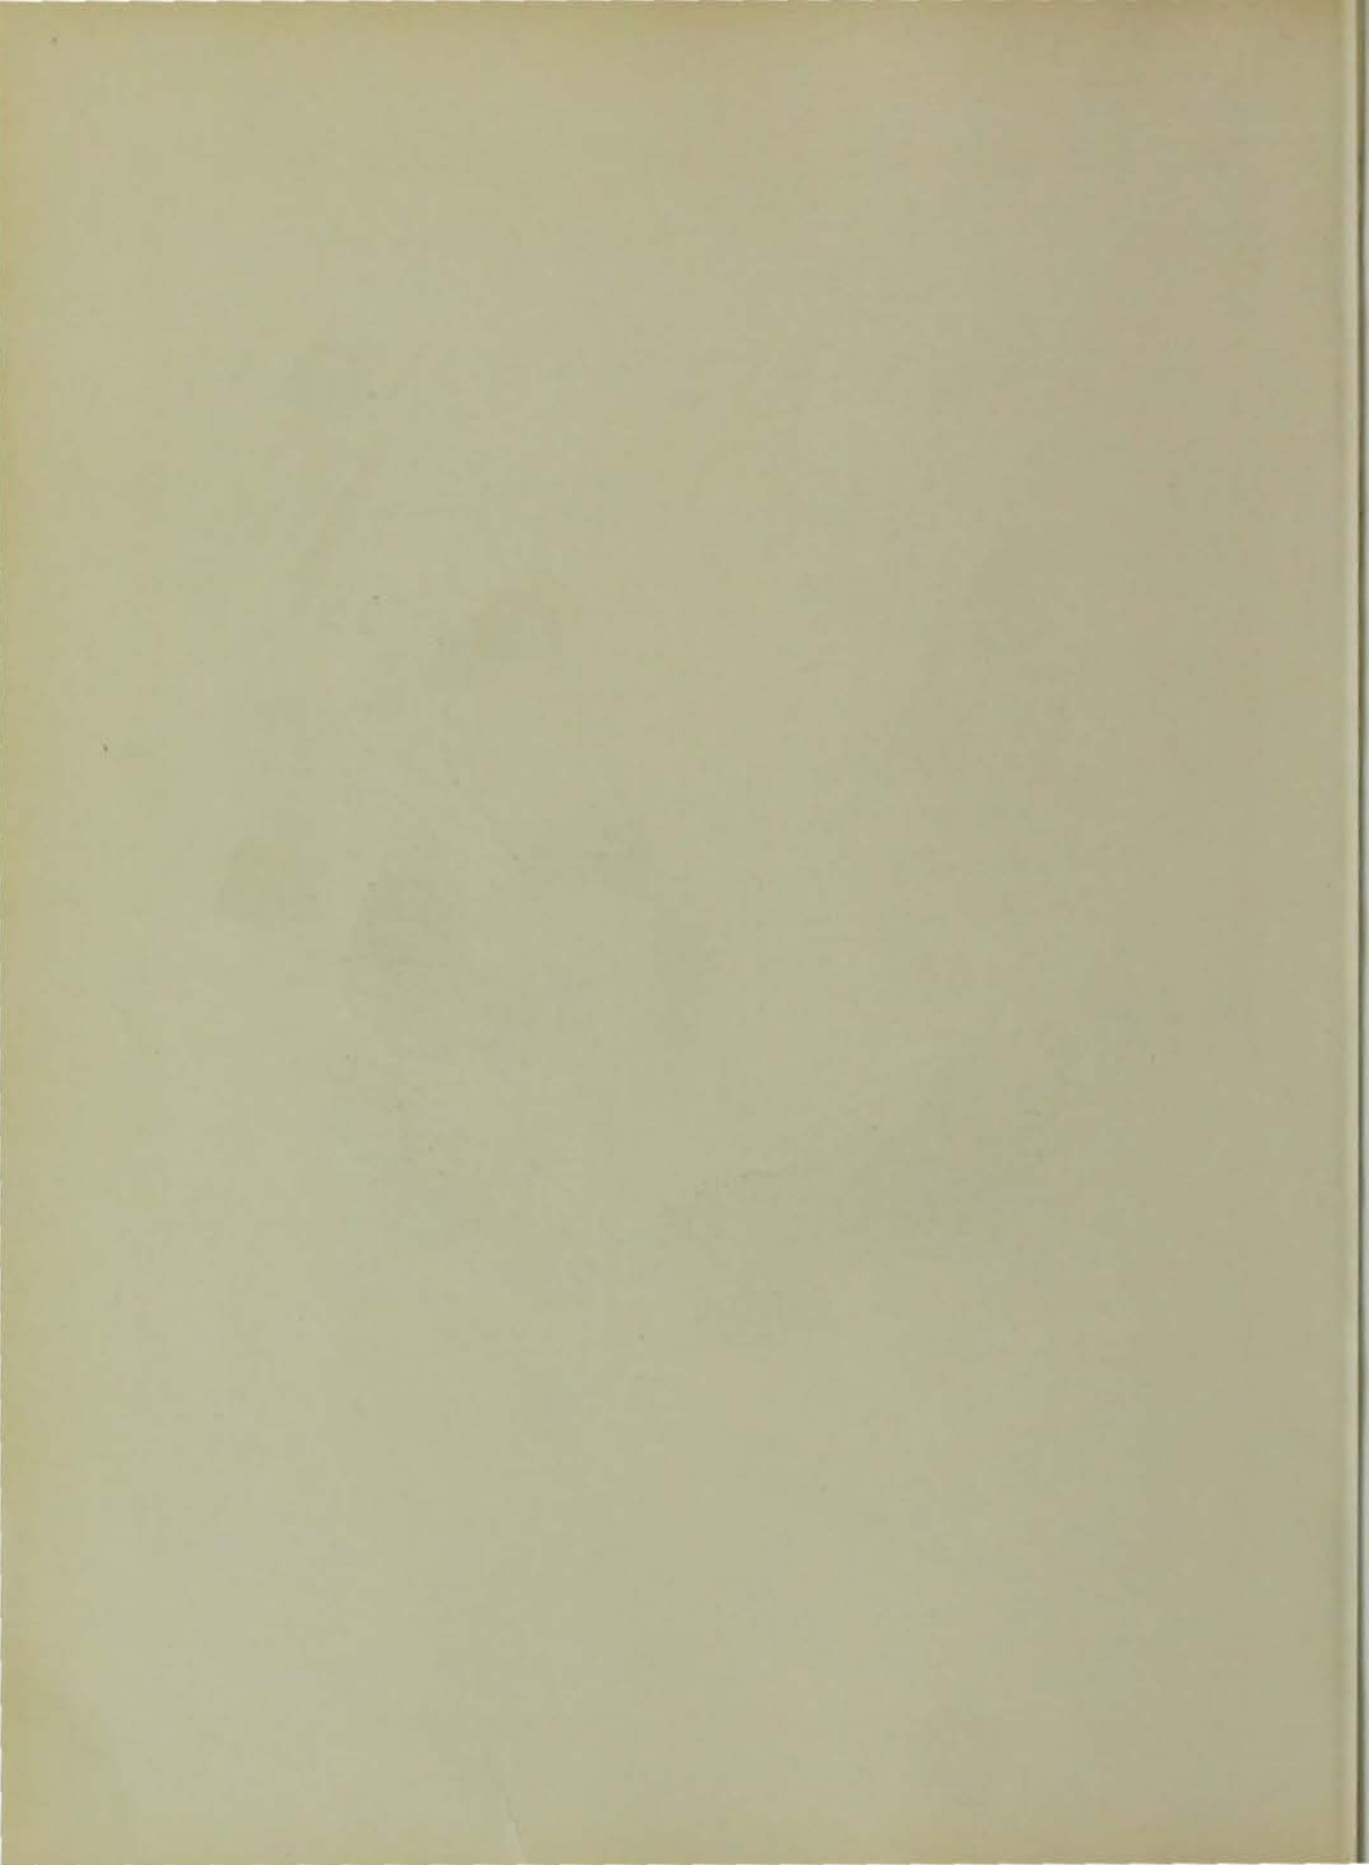

*Stately, cloistered halls
Wherein man diligently toils
To benefit the suffering.*

ADMINISTRATION AND CLASSES

RAYMOND M. HUGHES, *President*

PRESIDENT RAYMOND M. HUGHES was graduated from Miami University at Oxford, Ohio, in 1903. After teaching science for two years in the Hamilton high school he held a teaching fellowship in chemistry at the Ohio State University for two years and studied chemistry at the Massachusetts Institute of Technology during the following year (1897-98). He then was called back to his alma mater as Professor of Chemistry and Physics in the fall of 1898 where he served successfully as Professor of Chemistry and Registrar, Dean of the Liberal Arts College, and President until 1927 when he resigned to accept the Presidency at Iowa State College.

During this period he has been active in the service of the Association of American Colleges, the North Central Association of Colleges and Secondary Schools, the National Association of State Universities, and the American Council on Education, in each of which organizations he has at one time served as secretary.

HERMAN KNAPP
Business Manager

Mr Herman Knapp is a graduate of Iowa State College of the class of 1883. Since that time he has served his college in various capacities. Last year, in addition to his duties as Treasurer and Business Manager, he acted as President of Iowa State College.

J. E. FOSTER
Dean of Men

J. E. Foster, Dean of Men, obtained a valuable experience in educational methods by means of the varied career he pursued in public school education after his graduation from Yale. In the five years which have elapsed since 1922, when he first came to Iowa State, he has come to be a powerful influence in the lives of the men of Iowa State.

MARIA ROBERTS
Dean of Junior College

Dean Maria M. Roberts came to the mathematics department of Iowa State College in 1891. In 1921 she took over the office of Dean of the Junior College. For seven years she has served Iowa State and its students in that capacity, devoting her rare executive ability and capacity for friendship to the well-being of all underclassmen.

O. H. CESSNA
Chaplain

Dr. O. H. Cessna, a member of the first graduating class of Iowa State College, became Professor of Psychology and chaplain of the institution in 1900. Since that time he has seen many classes come and go,—he has witnessed many changes, and yet still has a sincere belief in the men and women with whom he comes in contact.

J. R. SAGE
Registrar

Mr. J. R. Sage received his education at Ohio State University and Rose Polytechnic Institute. Previous to his appointment as Registrar of Iowa State College in 1920, he was connected with the mathematics department of the college.

JULIA STANTON
Dean of Women

Dean Julia W. Stanton, a native Iowan, returned to her alma mater in 1893, as an instructor in the mathematics department. In 1923, she assumed the office of Dean of Women and has served in this capacity since that time, supervising the conduct of all Iowa State women and the many and varied phases of the social life of the college.

Graduate College

The increasingly large number of students who enroll in the Graduate College each succeeding year indicates, somewhat, the importance which is now attached to special training and instruction. The growth of the Graduate College has been extremely rapid during recent years; the students comprising it come from scores of colleges and universities, not only from those in the United States, but also from those of foreign nations.

In the fifty-five years of its existence, the Graduate College has aimed, primarily, to carry into the graduate field the work of the various technical and scientific departments of Iowa State College, and to encourage and foster research along these lines. The extensive development of this department is quite recent, but graduate work has always been part of the curriculum of Iowa State College.

R. E. BUCHANAN
Dean of Graduate College

Dean R. E. Buchanan, in his twenty-four years at Iowa State College has served in various capacities; Instructor, Professor and Head of the department of Bacteriology, Dean of the Division of Industrial Science and Dean of the Graduate College.

Division of Agriculture

The Division of Agriculture is composed of the departments of Agricultural Engineering, Animal Husbandry, Agricultural Economics, Farm Crops and Soils, Dairying, Horticulture, Forestry, Landscape Architecture, Truck Crops, Genetics, Technical Journalism and Vocational Education.

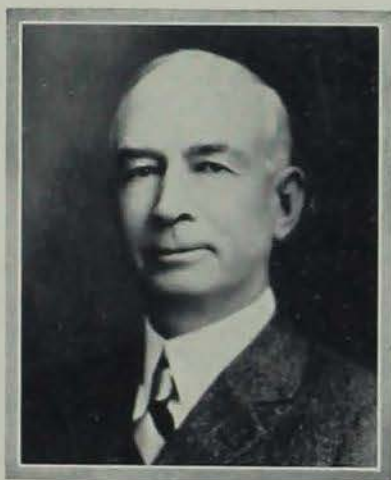

For many years, beginning with the founding of Iowa State College, all the work of the Agricultural Division was under the supervision of two departments which were called the Department of Agriculture and the Department of Horticulture. At that time the faculty of each department consisted of one man.

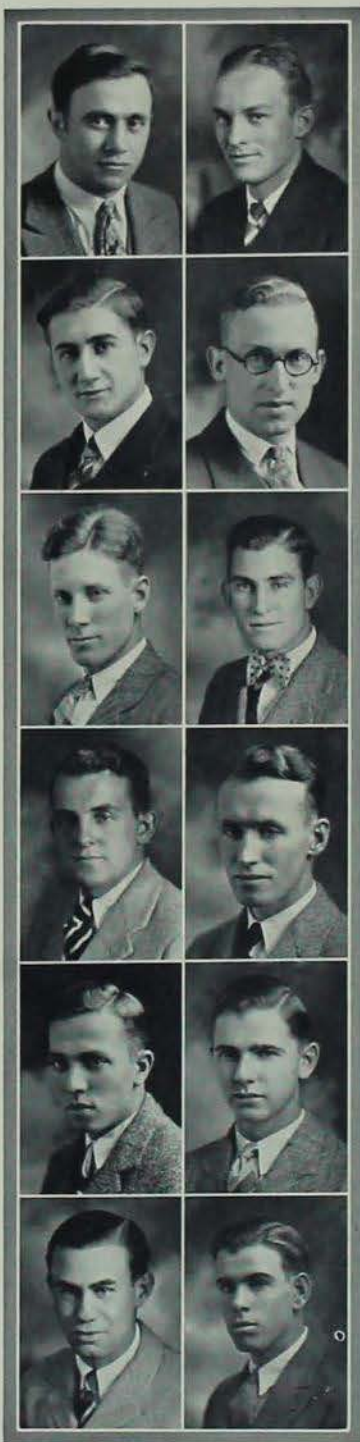

At the time of the proposal to transfer all instruction in Home Economics to Iowa University, the Department of Agriculture, served as an administration unit for what is now the Division of Home Economics.

C. F. CURTISS

Dean of Agricultural Division

Dean C. F. Curtiss, a graduate of Iowa State College in 1887, has been Dean of the division of Agriculture since 1897. During his tenure of office he has witnessed a phenomenal growth in the importance of scientific agriculture, a growth which has not yet ended.

Weatherway High School

Upsilon Sigma Alpha; Curtiss
Club; Chancel Choir; Mgr. Non-
Collegiate Basketball Team.

Division of Engineering

Undergraduate instruction in the division of engineering is given in ten four year courses which have uniform requirements for entrance: Agricultural Engineering, Architectural Engineering, Ceramic Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, General Engineering, Mechanical Engineering, Mining Engineering and Trades and Industries (Industrial Arts). Each of these courses leads to the B. S. degree.

In addition to this instruction, the division of engineering carries on work in Engineering Extension and Engineering Experiment Station Research. Iowa State College was the first engineering institution in the United States to systematically organize its work along these three major lines.

In each of the collegiate branches of instruction except Industrial Arts, a year of graduate work has been definitely outlined, completion of which entitles the student to a M. S. degree. In addition, two years of graduate work, leading to the Ph. D. degree, are offered in several courses. An increasingly large number of students are taking advantage of these additional years of training.

ANSON MARSTON

Dean of Engineering Division

Dean Anson Marston graduated from Berea College, in Kentucky, in 1889 and came to Iowa State College in 1892. There is, perhaps, no other man who, by reason of a natural inclination for engineering, is better fitted for this position than the present Dean.

Division of Home Economics

The Home Economics Division of Iowa State College, with an enrollment exceeding one thousand and an instructing staff exceeding sixty, is ranked as one of the largest and best in the United States. The division is housed in a building which competent authorities claim has no equal in this country.

The division aims to give a liberal education and practical training in Home Economics by means of instruction in the arts, the natural and social sciences, and their place in modern civilization. "Science with Practice." Three home management houses offer an unusual opportunity for the application of these principles of home management which are learned in the classroom. A nursery school and a tea room afford practical experience for those who are interested in Child Care and Training or Institutional Administration.

Courses in Home Economics fit the student for intelligent citizenship and efficient home-making, which are the basis of American ideals. Technically, they fit students for pedagogical positions and, in the field of industry, for those commercial opportunities which demand technically trained women.

In the past, the Home Economics Division has possessed an enviable record. It is the present aim of the division to augment, if possible, the fame of Iowa State College.

GENEVIEVE FISHER

GENEVIEVE FISHER

Dean of Home Economics Division

Dean Fisher received her education at Columbia University and the University of Chicago. Previous to her appointment as Dean of the Division of Home Economics in 1926, she spent several years in vocational education work.

Division of Industrial Science

The division of Industrial Science serves as an administration unit for those departments whose work, while not in itself technical, is necessary to a well-rounded education in any of the several technical courses of Iowa State College. These departments comprise Bacteriology and Hygiene, Botany, Chemistry, Applied Economics and Social Science, Geology, Mathematics, Military Science and Tactics, Physics, Zoology, and Entomology. In addition, the work of the departments of English, History, Psychology, Modern Languages, Music, Physical Education, and Public Speaking is under the supervision of the Dean of Industrial Science.

In the early days of Iowa State College, when no distinction was drawn between the different divisions now existing, all of the instruction offered in the institution was given by this Indus-

trial Science Division. When the growing need for specialization and the number of students enrolled made this administrative scheme inadequate, the four other divisions were created. When, in 1879, the division of Veterinary Medicine was created, the division of Industrial Science assumed the status it possesses today.

The Industrial Science Club is the divisional organization of which all students and faculty members of the division are members. It chooses the Industrial Science Council, which, with the cooperation of the former organization, manages the affairs of the division.

The division sponsors an annual barbeque in the fall quarter, and a winter dance. In the spring quarter the energies of the division are directed toward the preparation of the Veishea float.

S. W. BEYER

Dean S. W. Beyer is a graduate of Iowa State College and Johns Hopkins University. Previous to his appointment as Dean of the Division of Industrial Science in 1919, he served as Vice-Dean of the Division of Engineering.

Division of Veterinary Medicine

When the Veterinary Medicine course of Iowa State College was made a separate division and a Dean of Veterinary Medicine appointed in 1879, Dr. Stalker, the first dean of the division, was confronted with the impossibility of obtaining competent instructors. It became necessary for him to establish a graduate course, the chief purpose of which was to train instructors for Iowa State College.

The twenty years from 1880, when the first class in the division was graduated, to 1900, were full of advancement for the science of Veterinary Medicine. Growth has been steady and at the present time, the work of the division comprises: Anatomy, Medicine, Pathology, Physiology, Surgery, and Veterinary Investigations. Each is a separate department, and, to-

gether offer the instruction which was originally administered by a single unit.

In the forty-eight years in which it has been in existence, the division has had but three deans. Dr. Stalker was succeeded by Dr. J. H. McNeil who was, in 1908, succeeded by the present dean, Dr. C. H. Stange.

The students of the division are members of the Veterinary Medical Society, meetings of which are held twice a month. Faculty members aid in the conduct of these meetings which are, with this exception, the work of the students.

Extra-curricular activities of the division of Veterinary Medicine comprise the freshman mixer in the fall quarter, the annual banquet and dance in the winter quarter and the faculty picnic in the spring quarter.

Dean C. H. Stange received his education at Iowa State College and the University of Chicago. In 1910, he returned to Iowa State, from which he received his first degree, as Dean of the Division of Veterinary Medicine.

Extension Service

The Extension Service of Iowa State College continues to extend the benefits of its experimental and research work to the farmers of the state. Under the direction of Mr. R. K. Bliss and Mr. P. C. Taft, the extension service has reached nearly every township in Iowa. Information concerning livestock, clothing and poultry projects continue to lead in the number of townships reached, but the work of the entire service comprises many more projects than these three.

The work of scientific information such as is disseminated by the extension service can scarcely be over estimated. In actual dollars and cents, it saves the farmer of Iowa many times the cost of the entire service.

R. K. BLISS

P. C. TAFT

The Department of Hygiene and the Student Health Service

Graduates of a "Baker's dozen" of years ago, would scarcely recognize the college infirmary of their day, tucked in, as it is now, behind our modern, well equipped hospital and dispensary building. The old hospital is now used only for contagious diseases.

The first or north wing of the newer hospital, built in 1915, has a capacity of 40 beds and includes the kitchen and dining rooms and the operating rooms. The east wing, built in 1924, more than doubled the capacity and gives added dispensary and laboratory facilities so that now the college has ample facilities for caring for such of its students as need hospital or ambulatory care. No other institution, except perhaps those with medical schools, is better equipped in this respect and few hospitals anywhere are better provided with laboratory, X-Ray and other equipment for diagnosis and treatment, both for curative and preventative purposes.

MISS GRACE CROWSTON
Superintendent of the Hospital

DR. JAMES F. EDWARDS
Professor of Hygiene

The BOMB

Left to right: Williamson, Johns, Edwards, McPhee, Jongewaard, Ruth.

The state has realized fully that the educational authorities, to whom the parents have entrusted the physical and mental care of their immature sons and daughters, have a positive and moral duty to provide, as promptly and conveniently as possible, competent medical care and advice for them, and has provided an adequate plant and staff for this purpose.

It must not be thought, however, that the care of the sick is the only or even the most important part of the work of the Department of Hygiene. It is even more important that it prevent illness and improve health of the students while here and give them such positive

knowledge of health principles and practices as will enable them to keep well and to best serve their community in after life.

As the first step, all entering students are given a careful "once over" during the entrance physical examinations. Such as show physical defects or health impairments are followed up in further conferences, and advice and treatment is given with a view of correcting or improving their condition. Many students are thus enabled to continue their college course and at the same time improve their physical condition.

BACK ROW, left to right: Mary Hauser, Luella Potter, Nelle Elder, Agnes Knudson, Marie Jensen.
FRONT ROW, left to right: Genevieve McKeigh, Elizabeth Martin, Florence Brown, Grace Crowston.
Supt.: Della Gray, Hortense Elliott.

The Hygiene Department is also a teaching department and gives class room instruction in hygiene to all freshmen in Industrial Science and Home Economics, the divisions which have admitted hygiene as a credit course.

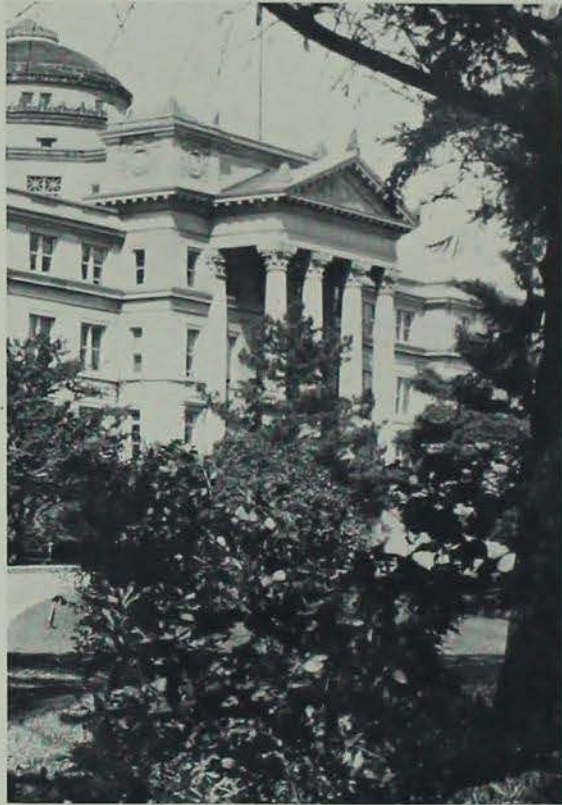

Another line of work has to do with the sanitary environment of students both on and off the campus.

Altogether it is one of the busiest departments on the campus and performs a real service for our college community, though many of us are slow to recognize its usefulness. Many of us have gone to the clinic with fear and trembling that one of the doctors would seize us and, willy-nilly, chuck us into the hospital and keep us longer than we liked, or use a knife on our boils or an electric spark on our warts or some other instrument of torture on some part of our

shrinking anatomy—but somehow we got through—perhaps due to the sympathetic and capable nurses who always helped us out, and always realized that we were better off in the end for going there.

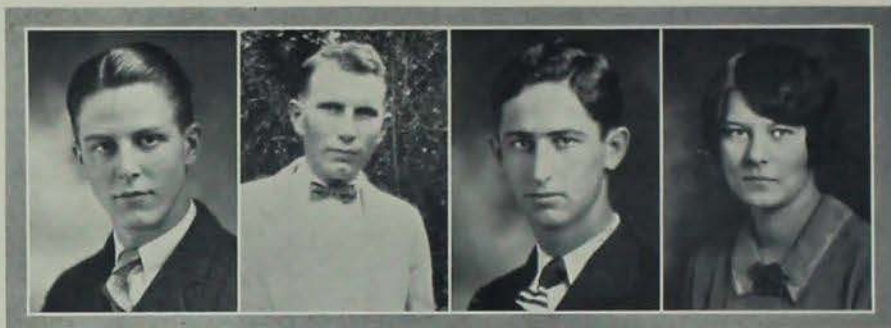

We feel sure that in after years we will more fully realize the wisdom of the state in developing a health service that emphasizes the importance of a sound body for housing a sound mind. Twenty centuries ago old Aristotle told the youthful Alexander, his pupil, to get more sleep and to eat more spinach and other vitamin foods and that he "must train his body and mind to work together like a yoke of oxen in one and the self-same team" if he was to get anywhere. It is this idea that the department is trying to get across—if you don't believe it, ask the editor of the Bomb.

ATHLETICS

Fight! Ames! Fight!

The stands fill. A coin is tossed. Onlookers are tense with excitement as the oval sails far down the field. The battle surges back and forth. Finally the balance wheel swings in favor of the invaders. A muffled groan—

Fight! Ames! Fight! Rising from a thousand loyal throats, that time-honored cry of old Iowa State thunders across the field, reverberating in the ears of eleven gold-clad warriors, electrifying them with a new zeal. The line tightens. The invaders are thrust back.

The years pass. A man sits before a desk in a gloomy office, his head bowed in his arms. He is playing a much bigger game; the game of life. Here, too, the balance wheel has swung in favor of the invaders. Home and family are threatened with ruin. A barely audible groan escapes his tight lips.

A vision. The football field—crowded stands—five yard line. And ringing in his ears, the famous old cry—Fight! Ames! Fight! His shoulders square and determination lights his countenance. Once more the invaders are thrust back.

Never to admit defeat. Never to lay down and say, "The battle is too much for me." Never to cease giving every ounce of energy and effort, whatever the game. That is what is symbolized by Fight! Ames! Fight!

 BOTTOM ROW, left to right: C. Daubert, F. Honaker, T. Metcalf, H. Otopalik, M. Ross.

Athletic Department

Iowa State's Athletic Department is composed of energetic and competent coaches, known throughout the country as authorities in their particular field of athletics. Athletic teams of nation-wide reputation are competing every year with Iowa State. The splendid success of Athletics at Iowa State has resulted from the excellent coaching qualities found in the personnel of the Athletic Department.

Missouri Valley Inter-Collegiate Athletic Association

"THE BIG SIX"

The split in the old Missouri Valley Conference did not come as a surprise to those on the inside track. It was inevitable and the year 1927 saw the break come when Iowa State, Nebraska, Kansas State College, and Missouri withdrew inviting to join them Kansas University, and Oklahoma University. Plans for this split had been formulating in the minds of the four universities and after due consideration the move was deemed a necessary one.

There are two primary reasons for the change. First is the academic reason. With ten colleges and universities scattered widely, too much time was taken from the school work of the boys, consequently forcing them into a poor scholarship standing and keeping good players from the fields because of academic requirements. Since most teams wanted a double round robin the time was doubled on the road.

Secondly: For an economic reason, the conference was a failure. Expenses could not be met and as the gate receipts varied with the different games, the council felt that they were playing for a loss that they could ill afford.

With the organization of the new Conference, a brighter outlook for the coming years is anticipated. The matter is a "family affair," and the fact that every team has to play every other team in each recognized sport makes a better spirit among the six teams. This arrangement allows for the scheduling of three additional games with outside teams.

Drake and Grinnell will no doubt appear on our schedules for the coming years, for without our traditional friendly enemies, no doubt some of the spice of the year would be missing. There would be nothing but regret if the much used cry of "we want Duck Soup" should be forgotten from lack of use.

MERLE J. ROSS

Left to right: P. PRYOR, D. CLARK, C. BROUGHTON, H. GIFFT

Cheerleaders

While the fighting Cyclone team was gamely struggling for victory on State Field, an energetic staff of cheerleaders brought forth the "Fight! Ames! Fight!" spirit from the Cyclone grandstands.

The former system of one head cheerleader which has been in vogue at Iowa State for many years, has gradually given way to a large staff of cheerleaders trained to work in clock-like precision. Although the system is in its experimental stage, it promises to bring forth greater volumes of noise from the cheering sections.

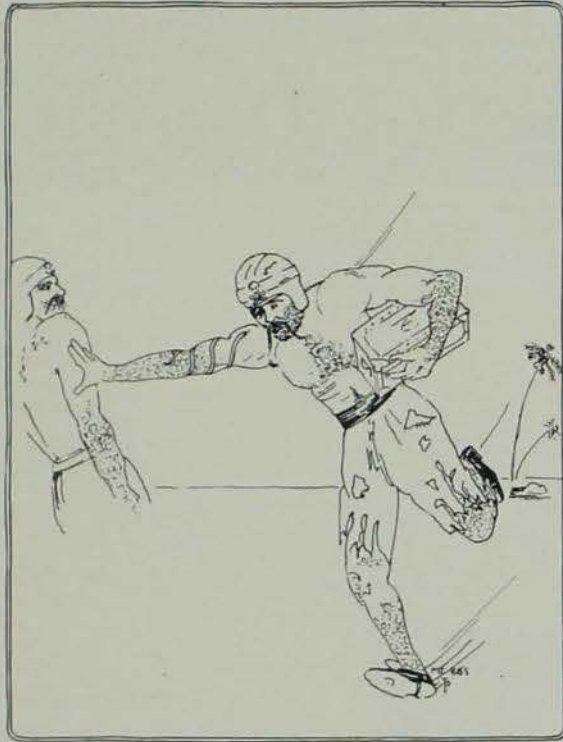

With an ever enlarging stadium around State Field a much larger corps of cheerleaders will be required to officiate before larger crowds and give Iowa State fans more opportunity to exercise their lungs.

The purpose of the Cheerleader and Twister organizations is to arouse the maximum pep in the student body and give the Fighting Cyclones mental support at crucial moments when victory hangs in the balance. At times this support was lacking at the opportune moments and excessive when the Cyclones had victory cinched. Possibly a large corps of cheerleaders will help solve the problem of ill-timed cheering on the gridiron.

The Band, in conjunction with the efforts of the Cheerleaders and Twisters, pepped up the fans with victory-inspiring notes in addition to presenting formations and maneuvers between halves.

CAPTAIN WALT WEISS

Taking the season as a whole it has been a very successful one and much credit is due Coach Workman and his assistants and also to every member of the Cyclone squad. Iowa State ranked third in the Missouri Valley standings below Missouri and Nebraska, the two teams to defeat the Cyclones in this year's championship race.

Many individual honors came to members of the Cyclone squad. Ayres, Miller, Lindblom, Weiss, and Fischer were given places on mythical All-Valley teams. The first four named were also mentioned for places on the All-Western teams. The Register's All-State selections included six Iowa State men, three of which were on the first team and three on the second team. Lindblom, Ayres, and Fischer were the first team choices, while Miller, Smith and Weiss landed places on the second team. Weiss was also named captain of the second team.

At the annual football banquet given by the Cyclone Club as a fitting close to the 1927 season, Harry Lindblom and John Miller were elected captains of next year's eleven.

COACH NOEL WORKMAN

CAPTAIN-ELECT LINDBLOM DRIVES OFF TACKLE FOR SIX YARDS

Iowa State—12 Illinois—12

It was a case of a good big team against a good little team—and the little team played smarter and harder football than Illinois, the undefeated Big Ten Champions. The Iowa State line was impregnable. Illinois' attempts to play straight football netted them nothing but losses, and their only gains were made by forward passes and deceptive fake plays. On the other hand, the Iowa State backfield gained almost at will through the line of Zuppke's "average men." Both the Iowa State touchdowns came as the result of line drives.

J. Miller started the game with a rehearsal of a stunt that an Illinois man named Grange

made famous several years ago. Miller caught the opening kick-off on his own ten-yard line, and carried the ball seventy-nine yards before being forced out of bounds on the Illinois eleven yard line. Miller was injured on this play, but stayed in the game and on the third play following his brilliant run, carried the ball for the remaining eleven yards and a touchdown.

Illinois took advantage of a bad punt, and by a series of fake plays, took the ball across from the Iowa State twenty yard line in the second quarter to tie the score at 6-6. Later in the same quarter, a passing attack resulted in a second touchdown for the Illini.

The second half started with the score 12-6 in favor of Illinois, and with Miller on the sidelines with an injured knee, the result of the hard tackle at the end of his long run.

Early in the third quarter, Illinois punted over the goal line, and Iowa State took the ball on their twenty yard line. It was then that Harry Lindblom came through with one of the most sensational drives of the year—a drive that will go down in the history of Iowa State football.

Starting on the twenty-yard line, almost single handed Lindblom hit the line or ran the ends eleven times for a gain of eighty yards and a touchdown to tie the score again, at 12-12. Illinois opened up with everything they had, but the Iowa State defense stiffened and held for the remainder of the game.

This game was the outstanding game of the year for Iowa State—the line was adjudged by several officials of the game as the "hardest, fastest charging line of any team of the year." The splendid offensive work of Miller, Lamson and Lindblom, and the generalship of Weiss, deserve the highest praise.

CAPT. "WALT" WEISS
Quarterback.
"The Rat" was regarded as one of the best field generals in the Valley. His frequent broken field runs were clever exhibitions of dodging and pivoting.

G. "DUKE" AYRES
Center.
"Duke" delighted in tearing thru opponents' lines and ruining their advance; he was Iowa State's "triple threat."

LINDBLOM DRIVES INSIDE TACKLE

Iowa State—7 Drake—0

For a week preceding the Iowa State—Drake game, the usual spirit broke forth in the form of spontaneous pep meetings, signs, and the traditional "We want duck soup." The highway to Des Moines was black with students on the day of the game. Over two thousand Iowa State rooters occupied the east stand, and shouted defiance to the Drake Homecoming crowd.

The Bulldogs had been taking the short end of score all season, and they were playing a team reputed to be much better than they—but comparative strengths mean little in an Iowa State—Drake game. At no time during the game did Drake threaten seriously to score, but the splendid defensive work of the Drake line held

Iowa State scoreless for more than three quarters.

Iowa State uncorked a series of deceptive double and triple passes that looked good for scores several times, but the Bulldogs' defense stiffened on their own goal line and held. One of the officials prevented a sure score by interfering with Lindblom, who was reaching for a short pass across the goal line. Lindblom stumbled and the pass was not allowed. The breaks of the game were all in favor of Drake in the first half.

The second half was a repetition of the first. Drake's punting kept their goal line from danger until the fourth quarter.

Then Chink Hall started passing. He tried a dropkick from Drake's 30-yard line, missed it, and a few minutes later missed one from the 20-yard line. Drake took the ball on their 20-yard line, tried one play and fumbled. Iowa State recovered, and with less than three minutes to play, Hall passed thirty yards to Lindblom, who was wide open and he stepped across the goal line for the only touchdown of the game.

The defensive work of the Drake line, which spoiled at least three potential touchdowns for Iowa State, was the feature of the game. Walt Weiss contributed his usual 65-yard run late in the second quarter, when he broke through the center of the line and eluded everything but the Drake Quarterback, who caught him from behind on the 3-yard line.

CAPTAIN-ELECT MILLER

Halfback

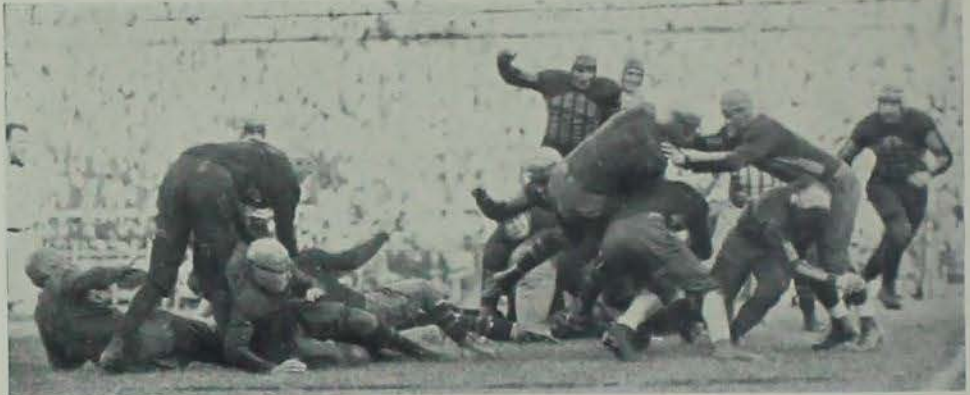

"Johnny's" most sensational play was the 74-yard return of a kickoff against Illinois. An injured knee kept him out of several games.

CAPTAIN-ELECT LINDBLOM

Halfback

"Harry" was a unanimous choice for All-Valley half and gained an All-American certificate from Rockne, Warner and Jones.

LAMSON HITS A STONE WALL

Iowa State—0 Nebraska—6

The opening game of the season was played with Nebraska at Lincoln. Iowa State, with an inexperienced line, was playing a team of veterans with a back-field that boasted an All-American player.

The green Iowa State line completely reversed the dope, and held the Nebraska team to one touchdown. The field was wet, and fumbling was frequent. It was a fumble that gave Nebraska her chance at the lone touchdown.

The first half was played on even terms. During the third quarter, a fumble gave Nebraska the ball on the Iowa State forty-yard line, and two first downs and a 15-yard penalty resulted in the only score of the game.

R. "BOB" LAMSON
Fullback
Coach Workman calls "Bob" the most dependable man on the team. A bulwark at backing up the line.

O. "ORRIE" ROE
Guard
"Orrie" had none too much beef for a Valley guard, but he made up for that with aggressiveness. Nothing looked too big for him to stop.

K. "BUCK" FISCHER
Guard
"Buck," after struggling for three years, finally came into his own and ended up by making the Register's All-State team.

LINDBLOM GAINS A FEW MORE YARDS VIA THE AIR METHOD

Iowa State—26 Simpson—6

Two Workman-coached elevens played the first home game of the season on State Field. The Simpson team provided stiff opposition throughout the entire game, and in the second half Capt. McCoy uncovered one of the prettiest passing exhibitions seen on State Field in years.

Miller scored the first touchdown in the initial quarter. In the second quarter, the Cyclones pushed two more touchdowns across, Miller making one and Bob Lamson the other. In the second half, the second team started for Iowa State, and it was at this time that Simpson collected their touchdown after their brilliant passing attack. The Cyclones started an offensive march in the fourth quarter that went the length of the field and resulted in their fourth touchdown.

V. "CHINK" HALL
Halfback

"Chink," too, completed his stay at Iowa State after exhibiting some excellent forward passing. His bullet passes beat Drake.

C. "RED-EYE" RUDI
End

Originally a fullback, Workman shifted Rudi to end due to the dearth of ends, and he at once came thru in fine shape.

S. "RED" HILL
Halfback

"Red" had a hard time breaking into the Weiss, Lamson, Miller, Lindblom combination, but after Miller was hurt, he proved himself exceptionally fast.

MILLER GOES AROUND LEFT END IN KANSAS AGGIE GAME

Iowa State—12 Kansas State—7

At the start of the game, someone fumbled and Kansas recovered on the Iowa State 27-yard line. Using a massed interference, Capt. Douglas of Kansas plunged the line nine times for a touchdown. From that time until late in the game, when Kansas started a passing attack, the Iowa State goal line was never threatened.

In the second quarter, Miller got loose around his right end and aided by perfect interference, ran 26 yards for the first touchdown. Later in the same quarter, Weiss took the ball over from

the 1-yard line after a long pass, Miller to Lindblom had placed it in scoring position.

The second half was a heart-breaking period. Time after time, the Iowa State backfield would get away for long gains, only to be stopped by a fumble with the goal line inches away. Once the fast moving line blocked a Kansas punt, which rolled to the Kansas 1-yard line. Three Iowa State players fell upon the ball—and also fell upon a nimble Kansas player who was awarded the recovery.

HOLLOWAY SMITH
Tackle

Holloway was always fighting to the limit and opponent backs frequently kissed the ground before they were well started due to "No. 16," as Holloway was known.

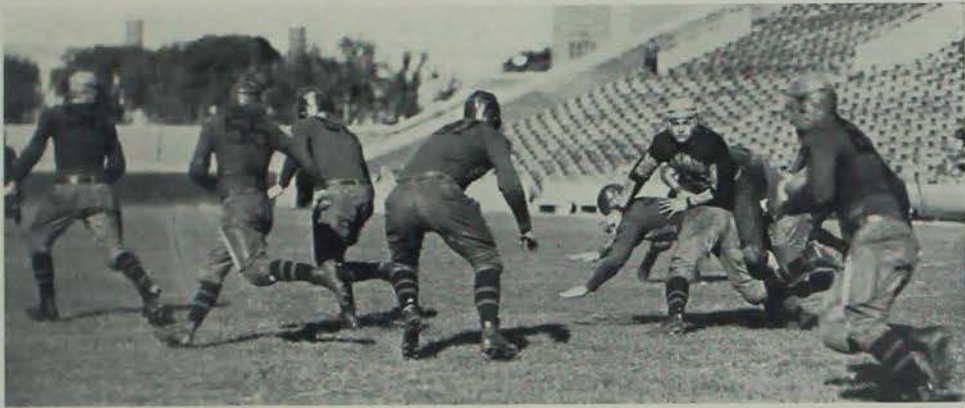

R. "BOB" BURTON
End

"Bob" was playing his first year for the Cardinal and Gold and gave an excellent account of himself until he was injured in the Kansas Aggie game.

E. "SLIM" KREEKOW
End

"Slim" saw regular service this year for the first time and was especially adept on defense. He graduates.

MILLER RETURNS A KICKOFF FOR A GAIN

Iowa State—20 Grinnell—0

For the preceding two years the Pioneers had battled to a tie with Iowa State, but this game at State Field found the lighter Grinnell team completely outclassed. Coach Workman substituted freely throughout the game, and uncovered a potential star in "Red" Hill, who made several spectacular runs during the game.

With most of the regulars on the bench, and a new combination in the Cyclone backfield, the Iowa State offense was slow in getting under way. After Hill was inserted at halfback, the red-head found the field to his liking, and got away for sprints of fifty yards at a trip. Two of these runs resulted in touchdowns. One kickoff was returned sixty yards before Hill was tackled.

H. "HARRY" JOHNSON
End

The hard luck jinx continued to trail Harry and he was put out for the season in the Nebraska game. Better luck next year.

R. "RAY" GALBRAITH
Tackle

1927 saw Ray close a brilliant three years on the Iowa State gridiron, marred only slightly by injuries.

F. "FRITZ" LUTJENS
Tackle

"Fritz" used his 200 pounds to good advantage in the line and did especially well against Missouri. He will be back for service next year.

FIND THE BALL CARRIER

Iowa State—6 Missouri—13

Before the annual Dad's Day crowd, Iowa State lost a game to the Missouri Tigers, 13 to 6. The score is no indication of the comparison of the teams. Missouri scored both touchdowns on passes before the game was well started. After the Cyclone offense started functioning, the Bengals were forced to play a purely defensive game, and they were well satisfied to escape with the narrow margin in their favor.

Early in the first quarter, Missouri scored on a long pass over the goal line after the Iowa

State team had driven them back thirty yards on that series of downs. The point was converted. In the second quarter, Flamank, giant fullback for Missouri, was inserted into the game with the ball on the Iowa State 30-yard line. Flamank was driven back by three charging Cyclone players and tossed the ball to a Missouri back as he was being tackled. The surprised player ran forty yards through a clear field for the second touchdown before the crowd realized what had happened.

E. "ED" SCHLENKER

Tackle

"Ed" alternated between guard and tackle as the call came and leaves little to be desired and much to be expected. It was his first year.

CARL KERN

Guard

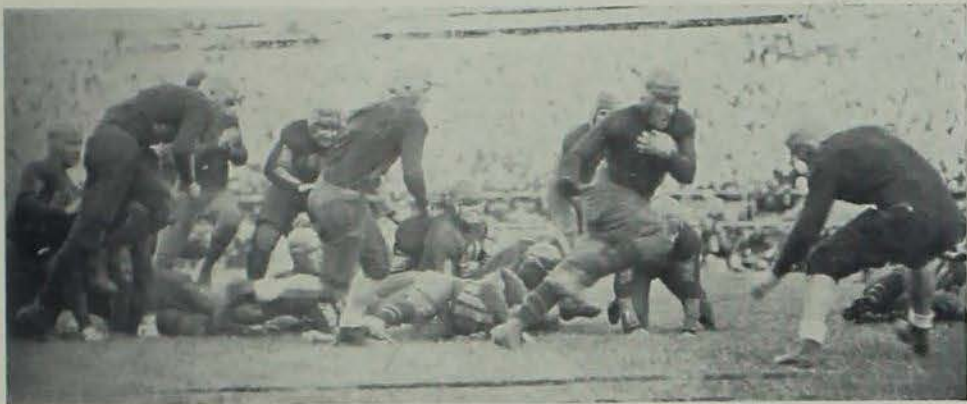

Small in stature, Carl possesses fighting spirit to the nth degree. Injuries kept him out part of the season.

J. "JOHNNY" KULP

Halfback

A midget in stature, Johnny was so fast his interference couldn't keep out of his way. We hope to see him round into a regular next year.

HARRY'S SMASH TEARS A BIG HOLE IN THE LINE

Iowa State—0 Marquette—34

The final game of the season was played with Marquette at Milwaukee. Marquette boasted a team that had improved consistently from the beginning of the season, and contained a halfback who was later given All-American honors. The Iowa State team was without the services of Miller, and shortly after the game started, Lindblom was removed from the game due to an injury.

The field was very muddy and fumbling was frequent. The opening kick-off was fumbled on the Iowa State 13-yard line, and was recovered by Marquette. A short pass gave them their first touchdown. Shortly after this, a Cyclone fumble was scooped up and converted into a Marquette score by a pretty forty-yard run. The remainder of the game was a succession of bad breaks favoring Marquette.

In the absence of the regular backfield, Kulp, Hill and Hall alternated. The Cyclone attack could not function consistently, although Weiss made several good gains, and the end of the game found Iowa State at the short end of a 34-0 score.

A new system of coaching freshman football aspirants has been devised at Iowa State, eliminating the single coach and squad method and supplanting it with a divisional squad system under the supervision of ten or more coaches.

The freshman candidates were divided into four squads, Red, Gold, Green and Rainbow. Each squad had two or more coaches. Metcalf and Grimes supervised the Reds, Chandler and Thomas the Golds, Otopalik and Peckinpaugh the Greens, while Dunigan, Smith, Thurber and Hardwick developed the Rainbows.

THE SEASON'S SUMMARY

When Coach Bill Chandler took inventory of his prospective cage team of '28, he found six letter men and some promising sophomores from the freshman squad. Captain Staver and Lande at the forward positions, Brown and Kling at the guard posts, were the four major letter men to form the nucleus of Chandler's quintet, while Ludwig and Taylor, minor letter men, were on hand for practice at the initial call.

Again, the problem that confronted Coach Chandler was the selection of a competent pivot man. The best possibilities for the position were Woods, Stillman and Treadwell, all of whom lacked the ability of the lanky Wagner or Fennema of last year's team.

As the season progressed the Lande, Staver combination at the forward berths, Woods at center, and Kling and Brown at the guard positions bore the brunt of the season's cage games, until Freddie Kling was replaced by Lamson when the former star guard was out for the remainder of the season with a bad knee.

Woods proved to be a very suitable man for the pivot job. He worked well in combination with Staver and Lande besides finding the hoop consistently enough to rate him well up the list of Valley scorers. It was in the Kansas Aggie game that Kling, guard, seriously injured his knee. Even though Kling's injury was under the best medical care, the Cyclone star played only for short intervals at the close of the season.

COACH "BILL" CHANDLER

The Cyclone

GLENN WOODS
Center

Developed rapidly and handled himself well during his first year on the varsity.

DRAKE ATTEMPTS TO SCORE

"DOC" TAYLOR
Forward and Guard

Was extremely fast and a good shot, despite his small stature.

Kling was the backbone of the Chandler five-man defense, and his loss cracked a good combination. Bob Lamson, fullback on the Cyclone eleven, was the next logical man to fill the breach left by Kling. Brown, who had one year's experience guarding his opponents' basket, was moved to running guard and Lamson held down the back guard post.

The work of Lester Lande at forward brought admiration from basketball fans in practically every game. Lande worked hard from the first whistle until the last. His scoring ability was remarkable both via the long mid-floor and tip-in methods. The end of the season found Lande fifth from the top in the list of Valley scorers.

CAPT. MAX STAVER
Forward

Finished his third year as a regular and exhibited his old time strength in floor play.

"FREDDY" KLING
Guard

Known as one of the best ball handlers in the conference, was cut down in early season by injuries.

LESTER LANDE
Forward

Was the high scorer of the Cyclone quintet and highly regarded in the Valley.

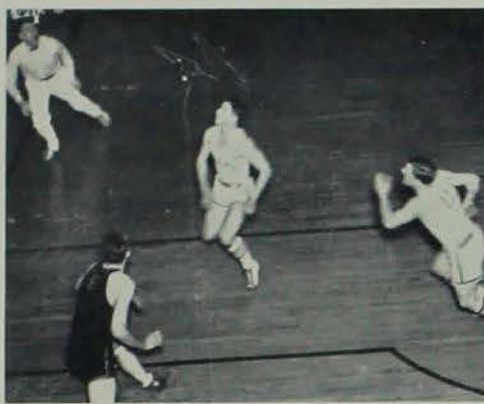

"BOB" LAMSON
Guard

Stepped into Kling's shoes and played admirably, although he is not Kling's equal in floor play.

STANLEY BROWN
Guard

The "Fightingest" back guard in a long time closed his ISC career. He played one year at Coe.

A CLOSE ONE FOR DRAKE

"BILL" HIETZEL
Manager

Captain Staver, even though he did not play the brilliant game of basketball that fans expected, sometimes lacking a basket and passing eye, proved himself a menace to opposing guards.

Taylor, last year's letterman, through his ability of good consistent guarding and floor work, got into all but two Valley games. Taylor worked interchangeably with Brown at running guard position.

Treadwell at center, Wilson and Ludwig at forward, and Klingaman at guard broke into the lineup for short periods when Coach Chandler attempted new floor combinations.

Even though Iowa State's basketball season was not an impressive one from the standpoint of game-won, yet the Cyclones furnished rare entertainment for basketball fans who were on their feet more than once when victory hung in the balance.

"MOCO" TREADWELL
Center

Used his six feet and 200 pounds to good advantage when called upon. He graduates.

"DON" WILSON
Forward

A sophomore broke into several games and is fast, with a good eye at the basket.

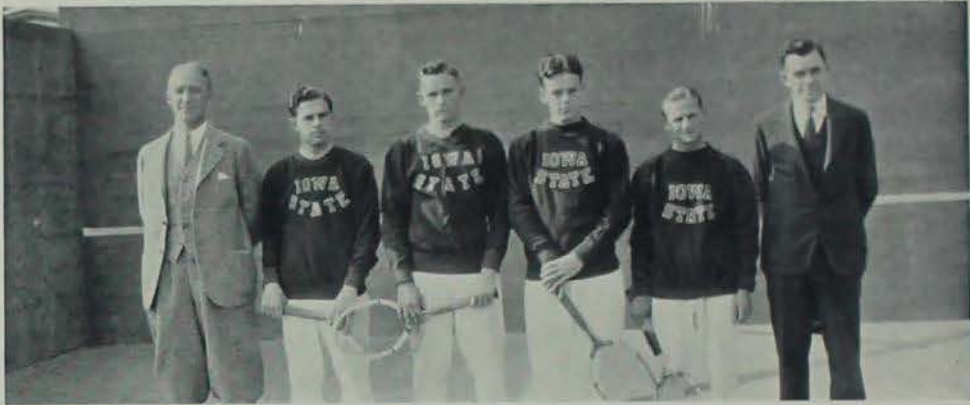

FRED LUDWIG
Forward

Used mostly as a utility man, played and starred in the Cyclones' closing victory over Drake.

JACK MOORE
Assistant Manager

VARSVITY TENNIS SQUAD

Left to right: Captain Campbell, B. Shoemaker, J. Leermakers, W. Evans, L. Shader, F. Fenton.

Varsity Tennis

Unfavorable weather conditions hampered the Iowa State squad throughout the tennis season, preventing the players from getting in good shape. Bad weather also limited the schedule to four intercollegiate meets, three of which were with Missouri Valley Schools.

The results were disastrous for Iowa State, inasmuch as they failed to win any meets, but the crop of younger players coming up revives hope for a winning team soon.

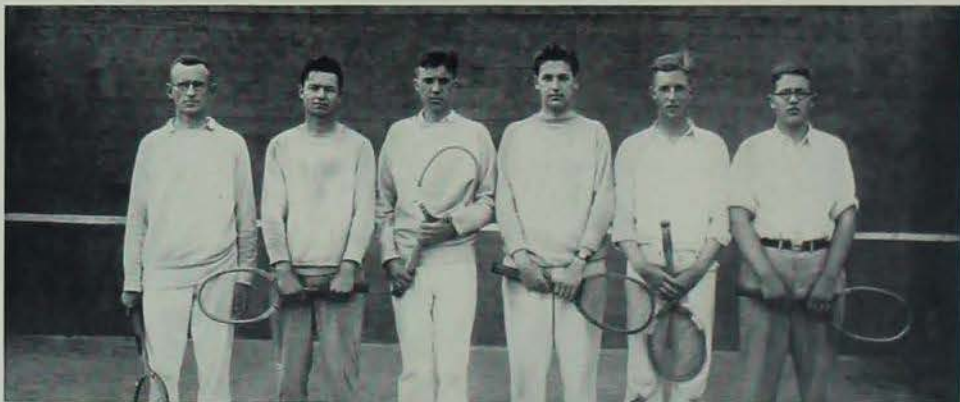

Fred C. Fenton was head coach of the team, with Henry Gilman and Runsey Campbell as assistants. The members of the squad that were awarded minor letters were: W. K. Evans, L. R. Shader, H. J. Leermakers and F. B. Shoemaker.

Some of the best prospective tennis material Iowa State ever possessed came up with the freshman squad last year. The most outstanding one of the group was Merle Robins of Ames, who is state junior singles champion. With him in the varsity lineup next spring, Iowa State will be found very much in prominence at tennis meets.

The following members of the freshman squad received numeral awards for their work: Merle Robins, A. J. Graves, Allen Clark, Fred Welsh, and Manly Rice.

The results of the varsity meets:

April 30—Des Moines University, at Ames	6-0
May 2—Nebraska, at Lincoln	6-0
May 10—Grinnell, at Grinnell	6-0
May 14—Drake, at Ames	6-0

A BIRD'S EYE VIEW OF THE DIAMOND

Varsity Baseball

As regards the won and lost column, the baseball season was more or less disastrous, yet several shining prospects were uncovered among the men who were playing for the Cardinal and Gold for the first year. The team for the most part was made up of sophomores, with only enough upper classmen to represent the college.

The sudden death of Howard McCracken, Captain-Elect, left Coach Chandler with only six veterans. Ed Hill, shortstop, who was elected captain, Bud Coe, first base, Gerald Johnson, outfield and catcher, and Paul Dale, pitcher, were the major letter men back and Gould Ayres and George Dorr, pitchers, were minor letter men to return. Thorngren, a member of the squad the year before, was available, but had received no letter.

An exceptional group of sophomores stepped up from Al Wheeler's freshman squad and furnished a major portion of the team. Finch and Schroeder were outstanding pitchers and Kruse, catcher, and Dougherty, catcher and outfielder, were the other battery men. Hoegh and Orrie Roe were outfielders, and Rudi, Sanford, Hill, and Gethman were infield candidates. Hill was later moved to the outfield where he played brilliantly, and Gethman also played the garden occasionally in order to keep his hitting strength in the line-up.

COACH "BILL" CHANDLER

CAPTAIN "ED" HILL
Shortstop

After playing all over the infield, finally found himself and led the team in hitting.

OUT AT THIRD

"BUD" COE
First Base

A clever defensive man with aggressiveness bubbling out all over.

The Season's Summary

The season's schedule consisted of a total of seventeen games, eight of which were played on the Cyclone field. The record shows only three games recorded on the won side of the percentage table, all of which were registered late in the season after the sophomore members had gained valuable experience. Paul Dale, pitcher captain-elect, was the only hurler to turn in a victory, being credited with all three wins. Lefty Dorr pitched good ball at times, only to lose out in the later innings, as did Finch.

"PETE" THORNGREN
Second Base

Another fine defensive player with a poor throwing arm his only glaring weakness.

"DUKE" AARES
Pitcher

Continued his reputation in football by winning a regular pitching berth.

CARL RUDI
Third Base

A steady player with a bullet-peg, and a consistent hitter.

GERALD JOHNSON
Catcher and Outfield
Was an especially heady receiver and a good hitter.

THE CATCHER

PAUL DALE
Pitcher
Not much "stuff" but he has control and a head full of "Pitching sense."

The Season's Summary

Upper Iowa were the first opponents, appearing on the home field April 16 and April 20, when they administered two crushing defeats to the Cyclones, 6-12 and 6-21. Practically all of the pitchers worked in these games, none of whom were markedly effective. Adverse weather made both days miserable as far as baseball was concerned.

"RED" HILL
Outfield
Ed's younger brother was runner up for hitting honors and a fast fielder.

GEORGE GETTMAN
First Base, Outfield
The Nick Altrock of the Cyclones and a hard hitter.

"HAL" FINCH
Pitcher
A sophomore who started many games and shows promise, but often hits a snag late in the game.

"HAP" HOOGH
Center Field

A great ground coverer and an ideal lead-off man. A real sophomore "find."

ORRIE ROE
Right Field

Stores hitting power in his bat and is a sure catch in the field.

"LEFTY" SCHROEDER
Pitcher

Probably has the best curve ball of the staff but needs experience.

The Cyclones next made a trip into Missouri, meeting the Tigers and Washington in four games. Missouri won both their games by 8-1 and 10-3 scores. Washington was also victorious in both ends of their double header, 8-2 and 16-2. Although the Cyclones were soundly trounced, an improvement could be noted after the State Teachers bumped them off for an 18-6 victory at Ames, the team traveled to Manhattan, where they showed to much better advantage.

Weather prevented playing the two games as scheduled but they were held over an extra day and both games were played on May 7. The Aggies won the first game, 5-4 after a most courageous fight. The second game saw the Kansans pile up a 10-4 score for the second victory and the ninth straight defeat for the Cyclones.

The University of Missouri was the next opposition, coming to Ames for a two-game return trip, both contests going to the Tigers for a clean sweep of the four games. The scores were 4 to 1 and 5 to 0. Although State lost, the team was playing much better baseball than they had at the start of the year, and promised to develop into a smooth working machine.

The Cyclones

"NORM" KRUSE
Catcher

A fast man with a good arm and a long distance thrower.

GEORGE DORR
Pitcher

A reliable southpaw that lost games by one or two runs.

FRED BOECKEL
Manager

The first victory of the season was recorded against Central College, of Pella, Iowa, after suffering eleven straight defeats. This game was an extra inning affair which the Cyclones won by a 7-6 score. The team then journeyed to Fayette where they met Upper Iowa and suffered defeat by 1-0. Dorr was on the mound for the Cyclones in this game and pitched his best game of the year, but the team could not hit behind him and was forced to lose.

Kansas Aggies journeyed to Ames for a double attraction on May 30 and 31, dividing two games with the Cyclones. The Wildcats were victorious in the first game, but the second game was a victory of State, 1-0. Dale was in superb form and had the visitors well in hand after the early innings.

The final games of the year were played with Coe at Cedar Rapids June 4, both games taking place the same afternoon. Dale was invincible in the initial and scored his second shutout, 4-0, but Coe triumphed in the final, 4-2.

The team experienced a disastrous season, but with 11 letter men available for next year, they should be a smart team. Paul Dale, pitcher, was elected captain for 1928.

CAPTAIN "RAY" CONGER

Raymond Conger, holder of six letters and two captaincies, receiving three letters in cross country, three in track and a captaincy in each, ended a most brilliant collegiate track career. In his three years' of competition for Iowa State, Conger won twenty-six places in major track meets, has run as anchor man on twenty-one winning relay teams, establishing two new world's records, a new intercollegiate record and eight meet and local track records. Conger at the end of his collegiate competition held titles to the Missouri Valley cross country run, the Missouri Valley indoor and outdoor one-mile run, the Missouri Valley indoor half-mile run, the National A. A. U. one mile run and the National Collegiate A. A. one-mile run.

Conger's best records are as follows:
 Half-mile run _____ 1 min. 53.3 sec.
 One-mile run _____ 4 min. 17.6 sec.
 Five-mile cross country run _____ 25 min. 52.0 sec.

Drake Relays

Iowa State's ability in the distance events was the outstanding feature of the Drake relays when the Simpson coached team placed first in the medley relay one day and first in the two mile relay the next day.

The Cyclone team was never in danger during the medley relay. Caulum stepped ahead of the field early in his lead off and handed the baton to Witmer 20 yards ahead of his nearest opponent. Caulum's time was 1:57.8. Much credit is due Caulum for his fine showing which placed Iowa State in the lead by a good margin. Witmer ran one of the best 440's of his career, which gave Thornburg a good lead for his

quarter. Thornburg, one of Iowa State's best middle distance men, was still in the lead when he passed the baton to Captain Conger. Conger was never pushed and ran his mile in 4:28.

On the following day, Hoak, Thornburg, Caulum, and Conger won first in the two mile relay. Hoak and Thornburg ran splendid half miles. Caulum took the baton and started off at a very fast pace and gave the baton to Conger after running the half mile in 1:56.5. Conger stepped his half in 1:55.5, bettering Caulum's speed by exactly one second.

C. THOMPSON
Mile and two mile

R. BONNELL
Mile and two mile relay

Iowa State—Grinnell Track Meet

Iowa State tracksters romped off with Grinnell in their annual clash for track honors by a 74½ to 56½ score. Even though Grinnell was considered a strong opponent, the visitors proved an easy mark for Coach Simpson's team. Grinnell scored first and second in both hurdle races and garnered the majority of the points in the weight events. The Cyclones scored grandslams in the broad jump, mile run and 440 yard dash. Davis of Grinnell was high point man of the meet with 14 markers to his credit, while Witmer for the Cyclones followed closely with 12 points.

In connection with the track meet, Conger, Cyclone

middle-distance star, featured in a special half-mile race with Alva Martin, former Northwestern star. This was Conger's last race before an Iowa State crowd, and true to form, he defeated his opponent by several yards in the fast time of 1 minute 59 seconds. Conger's characteristic sprint at the finish nosed out Martin after the latter held the lead to the last turn.

Shortly after running the half mile against Martin, the Cyclone Ace competed against Grinnell in this event and emerged with an easy second place to his team-mate Caulum.

Drake—Grinnell—Iowa State Triangular Meet

INDOOR MEET

Starting out by scoring a slam in the broad jump and taking the first two places in the shot put, the Iowa State Track Team piled up a top heavy 81 points to Grinnell's 25, and 23 for Drake in the first team competition of the indoor season. Although the Cyclones were conceded as favorites to win, no such score was expected to develop, and the sophomore strength of the team was highly prominent in the victory. Maurice Soultz, entering his first meet under Cardinal and Gold colors, was individual high scorer, taking first in the

pole vault, first in the low hurdles and second in the high sticks.

Nichols and Stillman, both sophomores, and Hamilton, a veteran, finished one, two, three in the broad jump, while Coomer, Lutjens and Briggs finished first, second and fourth in the shot put. The strength of the Iowa State team was most pronounced in the track events, however. Smith, Thompson and Hoak coasted in to victory in the mile, McFarland, Thompson and Behrens in the half-mile and Gericke, Hoak and Smith in the two-mile run.

The Cyclone's first dual meet of the season, with Grinnell, was a decisive victory for Iowa State, in spite of the fact that Captain Hoak and Thompson did not run, the former's bad knee preventing him from participating. In the following dual meet the Cyclones defeated the Kansas Aggies by a narrow margin and followed this by taking second place in the triangular meet with Oklahoma U. and Missouri. Oklahoma U. took first in the fast time of 27:07 for the five and one-quarter miles. The meet with Drake was an easy victory for the home team, nearly the entire squad crossing the tape ahead of the first Bulldog harrier.

Iowa State tied for fourth place in the Missouri Valley meet at Manhattan, Kansas. The Cyclone harriers were seriously handicapped by the fact that Captain Hoak's knee had not improved in time to enable him to train properly for the meet.

The prospects for a winning team next year are very promising. The freshmen had a crack squad this year, the outstanding men being Murphy and Butler. Although their scoring did not count both of these men entered in several meets and gained some valuable experience for next year.

COACH "BOB" SIMPSON

Outstanding Track Achievements

Two world relay records, an all-American mile championship, a national A. A. U. mile championship, a national collegiate mile title, and a Missouri Valley conference mile and half-mile championship constitute the track record of the 1926-27 Iowa State cinder artists. It is doubtful if any other Cyclone track combination has received the national recognition that was received during the past year.

Distance and middle-distance events proved the winning numbers for the track team put out by Coach Bob Simpson this year. While not well balanced, the Cyclones had the services of Captain Raymond "Skin" Conger, the greatest middle-distance man in America, as well as Lindus Caulum, a fast moving junior.

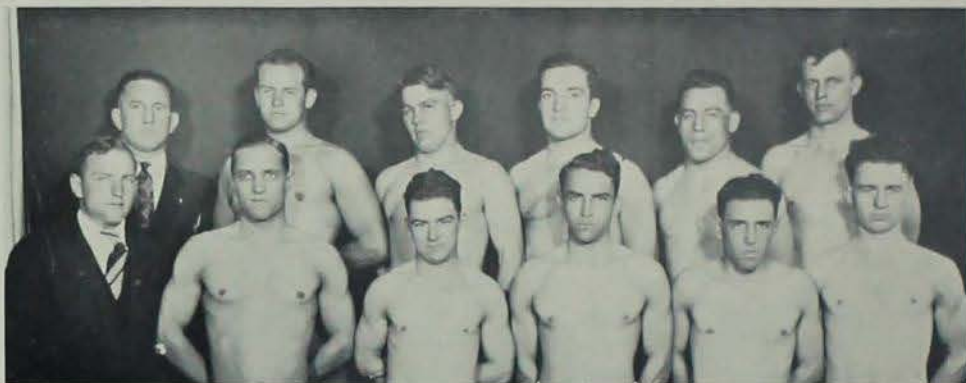

Iowa State's world record performances were put on in the medley relay events, one at the Texas relays and the other at the Drake relays. Besides shining in the medley foursome Iowa State was a monotonous winner in the 2-mile relay race. During the season the Cyclones came through for victories in 12 relay races. The medley combination of Witmer, Thornburg, Caulum and Conger, and the 2-mile team of Thornburg, Hoak, Caulum and Conger is the pick of Iowa State baton passers.

In addition to the record breaking relay performances the Cyclones returned to their own in the Missouri Valley cross country grind, winning the 5-mile meet handily. Conger established a new Valley record for the distance, stepping it in 25:52.

Much of Iowa State's success is due to the tutelage of Coach Bob Simpson, one of the greatest coaches in the game and himself a world champion hurdler.

D. GERLING	A. RUGGLES
K. GOODALE	

CAPTAIN CLAIRE GROOMS

University of Wisconsin provided the attraction for the first wrestling meet of the season. The final score favored the Cyclones, "Big Ten" team on the local mat during the season. The final score favored the Cyclones 18-3, the visitor's only points being accumulated in the heavyweight class. McCormick in the 115 class, gained a decision over Callahan, Holding of Ames took the 125 pound class from Holt, Gerling easily gained a decision in the 135 pound class over Smith. Captain Skinny Grooms upheld the teams reputation by taking the 145 pound class from Captain Meyers, Blair with only a week of practice won the 158 pound class from Tiffney while the feature event of the evening showed Ruggles, 160 pounds take the 175 pound class from Hayward. The only defeat came in the heavyweight bout when Fortney wrestled Goodale for a close decision.

Missouri's Tigers gave the dope bucket one sound wallop when they nosed out a 12-11 victory from the Cyclones. With only a day's rest between two conference games, and due to the fact that several regulars would have had to cut weight twice in one week to make their class, Coach Otopalik used several second string men with disappointing results.

FRESHMAN WRESTLING SQUAD

D. BLAIR	H. LANGFORD

Higgins had no trouble winning the opening bout with a 4:17 time advantage over Walters, while Captain Grooms took the only other decision of the evening by winning a decision from Miller in the 158 pound class. The additional five points of the score were due to the forfeit of the heavyweight bout by Missouri.

The Oklahoma Sooners were the next team to suffer defeat from the hands of the Cyclones with a score of 12-9. With only a day's rest after the Missouri meet and a defeat, Coach Otopalik sent his full strength against the Sooners, and it was a go-getting bunch of Cyclones that crawled through the ropes that night. Holding, Grooms, Blair and Higgins furnished the 12 points for the victory. Linn and Miller provided the feature bout of the evening, with the Sooner winning the decision in 3:07. The boy showed fight and was bearing the Oklahoman to the mat with a half-nelson at the whistle. It was an excellent exhibition of fight.

COACH HUGO OTOPALIK

Varsity Wrestling

Kansas University was trounced to the tune of 20-3 at Lawrence when the Cyclones won every match except the heavyweight—all matches ending in decisions except the 115 pounds when Higgins threw Cohenour, in 6:32. Captain Grooms furnished the surprising feature of the meet, when he was forced to battle overtime to win a decision over Cox.

Oklahoma Aggies, National A. A. U. champions, offered the most bitter meet im-

aginable when they defeated the Cyclones with a 12-11 victory which required the heavyweight class to settle it. Higgins and Gerling both succumbed to the Oilers with time decisions, while Grooms was defeated at the hands of Berryman. Blair won over Northrip by a fall, Ruggles gained a decision over Miller and Holding brought the score to an 11-lead by gaining a decision over Hesser. McCready, giant Canadian, defeated Goodale and clinched the meet for the Oilers.

CLARK GROOMS
Captain
145 pounds, won the Midwest A. A. U. title and was runner-up to Holding as high scorer of the team.

JIMMIE BLAIR
158 pounds, won his second letter and finished second in his weight in the Missouri Valley meet.

ARTHUR HOLDING
125 pounds, continues in the undefeated class, and promises to be Iowa State's greatest wrestler.

RALPH GOODALE
Heavyweight, a sophomore, closed the season with a pair of falls and second in the Valley.

Varsity Wrestling

Kansas State offered little competition to the Cyclones with the score running 19-6. Higgins, Holding, Captain Grooms all won decisions while Goodale pinned Long in 4:19, and Blair threw McKibben in 8:12. Lynn and Gerling lost only after gruelling bouts. Two falls featured the meet with the Cardinal and Gold claiming both.

Both Eastern trips proved most successful when the Cyclones defeated Indiana 16½-4½, and Penn State 19-8. The feature match with Indiana came when Blair defeated Captain Swain of the Hoosiers with a time of

2:33. Penn State suffered a severe loss when Holding pinned Captain Liggett in 7:10. Although the easterners realized the reputation of Holding they had hardly expected to see their favorite thrown.

The final home dual saw Nebraska overpowered with a 17½-4½ victory. Captain Grooms and Holding both obtained falls, the first in the Iowa State Gym this winter. A time decision over Gerling from Captain Luff and a draw between Harry Lindblom and Kohnke gave the Cornhuskers their only score.

DON GERLING

135 pound class, returned to the mat after a bad leg injury put him out last year, and won his second letter.

HAROLD HIGGINS

115 pounds, wrestled his final year for Iowa State and climaxed his career by winning the Midwest A. A. U. title.

ART RUGGLES

175 pounds, although weighing only about 160. Ruggles, wrestling as a sophomore, won his letter. He is at his best against strong opponents.

LETTER AWARDS

	<i>Major A</i>		<i>Minor A</i>
W. WICKS	I. BUTLER	M. J. SMITH	N. CHICKEN
G. WILLIAMS	A. POHL	K. BURTNER	R. DELAHOKE
	M. BURGESS		

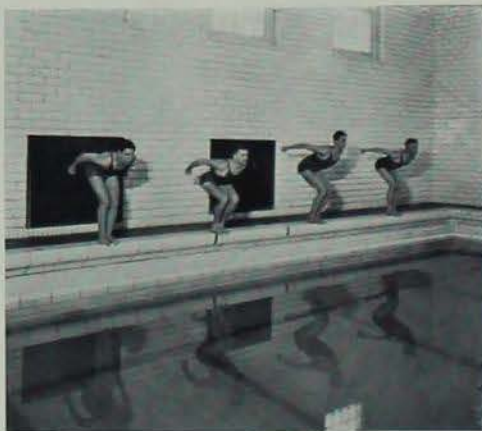

When Coach Jake Daubert gave the initial call for swimmers, two major lettermen Captain Wicks and I. D. Butler and three minor lettermen, G. Williams, J. Wright and A. Pohl answered his summons. During the season, Daubert uncovered more good material and closed the season by taking second place to the strong Washington team in the

Missouri Valley meet held at Des Moines. The Iowa State paddlers participated in six meets including Missouri Valley. In the first swim of the year the Cyclone natators met Drake at Des Moines. Although the Bulldogs were victorious, they forfeited to the Cyclones because one of the Drake swimmers was ineligible.

Jake's paddlers next encountered the powerful Washington team whose swimmers held five Missouri Valley records. The Bears won a decisive 55-14 victory and established four new Missouri Valley records for a sixty foot pool. Pohl in the dives and Butler in the 440 yard free style were the only Cyclones to garner a second place.

COACH DAUBERT

WALTER WICKS
Captain
 Breast and Back
 stroke, completed a
 successful career as
 a distance swimmer.

FRESHMAN SWIMMING SQUAD

STANDING: Sulzbach, Preiskorn, Bishop, H. Reynolds, Schwermann, Cristy, Pegan, Beers, Junter.

H. REYNOLDS

D. MASON
F. LISCOMB

R. MILLER
J. SHEPARD

L. REYNOLDS
C. CHRISTY

Following the Washington-Iowa State disaster, Daubert's men took revenge on Grinnell and Drake, annexing a 47-22 victory from Grinnell and 38-31 victory from Drake. Captain Wicks, Butler and Williams were the heavy point winners for Iowa State.

Then the "flu" hit the Cyclone swimmer's camp and left Daubert's team crippled for the well groomed Lincoln Club artists. The

Lincoln Aquatic Club, composed of University of Nebraska swimmers, took the Cyclones into camp with a 42-27 victory.

Still partially crippled by sickness Jake put the finishing touches on his team for the last and most strenuous meet of the year—the Missouri Valley Carnival held at Roosevelt High, Des Moines.

HOW THE TEAMS FINISHED

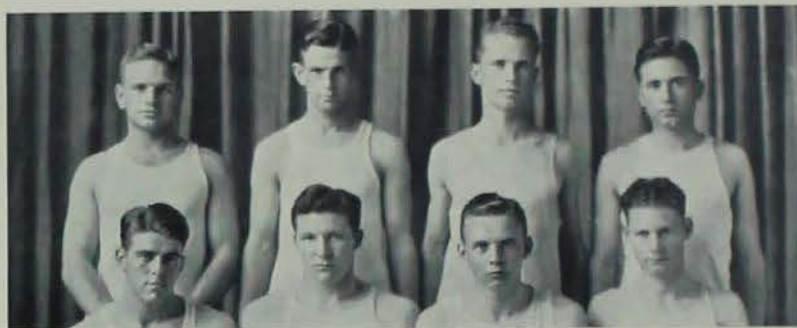

Washington	62
Iowa State	24
Kansas	13
Drake	12
Grinnell	4

ARCHIE POHL
Diver, ranked well in the Valley and also in the Midwest. A. A. U. meet staged at Iowa City.

I. D. BUTLER
Free style, was the bright star of the team and took second in his specialty at the Valley meet which was made in record time. Captain-elect.

WRESTLING
Alpha Tau Omega and Alpha Kappa Delta

Intramural Athletics

Intramural athletics, under the supervision of Harry J. Schmidt, has taken an enormous stride in securing "Athletics for all" at Iowa State.

A very extensive athletic program consisting of fourteen events has been scheduled on the Intramural calendar during the past year. Approximately 3,600 participants took advantage of the various contests offered while 2,900 men took part in Intramural athletics the year preceding.

New events are being added to the athletic program every year. The introduction of volley ball has found considerable favor among the organized Houses on the campus. Speedball is another sport which Coach Schmidt plans to introduce this fall.

FOUL SHOOTING
Kappa Sigma

VOLLEY BALL
Alpha Kappa Delta

BASKETBALL—AUSONIA

In connection with the expansion of Intramural Athletics a new managerial system has been inaugurated for the first time this year at Iowa State. The plan includes a group of senior, junior and sophomore managers who assist Director Schmidt in carrying out the Intramural Program as efficiently as possible.

INDOOR TRACK—SIGMA SIGMA

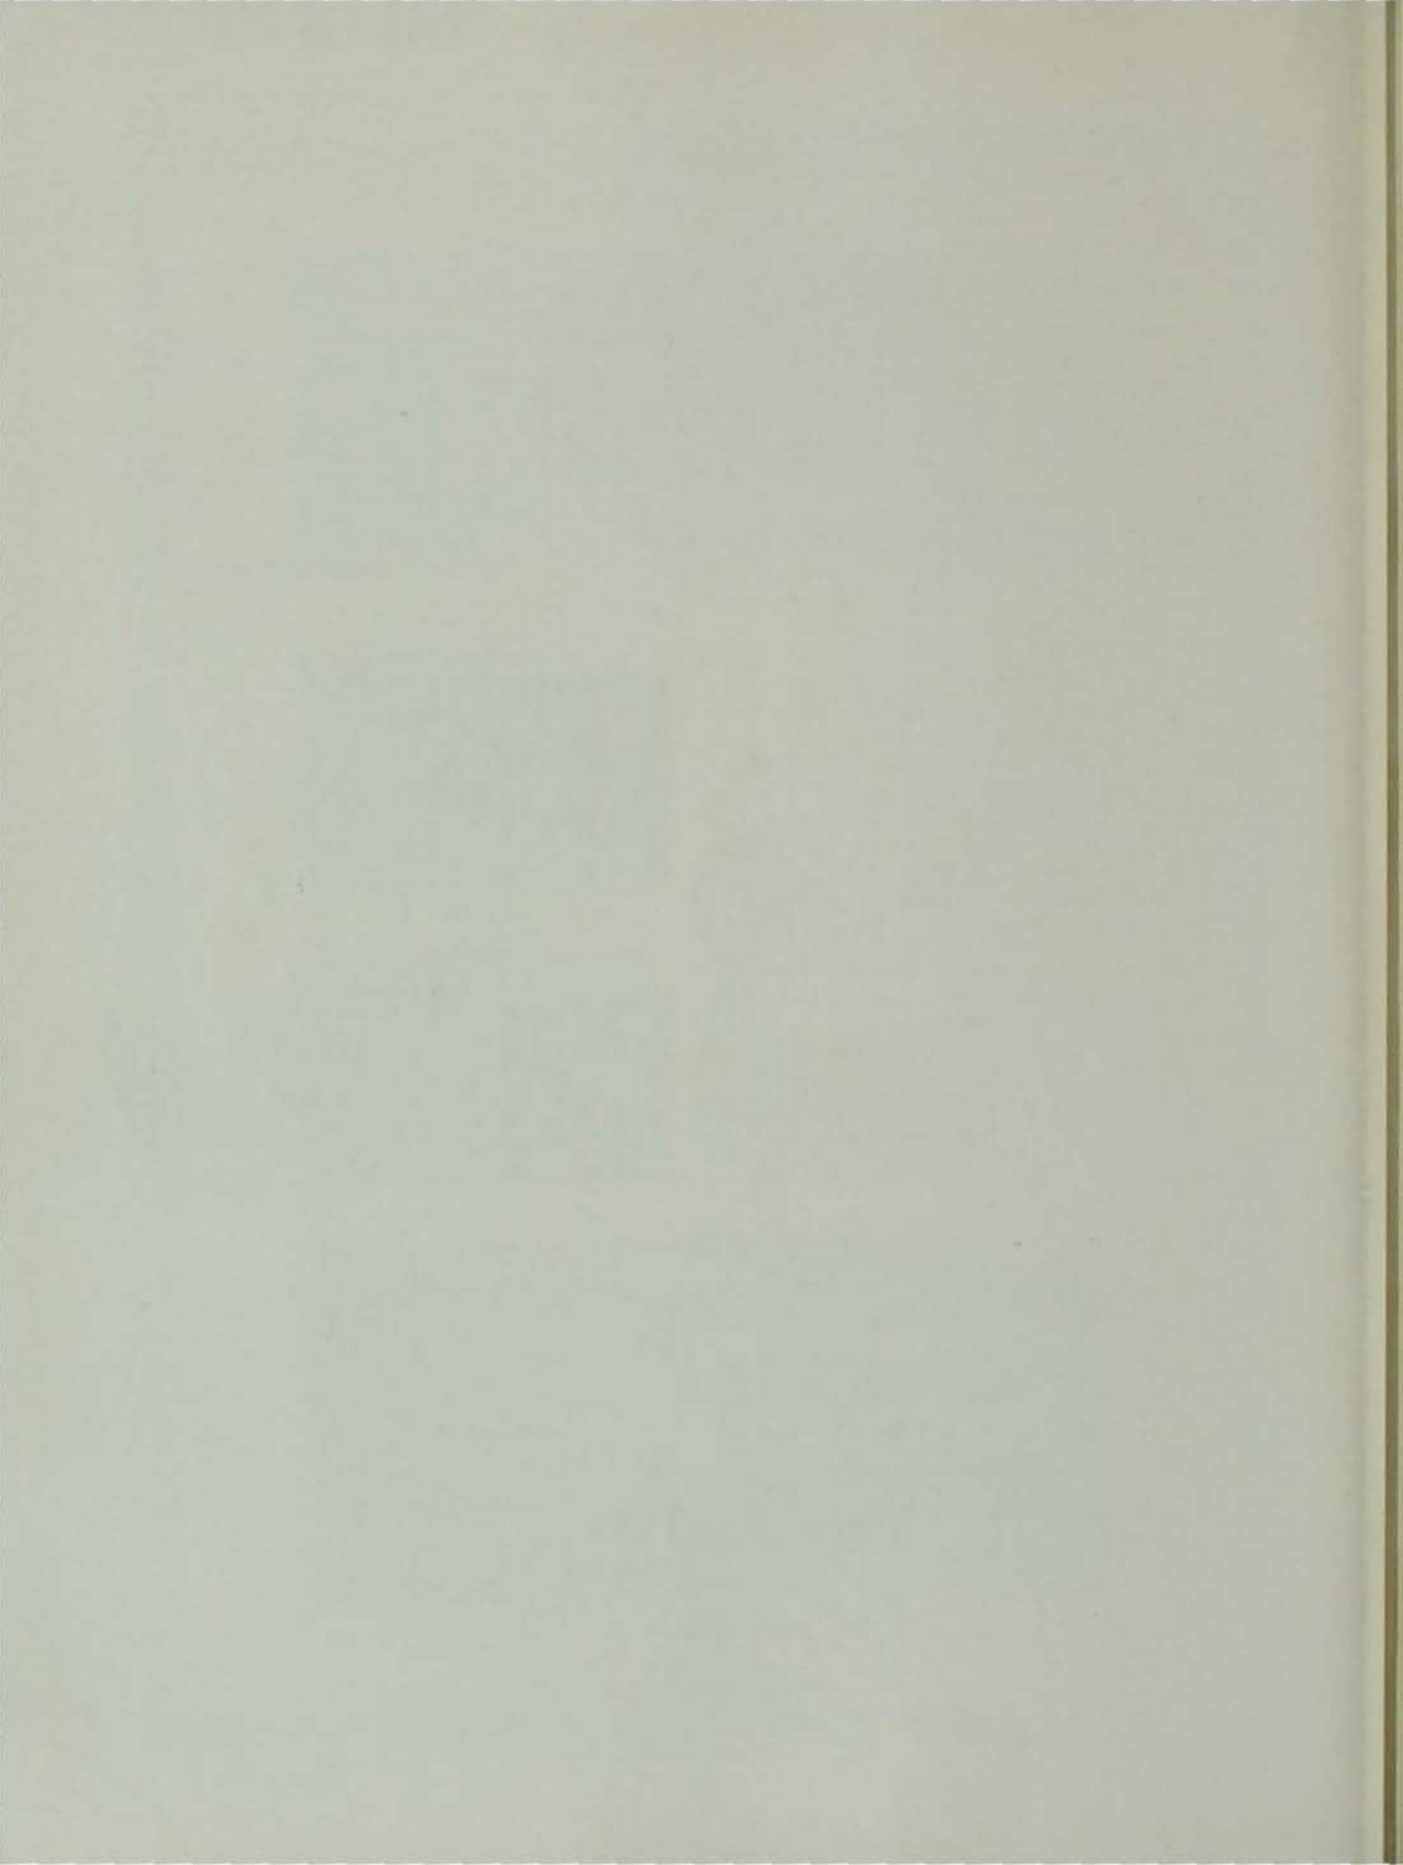

The Annual Intramural Carnival, held at State Gym, climaxed winter Intramurals when approximately forty trophies were presented to the various organized Houses which had won first places during the fall and winter quarters. In connection with the presentation of trophies Carnival relays and a bowery dance featured the remainder of the program.

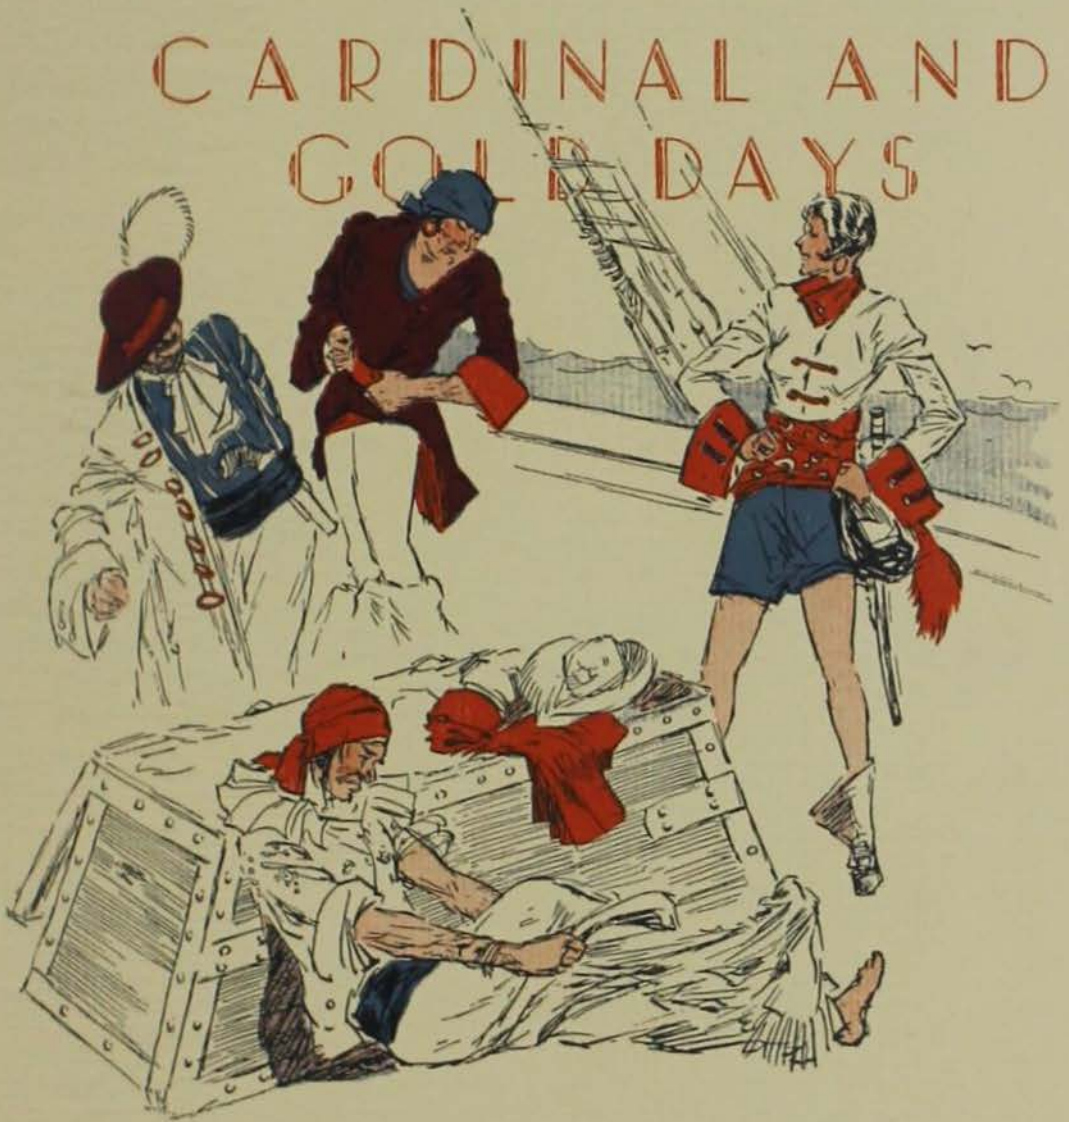

SWIMMING—DELTA Upsilon

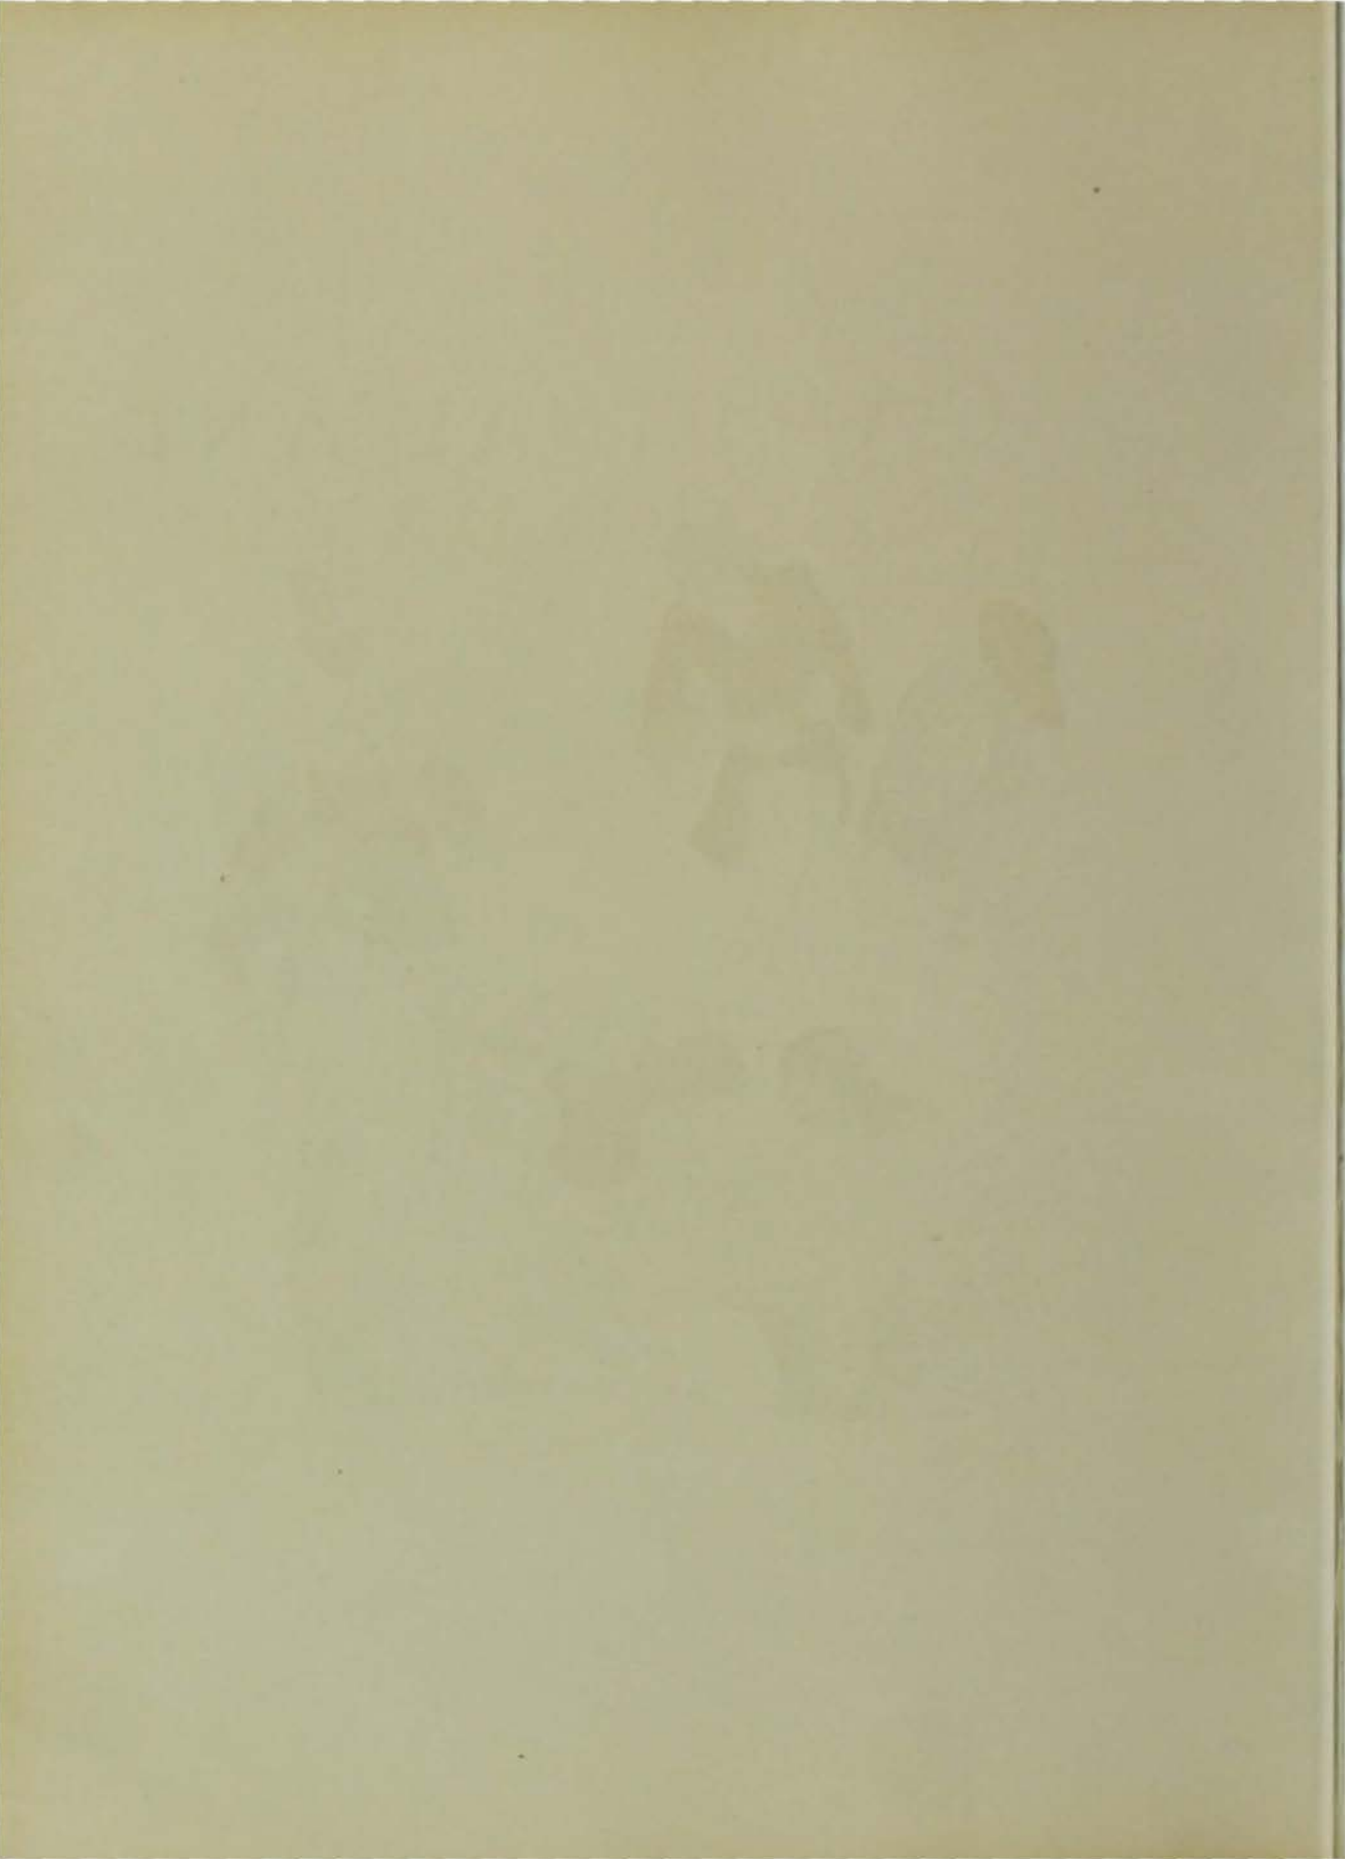

KITTEN BALL—AUSONIA

CARDINAL AND GOLD DAYS

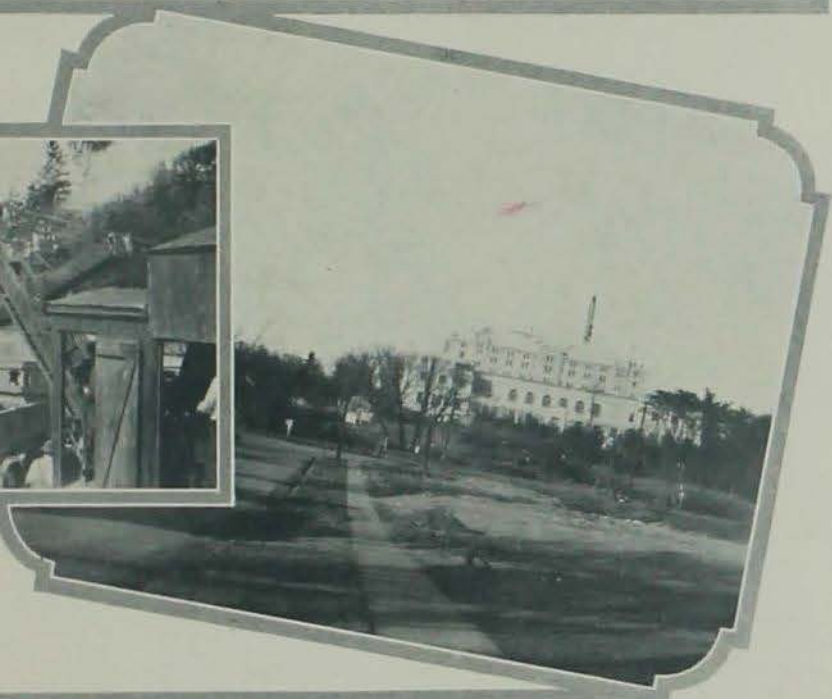

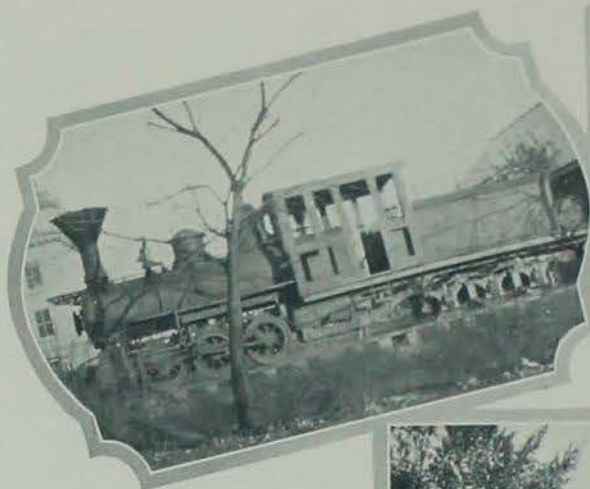

A Panorama from the top of Memorial Union—the first of its kind.

Only a few months from the first shovelful for the great monument until it stands nearly completed—a mighty tribute to those who gave willingly of their lives.

And as we stroll along the path near the Campanile, Central building towers above all other Halls. Soon we confront the portly entrance to the Home Economics building.

To the northeast we see the Veterinary Quadrangle, covered with leafy vines. Far to the South, the inspiring chimes of the Campanile ring. Then we come to the Locomotive, a relic of early invention.

Winter lends a fantastic wand to Campus creek—Central building looms above snow-covered trees, while Alumni Hall stands serenely on a glistening white terrace, and again the traditional Christmas tree in front of Central cheers lonely hearts—and the Campanile tolls incessantly the hours as they flit by.

Night finds the Junior Trot a riot of color and festivity, yet the early hours of the big event discovers sleepy Juniors waiting in line for the coveted tickets. Harriet King was elected Engineer's Lady, Herb Engleking, Saint Patrick. The Pi Phi's throw a Pretzel and Beer party.

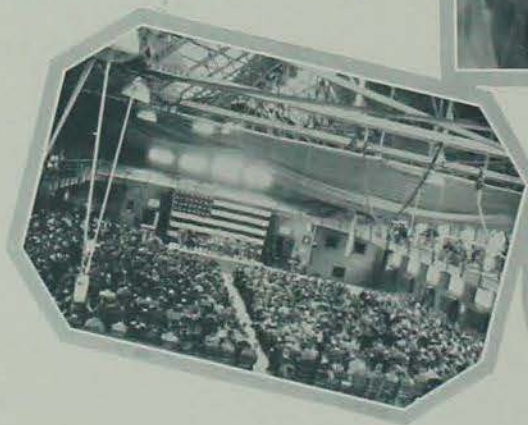

Then the May Queen came forth, followed by hundreds of girls in gay-colored costumes—each group doing its special dance. The Hobby Horse quintet performs gracefully, as do others, and the program ends with the May Pole dance. The May Queen, Jean McCall, is caught in the act.

The nationally known Beef Judging Team boasts of its trophies won in the past year. The Little International is here. It pays to advertise as is shown by the well filled Armory that greeted the awarding of a silver trophy to Mable Sackett for her excellent horsemanship. The exulting Freshmen down the Sophomores in the annual push ball contest.

Homecoming found the campus in an uproar and highly decorated—Pi Beta Phi took first prize for sororities and Beta Theta Pi won the fraternity cup. The Figi float easily won a first in the parade, although the mule got the credit for helping beat Kansas State.

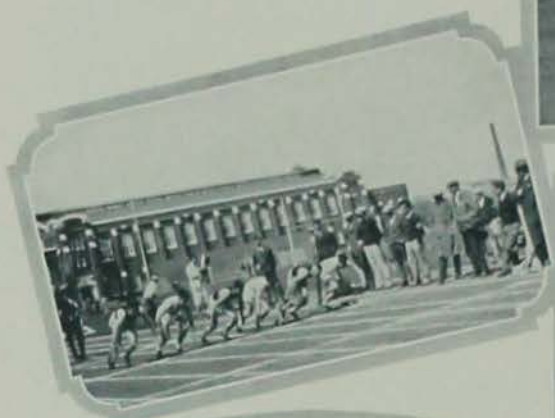

An expectant hush grips the May Fete crowd as the Cardinal Keymen walk through the stands tapping the deserving ones. Phi Mu Alpha neophytes exhibit their musical prowess to the passing classes. Alpha Zeta produces real "Ags" on probation while Red Barron ascends the Delta Sigma Rho box to plead for World Peace. Company—Halt—Scabbard and Blade boasts a new army for Uncle Sam.

While various probations transform student leaders into entertainers of unusual costume. The Mortar Board serenaders on their wakening tour are a great contrast to the Tau Beta Pi pledges toting monstrous books to their classes. T. L. B. aspirants appear in their high hats and on long stilts, and those of Sigma Upsilon, in their black garb, move like ghosts of mourning.

They're off—and another record is broken as Conger, anchor man for Iowa State, takes the baton on the home stretch. Promising athletes are these pledges of Women's "A" fraternity. Charlotte Dean draws a wicked bow for high point winner of the spring tourney. Drake Relays draw many spectators from the Iowa State campus.

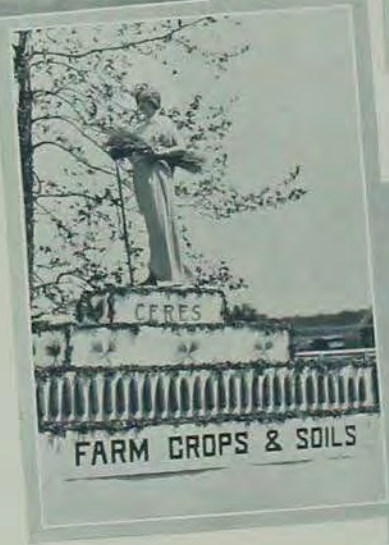

Lake LaVerne, the center of Iowa State's winter sports, is the scene of many a fall—even for the beautiful. One spill causes another—but Czecho Slavakians use their skates and not their heads to get around such mishaps. Betty Barker as she watches a scrub hockey team at their game.

And, just before the school year ended came Veishea, bringing hundreds of visitors to the campus. Freshmen rejoiced as they threw their red caps into the big bonfire, and the band led the long parade of artistic floats. The Farm Crops and Soils and Applied Arts floats placed high among the winners. At night the engineers showed their ability in a fireworks exhibit.

As the parade passed, other floats met lasting approval; the enormous hammer of Industrial Arts, the Dairy sweepstakes prize winner, and the Girls' Physical Education floats mixed with the Amazon and Ag. feature floats completed the attractive array.

Loyalty to the school was shown at every athletic event. Often a large crowd gathered about the postoffice to cheer the football heroes. Walt Weiss led the team to one victory after another; and each time the Freshmen fought for a chance to ring the bell.

Holidays are happy days — Cool woods invite book weary students along shady paths. Even the trees are full of them. The Business Manager smiles for the ladies. What Ho — The Sunshine Club gathers for its spring survey of the fair co-eds. Nature Study Class.

After four years of toiling, comes the big event—GRADUATION. With a solemn tread the faculty leave the halls of Central, flowing gowns displaying the variegated colors of degrees. The Home Economics girls file slowly down the path as though they are reluctant to receive the sheepskin of dismissal. Flowers deck the stage, and a crowded hall awaits the exercises.

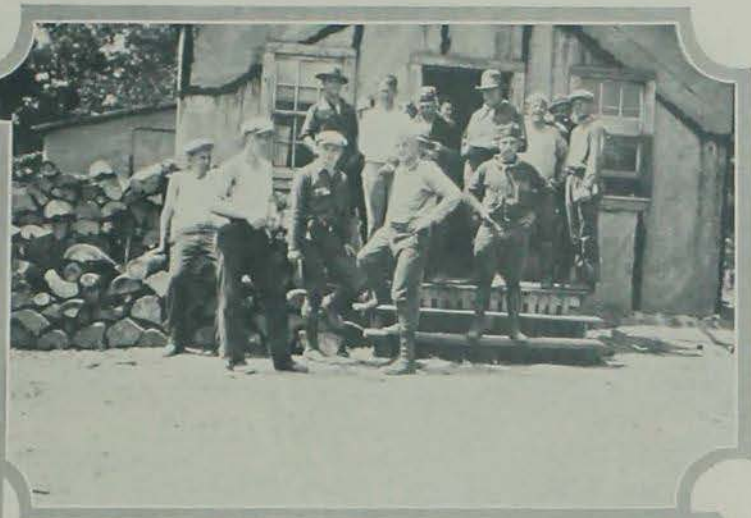

Another May fete chorus adds color to the occasion. Helen Goeppinger as a prince for May Day might have stepped from a pageant of long ago. Mechanical Arts float of the Veishea Parade draws attention with its continued activity. From Central's Dome there may be seen a much-traveled path leading east to Agricultural Hall.

Campus loafers—Moco and Bud Williams beg for a picture. Midnight, and the parlors of fraternity house are filled with revelers. The Illinois football game was well attended by the Phi Psi's. They look happy. Lindy Caulum is caught posing, and the Editor, by mistake.

There are Camps and Camps. Summer time finds students in interesting situations. Pleasure combined with work. Forestry, Engineering and Military camps all take their share.

Tear 'em up Cyclones—The be-whiskered boys at the left are the original Cyclone Team, rough looking customers who swept the valley before them in the year of '95, undefeated; 1907 sees a marked change in costume yet the same spirit is there; it is seen again as the team of '28 kicks far down the field to victory. The pool is dotted with Jake's swimmers. Quiet and calm the Gym rests after its heavy winter schedule.

More action—"A" fraternity neophites entertain the Homecoming football crowd between halves with an interpretation of a girl's hockey game. Anxious fans crowd the grid-graph for results of the out-of-town games. There he goes, Miller has the ball.

"Hee" Vodvil—the midwinter revel, displayed a bevy of beautiful girls in dazzling costumes. Vida Secor was appointed General Manager, and with a corps of efficient workers produced one of the most attractive programs ever given here.

A many-chorused dinner furnished the theme of the first act, and from pheasant cocktail to after-dinner mints the audience guests were served. Lovely decorated dinner plates formed the scenery for the menu. The second act was a thing of beauty, a melody in Blue with the Blue River and the Blue Waltz choruses delighting the guests. A Doll's Chorus was presented, while Lindy's Saint Louis Blues Chorus and The Twinettes brought down the packed house.

May Queen

Dorothy Johnson, Home Economics senior, was elected Queen o' the May by an all-women's vote of the college. As is the tradition the secret of the choice for this coveted honor was withheld until the opening day of Veisheh, at which time the May Fete was presented. It was here that the Queen in all her glory was presented to the eager crowds. The May Fete was written by Josephine Foster and Margaret Jean Verran.

The Bomb . . . A Treasure Chest of Memories

In years past when pirates roamed the seas pursuing relentlessly their weaker prey, they looted and ravaged the vessels for gold and other treasure that they might hide it secretly under cover of night in iron-bound chests sunk deep beneath the rocks. Death was the sentence for those greedy ones who dared to spy, while fear and terror filled the hearts of those who ventured forth upon the seas. It was the spirit of conquest that fired these bold scavengers to scour the seas for treasure, the spirit of adventure that led them on their quest for gold. They dared and they conquered. But for what a

purpose? Their treasure chests held their heart's desire, and, when in furtive secrecy they might again revisit the treasure of their many conquests, hope and ambition were rekindled in their waning spirits, and life again appeared splashed with the colors of adventure, conquests—romance.

Now, we see the youth of today afire with courage and eager for adventure. After four short years of cruising with his Alma Mater on a well-chartered course, Cardinal and Gold flying triumphantly, he has come at last to the open sea.

Left to right: Smith, Stanton, Thorngren, Williamson, Lundgren, Alexander.

Memories . . . of Cardinal and Gold

There are memories of the past, but the future is so alluring that for the moment nothing matters but that uncharted course ahead. There are new truths to discover, new worlds to conquer. Science with her untouched ports beckons. The courageous one follows, knowing full well the failure that lurks in those inviting depths and the shoals that fill the treacherous waters. Sirens of pleasure and indolence lure, but he does not fail. He cannot fail! He goes on to conquer. He loots the holds of the universe for new facts, contributions to the education of a people. He plunders the world for knowledge, but, before his journey is half accomplished, there are times when his spirit weakens. There comes a time when he is fast losing his hold on youth and adventure. Then

there appears to him a vision of a treasure chest hidden deep beneath the debris of years. He seeks again and he finds in this chest old forgotten friends, scenes, familiar incidents that refresh and refill him with the spirit of his youth, that glorious youth of his college days. Turning the pages of his treasure, he finds again that quickening of the heart, the surging spirit of rejuvenation; and life again appears splashed with the radiant colors of adventure, conquests—romance.

The BOMB is yours . . . a chest filled with a treasure far more precious than gold or silver. . . . a treasure of memories brimming full of adventure, of conquests. It holds within its pages the elusive spirit of college life, of your Alma Mater . . . of CARDINAL and GOLD.

ELGIN A. JOHNSON	Manager of Features

Veishea, an all college celebration sponsored by the five divisions of the college, is held during the spring quarter of each school year. The term Veishea is made up of a union of the initial letters of the divisions, Veterinary, Engineering, Industrial Science, Home Economics, and Agriculture. The purpose of this celebration is two-fold, namely, to create and promote the spirit of unity among the divisions, and to place the college on exhibition.

TOP ROW, left to right: Bundy, Nannen, Butler, Jones, Lindgren, Miquelon.

The Agricultural Council is made up of two representatives from each of the departmental clubs in the Agricultural Division. The Council sponsors the Ag Reception, the Ag Banquet, the Ag Ball, the Ag Club, and many other activities.

The officers of the Ag Club are the same as those of the Agricultural Council. The object of this club is to promote among the agricultural students and faculty a close bond of fellowship by holding meetings from time to time to discuss topics pertaining to agriculture and to promote and support functions of an agricultural nature, such as judging teams, corn shows, exhibits, and receptions. The Ag Club motto is "Unity, Cooperation and Fellowship."

TOP ROW, left to right: Wheeler, Stanton, Jones, Hill, Streepy, Engelking, E. R. McKee.
 SECOND ROW, left to right: McGlade, Law, Curvin, Vesev, Bird, Louthan.
 THIRD ROW, left to right: Kenagy, Loomis, Jennings, Ohlsen, Sholtes, McLain, Leichte.

The activities and functions of the Engineering Council are many and varied. The Council acts as a student governing body in the Engineering Division, through the representatives of the departmental societies of the respective departments.

Chief of the activities of the Council are the staging of the Engineers Camp-fire, the Engineers Minstrel Show and the Engineers Ball. It is also the sponsor for the Knights of St. Patrick, an organization of Senior Engineers who have been active in the Division and Departmental Societies. The Council also takes active part in the activities of the Engineering Division during Veishea.

PROFESSOR TOLBERT MACRAE

The Iowa State Men's Glee Club, under the direction of Professor Tolbert MacRae, has for many years been considered one of the best singing organizations in the middle west. This club rehearses three times each week using the best musical literature available for men's voices. The club is a member of the Missouri Valley Intercollegiate Glee Club Association.

The tour which was taken by the club this season included the following cities: Mason City, Osage, Cresco, Owatona, Minn., Minneapolis, Minn., Winnebago, Minn., Spencer, and Ft. Dodge.

The members of this club are chosen each year from many singers who try out for it.

TOP ROW: Housel, Oakes, Sammis, Tunncliff, Keil, Feuling.

The thirty members of the Girls' Glee Club won their places this year through keen competition in the try-outs. The Club is under the direction of Miss Rosalind Cook with Mrs. Donald Bliss, accompanist.

The various activities of the club for this year included numerous appearances at campus functions, the annual Christmas Carols, the out-of-town trips to Ft. Dodge, Webster City and Lehigh, and the special operetta, "The Last Tea of Tsuki," by Eliss Blum.

A quartet, a double quartet, a trio and soloists were chosen from the club to appear in feature numbers in the musical programs.

The Carillons which is a training club of twenty members is under the supervision of Miss Verna Rader, with Mrs. Kay Conger, pianist.

Iowa State Training Band

OSCAR HATCH HAWLEY, *Bandmaster*

The Iowa State College Band under the direction of Professor Oscar Hatch Hawley, is an indispensable asset to Iowa State; for no college function is properly started without its stirring tones. It puts inspiration, enthusiasm, zeal and action into the hearts of the student body.

The annual program of the band consists of concerts given in December, in February, in March, at the Farmers Short Course, five out-door entertainments in the spring and the baccalaureate number on the Knoll.

Great interest is shown this year in the training band. It has 48 members and has two practices each week.

Musical Features

The annual spring tour of the men's glee club was one of the most successful tours ever made by a club from the college. The trip covered the northern part of Iowa and southern part of Minnesota. Stops were made at the following places: Cresco, Mason City (two days), Spencer, Emmetsburg, Winnebago, Minnesota, Owatona, Minn., Green, and Clarion.

Thirty-two men made the trip under the management of William Berkey and with Professor Tolbert MacRae as director. The boys had many wonderful experiences which will be long remembered, such as programs in vaudeville, the party after the concert at Winnebago, and the concert which they gave the children at the Home for Friendless Children at Owatona. The group especially enjoyed the dinner at the home of Ralph Bishel at Sheffield and the visit to the home of Malcolm Sproul's grandparents at Greene.

One member of the party, Segnor Dionisio Aquino, was the life of the tour. This fine violinist never failed to please, and incidentally, he picked up many American expressions which he will be able to use to good advantage in the future.

The A-M-E-S quartet, composed of Ralph Bishel, Ralph Weber, Byron Wagner, and Roy Grout, were at their best and never missed getting many encores.

The men making the trip were as follows:

Glee Club: Ralph Bishel, Earl Peterson, Wayne Wagner, Floyd Thomas, Francis Murray, Ralph Weber, Harlow Mills, Norman Hopp, Donald Ball, John Ames, Bruce Packard, Byron Wagner, Paul

Davidson, Herbert Engelking, John Hoyt, Wm. Berkey, Joseph Simons, Wesley Suit, Roy Grout, Ruben Lutter, and Eldon Jones, accompanist.

Orchestra: Donald Stacey, Wendell Van Slyke, Loren Schindel, Dionisio Aquino, Clarence Whisler, Alvin Nelson, Wallace Rynerson, George Mann, Malcolm Sproul, John Hoyt and Ruben Lutter of the Glee Club also were members of the Orchestra.

The Men's A-M-E-S quartet which is one of the oldest musical organizations on the campus is always a delight to its audiences. It is under the direction of Professor Tolbert MacRae with John Hoyt as accompanist.

The quartet sings at college functions, at special engagements on the campus and elsewhere. It also broadcasts over WOI and WHO.

The personnel of the quartet is as follows: Ralph Bishel, first tenor; Ralph Weber, second tenor; Byron Wagner, baritone; Roy Grout, bass.

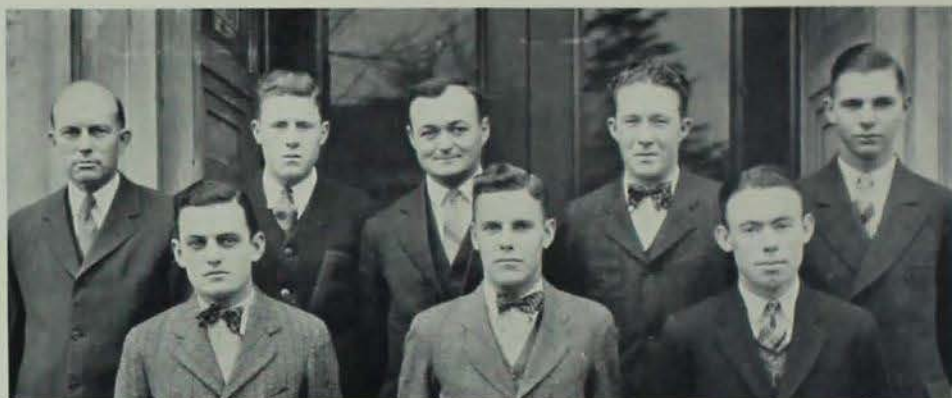

The Girls' A-M-E-S quartet which is chosen from the members of the Girls' Glee Club rehearses three times a week under the direction of Miss Rosalind Cook. It appears in connection with the Girls' Glee Club programs, at banquets and at various college functions. The girls in the quartet are entitled to wear the letter sweaters.

The personnel of the quartet is as follows: Helen Barret, first soprano; Jeanette Kuehl, second soprano; Louise Moen, first alto; Blanche Cooley, second alto.

Judging Teams

BACK ROW, left to right: P. S. Shearer, C. Thompson, C. Turner, L. Thompson, T. Besh.
FRONT ROW, left to right: R. Monohan, W. Lacock, W. Darbyshire.

Livestock Judging Team

The Livestock Judging Team placed first in competition with twenty-one teams from other Agricultural Colleges, having a lead of 44 points over Ohio, their nearest competitor. The team ranked second on horses and beef cattle and third on sheep and hogs, a remarkably uniform showing on all classes. Forty correct placings

out of a possible sixty established a new record.

Ted Besh of the Iowa team was high man out of 110 contestants. Turner was third and Darbyshire tenth. Turner was also high man in judging sheep and Darbyshire high in judging horses.

Left to Right: D. Breazeale, R. R. Wood, F. Fabricius, B. J. Smith.

Dairy Products Judging Team

The Dairy Products Judging Team, consisting of Delbert Breazeale, Russell R. Wood, F. Fabricius, and B. J. Smith (alternate), competed in the Eleventh Student's National Contest held at the National Dairy Exposition, Memphis, Tenn., October 17th.

With fourteen teams competing, the Iowa State Team was the winner in all products (Silver Cup Trophy) and in Butter (Silver Cup Trophy) and was third in cheese and ice cream, and fourth in milk.

In all products Breazeale was third (Bronze medal), Wood fourth and Fabricius tenth among the forty-two contestants. Wood ranked first in cheese judging (Gold medal).

Left to Right: H. W. Mathews, G. G. Briggs, M. D. Helser, F. B. Willrett, D. W. Johnson.

International and American Royal Meat Judging Team

The Iowa State College Meat Judging Team won the Intercollegiate meat judging contest held at the International at Chicago in which twelve Universities and Colleges competed. The Iowa State team made 2,397 points out of a possible 2,700. They placed 20 out of 27 classes correctly.

Mathews, of the Iowa State team ranked second, just two points below the high man. Briggs was sixth. The team ranked first on mutton, second on pork, and fourth on beef, a remarkably uniform showing on all classes of meat.

The Iowa State team ranked third in the meat judging contest at the American Royal.

TOP ROW, left to right: W. Kohlmeier, R. E. Samuelson, H. A. Bittenbender.
FRONT ROW: R. Babb, Don Brazie, C. W. Knox.

Poultry Judging Team

The 1927 Poultry Judging Team was entered in the Eighth Annual Intercollegiate Contest at Chicago, December 3rd. The team placed fifth in a field of ten teams representing schools in the middle west.

Don Brazie placed 6th in individual judging.

Left to Right: O. Miner, Prof. Dorebester, P. R. Henson, W. F. Buchholtz, R. E. Ellis.

Farm Crops Judging Team

The Collegiate Farm Crops Judging Contest has been held annually since 1923 at the International Livestock and Grain Show at Chicago. Iowa State has a record of four seconds and one third during this period. The contest is in three divisions, comparative placing, commercial grading and identification. The Iowa

State team placed third in the 1927 contest, eleven teams competing. The team rank in the different divisions was first in identification, fifth in commercial grading and fifth in comparative placing. Otho Miner, Walter F. Buchholtz and Paul R. Henson took part in the contest. Ronald E. Ellis was the alternate.

Left to Right: Ray Monohan, Clarence Thompson, H. W. Mathews, Prof. Fordyce Ely, Coach, Ted Besh.

Dairy Cattle Judging Team

The 1927 Iowa State College Dairy Cattle Judging Team made a record in intercollegiate competition which has never been equaled by any other institution. The team representing Iowa State won first honors this year in the largest competition ever held. Thirty-one states and a province in Canada were represented in the team competition. Ted Besh was high individual of the competition, with Clarence H. Thompson third. The team was high in judging Ayrshires and Guern-

seys, and was second in Holsteins. Ted Besh was high man in judging Guernseys. The team also won first honors at the Waterloo Dairy Cattle Congress. Here Iowa State won four out of five breed trophies offered. Clarence Thompson was high individual in three breeds out of the five, while Ray Monohan and Ted Besh each were high in another breed. Clarence Thompson was high man of the contest, with Ted Besh second and Ray Monohan seventh.

Production Staff of the Dramatic Club

The past year with the Dramatic Club has been a successful one; first, in the productions themselves that have been so creditable, and second, in the varied program they have offered to the student body. It is often quite difficult to select and present the plays that will not only draw an appreciative audience but also help to develop in that audience an intelligent understanding of the drama. That was the attempt

this year and the selection included the following plays:

"The Romantic Young Lady," a light comedy; "Hell Bent Fer Heaven," a serious comedy with a religious theme that gave opportunity for intensely emotional characterization; "The Poor Nut," a college farce that was laughable and popular; and "The Bad Man," an old-fashioned western thriller.

“The Romantic Young Lady”

On the evenings of November 17th and 18th, 1927, the Dramatic Club presented “The Romantic Young Lady,” by A. Martinez Sierra. The story is woven around a very young Senorita whose too-sheltered life has led her to dream of romance and in particular romance as it appears in the novels of DeCordoba. Circumstances, a storm, a straw hat, an open window, darkness, a fall, tangled hair,

and both the young lady and a gentleman are caught in a love net which draws tighter as the play progresses. A second accidental meeting in the home of the Spanish grandmother precipitates the climax.

Although Spanish in its characters and setting, the play is American in its atmosphere and modern in its note.

BETTY BARKER

Senior Class Play

The senior class play, "The Importance of Being Ernest," was presented June 3, 11 and 13. The play, a romantic comedy by Oscar Wilde, was coached by Mrs. Helen K. Schilleter.

The theme of the comedy is the fondness of two young English girls for the name,

Ernest. This obsession for the name was so strong that it made any male who bore it irresistible to them. The frantic efforts of the lovers of these two young women to make it appear that they bore this magic cognomen provided many humorous situations and served to keep the audience in a state of merriment. The cast:

Ernest	Marion Walters
Algernon	Kenneth Mitchell
Lane	Francis Fuller
Wilkes	Ernest Hoopes
Reverend Chansable	Harry Pulver
Lady Bracknell	Jane Wagner
Cecily	Betty Draper
Gwendolyn	Margaret Adams
Miss Prism	Marion Peterson

“Hell Bent for Heaven”

“Those who saw the Dramatic Club present ‘Hell Bent for Heaven’ . . . saw acting by amateurs so far above the ordinary as to again bring up the question, ‘Who is responsible for such training?’ . . . Certainly the excellent acting would have been of little value without the detail of stage setting.”—*The Iowa State Student*.

“ . . . May I congratulate the department on having a coach who can draw people out of themselves . . . I never expect to see a better amateur characterization.”—*W. Norris Wentworth*.
 “A good play well acted. . . . The stage settings and other accompaniments were more than ordinarily realistic.”—*A. Starbuck*.

KENNETH BULLIS

KARL MICHEL

“Hell Bent for Heaven”

In “Hell-Bent Fer Heaven,” the Pulitzer prize play for 1924, Thatcher Hughes lifts the curtain on a drama in the mountains of North Carolina. The characters are the simple folk—rough, blunt, emotionally untutored mountaineers. Rufe Pryor, a religious fanatic, is the trouble breeder. “Too cowardly to fight, too indolent to work, too effeminate not to be forever hiding behind sympathetic petticoats,” he creates trouble in the home of the Hunts by raising the spectre of a recently laid feud between the Hunt and Lowry families. Sid Hunt has returned from the World War, not only with a hero’s badge and a few good yarns to swap with the neighbors, but with a very definite desire to renew his love affair with Jude Lowry. Rufe, too, is in love with Jude.

Blind with religious fervor and jealousy and aided by well chosen words and unusually strong liquor, Rufe succeeds in making Andy, Jude’s brother, quarrel with Sid. A tragedy is narrowly averted, but Rufe’s fanaticism has swept him beyond control; and calling on the Lord to help him he rushes out to blow up the dam near the Hunt home. His treachery is discovered in time and the Hunts escape, but Rufe perishes, trapped in the basement of the house where he has taken refuge. The climax of the play is reached when Rufe discovers that he is helplessly alone and turns on the Lord and blasphemes Him. Blasphemy is the Sin of Sins, and Rufe suddenly realizes what he has done. He falls grovelling on the floor, a self-condemned sinner, defeated and crushed.

Inter-Collegiate Debate

The pre-season illogical hopes and fears for the success of inter-collegiate debate at Iowa State bid fair to be modified by a rational optimism as the season advances. A rather mediocre start against Cambridge University of England was followed by a contest with the University of California, a tilt in which the Ames men displayed a fair argument but seemed unable to defend it against the destructive fire of the Californians. Prospects loom much brighter for the future. The untried Iowa State men have doubtless profited by experience and this, together with more adequate time for preparation, points favorably to a high type of debate in coming encounters.

The season formally opened at Ames when the Cambridge team, upholding the affirmative of the question: "Resolved, that the power of the press is increasing and should be diminished," launched a strong attack against modern journalism. Quite in accord with the English type of debating the Cambridge men made a very creditable showing in which wit and humor tempered the cold logic of argument. The Iowa State representatives avoided the brunt of the English attack by a substitute proposal to improve the press rather than to curtail its activities. This line of argument proved successful and a vote by the audience gave the decision to the negative. For Ames, Paul Goeser, a senior in Animal Husbandry, Craig Eagleson, a junior in the Industrial Science division, and Floyd Kurtz, a graduate student in Chemistry, composed the team.

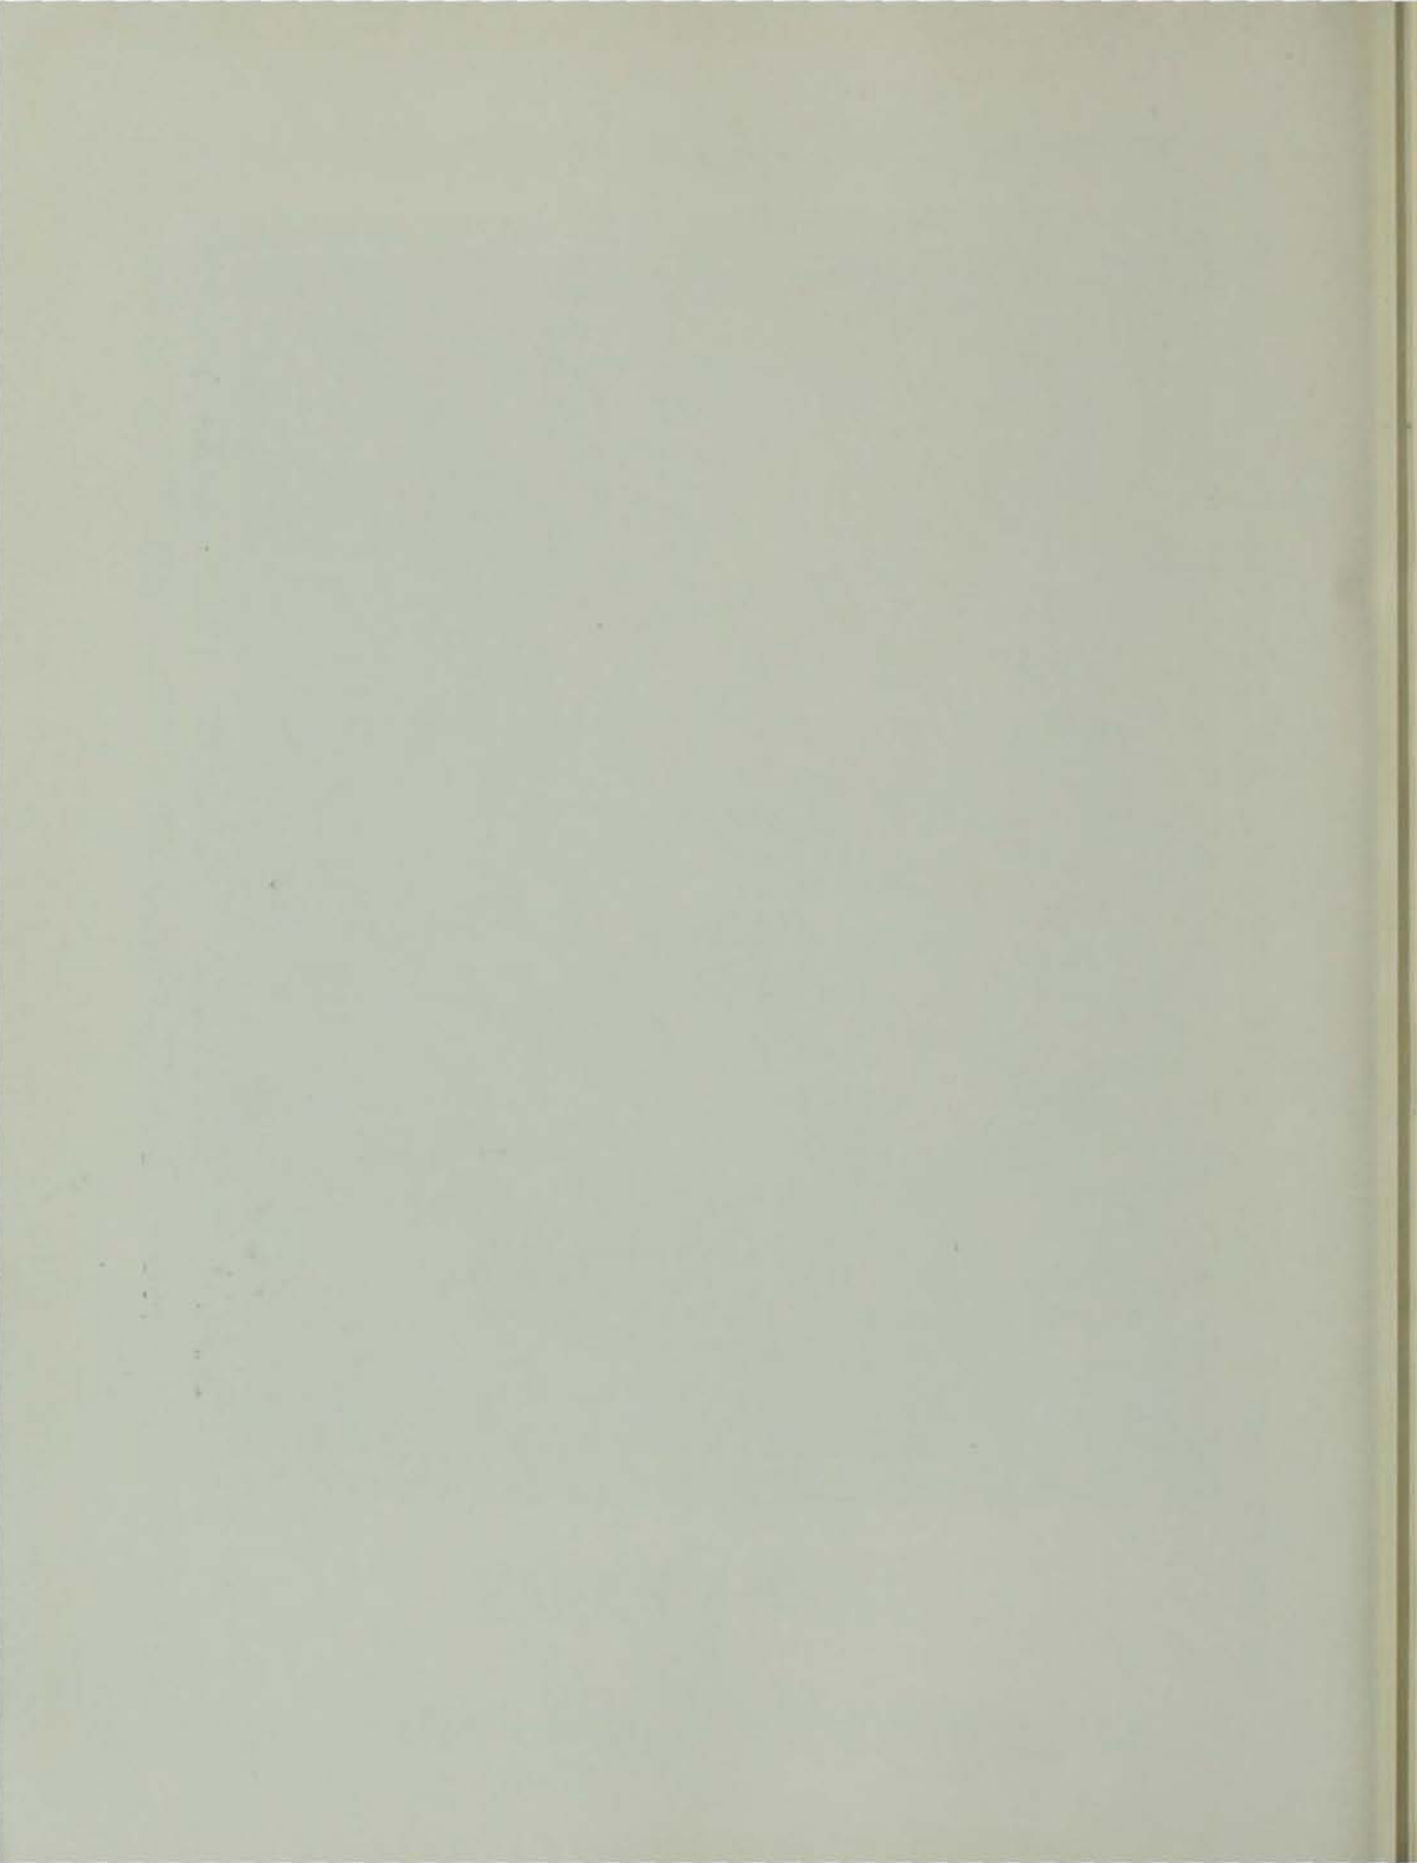

Left to right: Wallace, Advisor; Eagleson, Kurta, Early, Business Manager; Gosser.

Inter-Collegiate Debate

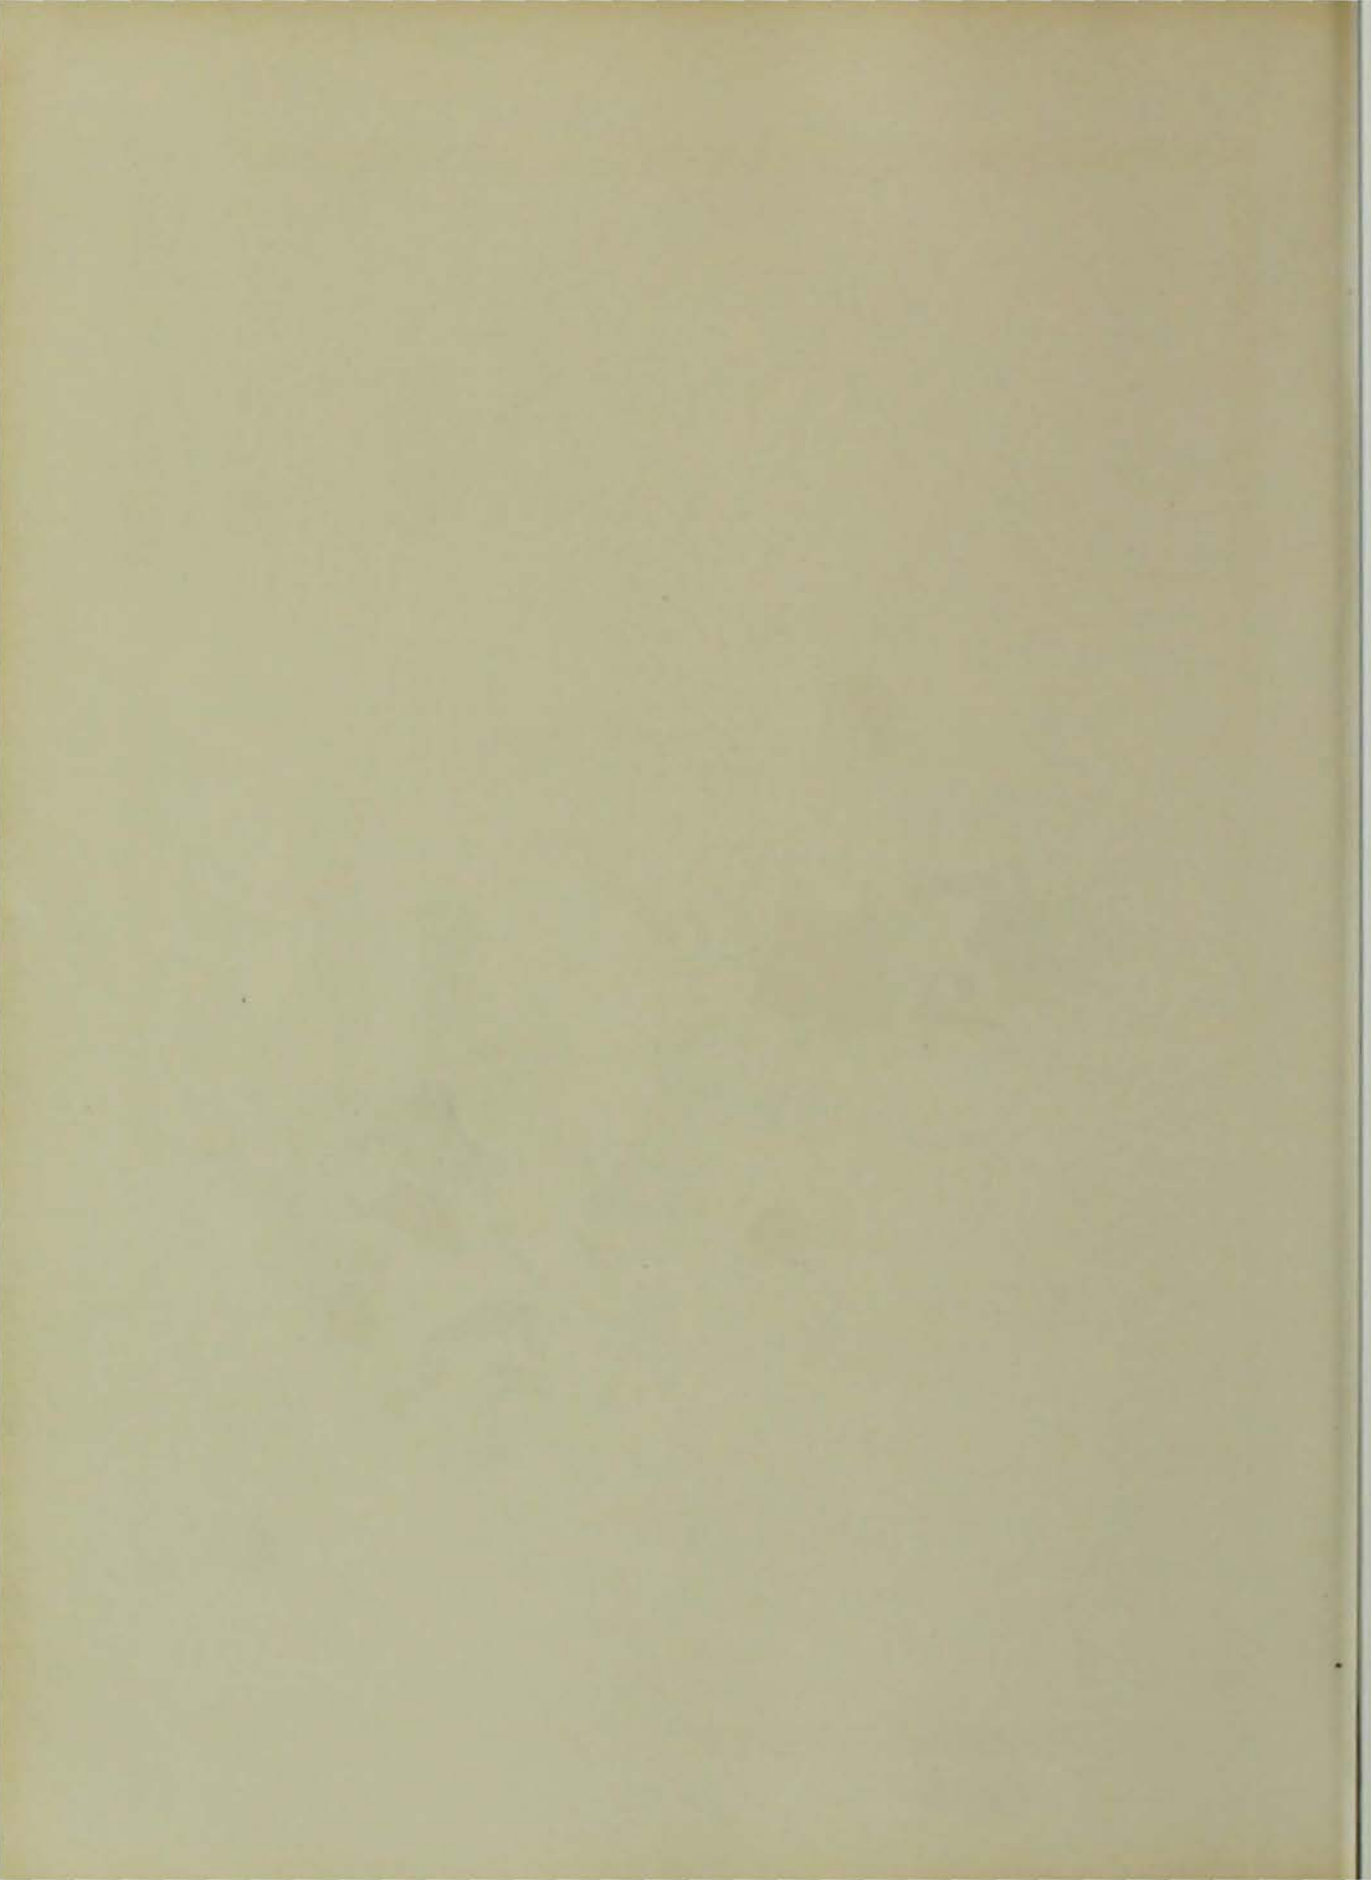

Charles Sawyer, a senior in Chemical Engineering, and Edwin Hill, a sophomore in Animal Husbandry, were the Ames representatives which met the University of California in a discussion of the merits and demerits of buying on the installment plan. Deviating from the expressed desire to avoid a too liberal use of authority, the Berkeley debaters freely employed statistics and statements from prominent economists to prove their proposition that installment buying is more of a blessing than a menace. The Iowa State men made a valiant, but only partly successful, effort to turn aside the evidence which the Californians skillfully presented. No decision was rendered.

The last of March and early April witnessed the height of forensic contests on the campus. Teams from the Universities of Nebraska, North Dakota, and Pittsburg all visited Ames and discussed the subject of military intervention in Nicaragua. In mid-April two encounters with Drake closed the season. Craig Eagleson, Edwin Hill, and William Kohlmeier, a senior in Animal Husbandry, composed the Iowa State teams.

IOWA STATE WOMEN

Women's Athletics

TOP ROW, left to right: Hill, Hinderman, Miller.
FRONT ROW, left to right: Schwarz, Tilden, Maybury, Shouldice.

Department of Physical Education for Women

The Department of Physical Education for Women offers an unusual technical training course, which is organized to serve all women of the college in their play and recreation.

It aims to provide opportunities for vigorous, joyous activities in forms that are suitable for individual needs and capacities under leadership and environmental conditions that are physically wholesome, mentally stimulating and socially sound.

Its objectives are: First, to provide opportunities for varied activities that will make for richer, happier, fuller and more successful living in college and through adult life in home and business. Second, to provide opportunities for the establishing of attitudes, ideas, ideals, and appreciations of concomitant living as honesty, loyalty, joy, pride, modesty, unselfishness and service.

MISS WINIFRED TILDEN

*"He lives best
who serves
most."*

TOP ROW, left to right: Her, Davidson, Newhard, Adams, King, Secor, Mighell, Dawson.
FRONT ROW, left to right: McCracken, Rogers, Kirchoff, Alexander, Tilden, Niemoller, Hove.

Women's Athletic Association

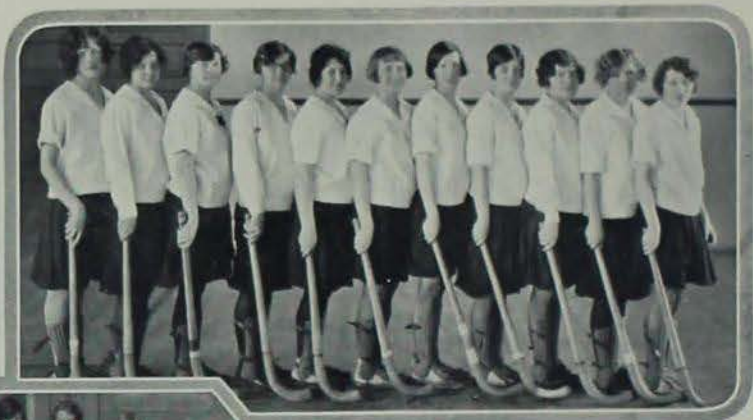

The Women's Athletic Association has as its purpose the promoting and encouraging of a high type of Women's Athletics, and at the same time promoting health and fun among the girls in their recreational hours. Through the aid of the Physical Education Department W. A. A. offers a complete sport program including all intramural sports. W. A. A. is affiliated with the National Amateur Athletic Federation, the Athletic Conference of American College Women, and the American Field Hockey Association.

The Women's Athletic Council is the governing body of W. A. A. It is comprised of four officers, ten sport heads, and a publicity manager who edits the Guide, the annual publication of W. A. A. This body passes on all business matters before they are presented to W. A. A. Members of the Physical Educational faculty act in advisory capacity to the council.

Iowa's first "Play Day" was held by W. A. A. this spring when the Athletic Association of Drake University and Grinnell College came to Ames for the day.

VIRGINIA ALEXANDER

Hockey

Hockey was chosen by the majority of girls as their fall sport.

In the round robin inter-class tournament the Junior Class won first place, the Senior Class was second, and the Freshman third.

The honorary varsity and second varsity were selected after the interclass games.

Archery

Archery in the spring is conducted on the individual point basis. In the tournament held at the end of the quarter, Charlotte Dean won first place; Helen Newhard, second; Harriet King, third.

First place in the class tournament went to the Juniors. The Sophomores were second and the Seniors third.

Tennis

Tennis in the spring is conducted on the individual point basis. In the finals Dorothy Bone defeated Evelyn Olson.

Fall tennis consists of singles and a double tournament between the various class teams.

The Freshman won the singles tournament; the Juniors were second; and the Sophomores third. The Freshman also won the double tournament; the Sophomore class was second, and the Junior class third.

Basketball

Over 125 girls took W. A. A. basketball for their winter sport. The Freshman class led the other classes in the number of girls participating. Intramural basketball also interested many girls. Because of limited playing space, practices were scheduled both after school and after dinner.

The round robin inter-class tournament was held late in the quarter with four evenly matched teams competing for honors. In the tourney, the Freshman, Juniors and Seniors tied for first place. Each team won two games and lost one. The Sophomore class lost every game.

From the four competing class teams the honorary varsity was picked.

MISS SHOULDRICE

Swimming

The W. A. A. swimming meet held late in the winter quarter was won by the Sophomore class team with 59 points. The Junior-Senior team placed second with 29 points with the Freshman taking third place.

To girls who have passed their life saving test and have made an excellent rating in swimming meets there is an additional honor in the form of Naiad. Last fall, this organization presented the water pageant "Sea Sand."

MISS MAYBURY

Baseball

Baseball is offered in the spring, with Miss Tilden as coach. It attracted the usual number of girls. The season started with about seventy-five girls out for the sport and finished with four class squads varying in number. From the squads four evenly matched teams were picked.

With the modified outdoor baseball rules and a nine-inch medium hard ball, the tournament games were fast and interesting.

In the tournament the Sophomores held their record by placing first.

MISS TILDEN

Volley Ball

W. A. A. Volleyball winter quarter is held in the field house. Following the intramural tournament a round robin inter-class tournament was held.

The Freshmen won first place in the tournament by defeating all other teams. The Sophomore class won second, and the Juniors third. Points were awarded to the classes in the order of places; five to the Freshmen, three to the Sophomores, and one to the Juniors.

Girls on the varsity volleyball team, chosen from the four class teams are: Winifred Keil, Phyllis Penley, Frances Rodgers, Marian Grey, Esther Brewer, Mary Murphy, and Irma Whannel.

Horseshoe Pitching

An individual horse shoe pitching tournament is held in the fall. The winner and runner-up receive team points. Other girls who keep their practices up and participate in the tournament receive squad points. Horseshoe pitching is offered in the spring for intramural.

MISS HINDERMAN

Track

W. A. A. track aspirants practiced steadily throughout last spring quarter. The track meet at the end of the quarter was held in connection with the W. A. A. play day. All girls taking spring sports could participate but only girls who had been out for track throughout the season could receive W. A. A. points. The Sophomore class easily won the meet. The Freshmen were second and the Seniors third. Mary Murphy, Freshman, was high point winner in the meet.

Hiking

Forty-five girls kept fit last fall by signing up for hiking and taking the organized hikes.

Two hikes are taken each week increasing in length, and the season ends with a ten-mile hike in the form of a picnic. Girls who take all hikes receive 100 W. A. A. points.

Hiking is also offered in the spring and hikes may be taken before breakfast or after school. Many girls include nature study with hiking.

Intramural Sports

W. A. A. revised and enlarged its intramural program this year and now offers all W. A. A. sports for intramural competition. To encourage mass participation, the Association will present a large silver cup to the dormitory or sorority house having the highest percentage of girls participating in intramural sports throughout the entire year. A girl may take part in one sport only each quarter.

Last spring three sports were offered for intramural; horseshoe pitching, tennis, and baseball. South Hall won the horseshoe tournament for the third successive time which gave them permanent possession of the horseshoe cup.

Twelve baseball teams competed last spring in the intramural tournament, with West Hall defeating Chi Omega in the final game with a score of 12-9.

In tennis, the Pi Beta Phi doubles team defeated Chi Omega in the final game.

Silver traveling cups were awarded the winners in all sports.

Intramural Sports

Intramural hockey was offered for the first time last fall. Much interest and enthusiasm were shown in the intramural hockey tournament in which seven closely matched teams competed. In the final game, the Sorority Blue team defeated the Elm Lodge team 4 to 1.

The fall intramural tennis tournament was held in the Armory. Ten doubles teams competed. Oak Lodge defeated South Hall in the final game.

Twelve teams entered the basketball tournament. The Sorority Blue team (Alpha Delta Pi, Chi Omega, and Zeta Tau Alpha) won first place by defeating Margaret Hall in the finals.

The Home Economics Club was organized to unify the efforts of the girls of the Division and to stimulate their interest in Home Economics. The membership is about four hundred and fifty. The Club is affiliated with the Iowa and American Home Economics Associations, to which delegates are sent each year.

The Club carries on all the general activities of Home Economics students. The Home Economics Club picnic in the fall, the Home Economics Vodvil, divisional Open House at Veishea, the Iowa Homemaker, and contributions to the Catherine MacKay Memorial Loan Fund, the Ellen H. Richards Fund, Constantinople Women's College, and a gift to the new Home Economics Hall are activities of the Club.

The purpose of the Iowa State College League of Women Voters is to foster education in citizenship; to interest women in college policies and in the promotion of self-government and to instruct them how and when to vote.

Any woman connected with Iowa State College is eligible for membership. The business of the organization is carried on by a council which is made up of one representative from each organized hall and house on the campus.

Local Mortar Board of Iowa State College was founded November 1, 1914. Its purpose was to further democracy and good fellowship among the women of the college and to accomplish some permanent good for the college each year.

On February 1, 1925, the local chapter became the twenty-ninth chapter of the national organization. It is an honorary society for senior women in recognition of leadership, scholarship and campus service. Members are chosen in the spring from the junior class.

Phi Upsilon Omicron, National Professional Home Economics fraternity, was established in 1909 at the University of Minnesota. Omicron chapter was installed at Iowa State College June 6, 1926. Election to membership is in the upper two-fifths of the Junior and Senior Class with qualifications as follows:

1. What is her professional attitude?
2. In what activities has she taken part?
3. Does she have qualities of leadership as shown by her participation in activities?
4. Has she a spirit of service?
5. Does she show judgment and reliability?
6. Has she qualities indicating a force in the professional world and community in which she may reside?

Interfraternity Council

The Interfraternity Council is the governing body of the national fraternities at Iowa State College. It is composed of one representative from each of the subscribing chapters of the general national fraternities at Iowa State, and two representatives from the Faculty-Fraternity committee.

Besides controlling all Interfraternity relations, the object of the Council is to study various campus fraternity problems, initiating and fostering whatever tends towards the best growth and development of the fraternity system. To further this work the Council each year sends a delegate to the National Undergraduate Interfraternity Conference in New York.

Men's Dormitory

The first of a series of dormitories for men at Iowa State College was completed and opened for use in September, 1927. Into it have been incorporated the best available ideas for making an ideal college home for freshman men where they may eat, sleep, study and come in contact with one another under favorable conditions. This is a definite effort to help the freshman in making the necessary adjustments to campus life which are always difficult.

The building is divided into three units, Alpha, Beta and Gamma, each separate from the other. About forty men can be accommodated in each of these units, which insures a group large enough to inspire a group consciousness and yet small enough to provide good fellowship which all may share.

Mrs. Thomas McDonald is house mother for the entire dormitory, and each unit has a senior advisor—Alpha, Russell R. Wood, Dairy, '28; Beta, John W. Slem-

ALPHA SECTION

TOP ROW, left to right: Wilbur L. Juhl, L. Doyle Hammer, Ho M. Brown, Marion Van Nimwegen, Roy W. Pearson, Richard S. Vint, Carl F. Peterson, Leo F. Mardesen, David M. Ich, Albert F. Dodge, Wayne B. Hardman, Roy A. Resseque, Edward M. Bear.

SECOND ROW, left to right: Jack Pullan, Ervin J. Schmuecker, Wilbur R. Vandemere, Homer K. Dommel, Glenn E. Crippen, Leon B. Kinsey, C. Harold Staff, John R. Morrison, Emil R. Ekstrom, Ernest W. Paulsen, William S. Kubicek, Russell R. Wood, Kenneth M. Kreszek, Charles A. McKay, James Pullan.

mons, Agricultural Economics, '28; Gamma, C. Eldon Jones, Landscape Architecture, '28. This staff is ever-sympathetic and effective in promoting the interests of those in the dormitory.

The men have been given the greatest possible freedom in working out plans for self-government. Each of the three units has its own organization and there is a central committee which takes care of matters pertaining to the entire dormitory. The dormitory men have proven that they are able to manage themselves in a very creditable manner. In the next three years they can be depended upon to loyally uphold and maintain the ideals and traditions of Ames.

Only those who have served can appreciate the effort, the tiring exactness of accuracy, the hours spent in interviews, writing and matters of compilation, expended by a loyal staff, with the underlying motive, and that alone, of producing for the student body and faculty a salient, consistent year book por-

traying to the fullest extent possible the spirit and life of Iowa State College.

It is to this group who for the past year have given most generously of their time and abilities for the producing of the annual that the Bomb Board awards their recognition for service—The Bomb Key.

Eta Kappa Nu is the honorary fraternity of Electrical Engineering. The organization was founded at the University of Illinois in 1904. The Nu chapter was installed at Iowa State College in 1916. The organization was founded for closer cooperation among the students and others in the profession, who by their attainments in college or in practice manifest exceptional interest and marked ability in Electrical Engineering.

Phi Kappa Phi was established to provide for an honor society dedicated to the unity and democracy of education open to honor students of all departments of American Universities and colleges. Its prime object is to emphasize scholarship, the character in the thought of college students, to hold fast to the original purpose for which institutions of learning were founded, and to stimulate mental achievement by the prize of membership.

Members are chosen from the upper one-fifth of the graduating class and from the graduate school upon departmental recommendations.

Founded in 1900 by Ossian E. Mills and a group of associates at the New England Conservatory of Music, Boston, Mass.

The local organization, Beta Mu, was founded by eight band members who were prominent in music. This local fraternity was installed as Alpha-Delta chapter of the national organization on December 12, 1922.

The purpose of the fraternity is to foster interest and activity in the musical organizations on the campus, and among students interested in music.

Pi Mu Epsilon, Mathematical Fraternity was founded at Syracuse, N. Y., in 1914, by Prof. E. D. Roe on May 25 of that year. It is a fraternity based only upon interest and achievement in Mathematics.

The local chapter was installed on April 25, 1923, and now has eighty-five active and Alumni members. The membership is numbered from students of Engineering, Chemistry, and Physics, as well as Mathematics.

The Porpoise Club of Iowa State College, was organized in 1921 in response to the need for some means of promoting swimming activities. Since their organization the Club has contributed materially to the growth of swimming into a major sport at Iowa State, and under the influence of the swimming coach, C. E. Daubert, they have promoted the development of the Red Cross Live Saving Corps.

Membership is limited to those who show outstanding ability and an active interest in swimming. College women and others, of marked prominence or interest in swimming, may be admitted as honorary members.

Scabbard and Blade, a National Honorary military fraternity, was founded in 1905 at University of Wisconsin. In these past twenty-three years, it has grown until now it includes over sixty chapters in practically every state in the union. The local chapter became national in 1915 and has seen active service since that time. Membership is restricted to those men taking Advanced Mil-

itary and who have shown exceptional qualities of leadership and command so necessary to a successful officer. The purpose, as stated in the preamble of the Constitution, is to develop those qualities which go to make good efficient officers, and above all, citizens who can take their rightful place in the affairs of the community in which they may reside.

---------------	------------------	---------------

Sigma Alpha was organized at Iowa State College in the Spring of 1926. The major purpose of the organization is to further the cause of better agriculture on the farms of the state to the end that 100 per cent of the farmers will farm scientifically. The minor purposes are: to increase the prestige of agricultural education among members of the teaching profession, to promote closer cooperation between those engaged in agriculture work in the field and those in college, and to

impress on agriculture education students the extreme importance of the departmental club.

There are two groups of members: resident, and field. Resident members are just what the name implies, and field members are those who are in the field furthering the cause of scientific agriculture.

Membership is based primarily on service and secondarily on leadership and scholarship.

Sigma Delta Chi is an international fraternity of men whose intent and life work is journalism. It was founded at DePauw University in 1909 and now has 40 chapters. Its members are chosen from students who have signified their intention of going into journalism after graduation. The Iowa State Chapter carries on the Gridiron banquet each spring, awards cups for the best news story and editorial in country newspapers of Iowa, awards banners to the Iowa college papers having the best front-page makeup, and recognizes the outstanding journalist of the campus each year by presenting him with a gold watch.

This organization was founded at Cornell University in 1921. The chapter at Ames was installed in 1925. In addition to these two chapters, there are now chapters in New York City and the following Universities: Wisconsin, Missouri, Illinois, Chicago, Brown, Ohio and Nebraska.

The object of this organization, as stated in the constitution is to further interest in science, to provide a society for the recognition of women in science and to bring them together in fraternal relationship. Members are chosen from faculty and graduate students who are doing research work in science.

Sigma Upsilon was founded by a union of four similar organizations in four different universities: University of the South, Vanderbilt, Randolph-Macon College, University of Georgia. It has about forty chapters well distributed over the country. Kappa Lambda Alpha chapter was formed as a local on the Iowa State Campus in 1924. It

sponsored the publication of the first volume of the "Ames Narratives." Membership is restricted to students who have completed their composition work, who show outstanding interest and ability in writing, high scholarship, as well as having good personal characteristics.

 DAVID SPRAGUE _____ *Sec.-Treas.*

The American Society of Agricultural Engineers is the National organization representing the Agricultural Engineering profession. Its purpose is to promote intercourse among engineers in its field, and to encourage research and development in the fields of farm power and machinery, farm structures and sanitation, land reclamation, and education. The society was organized at the University of Wisconsin in 1907. Iowa State has been a pioneer and long recognized as leader in this field, and has always had an active part in the National Organization. The society maintains student branches in schools where professional instruction in agricultural engineering is offered. The Iowa State student branch carries on its meetings in connection with junior and senior seminar and sponsors many divisional activities, as well as the interests of the parent society. A monthly magazine, namely, "Agricultural Engineering," is the official publication of the society.

Iowa State College Student Branch of the American Ceramic Society

The organization was founded during a convention of the National Brick Manufacturers' Association in 1898. It was founded for the purpose of studying ceramics from a scientific standpoint, and to increase a student's technical ability along ceramic lines. A banquet is given at the beginning of each school year, the purpose of which is to introduce the new students, and to create a better fellowship between the faculty and the students.

The A. I. E. E. is a nation-wide professional society for Electrical Engineers. It is composed of engineers who have had varied experience and training and hold ranks accordingly. These ranks are Honorary Member, Fellow, Member and Associate. The purpose of the student branches is to afford opportunity for the student to gain a proper perspective of engineering work by enabling him to become acquainted with the personnel

and the problems of those engaged in it.

Any person registered as a full time student in a university or technical school of recognized electrical engineering may become enrolled. Membership is, however, generally restricted to Juniors and Seniors.

The local branch sponsors E. E. Smokers, technical lectures, educational pictures and the Electrical Engineering Open House at Veishea.

American Society of Civil Engineers

OFFICERS

WALT C. OHLSEN	<i>President</i>
HARRY BLAZEK	<i>Vice-President</i>
ROBERT E. LUNDGREN	<i>Sec.-Treas.</i>
F. B. STREEPY	<i>Junior Engineering Council Rep.</i>
PROFESSOR A. H. FULLER	<i>Faculty Advisor</i>

The Civil Engineering Society was organized in the Fall of 1910, having had for its object the rejuvenation of the old junior and senior seminars which were gradually losing their popularity and value. It was felt that more good could be obtained from addresses by prominent engineers than was being derived from student papers presented before the old seminars. Since the society has been organized, it has instigated and sponsored many divisional activities besides carrying out the purpose for which it was founded.

The Civils were the first to adopt a distinctive shirt and insignia, worn only by juniors and seniors as a recognition mark of the department. This custom has been followed for seventeen years and in the past few years it has spread to other departments of the college.

Block and Bridle is a national organization of Animal Husbandry students. It was founded in 1919 at Chicago by the livestock judging teams of Iowa State, Missouri, Kansas and Nebraska. At the present time there

are nine chapters located at the agricultural colleges of Nebraska, West Virginia, Kansas, Missouri, Oklahoma, Kentucky, Pennsylvania and Iowa.

The Forestry Club aims to develop a spirit of comradeship among Ames Foresters; to create an interest in topics relating to forestry among students of the department; and to provide for the publication of an annual magazine. This publication is of a semi-technical nature dealing with the activities of the club, and alumni.

This organization was founded in the spring of 1912 and every student enrolled in technical forestry is eligible for membership. The recognition of the group, which was adopted in the fall of 1914, is the official "stag shirt," bearing the Forester's emblem, the pine tree.

Society of Industrial Engineers

OFFICERS FOR 1927-28

LAMBERT P. SCHOLTES _____ *President*

HERBERT F. ENGELKING _____ *Vice-President*

JUSTIN M. CHEVALIER _____ *Sec. and Treas.*

WALLACE M. STANTON,
Junior Representative to Engineer Council

The Society of Industrial Engineers is a national organization of Engineers engaged in the manufacturing industries. Membership in the student branch at Iowa State is limited to Sophomores, Juniors, and Seniors who are enrolled in General Engineering.

Meetings are held weekly. The usual order of business consists of reports of special interest to General Engineering students, but this is frequently varied by a talk by some noted speaker.

Ames Herdsmen's Club

W. F. LA GRANGE	J. C. HOLBERT
C. A. BURGE	

The Herdsmen's course is a two-quarter course given only in the winter quarter of the college year. It is planned for those who are primarily interested in good livestock, and who have only a short time to prepare themselves to care for livestock. Those who finish the course go out as herdsmen for breeding establishments, supervise cow test associations or go back to their own livestock farms.

The Herdsmen's Club is for the purpose of furthering the interests of the members in an educational and social way.

TOP ROW, left to right: Holsinger, Hardy, Lantz, Pickett, Maney, Loomis, Coddington, New, Pickett, Jr., Volz, R. Robinson, Reisinger, Abbot, Richey, Lounsberry, Williams, Emmert, E. Robinson.

The Horticultural Club is one of the oldest departmental clubs on the campus. All students and faculty members of the department are eligible to membership. Meetings are held on the first Wednesday of every month.

Its purpose is to bring about a more personal contact between students and faculty, to develop leadership, to give students experience in conducting meetings, and to develop them socially.

Every fall quarter the Club sponsors the Horticultural Show, in the winter quarter the Horticultural Banquet, and in the spring quarter the Horticultural Picnic.

The Agriculture Education Club is the organization of the Vocational Education Department. Its members consist of the students and faculty of the department and anyone interested in the teaching of high school agriculture. The purpose of the club is to foster the interest of this group of men while on the campus; to bring them together and make them better acquainted with each other; to give practice in cooperation, and to bring them into a closer contact with the members of their profession at work in the field.

The Veterinary Medical Society, founded in 1896, is the oldest student divisional organization on the campus. All the students enrolled in Veterinary Medicine are eligible to membership. All members of the society are automatically Junior members of the American Veterinary Medical Association, thus forming valuable connections with the veterinary profession. Meetings are held fortnightly, elections bi-annually. Its purpose is to promote co-operation and better feeling between the students and faculty in the promotion of divisional spirit and activity. The regular meetings permit students to hear valuable scientific papers read by noted people, to carry on the divisional activities, and to give students of talent an opportunity to function.

Vistonian Club

OFFICERS

DON BENSON *President*
 EDWIN JOHNSON *Sec. and Treas.*
 MAURICE HANSON *Vice-President*

The Vistonian Club is the Landscape Architecture Departmental Club, organized to cultivate fellowship, cooperation, and to bring before the members a wider viewpoint of their chosen field, and a closer relationship with the successful practitioners in the Landscape profession.

The major departmental activities sponsored by the Vistonians are the quarterly magazine of Landscape Architecture, "Horizons," and the National Intercollegiate Exchange Problems in Landscape Architecture.

Horizons ranks first among the Landscape periodicals published by the Landscape departments of the country. In the most recent Exchange Problem, which was the design of a Memorial Island Park, the 1928 Senior class in Landscape Architecture won five out of a total of seven awards, including both First Mentions Placed.

The staff of the department are thoroughly trained graduate Landscape Architects with broad experience in active practice, and as faculty advisors guide the departmental activities.

The Student Council of Collegiate Methodist Church and the Wesley Foundation consists of the officers of the several organizations having in charge student activities, social, recreational and religious. The Council was organized in 1913, when Rev. William Hunts became the first Director of the Wesley Foundation. Officers of the Council are elected in the spring quarter of the school year and serve for the ensuing year. A three-day "Retreat" is held prior to the opening of the fall term, during which time plans of work are formulated.

The activities of the church, both religious and social, are open to all students of the college. They are under the direction of Dr. Boozer, a number of faculty people, and the students themselves. The students are afforded every opportunity to take part and assume responsibility in the religious life of the college.

National Kappa Beta (formerly known as National Bethany Circle) is a fellowship of Christian Church girls of state universities and colleges. It was organized at Champaign, Illinois, in 1911.

The purpose of the organization is to establish and maintain a friendly relationship among Christian Church girls and interest them in church activities.

Eta chapter received its charter in May, 1925.

Frisbie Fellowship is an organization of all Congregational Students of Iowa State College. Frisbie House, the student center, is maintained by the Iowa Conference of Congregational Churches, which also supports W. Norris Wentworth, who gives his full time to the work. The program includes both religious and social activity. The aim of the organization is to furnish a church home for the student while he is in college. The work is under the direction of Henry K. Hawley, minister of the First Congregational Church of Ames.

The Newman Club

OFFICERS

Wesley Players was organized as a local in 1923, and a charter member of the National Society of Wesley Players organized in 1925. There are at present seven chapters located in Wesley Foundations at college and university centers throughout the country. Membership is made up of young people interested in drama as it relates to the educational and religious life of the Methodist Episcopal Church, and have met the participation requirements of the organization.

The Sophomore Y Club is an organization made up of Sophomore men who believe in the principles upheld by the Y. M. C. A. It was founded for the purpose of providing a means for fellowship among these men and to afford a place where worth-while topics could be discussed in a frank and open-hearted manner. It cooperates with the Y. M. C. A. in carrying out its program on the campus.

Reserve Officers Training Corps

By being rated as a "Distinguished College" in 1927, the third year in succession, Iowa State College has shown that the work in its Military Department is of the same standard of excellence as is found in its other departments.

So long as the Military Department continues to attract the highest type of students in its Advanced Course, and only so long, will it continue to bear this distinguished rating.

Pistol and Rifle Teams

Due to the organization of the R. O. T. C. division of Iowa State College the rifle team is recruited from the Engineer Unit and the pistol team from the Field Artillery Unit. Both teams fire many matches with other colleges throughout the season in preparation for their big match within their own service. Our teams are on the up-grade and now stand well at the top of the national rating. The rifle team placed fourteenth and eighth in the two National R. O. T. C. open matches, and second in the National Engineers match. The pistol team stood sixth in the National Field Artillery match. To date the rifle team has won 24 of 30 matches fired against schools in all parts of the country.

M. E. HELD	_____	<i>Secretary</i>
R. B. SCHERR	_____	<i>Treasurer</i>

The Cadet Officers Association was organized with the idea of uniting the men who had elected the advanced course in military training and the officers of the regular army who have been stationed at Iowa State College as instructors.

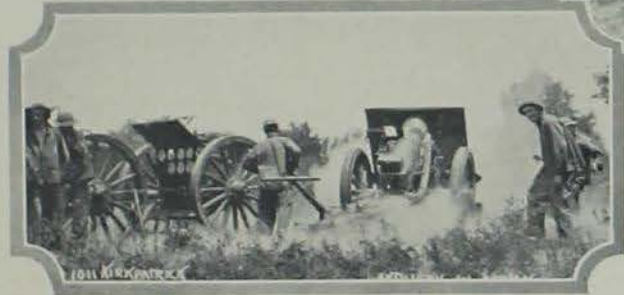

The high standing of the Military Department in the past few years has been due in a great part to the general interest and willingness to cooperate of the men in the Corps of Cadets. Through this spirit of cooperation Iowa State has maintained her place as a "distinguished college."

The Cadet Officers Association sponsors the Military Circus, which is presented during the winter. This year the circus offered a crack drill stunt and an excellent act of horsemanship, which created general comment among the students.

719 BOMB 1921

A Freshman's Soliloquy

I'VE BEEN BAWLED
OUT, BAWLED UP,
HELD UP, HELD
DOWN, BULL DOZED,
BLACK-JACKED, WALKED
ON, CHEATED, SQUEEZED,
AND MOOCHED. I'VE
BEEN STUCK FOR WAR
TAX, MEMORIAL TAX,
CHAPTER TAX, DOG
TAX, AND SYNTAX.
I'VE WORKED LIKE
HELL, HAVE BEEN
DRUNK AND GOTTEN
OTHERS DRUNK; LOST
ALL I HAD AND
PART OF MY CLOTHES;
AND BECAUSE I WON'T
SPEND OR LEND ALL OF
THE LITTLE I CAN BEG,
BORROW, OR STEAL,
I'VE BEEN TALKED
TO, TALKED ABOUT, LIED
TO, LIED ABOUT, HELD
UP, HUNG, ROBBED,
AND DAMN NEAR RUINED;
AND THE ONLY
REASON I'M STICKING
AROUND NOW IS
TO SEE WHAT THE
HELL IS GOING
TO HAPPEN NEXT!

—EXCHANGE.

Rules and Regulations Governing the Personal Conduct of Gentlemen Residing at the Men's Dormitory

Gentlemen wishing to engage rooms in the Dormitory must agree to the following rules prescribed by the governing board and Tommy Sloss:

Form A.

Gentlemen are requested to bring their own smoking sets, including portable fire extinguishers.

Gentlemen are requested not to use their rooms for practicing putting; the halls are designed for this.

No stills will be permitted in rooms. Sigma Chi pledges will be allowed one barrel of pickles to each room.

Headsets shall be used with radio apparatus. We cannot be responsible for injury to students who persist in tuning in on lectures.

Form B.

Gentlemen are requested to call their professors before eight p. m., as no student will be allowed to call women after that hour.

Gentlemen wishing to talk to their washladies must limit the number of kisses sent her over the telephone.

Long distance calls for money must be sent collect. Forcibly removing the phone from the wall is not permitted excepting in extreme cases. Gentlemen shall give full report of reason for destruction.

Form C.

When leaving the hall, the signing-out book must be filled out according to the following:

Where are you going? (If you are going nowhere in particular, say so).

Why are you going with the person you are going with? Is she the only one you could get?

Give lady's address in case of emergency.

Gentlemen are not permitted to date their roommate's steady.

Only three keys will be allowed each gentleman per quarter.

Forgetting which door to come in will not exclude gentlemen from sleeping on the roof. Mrs. MacDonald will positively not be responsible for gentlemen who climb the fire-escapes.

Form D.

Dirty hose must not be aired on the fire-escape. (The governing board objects to the odor).

Any gentleman caught sending the silverware home in his night shirt will lose the privilege of third helpings.

Gentlemen who object to having their ties worn by other students will please have not more than one tie.

Above all, it is the hope that every gentleman reserving rooms in the dormitory will remember that he is only a freshman once, and therefore is not expected to take very good care of his room.

*“Turn backward, turn backward,
O Time, in thy flight” -----*

FOR years to come those whose college records are written on these pages will be thumbing through them, paraphrasing in their minds the sentiments expressed in these lines. Yet, cherished as this yearbook will be, it is quite ephemeral, compared to the unforgettable memories of Iowa State.

A quiet little college town, with the college atmosphere clearly dominant; a campus with long sweeps and generous vistas; permanent buildings, housing the best scientific equipment; and a faculty ever-alert to its job, ever-friendly in its attitude. Such a combination surely makes an unwritten book of college memories.

Pirates Then—And Now

When pirates roamed the seven seas
And plundered straying ships,
Full many a pirate maid strolled by
With bludgeons over her hips.

The pirate maid was fair and bold
And not afraid was she
To push a luckless sailor lad
To the depths of the seventh sea.

'Twas gold the pirate maiden craved
She'd make men walk the planks
When gold was scarce nor plentiful
She never offered "Thanks."

The modern pirate maiden now
Has less than guns upon her hips
And still the wary male she seeks
Who sail about with four-tired ships.

The name has changed but still the men
She forces to walk the planks
She digs; when gold is scarce or gone—
A pirate maiden still—sans thanks.

Gold Digger's Contest

With the cooperation of several well-known fraternities, the following is the result of the gold-diggers contest:

1. Kappa Delta	99 99/100
2. Alpha Gamma Delta	99
3. Gamma Phi Beta	98
4. Pi Beta Phi	97
5. Delta Delta Delta	96
6. Zeta Tau Alpha	95
7. Sigma Kappa	94
8. Sigma Delta	93
9. Alpha Delta Pi	92
10. Phi Omega Pi	91
11. Chi Omega	90
12. Very Honorable Mention	
All of the Dormitories.	

A Gold-Digger's Credo

Gimme the man, a jug of booze,
Gimme the car, I don't care whoose,
Gimme the dark of a quiet lane,
Any old time, it's all the same,
Gimme the thrill of a long-held kiss,
Gimme the thrill the other girls miss,
Gimme most everything, except advice,
I'm bound to be naughty, you can be
nice.

I'll be happy if: He has
A Moon
A pint
A kick
A thrill
and
A million dollars.

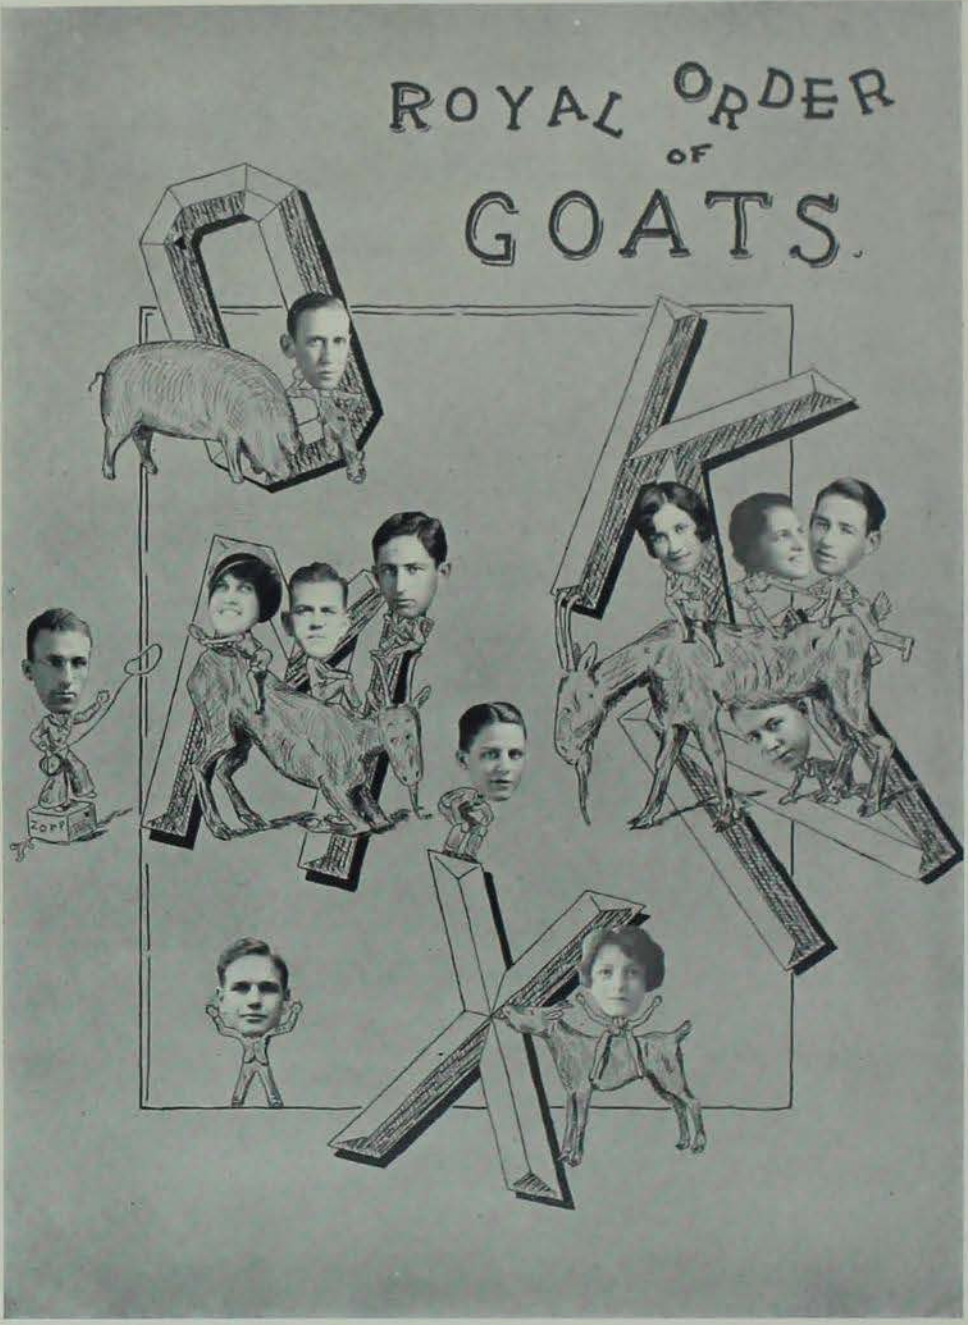

Pale Moon to Grape Juice
Soaked with a Coke,
Headache and Hangover,
And a student dead broke.

Just because a girl is a minor is no
sign she's a gold-digger.

ROYAL ORDER OF GOATS.

IS THIS SPIKING?

We see the Lambda Chi Alphas get acquainted with their prospective pledges early in order to avoid the fraternity rush.

Freshmen! Beware!!

Forever keep your bone-encased vacuums smothered with the red caps. Smile at your peril, you unwashed babe, anywhere at any time.

Remember, you idiots, no assembling either in public or private.

Each time when in the presence of the lordly class of '30 or upper classmen, humbly bend your knees and press the button on your cap.

Stay clear from all places of amusement; Varsity, shows, confectioneries, etc., shall not be contaminated with your lousy presence.

Hell shall descend upon your lowly carcass if you should dare to appear upon the field when a class fight is to be held.

Moreover, obnoxious cake-eater apparel such as: Tiffany hardware, damnably flowing ties, or red tuxedos shall not bedeck your putrid slimy awkward skeletons.

Each of you creeping atoms of lowlife humanity caught in the company of any of the fairer sex of any tint, dimensions, age, or deformities, shall be submerged in a seething abyss of hell fire.

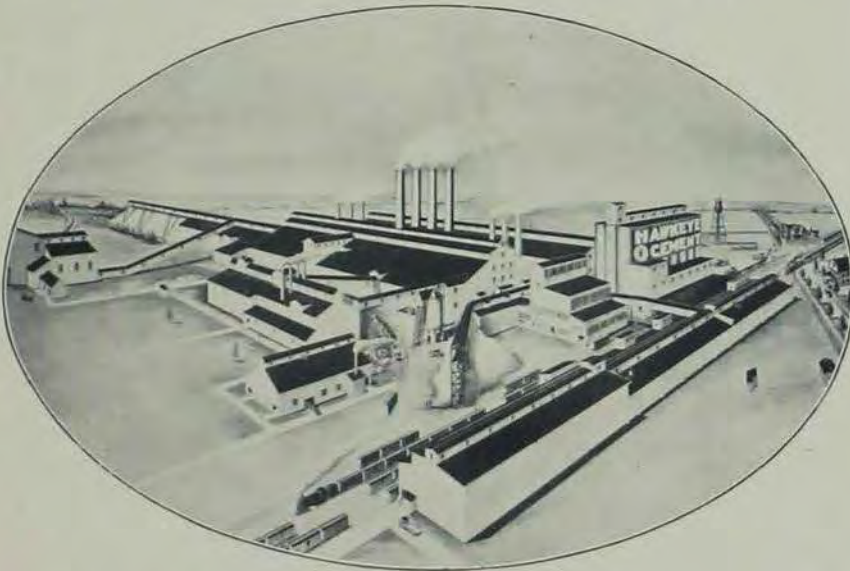

Never be caught out of your domiciles after the blanket of dusk has fallen, but keep your nose between the covers of your books.

God be with you until you are civilized!!

—Exchange.

HAWKEYE CEMENT

has been chosen by contractors on paving and building projects—both large and small, because it has always been on hand as ordered, and has not delayed work. Also because it is better than specifications—uniform in color, and always dependable. Des Moines is served by nine railroads, insuring quickest possible delivery.

Banter's Greek Exchange

A young tri-delt danced up to me;
Her brown eyes promised not to tell me nay—
Oh, stricken cold and dead lies Henry Lee.

Judge! It was then I heard my roommate say,
"Wake up, you'll miss that test in History,"
'Twas then I killed him; punish me you may;
But stricken cold and dead lies Henry Lee.

"In the old days, if a co-ed wore a fraternity pin, she was engaged. Now, wearing a pin merely means necking privileges."
"Yes, but who ever saw a girl wearing 30 or 40 fraternity pins?"

Phi Delt Prep: "I can't find Tri Delt in this herd-book."

Pi Phi pledge intelligence test:
Q. "What is it that you eat on, sit on, dance on, run away from, and brush your teeth with?"

A. "Kappa Sigma; Phi Delta Theta; Sigma Chi; Beta Theta Pi; and tooth brush, respectively."

Adelante: "Well, did you get expelled?"
Sig. Chi: "No, the Governing Board was behind me."
Adelante: "How did that happen?"
Sig. Chi: "I went up before it."

"That was a good party the Phi Psi's threw last night."
"Tell me about it."
"I don't remember anything."

"Why all the hurry, it's only eleven o'clock?"
"I gotta get to the K. D. house before all the corners are taken."

"This will be a painful end," said the Sig Chi pledge as he assumed the conventional angle.

Phi Psi Prep: Doctor, can I get an excuse from military? I don't hear well."
Doc: "You can hear me talking now, can't you?"
Prep: "Huh-uh."

We don't believe in Santa Claus,
We don't believe in College laws,
We don't believe in 'Frat's' because,
We're Phi Deltas.

Overheard at the Sigma Kappa House:
"And then Hal lost his head and kissed me."
"Oh, I thought something was wrong with him."

He—"What did you pledge?"
She—"Delta Delta Delta."
He—"I heard you the first time."

Rushing Note—"Sigma Chi lost Company B to the Pi Kappa Alpha."

"In numbers there is strength," cried the S. A. E. as he heard the national had just granted their hundred and twenty-fifth charter.

Teamwork Will Win!

The teamwork of your football eleven is a fine example of how cooperation is winning in business.

The Manhattan Oil Company, producers, refiners and marketers of gasoline, oils and greases, has a system of teamwork that starts in the oil fields and ends with the personal contact at the service station.

Manhattan's Man-Go Gas and Trop-Artic Oils and Greases are favorites with Iowans. They are refined up to a standard. Teamwork maintains that standard all through the organization.

Tiny Tales for Tiny Tots

(By CAMPUS CELEBRITIES)

Betty Barker:

Ah!—Ah!—Ah-h-h I-ah—Just heard the most thrilling—Ah—Sto-ah-story—It was—you—ah—it—you won't believe it—ah—but it was about three bears—Yes—Honest!! One was—a Gruff—Ah! Ah-h—old bear—and ah—he was the papa, and the next—was the darlingest old mamma bear—ah-ah—well—you know—I am just thrilled to tell it, then the Mrs.-ah-Oh, the darlingest little bitty, bear—Ah-etc. etc. far into the night.

Fonny Vontracs:

Hee! Hee! I know something, bet you don't—there was once the slickest family of bears—papa, mamma, baby—cute?, now I hope to tell you—

Anita Andrews:

Now girls—Ahem!! This is my point—as you all know, and I should surmise you would, for someone must of told you, as I was saying, this is my point—ahem—ahem!! There were bears, by number three, father, mother, and offspring, respectively—and as I was saying, my point is—etc.—

Ann Foulke:

Now, goilie, gather round and hear me yodel a tale your mamma used to tell. Picture a home witt' three bears—you betcha life! Say kid, among them three animuls was a he, a she, and a—er—dumbell of a cub—

Jean McKee:

Three bears, Mr., Mrs., and child, were last seen near north woods, according to the last reports of their whereabouts. Finders please call 1363.

Jane Adams:

I don't know—I don't think I've ever heard the story of the three bears! What is it? Oh, yes, is it the same as Goldilocks? Oh, yes, but now children I shall tell you the interesting story of the big papa bear who was oh—oo—oo—oo—so mean, and his poor little wife was so scared of him, but his baby wasn't—etc.

Mrs. Schilleiter:

All right now! There were three bears—old middle, and young—get me! All right, don't forget it! I mean business—

Professor Atkinson:

I pre-re-sume that each of you is-s-s familiar more or less-s-s with uh! the story of the ah-ah—beaherrs-s-s. Theah—es-s-s beaherrs numbered about three: the first being ah-ah very lawge creature, the second being a beah of lessah-s-s proportions and the last a very wee, little creatuah—ah—yes-s-s-s.

Professor Noble:

(Deep, gruff voice. On hands and knees)—Gr-r-r-r! I am a big bear! A father bear—gr-r-r! A mother bear am I now—What is it dear (sympathetically) Boo Hoo!! (Tears streaming down cheek) (high, shrill voice). I am a litty, bitty, bitty bearlet. (still on floor).

Maria Roberts:

3 bears, A, B, and C equals 115 pounds.

115 divided by 3 equals 38 pounds each

But: Bear A weighs 35 pounds more than Bear B, while Bear C is 25 pounds under the mighty bear B.

Therefore: Bear A equals 70 pounds; Bear B equals 35 pounds, Bear C equals 10 pounds.

Just to show how superior education is:
J'espere que vous mous ferezet 'amitie
de benir diner avec nous de demain en
quinze.

Mille regrets, chere madame, mais je
dois justement ce jour-la assister aux ob-
seques do ma pauvre tante.

Let me get some flowers to go with
your dress tonight. What color is it?

I think I'll wear my orchid dress.

Fine, now what color do you think would
make a good contrast?

This institution resembles a labor col-
lege. If the profs don't try to work the
students, the students try to work the profs.

"I sure have got a Case on you," said
the farmer as he ran over his wife with
his new tractor.

Beta: What was that loud report we
heard the night before the exam?

Tau: That was me cracking my book.

Don't you love the boys at this college?
No, I let them do it.

Why do they call you Bill?
I was born on the first of the month.

Why should I lend you five bucks?
For sentimental reasons.
How come?
I got a date.

MODESTY

A boy stood back on the gallery floor
At the naughty girlie show,
And cast his earnest glances o'er
The bald-headed sin below.
"I'm too far back," he sadly said;
Yet he dared not forward go,
For he saw his aged father's head
First in the foremost row.

A Personal Shopping Service for Students

A SERVICE that provides an easy way for college students to keep up-to-the-minute. And you'll find it most economical when you shop-by-mail from Younkners!

Jane Wildner, Younkners' personal shopper, is always at your service—always happy to solve your shopping problems. A letter or phone call will start her on a trip through the store; promptly she will fill your order.

But Jane Wildner is more than a personal shopper—she is a fashion authority—her selections are made with utmost taste. You are assured always of "Style-Rightness."

And, of course, "Satisfaction Always" goes with every purchase, for that is the Younkner idea. Write or phone to her, briefly stating your wishes, and you, too, will be a regular patron of our personal shopping service.

—Fourth Floor; Eighth St.

Younkner Brothers
HARRIS-EMERY
DES MOINES, IOWA

Bashful: Do you mind if I kiss you?
(No Answer).
Bashful: Would you care if I kiss you?
Wise Sister: Say, do you want me to
promise not to bite?

Sigma Kappa: What kind of a dress
did Sally wear at the party last night?

Kappa Sig: Oh, I don't recall; I think
it was checked.

S. K.: Hey, Hey—what kind of a
party was this?

You shouldn't refuse to loan money. A
brother should always help another.

I know it, but you always insist on being
the other.

Women aren't so much, but unfortunat-
ly, they are the only other sex we have.

Distressed Prof: Why don't you answer
me?

Frosh: I did shake my head.

D. P.: Well, do you expect me to hear
it rattle clear up here?

A conductor fears no one. He tells
them all where to get off.

You can take your finger off that leak in the pipe now father.

Thank heavens, is the plumber here at last?

No, the house is on fire.

She was only the gas man's daughter, but you ought to meet her.

He: Mabel says that she thinks I'm a wit.

She: Well, she's half right.

If I kissed you, would you call your mother?

I'll say; she bet me five I couldn't make you.

What are you smoking?

A White Owl.

I thought so; I thought I smelled feathers burning.

She: Several men proposed to me before I married you.

He: Why didn't you marry the first fool that came along?

She: I did.

Early to bed and early to rise
Keep your roommate from wearing your
ties.

Late dates don't mean as much as they
used to. Nowadays they just serve as an
excuse to get out of the house for a few
quiet puffs before retiring.

We must be cautious these days even
when we take our daily dose of castor oil.

If roommates were made to order:

He would always have a ready supply
of cigarettes, spending money, tooth paste
and shaving cream.

He would wake up every morning with-
out the aid of an alarm clock, and would
give you half the covers in cold weather.

He would possess an over-supply of
clothing, and wear the same size you do.

He would convince the operator there
was no overtime when you finished call-
ing your "sweetie."

HERE'S A GOOD JOKE HEARD IN THE SCOREBOARD

A happy student walked into Beany's one night and asked for a ham sandwich and a malted milk without any flavor.

"What flavor do you want it without?" grinned the waiter.

"What kinds have you?" returned the student, sensing the humor.

"Chocolate, vanilla and pineapple," was the reply.

"I'll take mine without chocolate."

A minute or two later the waiter came back to the booth grinning from ear to ear. "I'm sorry, old man," he said, "but we're out of chocolate."

KANSAS CITY, MISSOURI

To a Loyal Staff

YEARBOOK . . . to the average reader is just another annual with its usual quota of mistakes, a few good pictures here and there, familiar faces, and well known scenes.

When the book makes its debut, what is the first thing you look for—art work, composition, stock? . . . no, your first act is to surreptitiously search the index to ascertain how many times your name and picture appear among the pages, and then you proceed to look yourself up, as though making a new acquaintance.

Following this there comes the usual amount of criticism, and rightly; for this book nor any other is not without errors, mistakes are frequent. When you carelessly turn the pages of this new book, do you ever stop and consider just how much of someone's time and thought was given to the making of a book as large as the Bomb? Do you think of hours spent by someone in making decisions that will make this book different from those that have gone before; that will make the Bomb of '28 and outstanding annual? Do you realize that those responsible for the Bomb were also registered in college, and were getting from the book such returns as come from the joy of doing a given piece of work . . . and doing it well?

It is to those persons that I am grateful and without whose help the publication of the Bomb would have been impossible. There were many who gallantly signed up for work on the Annual with the first call for recruits; winter quarter saw this number dwindled to a smaller number, spring quarter . . . and the promising staff was cut in half.

There are always some who are reliable, who once given a job go through with it to the end realizing what the failure of that one job, mean though it is, would do to the entire book of which it is only a small part. There are others who do not realize that team work wins, that team work makes any task a success or failure.

It is to those who have stood by, although the treasure chest seemed especially heavy at times, and scholarship threatened to break, to those who have given willingly of their time and their assistance to the realization of their college annual that I wish to express my sincerest appreciation. It is to these that I owe my gratitude . . . to a loyal staff.

VIRGINIA ALEXANDER.
